Jim Knight: The following tables set out the numbers of primary and secondary maintained mainstream schools which have closed in Cambridgeshire, Cumbria, Devon and Cornwall, Durham, Gloucestershire, Lincolnshire, Norfolk, North Yorkshire, West Mercia and Wiltshire. The tables include cases in which decisions were taken under the local decision-making arrangements which were introduced in September 1999. Information held on proposals that were decided under the arrangements that operated prior to September 1999 is not reliable and has therefore been excluded. The National Assembly for Wales is responsible for schools in Dyfed and Powys.

The tables include the reasons for closure. The numbers shown in the column headed 'Cease to Maintain' indicate closures where the schools have not been replaced by new schools. In all other cases a replacement school will have been established (sometimes on the site of a closing school), or an amalgamating school altered, to accommodate displaced pupils.

(i) Cambridgeshire

Schools: Co-operation

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of whether there are financial benefits to schools of joining consortiums; and if he will make a statement. [200054]

Jim Knight: Although funding arrangements do not provide financial incentives to join consortiums, we believe that working in partnership offers schools the opportunity to deliver high-quality educational provision for best value. Indeed, working with other schools is fundamental to the delivery of key policies such as extended services and personalisation.

In autumn 2007 the Department commissioned a study to assess the activities through which schools can operate more efficiently. Collaborative working, through arrangements such as federations or consortiums, was identified as one mechanism in which schools may deliver improvements in value for money.

The merged governing body of a federation is able to make budget and staffing decisions jointly on behalf of all its schools. Working in a federation may allow schools to realise financial savings and provide better value for money. This could be achieved by employing shared staff, acquiring joint facilities and equipment, or rationalising duplicated functions.

Schools: Crimes of Violence

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many teachers were attacked on school premises resulting in hospital treatment in each of the last 10 years for which figures are available. [191303]

Jim Knight: The information requested is not collected centrally.

Schools: Data Protection

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many data records have been lost or stolen from school premises in the latest period for which records are available. [193377]

Jim Knight: The Department does not keep records of data losses in schools. Becta, the British Educational Communications and Technology Agency, supplies advice to schools on data security.

Schools: Drugs

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 19 February 2008, *Official Report*, column 583W, on Drugs: Schools, what information his Department holds on drugs in schools in *(a)* the North East, *(b)* the Tees Valley district and *(c)* the Middlesbrough, South and East Cleveland constituency. [198006]

Kevin Brennan: The Department does not collect centrally information on drugs or drug incidents in schools.

The Department's guidance, "Drugs: Guidance for Schools (DfES 2004)" makes clear that the possession, use or supply of illegal and other unauthorised drugs within school boundaries is unacceptable. All schools should have agreed responses and procedures for managing drug incidents, which are understood by all and documented within the school's drug policy.

Schools: Governing Bodies

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families what factors he took into consideration in determining the recently revised optimum size for a school governing body. [199542]

Jim Knight: The Secretary of State has not determined an optimum size for a school governing body. At present, governing bodies can vary between nine and 20 members (not including sponsor governors).

We believe that smaller, more highly skilled governing bodies, alongside improved governor training, will provide more effective governance for schools. As we indicated in the Children's Plan, we will be consulting stakeholders on reducing the size of governing bodies. Good governance and leadership is essential if we are to achieve better outcomes for all children and young people.

Schools: Heating

Mr. Dai Davies: To ask the Secretary of State for Children, Schools and Families if he will provide guidance for local education authorities on incorporating biomass-based heating and cooling in new build schools. [199701]

Jim Knight: Guidance on incorporating biomass-heating and other renewable and low-carbon technologies in new schools is provided on our website. Biomass heating has been installed in many schools, but biomass cooling has not been used. Schools have little demand for cooling, and where there is a need for cooling this can be achieved effectively using other low-carbon energy sources. The potential to use biomass for cooling in schools is likely to be limited to large scale community energy schemes serving mixed-use developments that include school buildings.

Schools: Sales

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many *(a)* former school sites and *(b)* parcels of land belonging to a (i) school and (ii) former school have been sold since 1997. [198653]

Jim Knight: We do not hold this information. Although local authorities and maintained schools in England need consent before they can dispose of a school playing field or any part of a school playing field, they do not require approval to sell buildings, or the marginal non-playing field land surrounding those buildings. Such decisions are made locally.

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many school sites

were sold (*a*) wholly and (*b*) partly in each year since 1992; and if he will make a statement. [199414]

Jim Knight: We do not hold this information. Although local authorities and maintained schools in England need consent before they can dispose of a school playing field or any part of a school playing field, they do not require approval to sell buildings, or the marginal non-playing field land surrounding those buildings. Such decisions are made locally.

The Under-Secretary of State for Children, Schools and Families my hon. Friend the Member for Cardiff, West (Kevin Brennan) gave a written statement to the House on 2 April 2008 explaining the measures that the Government have introduced to protect school playing field land.

Schools: Sports

Mr. Andy Reed: To ask the Secretary of State for Children, Schools and Families how much funding school sport received from (*a*) the national lottery and (*b*) the public purse in each year since 1997; and how much it is projected to receive in each year of the comprehensive spending review period to 2010-11. [194860]

Kevin Brennan: A breakdown of my Department's and Big Lottery investment in England in PE and School Sport from 1996-07 to 2010-11 is set out in the following table.

		£ million
Financial year	*Lottery*	*DCSF funding*
1996-97	—	0
1997-98	—	1.9
1998-99	—	3.6
1999-2000	—	4.8
2000-01	—	9.5
2001-02	10.6	14.6
2002-03	78.5	23.5
2003-04	139.6	78
2004-05	327.5	116
2005-06	75.1	155
2006-07	30.6	208.5
2007-08	[1]21.5	221.8
2008-09	—	234.8
2009-10	—	241.3
2010-11	—	246.3
Total	683.4	1,559.6

[1] To date

Lottery distributing bodies decide the nature and duration of lottery grant-making programmes, and make grants, independently of the Government and subject to their own criteria. No figures are therefore available for projected lottery funding.

Schools: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) which schools have been in Ofsted categories in each year since 1997; and for how long they were in such categories; [196624]

(2) which schools have been in Ofsted categories for more than one year in each year since 1997, broken down by local authority. [196625]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector Christine Gilbert has written to the hon. Member, and a copy of her reply has been placed in the House Library.

Letter from Christine Gilbert, dated 1 April 2008:

Your recent parliamentary questions have been passed to me, as Her Majesty's Chief Inspector, for a response.

Since 1 September 2005, there have been two categories of schools causing concern. These are:

'Schools subject to special measures'—those that, when inspected, were failing to give their pupils an acceptable standard of education and did not show the capacity to improve.

'Schools requiring significant improvement'—those that, when inspected, were performing significantly less well than they might in all the circumstances reasonably be expected to perform. These schools are issued a 'Notice to Improve' and judged inadequate but, unlike special measures schools, demonstrate the capacity to improve.

Prior to the launch of the new school inspection framework in September 2005, the categories included 'serious weaknesses', 'underachieving schools' and 'inadequate sixth form'. These categories no longer exist.

The names of all schools that have been in categories of concern since 2003, broken down by local authority, are published each term on the Ofsted website at http://www.ofsted.gov.uk. They can be found in the 'Publications and Research' section, under 'Statistics'. The direct link is:

http://www.ofsted.gov.uk/portal/site/Internet/menuitem.8e8ba064adeba4d8c3172a8a08c08a0c/?vgnextoid=93bc764e0f32b010VgnVCM10000960f430aRCRD

Beyond this, the data is not available in the form in which you requested it, and the information from 1997 to 2003 has not been published. This information, presented in the requested manner, is not readily available and could be provided only at disproportionate cost, that is something in the order of 50 hours work.

I am sorry not to be more helpful. If you could re-focus your request so that we could, as a consequence, reduce the work entailed in responding, we would do all possible to accommodate you.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Children, Schools and Families and will be placed in the Library of both Houses.

Schools: Swimming

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families how many and what percentage of schools in each local authority area in Yorkshire and the Humber offered swimming lessons to pupils in each of the last five years; and if he will make a statement. [197436]

Kevin Brennan: Swimming activities and water safety are a compulsory element of the national curriculum for physical education in primary schools. Swimming lessons should be provided for all pupils as part of this. Schools can choose swimming activities and water safety as a programme of study in secondary schools.

As part of the PE and Sport Strategy, £5.5 million has been invested over 2006-08 to help pupils to reach the Key Stage 2 requirements for swimming, including being able to swim at least 25 metres. Over 100,000

pupils will have benefited from this programme by July 2008, and £8.25 million has been allocated to continue to support it over 2008-11.

The annual PE and School Sport Survey was introduced in 2003-04 and provides information on the proportion of schools in School Sport Partnerships offering swimming. Of the schools that provided data, the percentage that offered swimming during the academic year, broken down by local authority, is as follows.

	2005/06		2006/07	
	Number of schools providing data	*Percentage of which offer swimming*	*Number of schools providing data*	*Percentage of which offer swimming*
Barnsley	82	85	98	85
Bradford	197	89	197	94
Calderdale	86	80	102	84
Doncaster	87	90	126	83
East Riding of Yorkshire	77	88	151	87
Kingston upon Hull	93	85	91	88
Kirklees	167	75	190	78
Leeds	214	89	268	89
North East Lincolnshire	60	73	73	77
North Lincolnshire	43	77	81	83
North Yorkshire	294	90	380	92
Rotherham	123	75	122	77
Sheffield	177	80	172	81
Wakefield	148	82	148	82
York	66	80	69	80
Total - Yorkshire and Humber	1,914	84	2,268	86

Direct comparisons between local authority areas are not appropriate as the number of schools in a School Sport Partnership, and the length of time they have been within a partnership, differ.

From September 2006, all maintained schools in England have been part of a School Sport Partnership.

Further analysis in years prior to 2005-06 could be provided only at disproportionate cost.

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many schools in *(a)* Essex and *(b)* the Castle Point constituency offer swimming lessons. [197646]

Kevin Brennan: The annual PE and School Sport Survey collects data relating to participation in PE and school sport from schools. The 2006-07 survey found that 463 of the 567 schools in Essex stated that they offered swimming during the academic year. In the Castle Point constituency, 26 of the 34 schools stated they offered swimming lessons.

Science: General Certificate of Secondary Education

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families how many and what percentage of secondary schools in each local authority in Yorkshire and the Humber offered GCSE courses in *(a)* physics, *(b)* biology and *(c)* chemistry in each of the last five years; and if he will make a statement. [199250]

Jim Knight: The Department for Children, Schools and Families does not hold information on subjects offered by schools.

Secondary Education: Admissions

Joan Ryan: To ask the Secretary of State for Children, Schools and Families what the secondary school population is in *(a)* Enfield North and *(b)* Enfield Southgate; and what the average secondary school population per constituency is in (i) London and (ii) England. [192936]

Jim Knight: A table showing the number of secondary schools and pupils in each parliamentary constituency has been placed in the House Library.

Specialised Diplomas

Tony Baldry: To ask the Secretary of State for Children, Schools and Families what percentage of bids for 14 to 19 Diplomas in 2009 under the Gateway 2 process have been turned down. [199098]

Jim Knight: I announced the results of the Gateway 2 process on 17 March. This year's applications were stronger as a result of the considerable development work carried out by the consortiums themselves over the last year. This resulted in a higher number of successful applications: 58 per cent. of lines of learning were approved for delivery from 2009, and 25 per cent. for delivery from 2010, and 17 per cent. were asked to reapply.

Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many teachers have taught at three or more schools on full-time contracts since 2002. [198715]

Jim Knight: The information requested is not collected centrally.

Teachers TV

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the average number of Teachers TV viewers (*a*) online and (*b*) on television each day; and how many of these are teachers. [195801]

Kevin Brennan: The current figures show that 110,000 members of the schools workforce watched the channel on average each month with each viewer watching over four programmes per week. On average 129,000 unique users visit the website each month. Viewing to the channel among the schools workforce is measured by an independent market research company on a monthly basis.

Teachers: Qualifications

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families what steps he plans to take towards the introduction of the masters in teaching and learning qualification; what estimate he has made of the cost of introducing the qualification; and if he will make a statement. [199383]

Jim Knight: Plans for the introduction of a masters in teaching and learning for teachers were set out in 'Being the Best for our Children: Releasing Talent for Teaching and Learning' on 7 March. Our aim is that over time the qualification should be open to all teachers, and our expectation is that every teacher will want to complete it at some stage in their career. We propose to begin by targeting the masters mainly on teachers in the first five years of their careers, building on initial teacher training and induction. The Training and Development Agency for Schools has been asked to start developing the programme. Initially £30 million has been set aside for the programme in the current spending review period.

Teachers: Temporary Employment

Anne Main: To ask the Secretary of State for Children, Schools and Families how many agency teachers were employed in each of the last three years, broken down by local education authority; and how much each such authority spent (*a*) in each year and (*b*) per agency teacher in each such year. [190443]

Jim Knight: The information requested for the number of agency teachers employed in each of the last three years is not collected centrally. Information for occasional teachers employed through agencies was collected until 2003 in the Annual Survey of Teachers in Service and Teacher Vacancies, 618g. In 2003 there were 4,990 agency staff employed in local authority maintained schools in England.

The following table provides the total expenditure on agency supply teaching staff by local authority maintained schools in each local authority in 2004-05 to 2006-07. Information is not available for the expenditure spent per agency teacher in each of the last three years.

The Education (Outturn Statements) (England) Regulations. Expenditure by local authority maintained schools in England on agency supply teaching staff 2004-05 to 2006-07: "Cash terms figures" as reported by local authorities as at 28 February 2008

The Education (Outturn Statements) (England) Regulations: Expenditure by local authority maintained schools on England on agency supply teaching staff: 2004-05 to 2006-07: Cash terms figures as reported by local authorities as at 28 February 2008

LEA number	LEA name	Expenditure on agency supply teaching staff by local authority maintained schools: 2004-05	2005-06	2006-07
936	Surrey	3,941,755	4,865,862	4,595,295
937	Warwickshire	2,407,864	2,865,817	2,660,315
938	West Sussex	2,202,416	2,309,698	1,595,854

[1] Includes expenditure incurred directly by all local authority maintained nursery, primary, secondary and special schools.
[2] Expenditure on agency supply teaching staff includes the cost paid to an agency for teaching staff that have been brought in to cover teacher absence. Includes cover of any period and for all reasons, including illness, absence for training and any leave.
[3] 2006-07 figures remain provisional and subject to change by the local authority.
[4] Expenditure are drawn from local authorities' Section 52 Outturn Statements (Table A) submitted to the DCSF (formerly DfES).

Teachers: Vetting

Mr. Cox: To ask the Secretary of State for Children, Schools and Families (1) what plans his Department has to review the rules on the transferability of Criminal Records Bureau checks on teachers. [178787]

(2) what assessment his Department has made of the effects of the rules relating to the transferability of Criminal Records Bureau checks on the (*a*) ability of schools to recruit suitable teachers on temporary contracts and (*b*) cost of recruitment of such teachers. [178788]

Beverley Hughes: The Department has no plans to review the rules on the transferability of Enhanced Criminal Records Bureau (CRB) Disclosures. We are not aware of any adverse effects arising from the rules relating to transferability. We are aware of the fact that there are often extra costs relating to temporary teachers if their employers insist on new disclosures every time they change post or agency. This is, however, the decision of individual employers and not a result of our guidance to schools and teaching supply agencies. We issued our principal guidance document on safeguarding for schools, "Safeguarding Children and Safer Recruitment in Education" in 2006. In that guidance we clearly set out that CRB Enhanced Disclosure certificates could be reused by teachers moving schools, local authorities or further education colleges, provided that all other recommended safer recruitment checks had been carried out satisfactorily and that the gap between their leaving their old employment and taking up their new post was not more than three months. The CRB has produced a comprehensive Portability Framework document which sets out the issues relating to the reuse of Disclosure certificates, which can obtained from the CRB website at

http://www.crb.gov.uk

The Department's Educational Procurement Centre (EPC) is currently undertaking a Temporary Workers in Education project. it aims to provide schools (initially in London) with an accessible, quality-driven electronic one stop shop for their temporary support staff requirements. All participating agencies will hold the DCSF Recruitment Employment Confederation (REC) Quality Mark, thereby meeting the requirements of the "Safeguarding Children and Safer Recruitment in Education" guidance. All London boroughs will be able to benefit from a safe and value-adding central service, reducing their own resourcing requirement in relation to temporary staff.

Television

Mr. Maude: To ask the Secretary of State for Children, Schools and Families how many plasma television screens have been purchased by his Department and its predecessor and its agencies, and at what cost, in the last 24 months. [179105]

Kevin Brennan: This information could be provided only at disproportionate cost.

The Department has no agencies.

Warriner School' Bloxham: Specialised Diplomas

Tony Baldry: To ask the Secretary of State for Children, Schools and Families for what reasons the bid by the Warriner School, Bloxham, to run a diploma in environmental and land-based studies for 2009 was turned down. [179865]

Jim Knight: The Gateway process aims to ensure high-quality delivery of the new, innovative diploma qualifications from the outset, creating sound foundations of good practice and delivery experience for the wider drive towards the 2013 entitlement.

The application for Environmental and Land Based Studies from the North Oxfordshire 14-19 Partnership was not approved because the consortiums did not provide sufficient information to show that it understood the full requirements of the new diploma, or that it had arrangements across the consortium to deliver the full range of the diploma. Employer engagement across the breadth of the diploma line also needed significant strengthening.

The Department is arranging a detailed feedback meeting with each consortium during April and May, when the consortium will be able to discuss the assessment in detail.

Written Questions: Government Responses

Mr. Laws: To ask the Secretary of State for Children, Schools and Families when he will answer parliamentary question (*a*) 17956 tabled on 14 November 2007, (*b*) 176819 tabled on 18 December 2007, (*c*) 174262 174261 and (*d*) 174260 tabled on 11 December 2007, (*e*) 173245 tabled on 6 December 2007, (*f*) 172551 tabled on 4 December 2007, (*g*) 172102 tabled on 3 December 2007, (*h*) 170786 tabled on 28 November 2007, (*i*) 169794 tabled on 27 November 2007, (*j*) 165755 tabled on 14 November 2007, (*k*) 163325, 163541 163208 and 163099 tabled on

7 November 2007 by the hon. Member for Yeovil; and what the reason is for the time taken in answering them. [190853]

Kevin Brennan: The Department has responded to all the aforementioned parliamentary questions. We were informed that PQ 165755 had been withdrawn, as the text of the PQ was identical to PQ 163222 which has received a full reply.

Mr. Jeremy Browne: To ask the Secretary of State for Children, Schools and Families when he expects to answer questions (*a*) 181521 and (*b*) 181612 on departmental travel, tabled on 21 January 2008 by the hon. Member for Taunton, and what the reason is for the time taken to respond. [191403]

Kevin Brennan *[holding answer 3 March 2008]*: The questions referred to were answered on 28 February 2008, *Official Report*, columns 1800-802W and on 25 March 2008, *Official Report*, column 108W.

Following the Machinery of Government Changes on 28 June 2007 the Department relies on management information supplied by the Department for Innovation, Universities and Skills to answer parliamentary questions relating to departmental matters. This has an impact on the time taken to respond to parliamentary questions.

Young People: Rural Areas

Daniel Kawczynski: To ask the Secretary of State for Children, Schools and Families how many of the proposed intensive intervention projects in the Youth Taskforce Action Plan will be based in rural areas. [197251]

Beverley Hughes: The areas in which intensive intervention projects will be based have not yet been selected. In order to establish these areas the Department for Children, Schools and Families will use an open competition selection process in which all top-tier local authorities will be eligible to submit a bid to apply for funding to set up an intensive intervention project in their area. The Department hopes to see strong bids for intensive intervention projects coming from local authorities across the country.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Children, Schools and Families how much his Department and its predecessors paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199607]

Ed Balls: I can confirm that the Department for Children, Schools and Families and its predecessor the Department for Education and Skills have no record of any payments to a supplier Zurich Financial Services during the last nine years. The Department does not hold data prior to the financial year 1999-2000.

The following answers were received for publication on 27 March 2008

Children in Care: Antisocial Behaviour Orders

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children in care were served with an antisocial behaviour order in each of the last nine years. [195966]

Kevin Brennan: The information requested is not collected centrally.

Children in Care: Missing Persons

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children were reported missing from social services care in each of the last five years, how many were missing for over one month, how many were missing for more than three months and how many were missing for more than six months. [195958]

Kevin Brennan: The number of children looked after who were reported missing from care in each of the last five years for over one month (more than 30 days), more than three months (more than 90 days) and more than six months (more than 180 days) is shown in the following table. Where a child was reported missing from his or her agreed placement on more than one occasion during the same year, he or she has been counted only once.

Children looked after who were reported missing during the years ending 31 March 2003 to 2007[1], England

Children missing from placement during the year ending 31 March	*2003[2]*	*2004[2]*	*2005[2]*	*2006[3]*	*2007[3]*
over 30 days	570	320	370	370	380
over 90 days	390	180	200	200	190
over 180 days	280	120	150	110	150

[1] Source: SSDA903 return on children looked after.
[2] Children looked after at any time during the year ending 31 March.
[3] Figures exclude children looked after under an agreed series of short term placements.
[4] A child is recorded with a missing placement if he/she is absent for more than 24-hours from his/her agreed placement. Children who are missing from care are categorised in three types of missing placements:
(a) In Refuge for children at risk, as defined in Section 51 of Children Act 1989, (b) Whereabouts of young people know to social services (but not in refuge) excluding agreed absences from placement such as holidays or planned breaks, (c) Whereabouts unknown.
[5] Figures are taken from the SSDA903 one-third sample survey.
[6] Figures are taken from the SSDA903 return which since 2004 covered all looked after children.
[7] Historical figures may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.
[8] To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000 or to the nearest 10 otherwise, placement.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what promotional items bearing the departmental logo have been commissioned by his Department since its establishment. [196271]

Kevin Brennan *[holding answer 20 March 2008]*: The Department has commissioned ballpoint pens with its corporate logo printed on the barrel. These were for promotional use, primarily at the Education Show 2008 in Birmingham. It has commissioned 'Post-it Notes', A4 and A5 paper pads, and cotton carry bags with its logo to support the launch of the Parent Know-How initiative. It has also commissioned ballpoint pens, mugs and cotton carry bags with its logo to promote Sure Start Children's Centres.

Extracurricular Activities: Bexley

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of breakfast clubs in Bexley schools; and what steps his Department is taking to encourage their creation. [196411]

Beverley Hughes: I refer the hon. Member to the reply given to my hon. Friend the Member for Morecambe and Lunesdale (Geraldine Smith) on 18 March 2008, *Official Report*, column 1072W.

Providing access to activities before school, including breakfast clubs, is a part of the extended schools core offer. In the London borough of Bexley there are 57 schools providing access to the core offer of extended services, which may be through a cluster of local schools or other providers.

Nurseries: Closures

Sarah Teather: To ask the Secretary of State for Children, Schools and Families how many nurseries closed in England in each of the last 10 years. [195194]

Beverley Hughes: The available information on the number of nurseries opening and closing is shown in the table.

Full day care providers

	Closed	*Open*
2003/04	1,100	2,500
2004/05	1,800	2,800
2005/06	1,300	2,300
2006/07	1,500	2,200

Full day care providers

	Closed	*Open*
April 2007-December 2007	1,300	1,900

[1] Figures have been rounded to the nearest 10 if under 100, and to the nearest 100 if over 100.

Source:
Ofsted.

Ofsted data on closures include registered places in settings which are transferring ownership, and in settings which move from one Ofsted category to another, not just in those which are ceasing trading. For example, if a full day care provider moved to offering sessional provision, this would be recorded as a 'closed' full day care setting and an 'opened' sessional day care setting. The Ofsted data therefore exaggerates the true extent of turnover.

Ofsted has produced figures on the numbers of registered child care providers and places on a quarterly basis from March 2003. Its latest figures were published in its report "Registered Childcare Providers and Places, December 2007", which is available on its website.

www.Ofsted.gov.uk

Pupil Referral Units

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many pupil referral units were (*a*) opened and (*b*) closed in each of the last 10 years; [195961]

(2) how many pupil referral units places there were in each of the last 10 years. [195962]

Kevin Brennan: The available information is published in table 1 of "Statistical First Release 30/2007 (Schools and Pupils in England: January 2007 (Final))". This SFR can be accessed at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml

A copy of this SFR is in the Library. Information on the number of places in PRUs is not collected centrally so information on the number of pupils on roll in PRUs, excluding dually registered pupils, has been provided instead.

The number of pupil referral units notified to the Department as opening and closing in each of the last 10 years is provided in the following table.

	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Total openings	18	18	23	28	69	75	54	33	26	19
Total closings	28	20	21	15	26	29	24	35	24	13

Edubase

Schools: Finance

Miss Kirkbride: To ask the Secretary of State for Children, Schools and Families what the average pupil premium is for a child with (*a*) special educational needs and (*b*) English as an additional language requirement; and what the (i) highest and (ii) lowest premium is. [196263]

Kevin Brennan: The available information for (*a*) is as follows:

Returns from local authorities in England on their intended net expenditure on the provision of education for children with special educational needs for 2007-08

Local authority name	*Budgeted net expenditure on the education of children with special educational needs: £*
England	4,868,571,000
Barking and Dagenham	20,173,000
Barnet	42,190,000
Barnsley	17,231,000
Bath and North East Somerset	10,936,000

Returns from local authorities in England on their intended net expenditure on the provision of education for children with special educational needs for 2007-08

Local authority name	*Budgeted net expenditure on the education of children with special educational needs (£)*
Bedfordshire	32,013,000
Bexley	26,174,000

The Department does not have a record or calculate the differences on a per pupil basis. It is a matter for each local authority to determine how it distributes funding to schools.

With regard to part *(b)*, local authorities do not provide us with returns on the amounts that they are intending to spend on teaching pupils for whom English is an additional language.

Truancy: Disadvantaged

Michael Gove: To ask the Secretary of State for Children, Schools and Families what proportion of pupils designated as persistent absentees were entitled to free school meals in the latest period for which figures are available, broken down by school year. [195197]

Kevin Brennan: The requested information is shown in the table.

Primary, secondary and special schools[1]: Persistent absentees known to be eligible for free school meals by national curriculum year group[2], 2006-07, England

National Curriculum Year Group	*Number of persistent absentees*	*Percentage of enrolments[3]*	*Of which: known to be eligible for free school meals: Number of persistent absentees known to be eligible for free schools meals*	*Of which: known to be eligible for free school meals: Percentage of persistent absentees[4]*
1 and below	13,420	2.4	5,690	42.4
2	10,030	1.8	4,490	44.8
3	9,280	1.6	4,140	44.6
4	9,330	1.6	4,140	44.3
5	10,270	1.7	4,580	44.5

Total (7)	272,950	4.1	95,760	35.1

[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools. Excludes general hospital schools. Includes maintained secondary schools, city technology colleges and academies (including all-through academies).
[3] Persistent absentees are defined as having more than 63 sessions of absence (authorised and unauthorised) during the year, typically over 20 per cent. absence rate.
[4] Number of persistent absentees expressed as a percentage of the total number of enrolments.
[5] The number of persistent absentees known to be eligible for free school meals by year group expressed as a percentage of the number of persistent absentees in same year group.

Note:
Numbers of enrolments have been rounded to the nearest 10.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education: Finance

Mr. Lidington: To ask the Secretary of State for Innovation, Universities and Skills what his latest estimate is of *(a)* the likely total value of payments made in adult learning grant during 2007-08 and *(b)* the likely cost of administering adult learning grants in that year. [198559]

Mr. Lammy: The Learning and Skills Council for England manage the adult learning grant on behalf of the Department. Adult learning grant became available across England from September 2007 following trialling in four LSC regions. The LSC contracts with

Liberata, which provides helpline, assessment and payment services. Final figures for 2007-08 are not yet available but the LSC estimate that *(a)* the total payments made to learners for the adult learning grant during 2007-08 was £11.98 million and *(b)* the cost of administering the adult learning grant during 2007-08 was £1:07 million.

Mr. Lidington: To ask the Secretary of State for Innovation, Universities and Skills which organisations are responsible for administering adult learning grant in Buckinghamshire. [198560]

Mr. Lammy: The Learning and Skills Council for England administer the adult learning grant nationally on behalf of the Department. The LSC contracts with a single helpline, assessment and payment body, Liberata, who process applications and payments on behalf of the LSC throughout England.

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills how many applications for the adult learning grant have been *(a)* made, *(b)* accepted and *(c)* refused in (i) the London Borough of Bexley and (ii) Bexleyheath and Crayford constituency. [198811]

Mr. Lammy: Adult learning grant has been available throughout England since September 2007, and during its pilot phase, showed that it was successful at helping more individuals raise their skill levels through completing their training and gaining a qualification. It is intended to help low skilled individuals in work on low incomes achieve their first full level 2 or first full level 3 qualification. The grant offers up to £30 per week.

The issues raised are matters for the Learning and Skills Council who administer the adult learning grant for the Department for Innovation, Universities and Skills and have responsibility for the contract with the helpline, assessment and payment body. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills which organisations are responsible for administering adult learning grant in Bexley. [198812]

Mr. Lammy: The Learning and Skills Council for England administer the adult learning grant nationally on behalf of the Department. The LSC contracts with a single helpline, assessment and payment body, Liberata, who process applications and payments on behalf of the LSC throughout England.

Mr. Lidington: To ask the Secretary of State for Innovation, Universities and Skills (1) where the call centre handling calls to the adult learning grant helpline is located; [198436]

(2) what the average length of time is for an application for adult learning grant to be processed following receipt of a completed application form; [198437]

(3) what training is given to staff responsible for responding to calls by members of the public to the adult learning grant helpline; and if he will make a statement; [198486]

(4) how many *(a)* staff and *(b)* full-time equivalent staff are employed to manage and operate the adult learning grant helpline; [198487]

(5) how many applications for adult learning grant have been *(a)* made, *(b)* accepted and *(c)* refused in (i) England, (ii) the area of the Oxfordshire, Buckinghamshire and Milton Keynes Learning and Skills Council, (iii) Buckinghamshire and (iv) Aylesbury parliamentary constituency in 2007-08; and if he will make a statement. [198562]

Mr. Lammy: Adult learning grant has been available throughout England since September 2007 and during its pilot phase showed that it was successful at helping more individuals raise their skill levels through completing their training and gaining a qualification. It is intended to help low skilled individuals in work on low incomes achieve their first full Level 2 or first full Level 3 qualification. The grant offers up to £30 per week.

The issues raised are matters for the Learning and Skills Council adult learning grant for the Department for Innovation, Universities and Skills and have responsibility for the contract with the helpline, assessment and payment body. Mark Haysom, the Council's chief executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Letter from Verity Bullough, dated 10 April 2008:

In the absence of Mark Haysom I am writing in response to your parliamentary questions that asked:

1. What performance indicators have been set to asses the (a) quality of customer service provided by the adult learning grant helpline and (b) efficiency of the processing of applications for adult learning grant; and if he will make a statement.

The administration of Adult Learning Grant moves to a new system from September 2008. This is part of wider changes to bring together the delivery of a number of strands of the LSC Learner Support, Programme, in order to give improved service to prospective learners.

Delivery of the Adult Learning Grant on the old system in the first term of this academic year was not always satisfactory. Service performance indicators have been set for the new system and these have been met since early January. A baseline survey of the helpline was carried out last year and will be repeated when the new service is in operation, to assess improvement and customer satisfaction.

2. How many applications to grant have been (a) made, (b) accepted and (c) refused in (i) England, (ii) the area of the Oxfordshire, Buckinghamshire and Milton Keynes Learning and Skills Council, (iii) Buckinghamshire and (iv) Aylesbury parliamentary constituency in 2007-08; and if he will make a statement.

Application information is available at LSC area level but not at local authority or constituency level.

The table below shows application data for the Oxfordshire, Buckinghamshire and Milton Keynes LSC area.

Area	Applications received	Applications accepted (Awards)	Applications refused	Applications in progress
England	31,786	22,227	7,050	2,509
Oxfordshire, Buckinghamshire and Milton Keynes	572	421	104	47

3. Where the call centre handling calls to the Adult Learning Grant helpline is located.

The Call Centre dedicated to handling Adult Learning Grant calls is in Manchester, with a back-up site in Barrow and imminent further back-up sites in Coventry and Darlington.

4. What training is given to staff responsible for responding to calls by members of the public to the Adult Learning Grant helpline; and if he will make a statement.

Advisors undertake an initial two week training course incorporating mentoring with an experienced advisor and ongoing support and guidance from team leaders. Training continues throughout the Advisors' employment

5. What is the average length of time for an application for Adult Learning Grant to be processed following receipt of a completed application form.

Applications are processed and a communication to the applicant is sent within 10 days of receipt.

6. How many (a) staff and (b) full-time equivalent staff are employed to manage and operate the Adult Learning Grant helpline.

Staff levels dedicated to ALG calls vary in accordance with volumes of calls. There is a core of 7 full-time staff increasing to 27 full-time staff as required.

7. What is the average length of time for dispatch of an Adult Learning Grant pack following receipt of a request from a member of the public.

ALG application forms are available from learning providers, Nextstep, Connexions and Learndirect. Learndirect despatch application packs direct to applicants within two working days of the request being made by 2nd class post. Learndirect advise callers that the application form should be with them within 7 days.

Mr. Lidington: To ask the Secretary of State for Innovation, Universities and Skills what the average length of time is for dispatch of an adult learning grant pack following receipt of a request from a member of the public. [198438]

Mr. Lammy: Adult learning grant has been available throughout England since September 2007 and during its pilot phase showed that it was successful at helping more individuals raise their skill levels through completing their training and gaining a qualification. It is intended to help low skilled individuals in work on low incomes achieve their first full Level 2 or first full Level 3 qualification. The grant offers up to £30 per week.

The issues raised are matters for the Learning and Skills Council who administer the adult learning grant for the Department for Innovation, Universities and Skills and have responsibility for the contract with the helpline, assessment and payment body. Mark Haysom, the Council's Chief Executive, has written to the hon. Member with the information requested and a copy of his reply has been placed in the House Library.

Letter from Verity Bullough, dated 10 April 2008:

Learndirect despatch application packs direct to applicants within two working days of the request being made, by 2nd class post. Learndirect advise callers that the application form should be with them within 7 days.

Adult Education: Numeracy

Mr. Jim Cunningham: To ask the Secretary of State for Innovation, Universities and Skills what recent steps the Government has taken to improve the numeracy skills of adults. [199832]

Mr. Lammy: On 17 March the Department, working with the Learning and Skills Council, launched the first phase of a new high-profile marketing campaign to encourage adults in England to improve their numeracy skills. In addition, the Department is working with the National Centre for Excellence in the Teaching of Mathematics and a range of partners to develop a new plan for meeting the numeracy challenge. This plan, to be published in the coming months, will ensure increased demand, supply and quality of adult numeracy provision.

Good numeracy skills are crucial to life and work. Free numeracy courses are available to adults in England through the Government's "Skills for Life" strategy, which was launched in 2001. We are currently committed to improving the numeracy and literacy skills of 2.25 million adults by 2010. So far, 1,759,000 adults have improved their skills and gained a first qualification, and we are on course to meet the 2010 target.

Our longer term ambition, as set out in "World Class Skills", is for 95 per cent. of adults to have functional numeracy skills by 2020, up from 79 per cent. in 2005. To achieve this trajectory the Learning and Skills Council's recent "Statement of Priorities" set out plans to deliver 390,000 numeracy achievements at Entry Level 3 or above during the period 2008 to 2011.

Adult Education: Offenders

Mr. Lidington: To ask the Secretary of State for Innovation, Universities and Skills what the Government's policy is on the eligibility of ex-prisoners who have been released on licence at the end of their term in custody for adult learning grant; and if he will make a statement. [198561]

Mr. Lammy: Ex-prisoners, who have been released on licence at the end of their term in custody, are able to apply for the adult learning grant (ALG) subject to meeting the full eligibility criteria. The grant is primarily intended to help individuals in work with low skills and on low incomes; individuals receiving out of work benefits are not eligible for ALG. Participants must be undertaking full time learning for their first full Level 2 or first full Level 3 qualification. Serving prisoners who are released on temporary licence to attend college are not eligible for ALG.

The 'on licence' process helps offenders re-build their lives, return to their families and gain work. For those offenders wishing to gain qualifications, ALG can help support them in that learning. ALG has been available throughout England since September 2007 and during its pilot phase showed that it was successful at helping more individuals complete their training and gain a qualification.

Adult Education: Standards

Mr. Lidington: To ask the Secretary of State for Innovation, Universities and Skills what performance indicators have been set to assess the *(a)* quality of customer service provided by the adult learning grant helpline and *(b)* efficiency of the processing of applications for adult learning grant; and if he will make a statement. [198563]

Mr. Lammy: Adult learning grant has been available throughout England since September 2007 and during its pilot phase showed that it was successful at helping more individuals raise their skill levels through completing their training and gaining a qualification. It is intended to help low skilled individuals in work on low incomes achieve their first full level 2 or first full level 3 qualification. The grant offers up to £30 per week.

The issues raised are matters for the Learning and Skills Council for England who administer the adult learning grant for the Department for Innovation, Universities and Skills and have responsibility for the contract with the helpline, assessment and payment body, Mark Haysom, the Council's chief executive; will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Letter from Verity Bullough, dated 10 April 2008:

In the absence of Mark Haysom I am writing in response to your Parliamentary Questions that asked:

1. What performance indicators have been set to assess the (a) quality of customer service provided by the adult learning grant helpline and (b) efficiency of the processing of applications for adult learning grant; and if he will make a statement.

The administration of Adult Learning Grant moves to a new system from September 2008. This is part of wider changes to bring together the delivery of a number of strands of the LSC Learner Support, Programme, in order to give improved service to prospective learners.

Delivery of the Adult Learning Grant on the old system in the first term of this academic year was not always satisfactory. The Call Centre dedicated to handling Adult Learning Grant calls is in Manchester, with a back-up site in Barrow and imminent further back-up sites in Coventry and Darlington.

4. What training is given to staff responsible for responding to calls by members of the public to the Adult Learning Grant helpline; and if he will make a statement.

Advisors undertake an initial two week training course incorporating mentoring with an experienced advisor and ongoing support and guidance from team leaders. Training continues throughout the Advisors' employment

5. What is the average length of time for an application for Adult Learning Grant to be processed following receipt of a completed application form.

Applications are processed and a communication to the applicant is sent within 10 days of receipt.

6. How many (a) staff and (b) full-time equivalent staff are employed to manage and operate the Adult Learning Grant helpline.

Staff levels dedicated to ALG calls vary in accordance with volumes of calls. There is a core of 7 full time staff increasing to 27 full time staff as required.

7. What is the average length for dispatch of an Adult Learning Grant pack following receipt of a request from a member of the public.

ALG application forms are available from learning providers, Nextstep, Connexions and Learndirect. Learndirect despatch application packs direct to applicants within two working days of the request being made, by 2nd class post. Learndirect advise callers that the application form should be with them within 7 days.

Agriculture: Qualifications

Mr. McLoughlin: To ask the Secretary of State for Innovation, Universities and Skills what steps are being taken to promote agriculture-related degrees and further education qualifications. [195216]

Bill Rammell: Careers advice in schools and colleges provides information on the variety of routes into agriculture including apprenticeships, the Diploma in Land-based industries and Foundation Degrees. Lantra, the Sector Skills Council for the environmental and land-based sector, has a key role in supporting the development and promotion of education and training provision which meets the sector's requirements. It is currently promoting the Year of Food and Farming, which offers children opportunities to experience farm activities and learn more about environmental issues related to food and the countryside.

Aimhigher Initiative

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the Answer of 25 February 2008, *Official Report*, column 1291W, on Aimhigher Initiative, what the reasons are for the change in expenditure levels on the aim higher programme. [195160]

Bill Rammell: In 2004-05, both the Higher Education Funding Council for England and the then Department for Education and Skills made additional, one-off, contributions to the Aimhigher budget. The funds were from underspends elsewhere, and amounted to over £25 million in total. In 2004, Ministers reviewed the programme and, in the light of the decision to introduce the Higher Education Grant, decided to reduce expenditure on Aimhigher to help fund the increases in student support, thereby providing more money directly to students from less well-off backgrounds. The growth in expenditure on student support was shown in the answer to Question 172276.

The Government remain committed to Aimhigher and recently announced its extension to 2011. The Government and HEFCE have together allocated £239.5 million for the three years. This represents a substantial investment and is an indication of our continuing commitment to widen participation in higher education in line with the country's social and economic needs. More young people than ever before are applying to go to university. As of 15 January 2008, 311,741 people from England applied through the Universities and Colleges Admissions Service (UCAS) for 2008 HE entry, an increase of 7.1 per cent. on the same point of the previous year. Of the 18-year-olds and under applying for whom social class background is known, 28.9 per cent. are from lower socio-economic groups, up from 28.2 per cent. in 2007.

Apprentices

Miss McIntosh: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of recent trends in the take-up of apprenticeships. [197971]

Mr. Lammy: The latest figures available for take-up of apprenticeships are for 2006/07 and show 180,000 starts compared to 2005/06 figures of 175,000.

This is a marked increase in apprenticeship starts and this improvement is also reflected in the improving completion rate which is currently 63 per cent.

World-class Apprenticeships looked at current trends in the context of expanding provision and we aim to build on the outcomes and improve the quality of apprenticeship provision and the apprenticeship experience for young people and adults.

Apprentices: Death

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many fatalities occurred during training for apprenticeships in 2006-07. [199922]

Mr. Lammy: There was one fatality on apprenticeships in 2006/07.

Apprentices: Employment

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills in which 10 professions where an apprenticeship scheme is in operation employment shortages were highest in the last period for which figures are available. [200064]

Mr. Lammy: Information about employment shortages by apprenticeship framework is not available.

Apprentices: Foreigners

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the number of people in apprenticeships who are not UK nationals; and if he will make a statement. [199921]

Mr. Lammy: Information about the nationality of people on apprenticeships is not collected centrally by the Learning and Skills Council or the Department. Individual employers and training providers may hold nationality and other information to ensure people have the right to work in this country.

Apprentices: Unemployment

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills in which 10 professions rates of unemployment of those completing an apprenticeship were highest in the last period for which figures are available. [200040]

Mr. Lammy: There are no reliable estimates available. However, using the Annual Population Survey it is possible to calculate approximate estimates of the unemployment rates for those who hold an apprenticeship for various occupational groups. The following table shows for those holding an apprenticeship estimates for 2006 for the 10 minor occupational groupings with the highest unemployment rates. It should be noted that the apprenticeship may have been gained at any point in the respondents' working life and therefore will include many old trade apprenticeships. The occupation groupings are based on current job (if employed) and last job (if unemployed) and these may not be the same as the occupation grouping of the apprenticeship held. The analysis is for England and covers females aged 19-59 and males aged 19-64. These estimates are based on small samples and are not robust as the confidence intervals shown in the table make clear.

Taking all those holding an apprenticeship does provide robust estimates and for 2006 the ILO unemployment rate for those holding an apprenticeship was 2.8 per cent. compared with 4.8 per cent. for all adults aged 19-59/64.

10 minor occupational groupings[1] with highest ILO unemployment rates[2] for people[3] holding an apprenticeship (Annual Population Survey, England, 2006)

Occupation group	*Unemployment rate*	*95 per cent. confidence interval for unemployment rate*	
		Lower bound	*Upper bound*
Managers in Hospitality and Leisure	9.9	3.7	16.2
Sales Related Occupations	9.5	3.0	16.0
IT Service Delivery Occupations	9.3	1.4	17.2
Assemblers and Routine Operatives	8.8	4.7	12.9
Elementary Personal Service Occupations	8.1	2.8	13.4
Financial Institution and Office Managers	7.5	1.2	13.9
Customer Service Occupations	7.3	1.3	13.3
Mobile Machine Drivers and Operatives	6.7	1.4	11.9
Elementary Administration Occupations	6.5	1.5	11.4
Elementary Process Plant Occupations	6.4	2.0	10.9

[1] Based on Standard Occupational Classification 2000.
[2] Defined as the unemployed as a percentage of the economically active (employed plus unemployed).
[3] Females aged 19-59 and males aged 19-64.

Asbestos

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many notifications his Department has received of the presence of asbestos in property for which his Department has responsibility in the last 12 months. [199927]

Mr. Lammy: All property occupied by the Department for Innovation, Universities and Skills is managed on our behalf by, and is the responsibility of, the Department for Business Enterprise and Regulatory Reform, and the Department for Children Schools and Families. But in any event, no notifications of the presence of asbestos in property occupied by the Department have been received in the last 12 months.

Astronomy: Finance

Sir Peter Soulsby: To ask the Secretary of State for Innovation, Universities and Skills if he will place in the Library the documents his Department holds relating to the withdrawal of funding for all ground-based solar terrestrial physics facilities in the UK; and on what date the withdrawal of this funding was announced publicly. [196576]

Ian Pearson: The Science and Technology Facilities Council (STFC) is responsible for decisions relating to the funding of ground-based solar terrestrial physics facilities in the UK. STFC intends to highlight the relevant documentation available shortly on its website. Decisions about the withdrawal from a number of specific ground-based solar terrestrial physics facilities was announced by STFC's predecessor, the Particle Physics Astronomy Research Council (PPARC) on August 2006 in its delivery plan for 2006/07 to 2007/08. STFC proposes to honour the commitment that had also been made by PPARC, in its 2006/07 to 2007/08 delivery plan, to continue to support EISCAT (European Incoherent Scatter Scientific Association) until 2011.

The decision to withdraw from all ground-based solar terrestrial physics facilities was announced in the STFC delivery plan 2008/09 to 2011/12 published on 11 December 2007.

Mr. Hollobone: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the likely effect on British astronomy of proposed changes to the science and technology budget in future years. [196699]

Ian Pearson: The UK has traditionally played a leading role in astronomical research and will continue to do so via the Science and Technology Facilities Council (STFC).

STFC is committed to ensuring that UK astronomers play a leading role in shaping the development of international research and to do so it will ensure UK astronomers continue to have access to world-leading facilities, for instance via membership of the European Southern Observatory (ESO). The UK will also continue to invest, in collaboration with

European and other partners, in design studies for two future world-class facilities: an Extremely Large Telescope; and the Square Kilometre Array, the next generation radio telescope.

Colleges of Education: Carbon Emissions

Mr. Jim Cunningham: To ask the Secretary of State for Innovation, Universities and Skills what steps the Government plans to take to reduce carbon emissions from further education colleges. [199312]

Mr. Lammy: Launched by the Secretary of State for Innovation, Universities and Skills on the 27 March, "Building Colleges for the Future" outlines detailed proposals for the largest ever further education building works programme, which will see £2.3 billion invested over the next three years.

As part of this record investment, the Government announced that they would require all new projects to meet the highest building standards for sustainable design, including the need to achieve an 'Excellent' BREEAM (Building Research Establishment Environmental Assessment Method) rating—which includes mandatory requirements on energy.

In support of the Government's targets for reducing the UK's carbon emissions by at least 26 per cent. by 2020, the Government have also set a target of all new college buildings to be zero carbon by 2016 and has a task force in place to advise on how we may be able to move even more quickly to this position. The task force is expected to publish its findings and recommendations in summer 2008.

Conferences

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills which overseas conferences have been attended by members of his Department since its establishment. [199924]

Mr. Lammy: The Department was set up as part of the Machinery of Government changes on 28 June 2007. The nature of the Department's business requires members to attend a range of overseas conferences convened by international organisations and by other countries with which we are working. We do not hold a record of these engagements.

Departmental Absenteeism

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what the average annual absence rate amongst civil servants in his Department was in the last three years. [197118]

Mr. Lammy: DIUS was created by Machinery of Government Changes in July 2007 from elements of the then Department of Trade and Industry (DTI) and Department for Education and Skills (DfES).

There are records of average working days lost per employee due to illness for the period from July to December 2007. DIUS continues to rely for this information on the computer systems of the departments from which it transferred staff at its inception. These show average working days lost per employee in the six month period of 2.7 for ex-DTI employees and 4.1 for ex-DfES employees.

Departmental Advertising

Mr. Jeremy Browne: To ask the Secretary of State for Innovation, Universities and Skills what percentage of his Department's expenditure was on advertising in each year since establishment. [182986]

Bill Rammell: The Department's expenditure on advertising since its establishment is £2,416,687.

To provide this as a percentage of overall departmental spend, the basis of departmental expenditure needs to be defined. The remit can include or exclude non-departmental public bodies, and as DIUS is in its first year of operation there is no audited expenditure information for the core department available. For these reasons, we are unable to provide this figure as a percentage of the Departments overall spend.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills which of his Department's initiatives have been advertised to the public; and what the cost of each such campaign was since establishment of his Department. [192272]

Mr. Lammy: The Department has run an advertising and promotional campaign on student financial support, which launched on 5 November 2007 and runs until 31 March 2008. The campaign had two strands and advertising media costs are broken down as follows:

	Television	*Radio*	*Digital*	*Press*	*Partnerships*[1]
Spend					
Strand 1	1,145,813	374,173	160,000		209,032
Strand 2		188,011		185,337	

[1] Partnership activity involved the cost of advertorial space in partners' titles

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Innovation, Universities and Skills at how many events held by his Department (*a*) wine and (*b*) Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196937]

Mr. Lammy: The Department for Innovation, Universities and Skills (DIUS) is a relatively new Department, formed on 28 June 2007. As a general rule because most of the events that we organise are held during the working day, we rarely use the public purse to purchase alcohol. The majority of our catered events supply tea, coffee, water or juice.

DIUS has provided wine at only four meetings, two of which were receptions involving journalists, and the other two were planning meetings in the evening and involving a small group of college principals.

Events sponsored by DIUS where wine is served are consequently few in number and if wine is ordered, the question of whether the wine is Fairtrade is only one of the factors that is taken into consideration, however contracts for catering services and supplies are awarded on the basis of the best value for money for the taxpayer. We have no record of whether the wine purchased on our behalf was Fairtrade wine.

Nevertheless, the catering companies used by the Department do supply Fairtrade products.

Departmental Consultants

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many consultants contracted by his Department are former civil servants. [199928]

Mr. Lammy: The Department was set up as part of the Machinery of Government changes on 28 June 2007. The Department operates a devolved procurement structure for consultants. As such we do not centrally record previous career histories of consultants engaged by DIUS.

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Innovation, Universities and Skills whether confidential , or personal information has been compromised through the loss of property from his Department and its predecessor since 1997. [193432]

Bill Rammell: Except in exceptional cases, when it is in the public interest, it has been the policy of successive governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Innovation, Universities and Skills how much his Department spent on publicity and advertising in 2007-08. [199030]

Mr. Lammy: DIUS was formed following Machinery of Government changes on 28 June 2007 and is in its first year of operation. Since the final adjustments have not been made for that financial year there is no audited expenditure information available. Publicity and advertising cover a very wide range of activities and we do not hold centrally information on all expenditure in this area.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how much was claimed in reimbursable expenses by Senior Civil Service staff in his Department in the last 12 month period for which figures are available. [187541]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of machinery of Government changes in June 2007. Information on expenditure to this detail is not collected centrally in the Department. This information could be obtained only at disproportionate cost.

Departmental Pensions

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193563]

Mr. Lammy: It is not possible to provide information for the whole period in question as the Department was created as part of the Machinery of Government changes on 28 June 2007. However, I am able to tell you that 14 employees out of a total of 766 in the Department are presently making additional voluntary contributions to their Civil Service (Principal Civil Service Pension Scheme) pensions. This equates to 1.8 per cent. of the Department's employees.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what opinion polls the Department has conducted of (*a*) the public and (*b*) staff since 27 June 2007; and what the (i) name of the firm employed to conduct the poll, (ii) purpose and (iii) cost to the public purse was in each case. [164948]

Mr. Lammy: Consultations and engagement have taken place with the public since the Department was formed on 28 June 2007. No opinion polls of the public or DIUS staff have been conducted by the Department in that time. However, the Department undertakes discrete pieces of public-facing research in order to inform specific communications activities and programmes, such as those listed.

(*1*) *Message development research for First to Go [to University] PR campaign*

(i) Company: Ticknet

(ii) Audience: Parents and Students

(iii) Objective: Help define and extend the student finance messages to households where no one has previously gone to university

(iv) Cost: £8,000

(*2*) *Strapline development research for Foundation Degrees*

(i) Company: Wardle McLean

(ii) Audience: Employers, providers, Higher Education Institutions, students

(iii) Objective: Test audience perceptions of the use of the words 'Foundation Degree'

(iv) Cost: £23,250

Departmental Public Relations

Mr. Jeremy Browne: To ask the Secretary of State for Innovation, Universities and Skills how many external contracts his Department has held with public relations companies since its inception; and what the total cost of those contracts was. [183190]

Mr. Lammy: The information provided relates to both the Department for Children Schools and Families and the Department for Innovation Universities and Skills, which were formed following the Machinery of Government changes in June 2007. It is not possible to provide separate costs for each Department during 2007-08 except at disproportionate cost.

Both Departments employ public relations agencies for specific communications tasks, most commonly working alongside our press offices to provide campaign support in local, regional and specialist media companies. They have used such agencies for 15 campaigns at a cost of £1.085 million since June 2007. These figures include contracts placed by both Departments using a framework agreement and by the Central Office of Information (COI) on our behalf.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many working days were lost by his Department due to stress-related illness in each of the last 24 months. [198936]

Mr. Lammy: The percentage of working days lost by the Department's staff attributed to stress-related conditions during the six months from July to December amount to 15.6 per cent. of all working days lost due to sickness absence. It would involve disproportionate cost to disaggregate the records to present this information on a monthly basis. My Department was set up as part of the Machinery of Government changes on 28 June 2007, so the percentage is based on figures from 1 July to 31 December 2007 (the latest information available).

The Department is committed to providing a safe working environment and has put in place a range of measures to support all employees on health and wellbeing issues, including the provision of professional counselling and occupational health services.

Departmental Sick Pay

Angus Robertson: To ask the Secretary of State for Innovation, Universities and Skills what the cost of sickness pay to staff within his Department was in the most recent year for which figures are available. [187506]

Mr. Lammy: DIUS was created by Machinery of Government changes in July 2007 from elements of the previous Department of Trade and Industry and Department for Education and Skills.

Consequently, even if the Department routinely calculated the actual cost of sickness absence it would not have figures for a full year. The Department does not keep such a record presently because this would involve manually investigating employee sickness records and pay details on an individual basis. The cost of doing so would be disproportionate to the benefits arising. Instead, the Department has undertaken calculations on the basis of average working days lost and average salaries in the first six month of its existence. On this basis, the total cost of sickness is around £189,000 for six months.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197065]

Mr. Lammy: The Department was set up as part of the Machinery of Government changes on 28 June 2007. In the period since it was formed records show the following participation by employees in the specified training programmes run by the National School of Government:

Influencing with Integrity: one employee at a cost of £726.

Working Assertively: two employees at a combined cost of £1,452.

Total cost involved: £2,178.

Departmental Travel

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how much his Department has spent on first class travel since establishment, broken down by staff grade. [187654]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of government changes in June 2007. Information on travel expenditure to this detail is not collected centrally in the Department. This information could be obtained only at disproportionate cost. However, year to date, the Department has spent £1,807,973 on travel and subsistence.

Departmental Vacancies

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many posts in his Department have remained vacant for over three months in the last 12 months. [200065]

Mr. Lammy: The Department was set up as part of the Machinery of Government changes on 28 June 2007. We have been keeping records of time taken to fill vacancies from 1 December 2007 this records time from advertising the post to the time a successful candidate is offered the post. Our records indicate that five posts have remained vacant for over three months and have been re-advertised.

We do not keep records of vacant posts where no recruitment action is taken.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195819]

Mr. Lammy: The Department was created as part of the Machinery of Government changes on 28 June 2007. Consequently, I am unable to provide information covering a longer period of time.

Records of hours worked, including overtime, are kept by individual teams across the Department and could be amalgamated only at disproportionate cost. The contractual hours of employment in DIUS are 41 per week in London and 42 elsewhere, inclusive of an hour each day as a rest break.

Subject to business needs, flexible working arrangements are available to all staff, together with scope for approved home working, part-time working and job sharing arrangements. The intention is to enable an appropriate balance to be struck between personal and work responsibilities. With this in mind, efforts are made to avoid overtime or extra hours being worked, with guidelines to the effect that this should be used only during periods of exceptional pressure of work.

Diplomatic Service

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what representation his Department has in UK overseas posts; and at what level. [199925]

Mr. Lammy: DIUS interests are mainly represented in overseas posts by the Foreign and Commonwealth Office and the British Council. The level of representation varies according to the size of post and the amount and significance of bilateral activity. On science and innovation issues, the Government have recently announced that DIUS will assume responsibility for leading and managing science and innovation attaches based in embassies and high commissions overseas.

Disabled

Mr. MacNeil: To ask the Secretary of State for Innovation, Universities and Skills what targets his Department has set in relation to its employment of people with disabilities over the next five years. [199049]

Mr. Lammy: DIUS is a new and relatively small Government Department, with the second smallest headcount in Whitehall. A member of the DIUS Departmental Board has been appointed as "diversity champion" to drive forward our commitment to diversity and a Diversity and Inclusion Programme Board has been established to set and deliver an effective strategy. We have already identified a number of priorities for intervention and the actions we will take to underpin them. These include the creation of a single database of information about the composition of our workforce so that we can assess our performance on equality and diversity relative to others and ensure that we are targeting action appropriately. We have also committed in principle to the setting of targets on representation within our workforce, including of disabled employees, with clear dates for achievement. This will form part of the wider proposition to employees and prospective employees of DIUS but at present the work is not sufficiently developed to indicate specific targets.

Discrimination

David T.C. Davies: To ask the Secretary of State for Innovation, Universities and Skills how many claims for discrimination, based on *(a)* sex, *(b)* race and *(c)* sexual orientation, were brought by members of his Department and its predecessor and settled (i) in and (ii) out of court in each of the last five years. [194983]

Mr. Lammy: It is not possible to provide information for the entirety of the period in question because my Department was created as part of the Machinery of Government changes on 28 June 2007. However, in the period since the Department was formed there have been no claims of discrimination based on gender, race or sexual orientation.

Educational Institutions

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills which further education colleges deliver higher education courses. [195161]

Bill Rammell: The following table lists the further education colleges which are directly funded by Higher Education Funding Council for England to deliver higher education courses, together with the provisional level of grant each college will receive in 2008-09.

Provisional HEFCE grant 2008-09

Further education colleges	£
Accrington and Rossendale College	628,843
Askham Bryan College	1,430,746
Barking College	881,394
Bedford College	924,700
Bexley College	78,577
Bishop Burton College	2,750,685
Blackburn College	7,914,131
Blackpool and The Fylde College	6,474,241
Bolton College	120,558
Boston College	55,729
Bradford	7,688,370
Bridgwater College	578,038
Bromley College of Further and Higher Education	66,800
Brooklands College	453,864
Calderdale College	727,318
Carlisle College	523,842
Castle College Nottingham	650,028
Central Sussex College	574,704
Chesterfield College	1,186,432
Chichester College	520,031
City of Bath College	522,967
City College, Birmingham	308,143
City College, Coventry	692,989
City College, Manchester	1,898,818
City College Plymouth	252,803
City of Sunderland College	846,111
City of Westminster College	1,072,184
City of Wolverhampton College	63,523
Cleveland College of Art and Design	1,916,437

York College	1,233,831
Yorkshire Coast College of Further and Higher Education	253,742
Overall total	166,884,146

English Language: Education

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of levels of demand for places on courses in English for speakers of other languages in London; and if he will make a statement. [186638]

Bill Rammell: The demand for English for speakers of other languages (ESOL) courses has been very high with funding and enrolments across England tripling since 2001.

Detailed information on ESOL funding and enrolments is collected by the Learning and Skills Council (LSC) but this does not extend to waiting lists. However, some institutions, particularly in London, have suggested they have waiting lists of up to 24 months.

A number of ESOL funding measures were introduced from August 2007 to help vulnerable learners. The Department for Innovation, Universities and Skills has commissioned a report to look at the impact of these measures. The interim findings indicate a continuing high level of demand for ESOL and that the learner profile seems to be changing in some colleges, with more enrolments onto evening than daytime classes. A full report is planned for early spring.

The national comprehensive spending review (CSR) has fixed ESOL spending until 2010 and participation figures in London have been forecast to align with this. London Learning and Skills Council has negotiated an increase in the size of its employer responsive budget for 2008-09 due to the specific socio-economic needs of London and ESOL needs for the individual and employers will be addressed within this.

In addition, the London Learning and Skills Council is expanding the offer of ESOL Skills for Life to Entry Levels 1 and 2 within the train to gain service. The service will also be expanded to include the new ESOL for Work qualifications. This enables a greater flexibility for employers and individuals in accessing ESOL.

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many places on courses for qualifications in English for speakers of other languages have been provided in London over the last eight years. [186477]

Bill Rammell: The Government have put adult skills at the heart of their strategy for long-term prosperity and social justice. The total Government investment in further education has increased by 52 per cent. in real terms between 1997-98 and 2006-07 and we are committed to further increases in adult participation funded through the Learning and Skills Council to £3.6 billion in 2010-11.

Since 2001 the Government have invested over £3 billion through the Skills for Life Strategy. The strategy offers adults the chance to improve their basic skills by enrolling on further education courses and other provision leading to qualifications in literacy, numeracy and English for speakers of other languages (ESOL).

So far, 4.7 million people have taken up 10.5 million Skills for Life learning opportunities nationally, including 2 million people who have improved their English language skills. The number of learners enrolled on ESOL courses in London between 2001 and July 2007 was 999,747.

Information about ESOL provision before 2001 when the Government launched the Skills for Life Strategy is not held in a format from which comparable data can be extracted without disproportionate cost.

Fairtrade Initiative

Mr. Moore: To ask the Secretary of State for Innovation, Universities and Skills what his Department's policy is on the use of fair trade goods *(a)* in staff catering facilities and *(b)* at official departmental functions and meetings; and if he will make a statement. [183881]

Mr. Lammy: Catering facilities and for the Department are provided on our behalf by the Department for Children Schools and Families and the Department for Business Enterprise and Regulatory Reform. Both of those Departments have a policy to make fair trade products available throughout their catering operations.

Finance

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills (1) if he will estimate the cost to the public purse of making the support available to full-time over 25-year-olds enrolled on their first full level 3 course equivalent to that of full-time, home-based, first degree undergraduates in respect of *(a)* grants, *(b)* maintenance loans and *(c)* fee loans; [196897]

(2) if he will estimate the cost to the public purse of making the support available to part-time over 25-year-olds enrolled on their first full level 3 course equivalent to that of full-time, home-based, first degree undergraduates in respect of *(a)* grants, *(b)* maintenance loans and *(c)* fee loans; and if he will make a statement; [196898]

(3) if he will estimate the cost to the public purse of making the support available to full-time 19 to 25-year-olds enrolled on their first full level 3 course equivalent to that of full-time, home-based, first degree undergraduates in respect of *(a)* grants, *(b)* maintenance loans and *(c)* fee loans; and if he will make a statement. [196899]

Bill Rammell: The Government offer a range of support for adults to enable them to get the skills they need for their career, or for progression, in whatever way best suits their needs, including both full and part-time provision.

We have put in place a different set of support arrangements for learners on full level 3 courses in Further Education, compared to home-based university undergraduates. Our priority for level 3 entitlement learners is to help young adults to complete their initial education and provide full fee remission to protect them from increases in FE fees and learner support for those on low incomes; the Adult Learning Grant pays up to £30 per week during term times to help with learning costs for those studying for a first full level 3 (or first full level 2) qualification. They may then go on to higher education and take advantage of HE student support, or progress to higher skills training and/or employment. HE students undertake longer, more expensive courses, with higher additional incidental costs, such as books and materials, which is why the financial support arrangements are not directly comparable.

We already have a strong package of measures in place to help young adults achieve advanced level 3 qualifications. In the Budget, the Chancellor announced an additional £60 million over the next three years for advanced level 3 skills. This will allow more individuals to get the skills they need to get second chances and unlock their talents. We will be exploring new and innovative approaches to delivering training that individuals and employers need.

These new resources will move us a step closer to realising our ambitious vision for universal Skills Accounts where adults will be able to access significant investment in their skills, including an Apprenticeships credit to cover training costs. We will be undertaking trials of Skills Accounts in 2008/09 and 2009/10, with national roll-out from 2010. And increasing the number of Advanced Apprenticeships will be a key focus for these additional resources, building on the recommendations of the recent Apprenticeships review.

Further Education

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills if he will place in the Library a copy of the options analysis for post-19 provision as referred to in the regulatory impact assessment for Raising Expectations: Enabling the system to deliver. [196769]

Bill Rammell: Following the creation of the Department for Innovation, Universities and Skills in June 2007 the Secretary of State, the Parliamentary Under-Secretary of State for Skills and I led an internal review of the post-19 skills landscape. The review considered a functional analysis of England's skills policy delivery mechanisms and was informed by stakeholder and other expert views given in confidence. The options examined for possible reconfigurations of the functions of the skills landscape were wide-ranging and comprehensive, as befits an organisational review following a major change in the Machinery of Government. The mechanism for the review was a series of ministerial submissions and discussions, focusing in on preferred options in an iterative process; no consolidated 'options analysis' covering the entire work of the internal review was compiled. The internal review resulted in the proposals published in Raising Expectations: Enabling the system to deliver, which are presented for external consultation until 9 June 2008.

Further Education: Admissions

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills (1) how many 19 to 25 year olds enrolled on their first full level 3 qualification there were in each year since 2001; [196800]

(2) how many (*a*) 25 to 30, (*b*) 25 to 35 and (*c*) over 25 year olds enrolled on their first full level 3 course there were in each year since 2001. [196805]

Bill Rammell: The Government are committed to ensuring that young adults have the opportunity to complete their education and gain a full level 3 qualification that will enable them to progress into skilled employment or higher education. We are committed to achieving the 2011 indicator of 56 per cent. of working age adults qualified to at least full Level 3.

The following table shows the number of people aged 19+ (to the nearest 1,000) doing full level 3 in each year since 2002/03 (the earliest available), and estimated numbers doing a first full level 3. Historical data on first full level 3 by the requested age-bands is not readily available and can be provided only at disproportionate cost.

	2002/03	2003/04	2004/05	2005/06	2006/07
Further education					
Full Level 3 learners	124,000	122,000	125,000	161,000	156,000
Of which					
First full L3	68,000	67,000	69,000	89,000	86,000
Advanced apprenticeships					
Full Level 3 starts	36,000	32,000	28,000	30,000	32,000
Of which					
First full L3	22,000	19,000	17,000	18,000	19,000

Note:
This time series combined data on learner numbers from the Individualised Learner Record with information from the Learning and Skills Council's Prior Qualifications Survey on 'firstness'. The survey tells us that 55 per cent. of full Level 3 learners in FE and 60 per cent. of people starting an Advanced Apprenticeship are doing their first full Level 3.

Further Education: Higher Education

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 4 February 2008, *Official Report*, column 930W, on further education: higher education, what proportion of students were funded by (*a*) the Higher Education Funding Council for England and (*b*) the Learning and Skills Council. [188582]

Bill Rammell: The latest available information is given in the table.

Higher education enrolments at English further education colleges[1] by HEFCE and LSC funded - Academic years 2001/02 to 2005/06

		Of all enrolments[2]		Of all enrolments[2]	
Academic year	*All enrolments[3]*	*Number funded by HEFCE*	*Percentage funded by HEFCE*	*Number funded by LSC*	*Percentage funded by LSC*
2001/02	139,630	n/a	n/a	n/a	n/a
2002/03	134,970	55,470	41.1	60,635	44.9
2003/04	143,065	56,545	39.5	67,410	47.1
2004/05	141,365	53,540	37.9	67,785	47.9

Higher education enrolments at English further education colleges[1] by HEFCE and LSC funded: Academic years 2001/02 to 2005/06

Academic year	All enrolments	Of all enrolments[2]: Number funded by HEFCE	Of all enrolments[2]: Percentage funded by HEFCE	Of all enrolments[2]: Number funded by LSC	Of all enrolments[2]: Percentage funded by LSC
2005/06	139,410	53,020	38.0	63,880	45.8

n/a = Funding breakdown is not available for the 2001/02 academic year

[1] Birmingham College of Food, Tourism and Creative Studies transferred to the higher education sector in 2002, Leeds College of Music transferred in July 2005, Reading College and School of Art and Design merged with Thames Valley University in December 2003 and higher education provision at Barnsley College and Oldham College transferred to the University of Huddersfield in August 2005

[2] Includes students with other sources of funding, therefore the number of HEFCE funded plus the number of LSC funded will not sum to the number of all enrolments, likewise the proportions will not sum to 100 per cent

Note:

Figures are on a DIUS Whole Year Count basis, which counts students enrolled at any point in the academic year, and have been rounded to the nearest five.

Source:

Learning and Skills Council (LSC) Individualised Learner Record

The changes in the number of higher education enrolments at further education colleges will have been affected by the transfer of institutions from the further education sector to the higher education sector. The number of higher education enrolments at further education colleges will also have been affected by the transfer of higher education activity from further education colleges to higher education institutions under franchising arrangements. Franchising is a process where students take a course delivered by an institution on behalf of another institution and this often occurs between higher education institutions and further education colleges.

Further Education: Qualifications

Kelvin Hopkins: To ask the Secretary of State for Innovation, Universities and Skills (1) what proportion of *(a)* HNDs and *(b)* HNCs were taught in further education colleges in the last 12 months; [195656]

(2) what proportion of foundation degrees were taught in further education colleges in the last 12 months. [195657]

Bill Rammell: The latest available information is shown in the following table.

Proportion of HND, HNC and foundation degree students[1] taught in English further education colleges, 2005-06 academic year

Qualification aim	Proportion (percentage)
HND	59
HNC	84
Foundation degree	53

[1] Figures are on a headcount basis and cover all students registered at English higher education institutions and English further education colleges.

Source:

Higher Education Statistics Agency (HESA) Student Record and Learning and Skills Council (LSC) Individualised Learner Record (ILR)

An estimate for the 2007-08 academic year shows that there are almost 72,000 people studying foundation degrees. We are therefore making good progress towards achieving our target participation rate of 100,000 by 2010.

We are committed to foundation degrees as a key vehicle for higher education expansion as they provide precisely the type of business-facing, demand-led provision that is helping employers to address higher level skill needs.

Further Education: VAT

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how much VAT has been recovered from further education colleges following VAT inspection of the use of zero-rated buildings in each year since 1997. [198459]

Jane Kennedy: I have been asked to reply.

HM Revenue and Customs does not collect data on the amount of VAT collected on individual goods and services.

Higher Education

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many full-time undergraduates applied to universities from each parental *(a)* socio-economic group and *(b)* income quintile in the last three years for which figures are available. [196560]

Bill Rammell: The latest available information from the Universities and Colleges Admissions Service (UCAS) is shown in the table. Information on applicants to full-time undergraduate courses by parental income quintile is not available.

Number of English domiciled applicants to full-time undergraduate courses by National Statistics Socio-Economic Classification (NS-SEC): Years of entry 2005 to 2007

	NS-SEC group	2005: Number	2005: Percentage of known	2006: Number	2006: Percentage of known	2007: Number	2007: Percentage of known
1	Higher managerial and professional occupations	59,189	21.0	56,970	21.8	60,438	21.7
2	Lower managerial and professional occupations	88,153	31.3	81,037	31.1	85,708	30.8
3	Intermediate occupations	42,927	15.2	37,797	14.5	39,770	14.3
4	Small employers and own account workers	20,116	7.1	19,488	7.5	21,024	7.5
5	Lower supervisory and technical occupations	13,078	4.6	12,151	4.7	12,735	4.6

Number of English domiciled applicants to full-time undergraduate courses by National Statistics Socio-Economic Classification (NS-SEC)—Years of entry 2005 to 2007

	NS-SEC group	2005		2006		2007	
		Number	Percentage of known	Number	Percentage of known	Number	Percentage of known
6	Semi-routine occupations	41,841	14.9	37,746	14.5	41,763	15.0
7	Routine occupations	16,347	5.8	15,682	6.0	17,133	6.2
	Total known	281,651	100.0	260,871	100.0	278,571	100.0
	Unknown[1]	87,150	—	97,196	—	101,506	—
	Total	368,801	—	358,067	—	380,077	—
	Number of known in groups 1-3	190,269	67.6	175,804	67.4	185,916	66.7
	Number of known in groups 4-7	91,382	32.4	85,067	32.6	92,655	33.3

[1] The proportion of applicants from unknown NS-SEC has increased from 23.6 per cent. in 2005 to 26.7 per cent. in 2007. *Source:* Universities and Colleges Admissions Service (UCAS).

Overall, for all students from England, the UCAS figures show that, compared to 2006, applicants to full-time undergraduate courses who had been accepted for entry in 2007, rose by 6.1 per cent. to 307,000, the highest ever. Latest figures for students applying for entry in 2008, show that applicants from England are up by 7.1 per cent. compared to 2007.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of students applying for full-time science undergraduate courses in *(a)* the most recent UCAS round and *(b)* the previous 10 years were from each socio-economic background. [196661]

Bill Rammell: The latest available information from Universities and Colleges Admissions Service (UCAS) is shown in the table. Figures for years earlier than 2002 have not been given because in this year the National Statistics Socio-Economic Classification (NS-SEC) was first introduced. It replaced the Social Class (SC) classification, and the two classifications cannot be directly compared. Also in 2002, a new subject classification was introduced which is not comparable with the classification used in earlier years.

Number and proportion of English domiciled applicants to full-time science[1] undergraduate courses by National Statistics Socio-Economic Classification (NS-SEC) years of entry 2002 to 2007

	2002		2003		2004		2005		2006		2007	
NS-SEC group[2]	Number	% of known	Number	% of known	Number	% of known	Number	% of known	Number	% of known	Number	% of known
1	22,525	24.2	22,499	24.0	22,577	23.8	22,602	22.9	22,256	23.9	22,954	23.6

[1] Science undergraduate courses cover the following subject groups: Medicine and Dentistry; subjects allied to Medicine; Biological sciences; Veterinary science, Agriculture and related subjects; Physical sciences; Mathematical and Computer Science; Engineering; Technologies; Architecture, Building and Planning; and Combined Sciences.

[2] Definitions of each of the NS-SEC groups are (1) Higher managerial and professional occupations; (2) Lower managerial and professional occupations; (3) Intermediate occupations; (4) Small employers and own account workers; (5) Lower supervisory and technical occupations;(6) Semi-routine occupations and (7) Routine occupations.

[3] The proportion of applicants from unknown NS-SEC has increased from 15.3 per cent. in 2002 to 23.5 per cent. in 2007.

Source:
Universities and Colleges Admissions Service (UCAS).

Overall, for all students from England, the UCAS figures show that, compared to 2006, applicants to all full-time undergraduate courses who had been accepted for entry in 2007, rose by 6.1 per cent. to 307,000, the highest ever. This includes increases in accepted applicants to first degree courses in physics (up by 9.8 per cent.), chemistry (up by 8.8 per cent.) and maths (up by 9.3 per cent.).

Latest figures for students applying for entry in 2008, show that, as at the middle of January, applicants to all full-time undergraduate courses from England are up by 7.1 per cent. compared to 2007.

Higher Education: Admissions

Geraldine Smith: To ask the Secretary of State for Innovation, Universities and Skills how many students in Morecambe and Lunesdale constituency entered higher education in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06 and *(d)* 2006-07. [194724]

Bill Rammell: The information is shown in the table.

Entrants to undergraduate courses at UK higher education institutions from Morecambe and Lunesdale parliamentary constituency, academic years 2003/04 to 2006/07

Academic year	Entrants
2003/04	1,400
2004/05[1]	1,260
2005/06	1,430
2006/07	1,620

[1] Figures for the Open university for 2004/05 have been included but these are known to undercount entrants to undergraduate courses at the Open university.

Notes:
1. Figures are based on a HESA Standard Registration Population and have been rounded to the nearest five.
2. Figures cover students on full-time and part-time modes of study.

Source:
Higher Education Statistics Agency (HESA).

Overall, for all students from England, the UCAS figures show that, compared to 2006, applicants who had been accepted for entry in 2007 rose by 6.1 per cent. to 307,000, the highest ever. Latest figures for students applying for entry in 2008 show that applicants from England are up by 7.1 per cent. compared to 2007.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what the higher education initial participation rate was in each year since 1997, broken down by *(a)* 18 to 21 and *(b)* 22 to 30 year olds in each local education authority area. [198474]

Bill Rammell: The main measure for tracking progress on increasing participation is the Higher Education Initial Participation Rate (HEIPR). This is the sum of the HE initial participation rates for individual ages between 17 and 30 inclusive. It covers English-domiciled first time entrants to HE courses, which are expected to last for at least six months, at UK Higher Education Institutions and English, Scottish and Welsh Further Education Colleges, and who remain on their course for at least six months. The latest available figures are shown in Table 1:

Table 1: Higher Education Initial Participation Rate for 17-30 year olds

Percentage

	HEIPR (17-30)		HEIPR (18-21)		HEIPR (22-30)	
1999-2000	39	39.2	32	32.4	7	6.5
2000-01	40	39.6	33	33.0	6	6.3
2001-02	40	40.2	34	33.6	6	6.3
2002-03	41	41.1	34	33.8	7	6.9
2003-04	40	40.2	33	32.9	7	7.0
2004-05	40	40.1	33	32.7	7	7.0
2005-06	42	42.5	35	35.0	7	7.2
2006-07	40	39.8	33	32.6	7	6.8

Notes:
1. The HEIPR is usually published to the nearest integer, but the figures are included to one decimal place to inform comparisons over time.
2. Numbers are quoted to the nearest thousand.

Source:
"Participation Rates in Higher Education: Academic Years 1999/2000-2006/07 (Provisional)" published by DIUS (2008). The HEIPR is not disaggregated below national level, and figures are not available for Earlier years than 1999/2000.

Everyone has known for a long time that student applications fell for 2006/07—the first year of variable fees. We also know that they recovered strongly for 2007/08, to resume an upward trend. The numbers fall of 2006/07 has affected the HEIPR for that year. Unsurprisingly it has fallen. A year from now, we will know how the counterbalancing rises of 2007/08 will affect the HEIPR, We expect to see an increase in the HEIPR.

Michael Gove: To ask the Secretary of State for Innovation, Universities and Skills how many students formerly eligible for free school meals were admitted to a university in 2007. [198659]

Bill Rammell: Analysts in the Department are currently working on producing progression figures for FSM and non-FSM pupils, and we are planning to publish these in May.

Michael Gove: To ask the Secretary of State for Innovation, Universities and Skills how many pupils from maintained schools studied for a *(a)* physics and *(b)* chemistry degree in each year since 1997. [198662]

Bill Rammell: The latest available information is shown in the following table. The figures are taken from data collected by the Universities and Colleges Admissions Service (UCAS) and they show the previous school type of students who were accepted for entry to full-time undergraduate courses via the UCAS application system, in each year since 2002. The figures do not therefore cover part-time students, nor those full-time students who apply directly to Higher Education Institutions. Comparable figures for earlier years are not held centrally.

Applicants from the UK accepted for entry to full-time undergraduate courses in physics and chemistry—by previous school type, years of entry 2002 to 2007

Year of entry

	2002	2003	2004	2005	2006	2007
Physics courses:						
Maintained sector[1]	2,140	2,080	1,879	2,050	2,148	2,353
Independent schools	341	362	338	3m	321	391

Total	2,902	2,798	2,797	3,191	3,267	3,130

[1] Includes accepted applicants from comprehensive schools, FE/HE institutions, grammar schools, sixth form colleges, sixth form centres, other maintained establishments, and other establishments.
[2] Includes accepted applicants who did not provide details of their previous school type.

Higher Education: Finance

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what non-government organisations and groups he consulted prior to his Department's decision to reduce equal and lower qualification funding. [195162]

Bill Rammell: We took this decision from first principles in order to increase and widen participation in higher education. It would have been pointless to consult on an issue where we had already decided what to do, as a matter of principle, and successive Governments have all taken major strategic decisions about principled priorities in this way. However, we asked the Higher Education Funding Council for England to consult extensively on the details of how our decision might best be implemented and our final proposals reflect the results of that consultation.

Higher Education: Internet

Margaret Moran: To ask the Secretary of State for Innovation, Universities and Skills if he will encourage universities not to use information from social networking sites when making decisions on *(a)* student admissions and *(b)* staff recruitment. [198784]

Bill Rammell: Admissions decisions are a matter for individual higher education institutions (HEIs) who, as independent bodies, have discretion over their own admission policies and procedures. HIEs are also responsible for their own staff recruitment and for determining the policies and practices that apply to this, in line with employment and equality legislation. The Department does not therefore issue guidance in these areas.

I have been reassured by the Supporting Professionalism in Admissions (SPA) team, who provide a centre of expertise in admissions matters, that such practices are not a feature of university admissions, despite press suggestions to the contrary. I expect admissions officers to continue to select suitable candidates based on their achievements and potential as they do now. Social and other networking sites will not provide reliable and authenticated evidence of the kind required to support such important decisions.

As outlined, above HE institutions operate within a legal framework in relation to recruitment, like other employers. As such, they would be responsible for determining their legal position if they chose to make use of material that candidates have placed in the public domain in their recruitment processes. Institutions must comply with the law and in our view they should also comply with best practice in their recruitment processes.

Higher Education: Overseas Students

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what proportion of the first-degree student population enrolled at higher education institutions were from non-EU countries in each year since 1997; and if he will make a statement. [186619]

Bill Rammell: The available information is given in the table. Figures for 2007/08 will be available in January 2009.

First degree enrolments by domicile English higher education institutions[1]—Academic years 1997/98 to 2006/07

		Of which					
Academic year	*Total first degree enrolments*	*Number from UK*	*Proportion (%) from UK*	*Number from EU*	*Proportion (%) from EU*	*Number from Non-EU*	*Proportion (%) from Non-EU*
1997/98	802,710	720,475	89.8	39,245	4.9	42,995	5.4
1998/99	811,780	729,705	89.9	41,405	5.1	40,665	5.0
1999/2000	810,150	729,085	90.0	41,345	5.1	39,720	4.9
2000/01	812,175	731,185	90.0	39,160	4.8	41330	5.2
2001/02	834,130	752,470	90.2	35,455	4.3	46,210	5.5
2002/03	868,280	779,310	89.8	32,970	3.8	56,000	6.4
2003/04	895,955	801,080	89.4	30,810	3.4	64,070	7.2
2004/05	912,940	811,155	88.9	34,885	3.8	66,895	7.3
2005/06	945,420	838,445	88.7	38,055	4.0	68,920	7.3
2006/07	960,265	848,975	88.4	41,685	4.3	69,605	7.2

[1] Excludes the Open University.
Notes:
Figures are on a snapshot basis as at the 1 December to maintain a consistent time series across all years. Numbers have been rounded to the nearest 5 and percentages to the nearest 0.1 per cent.
Source:
The Higher Education Statistics Agency (HESA).

The figures indicate that international student numbers on first degrees at English higher education institutions have increased by nearly 62 per cent. since 1997. This is very much a success story as these students contribute to the cultural mix, the research capacity and the finances of our institutions. The growth of international student numbers has not been at the expense of home students as they are not in competition with each other for places and it can be seen that the number of home students has also increased by over 128,000 during this ten year period.

Higher Education: South Yorkshire

Jeff Ennis: To ask the Secretary of State for Innovation, Universities and Skills how many residents of *(a)* Barnsley and *(b)* Doncaster entered higher education in each of the last 10 years; and how many of those were (i) mature and (ii) part-time students in each such year. [199441]

Bill Rammell: The latest available information is shown in the table. Comparable figures for the 2007-08 academic year will be available in January 2000.

Entrants[1] to undergraduate courses from Barnsley and Doncaster local authorities, UK higher education institutions, academic years 1997-98 to 2006-07

	Barnsley			Doncaster		
	of all entrants[2]			of all entrants.[2]		
	All Entrants	Mature[3]	Part-time	All Entrants	Mature[3]	Part-time
1997-98[4]	1,070	620	420	1,205	465	225
1998-99	1,170	710	410	1,605	770	450
1999-2000	1,150	645	455	1,530	700	480
2000-01	1,285	730	545	1,515	715	495
2001-02	1,220	650	435	1,640	730	530
2002-03	1,315	795	565	1,770	900	695
2003-04	1,225	795	575	1,565	890	680
2004-05[5]	1,350	795	620	1,940	1,000	825
2005-06	1,630	970	730	1,966	955	765
2006-07	1,555	890	665	1,875	945	740

[1] Figures are on a snapshot basis as at 1 December to maintain a consistent time series across all years and are rounded to the nearest five. Figures include the Open university but exclude those on writing up, sabbatical or dormant mode of study.
[2] Breakdowns for mature and part-time students contain double counting (i.e. part-time students over 21 years of age will be included in both columns).
[3] Mature undergraduate students are aged 21 and over. Figures include a small number of students whose age was unknown.
[4] Figures for 1997-08 exclude the Open University because there are no figures available for entrants to undergraduate courses at the Open University by local authority for this year.
[5] Figures for the Open University for 2004-05 are known to undercount entrants to undergraduate courses in that year.
Source:
Higher Education Statistics Agency (HESA).

Overall for all students from England, the UCAS figures show that, compared to 2006, applicants who had been accepted for entry to full-time undergraduate courses in 2007 rose by 6.1 per cent. to 307,000, the highest ever. Figures at local authority level show that, for Barnsley, the number of accepted applicants for 2007 entry rose by 9.1 per cent. and, for Doncaster, accepted applicants rose by 6.3 per cent. Latest figures for students applying for entry in 2008 show that applicants to full-time undergraduate courses from England are up by 7.1 per cent. compared to 2007.

Jodrell Bank: Finance

Paul Rowen: To ask the Secretary of State for Innovation, Universities and Skills if he will make a statement on *(a)* funding of the e-Merlin project and *(b)* the future of Jodrell Bank observatory. [196592]

Ian Pearson: Jodrell Bank, which is owned by the University of Manchester, is involved in a variety of radio astronomy activities, including the e-Merlin project. E-Merlin is the development of a network of seven UK radio telescopes run by the Jodrell Bank Observatory and funded by the Science and Technology Facilities Council (STFC) in partnership with the North West Development Agency and the University of Manchester. STFC provides the University of Manchester £2.4 million per annum for Merlin operations, and a further £874,000 for exploitation in 2007-08. STFC is currently considering future funding for e-Merlin as part of its Programmatic Review. STFC has yet to take a decision on its future level of support for e-Merlin. However, STFC has made it clear that the e-Merlin project is part of its strategy for radio astronomy and that it is in discussion with its partners about the issues raised by the review.

Mr. Laurence Robertson: To ask the Secretary of State for Innovation, Universities and Skills how much his Department has allocated to Jodrell Bank in each of the last five years for which figures are available; how much he plans to allocate for the next three years; and if he will make a statement. [196725]

Ian Pearson *[holding answer 25 March 2008]:* Jodrell Bank, which is owned by the University of Manchester, is involved in a variety of radio astronomy activities, including the e-Merlin project, funded by the Science and Technology Facilities Council (STFC). STFC is currently considering future funding for e-Merlin as a part of its Programmatic Review and has yet to take a decision on this. However, STFC has made it clear that the e-Merlin project is part of its strategy for radio astronomy and that it is in discussion with its partners about the issues raised by the review.

STFC allocated the following funds to activities at Jodrell Bank in the past five years:

		£ million
	Merlin/e-Merlin	Exploitation
2003-04	2.147	0.670
2004-05	2.337	0.822
2005-06	2.383	0.779
2006-07	2.502	0.795
2007-08	2.441	0.874

JP Morgan

David T.C. Davies: To ask the Secretary of State for Innovation, Universities and Skills how much his Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199614]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007. DIUS has not made payment to JP Morgan in the 2007-08 financial year.

Karian and Box

Mr. Hands: To ask the Secretary of State for Innovation, Universities and Skills what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199644]

Mr. Lammy: Our financial records show that since its formation in June 2007, the Department has not made any payments to the company Karian and Box.

Mature Students

Geraldine Smith: To ask the Secretary of State for Innovation, Universities and Skills what assistance his Department makes available to enable mature students to attend universities. [194725]

Bill Rammell: Mature students are generally eligible for the same student support package as other students. For full-time students, fee loans of up to £3,070 (£3,145 in 2008/09) ensure that no one has to pay their fees upfront. Students under the age of 60 are eligible for maintenance loans of up to £6,315 (£6,475 in 2008/09)[1]. Means-tested grants of up to £2,765 (£2,835 in 2008/09) are available to new students. From 2008/09, we are increasing the income thresholds so that many more students will be eligible to receive a grant. At least one third of all students will receive a full grant; and two-thirds a partial grant. Students may also qualify for a bursary from their higher education institution.

In addition, students with dependants can claim additional grants including: adult dependants grant worth up to £2,510 (£2,575 in 2008/09); parents learning allowance worth up to £1,435 (£1,470 in 2008/09); and child care grant worth up to £7,735 for one child and £13,260 for two or more children.

Students may also apply for support from the Access to Learning Fund, a university-administered fund for students experiencing financial hardship. Student parents are eligible to receive child tax credit from Her Majesty's Revenue and Customs. Mature students who do not qualify for undergraduate student support may be eligible for a Career Development Loan which has an element of subsidy from public funds.

Students over 25 years of age are treated as independent, and are assessed on their own income (and the income of their spouse or partner where applicable) and not on the income of their parents.

Extra support for the disabled is available in the form of Disabled Students' Allowances (DSAs). DSAs can help students in higher education with the additional costs they may incur on their course as a direct result of a disability.

Part-time mature students receive the same support as other part-time students. A fee grant of up to £1,150 (£1,180 in 2008/09) is available, depending on the intensity of the course, together with a course grant of up to £250 (£255 in 2008/09). Disabled Students' Allowances (DSAs) are available to part-time HE students. The Access to Learning Fund (ALF) provides a child care grant which offers a contribution to child care costs for eligible part-time students. Students must have received confirmation that they are entitled to statutory support. During the time it takes to receive this confirmation institutions can, if they wish, provide help with child care from ALF to ensure that child care can be secured from the start of the course.

[1] This is the maximum amount available to students studying in London. Students studying elsewhere can receive up to £4,510 (£4,625 in 2008/09).

Measurements: EC Action

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills what discussions he has had on recent European Commission statements on the legality of the use of imperial measures; and with whom. [198909]

Ian Pearson: The Secretary of State for Innovation, Universities and Skills has not held any such discussions.

Part Time Education: Finance

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what proportion of part-time further education students completed level 3 courses funded by their employer in each year since 2001. [196902]

Bill Rammell: Data on part-time further education students completing level 3 courses funded by their employer is not collected.

Pre-School Education: Training

Mrs. Maria Miller: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of those studying for the Early Years Foundation Degree at university were *(a)* white and *(b)* black and minority ethnic people in each year since 1997, broken down by sex. [197432]

Bill Rammell: No such data exists on the sex or the number and proportion of white and black and minority ethnic students studying for the Early Years Foundation Degree.

Mrs. Maria Miller: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of *(a)* male and *(b)* female students studying for the Early Years Foundation Degree were from socio-economic backgrounds (i) 1 to 3 and (ii) 4 to 8 in each year since 1997. [197440]

Bill Rammell: No such data exists on the number and proportion of male and female students studying for the Early Years Foundation Degree.

Press

Mr. Laws: To ask the Secretary of State for Innovation, Universities and Skills what the cost of the press offices of *(a)* his Department, *(b)* its agencies and (c) its non-departmental public bodies was in each year since1996-97; what the cost was in each quarter since 1 April 2007; and if he will make a statement. [189658]

Mr. Lammy: The Department for Innovation, Universities and Skills (DIUS) was created as a result of Machinery of Government changes in June 2007. As such, the cost of the press offices of the Department, its agencies and its non-departmental public bodies prior to these changes will be reported within the figures presented by the Department for Children, Schools and Families and the Department for Business, Enterprise and Regulatory Reform. To disaggregate these numbers to provide a separate return for DIUS would represent a disproportionate cost.

The 2007-08 accounts for DIUS have not been audited and as such we are unable to provide information for the 2007-08 financial year.

Mr. Laws: To ask the Secretary of State for Innovation, Universities and Skills how many press office staff were employed by *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies (i) in each year since 1996-97 and (ii) at the latest date for which information is available. [189659]

Mr. Lammy: The Department for Innovation, Universities and Skills was formed on 28 June 2007 as a result of the Machinery of Government changes. It currently employs 12 full-time press officers.

For much of its business, the Department operates through a number of arms length bodies including 20 non-departmental public bodies and other agencies. It is the responsibility of each body to manage its staff structure and costs. Therefore the Department does not hold the information requested centrally and there would be a disproportionate cost to gather the information requested.

Publications: Obesity

Greg Clark: To ask the Secretary of State for Innovation, Universities and Skills what the cost was of printing and distributing the publication 'Tackling Obesities: Future Choices'; how many copies were printed; and to whom it was distributed. [194545]

Ian Pearson: The printing and distribution costs for the 'Tackling Obesities: Future Choices' report were about £17,000 and £10,000 respectively. 4,000 copies were printed, including a second edition.

The report was circulated to key stakeholders including relevant Government Departments, academic institutions, non-governmental organisations, the press and those who attended the launch event in October 2007 and other dissemination events and activities. In addition, it was, and continues to be, sent in response to individual requests.

Rackspace

Mr. Hands: To ask the Secretary of State for Innovation, Universities and Skills what the value was of each contract awarded to Rackspace by *(a)* his Department and its predecessors and *(b)* its agencies in each of the last nine years. [197503]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007. Neither DIUS, nor it's agencies, have any contracts with Rackspace.

Salisbury College: Standards

Robert Key: To ask the Secretary of State for Innovation, Universities and Skills if he will place in the Library a copy of the Ofsted report on the last inspection of Salisbury College. [198539]

Bill Rammell: As this is a matter for Ofsted, Her Majesty's Chief Inspector, Christine Gilbert has written to the hon. Member and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 3 April 2008:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief inspector, for reply.

Salisbury College was most recently inspected in November 2007 (having been found inadequate in its previous inspection in October 2006) and a copy of the inspection report is enclosed. This college merged with Wiltshire College as of 1 January 2008, and is now known as Wiltshire College Salisbury.

Wiltshire College was last inspected in October 2007, and the inspection report is available on the Ofsted website http://www.ofsted.gov.uk under Inspection Reports, Further Education Colleges. The direct link is:

http://www.ofsted.gov.uk/reports/pdf/?inspectionNumber=317040&providerCategoryID=524288&fileName=\\school\\132\\c12_132779_20080304.pdf

A copy of this reply has been sent to Bill Rammell MP, Minister of State for Lifelong Learning, Further and Higher Education, and will be placed in the library of both Houses.

Science and Technology Facilities Council

Adam Afriyie: To ask the Secretary of State for Innovation, Universities and Skills if he will place in the Library copies of the minutes from the Science and Technology Facilities Council's Science Board between April 2007 and February 2008 inclusive. [196526]

Ian Pearson *[holding answer 25 March 2008]:* The minutes from the Science and Technology Facilities Council's Science Board between April 2007 and February 2008 inclusive have been published by STFC on its website:

http://www.scitech.ac.uk/About/Strat/Council/AdCom/SciBrd/contents.aspx

Skilled Workers

Mr. Don Foster: To ask the Secretary of State for Innovation, Universities and Skills with reference to the answer of 12 July 2007, *Official Report*, column 1624W, to the hon. Member for South Holland and The Deepings, (Mr. Hayes) on skilled workers, what his most recent estimate is of the number of skill shortage vacancies in *(a)* the construction sector and *(b)* the hospitality, leisure, travel and tourism sector. [197416]

Mr. Lammy: The National Employer Skills Survey (NESS) 2005 for England has the most current publicly available data on skill shortages. The 2005 survey shows that 143,125 employers reported at least one skills shortage vacancy (SSV). Of these, construction accounted for 11,900 skill shortage vacancies. Forecast data by ConstructionSkills anticipates that to meet the demand for new workers, the construction industry in England will need to recruit 74,340 people per annum between 2008 to 2012. The NESS 2005 also shows that

12,900 vacancies in hospitality, leisure, travel and tourism arise as a result of a skills shortage. People 1st research indicates that chef and managerial vacancies are hardest to fill. Updated data on skill shortage vacancies will be available when the NESS 2007 is published after the end of March.

Mr. Jim Cunningham: To ask the Secretary of State for Innovation, Universities and Skills what recent steps the Government has taken to include employers in the formulation of skills policy. [199831]

Mr. Lammy: We are giving employers an unprecedented role in shaping the employment and skills system to ensure it delivers the skills and qualifications that they and the wider economy need.

The new employer-led UK Commission for Employment and Skills became fully operational this month, and brings an unprecedented level of employer leadership and challenge at the heart of the system. It will provide vigorous and expert challenge to Government on its employment and skills strategy, targets and policies.

The network of Sector Skills Councils (SSCs) also has a vital role to play in the development and implementation of skills policy. The UK Commission will lead the reform and re-licensing of SSCs, with a new focused remit to work with employers to articulate the future skills needs of their sector, ensure that the supply of skills and qualifications is driven by their needs; and to raise employer ambition and investment in skills.

DIUS ministers and officials maintain a regular dialogue with employer representative bodies, including the Confederation of British Industry, Federation of Small Business, British Chambers of Commerce and the Engineering Employers' Federation, for example.

Specialist Schools: Capital Investment

Joan Walley: To ask the Secretary of State for Innovation, Universities and Skills what capital spending is planned for *(a)* James Brindley, *(b)* Haywood, *(c)* Brownhills and *(d)* St. Margaret Ward specialist colleges in each of the next three years. [198354]

Jim Knight: I have been asked to reply.

All schools receive devolved formula capital allocations for their immediate investment needs. In each year 2008-09 to 2010-11 this will be calculated on the basis of £18,500 plus £94.50 per secondary school pupil, if the school is unmodernised. Modernised schools will receive half that amount. Resources are also allocated at local authority level, for authorities to invest in accordance with local investment priorities. In the case of these four schools, they will form part of Stoke's Building Schools for the Future project. Construction is expected to begin for these schools in the latter half of the three year period, but there are no firm timescales at this stage.

Student Wastage

Stephen Hesford: To ask the Secretary of State for Innovation, Universities and Skills what percentage of students left university in their first year in the 2006-07 academic year; and what assessment he has made of the reasons for them leaving. [187849]

Bill Rammell: The latest figures available on non-continuation of higher education students are for the 2004/05 academic year. The latest available information is shown in table 1 and is broken down by young (under 21) and mature (21 and over) students and first degree and other undergraduate entrants.

Table 1: Percentage of UK domiciled full-time first degree and other undergraduate entrants not continuing in higher education after their first year, English higher education institutions, academic year 2004/05

Age	First degree	Other UG
Young (under 21)	6.8	16.6
Mature (21 and over)	14.0	14.8

Source:
Performance Indicators in Higher Education, published by HESA.

Figures for the 2005/06 academic year will be available later this year and those for the 2006/07 academic year, in 2009. The Higher Education Statistics Agency do not publish figures on the percentage of part-time students not continuing in higher education after their first year.

According to the figures published by the OECD, the overall completion rate for type A (first degree equivalent) courses in UK universities and colleges of higher education is among the highest in the OECD countries (the UK ranks fifth out of 23 countries who report data in this area).

The percentage of students in England not completing their course has fallen to its lowest since the non-completion performance indicator was introduced, which already starts from a baseline which is low by international standards.

The latest available information for reasons for leaving higher education courses is shown in table 2. This is broken down by first degree and other undergraduate entrants.

Table 2: Number of UK domiciled first degree and other undergraduate entrants[1] who left their course, English higher education institutions, academic year 2006/07

Reason for leaving	First degree	Other UG
Successful completion of course	7,925	48,955
Transferred to another institution	1,830	490
Academic failure/left in bad standing/not permitted to progress	4,995	3,780
Health reasons	625	445
Death	70	50
Financial reasons	610	255
Other personal reasons and dropped out	7,700	5,260
Written off after lapse of time	1,315	1,170

Table 2: Number of UK domiciled first degree and other undergraduate entrants[1] who left their course, English higher education institutions, academic year 2006/07

Reason for leaving	First degree	Other UG
Exclusion	650	345
Gone into employment	690	375
Other	3,840	2,325
Completion of course, result unknown	105	1,940
Unknown	990	935
Total who left course early not having transferred	21,595	16,885
Total who left in academic year	31,350	66,330

[1] Covers both full-time and part-time students.

Note:
Figures are on a HESA Standard Registration Population basis and have been rounded to the nearest five, so components may not sum to totals.

Source:
Higher Education Statistics Agency (HESA).

The reason for leaving information on the HESA student record should be treated with some caution, because the 'other personal reasons and dropped out' and 'other' fields are used extensively. Institutions are not always able to record the precise reason for leaving. Furthermore, HESA allows only one reason for withdrawal to be recorded, however it is likely that many students leave for a combination of reasons.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what information his Department holds on the *(a)* gender, *(b)* socio-economic background and *(c)* ethnicity of students who fail to complete their first degree; and if he will make a statement. [199347]

Bill Rammell: The available information on the proportion of UK-domiciled starters to full-time first degree courses who are projected to neither obtain an award nor transfer to another institution is shown in table 1. It is not possible to break these figures down by gender, socio-economic background or ethnicity. Comparable figures for the 2005/06 academic year will become available in June this year. Information on the actual number of students who are projected to neither obtain an award nor transfer to another institution has not been published.

Table 1: Proportion of full-time first degree starters at English and UK higher education institutions, who were projected to neither gain an award nor transfer to another institution[1] - academic years 1997/98 to 2004/05

Academic year	1997/98	1998/99	1999/2000	2000/01	2001/02	2002/03	2003/04	Percentage 2004/05
England	15.8	15.9	15.8	15.0	13.8	13.9	14.4	13.8
UK	15.7	15.8	15.8	15.0	14.1	14.4	14.9	14.2

Notes:
1. The projected outcomes for a cohort are based on the assumption that their patterns of progression will follow those of students currently in the system. A student is assumed to have left with no award if they have been inactive for two years.
2. Figures from the 1996/97 academic year have been excluded due to a change in methodology between 1996/97 and 1997/98.
3. Figures for years earlier than 1996/97 are not available.

Source:
Performance Indicators in Higher Education, published by the Higher Education Statistics Agency (HESA).

HESA also publishes non-continuation indicators, which show the proportion of entrants to full-time first degree courses not continuing in higher education after their first year. It is possible to break these down by gender, ethnicity and National Statistics Socio-Economic Classification (NS-SEC), and this information is shown in table 2.

Table 2: Proportion of UK-domiciled young[1] entrants to full-time first degree courses at UK higher education institutions not continuing in higher education after their first year by gender, ethnicity and NS-SEC - academic years 2002/03 to 2004/05

Background		2002/03	2003/04	Percentage 2004/05
Gender	Female	6.8	6.7	6.5
	Male	8.9	8.8	8.0
Ethnicity	White	7.6	7.5	7.1
	Non-White	7.4	7.1	6.6
	Unknown	14.4	13.9	13.3
NS-SEC	Groups 1-3	6.3	6.0	5.6
	Groups 4-7	8.1	8.2	7.6
	Unknown	10.6	12.5	11.8

Table 2: Proportion of UK-domiciled young[1] entrants to full-time first degree courses at UK higher education institutions not continuing in higher education after their first year by gender, ethnicity and NS-SEC: academic years 2002/03 to 2004/05

Percentage

Background	2002/03	2003/04	2004/05
All backgrounds	7.8	7.7	7.2

[1] Young refers to entrants who are under 21 years of age.

Notes:
1. Non-continuation rates provide the percentage of students who enter a higher education institution in one academic year, who are no longer in a HEI in the following academic year and have not qualified.
2. Figures for years earlier than 2002/03 are not currently available.

Source:
Higher Education Funding Council for England (HEFCE).

Student retention rates in this country compare very well internationally. The UK ranks fifth in the OECD for first degree completion rates, out of 23 countries who report data in this area. A university education is now open to more students than ever before and the Government are totally committed to providing opportunities for all people to achieve their potential and to maximise their talent.

Students: Fees and Charges

Mr. Jim Cunningham: To ask the Secretary of State for Innovation, Universities and Skills what steps the Government plans to take to prevent students from being banned from university campuses due to late payment of fees. [177316]

Bill Rammell: All eligible students starting their higher education course in the academic year 2006/07 can take out a non means-tested loan for tuition fees: they do not have to pay the fees themselves at the start of the academic year. The fee loan is up to £3,070 in 2007/08 (£3,145 in 2008/09). The Student Loans Company pay the tuition fee direct to higher education institutions; the loan is repaid after graduation on the same terms as loans for maintenance. The policy on payments and attendance is a matter for each higher education institution.

We re-introduced a means-tested higher education maintenance grant for students who started their course in 2006/07. Up to £2,765 is available in 2007/08 (£2,835 in 2008/09). From 2008/09 the minimum threshold (of family income) for a full maintenance grant will be increased from £17,500 a year to £25,000 a year; with a partial grant available up to an income threshold of £60,000. It is expected that up to around two thirds of air students will receive a full-or partial-grant.

For full-time students, maintenance loans are also available—for example up to £6,315 in 2007/08 (£6,475 in 2008/09) for students in London living away from home. Most universities offer institutional bursaries above the mandatory minimum level of £305 in 2007/08 (£310 in 2008/09).

In addition, full-time students with dependants can claim supplementary grants including adult dependants grant; Parents learning allowance and childcare grant. Both full and part-time students can claim disabled students allowances to support the course related costs of disabled students.

For part-time students, in 2007/08 a fee grant of up to £1,150 (£1,180 in 2008/09) is available (depending on how intensive the course is), together with a course grant of up to £250 (£255 in 2008/09).

Students: Finance

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department plans to take to ensure that funds allocated by universities for student bursaries are fully spent. [188042]

Bill Rammell: The director for fair access is responsible for ensuring that universities have satisfactory access agreements in place as a pre-condition of charging variable fees and for ensuring that institutions comply with these obligations. A range of sanctions is available to the director if a university is found to be in breach. In 2006-07, the director has reported that all universities have complied with the obligations in their access agreements.

The question rests on a misunderstanding of how bursaries work. Institutions do not allocate a fixed amount of expenditure for bursaries. They have made forecasts of the costs of their bursaries packages, but these have always contained a level of uncertainty for methodological reasons. Additionally, a number of universities forecast their highest level of overall payment rather than the most probable outcome.

I have always made it clear that where a university is spending less than it had anticipated on bursaries, it would be right to spend on other activities to encourage widening participation, which will not normally be reported under the access agreement. The Russell Group and the 1994 Group of universities and individual institutions have supported this policy.

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills when the sector assessment of the impact of the new funding criteria for equivalent or lower qualification students will be published. [198524]

Bill Rammell: We will respond substantively to this point when we publish our response to the Innovation, Universities and Skills Select Committee's recent report. But any full analysis has to look not just at the characteristics of existing students but also at the millions of potential students without a first higher education qualification who will have more opportunities in future as a result of our policy.

Students: Loans

Dr. Cable: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the revenue which would be received by the Exchequer from increasing the interest rates charged on student loans by (*a*) 0.1 per cent. and (*b*) 1 per cent. in 2008-09. [166346]

Bill Rammell: The principle behind student loans is that borrowers repay broadly the same amount, in real terms, as they have borrowed. The interest rate on student loan balances is therefore fixed at the rate of inflation.

Increasing the interest rate on student loan balances by 0.1 or 1 per cent. above inflation would provide no immediate additional revenue to the Exchequer. Repayments are based on earnings and not the amount borrowed, so increasing the interest rate charged to borrowers would not impact on receipts in 2008-09, although it would impact on receipts in the future.

Under resource accounting, the Government accounts for the full lifetime cost of making a student loan in the year that loan is made. Any change in the way the interest rate was calculated would increase or decrease those costs.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much student grant his Department expects undergraduates from each parental income decile to receive under the first year of operation of the new system announced by the Secretary of State in July 2007. [196637]

Bill Rammell: The July 2007 announcement increases the means-testing threshold below which students are entitled to a full maintenance grant up from £17,910 for entrants in 2007/08 to £25,000 for entrants in 2008/09. The threshold for a partial grant will increase from £38,330 for entrants in 2007/08 to £60,005 for entrants in 2008/09. These thresholds relate to household income.

This will mean that one third of all eligible students in England entering higher education in the academic year 2008/09 are expected to be entitled to a full non-repayable grant worth £2,835 and another one third are expected to be entitled to a partial grant of between £50 and £2,835. Until students apply for support for 2008/09, we do not know the amount of grant per income decile as we do not know exactly where the decile bands will fall on the income scale. Further information on the amount of grant available to students in 2008/09, by household income, is set out in a memorandum entitled "Support Available Under the Student Support Regulations", a copy of which can be found in the House Library.

Due to these reforms, by 2011, the number of students receiving some level of grant will increase by around 100,000. As part of this change, an extra 50,000 students will receive a full grant.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what the *(a)* total and *(b)* per capita student loan take-up was classified by parental (i) income decile and (ii) socio-economic group in each of the last five years. [196640]

Bill Rammell: 75 per cent. of the maximum loan amount available is not means tested, so borrowers choosing to apply only for this part do not provide income details. This will include borrowers who know their household income is too high to be eligible for the means-tested element, those who do not wish to provide income details, and those choosing to take a smaller loan. Data are therefore not available to classify borrowers by income or socio-economic group.

From 2006-07 students from lower income households have had part of their maintenance support met through a non-repayable maintenance grant, and their entitlement to maintenance loan is therefore reduced to reflect this. Loan entitlement is reduced by £1 for every £1 of maintenance grant entitlement up to £1,200 in 2006-07 (£1,230 in 2007-08).

Available data are shown in the table.

Maintenance loans taken out by English domiciled students, sum borrowed and average loan, academic years 2002-03 to 2006-07

Academic year	*Number of loans taken out (thousand)*	*Sum borrowed (£ million)*	*Average value of loan (£)*
2002-03	666	2,161	3,250
2003-04	682	2,258	3,310
2004-05	693	2,349	3,390
2005-06	719	2,496	3,470
2006-07[1]	727	2,608	3,590

[1] Provisional data.

Source:
Student Loans Company

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what the net value of the student loan book is. [199420]

Bill Rammell: The balance of publicly-owned student loans on 31 March 2007 was £18.1 billion, including loans not yet due for repayment. This figure relates to English domiciled students and graduates who studied in the UK, and EU students and graduates who studied in England.

Students: Public Participation

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills who the members of the National Student Forum are; and if he will make a statement. [198834]

Bill Rammell: The National Student Forum (NSF) has been established, as part of our Student Listening Programme, to help amplify the voice of higher education students in Government. It held its first meeting on 28 February 2008. The Forum has an independent chair, Maeve Sherlock.

The confirmed members of the Forum are as follows:

1. Lisa Carson
2. Matthew Gayle
3. Phoebe Hoi Ki Lau
4. Tshering Lama
5. Ismail Malik
6. Akanimo Odon
7. Steve Rigby
8. Rosemary Rimmer-Clay
9. Samina Sabir
10. Christopher Sadler
11. Armineh Soorenian
12. Wes Streeting
13. Serena Trowbridge
14. Gemma Tumelty
15. Kate Wicklow

Work is in hand to confirm appointments for the two outstanding vacancies.

The Forum members represent the broad diversity of students in higher education, including both full-time and part-time students, postgraduates and undergraduates, students with disabilities and international students.

The National Student Forum is an important and innovative development which will help to ensure that the views of students are taken into account in our policy development and implementation.

Training: Apprentices

Mr. Boswell: To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to increase the involvement of Government Departments and agencies in the provision of apprenticeships; and if he will make a statement. [196631]

Mr. Lammy: The Government skills strategy announced on 1 April and agreed by Government Departments and the armed forces aims to raise professional standards and strengthen skills over a three-year period to meet the needs of the sector. This strategy includes a programme to create 500 new apprenticeships in Government Departments. This builds on the good work already done on apprenticeships by some Government Departments such as Department for Work and Pensions, the Ministry of Defence and Government Communications Headquarters (GCHQ).

Universities: Business

Mr. Prisk: To ask the Secretary of State for Innovation, Universities and Skills when the Government expect that every university will be twinned with a business champion. [193764]

Bill Rammell: Business engagement in different forms is increasingly a mainstream activity for every university. Over 90 per cent. provide an inquiry point for small and medium-sized enterprises (SMEs) and over 80 per cent. provide short bespoke courses on company premises. It is for individual higher education institutions (HEIs) to decide the nature of their engagement with business, including whether to twin with a business champion.

However, the demands imposed by global competition mean that Government have a key role to play in creating the conditions within which individual HEIs develop a range of mutually beneficial collaborations with appropriate businesses and employer partners. For example, we have provided the funding to enable the Higher Education Funding Council for England (HEFCE) to deliver its 'Transforming Workforce Development' programme of activities, which is set to enable a wide range of HEIs to work more closely with businesses in supporting work force development. This will allow growth in a new form of higher education, co-funded by employers, that will deliver higher level skills provision that meets business needs.

Vocational Education: USA

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to encourage recognition in the United States of vocational qualifications awarded in the UK. [196990]

Mr. Lammy: The Government are keen to encourage recognition of UK qualifications overseas in order to help our citizens to study or work abroad. National Academic Recognition and Information Centres (NARICs), as do European Network of Information Centres (ENICs), exist to provide information and advice about vocational, academic and professional skills and qualifications from all over the world, and the NARIC/ENIC international network provides similar advice to UK citizens seeking to study or work abroad. In recent years the UK NARIC has worked with the US ENIC on the broad principles relating to recognition practices for vocational and professional qualifications below degree.

Vocational Training: Construction

Harry Cohen: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the compatibility of the training of youth construction workers offered by the Olympic Delivery Authority with the policies of World-Class Apprenticeships: Unlocking Talent, Building Skills for All. [196373]

Mr. Lammy: Our underlying commitments in world-class apprenticeships are to ensure a significant increase in the number and quality of apprenticeships. World-Class Apprenticeships emphasises our commitment to encourage companies contracted to the Government for projects such as the Olympics, to employ apprentices. My right hon. Friend the Minister for the Olympics and London has already responded to the hon. Member's previous question about the Olympic Delivery Authority's plans including their expectations for the provision of apprenticeships.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Innovation, Universities and Skills how much his Department and its predecessors paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199600]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007. DIUS has not made payment to Zurich Financial Services in the 2007-08 financial year.

DEFENCE

Afghanistan: Helicopters

Mr. Ancram: To ask the Secretary of State for Defence how many UK military helicopters were deployed in Afghanistan in *(a)* May 2005 and *(b)* April 2008. [198623]

Des Browne: I am withholding detailed information on the number of military helicopters in Afghanistan, as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces.

Mr. Ancram: To ask the Secretary of State for Defence how many serviceable UK military helicopters there are in *(a)* Helmand province, *(b)* Kandahar and *(c)* Afghanistan, broken down by type. [198626]

Des Browne: The UK has deployed: Chinook CH-47; Sea King; Apache AH-64; and Lynx light-utility helicopters to Afghanistan. I am withholding further information on the number, location and availability of military helicopters in Afghanistan, as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces.

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many British servicemen and women experienced heat exhaustion in *(a)* Afghanistan and *(b)* Iraq in each year since 2006. [193098]

Mr. Bob Ainsworth: The Ministry of Defence records instances of heat illness, as part of its monitoring of climatic injury. Heat illness has traditionally been divided into heat exhaustion and heat stroke, but in practice it is difficult to define the division between the two. Heat illness is therefore used to cover a continuum of illness ranging from mild symptoms such as muscular weakness, headache and excess fatigue to collapse, coma and death.

In Iraq in 2006, 71 service personnel were recorded with a climatic illness, of whom 27 were bedded down in a medical facility as a result. In 2007, 90 service personnel were recorded with a climatic illness of whom nine were bedded down. In Iraq, the temperature and humidity can change very quickly, increasing the likelihood of sudden instances of heat illness.

In Afghanistan, between August 2006 (when data collection started) and the end of 2007, 91 personnel were recorded with a climatic injury of whom 32 were bedded down.

These figures provide an indication of instances of heat illness. It is likely that there have been other cases of heat injury which could not be identified from the available records as they may have been recorded under a variety of symptoms (e.g. dehydration, headache etc.) common to other illnesses.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the Answer of 18 March 2008, *Official Report*, column 812W, on Afghanistan: peacekeeping operations, how many times *(a)* fixed wing and *(b)* rotary wing aircraft from the Mesopotamia Group have supported British troops in Helmand Province since the start of the contract. [196596]

Des Browne: From the start of the ISAF Contracted Air Transport (ICAT) contract until 1 March 2008, the latest date for which data are available, only helicopters have been used, undertaking a total of 23 sorties. This has included making 30 visits to Forward Operating Bases in support of UK forces.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the Answer of 18 March 2008, *Official Report*, column 812W, on Afghanistan: peacekeeping operations, what the start date of the contract was; and how long the contract is for. [196597]

Des Browne: The start date of the ISAF Contracted Air Transport (ICAT) contract was 1 February 2008. This is a 12-month contract, with an option to extend for a further 12 months.

Dr. Fox: To ask the Secretary of State for Defence how many Operational Mentor and Liaison Teams (OMLTs) are in Afghanistan; how many countries are providing troops for OMLTS; and what percentage of OMLTs are led by British forces. [196608]

Des Browne: There are currently 39 Operational Mentor and Liaison Teams (OMLTs), which mentor Afghan National Army personnel, either on the ground in Afghanistan or whose deployment has been confirmed. Troops for OMLTs are contributed by 15 countries. The United States also provides Embedded Training Teams which fulfil a similar role. 18 per cent. of the operational or confirmed OMLTs are led by British forces.

Air Force: Training

Dr. Fox: To ask the Secretary of State for Defence how many hours of training were required for those flying *(a)* fast jets, *(b)* transport aircraft and *(c)* helicopters in the RAF in each year since 2003. [199451]

Mr. Bob Ainsworth: I will write to the hon. Member with the information requested and place a copy of my letter in the Library of the House.

Aircraft Carriers: Design

Dr. Fox: To ask the Secretary of State for Defence what specifications are included in the design of British aircraft carriers to enable them to absorb battle damage shock in the *(a)* superstructure, *(b)* flight deck and *(c)* main hull; what such design specifications have been agreed for the two future aircraft carriers; and if he will make a statement. [198706]

Mr. Bob Ainsworth: Battle damage survivability considerations and shock resilience have been taken into account in the design of aircraft carriers currently in-service and in the agreed design specifications for the two future aircraft carriers. I am, however, withholding detailed design information as its release would, or would be likely to, prejudice the capability, effectiveness or security of our armed forces.

Anti-Terrorism, Crime and Security Act 2001

Harry Cohen: To ask the Secretary of State for Defence whether any Minister has made an authorisation under section 48 of the Anti-terrorism, Crime and Security Act 2001. [199071]

Des Browne: In 2001 the then Secretary of State for Defence signed two authorisations under Section 48 of the Anti-terrorism, Crime and Security Act 2001. I am withholding further information as its release would, or would be likely to, prejudice national security and international relations.

Armed Forces: Deployment

Dr. Fox: To ask the Secretary of State for Defence what percentage of the (a) Army, (b) Navy and (c) Royal Air Force exceeded the guidelines for individual separated service in the latest period for which figures are available. [193089]

Derek Twigg: The latest figures as at 31 December 2007 (Q3 07/08) show that:

Less than 1 per cent of RN/RM personnel were in breach of the single service guidelines.

10.3 per cent of the Army were in breach of separated service guidelines.

This is a year on year improvement from 14.5 per cent in 2006-07 and 13.4 per cent in 2006-07). The Army continues to monitor separated service with due diligence utilising directed recruitment and retention initiatives targeted at pinch point trades in particular.

10 per cent of RAF personnel breached the single Service guideline. This is an increase of 3.3 per cent on the previous quarter due to changes in the base reporting requirements, which has brought the RAF into line with the RN and Army reporting.

Nick Harvey: To ask the Secretary of State for Defence what the average length of non-combat deployment for servicemen and women stationed within the UK is, not including short-term training exercises, that does not require relocation. [197931]

Mr. Bob Ainsworth: The information is not held in the format requested and could be provided only at disproportionate cost.

Dr. Fox: To ask the Secretary of State for Defence how many UK service personnel were deployed on operations, broken down by location of deployment, at the most recent date for which figures are available. [199473]

Des Browne: The following table provides the number of UK service personnel deployed on operations by location as at 31 March 2008. The number of personnel in theatre will naturally fluctuate on a daily basis for a variety of reasons, including leave (rest and recuperation), temporary absence for training, evacuation for medical reasons, the roulement of forces and other factors.

Number of personnel deployed by location[1]

Location	*Number*
Of which:	
Afghanistan[2]	8,600
Iraq	3,900
At sea	700
Qatar	400
Cyprus	280
Kuwait	260
Oman	190
Kosovo	130
Bahrain	70
Bosnia	10
Other	20
Total	14,590

1. Countries with 10 or more personnel are shown separately. Other countries with fewer than 10 personnel per country include Georgia, Nepal, Sudan, Sierra Leone, Democratic Republic of Congo and Liberia.

2. Figures for Afghanistan are artificially high due to a current 'relief in place' roulement of forces in operation.

Note:
Numbers for each location are rounded to the nearest 10, except for Iraq and Afghanistan which have been rounded to the nearest 100.

Armed Forces: Health Services

Mr. Ellwood: To ask the Secretary of State for Defence what plans his Department has to provide a new swimming pool at Defence Medical Service Rehabilitation Centre at Headley Court. [184924]

Derek Twigg *[holding answer 5 February 2008]:* The Defence Medical Rehabilitation Centre at Headley Court has a hydrotherapy pool on site which is in regular use. The centre has also for many years used a local authority swimming pool for water-based therapy, as part of its comprehensive rehabilitation programme.

A new charity, Help for Heroes, has offered to raise funds to build a swimming pool at Headley Court, as part of a new rehabilitation complex on the site. We warmly welcome this very generous offer, in addition to the money we plan to spend to enhance the unit's existing facilities. We shall work closely with the charity as its proposals are developed. Headley Court is owned by a Charitable Trust and charitable funding has contributed to the enhancement of the facilities at Headley Court since the site was first used for the rehabilitation of military personnel in 1946.

Dr. Murrison: To ask the Secretary of State for Defence how much was paid out by his Department for medical negligence claims made by *(a)* service personnel and *(b)* service dependants relating to their treatment in (i) service facilities, (ii) civilian medical facilities abroad and (iii) civilian medical facilities in the UK in each year since 1997. [199671]

Derek Twigg: The amount of compensation, including legal costs, paid out each year for clinical negligence claims to service personnel and civilian personnel, which includes service dependants, since 1997-98 is set out in the following table. Claims are not recorded in a format that differentiates between medical facilities in the UK and overseas nor between service and civilian facilities.

£ million

	Service personnel claims	*Civilian claims*	*Total*
1997-98	0.4	3.1	3.5
1998-99	2.3	7.5	9.8
1999-2000	2.5	7.2	9.7
2000-01	6.1	4.5	10.6

£ million

	Service personnel claims	Civilian claims	Total
2001-02	0.8	8.2	9.0
2002-03	3.9	5.1	9.0
2003-04	2.6	3.4	6.0
2004-05	3.3	2.7	6.0
2005-06	3.8	0.7	4.5
2006-07	1.5	1.5	3.0

Armed Forces: Housing

Nick Harvey: To ask the Secretary of State for Defence pursuant to the Answer of 11 March 2008, *Official Report*, column 288W, on armed forces: housing, what was being repaired in the case of the call-out which took 324 days to resolve; and what the reasons were for the time taken to resolve the case. [198327]

Derek Twigg: At the time the data was taken MHS data collection processes and housekeeping procedures were still being developed. While works had been completed in a timely fashion, many orders had not been closed on the system. It is believed that the repair was completed in less than 324 days, but was recorded retrospectively on our repair reporting system. The system has since been updated to ensure that similar anomalies do not occur in the future. The change in process has, however, meant that it is not now possible to retrieve details of this repair.

Nick Harvey: To ask the Secretary of State for Defence how many service family accommodation units that are both earmarked for disposal or demolition and no longer in use as family accommodation are within a perimeter security fence; and how much rent his Department paid in respect of such units in the last financial year. [198826]

Derek Twigg: There are currently 112 service family accommodation (SFA) properties in England and Wales which are located within a perimeter fence and are earmarked for disposal, the vast majority of which are currently void. These are owned by Annington Homes Ltd. (AHL). No properties within a perimeter fence are earmarked for demolition.

The MOD pays 42 per cent. of the market rent on each of these properties. However, as the number of void properties across the estate changes constantly, it is not possible to identify an exact sum for rent paid on AHL void properties over the last financial year. The average rent paid to AHL across all properties has recently been recalculated at £3,650 per property per annum.

Bob Russell: To ask the Secretary of State for Defence how much of the proceeds from the sale of his Department's former housing and other land, subsequently sold by Annington estates, was passed to the Government in each year since such sales have taken place; and what this represented as a percentage of the sale price in each year. [199226]

Derek Twigg: I refer the hon. Member to the answer I gave on 31 March 2008, *Official Report*, column 514W.

The current percentage received is 19 per cent. Up to 2012 the percentage reduces year by year on a sliding scale from the date of the sale of the service family accommodation estate in England and Wales to Annington Homes Ltd.

Bob Russell: To ask the Secretary of State for Defence how much his Department paid Annington estates in *(a)* rent and *(b)* costs of maintenance of residential dwellings in each year since the company acquired his former Department's properties. [199227]

Derek Twigg: The rental figures paid to Annington Homes Ltd for all properties are as follows (by calendar year):

	£
1996	44,545,831.10
1997	109,588,221.71
1998	104,279,336.72
1999	104,582,001.10
2000	111,038,380.36
2001	115,412,276.57
2002	122,333,291.55
2003	130,758,425.28
2004	130,906,106.14
2005	136,444,876.74
2006	142,412,664.41
2007	147,284,003.45
2008	[1]37,885,404.64

[1] To March 2008

No payments were made to Annington Homes for costs of maintenance of properties that are underleased for Service occupation.

Bob Russell: To ask the Secretary of State for Defence what mechanisms are in place to ensure that the Government receive from Annington estates or Annington Homes Ltd a percentage of the profit which the company makes on the subsequent disposal of former Ministry of Defence *(a)* housing and *(b)* land. [199231]

Derek Twigg: The 1996 Sale Agreement with Annington Homes Ltd includes a Profit Share Agreement. Under this, the Exchequer receives a percentage of any profit made on the subsequent disposal of properties and land that form part of a release to the company. To date the Exchequer has received some £140 million under this arrangement.

Bob Russell: To ask the Secretary of State for Defence how much his Department paid for improvements and modernisation of residential dwellings owned by Annington Homes Ltd in Colchester constituency which have subsequently been handed back to Annington Homes Ltd in each year since the company acquired the properties. [199232]

Derek Twigg: Our records show no service family accommodation in Colchester that has been handed back to Annington Homes Ltd after having improvement or modernisation work carried out.

Bob Russell: To ask the Secretary of State for Defence how much his Department paid for improvements and modernisation of residential dwellings owned by Annington Homes Ltd in Colchester constituency in each year since the company acquired the properties. [199233]

Derek Twigg: The Department retains responsibility for the maintenance and upgrade of service family accommodation (SFA) owned by Annington Homes Ltd.

The amount spent on improvements and modernisation of SFA in the Colchester constituency each year since 1996 is as follows:

	Total (£ million)
1997-98	0.5
1998-99	1.5
1999-2000	1.3
2000-01	1.8
2001-02	1.9
2002-03	1.2
2003-04	1.1
2004-05	1.6
2005-06	0.7
2006-07	0.5
2007-08	0.65

Bob Russell: To ask the Secretary of State for Defence how many former residential properties of his Department were handed back for sale in each year since acquisition by Annington estates. [199234]

Derek Twigg: Since the 1996 sale of service family accommodation to Annington Homes Ltd, the following numbers have been returned in each year:

	Number
1996	0
1997	8
1998	1,366
1999	1,188
2000	2,679
2001	2,640
2002	2,195
2003	1,513
2004	624
2005	591
2006	420
2007	187

Bob Russell: To ask the Secretary of State for Defence how many of the former Ministry of Defence dwellings in Colchester constituency which have been returned to Annington Homes have subsequently been demolished. [199237]

Derek Twigg: This is a matter for Annington Homes Ltd. Once surplus properties are returned to the company and the Department no longer has responsibility for them we do not need to record such information.

Bob Russell: To ask the Secretary of State for Defence pursuant to the answer of 19 March 2008, *Official Report*, column 514W, on Colchester, how many of his Department's former residential properties in Colchester constituency were returned to Annington Homes Ltd in *(a)* 2006 and *(b)* 2007; and how many it is proposed to return in 2008. [199268]

Derek Twigg: No service family accommodation in Colchester was returned to Annington Homes Ltd in financial years 2006-07 or 2007-08. However, we plan to return around 100 properties in 2008-09.

Armed Forces: Income Support

Mike Penning: To ask the Secretary of State for Defence how many servicemen and women are in receipt of income support; and if he will make a statement. [196869]

Mr. Plaskitt: I have been asked to reply.

The information is not available.

Armed Forces: Influenza

Dr. Murrison: To ask the Secretary of State for Defence what the total medical stock requirement is of the armed forces in the event of an influenza pandemic, broken down by type of medical stock; whether all such estimated medical stock requirements are now held in medical units, as stated in paragraph 16 of the Health Protection Agency and Defence Medical Service's Pandemic Influenza: Infection Control guidance for military settings—guidance for military healthcare staff and their commanders, published October 2006; and if he will make a statement. [195312]

Derek Twigg: The circumstances of a pandemic, coupled with MOD operations, will dictate the actual medical requirements. However, the following table illustrates the quantities of infection control consumables that have been distributed to MOD Medical Centres, based on each Centre's assessment of its individual requirement in accordance with the Health Protection Agency/Defence Medical Service's guidance. Items will be used, and stocks replenished, as required during day-to-day business.

Category	*Number (total)*
Aprons	160,700
Respirator and Masks	278,000
Medical Disposal	1,200
Cannula	12,800
Catheter	1,400
Gloves	152,100
Needles	19,000
Syringes	6,900
Hand Hygiene	13,500
Bed Linen	300

Note:
Items have been summarised under MOD's main stock categories, and the numbers rounded to the nearest 100.

Armed Forces: Insurance

Ann Winterton: To ask the Secretary of State for Defence what level of insurance protection for injury or death may be obtained by *(a)* Territorial Army and *(b)* regular Army personnel on operational deployment; and if he will make a statement. [198709]

Mr. Bob Ainsworth: Life insurance is optional and is for those requiring additional cover above that provided by the Armed Forces and Reserve Forces Pension and Compensation Schemes. MOD facilitates voluntary insurance arrangements through commercial providers for personnel requiring cover.

The cover provided by the PAX (for regular) and RPAX schemes (for reserve personnel including the TA) is virtually the same. Both primarily provide personal accident cover, but also include cover for injury and death resulting from war and terrorism, and (at an extra premium) death from natural causes. Both provide personal accident cover for bodily injury that causes permanent disability and also for certain fractures, burns and hospitalisation. The maximum cover for death is £150,000. The maximum catastrophic disability cover is £750,000 for quadriplegia and £400,000 for paraplegia, with up to £300,000 for other disabilities. From 1 March 2008 PAX increased its premiums, enhanced its cover for burns and added cover for flesh wounds; these changes will be replicated for RPAX in the near future.

Service Life Insurance (SLI) provides life cover and was launched by MOD on 8 May 2007. SLI guarantees Regular and Reservists (including the TA) worldwide war and terrorism cover, at competitive premiums, throughout their service and beyond. It provides this by means of a unique partnering arrangement with the commercial providers of the scheme, Sterling Life. The maximum life cover available is £200,000.

MOD's Service Risks Insurance Premium Refunds (SRIPs) scheme contributes towards the inflated life insurance premiums which some insurers charge personnel (both regulars and reservists) in certain high risk trades and those serving on operations. The compensation available is 90 per cent. of the extra premium up to a total sum assured. The latter is increased every year in line with service pay and is currently £162,000.

Individuals requiring insurance cover can join any insurance scheme they choose and are not obliged to join PAX, RPAX or SLI.

Armed Forces: Leave

Dr. Murrison: To ask the Secretary of State for Defence how many soldiers did not take their full entitlement to annual leave in each year since 1997. [199066]

Mr. Bob Ainsworth: The information requested is not held in the format requested, and could only be provided at disproportionate cost.

Dr. Murrison: To ask the Secretary of State for Defence how many soldiers carried over leave to the next leave year in each year since 1997. [199076]

Mr. Bob Ainsworth: The information requested is not held in the format requested and could only be provided at disproportionate cost.

Armed Forces: Manpower

Nick Harvey: To ask the Secretary of State for Defence (1) how many units in each branch of the armed forces do not have an assigned unit welfare officer; [197929]

(2) what the average number of individuals including servicemen and women's family members assigned to each unit welfare officer is. [197930]

Derek Twigg: The welfare and community support of service personnel and their families is given a high priority by the MOD business. It covers a wide remit and is provided by the chain of command as well as by dedicated welfare providers. All units within the three services have dedicated personnel with direct responsibility for the welfare of its service personnel and their families.

Armed Forces: Pay

Dr. Murrison: To ask the Secretary of State for Defence how many *(a)* soldiers, *(b)* sailors and *(c)* airmen were paid late in each year since 1997. [199545]

Mr. Bob Ainsworth: Information on the number of soldiers, sailors and airmen paid late is shown in the following table and is only available by financial year from 2001-02.

Financial year	*Naval service*	*Army*	*Royal Air Force*
2001-02	0	0	0
2002-03	0	0	29
2004-05	0	0	26
2005-06	371	103	0
2006-07	0	0	773
2007-08	0	0	0

Notes:
1. Soldiers, sailors and airmen have been interpreted as all Royal Navy (with Royal Marines), Army and Royal Air Force personnel.
2. The definition of a late payment is when no money is paid into an individual's account on the designated day for that month.
3. The transition to the new Joint Personnel Administration system had an impact on the achievement of timeliness during FY 2005-06 and FY 2006-07.

Dr. Murrison: To ask the Secretary of State for Defence how many armed forces veterans had their terminal benefits paid late in each year since 1997. [199546]

Derek Twigg: Information on the number of armed forces veterans who had their terminal benefits paid late is only available by financial year from 2001-02.

Financial year	*Number*
2001-02	1
2002-03	1
2003-04	0
2004-05	3
2005-06	3

Financial year	Number
2006-07	1,707
2007-08	645

For the purposes of the answer late is defined as not meeting the Service Personnel and Veterans Agency (SPVA) internal target for the payment of terminal benefits (i.e. to authorise payment within five working days of receipt of all relevant documents or from the discharge date, whichever is the later).

In order to reduce late payment and to meet the target turn around time a dedicated service leavers team has been created and personnel have undergone additional training which is having a positive impact.

Armed Forces: Prison Accommodation

Mr. Duncan Smith: To ask the Secretary of State for Defence (1) what the cost of the Military Corrective Training Centre, Colchester was in the latest 12 month period for which figures are available; [198480]

(2) what the cost per annum was to maintain a detainee at the Military Corrective Training Centre, Colchester in the latest period for which figures are available; [198481]

(3) how much was spent on *(a)* training, *(b)* rehabilitation and *(c)* education for inmates at the Military Correction Training Centre at Colchester's budget in 2005-06. [198483]

Mr. Bob Ainsworth: I will write to the right hon. Member and place a copy of my letter in the Library of the House.

Mr. Duncan Smith: To ask the Secretary of State for Defence what the salary scales are for members of the armed forces employed at the Military Correction Training Centre, Colchester. [198482]

Mr. Bob Ainsworth: Pay rates for UK Service personnel are recommended annually by the independent armed forces' pay review body (AFPRB). The AFPRB bases its recommendations on broad compatibility with the pay of civilian occupations of similar job weight and responsibility within the UK. The 2008 report of the AFPRB was published on 7 February, and copies are available in the Library of the House.

Pay scales for members of the armed forces employed at the Military Correction Training Centre, Colchester, are the same as those for individuals serving elsewhere. The scales for the ranks employed at MCTC are as follows:

Service/Rank	Pay scale (£)
Army	
Lieutenant Colonel	63,927 to 74,023
Major	45,549 to 54,551
Captain	36,160 to 43,002
Warrant Officer Class 1	36,812 to 44,588
Warrant Officer Class 2	31,684 to 41,249
Staff Sergeant	31,684 to 41,249
Sergeant	28,623 to 35,219
Corporal	25,182 to 31,646
RAF	
Flight Lieutenant	36,160 to 43,002
Sergeant	28,623 to 35,219
Corporal	25,182 to 31,646
Royal Navy/Royal Marines	
Lieutenant	36,160 to 43,002
Petty Officer	28,623 to 35,219
Sergeant (RM)	28,623 to 35,219
Able Rating First Class	16,227 to 27,599

Armed Forces: Publications

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library copies of the joint service publications *(a)* JSP 350, *(b)* JSP 362, *(c)* JSP 368 and *(d)* JSP 381. [175424]

Derek Twigg: Copies of these publications have been placed in the Library of the House.

Armed Forces: Training

Mike Penning: To ask the Secretary of State for Defence what estimate he has made of the cost of training new recruits to the armed forces to meet the rate of resignations as a percentage of each force's total salary bill; and if he will make a statement. [197140]

Mr. Bob Ainsworth: The services set Gains to Trained Strength (GTS) targets for five years in advance, based on forecast strength requirements. These are then translated into annual recruiting targets taking into account phase 1 and phase 2 training wastage rates (both current and predicted), the previous year's GTS achievement, and any planned changes to training and their expected affects (for example, higher or lower wastage rates).

The annual cost of training (phase 1 plus phase 2 training) new recruits to the armed forces is some £1,061 million.

The armed forces total salary bill for financial year 2006-07 was £8,422million.

Dr. Fox: To ask the Secretary of State for Defence how many and what percentage of armed forces training exercises were cancelled in 2007-08. [199476]

Mr. Bob Ainsworth: During the period 2007-08,76 (10.5 per cent.) of the 722 training exercises scheduled in the Defence Exercise Programme were cancelled.

Mark Pritchard: To ask the Secretary of State for Defence what estimate he has made of likely savings as a result of the Defence training review over the next 25 years. [199995]

Mr. Bob Ainsworth: The broad projection of the through-life (30 years) savings of the DTR Package 1 project is approximately £400 million, although this continues to be subject to development of the Metrix solution. As previously announced, the way ahead for Package 2 is the subject of further work and therefore no specific estimate of the likely savings can yet be made.

Armed Forces: Uniforms

Mr. Hancock: To ask the Secretary of State for Defence if he will ensure that pelts used to provide bearskin do not come from mother bears shot in front of their cubs; and if he will make a statement. [198792]

Mr. Bob Ainsworth: There have been no pelts procured to produce bearskin caps for the MOD since 2003. Any future requirement would be sourced under the Convention on International Trade in Endangered Species from licensed traders operating under the jurisdiction of the Canadian authorities.

Bob Spink: To ask the Secretary of State for Defence what recent assessment he has made of the alternatives to using bearskin for the manufacture of Guards' caps; and if he will make a statement. [199368]

Mr. Bob Ainsworth: The MOD has been actively seeking an acceptable alternative to real fur for some years and continues to invest in samples and treatments of imitation bearskin. Although successful in identifying fur alternatives for other aspects of ceremonial dress, replicating the complex structure of bear's fur has proven to be a significant challenge and no suitable fur alternative to the Guards bearskin cap has yet been identified. A number of trials have taken place but unfortunately proved unsuccessful. Further trials will take place once suitable products have been identified.

Armed Forces: Widowed People

Mr. Arbuthnot: To ask the Secretary of State for Defence how many armed forces widows voluntarily surrendered their pensions on remarriage or cohabitation in each of the last five years; and what the associated saving to the defence budget was in each year. [169976]

Derek Twigg: I am aware that a number of months have now elapsed since I agreed to write to the right hon. Gentleman following his parliamentary question on 3 December 2007, *Official Report*, column 824W, about how many Armed Forces widows in each of the last five years voluntarily surrendered their pension on remarriage or cohabitation; and what the associated saving to the defence budget was in each year.

As I explained in my answer, an exercise is currently being undertaken to provide detailed figures. This has involved the Service Personnel and Veterans Agency conducting a bespoke exercise in order to generate the necessary data required by the scheme actuary to conduct an analysis to answer the second part of your question.

Unfortunately, this exercise has taken longer than originally anticipated, but I can advise that it is nearing completion and I hope to be in a position to respond to you shortly after the Easter recess.

Armoured Fighting Vehicles

Dr. Fox: To ask the Secretary of State for Defence what his most recent estimate is of the cost of the *(a)* Bulldog and *(b)* Vector vehicle programmes. [190726]

Mr. Bob Ainsworth: The recent cost estimates for the Bulldog conversion and Vector vehicle procurement programmes are £184 million and £40 million respectively, excluding through life support costs. The estimates also exclude expenditure on additional Urgent Operational Requirements, which are ongoing or that have recently been delivered, as these remain commercially and operationally sensitive.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Defence at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196949]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at a disproportionate cost. We have not made an assessment of the merits of serving Fairtrade wine.

Departmental Contracts

Mr. Hands: To ask the Secretary of State for Defence which companies have been awarded contracts by *(a)* his Department and *(b)* its agencies for (i) IT projects and (ii) human resources projects in each of the last five years; what the value of each contract awarded was; and what the purpose of each contract was. [197516]

Mr. Bob Ainsworth: The information is not held centrally and could be provided only at disproportionate cost.

Departmental Data Protection

Mr. Laurence Robertson: To ask the Secretary of State for Defence what steps he takes when it appears that personal data held by his Department has been *(a)* lost and *(b)* disclosed without authorisation; and if he will make a statement. [190449]

Mr. Bob Ainsworth: The Ministry of Defence views the loss of any personal data seriously and takes all the necessary steps following a loss to ensure that individuals are protected as far as possible against the unauthorised use of their personal information. In the recent case of the loss of recruitment data, this has included providing banks with account details where they were held in order that they can monitor accounts for unauthorised activity. In addition, MOD officials were in contact with the Department for Work and Pensions, HM Revenue and Customs, Driver and Vehicle Licensing Agency, Identity and Passport Service and the Border and Immigration Agency.

As announced to the House on 21 January 2008, the Secretary of State for Defence has invited Sir Edmund Burton, Chairman of the Information Assurance Advisory Council, to establish the exact circumstances and events that led to the loss of personal data. Specifically he will examine: the adequacy of the steps taken to prevent any recurrence; MOD policy, practice and management arrangements in respect of the protection of personal data more generally; and make

recommendations. It would therefore be premature to comment on any possible findings from the report.

The Ministry of Defence has formal processes in place to ensure that suspected leaks of official information, including personal data, are thoroughly investigated. Such enquiries may be conducted by the Ministry of Defence police, service police forces or the civilian police as appropriate. Memorandums of Understanding between the Ministry of Defence and the civilian police are in place detailing respective responsibilities.

Departmental Databases

Nick Harvey: To ask the Secretary of State for Defence how many requests his Department has received in each year since 1997 from the National Audit Office for access to databases containing personal information on members of the public. [170836]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Defence what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197163]

Des Browne: I have not visited any of the listed venues in a ministerial capacity between 1 January 2005 and 31 December 2007.

Departmental Early Retirement

Dr. Murrison: To ask the Secretary of State for Defence what the arrangements are for *(a)* communication of pension entitlement, *(b)* payment of lump sum payment and *(c)* confirmation of pension estimate for those officials from his Department who retired under the voluntary early redundancy scheme on 31 March 2008. [199540]

Derek Twigg: The arrangements for estimating and paying those who leave the Department under the voluntary early release scheme are governed by the Principal Civil Service Pension Scheme. The process includes providing an estimate some four months before departure, and then a defined series of steps to enable the correct sum to be confirmed and to be paid as soon as possible following departure.

Dr. Murrison: To ask the Secretary of State for Defence how many officials from his Department retired under the voluntary early redundancy scheme on 31 March 2008; what proportion of them were not paid their redundancy payment; and for what reason; when he expects *(a)* lump sum payments and *(b)* confirmation of pension payments to be made to those people; whether those people will be entitled to compensation in consequence of the time taken to (i) confirm arrangements and (ii) pay the lump sum; and if he will make a statement. [199541]

Derek Twigg: 563 civilian staff left the Ministry of Defence under the early release scheme with a last day of service of 31 March 2008. Of those, authorisation of payment of lump sum had not been made for 194, primarily because of the unusually high number of leavers on the same day.

All final notification of awards is expected to be complete by 18 April, making it possible for all awards to be made by the end of April. If payments cannot be made until more than one month after departure, we do consider the case for ex-gratia compensation, depending on the circumstances of a specific case.

Departmental Pay

Mr. Hands: To ask the Secretary of State for Defence pursuant to the answer of 1 April 2008, *Official Report*, columns 734-35W, what paid leave entitlements apply to casual staff in his Department. [199667]

Derek Twigg: Casual staff receive the same paid leave entitlements as permanent staff. Entitlement is based on length of qualifying service which is currently set at 25 days on entry but may be increased to 30 days if previous reckonable service has occurred with a recognised public body. In addition all staff receive public and privilege holidays which total 10.5 days. Both are pro rata if they are part-time.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Defence how many days sick leave were taken on average by staff in his Department in each of the last five years. [198952]

Derek Twigg: The following table displays average working days lost for MOD civilian personnel[1] per calendar year 2003 to 2007.

	Average working days lost per calendar year		
	Non-industrial	*Industrial*	*Total*
2003	9.00	13.90	10.00
2004	8.60	14.20	9.70
2005[2]	8.55	12.54	9.30
2006[2]	8.04	12.11	8.82
2007[2]	8.23	11.85	[3]8.61

[1] This includes all permanent and casual non-industrial and industrial civilian personnel, but excludes Trading Fund (except 31 December 2007 figure), Locally Engaged Civilian and Royal Fleet Auxiliary personnel.

[2] Figures from 2005 onwards are calculated using the Cabinet Office definition of Working Days. Figures prior to this are calculated using the Standardised definition.

[3] Total includes Trading Fund personnel, due to a change in definition. Industrial and non-industrial totals may differ from previously published figures for 2007 due to this change in definition.

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Defence whether his Department is on course to meet sustainable operations on the Government estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [198037]

Derek Twigg: The Ministry of Defence (MOD) is committed to working to meet the UK Government sustainable operations on the Government estate targets. For the target to source at least 10 per cent. of its electricity from renewable sources, it was agreed that given the very large scale of the MOD estate the MOD should achieve this target by 2010, rather than by 31 March 2008. The latest available data show that, in 2006-07, 8.8 per cent. of electricity procured by MOD through centrally let contracts was sourced from renewable sources.

In 2006-07, the MOD achieved around a 37 per cent. recycling rate. We will continue to reduce waste and are committed to recovering and recycling more commercial and industrial waste than we send to landfill by 2012 on the way towards becoming a zero-waste to landfill organisation by 2020.

John McDonnell: To ask the Secretary of State for Defence (1) whether his Department has adopted the Carbon Trust's Carbon Management Programme or plans to do so in the next 12 months; [198038]

(2) whether his Department met the target in the Sustainable Operations on the Government Estate to reverse the upward trend in carbon emissions by April 2007. [198039]

Derek Twigg: At the time of the launch of the Sustainable Operations on the Government Estates (SOGE) targets in June 2006, the Ministry of Defence (MOD) had already achieved reductions in CO_2 emissions from its estate. This trend has continued for the financial year 2006-07 with the MOD achieving an 8 per cent. reduction in CO_2 emissions from the MOD Estate against a 1999-2000 baseline (adjusted in March 2008).

MOD continues to work with the Carbon Trust to trial the Carbon Management Programme on the Office Estate and this will inform adoption elsewhere within the Department. As part of this work MOD is developing the strategy necessary to ensure the carbon neutrality of the Office Estate and Top Level Budget Holders' Headquarters by 2012.

John McDonnell: To ask the Secretary of State for Defence whether his Department is working towards an accredited certified environmental management system *(a)* for its whole estate and *(b)* in some of its buildings. [198040]

Derek Twigg: The Ministry of Defence's (MOD) Top Level Budget Holders (TLBs) and Trading Fund Agencies (TFAs) are responsible for developing Environmental Management Systems (EMSs) suitable for their different functions and estates. All of these EMSs must be based on ISO 14001 standards. TLBs/TFAs are empowered to decide whether ISO 14001 accreditation is appropriate for their organisation.

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Defence what *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public are in use by (i) his Department and (ii) agencies which report to his Department. [200124]

Derek Twigg: The use of 0800, 0845 or 0870 numbers in the Department and its agencies is determined at local level in accordance with individual business requirements and ordered directly from the supplier. Records of these numbers are not held centrally and could be provided only at disproportionate cost.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Defence if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195885]

Derek Twigg: The MOD makes good use of video conferencing and continues to refresh the existing video conferencing facilities which have been in use for many years. No targets have been set to increase the use of video conferencing, however, we are determined to reduce the cost of travel and we have put in place the Defence Travel Modernisation programme which is designed to reduce the cost of travel to the Department but, in addition, to enable better management oversight of travel patterns and so manage the need to travel. Areas under consideration include facilities to support remote working where savings of some £10 million are expected over the next five years.

EC Defence Policy

Dr. Fox: To ask the Secretary of State for Defence what the remit of the EU Contributors' Committee is; upon what authority it is established; who the chair is; which countries are represented on the committee; what role the European Commission has in the committee; and if he will make a statement. [198796]

Mr. Bob Ainsworth: A Committee of Contributors is set up in advance of each ESDP operation. It plays a key role as the main forum for contributing nations collectively to discuss all problems relating to the day-to-day management of the operation. The principle of the Committee of Contributors and its role were agreed at the European Council at Nice in 2000.

Each Committee of Contributors is usually chaired by a representative of the Secretary-General/High Representative or the presidency, assisted by the chairman of the Military Committee of his Deputy.

All EU member states are entitled to be present at the Committee's discussions irrespective of whether or not they are taking part in the operation, but only contributing states will take part in the day-to-day management of the operation. Non EU European allies and other countries deploying significant military

forces under an EU-led operation will have the same rights and obligations in terms of day-to-day management of the operation as EU member states taking part in the operation, including sitting on the Committee of Contributors for that mission.

Representatives of the Commission and other stakeholders may be invited for relevant parts of the Committee's discussion, as appropriate.

Electronic Government

Mr. Weir: To ask the Secretary of State for Defence whether mechanisms are in place to monitor the extent to which his Department's *(a)* internal and *(b)* external (i) correspondence and (ii) distribution of publications is carried out electronically. [199196]

Derek Twigg: There are currently no mechanisms within the MOD to monitor the amount or extent of electronically published material or correspondence. It is MOD policy to reduce the dependency and the amount of paper used within the Department and the significant majority of the Department's manuals and guidance documents are now available in electronic format. Staff are encouraged to use email internally and when appropriate for any external correspondence. Likewise, publication directly to the MOD's website (www.mod.uk) is encouraged.

Gurkha Welfare Trust: Finance

John Austin: To ask the Secretary of State for Defence how much his Department contributed to the Gurkha Welfare Trust in each of the last three years; what evaluation he has carried out of the Trust's work; and what plans he has for future funding. [198337]

Derek Twigg: The Ministry of Defence supports the work of the Gurkha Welfare Trust through the provision of an annual grant in aid. In the last three years this has amounted to:

Financial year	£
2005-06	878,000
2006-07	[1]679,000
2007-08	988,000

[1] A carry over of funds from the previous year meant that less money than originally budgeted was required by the trust in 2006-07

This money contributes to the administrative costs of the trust's Gurkha Welfare Scheme in Nepal and enables the MOD to fulfil its obligations to pay pensions and deal with welfare issues for serving soldiers in the more remote regions of Nepal.

The Gurkha Welfare Trust is a registered charity, independent of the Ministry of Defence. It only formally reports to the Ministry of Defence on the expenditure of the grant. However, it is the Department's view that the trust, through its field arm, the Gurkha Welfare Scheme, conducts invaluable work in Nepal, including the payment of welfare pensions to the Gurkha ex-servicemen and widows who do not qualify for a service pension. It provides, free of charge, even in the most remote areas of Nepal where ex-servicemen live, primary health care including doctors' clinics. In addition it provides secondary health care free for all those not in receipt of a service pension and subsidised by 70 per cent. for those who do have a pension. It is involved in delivering community aid including bridge building, drinking water projects and building schools, which benefits not only the ex-service community but the infrastructure of the country as a whole in the brigade's traditional recruiting areas in the foothills of Nepal.

The grant in aid is provided by the Department under the terms of a Memorandum of Understanding. The terms of the arrangement are reviewed every five years.

Iraq: Peacekeeping Operations

Dr. Murrison: To ask the Secretary of State for Defence how many troops deployed to Iraq *(a)* were entitled to operational allowance and *(b)* received operational allowance in each year since its inception. [184310]

Derek Twigg: All Service personnel deployed to Iraq are entitled to receive the operational allowance, which can be paid for a deployment of one day or more.

Providing details of those personnel who have received the operational allowance specifically for deployment to Iraq and by year is not held, and could be provided only at disproportionate cost.

Dr. Fox: To ask the Secretary of State for Defence what the mission statement is for British troops in Iraq. [196615]

Des Browne: The mission of UK forces in southern Iraq is to support the government of Iraq and their security forces so that they can take responsibility for ensuring security without coalition assistance and create the conditions for economic and political development. This involves monitoring, mentoring and training the Iraqi Security Forces (ISF) and providing support to ISF-led operations when requested. UK forces also undertake a range of force protection and logistic duties in support of the multi-national force's mission.

Nick Harvey: To ask the Secretary of State for Defence how many Territorial Army and Reservist personnel who have been deployed on operations in Iraq and Afghanistan have not undertaken Operational Training and Assessment Group training. [198835]

Des Browne: Territorial Army or Reservist personnel deploying to either Iraq or Afghanistan, or visiting either theatre for six days or more, must have completed Operational Training and Assessment Group (OPTAG) training prior to deployment. Those personnel who are visiting these theatres for a period of five days or less are not required to complete the full OPTAG training package but must, as a minimum, have viewed a training DVD and received a briefing upon deployment. All Territorial Army and Reservist personnel who have been deployed on operations in Iraq or Afghanistan have undertaken the mandated pre-deployment training.

Dr. Murrison: To ask the Secretary of State for Defence how many returnees from *(a)* Iraq and *(b)* Afghanistan have been unable to take post-operational

tour leave in accordance with the terms set out in the Army Leave Manual 2000 in each year since 2001. [199065]

Mr. Bob Ainsworth: The information requested is not held centrally and could be provided only at disproportionate cost, but the inability to take post operational leave should only occur in exceptional circumstances.

Dr. Murrison: To ask the Secretary of State for Defence whether leave for troops deployed in Iraq and Afghanistan is counted from the time that a person *(a)* leaves for the airhead, *(b)* arrives at the airhead, *(c)* arrives in the UK or *(d)* arrives home. [199067]

Mr. Bob Ainsworth: Service personnel deployed to Iraq or Afghanistan may be granted 'Rest and Recuperation' (R and R) on the authority of the in-theatre operational commander. This is in addition to annual leave.

The maximum permissible period for each instance of R and R is 14 nights, inclusive of travelling time. As such, R and R is counted from the time that the individual leaves for the airhead. While the policy on R and R states that it would normally be taken in or as close to theatre as possible, in practice R and R is most commonly taken at home.

In addition, service personnel receive post operational leave (POL). The qualifying period for POL commences from the day that service personnel leave their permanent duty station and continues until the day they return to it.

POL, which is also in addition to annual leave, should commence as soon as possible after service personnel arrive home from the qualifying deployment. The journey home is considered as part of the deployment and not as part of POL.

Mr. Gregory Campbell: To ask the Secretary of State for Defence whether he issues posthumous medals for service personnel who have died in Iraq and Afghanistan while showing courage above and beyond the course of duty. [199262]

Derek Twigg: Service in Iraq and Afghanistan is recognised by the award of the Iraq Medal and the Operational Service Medal 'Afghanistan' respectively. The medals are awarded early when a serviceman or woman leaves the operational theatre in the event of wounding or death, regardless of how long they have served there. This policy applies to any operational theatre for which a campaign medal is issued.

The full range of gallantry and meritorious service awards are also available for those serving on operations and may be awarded posthumously to those killed whilst deployed. Such awards include the Conspicuous Gallantry Cross, the Military Cross and the George Medal. A number of these have been awarded posthumously to individuals who had died in Iraq and Afghanistan, including the ultimate British Military award, the Victoria Cross. By such means we ensure that individuals' distinguished actions, courage and bravery are honoured by the nation.

Dr. Fox: To ask the Secretary of State for Defence pursuant to his statement of 1 April 2008, *Official Report*, column 629, on Iraq, whether *(a)* military personnel or *(b)* civilian personnel were represented at the meeting on 23 March 2008; and what the (i) rank and (ii) civilian pay grade was of each UK representative present. [199428]

Des Browne: Both UK military and civilian personnel attended the meeting in Baghdad on 23 March 2008. The UK representatives were Her Majesty's Ambassador for Baghdad and the Deputy Commanding General Multi-National Forces-Iraq, who is a Lieutenant General, they were supported by three other UK officials.

Dr. Fox: To ask the Secretary of State for Defence how many violent incidents were reported in *(a)* Dhi Qar, *(b)* Muthanna, *(c)* Maysan and *(d)* Basra provinces in each of the last six months. [199470]

Des Browne: The number of violent incidents involving Iraqi civilians, Iraqi security forces and/or coalition forces in each province that have been reported to the Multi-National Division (South-East) Headquarters, in each of the last six months are as follows:

	Dhi Qar	*Al Muthanna*	*Maysan*	*Basra*
September 2007	4	0	0	108
October 2007	14	0	0	91
November 2007	6	0	0	122
December 2007	5	1	1	85
January 2008	8	0	0	62
February 2008	3	0	0	85

Adam Price: To ask the Secretary of State for Defence whether British troops are deployed protecting *(a)* oil installations and *(b)* the port of Shalamchah in southern Iraq. [200194]

Des Browne: UK maritime forces, alongside our coalition partners and elements of the Iraqi Navy and Iraqi Marines, continue to focus on the defence and security of the Khawr al Amayah and Al Basra oil terminals (KAAOT and ABOT) in the Northern Gulf. UK forces do not routinely have a direct role in protecting oil installations ashore: this is carried out by the Iraqi security forces.

UK forces periodically deploy to the border crossing point at Shalamcheh and also provide mentoring and training to the Iraqi Directorate of Border Enforcement, who have primary responsibility for border security.

Adam Price: To ask the Secretary of State for Defence whether any requests have been made by *(a)* the US and *(b)* the Iraqi military that the British Army redeploys into central Basra. [200195]

Des Browne: Iraqi requests for military support are made to the Multi-National Forces-Iraq, whose commanders judge whether these are appropriate or militarily viable. UK forces have—as part of the coalition effort—provided a range of support to recent Iraqi Security Force operations against criminal elements in Basra, including the deployment on the ground of elements of two of our battlegroups and small mentoring and advisory teams to Iraqi Army units.

Kosovo: Peacekeeping Operations

Angus Robertson: To ask the Secretary of State for Defence how many UK personnel were deployed to Kosovo in each month since August 2007; how many of those deployed received special training for civilian policing; where within Kosovo they have been deployed; and if he will make a statement. [197085]

Mr. Bob Ainsworth: There are 175 UK established military posts in Kosovo. All personnel assigned to these posts since August 2007 have been deployed to Pristina, the majority of whom provide situational awareness support to the NATO led Kosovo Force and none undertake civilian policing duties.

In addition, approximately 50 civilian Ministry of Defence police officers work throughout the country as part of the 65 strong FCO sponsored UK contribution to the UN police mission in Kosovo. Those on regular deployments to Kosovo receive a five day mission-specific pre-deployment course as well training provided by the UN once in theatre.

Dr. Fox: To ask the Secretary of State for Defence what command relationship has been agreed between the Kosovo Force and the EU rule of law civilian mission to Kosovo. [198707]

Mr. Bob Ainsworth: The NATO Kosovo Force (KFOR) and the EU rule of law civilian mission (EULEX) operate under two separate chains of command in Kosovo. Technical arrangements to facilitate co-ordination and mutual support between the two organisations are under discussion.

Languages

Dr. Fox: To ask the Secretary of State for Defence what his Department's expenditure on language training was in each year since 1997. [199496]

Mr. Bob Ainsworth: Language training for armed forces personnel and MOD civilians is provided mainly by the Defence School of Languages (DSL). The school also provides some training for overseas personnel on a repayment basis.

The cost of DSL for the financial year 2001-02 to the present date is as follows:

Financial year	*£ million*
2001-02	6.899
2002-03	6.569
2003-04	7.754
2004-05	7.611
2005-06	8.022
2006-07	7.882
2007-08[1]	8.189

[1] Until end February 2008

Information for the period prior to 2001-02 is unavailable; there is no requirement for the Department to retain financial information beyond the six year point.

Details of expenditure on language training by other MOD facilities are not held centrally and can be provided only at disproportionate cost.

Military Aircraft: Helicopters

Nick Harvey: To ask the Secretary of State for Defence how many life-flying hours have been completed by the *(a)* Apache Attack helicopter, *(b)* Gazelle, *(c)* Lynx Mk3, *(d)* Lynx Mk7, *(e)* Lynx Mk8, *(f)* Lynx Mk9, *(g)* Merlin Mk1 and *(h)* Merlin Mk3 military helicopters. [198328]

Mr. Bob Ainsworth: The figures requested are provided in the following table.

Helicopter type	*Flying hours*
Apache Attack Helicopter	47,385
Gazelle	709,929
Lynx Mark 3	216,772
Lynx Mark 7	496,175
Lynx Mark 8	154,739
Lynx Mark 9	74,448
Merlin Mark 1	46,019
Merlin Mark 3	31,166

These figures represent the total flying hours completed by aircraft in the current fleet, and are the latest available for each airframe. They do not include the hours flown by any aircraft which have been sold or are no longer in service for whatever reason.

Military Bases: Colchester

Bob Russell: To ask the Secretary of State for Defence what discussions his Department has had with the Ministry of Justice on using space at the Military Corrective Training Centre at Colchester to accommodate civilian prisoners; and if he will make a statement. [199230]

Mr. Bob Ainsworth: The Government have no plan to accommodate civilian prisoners at the Military Corrective Training Centre at Colchester.

Mineral Waters

Mr. Peter Ainsworth: To ask the Secretary of State for Defence how many litres of bottled water were purchased by his Department in each of the last three years; and if he will make a statement. [191250]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

MOD Aberporth: Manpower

Mark Williams: To ask the Secretary of State for Defence what the workforce strength at MOD Aberporth is. [199880]

Mr. Bob Ainsworth: As of 4 April 2008, 268 people were employed at MOD Aberporth, broken down as follows:

	Number
QinetiQ	208
Ministry of Defence including Met Office	13
Support contractors/others	47

Navy: Piracy

Mr. Brazier: To ask the Secretary of State for Defence in how many incidents of tackling piracy the Royal Navy was involved in each of the last five years; and what the date *(a)* and *(b)* location of each incident was. [199820]

Mr. Bob Ainsworth: The Royal Navy has been involved in tackling three incidents of piracy over the last five years as shown in the following table.

Date	Country
January 2006	Somalia
December 2007	Somalia
February 2008	Somalia

In each of these incidents, Royal Navy ships fulfilled supporting roles, including providing situational awareness. In addition, the Royal Navy has responded to incidents of suspected piracy which transpired to be local disputes and has been made aware of other incidents where other nations' ships have been better geographically placed to become involved in tackling the piracy.

Official Engagements

Dr. Fox: To ask the Secretary of State for Defence what his official engagements were from 25 February to 1 April 2008. [199666]

Des Browne: Throughout the period 25 February and 1 April, I had various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD and Scotland office. In addition, on 26 February I had a video/telephone conference with the NATO Secretary General, Jaap de Hoop Scheffer. On 28 February, I met the Australian High Commissioner. On 29 February, I visited HMS Gannet and met with representatives of the Scottish Pensioners Forum in Edinburgh. On 3 March, I answered Defence questions in the House of Commons and, in the evening, attended the Graduation Reception of the Armed Forces Parliamentary Scheme. On 4 March I had separate meetings with the Dutch Ambassador, with Dr. Paul Sender, the recently-returned head of the British Health Organisation in Afghanistan, and with a representative of the media. On 5 March, I answered Scottish questions in the House of Commons. On 6 March, had a meeting with Gerry Grimstone, the Chairman of Standard Life. I also had meetings with the Albanian Defence Minister, with former Chiefs of the Defence Staff in the House of Lords, and with Quentin Davies MP on the Armed Forces National Recognition Study. On 8 March, I attended a Veterans Badge Presentation Event in Edinburgh and the RBS Six Nations Scotland v. England rugby match at Murrayfield. On 19 March, I met representatives of the Scottish War Widows Association at 10 Downing Street. On 25 March, I met the bereaved mother of a serviceman. On 26 March, I gave an interview to a national newspaper and attended President Sarkozy's parliamentary address at the House of Commons. On 27 March, I attended the Anglo-French summit, which included a bilateral meeting with the French Defence Minister. On 31 March, I attended the launch for Stephen Walker's book, 'Shot at Dawn'. On 1 April, I attended the Media Launch of TA100, the 100th anniversary of the Territorial Army, at the Tower of London and the Fly Past for the RAF 90th Anniversary at MOD Main Building.

Press Offices

Mr. Laws: To ask the Secretary of State for Defence what the cost of the press offices of *(a)* his Department, (b) its agencies and *(c)* its non-departmental public bodies were in each year since 1996-97; what the cost was in each quarter since 1 April 2007; and if he will make a statement. [189743]

Derek Twigg: The information requested across the Department, agencies and non-departmental public bodies is not held centrally and could be provided only at disproportionate cost.

The central MOD Press Office in London cost £3 million in 2006-07, the latest year for which audited figures are available. This figure includes press officers and support staff pay and allowances capitation; programme costs such as press cuttings and electronic media monitoring.

Any data before this for the central press office could be provided only at disproportionate cost.

Public Expenditure

Mr. Hancock: To ask the Secretary of State for Defence what the forecast cost increase of £1.7 billion in his Department's budget will be spent on; and over what time period. [196348]

Mr. Bob Ainsworth: Any increase in the Defence budget is spent on the provision of Defence capability.

Rackspace

Mr. Hands: To ask the Secretary of State for Defence what the value was of each contract awarded to Rackspace by *(a)* his Department *(b)* its agencies in each of the last nine years. [197507]

Mr. Bob Ainsworth: The MOD has placed three contracts with Rackspace as detailed in the following table.

Contract number	Contract value, excluding VAT (£)
AGIA/1453	77,621.00
VCMMS/119003	129,831.00
VCMMS/119658	1,746,316.00

RAF Menwith Hill

Mr. Drew: To ask the Secretary of State for Defence what conditions in the agreement with the US for its use of *(a)* RAF Menwith Hill and *(b)* RAF Fylingdales would apply in the event of its premature termination. [199444]

Mr. Bob Ainsworth: RAF Menwith Hill is made available to the United States Visiting Force under the terms of the NATO Status of Forces Agreement of 1951, and other confidential arrangements. The Status of Forces Agreement does not have a termination date. RAF Menwith Hill will continue to be made available to the United States Visiting Force for as long as it is in our mutual defence interests.

Under the terms of the agreements which apply to the use of RAF Fylingdales for ballistic missile early warning and ballistic missile defence, the US Government retains ownership and control of all of its assets in the event of either party terminating the Agreements. Should either party decide to terminate the arrangement that currently exists, that party would be obliged to continue its participation until the effective date of termination, so as to minimise the impact to the other participant. In this situation, any costs that are incurred by the terminating participant would not exceed its total financial commitment for jointly approved activities. Outwith these agreements, RAF Fylingdales would remain in place to execute its ballistic missile early warning and space surveillance missions in defence of the UK.

Reserve Forces

Mr. Brazier: To ask the Secretary of State for Defence with reference to the Answer of 24 July 2006, *Official Report*, columns 782-90W, on reserve forces, what the *(a)* actual strength and *(b)* unit establishment of (i) men and (ii) women (A) officers and (B) other ranks was in each of the reserve forces, broken down by (1) the Territorial Army by arm and corps and (2) (x) the Royal Navy Reserve and (y) the Royal Auxiliary Air Force by functional category in the most recent period for which figures are available. [199821]

Mr. Bob Ainsworth: A detailed breakdown of Territorial Army Liability figures by Arm Service is not available, as the figures are not captured in this way. However, the overall Territorial Army liability as at 1 March 2007 was 42,000 which included 3,500 Officer Training Corps.

A breakdown of the Territorial Army by Arm Service, officer/other ranks and gender can be found in the 1 March 2007 Army Monthly Manning Report, Section G, a copy of which is available in the Library of the House.

Reliable information on Royal Navy Reserve functional categories is not held centrally and cannot be provided without incurring disproportionate cost. The following table shows the strength of the Royal Naval Reserve by unit, officer/rating and gender as at 31 March 2008. The total Royal Naval Reserve requirement as at 31 March 2008 was 2,280.

	Officers		*Ratings*		
Unit	*Female*	*Male*	*Female*	*Male*	*Unit total*
HMS Calliope	—	30	20	60	110
HMS Cambria	10	20	20	50	100

7644 (VR) Sqn—Public Relations	20
3 (RAuxAF) Sqn Tactical Provost Wing	50
Total	1,960

Reserve Forces: Health Services

Dr. Fox: To ask the Secretary of State for Defence how many medical reservists there were in *(a)* 1997 and *(b)* 2008. [196617]

Derek Twigg: Figures are not available for 1997 due to electronic records not being retained beyond 12 months from discharge. In 2008 there were 3,585 medical reservists.

Royal Irish Regiment

Mr. Donaldson: To ask the Secretary of State for Defence how many of the Home Service Royal Irish Regiment part-time *(a)* soldiers and *(b)* officers serving on 1 September 2006 had (i) 0 to five years service, (ii) six to 10 years service, (iii) 11 to 15 years service, (iv) 16 to 20 years service, (v) 21 to 26 years service and (vi) over 26 years service on that date. [198732]

Mr. Bob Ainsworth *[holding answer 3 April 2008]:* The information is not held centrally and could be provided only at disproportionate cost.

Somalia: Piracy

Angus Robertson: To ask the Secretary of State for Defence what assessment his Department has made of pirate activity in the Indian Ocean off the coast of Somalia; and if he will make a statement. [199206]

Mr. Bob Ainsworth: The Ministry of Defence keeps the piracy situation globally under review in support of maritime operations, UK economic and security interests and those of its partners and allies. This includes monitoring pirate activity off the coast of Somalia.

Policy lead for piracy across Government lies with the Department for Transport.

Somalia: Politics and Government

Angus Robertson: To ask the Secretary of State for Defence what assessment his Department has made of *(a)* the security situation in Somalia and *(b)* the required (i) size and (ii) makeup of a military deployment to stabilize the country; and if he will make a statement. [199207]

Mr. Bob Ainsworth: The security situation in Somalia as a whole remains unstable and volatile. Without the beginnings of a definable peace process and a willingness of Somalis to engage in such a process, a military deployment to stabilize the country is unlikely. Notwithstanding this, the continued efforts of Uganda and Burundi to supply troops to African Union Mission in Somalia (AMISOM) should be commended for bringing an element of security and humanitarian assistance to critical areas of Mogadishu.

The UK has not carried out a detailed assessment of the force structure required for a military deployment to stabilize the country as this is a task for the UN. If the UN decides that conditions are right for the introduction of such a force, then UK will treat any requests for assistance on their individual merits after considering our available capacity to assist.

Warships

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 27 March 2008, *Official Report*, columns 350-51W, when the decision not to accept the recommendation of his Department's 1998 operational analysis was taken; what the evidential basis for the decision was; and if he will make a statement. [199382]

Mr. Bob Ainsworth: The Ministry of Defence never committed to build a fifth Landing Ship Dock (Auxiliary). The four Landing Ships Dock (Auxiliary) now in service provide a significantly greater sealift capacity than the five Landing Ships Logistic that they have replaced.

TREASURY

Banks: Iran

Mr. Hague: To ask the Chancellor of the Exchequer how many UK banks are being investigated by the US authorities in relation to US unilateral sanctions on Iran; and if he will make a statement. [199075]

Jane Kennedy: The United States Office of Foreign Assets Control has designated a number of Iranian state-controlled banks and their overseas branches and subsidiaries under its domestic sanctions. Three of these banks have subsidiaries in the UK (Bank Melli Plc, Bank Saderat Plc and Persia International Bank Plc). Another Iranian state-owned bank, Bank Sepah, and its UK subsidiary, has been designated by the United Nations under United Nations Security Council Resolution 1747 as well as by the United States domestically.

The UK Government do not comment on individual investigations by the United States authorities, which are a matter for those authorities.

Capital Allowances: Enterprise Zones

Mr. Pickles: To ask the Chancellor of the Exchequer what estimate he has made of the change in receipts to the Exchequer in each of the next three years from the removal of enterprise zone allowances in *(a)* real and *(b)* cash terms. [199021]

Jane Kennedy: As announced on 17 December 2007, enterprise zone allowances will be withdrawn from April 2011 as a consequence of the withdrawal of industrial buildings allowances. There is therefore no increase in receipts to the Exchequer in the next three years. Table A.2 (Item b) of the 2008 Financial Statement and Budget report shows the impact on government revenues estimated for those years. A link to the report can be found at:

http://www.hm-treasury.gov.uk/media/2/5/bud08_chaptera.pdf

Christmas

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171447]

Mr. Burns: To ask the Chancellor of the Exchequer how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176915]

Anne Milton: To ask the Chancellor of the Exchequer how much his Department's agencies spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in each year since 1997. [182451]

Angela Eagle: The cost to the Treasury of purchasing Christmas cards in 2007 was £8,345. The figure for the Debt Management Office was £593. Information relating to postage costs is not available.

The Treasury's cards were purchased from Card Aid, who made a donation to charity on behalf of the Department.

Christmas parties are funded by staff themselves and not the Department. Christmas decorations are also purchased either by staff or by facilities management companies without recourse to public funds.

Council Tax: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer what the *(a)* estimated cost, *(b)* completion date and *(c)* function is of the Valuation Office Agency's council tax list maintenance - banding support tool database. [199019]

Jane Kennedy: As part of its investment in modern technology to deliver a more efficient and cost-effective service to the public, the Valuation Office Agency has recently introduced its banding support tool to support current council tax list maintenance. This has been delivered on time (delivery date 27 March 2008) and within budget (at £995,000). Simply stated, it assists decision making by VOA staff in relation to new or altered bandings by automatically identifying the most relevant comparable properties. This aids speed and consistency.

Council Tax: Wales

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 March 2008, *Official Report*, column 725W, on Valuation Office: Wales, how many of the appeals resulted in a *(a)* move up and *(b)* move down the council tax banding. [198925]

Jane Kennedy: Of the 12,458 appeals and/or formal proposals resulting in a council tax band amendment, 11,525 resulted in a band reduction and 933 resulted in a band increase. They represent 0.84 per cent. and 0.07 per cent. respectively of the total number of dwellings in the council tax valuation lists.

Mr. Pickles: To ask the Chancellor of the Exchequer on what date he expects the Valuation Office Agency to commence work on council tax revaluation in Wales. [199100]

Jane Kennedy: No decision has been made on any future Council Tax Revaluation in Wales.

Mr. Pickles: To ask the Chancellor of the Exchequer what timetable has been set for the Valuation Office Agency to extend the use of the Automated Valuation Model to Wales. [199115]

Jane Kennedy: No timetable has been set.

Credit

Mr. Hayes: To ask the Chancellor of the Exchequer what representations his Department has made to banks on restructuring the level of individual credit, with particular reference to home buyers, since May 1997. [198827]

Angela Eagle: The Treasury regularly meets with representatives of the banking sector to discuss a wide range of issues including individual credit.

In 2004, the Government put in place Financial Services Authority (FSA) regulation of mortgages. The FSA's regime offers appropriate consumer protection and access to means of redress where consumers experience problems.

The OFT regulates other consumer credit business. Regulation of consumer credit is being further strengthened with the implementation of the 2006 Consumer Credit Act, due by October 2008.

Debts

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what steps the Government have taken in the last 12 months to assist those with very high levels of personal debt. [199315]

Angela Eagle: The Government's assessment of personal debt and details of the steps the Government have taken to address debt problems over the last year can be found in the Government's Tackling Over-indebtedness: annual report 2007, available at:

http://www.berr.gov.uk/files/file42700.pdf

The Government set up the £130 million Financial Inclusion Fund for 2008-11 to support the continued provision of free face-to-face debt advice for those who are financially excluded, and to widen access to affordable credit.

On 3 March 2008, the Government announced a two-year, £12 million Money Guidance pathfinder. This pilot service offers people impartial, personalised information and support on a range of money issues to help people find ways to avoid getting into personal debt. The forthcoming financial capability action plan will set out measures to improve financial capability in the UK, including plans for taking forward the Money Guidance pathfinder.

Departmental Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer how much his Department and its agencies has spent on *(a)* locating, *(b)* recovering and *(c)* identifying the information held on lost or stolen (i) electronic equipment, (ii) documents and (iii) other data storage means in each of the last 12 months. [198981]

Jane Kennedy: The associated costs are not separable from the overall running costs and could be provided only at disproportionate cost.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, column 37W, on data protection, what estimate he has made of the *(a)* type and *(b)* volume of data processed in (i) Tyne and Wear, (ii) London, (iii) Manchester, (iv) Nottingham, (v) Worthing, (vi) Telford and (vii) Preston. [198998]

Jane Kennedy: The location of HMRC's Data Guardians is incidental to the work they do. For this reason information is not held in the form requested and could be obtained only at a disproportionate cost.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, column 37W, on data protection, what extra *(a)* pay, *(b)* support and *(c)* other resources each of the data guardians receives to carry out their duties. [198999]

Jane Kennedy: Data guardians are appointed from within HMRC's existing pay grades. All data guardians are provided with required training and support. HMRC will continue to monitor the data guardians' roles and responsibilities and future training needs, as part of its wider departmental data security responsibilities.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, column 37W, on data protection, whether he plans the role of data guardians as a permanent measure. [199000]

Jane Kennedy: The data guardian posts are permanent posts. HMRC will continue to monitor their roles and responsibilities as part of its wider departmental data security responsibilities.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, column 37W, on data protection, what the *(a)* amount of data processed, *(b)* type of data processed and *(c)* business unit is for which each data guardian is responsible. [199007]

Jane Kennedy: The work of each data guardian varies according to the size of their respective business unit and the amount and type of data that it processes. The information is not available in the form requested and could be provided only at disproportionate cost.

Departmental Internet

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer how much was spent on the most recent redesign and implementation of his departmental website. [200031]

Angela Eagle: In 2004, the website was redesigned to improve navigation and meet accessibility standards at a cost of £22,000 excluding VAT.

Departmental Legislation

Chris Huhne: To ask the Chancellor of the Exchequer what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198285]

Angela Eagle: Two new offences were created during the relevant period:

Under the Finance Act 2007 (c.11), which received Royal Assent on 19 July 2007, for fraudulent evasion of the payment of the remote gaming duty (Sch 1, Pt 1, para 26L(2)); and

Under section 39(9) of the Statistics and Registration Services Act 2007 (c.18), which received Royal Assent on 26 July 2007, for the disclosure, in contravention of section 39(1), of personal information held by the Statistics Board.

Chris Huhne: To ask the Chancellor of the Exchequer what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997. [198324]

Angela Eagle: The information requested is contained in 13 Finance Acts and could be extracted only at disproportionate cost.

Departmental Listed Buildings

Mr. Pickles: To ask the Chancellor of the Exchequer what applications have been made for listed building consent in relation to Treasury buildings since May 1997. [198924]

Angela Eagle: Three applications have been made for listed building consent for the Treasury building in London. They were all for the Government Offices, Great George Street building and were for: refurbishment of the West End of the building; installation of bronze castings within the kerb of the main entrance ramp; and internal alterations to partitions within the building.

Departmental Manpower

Dan Rogerson: To ask the Chancellor of the Exchequer how many *(a)* permanent civil service posts, *(b)* permanent non-civil service posts and *(c)* temporary or agency workers in employment in his Department there were in each month since May 2005. [199848]

Angela Eagle: The latest civil service employment statistics are as published by the Office of National Statistics in the Civil Service Statistics document and tables available at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=1&ColRank=2&Rank=272

and in the HM Treasury annual report and accounts 2006-07 which can be accessed at:

http://www.hm-treasury.gov.uk/media/A/2/annual_report07.pdf

Any further breakdown could be provided only at disproportionate cost.

Departmental Marketing

Mr. Pope: To ask the Chancellor of the Exchequer how much his Department spent on publicity and advertising in 2007-08. [199034]

Angela Eagle: The information requested will be available after the conclusion of the Comptroller and Auditor General's audit of the Department's resource accounts. Publication of the resource accounts is planned for June.

Departmental Public Participation

Stewart Hosie: To ask the Chancellor of the Exchequer how many public consultations his Department has held in the last three years; and how many respondents there were to each. [198677]

Angela Eagle: A list of the public consultations undertaken by the Treasury since 2000 is available on the Department's website:

http://www.hm-treasury.gov.uk/consultations_and_legislation/consult_fullindex.cfm

61 consultations (which are now closed) have been launched since 1 April 2005 and eight consultations are currently live.

How many respondents there were to each consultation could be provided only at disproportionate cost.

Mrs. May: To ask the Chancellor of the Exchequer what *(a)* surveys, *(b)* questionnaires and *(c)* other services were provided by polling companies for his Department in financial year 2007-08, broken down by company. [200014]

Angela Eagle: Information relating to the details of the services provided by polling organisations is not held centrally and can be obtained only at disproportionate cost.

Departmental Publications

Mr. David Jones: To ask the Chancellor of the Exchequer what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196749]

Angela Eagle: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

Departmental Sick Leave

Mr. Hoban: To ask the Chancellor of the Exchequer how many days sick leave were taken on average by staff in his Department in each of the last five years. [198956]

Angela Eagle: The latest available data on sickness absence is published at the Cabinet Office statistics website under Analysis of Sickness Absence in the Civil Service at:

http://www.civilservice.gov.uk/management/conditions%5Fof%5Fservice/publications/

Mr. Hoban: To ask the Chancellor of the Exchequer how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198980]

Angela Eagle: Information relating to sickness absence by staff of the Treasury are published in the Sickness Absence in the Civil Service FY 2006-07 Report commissioned by the Cabinet Office which is accessible at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

Departmental Video Conferencing

Norman Baker: To ask the Chancellor of the Exchequer if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195863]

Angela Eagle: The Treasury has 19 video conferencing facilities and is planning to install more. Treasury staff are already actively encouraged to use video-conferencing, instead of travelling to meetings to reduce emissions and save official time.

Exchange Controls: Economic and Monetary Union

Ms Gisela Stuart: To ask the Chancellor of the Exchequer what powers *(a)* the Government and *(b)* the European Union has to introduce exchange controls between Sterling and the euro; what his policy is on the introduction of such exchange controls; and if he will make a statement. [198795]

Angela Eagle: The Government's macroeconomic framework includes a monetary policy framework that seeks to deliver low and stable inflation through a symmetric inflation target, not an exchange rate target. By maintaining sound public finances and low inflation the Government contribute to exchange rate stability. This is consistent with their objective of a stable and competitive pound over the medium-term.

The Government remain fully committed to their macroeconomic framework and as part of that they would not choose to exercise any powers that they have through exchange controls. Any exchange controls would have to be consistent with the general prohibition in the EU treaty of restrictions on the movement of capital and payments.

Excise Duties: Alcoholic Drinks

Mr. Jenkins: To ask the Chancellor of the Exchequer (1) what percentage of the average price of a pint of beer comprised tax in each of the last 10 years; and what percentage it will be in 2008-09; [195531]

(2) what percentage of the average price of a bottle of spirits comprised tax in each of the last 10 years; and what percentage it will be in 2008-09. [195532]

Angela Eagle: Such percentages are dependent on the particular product for which they are calculated and will vary with both the movement in prices and duty rates overtime. Some estimates based on prices included in the RPI can be found in the alcohol fact sheet at

www.uktradeinfo.co.uk

These have not yet been updated with 2007 figures shown in the following table:

	Year	*Retail price (£)*[1]	*Total tax as a percentage of retail price*
On-trade lager (pint)	2007	2.48	28
Off-trade lager four large (440ml) cans	2007	2.83	50
On-trade beer (Bitter) pint	2007	2.28	28
Off-trade whisky 70cl	2007	12.08	60
Off-trade vodka 70cl	2007	10.84	62

[1] Prices relate to April 2007

Over the last 10 years to 2007, alcoholic drinks became on average 25 per cent. more affordable in the on-trade and 33 per cent. more affordable in the off-trade, relative to consumer incomes. Tax increased by four pence per pint and 55 pence per 70cl bottle of spirits in Budget 2008. The percentage of retail prices that these increases represent in 2008-09 will depend on the industry's pricing decisions.

Mr. Willetts: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, columns 38-9W, on excise duties: alcoholic drinks, what the underlying trend in alcohol consumption was to which the Answer refers; and what the absolute values for consumption were in each year. [198317]

Angela Eagle: The revenue forecast for alcohol duties reflect the underlying trend in alcohol consumption, as measured by HM Revenue and Customs data on quantities of alcohol products cleared or released for UK consumption. Published estimates of quantities for each drink type are available from the UK Trade Info website:

http://www.uktradeinfo.com/index.cfm?task=bulletins

These historical estimates are used in an econometric model to forecast revenues from alcohol duties, but separate forecasts of quantities are not published. The revenue forecast from spirits, wine and beer and cider duties in 2007-08 and 2008-09 is published in Table C6 of the 2008 Budget report:

http://www.hm-treasury.gov.uk/budget/budget_08/report/bud_bud08_repindex.cfm

Mr. Hoban: To ask the Chancellor of the Exchequer what steps he plans to take to assess the effect of the level of alcohol duty announced in the 2008 Budget on people's consumption of alcohol, broken down by category of consumer. [199006]

Angela Eagle: None. The intention of the increases in alcohol duty announced at Budget was to raise revenue, not to tackle problem drinking. HM Revenue and Customs monitor receipts from alcohol duty. This is broken down by product rather than consumer.

Excise Duties: Motor Vehicles

Norman Baker: To ask the Chancellor of the Exchequer how much was raised from *(a)* vehicle excise duty and *(b)* fuel duty in each year since 1997. [199427]

Angela Eagle: I refer the hon. Member to the answer given by my predecessor the hon. Member for Wentworth (John Healey) to the hon. Member for Romford (Andrew Rosindell) on 2 May 2007, *Official Report*, column 1744W, and the answer I gave to the right hon. Member for Wokingham (Mr. Redwood) on 22 November 2007, *Official Report*, column 1050W.

The Treasury has published details of tax receipts as a matter of routine in successive pre-Budget and Budget reports. The most recent can be found in Table C6 of the Chancellor's 2008 Budget Report at:

www.hm-treasury.gov.uk/media/7/3/bud08_chapterc.pdf

Justine Greening: To ask the Chancellor of the Exchequer (1) what the total revenue from Vehicle Excise Duty (VED) was in *(a)* 2006-07 and *(b)* 2007-08, broken down by VED bands A to G; [200047]

(2) what the total projected HM Revenue and Customs revenue is from Vehicle Excise Duty (VED) in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11, broken down by VED bands A to M; and how much of that relates to the (i) standard rate and (ii) first year charge; [200048]

(3) what estimate he has made of likely changes in total carbon dioxide emissions from motor vehicles in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11, as a result of the changes in rates of vehicle excise duty announced in the Budget 2008. [200051]

Angela Eagle: The Driver and Vehicle Licensing Agency (DVLA) administers and collects VED.

Budget 2008 reformed the VED structure to strengthen the environmental incentive to develop and purchase fuel-efficient cars. The reforms take effect from 2009-10 and 2010-11. They are forecast to result in rising carbon savings over time as the number of low carbon cars significantly increases. In 2020 the changes are forecast to deliver carbon savings of 0.16 $MtCO_2$. The role of VED also needs to be considered in the context of the wider range of economic and other measures which influence motorists, such as fuel duty, company car tax, European regulations and the labelling scheme in car showrooms.

The following table shows the total revenue raised from VED bands A-G in 2006-07 and 2007-08. The disaggregated figures for VED revenues by CO_2 emissions banding have been estimated by the DVLA based on DFT data. The figures for 2007-08 are provisional and subject to audit.

£ million

	2007-08	*2006-07*
Band A	—	—
Band B	16.19	17.35
Band C	531.82	413.15

Far Eastern Investment Corporation

Mr. Spring: To ask the Chancellor of the Exchequer whether he has recently met representatives of the Far Eastern Investment Corporation. [184854]

Richard Ottaway: To ask the Chancellor of the Exchequer whether he or his officials have met representatives of the Far Eastern Investment Corporation in relation to Northern Rock. [185711]

Angela Eagle: Throughout the period of exploring a private sector solution for Northern Rock there were frequent meetings with the representatives of the private sector bidders.

Financial Inclusion Fund

Mr. Graham Stuart: To ask the Chancellor of the Exchequer how much he proposes to allocate to the Financial Inclusion Fund in each of the next three years; and if he will make a statement. [199248]

Angela Eagle: The comprehensive spending review in October 2007 announced that there will be £130 million available for the Financial Inclusion Fund in 2008-11. The allocations for the next three years are:

	Financial Inclusion Fund allocation (£ million)
2008-09	42.996
2009-10	43.457
2010-11	43.547
Total	130

Foreign Loans: World War II

Bob Spink: To ask the Chancellor of the Exchequer by what means his Department has received confirmation from his US counterparts that payments by the UK to the US for assistance related to the Second World War have been concluded. [198911]

Angela Eagle: The amount of the final repayment was confirmed with the US Treasury in advance and repaid on 29 December 2006.

Government Departments: Property

Mr. Pickles: To ask the Chancellor of the Exchequer what records the Electronic Property Information Mapping Service (e-PIMS) holds on the *(a)* rateable value and *(b)* notional rental cost of empty property. [199087]

Angela Eagle: Information on the rateable value and notional rental cost of every empty property is not held centrally on e-PIMS and could be obtained only at disproportionate cost.

Income

Mr. Hoban: To ask the Chancellor of the Exchequer what the average annual income was for people in each socio-economic group in each of the last 10 years. [196662]

Mr. Timms: I have been asked to reply.

The available information is given in the following tables:

Median equivalised household income, before housing costs, by socio-economic status of household reference person, 2001-02 to 2005-06, United Kingdom except where noted

Socio-economic status	2001-02	2002-03	2003-04	2004-05	£ 2005-06
Higher managerial and professional occupations	29,000	28,000	30,000	31,000	32,000
Lower managerial and professional occupations	22,000	23,000	24,000	24,000	25,000
Intermediate occupations	18,000	18,000	19,000	19,000	20,000
Small employers and own account workers	16,000	17,000	17,000	17,000	17,000
Lower supervisory and technical occupations	18,000	18,000	19,000	19,000	20,000
Semi-routine occupations	15,000	15,000	15,000	16,000	16,000

Never worked and long-term unemployed	[1]10,000	[2]10,000	8,000	8,000	8,000
Not classified	[1]—	[2]—	11,000	12,000	12,000

Notes:
1. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' (HBAI) series, which uses disposable household income, adjusted (or "equivalised") for household size and composition, as an income measure as a proxy for standard of living. The incomes presented here are at a household rather than individual level.
2. The figures are based on Organisation for Economic Co-operation and Development (OECD) equalisation factors and are rounded to the nearest 1,000.
3. The national median income of the survey year in question has been used (i.e. the contemporary median) instead of using a fixed median for a particular year. This is consistent with the preferred way of measuring poverty.
4. All figures are shown in nominal terms (i.e. not adjusted for inflation).
5. Median incomes have been provided rather than mean incomes because the income distribution is skewed with some outliers with high incomes.
6. Socio-economic status of household is defined by the socio-economic group of the household reference person, who is defined as the highest income householder without regard to gender.
7. Information by socio-economic group is defined by National Statistics socio-economic classification. This was introduced in 2001 and information on a consistent basis for earlier years is not available. A split between the 'never worked and long-term unemployed' and 'undefined' category is available only from 2003-04.
8. Results cover the United Kingdom, except for 2001-02 where only Great Britain is covered.

Family Resources Survey.

Income Tax: Scotland

Stewart Hosie: To ask the Chancellor of the Exchequer (1) how many individuals in *(a)* Scotland, *(b)* each Scottish parliamentary constituency and *(c)* each Scottish local authority area were paying only the 10 pence starting rate of income tax as at 1 April 2008; [199169]

(2) what estimate he has made of the number of individuals in *(a)* Scotland, *(b)* each Scottish parliamentary constituency and *(c)* each Scottish local authority area who will (i) be better off, (ii) be worse off and (iii) will experience a neutral effect from the abolition of the 10 pence starting rate of income tax; [199170]

(3) how many households in *(a)* Scotland, *(b)* each Scottish parliamentary constituency and *(c)* each Scottish local authority area were paying only the 10 pence starting rate of income tax as at 1 April 2008; [199171]

(4) what estimate he has made of the number of households in *(a)* Scotland, *(b)* each Scottish parliamentary constituency and *(c)* each Scottish local authority area which will be (i) better off, (ii) worse off and (iii) will experience a neutral effect from the abolition of the 10 pence starting rate of income tax. [199172]

Jane Kennedy: The removal of the 10p rate is part of a package of reforms announced in Budget 2007 that also involved changes to tax credits, which are awarded based on family income. As a result of these reforms four-in-five households in Scotland are better or no worse off than if they had not taken place. The average Scottish household will be £80 better off as a result of this package. It is not possible to estimate the impact of the reform package below devolved administration or Government Office Region level.

An estimate for the number of taxpayers in Scotland paying tax only at the starting rate of income tax for 2007-08 is provided in table T2.2, which is available from HM Revenue and Customs website.

http://www.hmrc.gov.uk/stats/income_tax/menu.htm

The effect of the package of personal tax reforms announced in Budget 2007 on taxpayers paying income tax only at the starting rate will depend on their individual circumstances, for example, whether they have dependent children, or their age.

Available information on the total number of taxpayers in Scotland, Scottish local authorities and each Scottish parliamentary constituency are shown in tables T3.13; T3.14 and T3.15 respectively, which can be found at the HM Revenue and Customs website.

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

Income Tax: Tax Rates and Bands

Mr. Pickles: To ask the Chancellor of the Exchequer (1) what estimate he has made of the revenue to the Exchequer from an increase in the higher rate of income tax by one penny in 2008-09 from *(a)* England and *(b)* the United Kingdom; [199099]

(2) what estimate he has made of the gross revenue which will accrue from an increase in the basic rate of income tax by one penny in 2008-09 from *(a)* England and *(b)* the UK. [199112]

Jane Kennedy: The cost or yield from a 1p change in the basic and higher rate of income tax is regularly published in the "Tax ready reckoner and tax reliefs", copies of which are in the Library, and in Table 1.6 on the HM Revenue and Customs' website:

http://www.hmrc.gov.uk/stats/tax_expenditures/menu.htm

An updated version of Table 1.6 reflecting changes announced in Budget 2007 which take effect from April 2008 is due to be published at the end of April.

Karian and Box

Mr. Hands: To ask the Chancellor of the Exchequer what the value was of each contract awarded by his Department to Karian and Box since 1997. [199633]

Angela Eagle: The Treasury has awarded no contracts to Karian and Box since 2002. Information on contracts prior to 2002 could be provided only at disproportionate cost.

Low Incomes: Personal Savings

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what steps the Government have taken in the last 12 months to encourage low income families to save money. [199316]

Angela Eagle: Since 1997, the Government have sought to support saving and asset ownership for all, from childhood, through working life and into retirement. The Government have introduced ISAs which seek to develop and extend the saving habit; one in five people from low income groups now holds an ISA. The Government have also introduced the Child Trust Fund, which will ensure that, in future, all young people have a financial asset at 18. Personal Accounts, for pension saving, will be introduced in 2012 and will promote saving for retirement. Budget 2008 announced that the Saving Gateway will be introduced nationally, with the first accounts available to savers in 2010. The scheme will provide a financial incentive to save for those on lower incomes through matching (a Government contribution for each pound saved).

Members: Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 27 February 2008 from the hon. Member for Walsall North on a constituent. [199498]

Angela Eagle: I have replied to the hon. Member.

National Savings and Investments: Advertising

Mr. Gauke: To ask the Chancellor of the Exchequer what estimate he has made of the advertising and sponsorship spend of National Savings and Investments in 2007-08. [199527]

Angela Eagle: The estimated spend on NS and I advertising and sponsorship in 2007-08 is £8.3 million. This is an estimate and final outturn will be reported in NS and I's 2007-08 annual report.

Northern Rock

Mr. Redwood: To ask the Chancellor of the Exchequer how he plans to account for the borrowing needed to provide loans to Northern Rock; and where the borrowed funds will appear in his Department's accounts. [171170]

Angela Eagle: Current accounting arrangements for loans made by the Bank of England to Northern Rock are set out in to the answer I gave the hon. Member for Twickenham (Dr. Cable) on 22 January 2008, *Official Report*, column 1962W.

In Budget 2008, following the decision to take Northern Rock into a period of temporary public ownership, the Treasury announced it will replace the Bank of England's loan to Northern Rock with direct Treasury funding during 2008-09 (Budget 2008, Chapter 2, paras 42-46). The Government Financial Reporting Manual (FReM) requires disclosure of future developments, and post balance sheet events, in a Department's Resource Accounts. These requirements will be taken into account when preparing the HM Treasury's 2007-08 accounts. Future accounting arrangements will be set out in future HM Treasury departmental resource accounts.

Northern Rock: Financial Services Authority

Dr. Cable: To ask the Chancellor of the Exchequer how many staff at the Financial Services Authority were engaged in supervising Northern Rock prior to September 2007; and how many are currently employed in supervising Northern Rock. [199892]

Angela Eagle: The Financial Services Authority is responsible for the recruitment and management of its own executive staff. Hector Sants, chief executive of the FSA, has agreed to write to the hon. Member on this matter.

Northern Rock: Mortgages

Chris Huhne: To ask the Chancellor of the Exchequer what assessment he has made of whether mortgages classified by Northern Rock as undergoing a voluntary payment holiday are correctly so classified. [190301]

Angela Eagle: Northern Rock's policy on payment holidays has been considered by the Financial Services Authority as part of its supervision of the bank.

Property Development

Mr. Pickles: To ask the Chancellor of the Exchequer what works have been undertaken on his Department's property under the Circular 18/84 procedure and its successor since May 1997. [199109]

Angela Eagle: Planning consents were obtained for:

the refurbishment of the West End of the Government Offices, Great George Street including restoration works to the central circular courtyard, addition of a roof over a western internal courtyard, installation of new lifts and plant, enhanced goods and waste servicing on King Charles Street and associated works;

the refurbishment of part of Trevelyan House, Great Peter Street, London for the Office of Government Commerce; and

the refurbishment of part of Rosebery Court, Norwich also for the Office of Government Commerce.

Public Expenditure: Department for Work and Pensions

Danny Alexander: To ask the Chancellor of the Exchequer what assessment his Department made of the trend in the take-up rate of *(a)* pension credit, *(b)* council tax benefit, *(c)* disability living allowance, *(d)* attendance allowance, *(e)* income support, *(f)* housing benefit and *(g)* jobseeker's allowance when establishing the spending allocation for the Department for Work and Pensions in (i) 2008-09, (ii) 2009-10 and (iii) 2010-11. [199254]

Jane Kennedy: The DEL spending allocated to Department for Work and Pensions (DWP), for the years 2008-09 to 2010-11, was set out in the 2007 pre-Budget report and comprehensive spending review and covers the cost of administering social security benefits. The Government's forecast on spending on social security benefits is included in AME expenditure and is forecast separately at every pre-Budget report and Budget. The benefit take-up rates are not explicitly forecast for the benefits listed. The forecasts implicitly assume that recent trends in take-up rates continue into the future, which for most benefits means that future take-up rates are broadly constant.

Public Sector: Pay

Philip Davies: To ask the Chancellor of the Exchequer what estimate the Office of National Statistics has made of the effect on the overall inflation rate of providing a public sector pay rise of *(a)* two per cent., *(b)* three per cent. and *(c)* four per cent. [196930]

Yvette Cooper: The Office for National Statistics has made no estimate of public sector pay rises on the overall rate of inflation.

Rackspace

Mr. Hands: To ask the Chancellor of the Exchequer what the value was of each contract awarded to Rackspace by *(a)* his Department and *(b)* its agencies in each of the last nine years. [197513]

Angela Eagle: No contracts have been awarded to Rackspace by the Treasury or its agencies.

Stamp Duties

Justine Greening: To ask the Chancellor of the Exchequer (1) what adjustment he has made to the previous £15 million budget for stamp duty relief for zero-carbon homes as a result of the Budget 2008 announcement that flats and maisonettes will now qualify; [200197]

(2) what assumptions he has made of the numbers of additional flats and maisonette properties which will qualify for the stamp duty relief for zero-carbon homes as a result of the Budget 2008 announcement that flats and maisonettes will now qualify; [200198]

(3) what total stamp duty relief has been claimed to date in relation to zero-carbon home purchases, broken down by stamp duty band *(a)* 1 per cent., *(b)* 3 per cent. and *(c)* 4 per cent. [200199]

Julia Goldsworthy: To ask the Chancellor of the Exchequer (1) how many new homes have qualified for zero-rate stamp duty for zero-carbon homes since the discount was introduced; [199973]

(2) how many of those purchasing a residential property since the zero-rate of stamp duty land tax for zero-carbon homes came into effect have been liable for any stamp duty land tax. [199950]

Mr. Pickles: To ask the Chancellor of the Exchequer (1) what estimate he has made of the annual cost to the Exchequer of his proposal to extend stamp duty zero-carbon tax relief to flats in *(a)* real and *(b)* cash terms; [199020]

(2) what the maximum fee is that an assessor can charge to assess whether a dwelling meets the zero-carbon standard; and whether the fee applies to *(a)* domestic and *(b)* commercial property; [199107]

(3) what estimate he has made of the number of properties that will take up the proposed stamp duty zero-carbon tax relief for flats in the first full year of the exemption's operation. [199108]

Angela Eagle: As stated in the Budget 2007 report, the Exchequer cost of extending stamp duty zero-carbon tax relief to flats is expected to rise to around £15 million in 2011-12. This cost takes into account new flats and maisonettes as well as new houses. The stamp duty land tax relief for new zero-carbon homes only applies to residential property.

Of those transactions for which a stamp duty land tax certificate was issued between 1 October 2007 and 31 March 2008, 10 transactions claimed the stamp duty land tax relief for new zero-carbon homes. All of these transactions fell in the 1 per cent. tax band. No data currently exists for April.

450,368 residential transactions were liable for stamp duty land tax between 1 October 2007 and 31 March 2008. No data currently exists for April.

The tax relief will help kick-start the market for new highly efficient technologies in homes, both for the fabric of the building and in the use of microgeneration, and sets a gold standard for green homes.

We expect the number of qualifying transactions, including flats and maisonettes, to be initially low in the first few years but to rise as more properties eligible to claim the relief go on the market. For example, in December of last year, the Government announced details of 200 new homes to be built to a zero-carbon standard in Hanham Hall, near Bristol. The media release can be found at:

http://www.communities.gov.uk/news/corporate/611694

The Government are committed to conducting an interim review of the relief in 2010 which will examine the effectiveness of the relief in stimulating the innovation necessary to ensure that all new homes are built to a zero-carbon standard from 2016.

The level of fees that an energy assessor can charge for assessing whether a dwelling meets the Treasury's stamp duty land tax zero-carbon standard is purely a commercial decision. However, if the energy assessment is carried out by a Government Department, not in competition with commercial suppliers, then in line with Treasury guidelines on managing public money, the charge cannot exceed the full cost of the service provided without parliamentary approval.

Stamp Duties: Tax Yields

Mr. Pickles: To ask the Chancellor of the Exchequer what estimate he has made of the receipts to the Exchequer from *(a)* stamp duty and *(b)* stamp duty land tax in each of the next three years. [199022]

Angela Eagle: Estimated and projected revenues for total stamp taxes, in 2007-08 and 2008-09, are published in Table C6 of the Budget 2008 report. The breakdown between stamp duty land tax and stamp taxes on share transactions is given in the following table:

		£ billion
	2007-08	*2008-09*
Stamp duty land tax	10.1	9.5
Stamp taxes on shares	4.2	4.0

Stamp Duty Land Tax: Shared Ownership Schemes

Mr. Pickles: To ask the Chancellor of the Exchequer (1) what estimate he has made of the annual cost to the Exchequer of his proposal to amend stamp duty rules to provide that purchases of property in shared ownership pay stamp duty land tax on the final 20 per cent. of the value of the property in *(a)* real and *(b)* cash terms; [199002]

(2) what assessment he has made of the effect of his proposal to change stamp duty land tax liability for purchases of property in shared ownership; [199024]

(3) whether his proposal to change stamp duty land tax liability for shared ownership purchases will apply to open market homebuy schemes. [199110]

Jane Kennedy: The stamp duty land tax rules for leases resulted in stamp duty land tax being payable on the upfront premium for any transaction in respect of which the annual rent exceeded £600. In Budget 2008 the Government abolished this rule for residential transactions with effect from Budget day.

As stated in the 2008 Budget report the Exchequer cost of the abolition of this rule for residential property is projected to be £5 million in each of the fiscal years 2008-09 to 2010-11.

The abolition of this rule will mean that in most cases there will be no stamp duty land tax due upfront for shared ownership schemes. Indeed in the vast majority of cases no stamp duty land tax will be due until the purchaser has acquired at least 80 per cent. of the property. This will support the Government's affordable housing agenda of assisting at least 25,000 households into homeownership through shared ownership and shared equity schemes.

The open market homebuy scheme is not a shared ownership scheme and will not therefore be affected by our amendment to the stamp duty land tax treatment of shared ownership purchasers. Shared equity schemes, such as the open market homebuy scheme, operate a different structure to shared ownership. Under shared equity schemes the purchaser owns one 100 per cent. of the property from the outset with the help of additional mortgage finance from the Government. The stamp duty land tax treatment of shared equity schemes is no different to the stamp duty land tax treatment of a property bought in the conventional way.

Tax Avoidance: Self-employed

Mr. Hepburn: To ask the Chancellor of the Exchequer how HM Revenue and Customs defines bogus self-employment in the construction industry. [199094]

Jane Kennedy: There is no statutory definition for tax and national insurance purposes of employment or self employment. Whether a worker is employed or self-employed is determined on the basis of criteria established by judicial decisions. HM Revenue and Customs regards "bogus self-employment" as describing an engagement where the worker is incorrectly treated by the engager as self-employed.

Mr. Hepburn: To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of construction workers who are bogus self-employed; [199096]

(2) what estimate he has made of the national insurance and tax revenue foregone to the Treasury as a result of bogus self-employment in the construction industry in each of the last five financial years. [199097]

Angela Eagle: HM Revenue and Customs believes that there could be up to 200,000 workers in the construction industry who are incorrectly being treated by their engagers as self-employed. We estimate that the consequent Exchequer loss currently is around £350 million per annum. No estimates of the Exchequer loss for earlier years have been made.

Information from the Office for National Statistics[1] for the fourth quarter of 2007 estimates that there are around 1,450,000 employees and around 850,000 self-employed working in the construction industry.

The Department for Business, Enterprise and Regulatory Reform, collects no specific data on workers within the construction industry.

[1] From the Labour Force Survey

Taxation: Aviation

Justine Greening: To ask the Chancellor of the Exchequer (1) what estimate he has made of the change in the number of flights into and out of UK airports in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11 as a result of the per plane duty due to come into effect from November 2009; [200049]

(2) what estimate he has made of likely changes in total carbon dioxide emissions from aviation in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11, as a result of the duty payable per plane due to come into effect from November 2009. [200050]

Angela Eagle: At pre-Budget report 2007, the Chancellor announced that air passenger duty would be replaced by a duty payable per plane, rather than per passenger, on 1 November 2009. This will ensure that the duty sends a stronger environmental signal, and is more closely correlated to environmental impacts. A consultation on the design of the new duty was published on 31 January 2008, and is available on the HM Treasury website.

The public consultation period will close on 24 April 2008. However, the final design of the new duty—and the associated rates—will not be decided until after all of the evidence submitted during the consultation period has been considered and the policy development process is complete. It is therefore not yet possible to estimate the changes in flight numbers as a result of the new duty. Similarly, it is not possible to calculate the changes in carbon dioxide level that will take place as a result of the new duty.

Taxation: Betting

Mr. Ellwood: To ask the Chancellor of the Exchequer how much taxation revenue was generated from machines in Tote betting shops in each of the last five years. [199015]

Angela Eagle: Due to HM Revenue and Custom's duty to maintain tax payer confidentiality information on tax revenues for individual operators cannot be released.

Taxation: Leisure

Bill Wiggin: To ask the Chancellor of the Exchequer (1) what information his Department holds for tax purposes on the number of leisure centres which do not charge extra for the use of spas and saunas but include their cost within the charge for swimming; [199295]

(2) what assessment he has made of the likely effect of the levying of back-dated VAT charges on leisure centres which allowed free access to spas or saunas to British Olympic competitors and paralympic competitors. [199294]

Jane Kennedy: Neither HM Treasury nor HM Revenue and Customs hold such information.

I refer the hon. Member to the answer I gave him on 2 April 2008, *Official Report*, column 972W.

Taxation: Self-assessment

Mr. Hoban: To ask the Chancellor of the Exchequer how many individual self-assessment tax returns *(a)* completed online and *(b)* received in hard copy were recorded as lost in the last year for which figures are available. [199004]

Jane Kennedy: I refer the hon. Member to the answer I gave him on 11 March 2008, *Official Report*, column 370W.

Valuation Office

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer to my hon. Friend the Member for Chislehurst (Robert Neill) of 14 March 2008, *Official Report*, column 719W, on Valuation Office, what the timetable is for the Agency to decide whether to introduce a records management system. [198912]

Jane Kennedy: The Valuation Office Agency has commissioned its IT partner to investigate possible electronic document and records management (EDRM) solutions. Until the proposal in respect of this is received, there is no specified timetable for the Agency to reach a decision.

Mr. Pickles: To ask the Chancellor of the Exchequer how many householders in England received a visit from a Valuation Office Agency representative in 2007. [199113]

Jane Kennedy: Approximately 140,000 dwellings in England received a visit from a member of Valuation Office Agency staff in 2007 in the course of it undertaking its valuation responsibilities for council tax, inheritance tax, capital gains tax, 'right to buy' and other functions requiring the inspection of property.

Valuation Office: Cole Layer Trumble

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 8 January 2008, *Official Report*, column 507W, on Valuation Office: Cole Layer Trumble, what the notional cost is to the public purse for the consultancy services provided by Cole Layer Trumble in the last 12 months; and how much of that cost was attributable to the ASPIRE contract. [198913]

Jane Kennedy: The notional cost for the consultancy services provided by Cole Layer Trumble in 2007-08 amounts to £63,271. This cost is attributable to the ASPIRE contract.

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 8 January 2008, *Official Report*, column 507W, on Valuation Office: Cole Layer Trumble, whether the consultancy work undertaken in the last 12 months on automated valuation modelling techniques related to *(a)* council tax valuations and *(b)* business rate valuations. [198914]

Jane Kennedy: Consultancy advice from Cole Layer Trumble related to various technical aspects of automated valuation modelling. It was not directly related to either *(a)* council tax valuations or *(b)* business rates valuations.

Valuation Office: Geographical Information Systems

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 19 March 2008, *Official Report*, column 1226W, on Valuation Office: ICT, whether the proposed Geographic Information System will make use of data from *(a)* Ordnance Survey, *(b)* aerial photography, *(c)* satellite photography, *(d)* MOSAIC and *(e)* ACORN. [199114]

Jane Kennedy: The Valuation Office Agency's proposed Geographical Information System will make use of mapping data licensed from Ordnance Survey. The use of aerial photography, satellite photography, MOSAIC or ACORN data is not within the scope of the proposed solution.

Mr. Pickles: To ask the Chancellor of the Exchequer what the *(a)* planned cost was and *(b)* most recently estimated cost is of the Valuation Office Agency's Geographical Information System. [199017]

Jane Kennedy: I refer the hon. Member to the answer given by my hon. Friend the Exchequer Secretary to the Treasury on 17 March 2008, *Official Report*, column 887W. No further cost estimates have been received.

Mr. Pickles: To ask the Chancellor of the Exchequer what the *(a)* original completion date was and *(b)* most recent expected completion date is of the Valuation Office Agency's Geographical Information System. [199018]

Jane Kennedy: I refer the hon. Member to the answer given by my hon. Friend the Exchequer Secretary to the Treasury on 17 March 2008, *Official Report*, column 887W. No further amendments to the completion dates have been received.

Valuation Office: ICT

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 8 January 2008, *Official Report*, column 508W, on Valuation Office: ICT, what the average geographical size is of each of the 10,000 localities. [198918]

Jane Kennedy: There are approximately 10,000 localities covering the whole of England (approximately 50,350 square miles). Therefore the approximate average geographical size of a locality is 5.04 square miles.

Mr. Pickles: To ask the Chancellor of the Exchequer what the *(a)* expected cost, *(b)* function and *(c)* expected completion date is of the Valuation Office Agency's electronic communications project. [198985]

Jane Kennedy: The VOA does not have an "electronic communications project".

Valuation Office: Measuring Instruments

Mr. Pickles: To ask the Chancellor of the Exchequer how many *(a)* tape measures and *(b)* laser measuring devices the Valuation Office Agency has purchased in the last 24 months; and at what cost in each case. [199287]

Jane Kennedy: The Valuation Office Agency undertakes various types of valuation and surveying work on behalf of a number of public sector clients for a wide range of purposes and requires the appropriate professional equipment to perform these roles effectively.

The Agency purchases its surveying equipment from a designated supplier. The total annual spend in the last two financial years is as follows:

2006-07: £16,065

2007-08: £209,171

The nature of the equipment and the time it was purchased lead to annual variations in expenditure.

It is not possible to break these figures down into individual category purchases, except at disproportionate cost.

Valuation Office: Video Recordings

Mr. Pickles: To ask the Chancellor of the Exchequer whether any internal videos have been produced or updated by the Valuation Office Agency since 8 January. [198916]

Jane Kennedy: No videos have been updated; one video for internal use has been produced since 8 January 2008.

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 18 March 2008, *Official Report*, column 1018W, and 8 January 2008, *Official Report*, column 509W, on Valuation Office: video recordings, if he will place copies of the 23 other internal staff videos in the Library. [198917]

Jane Kennedy: The internal videos are both aimed at, and feature, VOA staff. Release of the videos would be considered unfair within the first data protection principle, as staff would have had a reasonable expectation that they were contributing to a video only for internal VOA use. The process of obtaining permissions and/or making necessary redactions could be done only at disproportionate cost.

Valuation: Conservatories

Mr. Pickles: To ask the Chancellor of the Exchequer how many domestic properties in England are classified with a dwellinghouse code of *(a)* Conservatory Type: D, *(b)* Conservatory Type: S, *(c)* Conservatory Type: G and *(d)* Conservatory Type: U, according to figures held by the Valuation Office Agency. [199116]

Jane Kennedy: As at 2 April 2008 the number of domestic dwellings in England for which the Valuation Office Agency has assigned these dwellinghouse codes are *(a)* 106,497, *(b)* 43,576, *(c)* 62,469 and *(d)* 555,800.

VAT Exemptions

Mr. Oaten: To ask the Chancellor of the Exchequer pursuant to the answer of 11 March 2008, *Official Report*, column 371W, on VAT exemptions, what assessment he has made of the effects of VAT exemption for supplies of certain services linked to sport by not-for-profit organisations on competition in the market for local authority leisure management, as defined under Article 133(d) of the EC Principal VAT Directive. [198809]

Jane Kennedy: Officials from HM Treasury and HM Revenue and Customs have met with representatives of private sector leisure providers to discuss the current VAT exemption for supplies relating to sport and physical education, and its impact on competition. Officials are also in regular discussion with local authority representatives on a range of VAT issues. Like all taxes, this VAT exemption is kept under review against the Government's broader objectives, which include increasing participation in sport.

Voluntary Work

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, column 50W, on voluntary pay, what the organisations are for which members of his Department have volunteered while on special leave. [199008]

Angela Eagle: The Treasury actively promotes employee volunteering and the 2007 Treasury staff survey reported that 30 per cent. of current Treasury staff volunteer. However the detailed information sought by the hon. Member is not collected centrally and could be provided only at disproportionate cost.

Welfare Tax Credits: Telephone Services

Danny Alexander: To ask the Chancellor of the Exchequer what his policy is on the claimants' tax hotline returning calls to customers; and if he will place guidance issued to helpline operatives in the Library. [194474]

Jane Kennedy: The tax credit helpline along with other HMRC Contact Centre services are designed to deal primarily with a large number of incoming telephone calls. HMRC contact centres expect to handle around 59 million phone calls this year. HMRC do not have a formal policy to cover each and every circumstance when they may need to return calls to customers.

Danny Alexander: To ask the Chancellor of the Exchequer how much was spent on running the *(a)* claimants' and *(b)* hon. Members' tax credit helpline in each year since 2003, broken down by (i) staffing budget and pensions contributions, (ii) administration, (iii) facilities, (iv) training and (v) other. [194487]

Jane Kennedy: The staffing cost for the tax credit helpline is estimated to be £93.5 million for 2006-07. The full year figures for 2007-08 are not yet available. Figures for earlier years are not available.

The other data are not available in the format requested.

DUCHY OF LANCASTER

10 Downing Street: Repairs and Maintenance

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what the budget is for the proposed renovations and refurbishment of the Downing Street complex in 2008-09. [199118]

Mr. Watson: Information on the cost of renovations and refurbishment of the Downing street complex in 2008-09 will only be available when the Department's resource accounts for that year are fully audited and laid before Parliament.

Admiralty House: Art Works

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster which works of art from the Government Art Collection are located in each of the official ministerial residences in Admiralty House; and what the title and artist of each is. [189520]

Mr. Watson: A list of artworks located in the ministerial residences in Admiralty House has been placed in the Library.

Admiralty House: Official Residences

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster (1) whether occupants of ministerial residences in Admiralty House are liable for damage to the material condition of the property they occupy arising from their use of it; and if he will make a statement; [194999]

(2) if he will place in the Library a copy of the tenancy agreement relating to the use of ministerial residences in Admiralty House. [195001]

Mr. Watson: Official residences are assigned to Ministers by the Prime Minister either on grounds of security or in order to allow them to perform better their official duties. Rules on the use of official residences are set out in the 'Ministerial Code'. There are no formal tenancy agreements in respect of the use of official residences. The liability for any damage to any of the residences would depend on the circumstances.

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 29 January 2008, *Official Report*, column 246W, on Admiralty House, how many bathrooms each of the three official ministerial residences in Admiralty House has. [189576]

Mr. Watson: One flat has one bathroom and the other two have two bathrooms.

Census: BSL

Jim Dowd: To ask the Chancellor of the Duchy of Lancaster if he will consider the merits of identifying users of British sign language as part of the next census. [200177]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As National Statistician I have been asked to reply to your recent question asking the Chancellor of the Duchy of Lancaster if he will consider the merits of identifying users of British Sign Language (BSL) as part of the next Census. (200177)

Consultation with users on their requirements for information from the 2011 Census has identified a demand for a language question to provide information to improve resource allocation

at the national and local level and to inform service provision of, for example, the need for translation and interpreter services. There was also some demand expressed for information on the use of specific languages, including BSL. The Office for National Statistics (ONS) has subsequently tested a number of variants of a language question, with a view to developing a concise question which is easily understood by respondents and gives reliable results. ONS are currently testing a question on main language used, including BSL through a write-in facility.

A White Paper setting out the proposals for the 2011 Census is scheduled to be published at the end of 2008. However it will not be possible to confirm what questions and response categories are to be included in the 2011 Census until the consultation and question testing programme is complete and formal approval is given by Parliament in 2010.

Central Office of Information: Expenditure

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what the expenditure of the Central Office of Information on Government marketing, advertising and public relations was in each year since 1996-97. [193819]

Mr. Watson: The Central Office of Information expenditure for the years requested is shown in the following table:

£ million at outturn prices

Activity	*1996-97*	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Advertising: media spend	69.4	59.0	105.4	113.5	161.9	141.6	134.8	167.6	165.4	154.6	135.9
Advertising: non media spend	—	—	—	—	30.5	21.0	11.1	10.7	19.5	13.3	18.8

Children: Day Care

Mrs. Maria Miller: To ask the Chancellor of the Duchy of Lancaster (1) what estimate he has made of the average *(a)* hourly and *(b)* annual pay of (i) male and (ii) female (A) childcarers in daycare settings and (B) childminders in each year since 1997; [199893]

(2) what estimate he has made of the average *(a)* hourly and *(b)* annual pay of (i) male and (ii) female childcare assistants in each year since 1997; [199894]

(3) what estimate he has made of the average annual salary of *(a)* childcarers in daycare settings and *(b)* childminders qualified to level 6 in each year since 1997. [199899]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As National Statistician I have been asked to reply to your recent Parliamentary Questions asking what the average (a) hourly and (b) annual pay of (i) male and (ii) female (A) childcarers in daycare settings and (B) childminders was in each year since 1997; what the average (a) hourly and (b) annual pay of (i) male and (ii) female childcare assistants was in each year since 1997; and what the average annual salary of (a) childcarers in daycare settings and (b) childminders qualified to level 6 was in each year since 1997. (199893, 199894, 199899).

The Annual Survey of Hours and Earnings (ASHE) is carried out in April each year and is the most comprehensive source of earnings information in the United Kingdom. Under the Standard Occupation Classification 2000 (SOC), childcarers in day care settings, childminders and childcare assistants are all classified to the same category, which is Childminders and Related Occupations, occupation code 6122. Subdivision beyond this is not possible in ASHE.

Estimates of weekly earnings for employees by gender and SOC are available from ASHE for employees on adult rates of pay, whose pay for the survey period was not affected by absence, from 1997. Annual earnings estimates are available for employees on adult rates of pay, who have been in the same job for more than a year, from 1999. ASHE results are published on the National Statistics website at: http://www.statistics.gov.uk/ashe

ASHE does not collect information on employee qualifications. This information is available from the Labour Force Survey (LFS). However, the LFS sample size for childminders qualified to level 6 is too small to provide estimates.

Civil Servants

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster if he will place in the Library a copy of the job specification and functions of Downing Street's *(a)* Director of Communications, *(b)* Chief of Strategy, *(c)* Director of Political Strategy and *(d)* Head of the Strategic Communications Unit. [198179]

Mr. Watson: Civil servants are appointed under the terms and conditions set out in the Civil Service Management Code. Special advisers are appointed under the terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

Mr. Ancram: To ask the Chancellor of the Duchy of Lancaster how many civil servants working in his Department are related to other civil servants working in the his Department. [198723]

Mr. Watson: This information is not held centrally.

Databases

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what databases are *(a)* owned and *(b)* maintained by (i) the Cabinet Office and (ii) its agencies. [185429]

Mr. Watson: The information for the Cabinet Office is as follows:

Cabinet Office databases	*Owned*	*Maintained*
HR—Human Resources	Yes	Yes
CORAS—Resource Accounting	Yes	Yes
e-Rm—Electronic Records Management	Yes	Yes
CMS—Case Management System	Yes	Yes
EPCIS—Emergency Planning College Information System	Yes	Yes
Fast Stream Recruitment—Graduate Recruitment	Yes	No
Cabinet Committee Papers—Management and Distribution of Cabinet Committee Papers	Yes	Yes
E-Payfact—Payroll Administration	Yes	No
Cross Government Exercise—Crisis Management	Yes	Yes
Government Communications Network—Member Database	Yes	No
Government IT Profession—Member Database	Yes	No
Central Applications Repository—Civil Service Pensions Administration	Yes	No

This list does not include all locally-based data collections that sit across departmental networks, the collation of which would incur disproportionate costs.

Departmental Publications

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster if he will place in the Library an electronic copy of the Cabinet Office staff handbook. [198177]

Mr. Watson: My Department no longer publishes a staff handbook. The terms and conditions of service that apply to all Cabinet Office employees are readily available to them electronically on the Cabinet Office intranet. The text on the intranet is updated periodically but could only be reproduced at disproportionate cost.

Departmental Sick Leave

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many working days were lost by his Department due to stress-related illness in each of the last 24 months. [198943]

Phil Hope: The most recent published absence data for the Cabinet Office is available for the 12 months ending 31 March 2007, in the Analysis of Cabinet Office Statistics. This is available on the Civil Service Statistics website at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

The number of stress-related working days lost for each of the last 24 months could only be reproduced at disproportionate cost.

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many days sick leave were taken on average by staff in his Department in each of the last five years. [198954]

Phil Hope: The average number of working days lost per person is only available from 2004 and is published on the civil service website at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

Departmental Visits Abroad

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what the *(a)* destination and *(b)* purpose was of each overseas visit undertaken by staff in the Cabinet Office in the last 12 months. [198278]

Phil Hope: The destination and purpose of each overseas visit undertaken by staff in the Cabinet Office over the last 12 months is not held centrally and is therefore available only at disproportionate cost.

All overseas trips undertaken by Cabinet Office staff are for official business reasons only and made in accordance in the Department's official travel policy.

Departmental Working Hours

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195815]

Mr. Watson: Most full-time Cabinet Office employees work 41 conditioned hours per week, including five hours paid meal breaks. The Department also offers employees alternative working patterns under part-time, shift, flexible working or work-life balance policies.

Information on the total and average hours worked by Cabinet Office employees is not held centrally and can be provided only at disproportionate cost.

Disclosure of Information

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what guidance he has sent to Government Departments on disclosing the dates and locations of meetings held by Ministers. [185179]

Edward Miliband: It is for individual Departments to decide on the disclosure of details of official meetings taking account of the requirements of the ministerial code, the civil service code, Cabinet Office guidance on drafting answers to parliamentary questions and relevant legislation.

It is long established practice under successive governments that information relating to internal discussions and activities is not normally disclosed.

Employment: Inverness

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster how many *(a)* employed and *(b)* unemployed people there were in Inverness, Nairn, Badenoch and Strathspey constituency in each year since 1997. [200089]

Edward Miliband: The information requested falls with the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As National Statistician, I have been asked to reply to your parliamentary question asking how many *(a)* employed and *(b)* unemployed people there were in Inverness, Nairn, Badenoch and Strathspey constituency in each year since 1997. (200089)

The Office for national Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) following International Labour Organisation definitions. However, data prior to the 12 month period ending December 2004 are not available for this geography due to the redrawing of Scottish parliamentary constituencies in 2005.

Table 1, attached, shows the number of people in employment and the number of unemployed, aged 16 and over resident in the Inverness, Nairn, Badenoch and Strathspey constituency for each of the last three years. Estimates for the 12 months ending September 2007 have also been provided as being the latest data available.

As these estimates are for a subset of the population in a small geographical area, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

In order to produce estimates for small geographical areas, APS estimates are provided based on survey microdata. These are consistent with the UK population estimates published in February and March 2003, whereas the regional and national estimates published in the Labour Market Statistics First Release are based on more up-to-date population figures, so the two are not directly comparable.

Table 1: Employment and unemployed in Inverness, Nairn, Badenoch and Strathspey constituency

Thousand

12 months ending	In employment[1]	Unemployed[2]
December 2004	43	2
December 2005	42	2
December 2006	43	1
December 2007	43	1

[1] Persons aged 16+

Internet

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many staff are employed by 10 Downing Street in relation to electronic, website and internet communications; and how many were employed on 26 June 2007. [198158]

Mr. Watson: I refer the right hon. Member to the answer given by my right hon. Friend the Prime Minister to the hon. Member for Fareham (Mr. Hoban) on 28 February 2008, *Official Report*, column 1797W.

Karian and Box

Mr. Hands: To ask the Chancellor of the Duchy of Lancaster what the value was of each contract awarded by the *(a)* Cabinet Office and *(b)* Prime Minister's office to Karian and Box since 1997. [199651]

Phil Hope: The Prime Minister's Office forms an integral part of the Cabinet Office.

The information requested is not held centrally and is therefore available only at disproportionate cost.

Life Expectancy

Mr. Willetts: To ask the Chancellor of the Duchy of Lancaster what estimate has been made of average life expectancy in *(a)* Scotland and *(b)* England. [199970]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician I have been asked to reply to your question asking what estimate has been made of average life expectancy in (a) Scotland and (b) England. (199970)

The table below shows life expectancies at birth for males and females for the countries requested. These are 'period' expectation of life figures, which are based on the mortality rates experienced in the years 2004 to 2006 by age and gender in the respective country and give the average number of years people would live from birth if they experienced those mortality rates throughout their lifetimes.

Period expectation of life, 2004 to 2006

	Males	Females
Scotland	74.6	79.6
England	77.2	81.5

Source:
Interim Life Tables 2004-06, http://www.statistics.gov.uk/StatBase/Product.asp?vlnk:=14459

'Cohort' life expectancy figures, which allow for projected changes in mortality in later years, are available from the National Statistics website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk:=15098

Migration: Statistics

Simon Hughes: To ask the Chancellor of the Duchy of Lancaster what discussions the Office for National Statistics had with Government departments before the Office's revised methodology for allocating international migrants to regions and local authority areas was published. [199300]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician I have been asked to reply to your recent question concerning what discussions the Office for National Statistics had with Government departments before the Office's revised methodology for allocating international migrants to regions and local authority areas was published. (199300).

Over a significant period of time prior to implementation, ONS officials had regular discussions with the key Departmental users of population and migration statistics, specifically:

The Department for Communities and Local Government, given their role with local grant funding;

The Department of Health, including representation on the Technical Advisory Group (TAG) of the Advisory Committee for Resource Allocation (ACRA); and

The devolved administrations.

Government departments and other users were kept informed at each stage in the development and implementation of the improved methodology. Papers were submitted for discussion at the regular meetings held with the population sub-group of Central and Local Information Partnership (CLIP). Membership of CLIP includes representatives from Government departments, as well as from local government. The proposed new methodology was first discussed by CLIP in April 2006 prior to the announcement, in August 2006, of plans to implement the revised methods. The publication of indicative figures and explanatory papers followed in April 2007. Presentations of the methods were made at conferences and seminars, in particular at the British Society of Population Studies.

Simon Hughes: To ask the Chancellor of the Duchy of Lancaster when estimates for short-term migration will be published for each local authority area. [199304]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician I have been asked to reply to your recent question asking when estimates for short-term migration will be published for each local authority area. (199304)

An initial report on the outcome of work to explore the feasibility of producing such estimates is planned for late 2008. If this concludes that a suitable methodology can be developed using existing sources, which is at this point still uncertain, it is anticipated that estimates for short-term migration for local authorities could be published in 2009.

Damian Green: To ask the Chancellor of the Duchy of Lancaster which recommendations of the Inter-departmental Task Force on Migration Statistics *(a)* have and *(b)* have not been implemented since the publication of its report. [199855]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As National Statistician I have been asked to reply to your recent question asking which recommendations of the Inter-Departmental Task Force on Migration Statistics have been implemented. (199855)

Following the release of the Migration Task Force report ONS made a bid for funding of new work to implement the recommendations made. It was always intended that this would be necessary as the Task Force identified further work over and above that which ONS could have achieved on its own.

In 2007 ONS implemented some improvements to existing population estimates (mainly involving the distribution of international migration between local areas). The future work programme started on 1 April 2008.

In practice ONS has made progress where possible. In particular:

An interim Port Survey Review report was published in October 2007 identifying a series of short-term improvements that will be implemented in 2008. In addition, more emigrants are being sampled in the International Passenger Survey.

ONS published experimental statistics on short term migration at the end of 2007 and is researching the feasibility of producing these at local level.

A step towards more coherent reporting of migration statistics was made in February when the Home Office and ONS published outputs at the same time as a more joined-up package. This approach will be developed throughout 2008.

ONS has been working closely with other government departments including DWP and DCSF to explore what administrative data is available and how it might be used to improve migration statistics. A paper was published in late 2007. ONS is also looking at how data from the Higher Education Statistics Agency might be used to improve internal migration estimates at student ages.

ONS and Home Office are working together to define the statistical requirements of the new e-Borders system, gathering data on people as they enter or leave the UK.

ONS published in late 2007 indicators of volumes of migration into and out of local areas.

Damian Green: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the reliability of the short-term migration statistical series produced by the Office for National Statistics; and if he will make a statement. [199856]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician I have been asked to reply to your recent question asking what assessment has been made of the reliability of the short-term migration statistical series. (199856)

Short-term migration estimates were published for the first time in October 2007, together with associated standard errors which provide an indication of how much a sample estimate might vary from the true value because of random effects.

The estimates are not yet classified as National Statistics as they are still under development. At the time of publishing, ONS set out the future pathway to achieving the higher quality standards of National Statistics status. The first stage of this work is to carry out a reconciliation exercise between combined estimates of long and short-term migration and counts of international immigrants from administrative sources. Publication of this first step is planned for May 2008.

Damian Green: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the funding required to implement the recommendations made by the inter-departmental task force on migration statistics; what discussions he has had with ministerial colleagues over such funding; and how much has been allocated to implement these recommendations in each of the next three years. [199857]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, 21 April 2008:

As National Statistician I have been asked to reply to your recent question o the funding required to implement the recommendations made by the inter-departmental taskforce on migration statistics and discussions that have been held with ministerial colleagues. (199857)

ONS is currently in the final stages of agreeing the work programme for improving migration statistics. The initial assessment ONS made of the funding required to implement the migration task force recommendations is estimated to be £48 million over five years in full implementation were to be achieved. This estimate is made up of work needed in other government departments as well as the work ONS would do.

ONS has had discussions with departmental colleagues over the work programme and the associated funding requirements, and those colleagues have engaged their Ministers. The National Statistician has also engaged directly with John Healey and Liam Byrne on this matter but no formal ministerial meeting has been held at this state.

The statistical work programme for ONS as a whole, which will cover the first four years of migration statistics improvements, is being finalised and will be the details of the migration statistics improvement programme.

Official Residences: Repairs and Maintenance

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 20 March 2008, *Official Report*, column 1307W, on official residences: repairs and maintenance, whether any *(a)* cleaning, *(b)* minor works and *(c)* refurbishment have been undertaken on the Prime Minister's personal residence in Downing Street following the departure of the previous Prime Minister. [199106]

Phil Hope: The costs of refurbishment of the Prime Minister's official residence and the Downing Street complex are given on a regular basis following the end of the financial year.

Overseas Students

Mr. Willetts: To ask the Chancellor of the Duchy of Lancaster what proportion of migrants to the UK entered the country to study at a UK educational institution in the latest period for which figures are available. [199658]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician I have been asked to reply to your recent question asking what proportion of migrants to the UK entered the country to study at a UK institution in the latest period for which figures are available. (199658)

The latest available estimates of Total International Migration (TIM) are for the 2006 calendar year. In 2006 27 per cent. of migrants cited formal study as their main reason for migration to the UK. This percentage excludes those migrants with another main reason for migration, such as accompanying or joining family members, but who may also undertake study in the UK.

Pensioners

Mr. Willetts: To ask the Chancellor of the Duchy of Lancaster what the average age is of a pensioner in *(a)* Scotland and *(b)* England. [199968]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As National Statistician I have been asked to reply to your question on what the average age is of a pensioner in (a) Scotland and (b) England. (199968)

The median age of the population of pensionable age in both Scotland and England is 72 years. These data are based on mid-2006 population estimates which are the latest available.

Mr. Willetts: To ask the Chancellor of the Duchy of Lancaster how many pensioners there were in *(a)* Scotland and *(b)* England at the latest date for which figures are available; and what percentage of the total population they represented. [199969]

Edward Miliband: The information requested falls with the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As National Statistician I have been asked to reply to your question regarding how many pensioners there were in *(a)* Scotland and *(b)* England at the latest date for which figures are available, and what they represented as a percentage of the total population. (199969).

The following table shows the data you have requested. The latest population estimates available are for mid-2006.

2006 Mid-year estimate of pensionable age resident population

Country	*Persons of pensionable age (thousand)*	*Percentage of total population*
England	9,462	19
Scotland	983	19

Sources:
Office for National Statistics and General Register Office for Scotland.

Political Office

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how much was contributed from the public purse towards the cost of Downing Street Political Office staff that are part funded by the Labour Party, in the most recent year for which figures are available. [198195]

Mr. Watson: I refer the hon. Member for Horsham to the answer the Prime Minister gave on 22 January 2008, *Official Report*, column 1789W.

Psychology

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster which chartered psychologists have been hired by his Department in the last 24 months; at what cost; and for what purpose. [198181]

Mr. Watson: Information on whether individual management units have used chartered psychologists is not held centrally and could be obtained only at disproportionate cost.

Public Participation

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster (1) pursuant to the answer of 20 March 2008, *Official Report*, column 1307W, on public participation: incentives, what the criteria by which Ipsos MORI recruited participants to attend; what methodology they used to ensure a group of people from all walks of life were selected; and whether membership of a political party was one of the criteria used to select or not select individuals; [198194]

(2) pursuant to the answer of 5 December 2007, *Official Report*, column 1344W, on public participation: incentives, what steps were taken to determine whether participants in the deliberative forum had party political affiliations. [198097]

Mr. Watson: Ipsos MORI managed the recruitment process for the national workshop and selected a group of people by face to face interviews from across the UK and all walks of life to be reflective of the population to attend. Ipsos MORI used a number of quotas to ensure that the recruitment was a good reflection of the general public as a whole, including key demographic questions on age, gender, socio-economic group, etc. They also asked attitudinal questions, such as views on whether the Governments policies are likely to improve public services or not and questions on political activism, including party membership, to ensure people with a good range of views and people with different levels of political activism attended the event.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many individuals have responded to his Department's "Have Your Say" consultation. [198196]

Mr. Watson: The Crime and Communities review's "Call for Evidence" has by the end of March 2008, attracted 944 responses to its questionnaire, and in addition, 606 community activists have also attended evidence gathering events across the country. The deadline for the end of the evidence gathering process is the 11 April 2008.

Rackspace

Mr. Hands: To ask the Chancellor of the Duchy of Lancaster what the value was of each contract awarded by *(a)* his Department and *(b)* its agencies to Rackspace in the last year for which figures are available. [199524]

Phil Hope: The information requested is not held centrally and is therefore available only at disproportionate cost.

Security: Greater London

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the Answer of 7 March 2008, *Official Report*, column 2846W, on security: Greater London, whether projects within the Government Security Zone include implementation of recommendations made by Project George. [198089]

Mr. Watson: The GSZ Programme is about the physical security of Government buildings within the zone. The Cabinet Office took into account the GSZ when planning and implementing refurbishment works to its Whitehall buildings.

Staff: 10 Downing Street

Mr. Hands: To ask the Chancellor of the Duchy of Lancaster how many people working in *(a)* Number 10 Downing Street and *(b)* the Cabinet Office are not employed by the Civil Service. [197497]

Phil Hope: The Prime Minister's Office forms part of the Cabinet Office.

From latest available figures as at 31 December 2007, there were 87 members of staff (FTE) working in the Cabinet Office who are not employed by the civil service. This figure includes staff seconded in from outside the civil service, fee-paid staff, agency staff and consultants but excludes service contractors.

Suicide: South Yorkshire

Jeff Ennis: To ask the Chancellor of the Duchy of Lancaster how many people *(a)* under and *(b)* over 21 years of age committed suicide in (i) Barnsley, (ii) Doncaster and (iii) South Yorkshire in each of the last five years for which figures are available. [199354]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As National Statistician, I have been asked to reply to your recent question asking how many people (a) under and (b) over 21 years of age committed suicide in (i) Barnsley, (ii) Doncaster and (iii) South Yorkshire in each of the last five years for which figures are available. (199354)

The table attached provides the number of deaths where suicide was the underlying cause of death for persons aged (a) under 21 and (b) 21 years and over, in (i) Barnsley metropolitan district, (ii) Doncaster metropolitan district and (iii) South Yorkshire county, for 2002 to 2006 (the latest year available).

Table 1: number of deaths where suicide was the underlying cause of death,[1] Barnsley metropolitan district, Doncaster metropolitan district and South Yorkshire county,[2] by age group[3], 2002-2006[4]

Area	*Age*	*2002*	*2003*	*2004*	*2005*	*2006*
						Deaths (persons)
Barnsley	15 to 20	2	0	1	1	0
	21 and over	13	21	15	31	10
	Total	15	21	16	32	10
Doncaster	15 to 20	1	3	1	2	2

Table 1: number of deaths where suicide was the underlying cause of death,[1] Barnsley metropolitan district, Doncaster metropolitan district and South Yorkshire county;[2] by age group[3], 2002-2006[4]

Area	Age	2002	2003	2004	2005	Deaths (persons) 2006
	21 and over	22	28	26	25	24
	Total	23	31	27	27	26
South Yorkshire	15 to 20	5	5	3	3	4
	21 and over	98	111	96	114	95
	Total	103	116	99	117	99

[1] Suicide was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the coroner's verdict was pending).
[2] Based on boundaries as of 2008.
[3] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.
[4] Figures are for deaths registered in each calendar year.

Unemployment: Inverness

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster (1) how many workless households in Inverness, Nairn, Badenoch and Strathspey constituency there were in each year since 1997; [200090]

(2) how many children were living in workless households in Inverness, Nairn, Badenoch and Strathspey constituency in each year since 1997; [200118]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 21 April 2008:

As national Statistician I have been asked to reply to your two parliamentary questions. The first asks how many workless households in Inverness, Nairn, Badenoch and Strathspey constituency there were in each year since 1997 [200090]. The second asks how many children were living in workless households in Inverness, Nairn, Badenoch and Strathspey constituency in each year since 1997 [200118].

Estimates are provided from the labour Force Survey (LFS). There is currently no annual household dataset, so the figures are given for the April-June quarter to be consistent with those published in the 'Work and worklessness among household first Release' (see web link http://www.statistics.gov.uk/pdfdir/work0807.pdf). The boundaries for parliamentary constituencies in Scotland were redrawn in 2005, and data is only available for 2006 and 2007 using the LFS household datasets.

There were approximately 1,000 workless households in Inverness, Nairn, Badenoch and Strathspey constituency in 2006 and 2007. Estimates for the number of children (aged under 16) living in these workless households are disclosive and cannot be released under confidentiality rules.

A workless household is a household that includes at least one person of working-age (a woman aged 16 to 59 or a man aged 16 to 64) where no one aged 16 or over is in employment.

The LFS is a sample survey covering over 52,000 households in the United Kingdom in each three month period. As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

United Kingdom Statistics Authority: Finance

Hugh Bayley: To ask the Chancellor of the Duchy of Lancaster how the budget of the UK Statistics Authority is determined. [199277]

Phil Hope: In the 2007 Budget the Government announced a funding settlement of £1.2 billion over five years for the new Statistics Authority. The settlement applies to the years 2007-08 to 2011-12, providing planning and funding certainty for the development of the new Authority and the effective discharge of its remit from the establishment of the new system on 1 April 2008.

In order to reinforce the new Statistics Authority's statutory independence, the Government set funding for the Authority outside the normal Government spending review process.

Within this funding settlement, it will be for the Authority to decide on spending allocations for the Authority's functions, the census, new statistical initiatives and the Office for National Statistics.

Zurich Financial Services

David T.C. Davies: To ask the Chancellor of the Duchy of Lancaster how much the Cabinet Office paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199609]

Phil Hope: The Cabinet Office paid to Zurich Financial Services the following amounts:

Financial year	£
1999-2000	4,112.50
2000-01	5,062.71
Total	9,175.21

Information prior to 1999-2000 is not held. There have been no payments since 2000-01. Details of the purpose of the payments can be obtained only at disproportionate costs.

FOREIGN AND COMMONWEALTH OFFICE

Arms Trade

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimae his Department has made of the number of small arms which were imported into the UK and immedately re-exported in each of the last three years; and what assessment he has made of the *(a)* destination and *(b)* end use of such arms. [200041]

Meg Munn: Cumulative records of small arms imported and immediately re-exported are not maintained. It is therefore not possible to say how many small arms entered the UK and were then immediately re-exported. Information on licences issued for the export of small arms has been published in the Government's quarterly and annual reports on strategic export controls, which can be found on the Foreign and Commonwealth Office's website at:

http://www.fco.gov.uk/en/about-the-fco/publications/publications/annual-reports/export-controls

Licenses for arms exports are considered on a case by case basis and rigorously assessed against the Consolidated EU and National Arms Export Licencing Criteria ("The Code of Conduct"). This takes into account conditions and circumstances in the country of destination and the end use of such arms.

There is a limited number of exemptions or variations to this rule. For example, in the case of export of small arms by an individual when Part IV, Article 11 (8) or (9) of the Export of Goods, Transfer of Technology and Provision of Technical Assistance (Control) Order 2003, as amended, applies. In such cases an export licence may not be required if the criteria set out in the order can be met. Similarly, an individual could make use of the Open General Export Licence (Accompanied Personal Effects: Sporting Firearms) if they meet the criteria set out in that licence. In cases where the criteria for these exemptions are not met an export licence, assessed against "The Code of Conduct" as described above, will be required.

Ballistic Missile Defence

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs on what dates and with whom in the US Administration he has discussed talks between Russia and the US on deployment of the US Ballistic Missile Defence programme. [197910]

David Miliband: The UK continues to discuss ballistic missile defence issues with the US Administration, on a number of levels. It is not the practice of the Government to make public details of all discussions with foreign governments. We are, however, kept well informed of discussions between the US and Russia on the deployment of US missile defence assets and we welcome the continued constructive engagement by both sides in the debate.

Bombs

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has for *(a)* UK representation and *(b)* a negotiating mandate at the forthcoming conference on an international treaty on cluster munitions in Dublin in April 2008; what the UK's policy is on (i) cluster munitions and (ii) a treaty reducing or banning their deployment; and if he will make a statement. [198113]

Dr. Howells: At the Dublin Diplomatic Conference (19-30 May) John Duncan, our Ambassador for Multilateral Arms Control and Disarmament and Permanent Representative to the Conference on Disarmament in Geneva, will lead the UK delegation, which will include Foreign and Commonwealth Office, Ministry of Defence and Department for International Development officials.

The Government recognises the humanitarian concerns raised by cluster munitions. Our policy is therefore to work to achieve legally binding instruments within both the Oslo Process and the UN framework, the Convention on Certain Conventional Weapons, that will prohibit the use, production and stockpiling of those cluster munitions which cause unacceptable harm to civilians. The mandate of the UK delegation in Dublin will reflect that objective. We want a strong treaty that will have the widest possible support from the start, particularly from the major users and producers, and thereby achieve the greatest practical humanitarian effect.

China: Human Rights

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many individual cases of human rights abuses by China he raised with his Chinese counterpart in each of the last five years. [197615]

Meg Munn: We regularly raise individual cases of human rights abuses with the Chinese government, both bilaterally and through the EU. My right hon. Friend the Foreign Secretary raised three priority cases with the Chinese Foreign Minister during his visit to China in February. We also handed over a list of 42 individual cases of concern at the most recent round of the UK-China Human Rights Dialogue, which took place in Beijing just prior to this visit, at the end of January. We are unable to detail how many individual cases my right hon. Friend the Foreign Secretary has raised over the last five years without incurring disproportionate cost.

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions he has raised the issue of human rights abuses with his Chinese counterpart in the last five years. [197616]

Meg Munn: We regularly raise human rights concerns with the Chinese Government. My right hon. Friend the Foreign Secretary has been in regular contact with Chinese Foreign Minister Yang Jiechi over the last two weeks to register concern for the situation in Tibet. He also raised a number of issues, including ratification of the International Covenant of Civil and Political Rights and media freedom, with the Chinese Foreign Minister during his visit to China in February 2008. We are unable to detail how many times my right hon. Friend the Foreign Secretary has raised human rights concerns with Chinese counterparts over the last five years without incurring disproportionate cost.

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the human rights situation in China. [197618]

Meg Munn: We regularly monitor the human rights situation in China. We use the annual UK-China Human Rights Dialogue to discuss our priority concerns in detail and to gain up to date information,

including on individual cases. We also regularly raise our concerns and request information from the Chinese government both bilaterally and through the EU. Our assessment of China's human rights record for 2007 is included in the Foreign and Commonwealth Office's (FCO) Annual Human Rights Report, published on 25 March 2008, available on the FCO website at:

www.fco.gov.uk

China: Olympic Games

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on a boycott of *(a)* all and *(b)* part of the Olympic Games in 2008; and if he will make a statement. [197617]

Meg Munn: We are aware of calls to boycott the 2008 Olympic Games. The Government do not support a boycott of any part of the Olympics. We shall continue working with China to make the Olympics a success.

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he plans to take in respect of the Beijing Olympic Games in the event of worsening political violence in China. [198127]

Meg Munn *[holding answer 3 April 2008]:* We monitor political developments in China closely, and we will continue to make clear to the Chinese government where we have concerns, as we have done in respect of recent violence in Tibet. We have made clear, however, that we do not support a boycott of any part of the 2008 Olympics. We are determined to continue working with China to make the Olympics a success, as part of China's re-engagement with the world.

Climate Change

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterpart on climate change; and if he will make a statement. [197619]

Meg Munn: My right hon. Friend the Foreign Secretary has regular discussions with his US counterpart on a range of issues, including on climate change, as do ministerial and policy colleagues. Tackling climate change is key to global security and prosperity and that is why we have made "promoting a high growth, low carbon economy" one of the Foreign and Commonwealth Office's four priorities. We will continue to hold regular discussions with the US, and with other international partners, to deliver an ambitious and fair post-2012 deal at the UN conference in Copenhagen in 2009.

Corruption

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what meetings his Department has held with officials of the Organisation for Economic Co-operation and Development's anti-corruption working group in the last three years; and if he will make a statement; [198007]

(2) what progress has been made in implementing the Organisation for Economic Co-operation and Development anti-bribery convention in the UK; and if he will make a statement; [198008]

(3) what documents the Government has *(a)* provided and *(b)* been asked to provide to the Organisation for Economic Co-operation and Development working group on bribery; and if he will make a statement. [198009]

David Miliband: The UK is a founder signatory of the 1997 Organisation for Economic Co-operation and Development (OECD) Convention on Bribery of Foreign Public Officials in International Business Transactions (OECD Anti-Bribery Convention) which we ratified in 1998—one of the first member countries to do so. My noble Friend the Advocate-General for Scotland, Lord Davidson of Glen Clova, represented the UK at the OECD High Level Conference to mark the 10th anniversary of OECD Anti-Bribery Convention in Rome in November 2007. The Working Group recognised in their Phase 1 bis review that the UK's laws comply with the requirements of the Convention. We continue to work closely with the OECD on improving our anti-bribery procedures. The importance that the UK attaches to this area is reflected in my right hon. Friend the Prime Minister's appointment of my right hon. Friend the Secretary of State for Business, Enterprise and Regulatory Reform as the Government anti-corruption champion and the range of measures proposed in the 2007 and 2008 anti-corruption action plans.

The OECD Working Group on Bribery is the body responsible for monitoring compliance with the convention. It operates through an established peer review process intended to raise standards across the Group's membership. The Group meets formally in Paris four times a year. The UK has been represented on every occasion by Government officials from the Foreign and Commonwealth Office, home departments and UK law enforcement agencies, including the Attorney-General's Office, city of London police, Crown Prosecution Service, Department for Business, Enterprise, and Regulatory Reform, Ministry of Justice, and the Serious Fraud Office. There are, of course, frequent ad hoc meetings between OECD and member country officials, including the UK.

We shall continue to play a full and active part in the group and in its peer review procedures. Preparation for such reviews usually entails the provision of supporting written material such as laws, regulations and judicial decisions. To ensure the OECD is kept fully abreast of developments, it is also open for member countries to provide these on their own initiative in the interim. The UK has, for example, recently provided the OECD with core documents submitted to the Judicial Review by the Serious Fraud Office, the Law Commission Consultation Paper "Reforming Bribery" and the Constitutional Renewal White Paper and draft Bill.

Council of Europe Parliamentary Assembly

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department contributes *(a)* direct funding, *(b)* informal support and *(c)* personnel to the Parliamentary Assembly of the Council of Europe; and if he will make a statement. [197850]

Mr. Jim Murphy: The UK does not directly fund the Parliamentary Assembly of the Council of Europe (PACE). PACE is funded from the Council of Europe ordinary budget, to which the UK contributed £18 million in 2008—to equal to the contributions of the other major contributors: France, Germany, Russia and Italy.

The Foreign and Commonwealth Office informally supports the UK Parliamentary Delegation to PACE through our staff at the UK Delegation in Strasbourg.

We do not contribute personnel to PACE.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a mechanism exists to enable the Government to respond formally to resolutions passed by the Parliamentary Assembly of the Council of Europe; what recent representations he has received about the issue; and if he will make a statement. [197851]

Mr. Jim Murphy: The Government may choose to respond formally to resolutions passed by the Parliamentary Assembly of the Council of Europe when they are part of a recommendation or opinion addressed to the Committee of Ministers. The Committee of Ministers should reply within six months. The Rules of Procedure and the Statute of the Assembly are available at:

http://assembly.coe.intMain.asp?link=/RulesofProcedure/PACERuleIndex_E.asp.

The Government are unaware of any recent representations on this issue.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196737]

Meg Munn: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195865]

Meg Munn: The Foreign and Commonwealth Office (FCO) recognises the advantages of video-conferencing and had a target to increase usage, for staff in the UK, by 10 per cent. by 31 March 2008. Between September 2007 and March 2008, usage on the main video-conferencing network increased by 51 per cent. Figures are not available for usage before then, or for the other (smaller) video-conferencing network. The target for 2008-09 is still to be finalised but it will encourage further usage, including by staff overseas.

The FCO continues to expand the availability of video conferencing and currently has over 140 suites in its UK offices and posts.

Diego Garcia: Rendition

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Statement of 21 February 2008, *Official Report*, column 547, on terrorist suspects (renditions), whether UK officials met either of the people rendered through Diego Garcia in 2002. [198021]

Dr. Howells: We have no evidence to suggest that the two individuals concerned met UK officials while on Diego Garcia.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Statement of 21 February 2008, *Official Report*, column 547, on terrorist suspects (renditions), if he will instigate a public inquiry into the use of Diego Garcia by the US for rendition purposes. [198022]

Dr. Howells: My right hon. Friend the Foreign Secretary has written to US Secretary of State Rice, further to his statement to the House on 21 February 2008, *Official Report*, columns 547-48, to request clarification on a number of specific issues raised by the new information passed to us on 15 February regarding two cases of rendition through Diego Garcia in 2002. In advance of concluding this work, it would be inappropriate to speculate on whether a more formal inquiry is necessary. Our officials continue to work with their US counterparts on the details and implications of the new information.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Statement of 21 February 2008, *Official Report*, column 547, on terrorist suspects (renditions), who the two men were who were rendered through Diego Garcia in 2002. [198023]

Dr. Howells: As set out in my right hon. Friend the Foreign Secretary's statement to the House on 21 February 2008, *Official Report*, columns 547-48, neither of these two individuals was a British national or a British resident. One is currently detained at Guantanamo Bay and the other has been released. However, my right hon. Friend the Foreign Secretary has no further information to disclose regarding these two individuals.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Statement of 21 February 2008, *Official Report*, column 547, on terrorist suspects (renditions), when the two men rendered through Diego Garcia in 2002 *(a)* arrived on and *(b)* were transported off the island. [198024]

Dr. Howells: The two cases of rendition through Diego Garcia referred to in my right hon. Friend the Foreign Secretary's statement of 21 February 2008, *Official Report*, columns 547-48, took place in January and September 2002 respectively. In both cases a US plane with a single detainee on board arrived and refuelled at the US facility in Diego Garcia before departing. The detainees did not leave the plane.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Statement of 21 February 2008, *Official Report*, column 547, on terrorist suspects (renditions), (1) where the two men rendered through Diego Garcia were held prior to their transfer from Diego Garcia; and whether either of them were held on the island itself or on ships close to Diego Garcia; [198025]

(2) where the two men rendered through Diego Garcia were taken having been transferred through Diego Garcia; and what steps he has taken since their rendition to assess the treatment of the men whilst in custody of the US or another state. [198026]

Dr. Howells: Our officials continue to work with their US counterparts on the details and implications of the new information passed to us on 15 February regarding two cases of rendition through Diego Garcia in 2002. My right hon. Friend the Foreign Secretary has written to US Secretary of State Rice, further to his statement to the House on 21 February 2008, *Official Report*, columns 547-48, to request clarification on a number of specific issues. While my right hon. Friend the Foreign Secretary has no further information that he is able to disclose regarding these two individuals, the US has assured us that no detainees have been held at Diego Garcia.

Europe: Finance

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his EU counterparts on gender responsive budgeting. [190919]

Mr. Jim Murphy *[holding answer 4 March 2008]:* My right hon. Friend the Foreign Secretary has had no discussions with EU counterparts on the specific issue of gender responsive budgeting.

However, the Government are supportive of efforts to achieve gender equality and I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Under-Secretary of State my hon. Friend the Member for Sheffield, Heeley (Meg Munn) on 13 March 2008, *Official Report*, column 643W.

Exports: Licensing

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs to which countries the UK has refused an export licence on the grounds of human rights since 1997. [197791]

David Miliband: Human rights considerations are at the forefront of the UK assessment of all export license applications. Criterion 2 of the consolidated EU and National Arms Export Licensing criteria requires us to assess the attitude of the country of final destination towards principles established by international human rights instruments.

Information about the refusal of certain export licence applications under the EU and National Arms Export Licensing consolidated criteria has been published in the UK strategic export control annual reports available since 2001. This information can be found on the Foreign and Commonwealth Office's website at www.fco.gov.uk

We do not as a matter of course collate information about refusals broken down by the criteria applied, for example, over concerns over human rights in individual countries. It would incur disproportionate cost to provide this information for the period requested.

Fiji: Foreign Relations

Mr. Maude: To ask the Secretary of State for Foreign and Commonwealth Affairs what permission *(a)* the Prime Minister's Office or *(b)* his Department gave to Fiji to use his image to promote a tourism campaign; and what assessment he has made of the effect on the UK's diplomatic relations. [198250]

Meg Munn: The Prime Minister's Office does not give permission for images of my right hon. Friend the Prime Minister to be used in commercial promotions, as was made clear at the time of the Fiji Visitors Bureau's February 2008 advertising campaign. I do not believe this incident has had an impact on the UK's diplomatic relations.

Football Banning Orders

John Mann: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions his Department has been consulted by the Home Office on banning orders on visa applicants wishing to visit the UK in the last three months. [197333]

Dr. Howells: The Foreign and Commonwealth Office maintains regular contact with the Home Office over additions and deletions to UN Security Council and EU travel ban lists, over exclusion decisions and over visa applications. The Government do not keep central statistics for these contacts.

France: European Council Presidency

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his French counterpart on France's presidency of the European Council in the second half of 2008; and if he will make a statement. [190600]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary discussed possible priorities for the French presidency with the French Minister of Foreign Affairs at the UK-France Summit on 27 March 2008. This discussion was continued at an informal meeting with other EU Foreign Ministers in Paris on 31 March.

My right hon. Friends the Prime Minister, and Foreign Secretary and I have regular contact with our French counterparts and discuss a wide range of EU issues. There is also frequent contact at official level.

The joint UK-France declaration, issued after the Summit, outlines key areas for UK-French co-operation, including during the French presidency. These include work on a new EU Migration Pact, an EU-wide strategy for tackling climate change and securing energy supplies, taking action to reduce global poverty and improving civilian crisis management capabilities.

Gaza: Weapons

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what representation he has made to the Government of Egypt on stopping the smuggling of weapons into Gaza. [199564]

Dr. Howells: Arms smuggling into Gaza remains a great concern. My right hon. Friend the Foreign Secretary met his Egyptian counterpart Aboul Gheit on 19 February 2007 to discuss the situation on Gaza. The Quadrilateral Committee, which consists of Israel, the Palestinian Authority, Egypt and the US has been working closely to address the issue of smuggling and border control.

Human Rights

Stephen Hesford: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of international compliance with conventions banning torture and other degrading practices; what steps the UK Government is taking to *(a)* encourage other countries to ratify such conventions and *(b)* monitor compliance; and if he will make a statement. [197610]

Meg Munn: Despite the fact that a large number of states have ratified various international conventions prohibiting torture, torture continues to be committed with impunity in many parts of the world. The UK remains fundamentally opposed to torture and continues to be one of the most active countries in the world in the fight to eradicate it.

For example, we continue to support wider ratification of the UN Convention Against Torture (CAT) and its Optional Protocol (OPCAT) through bilateral lobbying campaigns, EU demarches and our work in UN fora such as the Human Rights Council. We also use a combination of project work and diplomatic activity to encourage implementation of OPCAT, including by the establishment of national preventative mechanisms. Since September 2006, 13 additional states have ratified OPCAT. This marks significant progress, although there is of course more to be done.

The UK continues to support various bodies which have a role to play in monitoring and promoting compliance with international conventions and standards relating to the prohibition of torture, including the UN treaty bodies formally mandated to help enforce the CAT and OPCAT, and the European Court of Human Rights.

Further information on the Foreign and Commonwealth Office's (FCO) work in this area can be found in the FCO's 2007 Annual Human Rights Report. The report is also available on the FCO's website at:

www.fco.gov.uk.

Indonesia: Human Rights

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the report by the UN Special Rapporteur on Torture, Dr. Manfred Nowak, on the use of torture and other cruel, inhuman or degrading treatment or punishment by Indonesian security forces in Indonesia and West Papua; whether he plans to make representations to the government of Indonesia on the report's findings; and if he will make a statement. [197732]

Meg Munn: We welcome Dr. Manfred Nowak's visit to Indonesia in November 2007, at the invitation of the Indonesian government. In an address to the UN Human Rights Council on 4 March, the Indonesian Foreign Minister, Hassan Wirajuda, expressed appreciation for the importance of the work of the Special Rapporteurs and undertook to sustain Indonesia's dialogue with them. The report of Dr. Nowak's visit as published to the UN Human Rights Council on 10 March. It notes the considerable progress made in Indonesia since 1998 and the commitment of the current government to uphold and promote human rights. It also raised concerns about torture and ill treatment in places of detention, particularly in the metropolitan areas of Java. We are continuing to study Dr. Nowak's report and are consulting with EU partners on how we might engage with the Indonesian government on its findings. Indonesia is currently participating in a process of Universal Periodic Review at the UN Human Rights Council. The UK is a member of the UN Human Rights Council and we look forward to a further discussion of Dr. Nowak's recommendations in due course.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to respond to the report of the UN Special Rapporteur on Torture, Dr Manfred Nowak, on the use of torture by the Indonesian security forces in Indonesia and West Papua. [197843]

Meg Munn: We welcome Dr. Manfred Nowak's visit to Indonesia in November 2007, at the invitation of the Indonesian Government. In an address to the UN Human Rights Council on 4 March 2008, the Indonesian Foreign Minister, Hassan Wirajuda, expressed appreciation for the importance of the work of the Special Rapporteurs and undertook to sustain Indonesia's dialogue with them. The report of Manfred Nowak's visit was published to the UN Human Rights Council on 10 March. It notes the considerable progress made in Indonesia since 1998 and the commitment of the current government to uphold and promote human rights. It also raised concerns about torture and ill treatment in places of detention, particularly in the metropolitan areas of Java. We are continuing to study Dr. Nowak's report and are consulting with EU partners on how we might engage with the Indonesian Government on its findings. Indonesia is currently participating in a process of Universal Periodic Review at the UN Human Rights Council. The UK is a member of the UN Human Rights Council and we look forward to a further discussion of Dr. Nowak's recommendations in due course.

Iraq: Peacekeeping Operations

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many complaints have been received relating to the behaviour of individuals employed by private military companies under contract to the UK Government in *(a)* Iraq and *(b)* Afghanistan since 2003, broken down by type of complaint. [198011]

David Miliband: One complaint has been received about the alleged discharge of a weapon by an individual working for a private security company contracted to the Government in Iraq. On investigation the complaint proved to be unfounded as the incident involved a company that had no connection with the Government. No complaints have been received about the behaviour of individuals working for private security companies contracted to the Government in Afghanistan.

Maldives: Elections

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on participating in an election-monitoring mission to the Maldives in relation to elections expected in 2008; and what plans he has for the UK to do so. [198112]

Dr. Howells: My right hon. Friend the Foreign Secretary has received no specific representations on election monitoring in Maldives. I refer my hon. Friend to the answers I gave on 27 February 2008, *Official Report*, columns 1704-05W, to the hon. Member for West Suffolk (Mr. Spring) and to my hon. Friend the Member for Thurrock (Andrew Mackinlay).

Mexico: Foreign Relations

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps the Government have taken to improve the relationship between the UK and Mexico. [199834]

Meg Munn: The UK and Mexico enjoy extensive and growing bilateral relations. Co-operation on climate security, sustainable development and trade are the cornerstones of this relationship. In addition to regular official and ministerial visits in both directions, formal economic and high level political talks are held annually. Mexican Deputy Foreign Minister Lourdes Aranda headed the Mexican delegation at the most recent political talks in London on 1 April 2008 which I chaired.

Michael Shields

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of Bulgaria on a pardon for Michael Shields; and if he will make a statement. [199563]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has made no representations to the government of Bulgaria in support of a pardon for Mr. Shields. Consular officials remain in contact with Mr. Shields' legal team and continue to advise them to pursue those avenues available to them in accordance with Bulgarian legal processes.

Middle East: Armed Conflict

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK Government have had any discussions with the prospective candidates for the US presidency on the Israel-Palestine conflict and its humanitarian implications; and if he will make a statement. [198069]

Dr. Howells: The Government, both in London and through our embassy in Washington, discuss a wide range of issues—including the Israeli-Palestinian conflict—with the US presidential candidates and their advisers on a continuing basis. Most recently, my right hon. Friend the Prime Minister met Senator John McCain on 20 March.

Middle East: Peace Negotiations

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution his Department made to the United Nations Development Programme Trust Fund to support the work of Quartet Special Envoy James Wolfensohn in *(a)* 2004 and *(b)* 2005; and if he will make a statement. [198068]

Dr. Howells: I refer the hon. Member to the reply my right hon. Friend the Secretary of State for International Development gave to him on 20 March 2008, *Official Report*, column 1273W.

The Department for International Development was the main Departmental lead on assistance to James Wolfensohn when he held the role of the Quartet Representative for Gaza disengagement.

Nuclear Disarmament

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received a response from his counterparts in the five Non-Proliferation Treaty nuclear weapons states to the United Kingdom offer to host a technical conference on the verification of nuclear disarmament. [197838]

Des Browne: I have been asked to reply.

My offer to host a conference of scientists from the nuclear laboratories of the five recognised nuclear weapon states was made in a speech to the Conference on Disarmament on 5 February 2008. Since then, senior officials from the Ministry of Defence and Foreign and Commonwealth Office have written jointly to their counterparts in each of the respective capitals describing the offer in more detail. We are waiting for formal responses before making further announcements.

Nuclear Non-proliferation Treaty

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to make progress on the fissile material cut-off treaty. [197840]

Dr. Howells: The UK considers a Fissile Material Cut-off Treaty (FMCT) to be a key priority for making further progress on multilateral disarmament. We will continue to press for the start of negotiations without pre-conditions at the Conference on Disarmament (CD). My right hon. Friend the Secretary of State for Defence, spoke to the Conference on 5 February 2008 and highlighted the urgent need for the Conference to redouble their efforts to move forward on a FMCT.

As the holder of one of the six CD presidencies in 2008 we are working with like-minded countries to try to bring about the start of negotiations this year. We will continue to lobby the states which remain opposed to the start of this process.

Pakistan: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political situation in Pakistan; and if he will make a statement. [198236]

Dr. Howells: Parliamentary and provincial elections took place in Pakistan on 18 February 2008. The EU Election Observation Mission recognised the elections as competitive. The political parties of the Pakistan People's Party (PPP), the Pakistan Muslim League-Nawaz (PML-N) and the Awami National Party (ANP) with the Jamiat Ulema Islami-Fazlur (JUI-F) and the Federally Administered Tribal Areas (FATA) grouping have formed a coalition government. The National Assembly elected a new Prime Minister, Yusuf Raza Gillani, on 24 March. He was sworn in by President Musharraf on 25 March. My right hon. Friend the Prime Minister has written to Prime Minister Gillani to congratulate him on his election.

We welcome the statement made by Prime Minister Gillani on 29 March, setting out the priorities for the first 100 days of his coalition government in the National Assembly, announcing measures to combat terrorism, tackle inflation and unemployment, improve media freedoms and strengthen the judiciary. Pakistan faces considerable challenges, not only political, but also economic, developmental, educational and health. We are looking forward to working closely with the new government to help them to meet these challenges.

Pakistan: Religious Freedom

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether he has held discussions with the new government of Pakistan on the treatment of religious minorities and the use of the blasphemy laws; [198237]

(2) if he will urge the government of Pakistan to fully repeal the blasphemy laws. [198238]

Dr. Howells: The UK strongly supports freedom of religion. We condemn instances where individuals are persecuted because of their faith or belief, wherever this occurs and whatever the religion of the individual or group concerned. Both bilaterally, and together with our EU partners, we have raised our concerns with the Government of Pakistan over the situation of religious minorities, including the excessive punishments prescribed in cases of blasphemy and the frequent abuse of the blasphemy legislation. We will continue to raise the concerns of minorities with the new Government of Pakistan and encourage reform or repeal of discriminatory legislation through the National Assembly.

Papua

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of the treatment of the population of West Papua by the Indonesian authorities; and if he will make a statement. [197842]

Meg Munn: Our embassy in Jakarta follows the situation in Papua closely and is in regular contact with human rights organisations, non-governmental organisations and academics who provide reports on developments in the region. Embassy staff also visit Papua regularly, most recently from 15-20 February 2008. While there they held discussions with local officials, non-governmental organisations and representatives of religious organisations on a range of issues, including human rights.

We assess that the Indonesian Government are committed to making improvements in the human rights situation as well as promoting wider development efforts in Papua. The invitations from the Indonesian Government to the UN Special Representative on Human Rights Defenders, Hina Jilanai, and Professor Manfred Nowak, UN Special Rapporteur on Torture, to visit Papua are encouraging signs of this.

Piracy

Mr. Brazier: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance his Department issues to *(a)* UK-registered and *(b)* Royal Navy ships operating in or passing through areas where there is a risk of piracy on (i) intervention in and (ii) taking active steps to prevent acts of piracy. [199822]

Meg Munn: The Foreign and Commonwealth Office does not issue guidance to UK-registered ships in respect of piracy. This is the responsibility of the Department for Transport (DFT), which relies on data supplied by the International Maritime Bureau, a specialised division of the International Chamber of Commerce, and other sources. The DFT also issues guidance on how ships can take steps to avoid being the object of a piracy attack. The Ministry of Defence is responsible for managing the operations of its own vessels.

Rendition

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government has taken in international forums to raise concerns on the use of extraordinary rendition. [198020]

Dr. Howells: We have cooperated fully with previous investigations by the European Parliament and the Council of Europe on rendition and have informed them of the new information we received from the US on 15 February regarding two cases of rendition through Diego Garcia in 2002. We will continue to cooperate with such international forums on this issue.

Mr. Davis: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Statement of 21 February 2008, *Official Report*, column 547, on terrorist suspects (renditions), which officials are responsible for receiving and administering US requests for permission to use British airports and air bases, including US bases on British territory, for rendition of individuals. [198019]

Dr. Howells: The Foreign and Commonwealth Office is the lead Department on rendition policy and officials in its Counter Terrorism Department (CTD) are the designated points of contact for this issue. All UK overseas missions are aware that they must notify CTD of any potential rendition requests from the US or third countries. Our officials continue to work with their US counterparts on the details and implications of the new information passed to us on 15 February regarding two cases of rendition through Diego Garcia in 2002. My right hon. Friend the Foreign Secretary has also written to Secretary Rice, further to his statement to the House on 21 February 2008, *Official Report*, columns 547-48, to request clarification on a number of specific issues and to clarify the appropriate arrangements for any future rendition requests.

Russia: BBC

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what information he has received from the BBC on interruptions and suspensions of the BBC Russian language service in Russia and Kazakhstan. [197665]

Mr. Jim Murphy: The BBC World Service keeps the Foreign and Commonwealth Office fully informed of any interruptions and suspensions of the BBC Russian language service in Russia.

There have been no major interruptions to the BBC's short or medium wave (MW) services in Russia or Kazakhstan in recent years. Since November 2006, the World Service has lost three FM partnerships—with Radio Leningrad in St. Petersburg, with Radio Arsenal in Moscow and with Bolshoye Radio in both cities.

There was a brief interruption to the Moscow MW frequency in early 2007. The BBC understands this was a technical issue related to the operational licence of the MW service provider in Russia. This was rectified and the service resumed.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the closure of FM stations in Russia and Kazakhstan carrying the BBC Russian language service in the last two years. [197666]

Mr. Jim Murphy: The BBC World Service has kept the Foreign and Commonwealth Office, and our embassy in Moscow, fully briefed on all FM radio developments in Russia. Since November 2006, the World Service has lost three FM radio partnerships: with Radio Leningrad in St. Petersburg, with Radio Arsenal in Moscow and with Bolshoye Radio in both cities. Since 2000, the BBC World Service has had no FM partnerships with radio stations in Kazakhstan.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the *(a)* reasons for and *(b)* effects of the suspensions of the BBC Russian language service carried by local FM partners in Russia in the last two years. [197667]

Mr. Jim Murphy: The BBC World Service has kept the Foreign and Commonwealth Office (FCO) fully briefed on the suspensions of the BBC Russian language service carried by local FM radio partners in Russia. The FCO reported on the most recent incident with Bolshoye Radio to the Foreign Affairs Committee. This partnership was ended because of pressure by the Russian authorities on Bolshoye Radio to remove BBC content. Given the short lifespan of the FM partnership (Bolshoye Radio—four months, Radio Arsenal—18 months and Radio Leningrad—20 months), the BBC World Service was unable to collate meaningful statistics to measure the impact of the closures.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what funding is planned for *(a)* the BBC World Service and *(b)* its Russian language service in each of the next three years. [197668]

Mr. Jim Murphy: BBC World Service funding for the next three years was announced in the Government's spending review in October 2007 and will be £265 million/£272 million/£271 million over the next three years. Of this, the amount directly apportioned to the Russian Service will be approximately £4.4 million in year one. In addition to this, there are a number of infrastructure and administration costs which are not allocated out to individual services. Funding for years two and three has not yet been finalised.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans there are to reinstate the broadcasting of BBC Russian language services on short wave. [197569]

Mr. Jim Murphy: The BBC Russian language service continues to broadcast on shortwave. This service has not been suspended.

Saudi Arabia: Overseas Residence

Mr. Winnick: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 1 April 2008, *Official Report*, column 836W, on Saudi Arabia: overseas residence, if he will make representations to the government of Saudi Arabia to permit non-Muslims to practise their faith in public. [199353]

Dr. Howells: This is an internal matter for the Saudi government. They are well aware that the Government believe freedom of worship is a right that people should enjoy everywhere. There are no additional plans to make representations to the Government of Saudi Arabia to permit non-Muslims to practice their faith in public.

Simon Mann

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he plans to take in the week beginning 21 April to monitor the *(a)* treatment and *(b)* risk of torture of Mr. Simon Mann in Black Beach Prison, Equatorial Guinea; and whether Mr. Mann is still being continuously shackled. [198171]

Meg Munn: Our consul from the British deputy high commission in Lagos was refused consular access to Simon Mann during his last visit to Equatorial Guinea in March 2008. We have expressed our concern to the Equatorial Guinea authorities and are urgently seeking another consular visit. Mr. Mann's welfare remains our primary concern.

Sri Lanka: Christianity

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to make representations to the government of Sri Lanka on recent attacks against Christians. [198239]

Dr. Howells: Our high commission in Colombo has expressed concern to the Sri Lankan government over recent reports of religious intolerance. We condemn the persecution of individuals or groups because of their faith or belief. We take very seriously issues of discrimination on grounds of religion and press for adherence to the principles of religious freedoms enshrined in the UN Charter and international conventions.

Sudan: Peace Negotiations

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent progress has been made in the peace talks for Darfur; and if he will make a statement. [197951]

David Miliband: Due to fragmentation among rebel movements and intensified fighting between the Government of Sudan and rebel groups, there has been no recent progress in the political process. The UK set out, at a meeting convened in Geneva on 18 March by the UN and African Union envoys, proposals for a cessation of hostilities and actions to revitalise the political process including the urgent appointment of a single chief mediator and deeper engagement with civil society.

Sudan: Peacekeeping Operations

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what progress has been made in meeting the helicopter requirements of the UNAMID deployment in Sudan; how many of the six light tactical attack helicopters have been provided; how many of the 18 medium utility transport helicopters have been provided; how many trained crews, including pilots and mechanics, are now available to fly and maintain any helicopters provided; what countries are involved in providing helicopters, crews and training; whether the UK is meeting any of the costs involved; and if he will make a statement; [197792]

(2) if he will make a statement on the offer by Ethiopia of helicopters to the UNAMID mission made in February 2008; how many of each type of helicopter have been offered; and how this deployment will be maintained and paid for; [197795]

(3) what countries have offered to provide, or are in talks with, the UN on providing helicopters for the UNAMID mission in Sudan. [197796]

David Miliband: The UN Department of Peacekeeping Operations (DPKO) has lobbied over 60 countries for helicopters and continues to seek offers to fill the remaining shortfalls. We are working closely in support of DKPO to lobby potential providers and we continue to explore all options for provision of helicopters.

DKPO has accepted an Ethiopian offer of four light tactical helicopters, including crew and maintenance personnel. These are Mi-35 type helicopters. Up to 4 April 2008, the requirement for the 18 medium utility transport helicopters remains unfilled.

Helicopter contributions offered by countries must meet the requirements specified by the UN. This ensures there are enough crews and mechanics to operate and maintain the airframes. Ethiopia's helicopters will be maintained by Ethiopia and funded through the UN-African Union Mission in Darfur budget, which UN member states pay for through their assessed contributions.

Up to 4 April 2008, Ethiopia is the only country to offer helicopters that the UN considers meets its specifications. The UK is assisting their preparation with expert advice from the UK Joint Helicopter Command on conducting an overseas deployment. We are meeting the costs associated with this ourselves.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Government has had with other EU and NATO countries on providing funding to underwrite the costs of the provision of helicopters, parts and crews for the UNAMID mission to Sudan; and if he will make a statement. [197793]

David Miliband: We have had extensive discussions with several countries, including EU and North Atlantic Treaty Organisation (NATO) partners, about options to meet the urgent requirement for helicopters for the UN-African Union Mission in Darfur (UNAMID). These options include possible funding and support arrangements for helicopters provided by third countries. We are working closely in support of the UN and we continue to explore all options for provision of helicopters.

On 27 March 2008, my right hon. Friend the Prime Minister and French President Sarkozy announced the establishment of a trust fund that could improve the availability of helicopters to European partners and NATO allies. This initiative will increase support available to multilateral operations, such as UNAMID.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government of Sudan has placed any obstacles in the way of the deployment of helicopters by UNAMID; and if he will make a statement. [197794]

David Miliband: We understand the Government of Sudan have declared they will not object to any country providing helicopters for the UN-African Union (AU) Mission in Darfur (UNAMID). The Government of Sudan signed a Status of Forces Agreement with the AU and the UN on 9 February 2008, which should remove a number of related obstacles to UNAMID deployment, including movement of equipment and visas for UNAMID personnel. The UN, AU and the Government of Sudan continue to negotiate over limitations on UNAMID flights. We have, in regular contacts with the Government of Sudan, pressed the Government of Sudan to co-operate fully with the AU and the UN over UNAMID and remove limitations on flights.

Sudan: Politics and Government

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions the Government have had with the government of Chad on Darfur; and if he will make a statement. [197953]

David Miliband: The UK is represented in Chad through our high commission in Yaounde. Officials from the high commission regularly visit Chad and have raised the issue of Darfur on numerous occasions. The last visits to Chad were on 19 November 2007 and 5-8 February 2008, where Darfur was raised with the Chadian Foreign Minister Ahmad Allam-mi and the Deputy Foreign Minister respectively.

The Government will also continue to work multilaterally through the UN and the EU to support initiatives to reduce tensions between Chad and Sudan. We have repeatedly called on the Governments of both Chad and Sudan to end support for armed groups in the region.

Tibet: Politics and Government

David Howarth: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice he has received on the compliance with international law of actions taken by the People's Republic of China in relation to the self-determination movement in Tibet. [198845]

Meg Munn: As noted in the Ministerial Code, the fact and substance of legal advice to the Government remains confidential. This enables the Government to obtain frank and full legal advice in confidence.

China is identified in our recently published Human Rights Annual Report as having a poor human rights record, including in relation to Tibet. We regularly raise our human rights concerns with the Chinese authorities and continue to urge full respect for international human rights standards including: inter alia, rights to freedom of association, expression, religion, access to a fair trial and respect for prisoners' fundamental rights. We have urged the Chinese authorities to exercise maximum restraint in dealing with any further unrest in the Tibetan region.

Tibet: Press Freedom

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on reporting restrictions placed on foreign journalists in Tibet; and what representations he has made to the government of the People's Republic of China on the matter. [198128]

Meg Munn *[holding answer 3 April 2008]:* Foreign journalists, along with all other foreigners, are currently only able to travel to Tibet after acquiring a time-limited entry permit from the Chinese authorities. Applications by journalists for these permits have often been refused in the past. A recent exception to this was the one-day tour of Lhasa organised by the Chinese Ministry for Foreign Affairs for a select group of foreign correspondents on 26 March. We continue to urge the Chinese authorities to allow free media access to Tibet. My right hon. Friend the Prime Minister did so in his telephone call to Chinese Premier Wen on 19 March. The group of diplomats, including a representative from our embassy in Beijing, which visited Lhasa on 28 and 29 March, also raised the issue of free access for journalists with the Chairman of the Tibetan Autonomous Region.

Torture

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy on *(a)* water-boarding and *(b)* other physical and degrading interrogation techniques is; and what mechanisms are in place to ensure that policy is adhered to. [198050]

David Miliband: As I have said previously, I consider that water-boarding amounts to torture.

The UK unreservedly condemns the use of torture. We work hard with our international partners to eradicate this abhorrent practice. The UK abides by its obligations under international law, including under the UN Convention Against Torture and the European Convention on Human Rights, and expects all other countries to comply with their international obligations.

The Government never use torture for any purpose, including obtaining information, nor would we instigate or encourage others to do so. Our rejection of the use of torture is well known by our liaison partners.

The UK has implemented a range of measures, practices and policies to ensure compliance with our obligations.

Trade: Intellectual Property

Mr. Caborn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent progress has been made on the Agreement on Trade-Related Aspects of Intellectual Property Rights; and if he will make a statement. [196719]

Ian Pearson: I have been asked to reply.

Progress on the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPs) is considered at the TRIPs Council which meets three times a year Reports of its meetings are available on the WTO website at:

http://www.wto.org/english/tratop_e/trips_e/intel6_e.htm.

The most recent meeting of the Council took place on 13 March 2008. It reviewed national implementing measures and discussed technical co-operation and the relationship between the TRIPs agreement and the convention on biological diversity.

It also noted that 41 member states (including EU member states) had accepted the amendment to the agreement which provides flexibility for countries unable to produce pharmaceuticals domestically to obtain supplies of generic versions of patented drugs from other countries. This amendment arose from commitments made by WTO Ministers in the Doha Declaration on the TRIPS Agreement and Public Health in 2001, and will formally be written into the agreement when two-thirds of the 151 members accept it. Until that date, a temporary solution, adopted in 2003, will remain in force.

Turkey: EU Accession

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps the Government have taken to increase support for Turkish accession to the European Union amongst EU member states. [199833]

Mr. Jim Murphy: The Government are a strong advocate and supporter of Turkish accession to the EU, and reaffirm this at each possible opportunity.

The UK works closely with other EU member states on enlargement issues, co-operating actively to support Turkey's reform process and to ensure that progress remains on track. At the EU General Affairs and External Relations Council in December 2007, EU Foreign Ministers reiterated that the EU will keep its previously agreed commitments towards countries in the enlargement process.

Zimbabwe: Elections

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many election monitors the UK will provide to the presidential elections in Zimbabwe. [197785]

David Miliband: The Government of Zimbabwe stated that 'unfriendly' countries would not be invited to observe the elections. This meant that no formal EU Observation Mission observed the 29 March elections and no formal UK observers were sent. 10 British embassy diplomatic staff, who are based in our embassy in Harare, were permitted to observe the elections informally along with other members of the diplomatic corps in Zimbabwe.

Zimbabwe: Overseas Residence

Mr. Gregory Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what precautions have been taken to assist UK citizens living in Zimbabwe following the elections. [199260]

Meg Munn: The Foreign and Commonwealth Office (FCO) takes its role of providing consular support to British nationals overseas seriously and their safety is our top priority. As with many other British diplomatic missions across the world, our embassy in Harare holds a civil contingency plan. The Zimbabwe contingency plan focuses on assisting the departure of British nationals from Zimbabwe by non-military means and is reviewed and updated on a regular basis. At present, we do not anticipate an assisted departure or evacuation, but we will continue to monitor the situation and adjust our plans accordingly.

The FCO travel advice for Zimbabwe is under constant review. We are currently advising against all but essential travel to the whole country. We are also advising British nationals in Zimbabwe to avoid specific areas and to have their own contingency plan for how they would leave at short notice. A full copy of the travel advice can be found at:

www.fco.gov.uk/travel/Zimbabwe

If the situation in Zimbabwe deteriorates further, we will reflect this in our travel advice and provide appropriate guidance. To ensure that we can effectively communicate this information, British nationals in Zimbabwe are urged to register with our Embassy in Harare.

CULTURE, MEDIA AND SPORT

Arts

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much funding *(a)* his Department and *(b)* lottery distributors have contributed towards projects aimed at increasing participation in the arts by priority groups, with particular reference to (i) black and minority ethnic, (ii) limiting disability and (iii) lower socio-economic groups in each year since 1997. [198334]

Mr. Sutcliffe: DCMS funding for the arts is channelled through Arts Council England (ACE). Increasing participation by priority groups is a strategic aim which cannot be disaggregated from overall funding, but which is supported by a large number of activities and initiatives.

There have been a range of initiatives over the last 10 years aimed at this objective, including the New Audiences Programme (1998 to 2003), the work of audience development agencies and the decibel initiative. Other activities and initiatives include:

The Grants for the Arts lottery programme has been weighted in favour of first time applicants and those from disadvantaged areas—draft figures indicate that in 2007-08, 29 per cent. of applications were for work largely of benefit to areas of social deprivation.

ACE rolled out its first race equality scheme in 2004. The scheme included the production of a tool kit to support regularly funded organisations (RFOs) in their work on race equality and diversity.

ACE reached its target for 10 per cent. of the value of its Grants for the Arts programme to go to BME artists/organisations. BME-led organisations also now make up 5.7 per cent. of the RFO portfolio (an annual investment of £7.4 million).

ACE is also rolling out a disability equality scheme (DES) which runs till 2010, with the aim of achieving disability equality within its own organisation, and within the arts and creative sector they fund and support. 3 per cent. of the value of the Grants for the Arts programme was allocated to disability-led organisations in 2007-08; this is an annual investment of £1.6 million.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what progress has been made on the implementation of the McMaster Review of excellence in the arts. [198390]

Margaret Hodge *[holding answer 2 April 2008]:* Work is already under way within DCMS, Arts Council England and the Museums, Libraries and Archives Council, and across the sector more widely on many of Sir Brian McMaster's recommendations.

A number of the recommendations can be implemented swiftly, for example DCMS has now completed an audit of its sponsored bodies and already meets the recommended target of two artists or relevant practitioners on each board.

Some of the other recommendations will take longer to develop and implement, for example the new judgment-based system of assessment—encompassing peer review and self-assessment—is expected to take around a year to develop, test and evaluate before being fully implemented.

To help facilitate this work a Programme Board and Steering Group have been convened to discuss the details of implementing some of the longer-term recommendations in Sir Brian's review. The Programme Board will meet for the second time later this month to approve the complete delivery plan, which we hope will be launched before the summer.

Arts: Bureaucracy

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what plans his Department has for reducing the burden of administration on arts organisations. [198391]

Margaret Hodge *[holding answer 2 April 2008]:* As part of his report on excellence in the arts, Sir Brian McMaster recommended a new, light-touch and non-bureaucratic system for judging the quality of the arts in the future. The starting point for this will be a system of self-assessment within organisations, designed to allow them to measure themselves against their own and shared objectives and a cyclical process of peer review, led by respected practitioners.

Underpinning both will be a move away from measurement of data to a more judgment-based approach, where qualified individuals who have the confidence and respect of the arts sector can make value based judgments of performance, without the need to burden arts organisations with overly complex reporting procedures.

This reflects the wider work the Department is doing to reduce the burden we place on our NDPBs. A process of risk assessment will enable us to focus our scrutiny on the few areas of higher risk and adopt a more light-touch approach in most cases. Funding agreements will be shorter, with fewer targets, fewer monitoring returns will be required, and where possible and appropriate we will extend NDPBs' delegated powers.

Arts: Rural Areas

Mr. Ancram: To ask the Secretary of State for Culture, Media and Sport what Government support has been given to the *(a)* performing and *(b)* visual arts in rural areas of England since May 2005. [198625]

Mr. Sutcliffe: The Arts Council do not record allocations by rural, urban or suburban area. A list of Arts Council England's funding for the performing and visual arts between 2005-06 to 2007-08, broken down by constituency, will be placed in the Libraries of both Houses.

In 2005 Arts Council England published "Arts in rural England" which looked at the diversity of arts and creativity in rural England. It is available at:

http://www.artscouncil.org.uk/publications/publication_detail.php?rid=0&sid=&browse=recent&id=491

Arts: Standards

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what plans his Department has for reducing the number of targets which are applied to the arts sector. [198696]

Margaret Hodge *[holding answer 3 April 2008]:* Arts Council England is responsible for funding agreements with their regularly funded organisations, and therefore target setting for arts organisations rests with them. As part of his report on excellence in the arts, Sir Brian McMaster recommended a move away from 'top-down' targets towards a more judgment-based system.

Work is now underway to implement Sir Brian's recommendations both within DCMS and Arts Council England and in the arts sector more widely. Part of this work will be developing, testing and implementing a new judgment-based assessment framework.

Association for Physical Education

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how often his Department has met the Association for Physical Education in each of the last three years; and what the outcome was of those meetings. [199028]

Mr. Sutcliffe: Our records indicate that this Department has not met the Association for Physical Education (AfPE) since its formal launch in March 2006, although officials are due to meet them in April with the Department for Children, Schools and Families (DCSF). DCSF has had regular keeping in touch meetings with AfPE since its establishment.

Baseball

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether he has had recent discussions on the governance of baseball; and if he will make a statement. [199027]

Mr. Sutcliffe: My officials continue to work closely with both Sport England and UK Sport in relation to the governance and funding of baseball in the UK.

Following a recent independent audit of Baseball/Softball UK (BSUK), Sport England have confirmed that they are fully satisfied that BSUK can appropriately manage and account for public funds.

Sport England also hold quarterly reviews with BSUK to consider progress of their Whole Sport Plan.

I would like to congratulate the GB team in successfully qualifying for the 2009 IBAF World Championships.

Cultural Heritage: Climate Change

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what account he takes of climate change when developing the Department's heritage strategy, with particular reference to the protection of buildings of historic importance and landscapes. [198232]

Margaret Hodge: This Department is taking account of climate change in developing our strategic policy on the historic environment. English Heritage, the Government's strategic advisor on the historic environment, held a climate change summit in January at which I gave a keynote speech. Heritage professionals were also present at DCMS' seminar on climate change in January and are working with DEFRA on the development of its climate change adaptation policy framework. English Heritage continues to undertake research and provide guidance on issues such coastal erosion; adapting historic buildings, parks and gardens for climate change and how to incorporate energy saving technologies into historic buildings.

Cultural Heritage: Young People

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what his estimate is of the number of hours of arts and culture children receive each week. [194920]

Mr. Sutcliffe: It is very difficult to estimate the number of hours of art and culture that children currently receive each week. Schools offer many cultural experiences, for example in music, art, drama and poetry, both within and beyond the curriculum. Many schools also give pupils opportunities to visit museums, local theatres and galleries.

The exact number of hours will, however, depend on the age of the pupils involved, the subjects chosen at the end of key stage 3, and the extended activities available outside curriculum time. Similarly, we are aware that access to arts and culture outside of school time is varied.

Our Taking Part youth survey showed that 61 per cent. of young people said that they had engaged in cultural activities at least once a week during the previous 12 months, and a further 21 per cent. said that they had engaged in cultural activities at least once a month.

The numbers quoted here relate to the percentage of 11 to 15-year-olds living in private households in England, both in and out school. The survey's definition of cultural activities includes, among other things, participating in an arts activity, visiting a museum or gallery and visiting a historic environment site. The interviews were conducted between January and December 2006.

The 10 pilots which will be selected as part of our recently announced 'Find your Talent' scheme will be asked to audit current level of arts and culture provision and the take up of these activities by children and young people in more detail.

Cultural Relations: Israel

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what recent steps he *(a)* has taken and *(b)* plans to take to improve cultural ties between the UK and Israel; and if he will make a statement. [198728]

Margaret Hodge: I have no plans at present to take any special steps to improve cultural relations with Israel. There are no barriers to organisations in the UK and Israel forming cultural relations and I am aware that there have been and will continue to be good cultural relations between our two countries. I welcome this.

Culture Online: Standards

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the Answer of 13 March 2008, *Official Report*, column 545W, on Culture Online, what targets were set for the Culture Online related projects *(a)* Artisan Cam City, *(b)* Heritage Guides, *(c)* Every Object Tells a Story, *(d)* Film Street, *(e)* Headline History, *(f)* Icons, *(g)* MadforArts, *(h)* My ArtSpace, *(i)* Origination, *(j)* Plant Cultures, *(k)* Playground Fun, *(l)* Rosetta Requiem, *(m)* Sound Junction, *(n)* Stagework and *(o)* The Dark; and what progress has been made towards achieving those targets. [198363]

Margaret Hodge: Each Culture Online project was set a number of appropriate targets in its delivery contract with partner organisations. I am arranging for extracts from the relevant contracts to be deposited in the House Libraries.

Progress towards achieving the targets for each project is set out as follows. The statistics provide interim figures. Although Culture Online closed in March 2007, a number of the projects are still running and visitors are still accessing the websites.

(a) ArtisanCam

January 2005 to January 2007: 192,169 visits to the website.

(b) City Heritage Guides

September 2005 to January 2007: 1,062,140 visits to the website.

(c) Every Object Tells a Story

January 2005 to February 2007: 915,599 visits to the website.

Project outreach work involved over 2,140 people. A video booth travelled around England, visiting shopping centres, libraries and bus stations to enable people to capture their object and story in a short video.

(d) Film Street

April 2006 to February 2007: 156,166 visits to the website.

(e) Headline History

May 2005 to February 2007: 349,040 visits to the website.

(f) Icons

January 2006-January 2007: 1,521,017 visits to the website.

(g) MadforArts

Visits to the website were unrecorded

1,000 people were involved in project outreach work

The films made as part of the MadforArts project had an audience of 2 million on Channel Five and the Community Channel.

(h) My Art Space

January 2006 to February 2007: 19,402 visits to the website.

(i) Origination

January 2005 to October 2006: 49,961 visits to the website

Over 7,000 young people took part in schools website building competition

300 people took part in the national programme of workshops encouraging hard-to-reach audiences to build personal websites.

(j) Plant Cultures

Visits to the website were unrecorded

An average of 1,000,000 unique visitors in the first 18 months, inspired over 20,000 new visitors to gardens and museums in London, Leicester, Liverpool and Bradford

500 people were involved in project outreach work.

(k) Playground Fun

August 2005-February 2007: 78,243 visits to the website

2,500 youngsters took part in the Playground Fun day at the Museum of Childhood in London (August 2005), playing games and contributing to the website.

(l) Rosetta Requiem

October 2005 to February 2007: 24,788 visits to the website

Worked with 177 hospice users to create music and films with them

An audience of over 2 million for national radio and TV coverage

22,000 copies of "We Laughed" sold, reaching number 11 in the UK singles chart.

(m) Soundjunction

October 2005 to January 2007: 175,152 visits to the website

100 people were involved in project outreach work.

(n) Stagework

January 2004 to February 2007: 488,520 visits to the website

7,400 downloads recorded up to February 2007.

(o) The Dark

February 2005 to January 2006: 39,717 visits to the website

More than 35,000 visits to the 3D soundscape installation.

Culture: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much was spent on strategic commissioning in *(a)* museums *(b)* galleries and *(c)* libraries in each of the last five years. [199838]

Mr. Sutcliffe: Over the past five years through our Strategic Commissioning programme DCMS and DCSF (formerly DfES) have jointly provided the following funds for education and community based work delivered by museums and galleries across England.

	Funding (£ million)
2003-04	2.6
2004-05	2.35
2005-06	4.7
2006-07	4.7
2007-08	4.7

Culture: Young People

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport with reference to his Department's press release of 13 February 2008 on the Find Your Talent scheme, whether cultural events attended outside school hours will count towards the intention to offer children five hours of culture a week. [196515]

Margaret Hodge: The Find Your Talent programme of 10 pilots will trial ways of offering young people a range of cultural opportunities for five hours a week.

This will include activities which take place during the core school day, in extended schools and those offered by local authorities and other providers outside of school time.

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what recent steps the Government have taken to provide opportunities for young people to engage in cultural activities. [196889]

Mr. Sutcliffe *[holding answer 26 March 2008]:* We are committed to giving young people access to high quality cultural activities and continue to make significant investment in this area.

For example in November 2007 we announced a total investment of £332 million in school music over the next three years.

We also recently announced that a further £110 million will be allocated to the successful Creative Partnerships programme and that £5.5 million will go towards supporting youth dance over the same period.

We continue to invest in museums education, through both our programme of strategic commissioning which we will invest over £13 million in the next three years, and through our support for the Renaissance in the Regions programme.

Building on this, we announced on 13 February 2008 our plans for a Find Your Talent programme of 10 pilots that will trial ways of offering young people a range of cultural opportunities for five hours a week in and out of school.

We are seeking applications from partnerships in local areas around the country and have published a prospectus setting out a core range of activities we believe young people should be able to engage with. What we learn from this will inform our plans for a national roll out.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196586]

Mr. Sutcliffe: The following contracts were awarded by the Department in the last 12 months:

Company	Contract	Value (£)
(a) KPMG	—	—
(b) PricewaterhouseCoopers	Assessment of World Heritage Site	69,000
	Impact of the London 2012 Olympic and Paralympic games	78,000
(c) Ernst and Young	—	—
(d) McKinsey	Consultancy Support for DCMS Transformation Programme	38,500
(e) Deloitte	Review and compliance of ICT Security Strategy	58,000
	Support for delivery of transformation programme	104,000
(f) TFG International	Specialist Advice to Government Olympic Executive on 2012	50,000
Organisation Consulting Partnership LLP	Advice on Horserace Betting Levy	59,000
Veredus	Recruitment of Chair for Sport England	21,000
The Work Foundation	Consultancy on Creative Economy Programme Green Paper	49,000
Saxton Bamfylde Hever	Recruitment of Chair for English Heritage	36,000
Odgers Ray Berndtson	Recruitment of Chair for Olympic Delivery Authority	35,000
	Recruitment for Head of Projects in Government Olympic Executive	35,000)
	Recruitment of Director for Culture	10,000
Ql Consulting	Security Audit of Business Continuity Planning	28,000
Stanton Harris	Facilitation of DCMS Board Awayday	15,000

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what contracts his Department has with Euclid; and what the combined monetary value of such contracts is. [198226]

Margaret Hodge *[holding answer 1 April 2008]:* Euclid is currently contracted by DCMS to act as the UK's cultural contact point for the European Union's Culture programme. This contract has a monetary value of £50,000 per year for two years. This sum is match funded by the European Commission. Euclid also holds the contract to promote the European Year of Intercultural Dialogue in the UK. The cost of this contract was a one off payment of £10,000.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Culture, Media and Sport what new criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198310]

Margaret Hodge: No new criminal offences have been created by primary legislation sponsored by the Secretary of State for Culture, Media and Sport since July 2007.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport how many *(a)* permanent civil service posts *(b)* permanent non-civil service posts and *(c)* temporary or agency workers in employment there were in his Department in each month since May 2005. [199625]

Mr. Sutcliffe: Information on the number of permanent staff and temporary and agency workers in the Department for Culture, Media and Sport is in the table. There are no permanent non-civil service posts. Civil service statistics are collected on the number of employees and not the number of posts.

	Permanent staff	Temporary staff
May 2005	522	18
June 2005	517	18
July 2005	505	25
August 2005	505	26
September 2005	513	29
October 2005	514	29
November 2005	520	32
December 2005	517	35
January 2006	517	37
February 2006	520	38

	Permanent staff	Temporary staff
March 2006	520	38
April 2006	523	39
May 2006	526	36
June 2006	533	33
July 2006	533	34
August 2006	538	29
September 2006	543	20
October 2006	547	17
November 2006	546	16
December 2006	547	13
January 2007	542	15
February 2007	538	25
March 2007	527	24
April 2007	526	23
May 2007	524	23
June 2007	527	23
July 2007	523	22
August 2007	517	23
September 2007	510	22
October 2007	503	21
November 2007	503	21
December 2007	502	21
January 2008	490	24
February 2008	477	24

Departmental Property

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport what property has been lost or stolen from his Department since 1997; and what the cost of replacement was. [187466]

Mr. Sutcliffe: The following items have been lost or stolen from the Department since 1997:

1998: four laptops. Cost of replacement not available.

2000: one laptop. Cost of replacement not available.

2001: two laptops. Cost of replacement not available.

2002: one laptop. Cost of replacement not available.

2003: one laptop. Cost of replacement not available;

one Personal Digital Assistant. Cost of replacement not available.

2004: four Personal Digital Assistants. Cost of replacement not available.

2006: low value art work. Cost recorded in losses register £450.

five Personal Digital Assistants. Cost of replacement not available.

2007: four Personal Digital Assistants. Cost of replacement not available.

In 2007 the Department reviewed security at its buildings. As result a number of additional security measures have been put in place.

Departmental Public Expenditure

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what funding agreements his Department has made with *(a)* departmental agencies, *(b)* non-departmental public bodies and *(c)* private companies for (i) 2008-09, (ii) 2009-10 and (iii) 2010-11. [199840]

Andy Burnham: Most of the funding agreements with our executive non-departmental public bodies, covering the 2008-11 period, will be finalised during April. Our only agency, the Royal Parks, has been set operational targets but does not have a full funding agreement. There are no funding agreements with private companies apart from those which are also non-departmental public bodies.

Departmental Public Participation

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport how many public consultations his Department has held in the last three years; and how many respondents there were to each. [198679]

Margaret Hodge: My Department has held 67 public consultations over the last three years. The number of respondents to each are summarised in the table. A further two consultations are currently live:

Name	Duration	Number of respondents
Consultation on proposal to introduce a simplified process for minor variations to premises licences and club premises certificates	28 November 2007 to 20 February 2008	111
McMaster Review: Supporting excellence in the arts—from measurement to judgment	1 November to 30 November 2007	572
Consultation on draft regulations for museums on the publication of information about cultural objects on loan under Part 6 of the Tribunals, Courts and Enforcement Act 2007	21 September to 21 December 2007	18
Regulatory Reform Order: Proposal to Remove the Requirement for the Designated Premises Supervisor for Community Premises	8 August to 31 October 2007	116
The Governance of Britain, Flag Flying	27 July to 7 November 2007	305

Name	Duration	Number of respondents
Gambling Act 2005: Consultation on Temporary Use Notices	31 May to 23 August 2007	9
Gambling Act 2005: Consultation on Draft Regulations under sections 235(5), 240 and 241 of the Gambling Act 2005	Technical regulations—submitted to three stages of consultation:	
	June 2006 (2 weeks)	16
	February to May 2007 (12 weeks)	20
	1 May to 1 June 2007 (4 wks)	8
DCMS Equality Scheme 2007-10 Consultation	27 April to 23 July 2007	1
Gambling Act 2005: Consultation on the Review of Premises Licence Regulations	26 April to 15 July 2007	15
Gambling Act 2005: Consultation on Gambling at Non-commercial Events	28 March to 22 June 2007	6
Gambling Act 2005: Consultation on Lottery Machine Interval Order	26 March to 18 May 2007	19
Gambling Act 2005: Consultation on Club Gaming and Club Machine Permits	22 March to 16 May 2007	6
Consultation—Gambling Act 2005: Licensed Premises Gaming Machine Permits Regulations	22 March to 16 May 2007	6
Consultation on DCMS Welsh Language Scheme 2007-11	12 March to 20 April 2007	0
Consultation on The Gambling Act 2005 (Limits on Prize Gaming) Regulations	12 March to 31 May 2007	9
Heritage Protection for the 21st Century—White Paper	8 March to 1 June 2007	341
Gambling Act 2005: Definition of Dual-Use and Domestic Computers	6 March to 27 May 2007	16
Sports Ground Safety Legislation	5 March to 13 April 2007	22
Gambling Act 2005: Gambling (Inviting competing applications for Casino Premises Licences) Regulations	21 February to 2 May 2007	21
Gambling Act 2005: Consultation on Gaming Machine Regulations	9 February to 3 May 2007	20
Gambling Act 2005: Consultation on Gaming in Clubs and on Alcohol-licensed Premises	25 January to 20 April 2007	50
Consultation on draft revised guidance to be issued under section 182 of the Licensing Act 2003	16 January to 11 April 2007	162
Gambling Act 2005: Premises Licence and Permits Fees Consultation	14 November 2006 to 19 January 2007	35
Gambling Act 2005: Consultation on Prize Gaming Permits and Family Entertainment Centre Gaming Machine Permits	27 October 2006 to 26 January 2007	[1]10
		[2]13
Consultation and partial Regulatory Impact Assessment on extending the remit of the Football Licensing Authority to the Football Conference	3 October 2006 to 13 February 2007	36
Consultation on Community Audio Distribution Systems	24 October to 5 December 2006	21
Understanding the Future: Priorities for England's Museums	23 October 2006 to 19 January 2007	57
Gambling Act 2005: Consultation Document: Inspections	13 October to 22 December 2006	28
Gambling Act 2005: Responsible Authority for Vulnerable Adults consultation	13 October to 22 December 2006	18
Consultation on creative economy programme working groups draft report	8 August to 20 September 2006	78

Name	Duration	Number of respondents
Gambling Act 2005: Premises Licence Regulations Consultation	22 September to 15 December 2006	41
Gambling Act 2005: Premises Licence Hearings Regulations Consultation	22 September to 15 December 2006	37
Proposals for Personal Licences—Consultation Paper	13 September to 8 November 2006	20
Draft Gambling (Premises Licences: Mandatory and Default Conditions) Regulations for the implementation of the Gambling Act 2005—Consultation Document	18 August to 10 November 2006	40
Categories of Gaming Machines—Consultation Paper	14 August to 27 October 2006	18
Gambling Act 2005: Fees—Costings Exercise	9 August to 22 September 2006	44
Draft Core Receiver Requirements Consultation Document	27 July to 8 September 2006	12
Proposals for Gambling Commission Fees—Consultation Paper	20 July to 13 October 2006	234
Welcome Legacy: Tourism Strategy for the 2012 Games—A Consultation	19 July to 17 November 2006	171
Consultation Paper on Future Sponsorship Arrangements for the Museum of London	10 July to 8 September 2006	157
Consultation on Restitution of Objects Spoliated in the Nazi-Era	10 July to 10 November 2006	18
Gambling (Categories of Casino) Regulations and draft Order for the implementation of the Gambling Act 2005—Formal Consultation Exercise	5 July to 27 Sep 2006	5
Proposal by the European Commission for the Revision of 'The Television Without Frontiers' Directive (Directive 89/552/EC, amended by Directive 97/36/EC)	6 June to 8 September 2006	48
Data Limits and Data Services on Radio Multiplexes This consultation has now ended. The consultation period was 24 April to 12 June 2006.	24 April to 12 June 2006	21
Consultation Paper on Amendments to the Treasure Act 1996 Code of Practice (Revised) England and Wales	6 April to 26 June 2006	15
Consultation on Welsh Language Forms and Documents to be prescribed under the Licensing Act 2003	31 March to 28 April 2006	15

Understanding the Future: Museums and the 21st Century	27 January to 30 June 2005	75

[1] On Prize Gaming.
[2] On FEC.
[3] Approximately.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what *(a)* surveys, *(b)* questionnaires and *(c)* other services were provided by polling companies for his Department in financial year 2007-08, broken down by company. [200024]

Margaret Hodge: The following table shows services provided to the Department for Culture, Media and Sport by polling companies for financial year 2007-08.

	Services		
Polling company	*Surveys*	*Questionnaires*	*Other*
BMRB	1. Taking Part 2. Omnibus survey for Olympics legacy	1. Taking Part 2. Questionnaire for Olympics legacy survey	1. Taking Part data cleaning and analysis 2. Omnibus survey data and analysis 3. NetQuest development
ORC International	1. DCMS Staff Survey 2. Non-departmental public body (NDPB) survey		1. Analysis and presentation of DCMS staff survey data 2. Basic analysis of NDPB survey data

Departmental Research

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on research in each of the last three years, broken down by policy area or departmental division. [199828]

Margaret Hodge: Our records show the following research spends broken down by financial year and by departmental division.

Division	*Research spend (£000)*
Financial year 2005-06	
Arts	33
Broadcasting	58
Creative Industries	75
Gambling	[1]c 100
Humanitarian Assistance	16
Strategy	1,260
Tourism	29
Total	1,571
Financial year 2006-07	
Broadcasting	148
Creative Industries	130
Gambling	80
Humanitarian Assistance	44
Local, Communities and International	44
Libraries	160
Licensing	91
Museums	29
Olympics	23
Sports	15
Strategy	1,825

Division	Research spend (£000)
Tourism	34
Total	2,623
Financial year 2007-08	
Arts	45
Heritage	29
Licensing	97
Olympics	114
Strategy	1,540
Tourism	15
Total	1,840

[1] Includes US$83,000 estimated as £46,000

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198967]

Mr. Sutcliffe: The information requested can only be provided at disproportionate cost. However, the percentage of stress-related sick leave taken by staff in the last three financial years is as follows:

	Percentage of sick leave
2004-05	3
2005-06	10.5
2006-07	13

As part of our attendance, health and welfare programme for staff, we have a range of policies in place to reduce stress. These include: a stress management policy; a revised sickness absence policy; a full range of flexible working patterns to support work-life balance; an on-site gym and yoga classes.

The Department also provides an Employee Assistance programme, which includes a confidential advisory service and counselling service for all staff.

Departmental Standards

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport which of his Department's public sector agreement targets have been discontinued following his speech on 7 November 2007 at the Equity Diversity conference. [198819]

Mr. Sutcliffe: Public service agreements (PSAs) are agreed between Departments and HM Treasury as part of each spending review. Details of the most recent PSAs, agreed as part of comprehensive spending review 2007, were published in the CSR White Paper on 9 October 2007, copies of which are available in the House Library. As part of the CSR process the number of PSAs across Government was reduced from over a hundred to thirty. No PSAs have been discontinued following the 7 November 2007 speech by my right hon. Friend the Member for Stalybridge and Hyde (James Purnell).

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Culture, Media and Sport what *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public are in use by (i) his Department and (ii) agencies which report to his Department. [200122]

Mr. Sutcliffe: Neither my Department nor the Royal Parks Agency has any 0800, 0845 or 0870 numbers for public use.

Digital Broadcasting: Radio

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many times the Digital Radio Working Group taskforce has met in 2008; and how much has been spent on its administration since November 2007. [198229]

Andy Burnham *[holding answer 1 April 2008]:* The Digital Radio Working Group (DRWG) has met once in full session since November 2007. However, the DRWG has established four sub-groups to consider the following issues:

Technology and Consumer Proposition;

Spectrum;

Manufacturers; and

Mechanisms for Growth

These sub-groups have met five times in total.

My Department has spent approximately £4,500 directly on the work of the DRWG to date.

Digital Switchover Help Scheme

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport when he plans to complete his assessment of the costs and benefits of upgrading his core research requirements for digital switchover help scheme freeview resources to include billing menus, billing channels and programme information; and when he plans to make a decision on this matter. [199526]

Andy Burnham: An Emerging Technologies Group (ETC) has been established as a sub-group of the Help Scheme's Policy Review Group, with a remit to keep the Core Receiver Requirements (CRR) for Scheme equipment under review.

This review process will be ongoing throughout the lifetime of the Help Scheme, evaluating any technical developments in digital television provision. If the ETC believes that a particular technology should be included within the CRR, then it will make a recommendation to that effect to the Policy Review Group.

The equipment for the Help Scheme already includes the ability to receive an Electronic Programme Guide, which enables programme information to be displayed on screen.

Disabled

Mr. MacNeil: To ask the Secretary of State for Culture, Media and Sport what targets his Department has set in relation to the employment of people with disabilities over the next five years. [199048]

Mr. Sutcliffe: The Department has disability targets set across the civil service grades until the end of April 2008 as follows.

	Percentage
SCS	3.2
A	3
B	7
C	3
D	7

We are currently reviewing these targets for the next three years to ensure they are challenging to the Department.

English Heritage: Research

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what the aims of the Hearth and Home research project by English Heritage are; and if he will make a statement. [199367]

Margaret Hodge: English Heritage's Hearth and Home research project aims to compare the predictions from models with the actual performance of traditionally constructed homes in order to challenge the assertion that such buildings are inherently energy inefficient. The project will monitor the energy usage of a group of occupied Victorian terraced homes to work out best practice in measuring energy efficiency, to evaluate the cost-effectiveness of energy-saving options, and ultimately to provide guidance on measures to reduce domestic fuel usage and carbon emissions.

Euclid

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much he expects his Department to pay to Euclid in each of the next three years. [199830]

Margaret Hodge: My Department expects to pay Euclid £50,000 per year, for the next two years for its work as the UK's Cultural Contact Point (CCP) for the European Union's Culture Programme. The current CCP contract runs until December 2009. Euclid also holds the contract to promote the European Year of Intercultural Dialogue in the UK. The cost of this contract was a one-off payment of £10,000.

Film: Video Piracy

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport whether he intends to introduce legislation to make the use of a video camera in a cinema a criminal offence. [199086]

Margaret Hodge: Camcording for commercial gain is already an offence under the Copyright, Designs and Patents Act 1988, but the existing offences require proof of "distributing" or "communicating". The distribution of illegally camcorded films is also an offence under a range of other legislation, including the Fraud Act 2006. We will be considering in consultation with the film industry what further action is necessary to address its concerns.

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the annual loss to the UK film industry as a result of intellectual property theft. [199089]

Mr. Sutcliffe: The Government's strategy for the creative sector "Creative Britain: New Talents for the New Economy", published in February, states that the value of pirate audio-visual goods and illegal downloads in 2006 was £460 million. This reflects the findings of the 2006 British Video Association/IPSOS study.

Football: Insurance

Janet Anderson: To ask the Secretary of State for Culture, Media and Sport if he will bring forward proposals to require the Football Association to establish a national insurance scheme to cover injuries caused to one player by another player in matches organised by county football associations. [199276]

Mr. Sutcliffe: The FA currently has no plans to establish a county football association national insurance scheme.

The FA reviewed this issue in 2006 and took the decision to make liability insurance mandatory for all affiliated clubs with effect from season 2007-08.

The FA explored the possibility of a liability insurance scheme for all those participating in the national game below the FA Premier League, Football League and National League system levels 1 to 4. The scope of the insurance cover required by county associations was reviewed, and the FA says this confirmed that a centrally arranged scheme would be impracticable.

The FA decided that county associations should comply with the implementation of mandatory public liability insurance, with the option to decide locally the level of cover and indemnity limits required.

The review also included a tender process to identify insurance brokers prepared to offer county associations a range of public liability options including player to player cover.

I intend to raise this issue with the FA at our next meeting.

Gambling: Advertising

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the Answer of 25 March 2008, *Official Report*, columns 86-87W, on gambling: advertising, if he will place in the Library a copy of the voluntary code. [198361]

Andy Burnham: I am arranging for copies of the Gambling Industry Code for Socially Responsible Advertising to be placed in the Libraries of both Houses.

Historic Buildings: Sustainable Development

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what guidance and assistance is available from English Heritage on the use of renewable technology in buildings of historic importance. [199366]

Margaret Hodge: English Heritage has published guidance for home-owners on the application of small-scale renewable energy technologies to traditional buildings. A series of guides explains how each system works, how it can be installed without damaging the appearance, significance or performance of traditional buildings and provides guidance on sources of further information and assistance. To date, guidance on micro wind generation, small scale solar thermal and small scale solar electric (photovoltaic) energy in traditional buildings have been produced and are available on English Heritage's website at:

www.english-heritage.org.uk

Additional guides on low carbon systems will be published this year.

English Heritage is launching a new website Climate Change and Your Home in June 2008 to provide information about how traditional buildings are likely to respond to climate change and provide advice on how any necessary adaptations, including energy savings measures, might be made.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport how much his Department paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199619]

Mr. Sutcliffe: The Department's records show there were no payments made to J P Morgan in each year since 1997.

Karian and Box

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport what the value was of each contract awarded by his Department to Karian and Box since 1997. [199630]

Mr. Sutcliffe: The Department has not awarded any contracts to Karian and Box in the period specified.

Ofcom: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much funding his Department provided to Ofcom in each of the last three years; and for what purposes each payment was made. [199837]

Andy Burnham: DCMS has paid the following sums to Ofcom in each of the last three financial years in support of Ofcom work to promote Media Literacy and Community Radio.

	Media Literacy	£ Community Radio
2005-06	559,000	444,026
2006-07	559,000	828,775
2007-08	559,000	466,215

Own Art Programme: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much he expects his Department to spend on *(a)* the Own Art programme and *(b)* the Take It Away instrument scheme in each of the next three years. [199829]

Mr. Sutcliffe: Own Art and Take It Away are Arts Council initiatives delivered through ArtCo Trading Ltd., for which funding has been agreed up to 2009-10.

The Own Art scheme will receive grants of £300,000 in 2008-09 and £300,000 in 2009-10. The Take It Away scheme will receive grants of £700,000 in 2008-09 and £700,000 in 2009-10.

Recreation Spaces

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many *(a)* athletics tracks, *(b)* golf facilities, *(c)* grass pitches, *(d)* health and fitness suites, *(e)* ice rinks, *(f)* indoor bowls facilities, *(g)* indoor tennis centres, *(h)* ski slopes, *(i)* sports halls, *(j)* swimming pools and *(k)* synthetic turf pitches listed on the Active Places website are (i) public and (ii) private facilities. [198817]

Mr. Sutcliffe: Sport England's Active Places database does not collect data on sport facility types broken down by (i) public and (ii) private facilities.

However, the database records ownership type of the requested sports facilities and this is provided in the table, as at November 2007.

Ownership type does not necessarily equal access type, for example, although many educational facilities will be open to the public this will not be the case for all of them.

	Local Authority	Education	Commercial	Others	Total
Swimming Pools	1,699	1,095	1,694	126	4,614
Sports Halls	1,202	6,527	158	483	8,370
Grass Pitches	13,697	24,616	241	15,491	54,045
Athletic Tracks	185	124	3	28	340
Golf	264	42	1,534	1,131	2,971
Health and Fitness	1,098	1,793	2,742	308	5,941
Ice Rinks	16	1	22	3	42
Indoor Bowls	107	8	88	147	350
Indoor Tennis	43	33	142	74	292

	Local Authority	Education	Commercial	Others	Total
Ski Slopes	19	3	103	32	157
Synthetic Turf Pitches	262	1,152	44	123	1,581

Notes:
General notes applied to ail facilities
All facilities in England, which meet criteria (see following for specifics) are included;
Facilities included according to Active Places definitions (see www.activeplace.com About the Data);
All facilities that are open for use, by the public, this includes, pay and play, membership, club use and sports club / community association
Facilities that are recorded for private use only are also included within the above figures, e.g. a school pool that is not open to the public
All operational facilities are included within the above figures, including planned, under construction and temporarily closed. Facilities that are permanently closed are excluded.
Individual Notes on Facilities
Athletics Tracks
Figures refer to number of tracks not sites (i.e. there may be more than one track on a site);
Golf
Figures refer to number of golf facilities including standard, par 3 and driving ranges. For example a golf club site may have more than one facility, i.e. two standard courses and a driving range.
Grass Pitches
Figures refer to count of individual pitches, not sites;
Does not include primary school sites which have not been surveyed;
Does not include mini soccer or rugby pitches;
Excludes a number of sites where pitch type and numbers are yet to be classified;
Pitch numbers are likely to vary season by season depending on management decisions;
Unknown ownership types included in 'others'
Health and Fitness
Figures refer to the number of facilities not sites or stations;
Unknown ownership types included in 'others'
Ice Rinks
Figures refer to number of rinks not sites (i.e. there may be more than one rink per site)
Indoor Bowls
Figures refer to the number of facilities not sites or rinks;
Indoor Tennis
Figures refer to counts of facilities and not individual courts, or sites;
Figures include all surface types;
Swimming Pools
Figures refer to the number of pools not sites;
Includes both indoor and outdoor pools (all sub types);
All sizes and length of pools are included
Unknown ownership types included in 'others'
Ski Slopes
Figures refer to the number of slopes not sites;
Synthetic Turf Pitches
Figures refer to the count of pitches not sites.

Regional Cultural Consortiums: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what funding his Department provided for Regional Cultural Consortia in 2007-08; and what funding will be provided in 2008-09. [199839]

Margaret Hodge: The figures in the table reflect the funding that the Department has provided for Regional Cultural Consortia in 2007-08, and the funding that will be provided in 2008-09.

		£000
Regional Cultural Consortia	2007-08[1]	2008-09
Yorkshire Culture	230	215
West Midlands Life	223	215
Culture South East	230	215
Culture East Midlands includes SIB funding	556	215
Culture North West	230	215
Culture South West	230	215
Living East	230	215
Culture North East	230	215

[1] Allocations following the Spring Supplementary estimate

In addition to this, there is an agreement with the Regional Cultural Consortiums for funding amounting to £200,000 from DCMS in 2008-09, to take forward work on the Cultural Olympiad.

Sports: VAT

Clive Efford: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with the Chancellor of the Exchequer on HM Revenue and Customs' decision to apply VAT at the standard rate retrospectively to inclusive membership packages offered by sports and leisure trusts; what representations he has received on the subject; and if he will make a statement. [196754]

Mr. Sutcliffe: My right hon. Friend the Secretary of State has had no discussions with the Chancellor of the Exchequer on this subject, although as Minister for Sport I have held discussions with HMT and DCMS officials have been in regular contact with their counterparts at HM Revenue and Customs (HMRC). I have received a number of representations on the issue of VAT and its application in respect of leisure trusts. This included a meeting with Sporta, the leisure trust umbrella body, to hear their concerns. I have been assured by HMRC that there has been no recent change in policy on VAT and leisure trusts and that discussions have taken place, and will continue to take place as necessary, between HMRC and businesses and organisations. In relation to retrospective charges in particular I am informed that trusts who can show that they have misunderstood the tax position in relation to

their services or have been misdirected by HMRC can ask for consideration to be given to remitting the retrospective tax.

Television: Licensing

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 12 November 2007, *Official Report*, column 6W, on television: licensing, how many people in Northern Ireland were penalised for not having a valid television licence in 2007. [199270]

Andy Burnham: During 2007, 4,331 persons were convicted in Northern Ireland under section 363 (2) of the Communications Act 2003 for not having a television licence.

Tourism Strategy Fund: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what his Department's planned expenditure on the Tourism Strategy Fund is for *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [199836]

Mr. Sutcliffe: There is no planned expenditure for these years from the Tourism Strategy Fund, which is no longer a current DCMS budget.

VisitBritain: Property

Janet Anderson: To ask the Secretary of State for Culture, Media and Sport what the average cost per square metre of *(a)* stand alone VisitBritain offices outside the UK and *(b)* VisitBritain offices incorporated in other Government offices abroad was in the latest period for which figures are available. [184311]

Margaret Hodge: As part of the strategic review of tourism support, VisitBritain is leading a discussion across the public and private sectors about the best use of the British Government's overseas offices and infrastructure in promoting the tourism industry. The review will include a full consideration of best value in the use of these assets, to that end.

In advance of the review's findings, VisitBritain has advised DCMS that the costs of its stand-alone offices outside the UK are on average £17.63 per square foot; and that the average costs in the 11 locations where VisitBritain rents office space at embassy, high commission, or British Council premises are £30.71 per square foot. However the average cost figures do not reflect the particular circumstances of particular locations and it is therefore difficult to make accurate cost comparisons.

Furthermore additional charges for administration and offices services are made in respect of British Council, high commission, and embassy locations, and these are not included in the above average figures.

World Heritage Review

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport when his Department plans to publish the World Heritage Review; and what the cost of the review is expected to be. [198393]

Margaret Hodge *[holding answer 2 April 2008]:* My Department will publish a public consultation on the World Heritage Review shortly. The public consultation will include a paper by PricewaterhouseCooper on the costs and benefits on World Heritage Site status; the cost of this work was £94,734.38 (including VAT). Additional staff costs have fallen to my Department but these are included in overall running costs and are not separately recorded.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport how much his Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199605]

Mr. Sutcliffe: The Department's records show there were no payments made to Zurich Financial Services in any year since 1997.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Advertising Standards Authority: Complaints

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints were made against the Advertising Standards Authority in relation to the Mail Preference Service in each year since 2000. [191369]

Mr. McFadden: No complaints have been made against the Advertising Standards Authority in relation to the Mail Preference Service.

Biofuels

Ms Hewitt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to promote the use of *(a)* bio-diesel and *(b)* other non-fossil fuels in the next 12 months; and if he will make a statement. [198686]

Jim Fitzpatrick: I have been asked to reply.

The Government introduced the Renewable Transport Fuel Obligation (RTFO) on 15 April 2008. The RTFO requires a proportion of the road fuel supplied in the UK to comprise renewable fuels such as biofuels. The level of the obligation is 2.5 per cent. in 2008-09 and the eligible biofuels under the obligation includes biodiesel, bioethanol and biogas.

Biofuels: Carbon Emissions

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* evidence he has evaluated and *(b)* what research he has commissioned, on the whole life carbon emission consequences of the replacement of fossil fuels with biofuels for power generation; and if he will make a statement. [200068]

Malcolm Wicks: There has been significant research in this area. DTI/BERR commissioned work up to

2003 from both Sheffield Hallam University and Imperial College. This aimed to produce a set of baseline energy and carbon balances for a range of electricity, heat and transport fuel production systems based on biomass feedstocks. The latest report is "Carbon and Energy Balances for a range of Biofuels Options" (URN 03/836) and can be viewed on the BERR website at:

http://www.berr.gov.uk/files/file14926.pdf?pubpdfdload=01%2F1342

From 2003, this work was taken forward by the Environment Agency, where the Biomass Environmental Assessment Tool (BEAT) was developed three years ago to provide lifecycle emissions data for a variety of biomass feedstocks and plant, compared to fossil alternatives. In response to the recommendations of the Biomass Task Force, DEFRA and the Environment Agency jointly updated the BEAT to make it widely available and BEAT2 is now almost ready for release. Meantime present information can be seen at:

http://randd.defra.gov.uk/Default.aspx?Menu=Menu&Module=More&Location=None&ProjectID=14484&FromSearch=Y&Publisher=1&SearchText=nf0434&SortString=ProjectCode&SortOrder=Asc&Paging=10#Description

This analysis also underpinned the development of the Biomass Strategy in 2007 ref. Working Paper 1—Economic analysis of biomass energy (URN 07/950) on the BERR website:

http://www.berr.gov.uk/files/file39040.pdf

Elsewhere, the International Energy Agency under their Bioenergy Task 38 are investigating greenhouse gas balances of biomass fuelled systems:

http://www.ieabioenergy-task38.org/description/

and the UK Energy Research Centre has carried out life-cycle analysis of renewable energy systems:

http://www.ukerc.ac.uk/AboutUs/AboutUSHomepage.aspx.

The University of Aberdeen has also carried out work in this field:

http://www.abdn.ac.uk/biologicalsci/staff/details.php?id=pete.smith

and the Carbon Trust are presently looking at embodied emissions associated with per unit of energy from biomass, contrasting that to fossil fuel emissions:

www.carbontrust.co.uk

This is an area that will continue to be studied as the Government develop their Renewable Energy Strategy.

Carbon Emissions

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the contribution to the Government's target of reducing carbon dioxide emissions by between 26 per cent. and 32 per cent. by 2020 to be made by the development of new nuclear power stations. [199466]

Malcolm Wicks: New nuclear power stations may not begin generating or contributing to our carbon reduction targets much more before 2020. We see new nuclear power stations as having a significant role to play from around 2020 onwards, in particular in reaching our goal of reducing carbon dioxide emissions by at least 60 per cent. by 2050.

Cars: Industry

Mr. Spellar: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the likely future performance of the UK car industry; and if he will make a statement. [196768]

Malcolm Wicks: 2007 was a very successful year for the UK automotive industry with vehicle output up 6 per cent. on 2006. Over 1.75 million vehicles and around three million engines were manufactured in 2007, with 77 per cent. of cars and 61 per cent. of commercial vehicles being exported. Nissan's Sunderland plant, Honda manufacturing facility at Swindon, and MINI at Oxford produced record number of cars in 2007. At Solihull and Halewood, Land Rover achieved another record, with almost 235,000 vehicles manufactured. On 26 March 2008, Ford announced it had entered into a definitive agreement to sell Jaguar Land Rover to Tata Motors, providing the assurances needed to deliver the best results for the Jaguar Land Rover businesses going forward.

These activities provide a solid foundation for the fixture. BERR will continue to work closely with the UK automotive industry to ensure its sustainability and success.

Government are engaged on a number of initiatives aimed at building on its success and improving its performance. For example, in Budget 2008, Government announced a new £40 million research programme to support the development of low-carbon vehicle technology in response to the King Review of Low Carbon Cars.

Certification Officer: Labour Turnover

Danny Alexander: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people have *(a)* resigned and *(b)* retired from the Office of the Certification Officer in each year since it was established. [198495]

Mr. McFadden: Since the establishment of the Office of the Certification Officer in 1976 there have been five Certification Officers (COs), including the present incumbent. The first four COs left office on retirement.

Certification Officer: Manpower

Danny Alexander: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people have been employed by the Office of the Certification Officer in each year since it was established. [198494]

Mr. McFadden: The following table shows the number of people employed by the Office of the Certification Officer in each year since it was established. The Certification Officer holds no records for 1978, 1979, 1980, and 1981.

	Number of Staff
1976	22
1977	14
1978	2

	Number of Staff
1979	[2]
1980	[2]
1981	[2]
1982	10
1983	10
1984	11
1985	17
1986	16
1987	16
1988	14
1989	16
1990	15
1991	15
1992	15
1993	15
1994	15
1995	15
1996	15
1997	10
1998	9
1999-2000[1]	11
2000-01	13
2001-02	12
2002-03	11
2003-04	10
2004-05	10
2005-06	10
2006-07	9
2007-08	9

[1] Reporting year for Certification Officer changed from calendar to financial year in 1999-2000
[2] No records available.

Construction: Manpower

Mr. Hepburn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what estimate he has made of the number of construction operatives who have the employment status of *(a)* workers, *(b)* employees and *(c)* genuine self-employed; [199084]

(3) what estimate he has made of the number of construction operatives *(a)* in direct employment and *(b)* registered as self-employed. [199088]

Angela Eagle: I have been asked to reply.

HM Revenue and Customs believes that there could be up to 200,000 workers in the construction industry who are incorrectly being treated by their engagers as self-employed. We estimate that the consequent Exchequer loss currently is around £350 million per annum. No estimates of the Exchequer loss for earlier years have been made.

Information from the Office for National Statistics[1] for the 4th quarter of 2007 estimates that there are around 1,450,000 employees and around 850,000 self-employed working in the construction industry.

[1] From the Labour Force Survey

The Department for Business, Enterprise and Regulatory Reform, collects no specific data on workers within the construction industry.

Energy: Fees and Charges

Albert Owen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent comparisons his Department has made between the cost to domestic energy users of *(a)* mains gas and *(b)* liquefied petroleum gas; and if he will make a statement. [199432]

Malcolm Wicks: Comparison of the costs to heat a property are used in the modelling of fuel poverty and are sourced from the Sutherland Comparative Domestic Heating Cost tables, available through http://www.sutherlandtables.co.uk/.

The latest figures are from October 2007 and show the following estimates of the "costs of space and water heating for an average size three bedroom house":

£

Heating fuel	Type of heating system	South-east	South-west and Wales	Midlands	Northern England	Scotland
Gas—B.Gas two tier rate	Boiler, radiators and DHW cylinder	682	653	698	728	754
	Condensing boiler, radiators and DHW cylinder	571	547	584	609	630
LPG propane (bulk)	Boiler, radiators and DHW cylinder	1,437	1,344	1,433	1,531	1,504
	Condensing boiler, radiators and DHW cylinder	1,189	1,113	1,186	1,266	1,245

Energy: Finance

Mr. Ingram: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 27 March 2008, *Official Report*, column 334W, on renewable energy: finance, how much of the £500 million allocated to be spent from 2002 on research and development and capital grants for emerging renewable and low carbon technologies has been spent; what the allocation of the spend has been to different categories of project; and what projects have been supported under each category. [199306]

Malcolm Wicks: Spend so far (to end March 2008) under the programmes listed in the table, which were introduced at different points over the period, totals £233.5 million. All of these programmes except the Major PV Demonstration Programme and Clear Skies

are projected to continue to spend during the CSR period and in some cases well beyond.

Spend on the main programme activities are set out as follows. It has not been possible to provide a breakdown of the Clear Skies and R and D Programme spend by technology or projects supported under each category in the time available at proportionate cost.

Programme/technology	*Spend to date (end 2007-08) (£ million)*
Off shore wind capital grant programme	76.75
Bioenergy capital grant programme	32.8
Major PV Demonstration Programme	30.1
Clear Skies (Micro wind, Biomass, Heat Pumps, Micro hydro, Solar Thermal Hot Water)	12.1
Marine Renewable Deployment Fund	1.62
Low Carbon Buildings Program Phase 1 (LCB)	7.5
Low Carbon Buildings Programme Phase 2 (LCB)	1.9
Hydrogen and Fuel Cells and Carbon Abatement Demonstration Programme (HFCAT)	0.20
New and Renewables R and D programme/ Technology Programme	71
Total	233.5

Flexible Working

Mrs. Maria Miller: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which of the recommendations of the Walsh Review of flexible working he plans to implement; and when he plans to implement them. [199874]

Mr. McFadden: Imelda Walsh, HR director of J Sainsbury plc, is in the process of leading an independent review to consider the questions of what the age cut-off of an older child should be for the purpose of extending the right to request flexible working to parents of older children; and whether that extension should be staged. Ms Walsh will make her recommendations this spring. The Government will then consult on how they intend to proceed.

Mrs. Maria Miller: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress is being made on proposals to extend the right to flexible working to all parents with children under the age of 16 years. [200066]

Mr. McFadden: On 6 November last year, the Prime Minister announced that the Government have decided to extend the right to request flexible working to parents of older children. Imelda Walsh, HR director of J Sainsbury plc, was appointed to lead an independent review to consider the question of where the age cut-off of an older child should be set for this purpose. Imelda Walsh is expected to make her recommendations this spring.

Fraud: Internet

Dr. Gibson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department has responsibility for tackling the use of the internet to conduct fraud; and if he will make a statement. [198512]

Malcolm Wicks: My Department does not have direct responsibility for law enforcement nor does it regulate the services provided by the hundreds of UK intefnet service providers. The general law on fraud applies by whatever means it is conducted, including over the internet.

We are working closely with internet service providers to continue to develop practical measures to reduce the impact of harmful content, including the work they are doing to prevent fraud committed using the internet. The Office of Fair Trading, among others, provides advice to consumers on how better to protect themselves from such fraud.

Last year, the Government pledged to provide over £28 million to fight fraud.

The money will fund:

A new National Fraud Strategic Authority.

A Lead Force, centred on the City of London Police, as a centre of excellence to increase the UK's capability to investigate fraud and bring fraudsters to justice.

A National Fraud Reporting Centre, hosted by the Lead Force, to streamline the way that fraud is reported and to make the best use of the intelligence gathered.

Pilot projects to measure the impact and cost of fraud.

Reforms to the criminal justice system to make sure that fraudsters are brought to justice and that victims are better able to get redress.

The new powers enshrined in Part 3 of the Serious Crime Act will also will help provide the means to make the UK the most hostile environment for fraudsters.

The UK's law enforcement authorities are also collaborating with police forces abroad to reduce the incidence of internet fraud being perpetrated in the UK from overseas.

Fuel Poverty: Inverness

Danny Alexander: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* households, *(b)* children and *(c)* pensioners were living in fuel poverty in Inverness, Nairn, Badenoch and Strathspey constituency in each year since 1997. [200087]

Malcolm Wicks: The Scottish House Condition Survey, run by the Scottish Government, collects data on fuel poverty but the sample size is too small to produce meaningful estimates at a level below local authority. No low level modelling of fuel poverty has been conducted by the Scottish Government.

The following table shows estimates of the number of households in fuel poverty in the Highland Council region, the lowest geographical area at which it is produced, for each available year since 1997.

Fuel poverty in the Highland Council region

	Fuel poor		*Not fuel poor*		
	Thousand	*Percentage*	*Thousand*	*Percentage*	*Total*
2002	20,000	22	70,000	78	89,000
Combined 2003-06	29,000	29	70,000	71	99,000

Geothermal Power

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the potential thermal generation capacity of geothermal technologies in the UK; and if he will make a statement. [192949]

Malcolm Wicks: Between 1976 and the early 1990s the UK carried out a major Geothermal Research Programme at a cost in excess of £50 million. The key conclusions from the programme were that the UK was unlikely to see major developments based upon geothermal aquifers or the hot dry rock (HDR) method due to a limited resource, limited scope for their application and unfavourable economics.

The programme produced estimates of the potential geothermal resource for both HDR and aquifers. Its final report estimated the accessible HDR resource in the UK regardless of cost to be 1,500 Terawatt hours of electricity, that if exploited over 25 years would result in 60 TWh/year or 7,600 MW of net output power at 90 per cent. availability. However, once possible constraints were taken into account it estimated that the practicable HDR resource could be as low as 4 TWh/year or 500 MW over 375 years.

A final report of the Geothermal Aquifers Programme estimated the UK resource for three temperature ranges:

Temperature range	*Mtce (million tonnes coal equivalent)*
Over 60C	183
40 to 60C	1771
20 to 40C	2285

Although these figures are large the report estimated that the exploitable resource was much smaller when taking account of the coincidence of high heat load density and resource. It estimated that the possible take-up of the resource based on a total of 100 schemes being developed would produce a total saving of 0.35 Mtce per annum.

To make geothermal power a more attractive economic prospect in the UK now would depend on addressing the technical and practical constraints identified by this previous Geothermal Programme.

Notes:

1. Geothermal Hot Dry Rock UK Government R and D Programme 1976-1991, ETSU-R-59, 1992

2. Geothermal Aquifers Department of Energy R and D Programme 1976-1986, ETSU-R-39, 1986

Industrial Diseases: Compensation

Mr. Clapham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Answer of 27 March 2008, *Official Report*, column 329W, on industrial diseases: compensation, how many of the 3,021 claimants paid an award after 27 March 2004 were advised that they could make a claim for an award under the Pneumoconiosis etc Workers' (Compensation) Act 1979. [198750]

Malcolm Wicks: The 1979 Act is the responsibility of the Department for Work and Pensions.

It is not the role of the Department's claims handlers to advise on eligibility for an award under the Pneumoconiosis etc. Workers' (Compensation) Act 1979.

Low Carbon Buildings Programme

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations his Department received from the renewable energy industry prior to the relaunch of the domestic stream of the Low Carbon Buildings Programme; and if he will make a statement. [199373]

Malcolm Wicks: The Department had a formal meeting with representatives of the microgeneration industry on 11 February 2008, and also had various discussions and correspondence with the industry around this time, both to discuss this issue and in the normal course of business.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what budget has been set for the domestic stream of the Low Carbon Buildings Programme. [199376]

Malcolm Wicks: The Low Carbon Buildings programme has a £36 million budget of which £18 million is currently allocated for the household stream.

Mailing Preference Service: Complaints

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints were made against the Mail Preference Service in each year since 2000. [191368]

Mr. McFadden: The number of complaints made to the Mail Preference Service in each year since 2000 are as follows:-

	Number
2000	795
2001	633
2002	1,637
2003	1,636
2004	3,675
2005	4,668
2006	4,847
2007	4,173

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will reply to the letter of 29 January 2008 from the hon. Member for Walsall North concerning a constituent. [193546]

Mr. Thomas *[holding answer 12 March 2008]:* I apologise for the delay in responding to my hon. Friend. A response was sent on 31 March, I have arranged for a copy to be faxed to your office.

Sir Michael Spicer: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects a reply to be sent to the hon. Member for West

Worcestershire in response to his letter of 21 December, Reference: PT/33280, transferred from his Department to Ofcom. [199121]

Mr. Thomas: The hon. Member's letter was transferred to Ofcom for response. Ofcom have advised that their reply was dispatched on 1 April.

Mr. Paul Goodman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will reply to the letter from the hon. Member for Wycombe of 29 February 2008 on individuals registered in the UK in relation to businesses. [199343]

Mr. Thomas: I apologise for the delay in responding to the hon. Member, this was due to an administrative error. A reply will be issued shortly.

Mr. Burns: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he plans to reply to the letters of 28 January 2008 and 6 March 2008 from the hon. Member for West Chelmsford on his constituent Mr. J. Burrows. [199895]

Mr. Thomas: I apologise to the hon. Member for the delay in responding, this was due to an administrative error. A response from my hon. Friend the Minister of State for Employment Relations and Postal Services was sent on 15 April 2008.

Microgeneration: Solar Energy

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* assessment he has made of the complexity and *(b)* estimate he has made of the cost of participation in the microgeneration certification scheme to solar technology suppliers interested in qualifying for the low carbon buildings programme. [200192]

Malcolm Wicks: The Microgeneration Certification Scheme (MCS) was designed in consultation with key stakeholders, including representatives of the solar thermal industry. MCS scheme standards and requirements have been set by an industry-led Steering Group and expert working groups. The scheme's principal objective is to provide information and assurance to consumers unfamiliar with these technologies, by ensuring that products and companies eligible for grants, meet more robust standards.

MCS is working towards accreditation by the UK Accreditation Service (UKAS), which, to an extent, places certain requirements on the scheme in order to comply with EN 45011. UKAS accreditation should help to deliver the quality and reliability that the Government and consumers want to see in the microgeneration market.

UKAS is appointed in the UK to assess and accredit the activities of third party certification bodies against internationally agreed standards. The costs of certification under MCS are determined according to the same International Accreditation Forum guidelines used for other equivalent UKAS accredited schemes which operate in other industry sectors.

As part of the development of the Microgeneration Certification Scheme, the Department provided £350,000 to give 50 per cent. discounts to installer businesses during the first year (reducing first year costs to £900). Discounts have been offered to 250 Clear Skies/PV programme installers who applied before 31 January 2008. The remainder of the £350,000 has been allocated to support 139 new installers, on a first-come, first-served basis (with a 50 per cent. discount). Discounts are payable on successful completion of the MCS assessment. Further funding of £250,000 remains to be allocated, following discussions with the MCS Steering Group.

After September 2008, MCS will be opened up to other certification bodies and the Department hopes to see further cost reductions coming from open competition.

National Minimum Wage: Migrant Workers

Damian Green: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps HM Revenue and Customs has taken to implement the recommendations of the Low Pay Commission on prioritisation of targeted enforcement of the minimum wage in sectors employing significant numbers of immigrant workers. [199854]

Mr. McFadden: As recommended by the Low Pay Commission, we have chosen two sectors that employ large numbers of migrant workers and British workers for targeted enforcement. In 2007-08 we focused on the hotel sector. For 2008-09 we will be looking at the wider hospitality sector, which includes hotels, camping sites and other provision of short-stay accommodation, restaurants, bars, canteens and catering.

Natural Gas: Transport

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what estimate he has made of the number of households in the United Kingdom which pay additional charges to independent gas transporters for the supply of gas; and what estimate he has made of the average additional costs for this form of distribution; [199083]

(2) if he will make a statement on the use of independent gas transporters for the distribution of gas supplies in the United Kingdom. [199085]

Malcolm Wicks: The decision to have a connection provided by an independent gas transporter (IGT) rather than the regional Gas Distribution Network rests with developers or individual householders. In January 2007, 840,000 domestic meter points were connected to IGT networks.

The Office of Gas and Electricity Markets (Ofgem) regulates gas transportation, distribution and supply. To promote connections as a whole, and competition in their provision, Ofgem previously allowed IGTs to levy a supplementary connection charge, recoverable over 20 years. Since 2003, to encourage more connections of existing domestic infill properties (that is, existing properties without a gas supply) to the mains gas network, IGTs have been able, under the Relative Price Control, to apply a surcharge on the transportation charge to such properties. Otherwise, the Relative Price Control for IGTs caps transportation charges at a level consistent with those of the Gas Distribution Networks. Around 580,000 customers already used networks regulated under

previous arrangements. Relative Price Controls will be phased in for these customers.

Once a connection has been made and the supply activated, households are not billed by transporters or distributors, whose charges are met by the gas supplier. It is for the supplier to decide whether or not to recover any additional element in the charge from the customer, or whether, for administrative simplicity, to apply a standard charge to all customers of IGT networks. Individual suppliers have different approaches, and it follows that the number of households that pay additional charges will depend on which supplier a household is contracted with at any one time. Neither British Gas nor Scottish and Southern Energy applies a surcharge to IGT customers; other suppliers' surcharges lie in the range £30-£60 per IGT customer.

Nuclear Power

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what meetings he has held on nuclear power issues with *(a)* trades unions and *(b)* environmental non-governmental organisations since he took up his post; on what dates each meeting took place; and what decisions arose from each meeting. [199279]

Malcolm Wicks: My right hon. Friend, the Secretary of State, hosted a round-table meeting on 17 September which was attended, among others, by the trade union Prospect and by the environmental non-governmental organisation, SERA. Other environmental groups were invited, but consistent with their decision to disengage from the nuclear consultation they chose not to attend.

The meeting was part of the consultation on the future of nuclear power and it enabled my right hon. Friend to hear directly the views of key stakeholders on the issues. As the meeting was part of the consultation, the views expressed were considered by the Government, alongside all of the other information received, when making its decision on the future of nuclear power in the UK.

My right hon. Friend also addressed a conference about nuclear power organised by the trade union Unite on 26 March 2008.

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what sites other than existing nuclear sites are under consideration for the potential development of new nuclear power stations. [199288]

Malcolm Wicks: It will be for companies to bring forward proposals to build new nuclear power stations. The suitability of sites will be assessed through the Strategic Siting Assessment process. We will be consulting on draft criteria for this process shortly.

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the timescale for new nuclear power stations to produce more electricity than is currently produced by existing nuclear power stations. [199290]

Malcolm Wicks: We are not setting a target, or a limit, to the amount of electricity to be generated in the future by new nuclear power stations.

Nuclear Power Stations

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make available resources to non-governmental organisations to assist in their participation in the consultation on the process for prospective new nuclear plants. [199699]

Malcolm Wicks: It is not our practice to make resources available to people or bodies outside Government to help them respond to consultations. However, we designed our consultation on nuclear power to make it as easy as possible for people who wanted to respond to do so.

Nuclear Power Stations: Carbon Emissions

Mr. Sheerman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the likely carbon footprint of new nuclear power stations in the UK. [199902]

Malcolm Wicks: We published information on the full lifecycle emissions of carbon dioxide from the generation of electricity by nuclear power in chapter 2 of our consultation document "The Future of Nuclear Power" at:

http://www.berr.gov.uk/files/file39197.pdf

Following our consultation, we published a summary of responses received and our conclusion on pages 48 to 53 of our White Paper on Nuclear Power at:

http://www.berr.gov.uk/energy/nuclear-whitepaper/page42765.html

Nuclear Power Stations: Construction

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to his Oral Answer of 3 April 2008, *Official Report*, columns 903-04, on the nuclear industry, if he will place in the Library a copy of the analysis which underlay his estimate of new jobs which will be created through spending on new nuclear power. [199706]

Malcolm Wicks: The Secretary of State's statement that a significant expansion of nuclear in the UK in the coming decades could potentially create up to 100,000 jobs was based on the experience of jobs created from past nuclear construction in the UK and in other countries. This includes jobs in the nuclear power stations, off site jobs for corporate, business, maintenance and fuel cycle functions, construction jobs, and jobs in the engineering and construction supply chains.

Nuclear Power: Employment

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the evidential basis is for his estimate, made at the UNITE conference on 28 March 2008, that up to 100,000 new skilled jobs could be created by a new nuclear programme. [199255]

Malcolm Wicks: My right hon. Friend the Secretary of State said that a significant expansion of nuclear in the UK in the coming decades could potentially create up to 100,000 jobs, thousands of which would be highly skilled and well paid. That estimate was based on experience of jobs created from past nuclear construction in the UK and in other countries, and includes jobs in the nuclear power stations, off site jobs for corporate, business, maintenance and fuel cycle functions, construction jobs, and jobs in the engineering and construction supply chains.

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of new jobs which will be created in a programme of new build nuclear power stations by *(a)* 2010, *(b)* 2015, *(c)* 2020 and *(d)* 2025. [199289]

Malcolm Wicks: The timetable of facilitative actions in our Nuclear White Paper is intended to deliver a framework that would enable energy companies to begin construction of the first new nuclear power station in 2013-14 and start operation in 2017-20. We believe that a programme of new nuclear power stations has the potential to create many thousands of jobs but it is not possible to be precise about timing.

Nuclear Power: Safety

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will ask the Chief Nuclear Safety Inspector at the Nuclear Installations Inspectorate to evaluate the safety of the use of diamond nanoparticles in the secondary cooling system of water cooled reactors. [199160]

Malcolm Wicks: The possible use of this technology in a commercial power reactor seems some years off. Should any present or future nuclear operator in the UK propose modifying the reactor coolant in this way, the safety implications would need to be fully justified in a safety case, and this would be considered by the Nuclear Installations Inspectorate according to its regulatory processes.

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what additional resources will be required to fulfil the commitments on nuclear regulatory co-operation set out in the UK-France Summit communiqué of 27 March. [199257]

Malcolm Wicks: The French and UK nuclear safety regulating authorities announced enhanced co-operation on 27 March. It is not intended that any additional resource will be allocated to this collaborative work in the short term, although this will be reviewed regularly to ensure that maximum benefit is being gained from the relationship.

Nuclear Power: Uranium

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the future availability of uranium reserves; and how long they are expected to last according to *(a)* high and *(b)* low global growth scenarios for nuclear new build. [199292]

Malcolm Wicks: As stated on pages 104 to 106 of our Nuclear White Paper, our view is that uranium resources will be available for the period likely to be covered by the operation of new nuclear power stations in the UK and that more focused exploration will lead to increased availability over time.

Post Offices: Closures

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment has been made of the traditional Post Office functions which are now undertaken remotely, online or other than by post office branches. [198150]

Mr. McFadden: The Post Office is one of a number of ways to deliver Government and other traditional services and still has an important role to play. But we cannot ignore the fact that people increasingly want to access services in different ways such as direct debits, ATMs, the telephone and the internet.

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what advice his Department plans to provide to communities who wish local authorities to take over the running of post offices facing closure. [198156]

Mr. McFadden: Where a local authority is interested in funding continued post office service provision in communities where branches are scheduled for closure, we have encouraged Post Office Ltd. to talk to them. However, local authorities should understand that Post Office Ltd. will want to ensure that all relevant costs are covered, that there is a commitment for several years and that there will not be a damaging impact on other post offices in the area not scheduled for closure. Ultimately, it is for Post Office Ltd. and the local authority to discuss and agree the details of any such arrangements and to ensure that the arrangements are compatible with EU rules on state aid.

Miss McIntosh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will request Post Office Ltd not to proceed with its proposed changes to the post office structure; and if he will make a statement. [199556]

Mr. McFadden: Following a national public consultation, the Government announced in May 2007 a new framework of minimum access criteria to maintain a national network of post offices and to support strategic changes to the network with up to 2,500 compensated closures and 500 new outreach locations. There is widespread recognition that the post office network was unsustainable at its pre-programme size. Post Office Ltd is responsible for implementing the network change programme and management of the programme is an operational matter for the company. The network change programme is continuing as scheduled.

Justine Greening: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many post office franchises are due contractually to terminate in each of the next five years; and if he will make a statement; [200140]

(2) what conditions are contained in leases associated with franchise agreements to run post offices should lessees not maintain a post office function on the estate for the duration of the lease agreement; and if he will make a statement; [200154]

(3) how many post office franchisees have given notice to terminate their agreement *(a)* prior to the end of the franchise contract and *(b)* at the end of the franchise contract in the last six months; and if he will make a statement. [200160]

Mr. McFadden: These are operational matters for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Justine Greening: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many lessees of Post Office Ltd freehold estates have triggered a call option requiring the landlord to sell the revisionary estate to the lease; and if he will make a statement; [200141]

(2) whether at the termination of a post office franchise agreement the leasehold on that estate automatically reverts to the freeholder; and if he will make a statement; [200142]

(3) how many franchised post offices had franchises that were terminated at the end of the franchise agreement *(a)* by the franchisor, Post Office Ltd., and *(b)* by the franchisee in each year since 2001. [200155]

Mr. McFadden: These are operational matters for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Justine Greening: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many post office leases include a call option requiring the landlord to sell the revisionary estate to the lease; whether that is triggered on lease termination; and if he will make a statement; [200143]

(2) what conditions are contained in franchise agreements to run post office facilities that trigger the early termination of the property lease agreement should those facilities not be maintained; and if he will make a statement. [200156]

Mr. McFadden: These are operational matters for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Justine Greening: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) whether at the time a post office franchise agreement is terminated, any leasehold agreement on that estate similarly terminates, even if held by a different organisation, individual or legal entity than the franchise; and if he will make a statement; [200144]

(2) what conditions are contained in franchise agreements to maintain running post offices on an estate where the lease is a different organisation, individual or legal entity than the franchise. [200145]

Mr. McFadden: These are operational matters for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: Subsidies

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what level of subsidy will be available to the Post Office network after 2011; and if he will make a statement. [199872]

Mr. McFadden: In its response to the national consultation on the post office network in May 2007, the Government recognised that further funding will be required beyond 2011 as parts of the network can never be commercial. They also concluded that it would be premature to make a judgment about what level of funding would be required after 2011 given the changes planned for the network in the intervening period.

Postal Workers: Dog Attacks

Kate Hoey: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what his analysis is of the performance of the Health and Safety Executive's record of monitoring Royal Mail's dog attack procedure; and if he will make a statement; [195334]

(2) what plans he has to review the Royal Mail dog attack procedure; what discussions he has had with *(a)* Royal Mail, *(b)* the Communication Workers Union and *(c)* other organisations about reviewing the Royal Mail dog attack procedure; and if he will make a statement. [195333]

Mr. McFadden: Compliance with Health and Safety rules is an operational matter for Royal Mail management. Royal Mail takes dog attacks on post men and women very seriously and has developed procedures to ensure that its staff are not put at risk of attack while delivering the post.

Regional Development Agencies

Dan Rogerson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the *(a)* (i) pay and (ii) non-pay administration and *(b)* estate costs of each regional development agency were in each year since 2000-01. [198897]

Mr. McFadden: For question *(a)* (i) pay and (ii) non-pay administration, I refer the hon. Member to the reply given on 17 December 2007, *Official Report*, column 1076W.

For question *(b)* estate costs of each RDA, I refer the hon. Member to the reply given on 20 February 2008, *Official Report*, column 722W. Information for 2000-01 and 2001-02 is not held centrally and can be provided only at disproportionate cost.

Dan Rogerson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what properties each regional development agency (RDA) owns; how many RDA-employed staff are located at each such property; what the square footage of space available at each is; and what estimate has been made of the value of each such property. [198898]

Mr. McFadden: The regional development agencies own a range of properties for various purposes including redevelopment for the regeneration and economic growth of the region.

RDA staff are mostly housed in leased accommodation.

The information has been placed in the Library.

Renewable Energy: Housing

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many renewable energy systems have been installed on or in UK dwellings in each year since 2000. [199378]

Malcolm Wicks: These numbers are not routinely collected through any one source, and we cannot provide yearly figures for anything except installations funded through Government grants.

Research commissioned by the DTI in 2005 on the Potential for Microgeneration found that in 2004 there were approximately 82,000 microgeneration installations in the UK. We have recently commissioned further research to update this work which is due to be completed by spring 2008.

The final Report on the Potential for Microgeneration can be viewed on:

http://www.berr.gov.uk/energy/sources/sustainable/microgeneration/index.html

Solar Energy

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the UK's global position in the construction of integrated solar photovoltaics; and if he will make a statement. [199380]

Malcolm Wicks: Since 2000, the Government have supported the UK Solar PV industry with over £35 million in capital grants and field trials and currently Solar PV installations receive capital grants through the £86 million Low Carbon Buildings programme. There are a number of wider measures supporting Solar PV including grants for R&D through the Technology Programme. As a result the UK Solar PV industry has strengths in the design and manufacture of building integrated products.

More information on how PV development in the UK compares with developments at an international level is available on the International Energy Agency website:

http: //www.iea-pvps.org

Solicitors

Mr. Hands: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to his Department's written evidence to the Public Accounts Committee on Coal Health Compensation Schemes (HC350, EV17), what the equivalent figures are for each firm of solicitors listed for total *(a)* debt, *(b)* recovered debt and *(c)* outstanding debt at the most recent date for which figures are available. [198864]

Malcolm Wicks: With respect to the Public Accounts Committee report on Coal Health Claims, the following table shows how much claimants' representatives owed the Department, the amount that has been recovered from them and amount outstanding to be recovered for the cost for processing claims under the 'fast track' Optional Risk Offer Schemes, as at 31 March 2008. Outstanding debts are due to be repaid by 30 May 2008.

£ million

Claimants' representatives	*Total debt (including interest)*	*Total debt recovered (incl offset and write off)*	*Totall debt outstanding*
Thompsons	5.2	5.2	0.0
Beresfords	14.0	10.2	3.8
Hugh James	5.8	5.8	0.0
Raleys	5.4	5.4	0.0
Bromell Smith and Co	4.2	4.2	0.0
Mark Gilbert Morse	1.2	1.2	0.0
Avalon [1]	8.7	5.2	3.4
Union of Democratic Mineworkers	2.4	0.2	2.2
Watson Burton LLP	2.5	2.5	0.0
Graysons Solicitors	1.8	1.8	0.0
Total [2]	51.1	41.7	9.4

[1] A modified repayment schedule has been agreed with Avalon.
[2] Figures do not always add up due to rounding.

Targeted Advertising Technology

Mr. Don Foster: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what assessment he has made of the implications for personal privacy of the use of targeted advertising technology by companies; [198365]

(2) whether he has had discussions with BT on its use of targeted advertising technology. [198366]

Malcolm Wicks: The Office of the Information Commissioner made a statement on 3 March 2008 that it was in discussion with one company about the nature of its service and the way it uses information about ISP customers. My Department will consider the continued relevance of the current safeguards and legislation in the light of the outcome of those discussions. I have had no discussions with BT on this matter.

Telephones: Fees and Charges

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he plans to respond to the Ofcom report on the extra charges imposed on those paying for telephonic use who choose not to use direct debit. [195588]

Malcolm Wicks *[holding answer 20 March 2008]:* Additional charges levied by communications providers on their customers' bills are a matter for the regulator and not the Government, and have been addressed by Ofcom's review. Because of the widespread concern about extra charges, such as not paying bills by direct debits, Ofcom is currently consulting on its review of additional charges and the introduction of new guidance for communications providers who levy such charges on consumers. The consultation process will end on 8 May 2008.

Ofcom is then proposing to allow three months for companies to bring their contract terms and marketing material into line with the guidance. It will also publish a checklist for customers on what to look out for before they sign on the dotted line.

Union Modernisation Fund

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 18 February 2008, *Official Report*, columns 407-8W, to the hon. Member for Chichester, on the union modernisation fund, if he will publish any declarations of political activity made by each of the members of the Independent Supervisory Board. [191502]

Mr. McFadden: At the time of their appointment, the members of the Union Modernisation Fund Supervisory Board declared the following interests:

Bill Connor declared that he had spoken on behalf of a party or candidate and canvassed on behalf of a party or helped at election (for the Labour party);

Adrian Askew declared that he had held office such as Chair, Treasurer or Secretary of a local branch of a party and canvassed on behalf of a party or helped at election (for the Labour party);

William Brown declared no political activity;

Danny Carrigan declared that he had canvassed on behalf of a party or helped at election and a member of the National Executive Committee (for the Labour party);

Jeannie Drake declared that she had canvassed on behalf of a party or helped at election and a member of the Labour Party National Policy Forum (for the Labour party);

Judith Hackett declared no political activity[1];

David Metcalfe declared that he had canvassed on behalf of a party or helped at election and undertaken any political activity which is considered relevant (for the Labour party)[1];

Bruce Warman declared no political activity.

[1]Has since resigned from the Board

HEALTH

Abortion: Gloucestershire

Mr. Drew: To ask the Secretary of State for Health how many clinics are registered to perform abortions in Gloucestershire; and whether they receive public funding to carry out these procedures. [198101]

Dawn Primarolo: There are no clinics in Gloucestershire approved by the Secretary of State for Health to perform abortions. National health service hospitals do not require approval to perform abortions.

Accident and Emergency Departments

Mr. Gordon Prentice: To ask the Secretary of State for Health what opinion surveys have been conducted by *(a)* his Department and *(b)* the NHS, on the views of (i) general practitioners, (ii) hospital doctors, (iii) nurses and (iv) allied medical professionals on the outcomes of hospital reconfigurations which involved the downgrading of blue light accident and emergency facilities. [198583]

Ann Keen: Proposals for the reconfiguration of services are a matter for the national health service locally, working in conjunction with clinicians, patients and other stakeholders.

The Department has not conducted an opinion survey relating to the reconfiguration of accident and emergency facilities and does not collect data relating to individual surveys which may have been conducted by the local NHS.

Alliance Boots: Finance

David T.C. Davies: To ask the Secretary of State for Health how much his Department paid to Alliance Boots Ltd. in each year since 1997; and what the purpose of each such payment was. [199688]

Mr. Bradshaw: The Departments financial records only go back to April 2001 and they show that no payments have been made to Alliance Boots Ltd. for the period April 2001 to March 2008.

Antidepressants: Prescriptions

Dr. Naysmith: To ask the Secretary of State for Health if he will *(a)* undertake an evaluation of the effectiveness of and *(b)* issue new guidance on prescribing selective serotonin reuptake inhibitor antidepressants. [198667]

Dawn Primarolo: A review of the safety of the selective serotonin reuptake inhibitors (SSRIs) by the Government's expert working group on the safety of SSRIs was published in December 2004 and updated prescribing advice has been issued by the Medicines and Healthcare products Regulatory Agency (MHRA) as new information has become available. Most recently, a summary of the current regulatory position with respect to SSRIs was released by the MHRA on 6 March 2008 and copies have been placed in the Library.

The National Institute for Health and Clinical Excellence (NICE) published its clinical guideline on depression, 'Management of Depression in Primary and Secondary Care', in December 2004. NICE plans to review its guidance in December 2008.

Association of the British Pharmaceutical Industry: Finance

David T.C. Davies: To ask the Secretary of State for Health how much his Department paid to the Association of the British Pharmaceutical Industry in each year since 1997; and what the purpose of each such payment was. [199685]

Mr. Bradshaw: The Department's financial records only go back to April 2001 and they show that no payments have been made to the Association of the British Pharmaceutical Industry for the period April 2001 to March 2008.

Byotrol: Finance

David T.C. Davies: To ask the Secretary of State for Health how much his Department paid to Byotrol in each year since 1997; and what the purpose of each such payment was. [199686]

Mr. Bradshaw: The Department's financial records only go back to April 2001 and they show that no payments have been made to Byotrol for the period April 2001 to March 2008.

Cardiovascular System: Screening

Mr. Lansley: To ask the Secretary of State for Health what the criteria are for assessing someone as being at *(a)* low, *(b)* moderate and *(c)* high risk as a result of a vascular risk assessment as referred to in Putting Prevention First. [198843]

Ann Keen: In terms of assessing personal risk following a vascular risk assessment, a person would be classified at high risk with the presence of one or more of the following:

over 20 per cent. cardiovascular risk;

high cholesterol ratio (ie TC:HDL greater than six);

diagnosis of hypertension (high blood pressure) according to Joint British Societies' guidelines on the prevention of cardiovascular disease in clinical practice;

detected to have impaired glucose regulation (pre-diabetes).

At moderate risk with the presence of one or more of the following and without any of the high risk factors:

insufficient physical activity;

obese; and/or

smoker;

and at low risk in the absence of any of the high or medium risk factors detailed.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the costs associated with the vascular risk assessment programme, as proposed in Putting Prevention First; and what proportion of that cost he estimates will arise from (i) the risk assessment process and (ii) consequent interventions. [198849]

Ann Keen: We estimate the costs associated with the vascular risk assessment programme will be in the order of £250 million per annum once the programme reaches full implementation. Of this, an estimated 10 to 15 per cent. is the cost of the risk assessments themselves (ie the cost of the work force time and laboratory tests required for the assessment). The remainder of the costs will fund the consequent interventions.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the difference between take-up rates by men and women of vascular risk assessments. [198850]

Ann Keen: In modelling the proposed systems of vascular checks we have a 75 per cent. uptake for both men and women. There is no relevant reliable data on likely differences in gender uptake. In working with stakeholders on how best to implement and deliver the policy, we will look at ways of ensuring the highest take up amongst all sections of the population between the ages of 40 and 74.

Mr. Lansley: To ask the Secretary of State for Health what risk assessment tool his Department used in modelling the effects of the proposed vascular risk assessment programme, published in Putting Prevention First. [198851]

Ann Keen: The risk assessment tool used to assess for cardiovascular risk (ie coronary heart disease and stroke) was Qrisk. The National Institute for Health and Clinical Excellence is publishing guidelines on lipid modification later this year and these will be considered once their recommendations are available. We are currently refining the risk assessment tool for diabetes. In modelling a system of vascular checks, we have used the FINDRISC questionnaire to identify people who should go on to have their blood glucose measured. To assess risk for chronic kidney disease we are using a high blood pressure reading.

Care Homes: Inspections

Mr. Hoban: To ask the Secretary of State for Health if he will place a copy of the Commission for Social Care Inspection's code of practice for inspectors of care homes in the Library. [196656]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that it does not have a specific code of practice for inspectors. CSCI issues a set of employment standards which apply to all staff, not just inspectors. There are eight standards:

anti-fraud and corruption policy;

corporate conduct;

employee relations;

gifts and hospitality;

information and communication technology security policy;

organisational change;

redundancy policy; and

valuing diversity.

Copies of the Standards have been placed in the Library.

Care Homes: North East

Mr. Kemp: To ask the Secretary of State for Health how many *(a)* private, *(b)* public and *(c)* voluntary sector care homes for the elderly in the North East were subject to regulation and inspection by the Commission for Social Care Inspection in each of the last five years for which figures are available. [197261]

Mr. Ivan Lewis: Information on the numbers of care homes active in the North East region and subject to regulation and inspection by the Commission for Social Care Inspection (CSCI) since 2002-03 is shown in the following table.

Homes are not registered by CSCI as, for example, care homes for older people. CSCI inspectors will decide at the time of an inspection whether to inspect a home against the national minimum standards (NMS) for care homes for older people or vulnerable adults. This decision is based on the age profile of the occupants of the home.

The figures in the following table are the number of homes active at the end of each financial year that had been inspected against the standards for older people (though not necessarily during the year in question).

Number of care homes active at end financial year (31 March) in the CSCI North East region inspected against national minimum standards for care homes for older people

	Financial year				
Type of ownership	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

CSCI registration and inspection database.

Child Health

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library copies of the appendices to the Child Health Interim Application Options Appraisal Process final report. [176948]

Mr. Bradshaw: The following appendices have been placed in the Library: 1; 2; 3; 5; 6; 8; 9; 10; 11; 12; 14; 15 and 16. It is not possible to publish appendices 4, 7, 13 and 17 because approval was not granted by the suppliers of the information, as the documents are commercially sensitive.

Childbirth

Mr. Amess: To ask the Secretary of State for Health pursuant to the answer of 25 March 2008, *Official Report*, columns 13-14W, on childbirth, what the *(a)* terms of reference and *(b)* timetable of the national perinatal epidemiology unit's programme of reviews are; and if he will make a statement. [198743]

Ann Keen: The National Perinatal Epidemiology Unit is conducting the programme of systematic reviews referred to in my previous answer in line with a research proposal that has been peer reviewed and agreed with the Department. The primary aim is to make best use of existing national and international research evidence to identify the key interventions that are most likely to contribute to meeting the 2010 infant mortality target and, in the longer term, to improving maternal and child health and a sustainable reduction in health inequalities. The reviews will also help identify evidence gaps where there is a need for new research.

The work runs until September 2009, and the research team will provide outputs on a staged basis during the life of the project. Review outputs will cover generic public health interventions as well as the major medical causes of infant mortality. The research team have appointed a multi-disciplinary advisory group to support the work.

Children: Health

Sandra Gidley: To ask the Secretary of State for Health if he will estimate the likely cost of introducing mandatory weighing and measuring of all children in England in each year. [199454]

Dawn Primarolo: The Department has no intentions to introduce mandatory weighing and measuring of all children in England in each year, and has therefore not estimated the likely cost of a mandatory programme. Furthermore, we do not intend to make it mandatory for children or parents to participate in the current programme of weighing and measuring pupils in reception year and year six.

Chlamydia

Anne Milton: To ask the Secretary of State for Health how many people were diagnosed with chlamydia in each year since 1997-98; and what proportion in each year were *(a)* men and *(b)* women. [197823]

Dawn Primarolo: Table 1 shows the number of uncomplicated chlamydia infections diagnosed in genito-urinary medicine (GUM) clinics in England from 1997 to 2006, by sex. Table 2 shows the percentage of uncomplicated chlamydia infections diagnosed in men and women in GUM clinics in England from 1997 to 2006.

The National Chlamydia Screening Programme (NCSP) does not undertake diagnostic testing as it provides screening to asymptomatic people in England. Table 3 shows the number of positive chlamydia screens by sex among those aged 13 to 24 years who were screened for chlamydia as part of the NCSP during the period 2003-07. Table 4 shows the proportion of male and female of the positive screens among those aged 13 to 24 years as part of the NCSP for the period 2003-07.

Table 1: The number of uncomplicated chlamydia infections diagnosed in GUM clinics in England, by sex, 1997-2006

	Men	*Women*	*Total*
1997	16,180	22,659	38,839
1998	18,937	24,975	43,912
1999	21,776	29,184	50,960
2000	26,579	34,791	61,370
2001	29,562	38,618	68,180
2002	34,331	43,786	78,117
2003	37,996	47,520	85,516
2004	42,681	50,267	92,948
2005	45,155	50,775	95,930
2006	48,863	50,367	99,230

Table 2: The proportion of uncomplicated chlamydia infections diagnosed in men and women in GUM clinics in England: 1997-2006

	Percentage	
	Men	*Women*
1997	42	58
1998	43	57
1999	43	57
2000	43	57

Table 2: The proportion of uncomplicated chlamydia infections diagnosed in men and women in GUM clinics in England: 1997-2006

	Percentage	
	Men	*Women*
2001	43	57
2002	44	56
2003	44	56
2004	46	54
2005	47	53
2006	49	51

Notes:
1. The data available from the KC60 statutory returns are for diagnoses made in GUM clinics only. Diagnoses made in other clinical settings, such as general practice, are not recorded in the KC60 dataset.
2. The data available from the KC60 statutory returns are the number of diagnoses made, not the number of patients diagnosed. Individual patients may have more than one diagnosis in a year.
3. The information provided has been adjusted for missing clinic data.
4. Data are not yet available for 2007. Data are collected by calendar year.

Table 3: Number of positive chlamydia screens by sex, NSCP, 2003-07

	Unknown/ Not specified	*Male*	*Female*	*Total*
2003-04	0	157	1,599	1,756
2004-05	0	918	5,866	6,784
2005-06	0	2,023	8,980	11,003
2006-07	20	3,439	12,539	15,998
2007-08[1]	31	4,347	14,166	18,544
All years	51	10,884	43,150	54,085

[1] Data are available for the period 1 April 2007 to 31 December 2007. Data as at 27 February 2008.
Source:
The Health Protection Agency (HPA)—NCSP Core Dataset.

Table 4: Proportion of males and females who were screened and tested positive and the total number of positive chlamydia screens as part of the National Chlamydia Screening Programme: 2003-07

	Proportion (percentage) positive male	*Proportion (percentage) positive female*	*Total number positive*[6]
2003-04	9	91	1,756
2004-05	14	86	6,784
2005-06	18	82	11,003
2006-07	22	78	15,978
2007-08[2]	23	77	18,513
All years	20	80	54,034

[1] Total number screened excluding screens with sex marked as unknown, unspecified, or missing.
[2] Data are available for the period 1 April 2007 to 31 December 2007. Data as at 27 February 2008.
Notes:
1. The data from the NCSP Core Dataset are for positive chlamydia screens made outside of GUM clinics only and include positive screens made by the Boots pathfinder project.
2. The data available from the NCSP are the number of positive screens made and not the number of patients who tested positive.
3. The data include those aged 13 to 24 only.
4. The NCSP began screening on 1 April 2003.
5. The data are specific to the financial year 1 April to March: 2003-04, 2004-05, 2005-06 and 2006-07.
6. The increase in number of positive chlamydia screens each year may also be due to an increase in screening volumes.
Source:
The HPA—NCSP Core Dataset.

Chlamydia: Information Services

Anne Milton: To ask the Secretary of State for Health which national information resources on the subject of chlamydia were produced by *(a)* his Department and *(b)* his Department's arm's length bodies in each year since 1997; what the date of publication or release was of each; what the cost to the public purse of producing these resources was in each year; and if he will make a statement. [197814]

Dawn Primarolo: Expenditure since 1997 on sexual health campaigns is in the following table. It is not possible to separate resources on chlamydia specifically from the overall programme of work. This work includes prevention of sexually transmitted infections, HIV public education, contraception awareness and public helplines.

	£ million
1997-98	4.7
1998-99	4.8
1999-2000	6
2000-01	4.6
2001-02	4.6
2002-03	6.6
2003-04	6.6
2004-05	6.6
2005-06	5.12
2006-07	11.25
2007-08	[1]10.25

[1] Provisional figure.

Chlamydia: Screening

Anne Milton: To ask the Secretary of State for Health (1) when the National Chlamydia Screening programme invited feedback from local and regional networks on men's perceptions and experiences of chlamydia screening, as stated in the Health Protection Agency's "Men too... strategy"; what feedback has been received; from which networks; for how long he plans the programme of inviting feedback to continue; and if he will make a statement; [197815]

(2) what steps the National Chlamydia Screening programme is supporting at a local level to *(a)* raise men's awareness of chlamydia screening, *(b)* address men's concerns about the chlamydia screening process and *(c)* dispel misconceptions about the screening process amongst men, as described in the Health Protection Agency's "Men too... strategy"; [197816]

(3) what progress the Health Protection Agency has made in reviewing existing *(a)* practice and *(b)* evidence to determine the best ways of engaging young men in chlamydia screening, as stated in the Health Protection Agency's "Men too... strategy"; [197817]

(5) what progress the Health Protection Agency has made in developing *(a)* background information, *(b)* guidance and *(c)* a toolkit for local use, as described in the Health Protection Agency's "Men too... strategy"; when he plans each of these resources to become available; which parties the Health Protection Agency is consulting on developing the resources; and if he will make a statement; [197826]

(4) which *(a)* individuals, *(b)* organisations and *(c)* other parties the Health Protection Agency is consulting in order to further develop the steps proposed in the Health Protection Agency's "Men too... strategy"; [197818]

(6) what assessment he has made of the extent to which local NHS organisations include provision for equal access for men and women to chlamydia screening in their gender equality schemes. [198760]

Dawn Primarolo: The National Chlamydia Screening programme (NCSP) published the Men too Strategy in November 2007 in response to the variation observed

in the proportion of men screened in the local Chlamydia Screening programmes. All chlamydia screening offices (CSOs) have been made aware of the need to address the issue of equitable access to screening.

Discussions on ways to increase uptake amongst men have been undertaken at a number of region-wide chlamydia screening co-ordinator networks. Work in relation to identifying interventions supporting male engagement and the success of each activity is underway through consultation with local Chlamydia Screening programmes. This feedback will be collated to inform a working group which has been convened to advise and steer the implementation of the "Men too Strategy" later in 2008.

The working group includes representatives from the Men's Health Forum; a men's health promotion specialist from a primary care trust (PCT); a sexual health network director, who commissions and facilitates sexual health service provision; the chief executive of Brook, the young persons sexual health service; and a CSO coordinator.

Work in relation to men's perceptions and experiences has been discussed by the working group but no formal study of this has commenced yet.

Work on background information and guidance is in the early stages of development. These will be published in the form of a toolkit planned for launch in November 2008.

To date, examples of local initiatives include the Greater Manchester strategy to use sport to engage male participation in screening. In partnership with both Oldham Athletic Football Club and Oldham Rougheyeds Rugby Team, targeted sexual health education and chlamydia screening of the playing staff is being undertaken followed by a mass screening event for fans on match day. Chlamydia information and promotion of screening will be included in match day programmes for four weeks prior to the screening event.

Other relevant work includes participation in the forthcoming Men's Health Week in June 2008. This week will have a focus on the workplace and will provide an opportunity to raise awareness, address men's concerns and dispel misconceptions about the chlamydia screening process. There will also be engagement with key media organisations whose target audience is young men.

Access to screening for men is monitored quarterly by the Health Protection Agency by measuring at PCT and local programme level the proportion of screens that are taken up by men. These figures are currently fed back quarterly to the programme areas. These figures will be available on the NCSP website later this year.

Anne Milton: To ask the Secretary of State for Health what targets he expects to set for primary care trusts for chlamydia screening in 2008-09; and how much central funding was given to the NHS for chlamydia screening in each year since 1997-98. [197821]

Dawn Primarolo: In National Planning Guidance, primary care trusts (PCTs) have been asked to plan to screen 17 per cent. of their population aged 15-24 for chlamydia in 2008-09.

Funding to the national health service for chlamydia screening has been allocated as follows:

	£ million
2002-03	1.5
2003-04	4.9
2004-05	4.6
2005-06	12

From 2006-07, funding to support chlamydia screening was not allocated separately to PCTs but is contained within the mainstream revenue allocations made to PCTs. The 2006-07 and 2007-08 revenue allocations to PCTs separately identified £211 million in 2006-07 and £342 million in 2007-08, around half of the £1 billion promised to support implementation of the "Choosing Health White Paper". For the two years covered by this allocation, a total of £70 million was identified nationally to invest in chlamydia screening.

From 2008-09 this funding has been included in PCT baselines. It is the responsibility of PCTs to commission the health services they need to meet the health requirements of the local populations they serve.

Anne Milton: To ask the Secretary of State for Health what *(a)* monitoring and *(b)* evaluation of measures to support equitable access to chlamydia screening (i) his Department and (ii) the Health Protection Agency has undertaken in the last 12 months; and if he will make a statement. [197827]

Dawn Primarolo: The National Chlamydia Screening Programme is undertaking research, to explore the relationship between deprivation, screening volumes and chlamydia positivity. The work will be used to develop an evaluation process that can be used to improve equitable access to the screening programme.

Anne Milton: To ask the Secretary of State for Health what proportion of screens for chlamydia undertaken in the most recent year for which figures are available were in *(a)* men and *(b)* women, broken down by chlamydia screening programme area. [197828]

Dawn Primarolo: The National Chlamydia Screening Programme (NCSP) screens for asymptomatic chlamydia outside of genito-urinary medicine services.

Table one shows the number of chlamydia screens among those aged 13-24 years broken down by sex and programme area for England, as part of the NCSP for the period 1 April 2006 to 31March 2007. Table two shows the proportion male and female who were screened for chlamydia by programme area, among those aged 13-24 years as part of the NCSP for the period 1 April 2006 to 31 March 2007.

Table One: Number of screens by sex and NCSP programme area for the period 1 April2006 to 31 March 2007

York	30	70	3,572
Boots Pathfinder	22	78	11,729
Total	21	79	162,961

[1] Total number screened excluding screens with sex marked as unknown and unspecified.
[2] Cell sizes between 1 and 4 (and totals that would allow for them to be deduced) have been masked to prevent deductive disclosure in accordance with ONS guidelines.
Notes:
1. Data as of 27 February 2008.
2. The data from the NCSP are for screens outside of GUM clinics only and include screens from the Boots pathfinder project.
3. The data available from the NCSP are the number of screens done and not the number of patients screened. The number of screens is assumed to be a close proxy of the number of people screened.
4. The data only include those aged 13-24 years.
5. The data are for 1 April 2006 to 31 March 2007 because the NCSP receives data on a quarterly basis and follows the financial year.
6. The data provided are based on NCSP programme areas, not postcode of residence. The programme areas are geographically distinct areas formed by one or more primary care trusts and are responsible for coordinating local screening.

Chronic Fatigue Syndrome: Research

Mr. Maude: To ask the Secretary of State for Health if he will establish an independent scientific committee to oversee research into myalgic encephalomyelitis/chronic fatigue syndrome. [199903]

Ian Pearson: I have been asked to reply.

There are currently no plans to establish an independent scientific committee to oversee research into myalgic encephalomyelitis/chronic fatigue syndrome (ME/CFS). However, the Medical Research Council (MRC) is planning to set up a panel of experts from different disciplines to look more closely at the area. The panel will come from varied fields including neuroscience, immunology, toxicology and imaging, and will involve interested parties and focus on the subtypes and causes of ME/CFS.

Mr. Maude: To ask the Secretary of State for Health if he will take steps to ensure that Government funding for biomedical research on ME/CFS is equal to Government funding for psychological research on Myalgic Encephalomyelitis/Chronic Fatigue Syndrome. [199904]

Ian Pearson: I have been asked to reply.

The Medical Research Council (MRC) is committed to funding scientific research into all aspects of myalgic encephalomyelitis/chronic fatigue syndrome (ME/CFS) including evaluations of other treatments and studies into the biological and psychological basis of the condition. The amount provided by the MRC to each type of research depends on the quality and number of proposals received.

Community Hospitals: Closures

Mr. Ancram: To ask the Secretary of State for Health how many community hospitals in England have *(a)* closed and *(b)* partly closed since May 2005. [198450]

Mr. Bradshaw: Figures are not routinely collected. However, since May 2005 we have announced 23 schemes to develop or refurbish local community hospitals and services. These schemes have a total value of £272 million of which £190 million is funded from the community hospitals and services budget. These are in addition to the 158 new primary care and community facilities already delivered through the Local Improvement Finance Trust programme.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Health what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1st January 2005 to 31st December 2007; and what events he attended at each. [197161]

Mr. Bradshaw: The information requested is as follows:

Harrogate International Centre

18 October 2006—Speech to CPHVA & Amicus Mental Health Nurses Association Professional Conference

International Conference Centre, Birmingham

18 September 2007—Health Day Event

11 October 2007—Speech to NHS Employer's Annual Conference

Manchester Central

23 November 2007—Speech to NHS Alliance Annual Conference

Scottish Exhibition and Conference Centre, Glasgow

No records held.

Edinburgh International Conference Centre

No records held.

Bournemouth International Conference Centre

26 April 2006—Speech to Royal College of Nursing Congress

23 November 2006—Speech and present Awards to NHS Alliance Annual Conference

28 March 2007—Speech to MIND Annual Conference

18 October 2007—Speech to LGA/ADSS National Children and Adult Services Conference

Brighton Centre

No records held

Riviera Centre, Torquay

10 May 2006—Speech to Royal College of Midwives Annual Conference

Queen Elizabeth Centre

6 June 2006—Speech to Public Service Reform

23 October 2006—Speech to International Society for Quality Conference

Excel Conference Centre, Docklands

20 June 2007—Speech to NHS Confederation Annual Conference

22 November 2007—Speech to NHS Next Stage Review Clinical Summit

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 15 January 2008, *Official Report*, column 1179W, on the departmental intranet, whether his Department's activity on Wikipedia was in keeping with the Civil Service Code; and if he will break down the number of creations and amendments by month. [195343]

Mr. Bradshaw: The information on Wikipedia is in the public domain and could have been edited by civil servants within the Department using departmental resources up until August 2007 in either a professional or private capacity. The Department's IP address has been refused editorial rights since August 2007 in line with Wikipedia policy to block anonymous contributions to the site. Reasonable use of departmental resources for personal reasons is permitted and any activity should be in line with the general principles:

it does not break the law;

it does not risk bringing the Department into disrepute or place it in a position of liability;

it does not violate any provision set out in this or any other departmental policy, or go against the Department's standard of conduct; and

it does not cause damage or disruption to the Department's systems or business.

Using information available from the Wikipedia site, between 22 August 2005 and 3 August 2007, the number of occasions when the Department's IP address has been associated with the creation or amendment of entries on the Wikipedia site has been broken down by month in the following table:

	2005	*2006*	*2007*
January	0	19	187
February	0	27	162
March	0	61	217
April	0	60	67
May	0	33	100
June	0	21	5
July	0	67	13
August	1	122	1
September	2	138	0
October	0	154	0
November	0	233	0
December	16	95	0

The Department reaches the world wide web via the Government Secure Intranet (GSI). The internal IP address is changed on the route out. This means that external web sites and the Wikipedia site would see a centralised GSI gateway address rather than a specific individual internal personal computer (PC) IP address. Internally the IP address is set dynamically rather than being static, e.g. fixed. This means that when someone logs in, their PC is given an IP address from a central pool of any one of around 4,500 IP addresses in daily use in the Department. To collect the information about who edited the Wikipedia site and for what purpose on the approximate 1,800 occasions reported by the Wikipedia site reporting tool would incur disproportionate cost.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Health how much his Department spent on publicity and advertising in 2007-08. [198986]

Mr. Bradshaw: The following table outlines cost of departmental spending on publicity and advertising during 2007-08.

Departmental spending on publicity and advertising, 2007-08

	£ million
Tobacco control	19.0
Tobacco legislation	8.7
Sexual health[1]	6.9
Drugs prevention[2]	2.0
Alcohol[3]	1.3
Hepatitis C	2.1
Flu immunisation	1.4
Social work/care	3.1
Keep warm, keep well[4]	0.5
Maternal and infant nutrition	1.2
Respiratory and hand hygiene	0.8
NHS Direct	4.0
Antibiotics	0.6
5 A DAY	1.3
NHS Injury Benefits Scheme	0.4
Total	50.3

[1] Including the Department for Health's (DH) contribution to joint campaign with the Department for Children, Schools and Families.
[2] DH's contribution to joint campaign with the Home Office and the Department for Children, Schools and Families.
[3] DH's contribution to joint campaign with the Home Office.
[4] DH's contribution to cross-government campaign.

Departmental Public Expenditure

Bob Spink: To ask the Secretary of State for Health whether consideration has been given to applying gender responsive budgeting to his Department's budget. [192115]

Mr. Bradshaw: The United Kingdom Government are supportive of efforts to achieve gender equality and continue to work very closely with both the Women's National Commission and the Women's Budget Group on promoting gender equality within the UK.

In 2004, HM Treasury undertook a pilot project on gender analysis of expenditure with the Women's Budget Group. The project demonstrated the value of gender analysis in some areas and identified what tools and expertise were necessary within Government to carry out gender analysis, but concluded that further work was needed before gender responsive budgeting could be implemented.

In 2008, HM Treasury will be conducting further work that will determine whether it is prudent and feasible to disaggregate departmental expenditure statistics by gender.

The Department is committed to creating a patient-centred health service that extends choice and is responsive to all patients and users, in particular ensuring that any gender inequalities in treatment and access are eliminated.

The weighted capitation formula used to determine primary care trusts' (PCTs) target share of available resources is designed to enable them to commission similar levels of health care for populations in similar need. To determine the relevant population for each PCT, factors including gender are considered. In addition, the prescribing and primary medical services components of the formula take into account gender in determining the need for these services.

To support the national health service in taking forward gender equality legislation, the Department published guidance in March 2007—'Creating a Gender Equality Scheme: A practical guide for the NHS'—to ensure that all NHS organisations understand their responsibilities. Similar guidance on transgender issues—'Transgender: A practical guide for the NHS'—is planned for publication in April 2008.

In addition, the Department has commissioned the Men's Health Forum to conduct a review of the different ways women and men access health services. This review will provide evidence to help determine key gender health priorities for the Department and the NHS. The Department is also in the process of appointing a 'gender champion' to promote gender equality in the NHS.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Health what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196750]

Mr. Bradshaw: The 'Civil Service Code', the 'Civil Service Management Code' and 'Propriety Guidance on Government Communications' all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these publications are in the Library and are also available on the Cabinet Office website at:

www.cabinetoffice.gov.uk/

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Health how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197063]

Mr. Bradshaw: The following table shows the numbers of departmental staff attending the courses enquired about in 2007-08 and the costs incurred.

Course title	*Number of departmental staff attending*	*Cost (£)*
Influencing with Integrity	0	0.00
Emotional Intelligence	0	0.00
Counselling Skills for the Workplace	0	0.00
Managing your Confidence	2	2,298.00
Balancing Work/Life Realities	1	1,080.00
Working Assertively	5	3,630.00

A total of eight courses were attended by department staff at a cost of £7,008.00.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Health if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195871]

Mr. Bradshaw: The Department is committed to achieving the carbon reduction targets for the Government estate, published in June 2006. We encourage all our staff to use video conferencing where possible, to avoid the need for official travel. We have steadily increased our use of video conferencing, from a total of 6,679 conferences in 2004, to 10,526 in 2007, a 57 per cent. increase. We anticipate that usage in 2008 will be around 11,500, and we have plans to install a further 10 video conferencing suites in the coming months, to meet demand.

We have estimated that approximately 776 tonnes of CO_2 will be saved in 2008 as a result of holding video conferences instead of requiring staff to travel to meetings.

Across the departmental estate, there are currently 36 video conference units. In May 2008, a further 11 units will be deployed in London and there are plans to increase the number in Leeds to accommodate the rise in London estate numbers.

We have made significant use of video conferencing for over 10 years and we continually review the number of systems and bandwidth needed, to meet both business requirements and the sustainable development agenda.

Dieticians: Prescriptions

Mrs. Ellman: To ask the Secretary of State for Health when his Department's non-medical prescribing board last considered a business case for dieticians to become supplementary or independent prescribers. [199309]

Dawn Primarolo: The Department's Non-Medical Prescribing Programme Board has not received a business case for dieticians to become supplementary prescribers or independent prescribers.

Drugs: Finance

Mr. Lansley: To ask the Secretary of State for Health how much a general practice is paid per patient per year for the management of a patient who is stable on warfarin; and how much is payable under the tariff to an NHS trust for the same service. [198507]

Mr. Bradshaw: Specific services provided in general practice for patients on Warfarin, are commissioned locally. Payments are agreed locally between the primary care trust and the practice.

There is no specific inpatient, or out-patient tariff relating to the management of a patient who is stable on Warfarin.

Mr. Lansley: To ask the Secretary of State for Health how many patients were transferred from secondary to primary care for their management on warfarin in the most recent period for which figures are available; and what evaluation has taken place of the implications of this for patients. [198508]

Ann Keen: This information is not held centrally. It is for local NHS providers to decide how to deliver services to patients.

Eyesight: Testing

Anne Milton: To ask the Secretary of State for Health what recent discussions he has had with the Secretary of State for Work and Pensions on notifying pensioners of their entitlement to an NHS sight test; and if he will make a statement. [199499]

Ann Keen: The Department has held no recent discussions with the Secretary of State for Work and Pensions on notifying pensioners of their entitlement to national health service funded sight tests.

Family Practioner Services: Westminster Primary Care Trust

Andrew Mackinlay: To ask the Secretary of State for Health which GP practices are funded by Westminster primary care trust; and what the location of each is. [196364]

Mr. Bradshaw *[holding answer 25 March 2008]:* The information requested about general practitioners (GP) practices funded by Westminster primary care trust (PCT) is not held centrally.

However, information about GP practices located in the Westminster PCT area is available on the Department's National Health Service Choices website, and is provided as follows:

List of GP practices located in the Westminster PCT area

Name of doctor/GP practice	*Address*
Ahmed (N)	Dart Street, W10 4LD
Atkinson (FG)	22 Woods Mews, W1K 7DS
Bayswater Medical Centre	46 Craven Road, W2 3QA

Fractures: Databases

John Austin: To ask the Secretary of State for Health whether the national hip fracture database is to be implemented by all health trusts. [198338]

Mr. Ivan Lewis: The National Hip Fracture Database was established in 2007 by the British Geriatric Society and the British Orthopaedic Association. It is a matter for individual national health service trusts to decide whether they wish to be registered on the database.

Health Services: Complaints

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 5 February 2008, *Official Report*, columns 1072-3W, on health services: complaints, if he will break down the number of complaints by category in each year. [188359]

Mr. Bradshaw: We understand that the Healthcare Commission uses over 100 categories to classify complaints. Information on the broad categories of issues raised in complaints upheld by the Commission is set out in the following table. As many of the complaints referred to the Commission raise more than one issue, the total number of issues is greater than the number of complaints upheld.

	2004-05	*2005-06*	*2006-07*	*2007-08*
Total number of complaints upheld	11	395	1,462	2,734
Issues raised in upheld complaints				
Access to services	4	104	230	792
Complaints handling	6	115	333	1,580
Compliance with core standards	1	66	164	175
Patient experience (including hygiene)	9	372	1,053	1,668
Safety/effectiveness of care and essence of care	4	381	1,351	3,918
Other	2	139	582	414

Number of upheld complaints raising issue by year closed

Health Services: Males

Anne Milton: To ask the Secretary of State for Health how *(a)* his Department and *(b)* the Health Protection Agency plans to monitor progress against the Health Protection Agency's Men too... strategy. [197824]

Dawn Primarolo: The Department monitors delivery of the objectives of the National Chlamydia Screening Programme (NCSP) through a service level agreement with the Health Protection Agency. The NCSP will monitor progress against the 'Men too...' strategy through routine quarterly analysis of disaggregate data, which will be published on the website and in the annual report. Progress on individual elements of the strategy will be monitored by the NCSP programme board.

Health Services: Overview and Scrutiny Committees

Mr. Gordon Prentice: To ask the Secretary of State for Health if he will make it his policy to allow the representation of district councils on county and unitary health overview and scrutiny committees. [198585]

Ann Keen: District councils may participate in health scrutiny in a variety of ways. Although district councils do not have the powers to review and scrutinise health services, there are opportunities for them to become involved in joint committees through co-option and to have the functions delegated to them.

Joint committees may be established by two or more local authorities (LAs) including two-tier district councils for both a specific scrutiny review, and for on-going scrutiny planning and review.

County councils may co-opt members of overview and scrutiny committees from district councils to participate as full members of the county overview and scrutiny committee considering health services. Councillors who are members of a district council executive are, by definition, not scrutiny members and therefore cannot be co-opted onto the county council health overview and scrutiny committee, nor can district councillors who are not members of an overview and scrutiny committee. Councillors who fall into these categories and who may have a role to play in a scrutiny process may participate in other ways, for example by providing information to the committee or attending as an expert witness.

A LA may also arrange for its overview and scrutiny functions to be undertaken by a committee from another LA. The regulations enable the delegation of scrutiny functions between LAs including from county council to district council overview and scrutiny committees. When delegation takes place, the full powers of overview and scrutiny of health services are given to the delegated committee but only in relation to the specific delegated function.

Further information and guidance is provided in "Overview and Scrutiny of Health Guidance—July 2003", copies of the guidance are available in the Library.

Health Services: Regulation

David Taylor: To ask the Secretary of State for Health how much time members of the new strategic boards proposed for professional healthcare regulatory bodies will be expected to commit each year; and how many times he expects each such board to meet in each year. [196805]

Mr. Bradshaw: The detailed arrangements for the number of times boards will meet and the time commitments of board members is a matter for the individual regulatory bodies. However, the White Paper, "Trust, Assurance, Safety—The Regulation of Healthcare Professionals in the 21st Century" does set out the expectation that councils will be more board-like and strategic. The regulators will want to take this into account when making their decisions and will also want to consider the recommendations in Niall Dickson's report "Enhancing Confidence in Healthcare Professional Regulation" when it is published.

David Taylor: To ask the Secretary of State for Health what *(a)* skills, *(b)* competences and *(c)* experience candidates for (i) professional and (ii) lay membership of the councils of professional healthcare bodies will be required to demonstrate before appointment. [196806]

Mr. Bradshaw: This is a matter for discussion between the Appointments Commission and the relevant professional regulatory bodies. However, they will wish to take into account the recommendations in Niall Dickson's report "Enhancing Confidence in Healthcare Professional Regulation", when it is published.

David Taylor: To ask the Secretary of State for Health if he will consider introducing a requirement for professional applicants to council of professional health regulatory bodies to demonstrate a capacity to express in plain English technical information for use by the public. [196850]

Mr. Bradshaw: The councils of professional health regulatory bodies will of course want to ensure that technical information that is written for public consumption is clear and understandable. However, the approach to achieving this is a matter for the regulators themselves.

Health Services: West Sussex

Mr. Maude: To ask the Secretary of State for Health pursuant to the Answer of 29 January 2008, *Official Report*, column 339W, on health services: West Sussex, if he will define his use of the term viable option. [199945]

Dawn Primarolo: As stated in the answer I gave the right hon. Member on 29 January 2008, proposals for the reconfiguration of services are a matter for the national health service locally, working in conjunction with clinicians, patients and other stakeholders.

The hon. Member may therefore wish to raise this issue further with either the chief executive of West Sussex primary care trust, or the chief executive of South East Coast strategic health authority.

Health Visitors: Manpower

Mr. Rooney: To ask the Secretary of State for Health how many health visitors were in post in each primary care trust in *(a)* 2001, *(b)* 2005 and *(c)* 2007. [199317]

Mr. Bradshaw: Tables showing the number of health visitors in post in each primary care trust in England in 2001, 2005 and 2007 have been placed in the Library.

Healthcare Commission: Complaints

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the *(a)* mean, *(b)* median and *(c)* range of time taken was by the Healthcare Commission to categorise complaints in each year from August 2004; and how many (i) categorised and (ii) un-categorised complaints are outstanding. [200134]

Mr. Bradshaw: I understand from the Healthcare Commission that the information is not available in the form requested and that categorisation of complaints can happen at a variety of stages during the review process. The Commission records information on the average length of time taken to carry out and complete independent reviews and on the age profile of cases.

In April 2007, the average time to complete an independent review was 5.7 months and there were 3,060 open cases. Of those cases 429 were over 12 months old, 927 were between six and 12 months old. At the end of 2007-08, the average time to complete an independent review was 2.8 months and there were 1,474 open cases. Of those cases 13 were over 12 months old; fewer than 160 were between six and 12 months old.

HIV Infection

Mr. Drew: To ask the Secretary of State for Health how many new HIV/AIDS cases there were in each of the last three years, broken down by *(a)* primary care trust and *(b)* age group. [198721]

Dawn Primarolo: The information requested has been placed in the Library.

HIV Infection: Medical Treatments

Sandra Gidley: To ask the Secretary of State for Health how much was spent on anti-retroviral therapy in each of the last five years, broken down by trust. [197855]

Dawn Primarolo: These data are not held centrally.

Hospitals: Drugs

John Mann: To ask the Secretary of State for Health on how many occasions illegal drugs were seized in hospitals in 2007. [197414]

Mr. Coaker: I have been asked to reply.

The information requested is not collected centrally. The Home Office collects and publishes statistics on drug seizures by the police and HM Revenue and Customs in England and Wales, but they do not identify drug seizures in hospitals. The Home Office's most recent publication was "Seizures of Drugs in England and Wales 2005", published in October 2007 and available at:

www.homeoffice.gov.uk/rds/pdfs07/hosb1707.pdf

Hospitals: Infectious Diseases

Mr. Gray: To ask the Secretary of State for Health how many deaths there were in *(a)* Great Western Hospital, Swindon, *(b)* Royal United Hospital, Bath and *(c)* Chippenham Community Hospital wholly or partly attributed to (i) clostridium difficile, (ii) MRSA and (iii) other hospital acquired infections in each of the last five years. [199433]

Edward Miliband: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician I have been asked to reply to your recent question asking how many deaths there were in *(a)* Great Western Hospital, Swindon, *(b)* Royal United Hospital, Bath and *(c)* Chippenham Community Hospital wholly or partly attributed to (i) clostridium difficile and (ii) MRSA or other hospital acquired infections in each of the last five years. (199433)

Special analyses of deaths involving *Clostridium difficile* and MRSA in England and Wales are undertaken annually by ONS. The latest year for which figures are available is 2006. Information on the numbers of deaths between 2001 and 2006 involving *Clostridium difficile* and MRSA were published in *Health Statistics Quarterly* in February 2008.[1,2] This publication is available in the House of Commons Library.

ONS has not yet released any figures on deaths involving *Clostridium difficile* or MRSA for individual hospitals. The possibility of producing figures for hospitals in the future is currently being investigated.

[1] Office for National Statistics (2008) Report: deaths involving *Clostridium difficile*: England and Wales, 1999-2006. *Health Statistics Quarterly* 37, 52-56.

[2] Office for National Statistics (2008) Report; Deaths involving MRSA: England and Wales, 1993-2006. *Health Statistics Quarterly* 37,57-62

Hospitals: Lancashire

Mr. Gordon Prentice: To ask the Secretary of State for Health how much the most recent re-configuration of hospital services in East Lancashire has cost. [198584]

Ann Keen: Proposals for changes to services are a matter for the national health service locally. The information requested is not held centrally.

Huntingtons Chorea

Dr. Kumar: To ask the Secretary of State for Health (1) what estimate his Department has made of the number of people diagnosed with Huntington's disease in *(a)* England, *(b)* the north-east, *(c)* Tees Valley district and *(d)* Middlesbrough South and East Cleveland constituency; [195552]

(2) what estimate his Department has made of the number of people diagnosed with Parkinson's disease in *(a)* England, *(b)* the north-east, *(c)* Tees Valley district and *(d)* Middlesbrough South and East Cleveland constituency. [195553]

Ann Keen: The Department has made no estimate of the number of people living with Parkinson's and Huntington's diseases. However, figures quoted in the National Service Framework for Long-term Conditions estimated that 120,000 people in the United Kingdom live with Parkinson's disease, and 6,000 to 10,000 with Huntington's disease.

Incontinence: Medical Equipment

Harry Cohen: To ask the Secretary of State for Health (1) what assessment he has made of the effect on the ability of users of Part IX catheters, appliances and related services to self-care under the proposed changes to the arrangements under Part IX of the Drug Tariff; [199070]

(2) if he will ensure that the forthcoming consultation document on Part IX of the Drug Tariff will be constructed in a user-friendly format. [199072]

Dawn Primarolo: The review of the arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—in primary care aims to maintain and, where appropriate, improve patient care.

A further consultation is due to be published in May 2008, together with an impact assessment and equality impact assessment.

It is intended that the May consultation should be constructed in a user-friendly format.

Influenza

Dr. Murrison: To ask the Secretary of State for Health what discussions his Department has had with pharmaceutical companies on the continuity of product supply in the event of an influenza pandemic in the last 12 months; what the content of those discussions was; and if he will make a statement. [199090]

Dawn Primarolo: I refer the hon. Member to the statement made by my right hon. Friend, the Secretary of State, on 22 November 2007, *Official Report*, column 1350, outlining the measures to prepare the country for the event of an influenza pandemic including publication of Pandemic flu: A national framework for responding to an influenza pandemic and supporting guidance. A major work programme is underway in the Department to develop preparedness including our plans to increase the stockpiles of antivirals and to build a stockpile of antibiotics. We also launched a consultation on possible changes to legislation to maintain access to medicines during a pandemic. The response to the consultation will be published shortly.

In developing our plans we have engaged with the pharmaceutical industry including representatives from the Association of British Pharmaceutical Industries, the British Generic Manufacturers Association and the British Association of Pharmaceutical Wholesalers who sit on our external reference group for pandemic influenza pharmacy and prescribing.

We have also canvassed the pharmaceutical industry via their associations on companies' own preparedness plans to maintain supply in the event of a pandemic.

We have also undertaken a simulation exercise on the potential impact of a pandemic on the medicines and healthcare products supply chain. Representatives from these groups, along with pharmacy service providers and healthcare professionals took part in the exercise.

Dr. Murrison: To ask the Secretary of State for Health (1) which groups are to be offered pandemic influenza vaccination in the event of an influenza pandemic, in order of priority; and if he will make a statement; [199091]

(2) pursuant to his statement of 22 November 2007, *Official Report*, column 1351, on pandemic influenza, what proportion of the additional £10 million funding allocated this year to assist the national health service in developing its pandemic influenza contingency plans has been spent; for what purposes this funding was intended; and if he will make a statement; [199243]

(3) what progress has been made in procuring a stockpile of *(a)* additional anti-virals, *(b)* antibiotics, *(c)* disposal respirators and *(d)* face-masks for use in the event of an influenza pandemic; and if he will make a statement; [199244]

(4) pursuant to the answer of 5 February 2008, *Official Report*, column 1078W, on influenza, what appropriate *(a)* counter-measures and *(b)* information he is considering in order to protect staff during an influenza pandemic; and if he will make a statement. [199245]

Dawn Primarolo: The business cases for the procurement of the clinical countermeasures, particularly of the likely clinical impact of the products, the relevant market conditions and the economic issues, are currently under discussion within the Department of Health and with HM Treasury.

The oral statement given on 22 November 2007 recognised that we would need to ensure that value for money was balanced with the need to be certain that the United Kingdom is properly prepared.

The current stockpile of H5N1 vaccine has been purchased specifically for the protection of health care workers. Specific information for employees of the health service was issued for consultation in November 2007 and those responses are now being considered with a view to providing final guidance. A range of other pieces of guidance, particularly those relating to infection control procedures are also available on this Department's website at:

www.dh.gov.uk/en/Publichealth/Flu/PandemicFlu/index.htm

In the event of an influenza pandemic, we aim to treat anyone who shows symptoms of the influenza virus irrespective of their profession. If it becomes necessary to prioritise the influenza vaccine, that decision will have to be made in light of the available evidence at the time.

We have provided funds of £10 million to assist the national health service in developing their pandemic flu contingency plans. While we have provided these funds, it is for strategic health authorities to decide how best to allocate this funding to support pandemic planning in the light of local circumstances.

Dr. Murrison: To ask the Secretary of State for Health pursuant to the answer of 9 January 2008, *Official Report*, column 596W, on influenza, with which *(a)* public and *(b)* private sector bodies the Government have met at (i) the Business Forum and (ii) other ad hoc meetings to review the development of plans and disseminate good practice in the last 12 months; if he will provide details of the good practice being disseminated to these bodies; and if he will make a statement. [199238]

Dawn Primarolo: The Business Forum for pandemic influenza was formed by representatives of different business sectors, covering most areas of the Critical National Infrastructure. It has now been superseded by the Business Advisory Group on Civil Protection (BAGCP). This group works to support an open, constructive and representative relationship between Government and business in the area of civil protection as a whole, ensuring that business plays its part in identifying and managing the risk of emergencies, and maintaining world-class capabilities to respond to and recover from a wide range of emergencies. Information on the membership of BAGCP and issues considered can be found at:

www.preparingforemergencies.gov.uk/business/bagcp.shtm

To facilitate sectoral planning central Government Departments have issued best practice pandemic flu guidance and regularly meet with stakeholders to update them on the emerging situation and to provide advice. Sector specific pandemic flu guidance is available from the Cabinet Office UK resilience website at:

www.ukresilience.info/pandemicflu/guidance.aspx

Dr. Murrison: To ask the Secretary of State for Health pursuant to the answer of 9 January 2008, *Official Report*, column 593W, on influenza, what progress has been made in testing the public's reactions to many issues in pandemic planning and decision-making; on what issues the reaction of the public is being tested; in what ways the reaction of the public is being tested; and if he will make a statement. [199240]

Dawn Primarolo: A public engagement programme started in January 2008. It was aimed at testing a range of pandemic planning issues and anticipating the public's likely response, as a means of informing communications strategies and the future implementation of the 'National framework for responding to an influenza pandemic'.

A range of scenarios were developed based on the major dimensions of uncertainty and impact relating to a pandemic. The qualitative research consisted of one day workshops in each of the four countries within the United Kingdom. 40 members of the public attended each event, split into groups of mixed age, gender and socio-economic group. In addition, 11 in-depth interviews were undertaken in relation to hard to reach and vulnerable groups.

The detailed research findings are currently being analysed and will be used to inform detailed pandemic planning.

Dr. Murrison: To ask the Secretary of State for Health pursuant to the answer of 5 February 2008, *Official Report*, column 1078W, on influenza, when he expects the audit of NHS preparedness to conclude; whether any findings have resulted from the audit to date; and if he will make a statement. [199246]

Dawn Primarolo: We expect the self-assessment audit to be concluded by June 2008. The responses to the audit are currently being reviewed.

Karian and Box

Mr. Hands: To ask the Secretary of State for Health what the value was of each contract awarded by his Department to Karian and Box since 1997. [199645]

Mr. Bradshaw: The Department has not awarded any contracts to Karian and Box.

Lloyds Pharmacy: Finance

David T.C. Davies: To ask the Secretary of State for Health how much his Department paid to Lloyds Pharmacy in each year since 1997; and what the purpose of each such payment was. [199687]

Mr. Bradshaw: The Department's financial records only go back to April 2001 and they show that no payments have been made to Lloyds Pharmacy for the period April 2001 to March 2008.

Meat Hygiene Service

Mr. Drew: To ask the Secretary of State for Health what assessment he has made of the likely impact of recent changes in the Meat Hygiene Service, with particular reference to the number of abattoirs. [198717]

Dawn Primarolo: Following a detailed review of the delivery of official controls in approved meat plants, including slaughterhouses, the Food Standards Agency Board decided last July that continuance of the level of subsidy paid to industry into the future was unsustainable, and the Meat Hygiene Service (MHS) should seek to recover an increasing proportion of those costs through industry charges. At the same time, the MHS would be expected to become a more efficient organisation that will carry out its role at less cost.

Through a programme of transformation, the cost base of the MHS is being reduced from £91.3 million in 2006-07 to £75 million in 2011-12 in real terms in order to reduce the burden on industry as charge rates to businesses are increased. A new approach to charging is being developed with key stakeholders, including industry, and is taking into consideration that small and geographically isolated abattoirs may need some continuing support. Proposals for the new charging system will be subject to full public consultation, which will include a regulatory impact assessment.

Meat: Labelling

Mr. Drew: To ask the Secretary of State for Health what plans he has to amend guidance on country of origin meat labelling. [198718]

Dawn Primarolo: Beef, veal and poultry meat (imported from outside the European Commission) must provide mandatory origin labelling. The Food Standards Agency has issued best practice guidance on the general provision of origin information that also covers other meats. This guidance is currently under revision, however, no changes are envisaged for the labelling of meat.

Medical Equipment: Public Participation

Anne Main: To ask the Secretary of State for Health what reports he has received on the pilots of the community equipment retail model; what plans his Department has to extend the pilots; and if he will make a statement. [198726]

Mr. Ivan Lewis: The transforming community equipment programme is currently preparing an evaluation report on the shadow running exercise for the community equipment retail model. It is expected that the evaluation report will be provided to Ministers in late spring.

One of the outputs from testing and validating an operational model through shadow running has been the creation of comprehensive implementation tools and materials. These are currently being tested by the latest sites participating in shadow running.

Currently there is no plan to extend shadow running. It will be a local decision whether the retail model is implemented.

NHS

Sandra Gidley: To ask the Secretary of State for Health in how many locations the NHS has offices outside the United Kingdom. [198212]

Dawn Primarolo: The NHS European office in Brussels is the only office located outside of the United Kingdom.

NHS Direct

Mr. David Anderson: To ask the Secretary of State for Health if he will ensure that NHS Direct remains a nurse-led organisation. [197381]

Mr. Bradshaw: Nurses carry out an important role in NHS Direct in assessing patients needs and, where appropriate, advising on self-care. Trained health advisors also have a role to play carrying out an initial assessment of patients' needs and referring callers to nurse colleagues, other health services or giving out health information. It is important that NHS Direct has the right skill-mix to deal with a variety of health calls and so nurses will continue to be a crucial part of the organisation.

NHS: Belgium

Sandra Gidley: To ask the Secretary of State for Health how many staff are employed in NHS offices in Brussels. [198211]

Dawn Primarolo: There are currently four staff employed in the NHS European office in Brussels and one staff member based in London.

Sandra Gidley: To ask the Secretary of State for Health what the *(a)* functions and *(b)* objectives are of the NHS office in Brussels; and if he will make a statement. [198213]

Dawn Primarolo: The NHS European office is part of the NHS confederation, more information about its functions and objectives can be found at the NHS European office's website at:

www.nhsconfed.org/euunit/Index.cfm

NHS: Dental Services

Mr. Ancram: To ask the Secretary of State for Health how many NHS dentists there are per head of the population in each English county. [198449]

Ann Keen: The numbers of national health service dentists per 100,000 of the population are available in Table E1 of Annex 3 of the NHS Dental Statistics for England: 2006-07 report. Information is available by primary care trust and by strategic health authority, but is not available at county level, and is as at 30 June 2006, 30 September 2006, 31 December 2006 and 31 March 2007.

This report, published by the Information Centre for health and social care on 23 August 2007, is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607

NHS: Drugs

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 25 March 2008, *Official Report*, columns 23-24W, on the NHS: drugs, what proportion of the profit margin achieved by pharmacy contractors was attributable to the reimbursement of category M medicines expenditure in *(a)* 2005-06 and *(b)* 2006-07. [199819]

Dawn Primarolo: According to the October 2005 and February 2006 invoice surveys, 94 per cent. of the total profit in 2005-06 came from drugs in Category M. Based on the April, July, October 2006 and January 2007 invoice surveys, this proportion is 89 per cent. These percentages use those sampled drugs actually in Category M in each month, which vary slightly between surveys.

NHS: Fees and Charges

Sir Peter Soulsby: To ask the Secretary of State for Health (1) what the estimated value is of HC2 and HC3 certificates issued between 2000-01 and 2006-07 to *(a)* students and *(b)* people aged under 25 years; [197375]

(2) how many people who applied for health cost exemptions with an HC1 form who received neither an HC2 or HC3 certificate between 2000-01 and 2006-07 were *(a)* students and *(b)* people aged under 25 years. [197376]

Dawn Primarolo: Information is not available about the value of National Health Service Low Income Scheme certificates HC2 and HC3. It is not possible to collect data about how an individual uses their certificate.

Information is not available about the number of students or people aged less than 25 who make an HC1 claim and did not receive a certificate HC2 or HC3.

People who apply on an HC1 may not receive either a HC2 or HC3 for three main reasons. They may fail to respond to requests for further information to enable an accurate assessment to proceed, they might have capital over the maximum limit or they may already be exempt on other grounds, for example, because they are in receipt of income support.

Sir Peter Soulsby: To ask the Secretary of State for Health (1) what the total annual administrative cost was of *(a)* the NHS Low Income Scheme, *(b)* processing HC1 forms and *(c)* issuing HC2 or HC3 certificates in the latest period for which figures are available; [197377]

(2) what the average administrative cost was of *(a)* processing an HC1 form and *(b)* issuing an HC2 or HC3 certificate in the latest period for which figures are available. [197378]

Dawn Primarolo: The Prescription Pricing Division of the National Health Service Business Service Authority has advised us that the overall cost of the administration of the NHS low income scheme for England, Scotland and Wales was £3.6 million for 2006-07. In that period, the average administrative cost, from receipt of an HC1 form, through to the issuing of an HC2 or HC3 certificate was £7.65. This also included the cost of issuing HC4 letters for those claimants not entitled to help with their health costs because their capital is in excess of the upper limit and LIS08 letters to claimants already entitled to full help with health costs, for example, because they receive income support. It is not possible to break this figure down further.

NHS: Finance

Harry Cohen: To ask the Secretary of State for Health what consideration has been given to the application for long-term funding made by developing patient partnerships; and if he will make a statement. [177047]

Ann Keen: The Department has supported Developing Patient Partnerships (DPP) through two Section 64 specific grants since April 2003. The latest grant covering 2006-08 was conditional on the basis that DPP worked towards self-sufficiency from April 2008 by increasing their subscriber base.

Norman Lamb: To ask the Secretary of State for Health when the NHS programme budgeting and marginal analysis data will be made publicly available. [197965]

Mr. Bradshaw: Programme budgeting expenditure data for the financial years 2003-04, 2004-05, 2005-06 and 2006-07 are publicly available on the Department's website at:

www.dh.gov.uk/en/Managingyourorganisation/Financeandplanning/Programmebudgeting/DH_075743.

The NHS Institute for Innovation and Improvement has recently funded research into the practicalities of undertaking marginal analysis at three national health service sites. This work will inform how both the NHS Institute and the Department advises NHS organisations in their use of Programme Budgeting. The results of this work are currently being written up, with publication in a peer-reviewed journal planned for summer 2008.

To comply with the National Statistics Code of Practice and the Protocol on Data Access and Confidentiality, the Programme Budgeting Atlas, which is hosted by the National Centre for Health Outcomes Development is not publicly available. Some of the statistics contained within the atlases are based on very small numbers of events and may, therefore, have the potential to identify individuals.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many local service provider deployments *(a)* of acute departmental systems, (i) in emergency care (ii) in mental health and (iii) in primary care, *(b)* of picture archiving and communications systems and *(c)* of map of medicine and portals have been made, broken down by (A) local service provider, (B) trust, (C) hospital and (D) practice. [195829]

Mr. Bradshaw: The information requested is provided in the following table. No information is held about 'portals'.

Deployment of departmental systems

Local service provider	*Care setting*	*Number of departmental systems*
BT	Acute Trust	63
	Ambulance Trust	1
	General practitioner (GP)	1,702
	Mental Health Trust	10
	Primary Care Trust (PCT)	63
BT total		1,839
CSC Alliance	Acute Trust	87
	Ambulance Trust	5
	GP	1,135
	Mental Health Trust	14
	PCT	129
CSC Alliance total		1,370
Fujitsu	Acute Trust	50
	Ambulance Trust	3
	Mental Health Trust	7
	PCT	40
Fujitsu total		100
Grand total		3,309

Mr. Redwood: To ask the Secretary of State for Health how much was allocated for NHS IT projects since 2005; and how much he expects to allocate in each year until 2010. [200106]

Mr. Bradshaw: I refer the hon. Member to the reply given to the hon. Member for Eddisbury (Mr. O'Brien) on 7 January 2008, *Official Report*, columns 123-24W.

National health service organisations have always been responsible for paying for and maintaining their existing information systems, and funding for this is built into general allocations. Information technology expenditure reported by the NHS in the 2005-06 financial year amounted to £1.329 billion, and in 2006-07 to £1.381 billion.

Mr. Redwood: To ask the Secretary of State for Health what *(a)* linkages and *(b)* cross checks are planned between data records on individuals in (i) NHS IT systems and (ii) other Government IT systems. [200107]

Mr. Bradshaw: In accordance with the national health service care record guarantee and legal obligations of confidentiality, links will be made only with the consent of patients, or where there is a statutory obligation. A recent example of the latter is the Children Act 2004 which provides for the mandatory disclosure of some NHS patient information to the Department of Children, Schools and Family's ContactPoint system.

The strategy that underpins the national programme for information technology also envisaged that there would be appropriate integration of care records with social care where necessary for the care of patients. Until now, this has concentrated on close working to achieve a single assessment process between the NHS and social care with cross checks to agree the accuracy. Future linkages will be subject to feasibility work and agreements.

Other linkages exist for the purposes of care with the Ministry of Defence for the treatment of armed forces personnel and with the Ministry of Justice for the provision of health care for prisoners. In both cases, there are no plans to link NHS patient records, or perform cross-checks, with records in other Government information technology systems for non-care purposes.

NHS: Internet

Mr. Ellwood: To ask the Secretary of State for Health what his policy is on the making of contributions to Wikipedia pages related to the NHS by *(a)* administrative, *(b)* medical, *(c)* nursing and *(d)* other NHS staff; what guidance he has issued to health authorities and trusts on the allocation of resources to this work; what estimate he has made of the cost to the public purse in each of the last three years of time spent by NHS staff in contributing to Wikipedia online pages; and if he will make a statement. [195554]

Mr. Bradshaw: The only policies covering the creation or editing of information in the public domain applicable to departmental or national health service staff relate to acceptable use of resources and the code of conduct for staff. These policies apply to all grades, roles and professions and there has been no specific guidance issued relating to Wikipedia.

Organisations within the NHS operate their own local information technology systems but connect to the world wide web in the main via the centrally managed N3 communications network. The internal IP address is changed on the route out. This means that external web sites and the Wikipedia site would see one of a range of centralised gateway addresses rather than a specific individual internal personal computer IP address. Wikipedia has adopted the policy since August 2007 that no contribution is accepted from a source that cannot be attributed to an individual.

The reporting tool within Wikipedia shows only one document that has been edited using an IP address originating from the N3 network in the reporting period available. The cost to the public purse based on this information cannot be accurately quantified but is estimated to be less than £100.

NHS: Private Finance Initiative

Mr. Caton: To ask the Secretary of State for Health whether any private finance initiative schemes in the NHS have been included in portfolios held in off-shore tax havens. [199516]

Mr. Bradshaw: Information on where project companies delivering services to national health service trusts under private finance initiative contracts are registered for tax purposes is not held centrally and could be obtained only at disproportionate cost.

NHS: Private Sector

Harry Cohen: To ask the Secretary of State for Health what estimate he has made of the comparative cost of outsourced *(a)* diagnostics and *(b)* operations in comparison to undertaking such procedures in-house in NHS trusts in 2006-07; and if he will make a statement. [198110]

Mr. Bradshaw: No estimate is available of the comparative cost of outsourced diagnostics and operations, and those undertaken in national health service trusts in 2006-07.

However, the 2006-07 "NHS reference costs" schedules, published in February 2008, contain information on the average cost of services delivered by NHS hospitals. The reference cost schedules also contain data relating to the average price to NHS organisations of a range of commissioned or contracted-out procedures undertaken by non-NHS providers. This information is available in the Library and is also available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_082571

Obesity

Mr. Kemp: To ask the Secretary of State for Health what estimate he has made of the proportion of the population of *(a)* England and (b) Sunderland that is clinically obese. [198488]

Dawn Primarolo: The information requested is not available in the exact format requested.

Information on the proportion of adults aged over 16 years in England that are obese, broken down by Government Office Region and strategic health authority is collected in the Health Survey for England.

This information can be found in Health Survey for England 2006: Volume 1 'Cardiovascular disease and risk factors in adults' Tables 5.2 and 5.3 on pages 98 and 99 which was published on 31January 2008. This publication is available in the Library.

Estimated prevalence of obesity among adults aged 16 and over, along with associated confidence intervals for Sunderland local authority are presented in Table one. These estimates are taken from Model-Based Estimates of Healthy Lifestyle Behaviours, and are for combined years 2003-05. The proportion of people who are obese in Sunderland was found to be statistically significantly higher than the national estimate.

Model-Based estimates of obesity prevalence, Sunderland local authority 2003-05

	Percentages
Estimated prevalence of obesity	26.9
95 per cent. lower confidence interval	24.4
95 per cent. upper confidence interval	29.7

Note:
The national estimate is derived directly from the Health Surveys for England 2003-05 (with associated confidence intervals) and therefore is not a model-based estimate.
Source: Model-Based Estimates of Healthy Lifestyles Behaviours, 2003-05. Neighbourhood Statistics, Office for National Statistics (ONS)

Obesity: Children

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the number of children classified as obese in each of the last five years, broken down by age cohort. [198216]

Dawn Primarolo: Data on the prevalence of obesity among children aged two to 10, 11 to 15 and two to 15, for the last five years up to 2006 can be found in the "Health Survey for England (HSE) 2006 latest trends", published 31 January 2008. The HSE publication is available in the Library.

Obesity: Standards

Mr. Don Foster: To ask the Secretary of State for Health pursuant to the answer of 18 March 2008, *Official Report*, column 1055W, on obesity, what baseline figure has been set for his Department's public service agreement target to improve the health and wellbeing of children and young people. [198362]

Dawn Primarolo: As part of the public service agreement (PSA) for child health and well-being, the Government aim to reduce the rate of increase in obesity in children under 11-years-old over the period 2008-09 to 2010-11. Health Survey for England data from 1995 to 2006 have been used to calculate a linear trend for obesity in children under 11. This linear trend suggests that childhood obesity is growing at 0.5 per cent. points per year and this growth rate has been used to forecast a baseline trajectory over the period, with child obesity increasing from 16.1 per cent. in 2006 (latest year of actual data) to 18.7 per cent. in 2011. Under the PSA the Government aim to reduce the rate of growth against this baseline trajectory.

Osteopathy

Kelvin Hopkins: To ask the Secretary of State for Health what assessment the Government has made of the merits of osteopathy in treating long-term musculoskeletal conditions; and if he will make a statement. [199823]

Ann Keen: We have made no assessment of the merits of using osteopathy to treat long-term musculoskeletal conditions.

Patient Outcome and Death, Trauma: "Who Cares?"

Sandra Gidley: To ask the Secretary of State for Health what steps he plans to take in response to the second report of the National Confidential Inquiry into Patient Outcome and Death: "Trauma, Who Cares?"; and if he will make a statement. [197853]

Ann Keen: In the NHS Next Stage Review, clinicians in nine strategic health authorities are discussing the best models of care, including acute care, which should lead to improved trauma services.

Patients

Dr. Gibson: To ask the Secretary of State for Health what definition he uses of exceptional in relation to patients who are thereby given health treatments. [186956]

Mr. Bradshaw: The Secretary of State does not define what constitutes exceptional in relation to the funding of treatment. If a primary care trust (PCT) has a general policy of not funding a particular treatment, it is for the PCT to determine whether there are exceptional circumstances that justify treatment in any individual case. What constitutes 'exceptional circumstances' depends on the treatment in question and is to be determined on a case-by-case basis.

Pharmacology: Clinical Trials

Dr. Naysmith: To ask the Secretary of State for Health if he will bring forward legislative proposals to require pharmaceutical companies to disclose the evidence from all their clinical trials. [198666]

Dawn Primarolo: The conduct of clinical trials in the European Union (EU) is governed by EU law, implemented in the United Kingdom by means of regulations. These represent a comprehensive framework for the conduct of clinical trials, including requirements on reporting. However, following an investigation by the Medicines and Healthcare products Regulatory Agency into allegations that GlaxoSmithKline withheld relevant information gathered in clinical trials on the use of Seroxat in children and adolescents, some weaknesses in the law as it stood at the time of the alleged offences were identified. The Government have made a commitment to clarify and strengthen both EU and UK law in this area. We will seek to strengthen EU legislation on the obligations on pharmaceutical companies to report any information impacting on the risk and benefits of licensed medicines, including the results of clinical trials. In the meantime we will clarify the current law as it applies in the UK. Consultation on changes to UK law will take place in the summer.

Pharmacy: Payments

Mr. Lansley: To ask the Secretary of State for Health what the total reduction was in fees payable to pharmacies by primary care trusts as a result of the reduction in practice payment fees in the period from October 2007 to January 2008. [198791]

Dawn Primarolo: Data are only available for the three months October to December 2007. In this period, the reduction in total practice payment fees was £20 million.

Prescriptions: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many and what percentage of *(a)* dispensing and *(b)* non-dispensing GPs were using the Electronic Prescriptions Service system in each month since its inception; and how many and what proportion of prescriptions were issued in each month since the inception of the Electronic Prescriptions Service by (i) dispensing and (ii) non-dispensing general practitioners. [195346]

Mr. Bradshaw: The month-by-month split between dispensing and non-dispensing general practitioners (GPs) using the electronic prescription service (EPS) is not recorded. At present, it is not possible to differentiate between individual dispensing, and non-dispensing practice generated electronic prescription messages, and individual dispensing and non-dispensing GP prescribing behaviours.

The following table provides the combined total number of electronic prescriptions generated at both dispensing and non-dispensing doctor practices.

	Total number of EPS prescription messages generated by GPs	*Total number of EPS dispense notification messages sent by pharmacy*
2005		
February	607	158
March	3,442	1,110
April	2,887	1,284
May	3,576	1,624
June	3,394	700
July	6,135	1,176
August	6,432	1,118
September	14,400	1,504
October	46,039	1,485
November	69,823	1,844
December	68,365	2,451
2006		
January	87,074	1,594
February	153,771	809
March	260,898	3,476
April	262,952	2,458
May	439,427	2,227
June	662,362	7,594
July	816,584	4,248
August	1,083,300	7,793
September	1,362,209	8,955
October	1,361,877	17,110
November	1,539,616	22,396
December	1,607,737	23,308
2007		
January	1,988,882	31,708
February	2,223,368	44,690
March	2,617,552	59,528
April	2,493,531	51,913
May	3,351,179	89,128
June	3,575,681	126,382
July	4,454,930	158,129
August	4,982,637	191,288
September	4,935,859	226,683
October	6,291,931	273,948
November	5,855,981	276,397
December	5,573,366	255,016
2008		
January	6,897,355	370,909
February	6,623,597	428,500
1 March to 17 March	4,890,086	243,144
Total	75,003,880	2,951,526

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many and what proportion of *(a)* general practitioners and *(b)* doctors in other settings are (i) able to issue and (ii) regularly issuing electronic prescriptions. [195849]

Mr. Bradshaw: 6,676 (79 per cent.) of general practitioner practices have had the software upgrades needed to operate the electronic prescription service (EPS), of which 5,433 (64.1 per cent.) have been confirmed by primary care trusts as able to issue electronic prescriptions. Currently, over 1.5 million electronic prescription messages are issued each week. The number of individual general practitioners and doctors in other settings that are able to and regularly use the EPS is not captured nationally.

Royal Lancaster Infirmary

Geraldine Smith: To ask the Secretary of State for Health how many official complaints about treatment in *(a)* the Royal Lancaster Infirmary and *(b)* Westmorland General Hospital were received in each of the last five years. [194715]

Ann Keen: Written complaints about hospital and community services within Morecambe Bay Hospitals NHS Trust where treatment is recorded as the complaint is as follows:

	2004-05	*2005-06*	*2006-07*
All aspects of clinical treatment	172	198	201
Consent to treatment	Nil	2	Nil

Notes:
1. Morecambe Bay NHS Trust contains Royal Lancaster Infirmary, Westmorland General Hospital, Furness General Hospital and Queen Victoria Hospital.
2. Data as at 1 April to 31 March.

Information Centre for health and social care.

Scientific Advisory Group on Pandemic Influenza

Dr. Murrison: To ask the Secretary of State for Health pursuant to the answer of 5 February 2008, *Official Report*, column 1086W, on Scientific Advisory Group on Pandemic Influenza, (1) if he will place in the Library copies of the *(a)* agendas for the (i) induction meeting on 4 March 2008 and (ii) meeting on 4 April 2008 and *(b)* the minutes of the induction meeting of 4 March 2008; and if he will make a statement; [R] [199241]

(2) if he will place in the Library copies of the Scientific Advisory Sub-group on Modelling's minutes of its meetings of *(a)* 15 January 2007, *(b)* 29 March 2007, *(c)* 6 June 2007 and *(d)* 19 October 2007; and if he will make a statement. [R] [199242]

Dawn Primarolo: The Scientific Advisory Group on Pandemic Influenza was reviewed in 2007 and has been replaced by the Scientific Pandemic Influenza Committee (SPI). The induction meeting on 4 March 2008 for SPI was informal to provide members with background information related to the pandemic influenza preparedness programme. No notes of the meeting were taken.

The agenda for the SPI induction, and its first meeting on 4 March 2008, have been placed in the Library. The agreed minutes of the SPI meeting will also be placed in the Library once they are available.

As a working group, the scientific sub-group on modelling does not take minutes as such, but instead updates their modelling summary based on the discussions held within the group and the conclusions reached. The latest available summary has been placed in the Library.

Sexually Transmitted Diseases

Sandra Gidley: To ask the Secretary of State for Health how many people aged *(a)* 40 to 49, *(b)* 50 to 59, *(c)* 60 to 69, *(d)* 70 to 79 and *(e)* 80 years and above, were diagnosed with a sexually transmitted infection in each of the last five years, broken down by disease. [199985]

Dawn Primarolo: Data by age group are only collected for selected sexually transmitted infections (STIs) in certain age range formats which are 35 to 44, 45 to 64 and over 65. The number of STIs diagnosed in genito-urinary medicine (GUM) clinics, within these age ranges broken down by infection from 2002 to 2006, the latest year for which figures are available, are shown in the following table.

Sexually transmitted infection	*Age group*	*2002*	*2003*	*2004*	*2005*	*2006*
Uncomplicated chlamydial infection	35 to 44	5,559	5,828	5,962	6,170	6,501
	45 to 64	1,276	1,359	1,592	1,782	1,933
	over 65	59	80	72	65	81
Uncomplicated gonorrhoea	35 to 44	3,506	3,441	3,049	2,745	2,597
	45 to 64	1,145	1,182	1,108	1,005	1,102
	over 65	53	52	62	42	59
Anogenital herpes simplex—first attack	35 to 44	2,937	2,917	2,838	2,742	3,071
	45 to 64	1,379	1,294	1,363	1,412	1,563
	over 65	75	69	86	84	83
Anogenital warts—first attack	35 to 44	7,219	7,331	7,649	7,409	7,667
	45 to 64	2,800	3,037	3,155	3,220	3,425

Sexually transmitted infection	*Age group*	*2002*	*2003*	*2004*	*2005*	*2006*
	over 65	185	191	214	190	217
Primary and secondary infectious syphilis	35 to 44	393	493	709	806	868
	45 to 64	172	237	335	443	411
	over 65	12	14	17	21	37

Notes:
1. The data available from the KC60 statutory returns are for diagnoses made in GUM clinics only. Diagnoses made in other clinical settings, such as general practice, are not recorded in the KC60 dataset.
2. The data available from the KC60 statutory returns are the number of diagnoses made, not the number of patients diagnosed. Individual patients may have more than one diagnosis in a year.
3. The information provided has been adjusted for missing clinic data.
4. Data are not yet available for 2007.
5. Aggregated data are collected in a predefined format and age group can only be presented in the above categories.
6. Data by age group are only collected for selected STIs (uncomplicated chlamydial infection, uncomplicated gonorrhoea, anogenital herpes simplex—first attack, anogenital warts—first attack and primary and secondary infectious syphilis).

Source:
Health Protection Agency, KC60 returns

Sexually Transmitted Diseases: Children

Mr. Scott: To ask the Secretary of State for Health what steps his Department plans to take to reduce the number of children with sexually transmitted diseases. [199440]

Dawn Primarolo: Improving young people's sexual health is a priority for the Government and is being tackled in a number of ways. These include national media campaigns highlighting the benefits of delaying first sex and highlighting the risks of sexually transmitted infections and promoting condom use for those that are sexually active. We have also introduced a national target to offer access to genito-urinary medicine clinics within 48 hours and rolled out the National Chlamydia Screening Programme. These measures will reduce the risk of undiagnosed infection being transmitted to others.

Smoking

Mr. Lansley: To ask the Secretary of State for Health what assessment his Department has made of the likely effect of banning the display of cigarettes in shops on smoking levels among *(a)* adults and *(b)* children. [198276]

Dawn Primarolo: In the "Cancer Reform Strategy" published in December 2007, the Department has undertaken to consult on the next steps in tobacco control later this year. We will consider evidence on the issue during the consultation. However, a preliminary assessment of the published evidence from jurisdictions including Canada, Australia and New Zealand suggests that in-store advertising of tobacco, including point-of-sale displays, has an impact on children and young people's attitudes to smoking.

Social Services: Finance

Mr. Lansley: To ask the Secretary of State for Health (1) what additional money allocated to social care from the NHS budget in Budget 2008 will be spent on in each year, broken down by budget; [198187]

(2) how much of the *(a)* £166 million in 2008-09, *(b)* £236 million in 2009-10 and *(c)* £230 million in 2010-11 to be transferred from the NHS England's resource DEL to the Department of Health's resource DEL is as a result of the transfer of functions from the NHS to social care; and how much has been transferred from the NHS to other Government departments in each year. [198189]

Mr. Bradshaw: £30 million (4 per cent.) only of the reported £692 million does not relate to transfer of functions from the national health service to social care. The £30 million that is not a transfer to social care comprises:

£20 million for a Ministry of Justice Transfer into NHS funds for Healthcare Escorts and Bed Watches that was assumed in NHS Baseline but not yet actioned on HM Treasury Database.

£10 million of small machinery of government type changes the largest being a £3.85 million transfer to cover Spanish pensions liabilities.

The following table gives an explanation of the transfers from NHS England's Resource Departmental Expenditure Limit (DEL) to Personal Social Services (PSS) and other Government Departments.

Explanation of reported changes to NHS DEL position

		£ million	
	2009-09	*2009-10*	*2010-11*
Total Difference in reported NHS DEL positions	166	236	230
Of which:			
PSS pressures funded from NHS:			
Social Care Reform including prevention	65	165	158
Total	65	165	158
PSS pressures funded by transfer of NHS Function			
Area based grant: Local Involvement Networks (LINks)	27	27	27
Central support for grants LINks	1	1	1
Area based grant: Learning Disability Development Fund	43	43	43
Total	71	71	71
Others			
Technical Timing Issue (transfer into Department for Health DEL not yet actioned)	20	0	0
Other Government Department transfers	10	0	1
Total	30	0	1

Streptococcus: Screening

Anne Milton: To ask the Secretary of State for Health pursuant to the Answer of 20 March 2008, *Official Report*, column 1328W, on Streptococcus screening, when he expects to receive a response from the National Institute for Health and Clinical Excellence. [199381]

Dawn Primarolo: NICE has not been asked to appraise the enriched culture method (ECM) test for Group B Streptococcus (GBS). NICE is currently revising the approach it takes in considering proposals for appraisals of diagnostics, including the proposal to appraise the ECM test for GBS. NICE's future approach for considering proposals for appraisals of diagnostics is expected to be considered by NICE's Board and the Department this year. NICE will consider the suitability of the proposed appraisal of the ECM test for GBS for referral to its work programme following the agreement of a new approach.

Surgery: Private Sector

Mr. Bellingham: To ask the Secretary of State for Health how many surgical procedures have been carried out in non-NHS hospitals per annum at a cost to the public purse since 2000; and of these, how many resulted in episodes of *(a)* MRSA, *(b)* *Clostridium difficile* and *(c)* norovirus. [198622]

Mr. Bradshaw: The Finance, Performance and Operations (FPO) Directorate collects data on the independent sector (IS) programme and the IS extended choice network (IS ECN). We are unable to comment on other non-NHS hospitals.

Since the first IS treatment centres opened in 2003 a total of 250,345 elective procedures have been carried out through Wave 1 and Phase 2. In addition to this, 8,086 elective procedures have been carried out in the IS ECN programme to date, which started in January 2007.

For Wave 1, the FPO does not collect infection data through key performance indicators (KPIs).

Since August 2007 methicillin-resistant *Staphylococcus aureus* (MRSA) rates for Phase 2 have been collected through three KPIs for MRSA (within 48 hours), MRSA (after 48 hours) and MRSA (repeat cultures). From August 2007 to February 2008 a rate of 0 per cent. for all MRSA KPIs is recorded.

Translation Services

Mr. Paul Goodman: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Dudley, North of 28 February 2007, *Official Report*, column 1435W, on translation services, how much was spent on translation services into *(a)* Welsh and *(b)* other languages in 2005 and 2006. [197546]

Mr. Bradshaw: It is not possible to provide the breakdown of expenditure requested as we do not keep specific records of translation costs by language. Total expenditure on translation services was:

2005: £154,720; and

2006: £180,319

This covered the translation of publications relative to England and Wales plus translations of correspondence in languages other than English.

Mr. Paul Goodman: To ask the Secretary of State for Health pursuant to the answer of 5 March 2008, *Official Report*, column 2530W, on translation services, how much was spent on translation services into *(a)* Welsh and *(b)* other languages in 2007. [197547]

Mr. Bradshaw: It is not possible to provide the breakdown of expenditure requested as we do not keep specific records of translation costs by language. Total expenditure by the Department for the 2007 was £141,352.

This covered the translation of publications relative to England and Wales plus translations of correspondence in languages other than English.

Trauma

Sandra Gidley: To ask the Secretary of State for Health what advice he issued to trusts on the provision of appropriately trained doctors to treat cases of severe trauma at the scene of the incident. [199337]

Mr. Bradshaw: The appropriate response to cases of severe trauma is a matter for the national health service to manage locally.

As part of the NHS Next Stage Review, however, clinicians in nine strategic health authorities are discussing the best models of care, including acute care, which should lead to improved trauma services.

The NHS Emergency Planning Guidance 2005 describes the arrangements for the organisation of immediate medical care at the scene of a major incident.

Mr. Oaten: To ask the Secretary of State for Health what assessment he has made of pre-hospital care in trauma patients, with particular reference to airway management. [199406]

Dawn Primarolo: The Department expects the local national health service to have robust arrangements in place for managing the appropriate response to cases of severe trauma.

Ambulance staff are trained to provide airway care and are expected to act in line with specific clinical guidelines on airway care, as set out in the Joint Royal Colleges Ambulance Liaison Committee's clinical practice guidelines; which are available at:

www2.warwick.ac.uk/fac/med/research/hsri/emergencycare/jrcalc_2006/guidelines/trauma_emergencies_in_adults_overview_2006.pdf

Written Answers to Questions

WORK AND PENSIONS

Annuities

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions if he will increase the age at which people are required to buy annuities from their pension funds; and if he will make a statement. [196726]

Yvette Cooper *[holding answer 27 March 2008]:* I have been asked to reply.

The Government have no current plans to increase the age limit for compulsory annuitisation.

The Government set out their approach to annuities in their December 2006 publication: "The Annuities Market".

The age of earliest possible annuitisation will rise from 50 to 55 in 2010, in line with Government policy to encourage greater participation in the labour market by older workers. The latest available evidence suggests that the upper age limit (age 75) is not currently a significant constraint on retirement planning as only one in 20 people annuitise between ages 70 and 74. The limit therefore reflects current retirement patterns.

Evidence suggests that age 75 strikes a balance between flexibility in securing an income and ensuring that tax incentives are used for their intended purpose of providing a pension income.

The latest evidence from the Government Actuary's Department (GAD) also shows that increasingly during an individual's early 70s—and certainly by around 75—the rates of return required from alternative assets become unrealistically high for any individual in retirement to justify further delaying annuitisation.

Carter & Carter Group

Mr. Harper: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact on the persons undertaking training provided by Carter and Carter Group plc of the entry into administration of that company. [197240]

Mr. Timms: Carter and Carter continued to deliver all contracted services for my Department during its period in administration. The responsibility for these has now been transferred to the new owner, Newcastle College. There has been no impact on any services delivered for my Department by Carter and Carter from this change of ownership.

Mr. Harper: To ask the Secretary of State for Work and Pensions what provision he has made to ensure the continuous provision of places on employment training programmes following the entry into administration of Carter and Carter Group plc. [197263]

Mr. Timms: The administrator has sold most of the Carter and Carter group to Newcastle College, including the part of the group that delivers the contracts with my Department. Services have been provided as normal since entry into administration.

Child Support Agency

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will make a quarterly return showing the *(a)* average length of time taken to clear old scheme Child Support Agency cases and *(b)* the average age of uncleared cases under the old scheme. [184849]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 21 April 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will make a quarterly return showing the (a) average length of time taken to clear old scheme Child Support Agency cases and (b) the average age of uncleared cases under the old scheme. [184849]

The Agency begins to process new applications as soon as they are received and continues until they have been cleared. Any old scheme applications that have not been recorded on our computer question systems as cleared have been regarded as outstanding in the answer to this question. The Agency has significantly reduced the number of old scheme cases recorded as uncleared from 66,900 in March 2006 to 30,200 in December 2007. This is a 55 per cent decrease since the introduction of the Operational Improvement Plan.

Additional information on uncleared old scheme cases can be found in table 2.1 of the December 2007 CSA Quarterly summary of statistics (QSS), available in the House of Commons Library on online at; http://www.dwp.gov.uk/asd/csa.asp.

Old scheme cases shown as uncleared are by definition a number of years old, and will include a significant number of cases which are suspended as the non-resident par4ent remains untraced, or cases which have been maintained clerically or have in fact been closed but remain stuck on the computer system and therefore recorded as outstaying. The average length of time taken to clear old scheme cases and the average age of uncleared old scheme cases therefore increasingly becomes less meaningful.

As we move towards the launch of the new Child Maintenance and Enforcement Commission the measures needed to improve transparency across the whole range of information available on child support will need to be carefully considered.

I hope you find this answer helpful.

Child Support Agency: Debts

Danny Alexander: To ask the Secretary of State for Work and Pensions what the Child Support Agency's total gross debt outstanding was for the year April 2006 to March 2007; how much of this debt was accrued under the *(a)* old and *(b)* new system; and if he will make a statement. [193938]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 21 April 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what the Child Support Agency's total gross debt outstanding was for the year April 2006 to March 2007; how much of this debt was accrued under the (a) old and (b) new system; and if he will make a statement. [193938]

In answering this question, we have understood the old and new systems to refer to the old and new child support schemes and not the old and new child support computer systems. We are unable to classify the debt accrued in the year to March 2007 as you have requested and have therefore classified the total debt outstanding as at March 2007 in the attached table.

This debt has accrued over the 14 years of the Agency's operation and represents money owed by non-resident parents who have failed to meet their financial responsibilities towards their children.

The Agency's efforts are currently aimed at slowing the rate of growth and we have significantly slowed the rate at which debt accrues from around £20 million a month in 2005/2006 to around £16 million a month in 2006/2007. In total the Agency has collected over £181m in maintenance arrears since April 2006 and continues to make good progress towards meeting the Operational Improvement Plan commitment of collecting an additional £200m in arrears by March 2009 in addition to the £80m it was collecting each year at the inception of the plan.

I hope you find this answer helpful.

Breakdown of debt: March 2007

Outstanding gross debt	*Total (£ billion)*
Accrued under old scheme assessment[1]	3.3
Accrued under new scheme assessment[2]	0.3
Unknown[3]	0.1
Total gross debt	3.7

[1] Includes debt accrued on cases assessed under old scheme assessment rules which are maintained on either the old and current computer systems (CSCS and CS2).
[2] Includes debt accrued on cases assessed under the new scheme only and assessed on the new computer system (CS2).
[3] Cases currently maintained on the current computer system (CS2) but where it is not possible to identify under which assessment scheme the debt accrued.

Child Support Agency: Manpower

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the staffing costs of *(a)* the Child Support Agency in each year until it is wound up and *(b)* the Child Maintenance and Enforcement Commission in each of the first five years of operation. [193719]

Mr. Plaskitt: I refer the hon. Member to my written statement of 6 March 2008, *Official Report*, column 2803W.

Information on staffing costs for the current financial year will be published in the Agency's 2007-08 Annual Report and Accounts.

All people who carry out functions of the Child Support Agency in Great Britain will move to the Child Maintenance and Enforcement Commission, at the same time as the functions are transferred.

Future staffing levels and costs will be for the Commission to decide.

Children: Maintenance

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what proportion of child support cases had maintenance outstanding for periods of *(a)* zero to six weeks, *(b)* six to 12 weeks, *(c)* 12 weeks to six months, *(d)* six to nine months, *(d)* nine to 12 months and *(e)* over 12 months in each of the last 10 years; and how many and what proportion of these received payments from the Child Support Agency outside normal maintenance payments, broken down by type of payment; [185119]

(2) how much was paid by the Child Support Agency to families outside maintenance payments in each of the last 10 years, broken down by type of payment. [185125]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 21 April 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what proportion of child support cases had maintenance outstanding for periods of *(a)* zero to six weeks *(b)* six to 12 weeks *(c)* 12 weeks to six months *(d)* six to nine months *(d)* nine to 12 months and *(e)* over 12 months in each of the last 10 years; and what proportion of these received payments from the Child Support Agency outside normal maintenance payments broken down by type of payment [185119]; and

You also asked how much was paid by the Child Support Agency to families outside maintenance payments in each of the last 10 years broken down by type of payment [185125].

In order to answer this question we have interpreted the proportion of cases with maintenance outstanding as the proportion of current cases with debt.

Information on the proportion of cases categorised by the age of the outstanding debt and held on the current computer system (CS2) is provided in the attached Table 1. This analysis can not be carried out on the information we hold on cases prior to February 2007, therefore the analysis is based on the latest information available at December 2007. It is also not possible to perform this analysis for cases maintained on the old computer system (CSCS). As at December 2007, 48 per cent of current cases on the CSCS system have debt outstanding.

The Child Support Agency operates a discretionary, non-statutory scheme providing financial redress for maladministration. Payments may be made to redress any financial losses incurred and can include consolatory payments made by way of an apology for delay, inconvenience, worry and distress caused.

It is not possible to include the information we hold on these payments in the analysis of the outstanding debt set out in Table 1. Therefore such information as is available on these payments has been provided separately in the attached Table 2.

I hope you find this answer helpful.

Table 1: Proportion of current cases with debt on CS2 by age of oldest debt, December 2007

Age of debt	*Proportion (percentage) of cases on CS2 with debt*
0 to 3 months	8
3 to 6 months	5
6 to 9 months	6
9 to 12 months	5
Over 12 months	45
Unknown	4

Notes:
1. Includes debt on cases maintained on CS2 only.
2. Only debt accrued while the case has been maintained on CS2 can be aged. Unknown age band includes cases where debt has migrated from the CSCS computer system.
3. Percentages rounded to nearest whole per cent.
4. The specific weekly age bands requested are not available. Monthly time bands available in the existing management information are instead provided.

Table 2: Number and value of payments made by Child Support Agency for financial loss, compensation for delay and consolatory payments

	Actual financial loss		*Compensation delay*		*Consolatory*	
	Number of payments authorised	*Total value of payments (£ million)*	*Number of payments authorised*	*Total value of payments (£ million)*	*Number of payments authorised*	*Total value of payments (£ million)*
1998-99	4,300	3.3	1,100	0.3	4,200	0.6
1999-2000	3,700	1.8	700	0.3	4,500	0.5
2000-01	5,200	1.9	800	0.2	6,600	0.7
2001-02	6,300	1.6	900	0.2	8,300	0.7
2002-03	5,900	1.3	700	0.2	8,400	0.7
2003-04	4,900	1.4	800	0.1	5,600	0.4
2004-05	7,100	2.4	1,700	0.1	9,000	0.6
2005-06	5,900	3.1	2,100	0.2	9,200	0.6
2006-07	4,700	2.5	1,900	0.4	9,200	0.7

Notes:
1. Figures relate to payments made. It is not possible to identify how many of the payments authorised are for families. Some payments may be for non-resident parents.
2. Number of authorised payments rounded to nearest £100,000 Value of payments rounded to nearest £100,000.
3. Figures to 2005-06 show payments awarded in each year for Actual Financial Loss, Compensation for Delay and Consolatory Payments. These will include timing differences when reconciling to the Annual Report & Accounts. Figures for 2006/7 are actual payments and are aligned with the Annual Report.

Danny Alexander: To ask the Secretary of State for Work and Pensions in what number and proportion of cases with arrears outstanding the Child Support Agency is taking enforcement action, broken down by type of action being taken. [185121]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 21 April 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, in what number and proportion of cases with arrears outstanding the Child Support Agency is taking enforcement action broken down by type of action being taken. [185121]

The data required to answer this question comes from several different information flows. Our information systems do not allow us to compare the number of cases with arrears outstanding to the number of individual enforcement actions taken. The Agency routinely reports on the number of enforcement actions instigated in Table 21 of the Child Support Agency's Quarterly Summary of Statistics. This is available online at www.dwp.gov.uk/asd/csa.asp or in the House of Commons Library.

In the year to October 2007, the Agency undertook 102,120 new legal and administrative enforcement actions. These covered a range of processes including distress actions, county court judgement orders, 3rd party debt orders, charging orders, suspended committal sentences, committal sentences, requests for new deduction from earnings orders and deductions from earnings requests, suspended driving licence disqualifications and driving licence disqualifications. As the Agency records the numbers of enforcement actions rather than the number of cases, different types of enforcement action may relate to the same case.

In addition it should be noted that Table 9 of the Agency's Quarterly Summary of Statistics shows that a total of 169,700 deductions from earnings orders or requests were in place in October 2007. This figure will include all new deduction from earnings orders or requests noted in Table 21 and above.

I hope you find this answer helpful.

Danny Alexander: To ask the Secretary of State for Work and Pensions how many parents with care *(a)* on and *(b)* not on income support and income based jobseeker's allowance were entitled to maintenance via the Child Support Agency in each quarter since 1997, broken down by region. [194668]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 21 April 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the chief executive.

You asked the Secretary of State for Work and Pensions, how many parents with care *(a)* on and *(b)* not on income support and income based jobseeker's allowance were entitled to maintenance via the Child Support Agency in each quarter since 1997, broken down by region.

The information requested is provided in the attached table.

I hope you find this answer helpful.

May 2007	17,000	30,100	24,800	46,000	400	1,700

Notes:
1. Volumes are at a case level. Parents with care involved in more than one case will be included multiple times.
2. Includes all cases with a positive maintenance liability.
3. On benefit defined as cases where parent with care is in receipt of income support or income based jobseeker's allowance or if the partner of the parent with care is in receipt of either of these benefits.
4. Unknown, Northern Ireland and Abroad category includes cases where the postcode of the parent with care is not recorded on management information. A large increase in 'unknown' region cases occurred from March 2003 onwards with the introduction of the new CS2 computer system. A data cleanse operation took place towards the end of 2004 to solve this problem.
5. Figures rounded to nearest 100.

Children: Poverty

Mr. Carmichael: To ask the Secretary of State for Work and Pensions for what reasons children seeking asylum are not included in the Government's target to eradicate child poverty in the UK by 2020. [197412]

Mr. Timms: The target to eradicate child poverty does not exclude children of asylum seekers. Children of asylum seekers are already included in the child poverty statistics and therefore in the target unless they live in households that have been resident in the UK for less than six months or live in communal addresses such as hostels, hotels and boarding houses.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Work and Pensions at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196940]

Mrs. McGuire: No central records are held on when wine has been served at events held by DWP and these could only be obtained at disproportional cost.

In accordance with Government policy the Department is committed to fair trade and ethical supply routes. Where practicable, the Department aims to purchase sustainable produce for sale on departmental premises and for receptions and meetings wherever these meet our business requirements and give at least as good value for money. The Department is working with its facilities management contractor who provide where premises allow, in house catering services, on the feasibility of introducing a target to increase the supply of Fair Trade goods.

Departmental Data Protection

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions pursuant to the answer of 5 December 2007, *Official Report*, column 1349W, on departmental data protection, in what circumstances transfers of data take place under statutory gateways; which information transfers fall *(a)* within and *(b)* outside the statutory gateway; and if he will place in the Library copies of the memorandums of understanding, partnership agreements and codes of practice which set out the relationship between it and HM Revenue and Customs. [173277]

Mr. Timms: Transfers of personal data in bulk between the Department for Work and Pensions and other departments or organisations takes place only under and in compliance with the relevant statutory gateways, for example those contained in sections 121E to 123 of the Social Security Administration Act 1992.

In addition the Department on occasions discloses personal data on a case-by-case basis relying on common law powers, for example to the police for the prevention and detection of crime.

All bulk transfers and individual disclosures of personal data are made in accordance with the Data Protection Act and within the terms of the Department's formal registration under the Act.

The following copies of agreements between the Department and HM Revenue and Customs have been placed in the Library:

1. Working Level Agreement between the relevant Government Departments involved in the administration and distribution of Healthy Start vouchers to eligible recipients in the United Kingdom.

2. Service Level Agreement for the Job Outcome Targets (JOT) project.

3. Partnership Agreement for the referral and investigation of suspected benefit and tax credit fraud cases.

Departmental Leaflets

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of each public information leaflet issued by his Department. [195768]

Mrs. McGuire: We are arranging for copies of the current versions of all the Department's public information leaflets to be placed in the Library.

Danny Alexander: To ask the Secretary of State for Work and Pensions how much his Department spent on, *(a)* pensions-related, *(b)* retirement benefit and *(c)* other benefit-related leaflets in each of the last 10 years. [195771]

Mrs. McGuire: The Department for Work and Pensions began a complete review of all its public facing leaflets during 2006. This initiative has reduced the number of leaflets published by the Department from 178 in June 2006 to just 66 today.

The Department also procured, from July 2007, a single supplier for its print and associated services which, amongst other things, will enable us to capture the costs of producing material for the public in the future.

The review of all the Department's leaflets, coupled with the change of supplier means that identifying and obtaining the costs of all the material published prior to July 2007 could be done only at disproportionate cost.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Work and Pensions what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198286]

Mr. Timms: S43 of the Welfare Reform Act 2007 not yet in force, will make it an offence for a local authority employee to make an unauthorised disclosure of benefit information obtained under S42 of the same Act.

No other new offences have been created by primary legislation sponsored by the Secretary of State for Work and Pensions since July 2007.

Chris Huhne: To ask the Secretary of State for Work and Pensions what criminal offences have been abolished by primary legislation sponsored by his Department and its predecessors since May 1997. [198318]

Mr. Timms: No offences have been repealed/abolished by primary legislation sponsored by the DWP since May 1997.

Departmental Manpower

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people each of his Department's executive agencies employed in each of the last five years. [198352]

Mrs. McGuire: Information on the number of staff employed by the Department for Work and Pensions' Executive agencies as at the end of March each year is set out in the following table.

Headcount

March each year	*Jobcentre Plus*	*Pensions Service*	*Agency Disability and Carers*	*Child Support*	*The Rent Service*
2003	86,720	19,463	8,005	12,616	—
2004	87,773	21,111	7,977	12,292	—
2005	81,353	17,589	7,273	10,994	742
2006	79,366	15,109	7,158	12,411	696
2007	75,906	13,888	6,731	12,614	662

Note:
The Rent Service joined DWP in 2004-05.

Departmental Official Visits

David Simpson: To ask the Secretary of State for Work and Pensions what the cost was of overnight accommodation for *(a)* civil servants, *(b)* special advisers and *(c)* Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193540]

Mrs. McGuire: During 2007-08, the Department employed an average of 116,000 staff. The total cost of their overnight accommodation when on official business was as follows for the 12 months from March 2007 to February 2008.

	£
Great Britain	11,286,364
Northern Ireland	61,001
Republic of Ireland	503
Other Countries	73,067

Information on overnight accommodation in Great Britain is not recorded separately for Ministers or special advisers and is included in the aforementioned table. This does not include accommodation costs for overseas visits by Ministers and special advisers, as this information is invoiced and paid for separately and could be provided only at disproportionate cost.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Work and Pensions what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196752]

Mrs. McGuire: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many working days were lost by his Department due to stress-related illness in each of the last 24 months. [198933]

Mrs. McGuire: DWP, in common with other Government Departments, records sickness absences against a list of standard definitions. Stress related absences are recorded under the single category of "depression, anxiety and other mental health issues".

The following table shows the number of working days lost due to depression, anxiety and other mental health issues in each month since April 2007, as recorded on the Department's personnel computer system.

Information prior to April 2007 is held on a number of old systems. The cost of extracting this information, in the format requested, from these systems, for the period prior to April 2007, would be disproportionate.

The Department is committed to reducing sickness absences caused by depression, anxiety and other mental health issues. Our approach is to support employees, for example by providing access to professional stress counselling, and to use qualified occupational health advice to help them return to work when they do take sickness absence.

	Working days lost (FTE)	Total working days available (FTE)	Working days lost as percentage of total working days available
February 2008	16,824	1,949,176	0.86
January 2008	18,201	2,043,942	0.89
December 2007	16,565	1,684,523	0.98
November 2007	21,698	2,063,980	1.05
October 2007	22,618	2,160,959	1.05
September 2007	19,281	1,892,521	1.02
August 2007	22,341	2,089,811	1.07
July 2007	21,976	2,096,551	1.05
June 2007	20,539	2,010,288	1.02
May 2007	22,492	1,932,301	1.16
April 2007	21,237	1,751,189	1.21

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many days sick leave were taken on average by staff in his Department in each of the last five years. [198958]

Mrs. McGuire: The average number of working days lost due to sick leave by DWP staff in each of the last five years, as published in the annual Cabinet Office report is set out in the following table.

	Number
2006-07	11.1
2005	10.1
2004	9.6
2003	11.6
2002	10.8

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198975]

Mrs. McGuire: The information is not available or held centrally and could be obtained only at disproportionate cost.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197072]

Mrs. McGuire: The following table gives a break down of the number of people in The Department for Work and Pensions (and its agencies), who have attended the events specified during the past 12 months 1 April 2007 – 31 March 2008.

	Number	£
Working Assertively	5	3,630
Balancing Work/Life Realities	Nil	—
Managing your Confidence	2	2,298
Counselling Skills for the Workplace	Nil	—
Influencing with Integrity	10	7,260
Emotional Intelligence	1	1,495

Source:
National School of Government

Departmental Translation Services

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions how much was spent by his Department and its associated agencies and non-departmental public bodies on translation services from English into *(a)* Welsh and *(b)* other languages in (i) 2003-04, (ii) 2004-05, *(c)* 2005-06, *(d)* 2006-07 and *(e)* 2007-08. [197607]

Mrs. McGuire *[holding answer 31 March 2008]:* I have provided the availability and the range of options for translation services in DWP and the following table shows spend for the areas where details are available.

Please note, for the earlier years (2003-04, 2004-05) spend data are not fully available so I have provided all the relevant information available.

DWP provides a wide range of translation services including the translation of leaflets into a range of ethnic languages and all publications for DWP's customers must be available in Welsh. DWP also translates individual and ad hoc items such as letters and guidance for forms including back translating of all claim forms.

	2003-04	2004-05	2005-06	2006-07	2007-08[1]
Translating English to Welsh	24,973	30,885	20,766	50,759	31,535
Translating English to other languages	n/a	n/a	120,720	170,055	9,163

[1] Recorded to date

Discrimination

David T.C. Davies: To ask the Secretary of State for Work and Pensions how many claims for discrimination, based on *(a)* sex, *(b)* race and *(c)* sexual orientation, were brought by members of his Department and settled (i) in and (ii) out of court in each of the last five years. [194972]

Mrs. McGuire: From January 2003 to date, excluding a large block of cases challenging the Department's then dress code which were brought in 2003, the Department has been the respondent in 56 cases alleging race discrimination, 79 cases alleging sex discrimination and seven cases alleging discrimination relating to sexual orientation.

31 of these cases were settled; 14 of which related to sex discrimination, 13 related to race discrimination and four related to discrimination on grounds of sexual orientation.

The available statistics do not show at which point in a case the settlement took place.

Employment: Disabled People

Mr. Harper: To ask the Secretary of State for Work and Pensions how many full-time equivalent disability employment advisers were in post in England in each of the last five years. [196981]

Mr. Timms: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 21 April 2008:

The Secretary of State has asked me to reply to your question asking how many full-time equivalent Disability Employment Advisers were in post in England in each of the last five years. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

There are currently 500.81 full time equivalent Disability Employment Advisers in Jobcentre Plus of which 415.05 are in England. During 2005 and 2006 there was an average of 570 full time equivalent Disability Employment Advisers in Jobcentre Plus. We are not able to identify how many of these were based in England.

We are unable to provide numbers of Disability Employment Advisers in England for the years 2000 - 2004.

I hope this information is helpful.

Employment: Females

Bob Spink: To ask the Secretary of State for Work and Pensions what steps he is taking to meet the Lisbon Treaty strategy objective of increasing female employment; and if he will make a statement. [190890]

Mr. Plaskitt: The UK has already exceeded the Lisbon target for getting the female employment rate above 60 per cent. by 2010. The female working age employment rate is 70.2 per cent., up from 67.3 per cent. in February-April 1997.

We do not have a further target specifically for the female employment rate but there is a target to raise the employment rate overall. Clearly our efforts to achieve that should help raise employment across the board and some of our initiatives, for example on lone parents, while increasing employment among both men and women, are likely to have a particular impact on the female employment rate.

Employment: Tribunals

Mr. Evans: To ask the Secretary of State for Work and Pensions how many employment tribunals with *(a)* three members, *(b)* two members and *(c)* one member adjudicating sat in each of the last five years. [184574]

Bridget Prentice: I have been asked to reply.

The precise information on the number of panel members is not held centrally. To gather the required information would require the development of a new report, to do so would be of disproportionate cost.

However, hearings are normally conducted by panels comprising three members—one is a member of the judiciary and the other two are lay members. Available data of the number of session days for panel members are shown in the following table.

Year (April to March)	*Total session days for the judiciary*	*Total session days for lay members*
2004-05	29,300	
2005-06	29,800	
2006-07	29,800	
2007-08[1]	25,900	34,100

[1] April 2007 to January 2008.

To obtain figures for lay members not centrally held until 2007 would be at a disproportionate cost.

Figures for the number of days of single judge hearings have been collected since February 2007. The latest available figure is 8,100 sit alone days compared with 25,900 session days for the period April 2007 to March 2008 (or 31 per cent. of the total).

Government Offices for the Regions

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions which of his Department's programme budgets were administered by the Government Offices for the Regions in each of the last five years. [195173]

Mr. Plaskitt *[holding answer 18 March 2008]:* Government offices have directly administered the European Social Fund programmes on behalf of the Department for Work and Pensions for each of the last five years.

Housing Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions what the average housing benefit payment was in each year since 1990. [196685]

Mr. Plaskitt: The information is in the following table.

Average weekly amount of housing benefit in Great Britain from 1990 to 2007

	£
1990	21.30
1991	25.40
1992	30.00
1993	33.70
1994	36.60
1995	39.60

Average weekly amount of housing benefit in Great Britain from 1990 to 2007

	£
1996	41.60
1997	42.40
1998	43.60
1999	44.90
2000	46.80
2001	49.00
2002	52.40
2003	58.40
2004	57.30
2005	61.10
2006	64.60
2007	68.20

Notes:
1. The data refer to benefit units, which may be a single person or a couple.
2. For this request the amounts have been rounded to the nearest 10 pence.
3. Figures for any non-responding authorities have been estimated.
4. Housing benefit excludes any extended payment cases.
5. Figures taken from May each year up to 1996 and February each year from 1997.
6. Figures are in nominal terms.

Sources:
Social Security Statistics Publication May 1990 to May 1996; and Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in February 1997 to February 2007.

Incapacity Benefit

Chris Grayling: To ask the Secretary of State for Work and Pensions what proportion of *(a)* working age adults were in receipt of incapacity benefit and *(b)* households in each Metropolitan council area were workless in the most recent period for which figures are available. [181649]

Mrs. McGuire: At May 2007 7.2 per cent. of working age adults were claimants of incapacity benefit/severe disablement allowance.

Information about working age workless households is in the following table:

Working age workless households[1], April to June 2007, not seasonally adjusted)

	Proportion (percentage) by Metropolitan council area
GB	16.1
Barnsley	25.0
Birmingham	21.4
Bolton	18.0

Notes:
1. Figures have been rounded to the nearest hundred.
2. Figures have been taken from 5 per cent. samples and uprated in line with 100 per cent. WPLS totals.
3. Figures are based on 5 per cent. samples and are therefore subject to sampling variation.
4. Figures are affected by the introduction of tax credits in April 2003 and claimants aged 60 or over who transferred to pension credit in October 2003.
5. Jobseeker's allowance was introduced in October 1996 and replaced unemployment benefit (UB) and income support (IS) as the benefit for unemployed people seeking work. Therefore a consistent IS time series is shown from May 1997.

Source:
DWP Information Directorate 5 per cent. samples

Danny Alexander: To ask the Secretary of State for Work and Pensions what rate of interest is used to calculate income support mortgage interest payments; and how this rate is determined. [196682]

Mr. Plaskitt: The standard rate of interest used to calculate support for mortgage interest payments in income support, income-based jobseeker's allowance and state pension credit is currently 6.83 per cent. which is determined by adding 1.58 per cent. to the current Bank of England base rate of 5.25 per cent.

From December 2004, the standard rate has been calculated using the Bank of England Base Rate plus an additional 1.58 per cent. Using the Bank of England base rate provides a more representative rate than the previous method, which was based upon an average of building society interest rates. The 1.58 per cent. was added to ensure that no-one lost out when the method of calculation changed.

Danny Alexander: To ask the Secretary of State for Work and Pensions what the cost of paying income support mortgage interest was in each year since 1995. [196683]

Mr. Plaskitt: The information is not available.

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to the public purse of increasing the upper limit of capital supported by income support mortgage interest to *(a)* £110,000, *(b)* £120,000, *(c)* £130,000, *(d)* £140,000, *(e)* £150,000, *(f)* £160,000, *(g)* £170,000, *(h)* £180,000, *(i)* £190,000, *(j)* £200,000, *(k)* £210,000, *(l)* £220,000, *(m)* £230,000, *(n)* £240,000 and *(o)* £250,000. [196684]

Mr. Plaskitt: The information is not available.

Jobcentre Plus

Danny Alexander: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus offices are accessible by appointment only. [195776]

Mr. Timms: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 21 April 2008:

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus offices are accessible by appointment only. This is something that falls within the responsibilities delegated to me as chief executive of Jobcentre Plus.

All our Jobcentres are accessible to our customers without an appointment.

To avoid sometimes unnecessary waiting, appointments are booked for customers who have an inquiry or wish to see an Adviser. In many instances however, an Adviser or other member of staff will be free to see a customer immediately.

Customers are able to use our Jobpoints or public phones without an appointment.

Jobcentre Plus: Security Guards

Danny Alexander: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus offices employ security staff to guard the doors of the offices; and what guidance is offered to Jobcentre Plus offices regarding the employment of security staff. [195770]

Mr. Timms: Land Securities Trillium (LST) provides security personnel to Jobcentre Plus offices as part of their responsibilities under the terms of the Department's PRIME PFI contract.

Security personnel (Security Guards and Customer Care Officers (CCO)) are employed at 688 Jobcentre Plus offices. The security service requirement is detailed in the PRIME contract, and the role and job description of the CCOs has been agreed with Jobcentre Plus and is available to staff at each Jobcentre Plus office.

Jobcentre Plus: Telephones

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) how many customer access telephones are available in Jobcentre Plus offices in the UK; and how many offices do not have this facility; [195774]

(2) how many calls were made using customer access telephones in Jobcentre Plus offices in each of the last 24 months for which figures are available. [195775]

Mr. Timms: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 21 April 2008:

The Secretary of State has asked me to reply to your questions asking how many customer access phones are available in Jobcentre Plus offices in the UK and how many offices do not have this facility; and how many calls were made using customer access phones in Jobcentre Plus offices in each of the last 24 months for which figures are available. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

We have 3,841 customer access 'warm phones' available in Jobcentre Plus. All Jobcentres have this warm phone facility.

Information on the number of calls made from warm phones is not available.

Jobseeker's Allowance

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people have claimed jobseeker's allowance for more than 24 months in the last *(a)* 36 months, *(b)* 48 months and *(c)* 60 months. [174900]

Mr. Timms: The information requested is not available except at disproportionate cost.

90 per cent. of jobseeker's allowance claimants return to work within 12 months. However, 37,375 jobseeker's allowance claimants in Great Britain had a claim of two years or more duration as at November 2007.

Notes:

1. Figure is rounded to the nearest 5.
2. Figure is based on computer held cases only.

Source:

NOMIS.

Jobseeker's Allowance: Banks

Mr. Grieve: To ask the Secretary of State for Work and Pensions in how many cases jobseeker's allowance payments to single adults of £59.15 per week are being paid directly to banks to cover the bank charges of the individuals concerned; and if he will make a statement. [196235]

Mr. Plaskitt: The Department does not hold the information requested. December 2007 figures show that 177 per cent. of Jobseeker's allowance payments

are paid direct into a bank or building society. Once a benefit payment is credited into an account it merges with the existing account balance, whether this is overdrawn or in credit.

[1] This figure shows the total number of customers who receive a payment through the Jobseeker's Allowance payment scheme.

Karian and Box

Mr. Hands: To ask the Secretary of State for Work and Pensions what the value was of each contract awarded by his Department to Karian and Box since 1997. [199641]

Mrs. McGuire: Current DWP records extend back to the 2003-04 financial year.

Having checked the records available, there is no evidence of any payments made to a supplier named Karian and Box or possible variations to that name.

Information is not available for the period prior to 2003 and could be obtained only at disproportionate cost.

Lone Parents

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the Written Ministerial Statement of 3 April 2008, *Official Report*, column 84WS on lone parents, if he will place in the Library a copy of the early advice from the Social Security Advisory Committee. [200152]

Mr. Timms: The early advice from the Social Security Advisory Committee referred to in the written statement of 3 April 2008 was given verbally on 5 March in the course of one of the Committee's regular business meetings. The minutes of that meeting will be placed in the Library when they have been cleared by the Committee and will be published on the Social Security Advisory Committee website.

Nanotechnology: Safety

Dr. Gibson: To ask the Secretary of State for Work and Pensions what assessment has been made of the safety of nano-enabled products by UK regulatory bodies. [197396]

Ian Pearson: I have been asked to reply.

The Government's aim is for the UK to derive maximum benefit from nanotechnologies and their products in a way that safeguards health, safety and the environment and addresses the aspirations and concerns of the public. The statement by the UK Government about nanotechnologies, announced in the written ministerial statement of 28 February 2008, *Official Report*, columns 86-87W, explains what the Government are doing to deliver these objectives.

New Deal Schemes: Contracts

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 14 March 2008, *Official Report*, columns 30-31WS, on the flexible new deal, (1) if he will place in the Library copies of the advertisements for organisations interested in bidding for phase one contracts; [197108]

(2) at what point final payment will be made to providers of phase one contracts; and what the payment process will be; [197109]

(3) whether the fees paid to providers will vary according to the type and length of activity. [197239]

Mr. Timms: The commercial strategy for the flexible new deal reflects the principles set out in the Department for Work and Pensions Commissioning Strategy published in February 2008. We will be seeking bids which reflect proposals for both five and seven year contracts and will decide which of these terms to offer following the tender evaluation process, which will assess the option that provides the best overall value.

The funding model has a number of elements. Fifty per cent. of the contract price will be attributable to the achievement of intermediate employment outcomes and thirty per cent. to sustained employment outcomes of twenty-six weeks. Both of these will be paid on a unit price basis. There will also be a service fee, which will equate to twenty per cent. of the overall contract price, which will be paid in monthly instalments.

Copies of the original advertisements for organisations interested in bidding for Phase One contracts have been placed in the Library.

A written statement was laid before Parliament on 1 April. This announced that there are now to be two Wales-only flexible new deal contract areas: North Wales, Mid Wales and South East Wales; and South West Wales and South Wales Valleys.

Copies of the replacement advertisements, following this announcement, for organisations interested in bidding for Phase One contracts have also been placed in the Library.

Pension Service

Mr. Lansley: To ask the Secretary of State for Work and Pensions what pension forecast service the Pension Service offers; and if he will make a statement. [197897]

Mr. Mike O'Brien: The Pension Service provides:

Individual Pension Forecasts (IPF)

These "on request" forecasts provide estimates of an individual's state pension entitlement.

Real Time Pension Forecasts (RTPF)

This is a web-based "on-request" forecasting service.

Combined Pension Forecasts (CPF)

CPF contain an estimate of state pension entitlement alongside information provided about occupational or personal pension schemes. These forecasts are available where an employer or pension provider agrees to provide them.

Due to a need to update IT systems to reflect state pension rule changes contained within the Pension Act 2007, The Pension Service is temporarily unable to provide pension forecasts to people who reach state pension age after 5 April 2010. However, they are providing personalised information to this group, including details on the number of qualifying years people have, to help with considerations such as the payment of voluntary national insurance contributions, and how the changes to the state pension rules may affect their

state pension position. These services help people to continue to plan for their retirement.

The CPF service is also temporarily suspended.

The Pension Service anticipate that the web-based service will be available to all customers from the end of June 2008 and the rest of the forecasting services will be available in autumn 2008.

Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of women in receipt of basic state pension whose husbands are in receipt of basic state pension and who are receiving an amount of basic state pension at a rate of less than 60 per cent. of the amount that their husband is receiving. [197386]

Mr. Mike O'Brien *[holding answer 31 March 2008]:* The information requested is not available.

Pensions: Widowed People

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what steps he is taking to ensure that the Pension Service advises all those pensioners who are newly widowed of the range of entitlement to which they may be eligible. [197759]

Mr. Mike O'Brien *[holding answer 31 March 2008]:* When the Department is notified that a pensioner is bereaved a review of their state pension is completed automatically. The highest rate of state pension benefit is calculated and paid dependant upon the individual or deceased spouse's contribution record. All bereavement benefits are also considered at that time. The Department will check whether pension credit is in payment, and if it is not, the customer is invited to make an application. Customers are also invited to claim housing benefit and council tax benefit at the same time as applying for pension credit.

Post Office Card Account

Peter Luff: To ask the Secretary of State for Work and Pensions how many outlets are specified in the tendering documents for use by customers of the replacement Post Office Card account; what criteria have been specified for the distribution of these outlets; and if he will make a statement. [194186]

Mr. Plaskitt *[holding answer 19 March 2008]:* The notice that appeared in the Official Journal of the European Union for the replacement to the Post Office card account specified that customer access to cash is requested at ATMs and personal teller outlets located throughout the UK. The contractors are asked to detail their intended number and the location of outlets, but the size of the network is expected to be in the region of 10,000 outlets.

Press Offices

Mr. Laws: To ask the Secretary of State for Work and Pensions what the cost of the press offices of *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies was in each year from 1996-97; what the cost was in each quarter since 1 April 2007; and if he will make a statement. [189650]

Mrs. McGuire: Our costs are not readily available in the format requested, and obtaining these could be achieved only at disproportionate cost.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many press office staff were employed by *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies (i) in each year since 1996-97 and (ii) at the latest date for which information is available. [189651]

Mrs. McGuire: The Department for Work and Pensions was formed on 8 June 2001 from parts of the former Department of Social Security, the former Department for Education and Employment and the Employment Service. All media inquiries relating to the Department including its agencies are dealt with through the national and regional press office.

	National press officers	*Regional press officers*	*Non-departmental public bodies*

Remploy

Mr. Harper: To ask the Secretary of State for Work and Pensions which factories have closed under the Remploy modernisation programme. [198243]

Mrs. McGuire: The following factories have closed under the Remploy modernisation programme.

Aintree
Barnsley
Birkenhead CCU
Bradford
Brixton
Brynamman
Chandlers Ford (Southampton)
Halifax
Hartlepool

Hillington
Hull
Jarrow
Leatherhead
Lydney
Mansfield
Medway
Newcastle Under Lyme
Pinxton
Redruth
Southampton
Southend
St. Helens
Stockport
Stockton
Treforest
Woolwich
Wisbech
York
Ystradgynlais.

Wisbech wasn't on the original list for closure. However, it closed as a result of all employees applying for voluntary redundancy as part of the modernisation programme.

Social Security Benefits

Miss McIntosh: To ask the Secretary of State for Work and Pensions what plans he has to reflect recent changes in the cost of essential goods and services in benefit entitlement. [197969]

Mr. Mike O'Brien: The Chancellor announced in his Budget 2008 speech that for winter 2008-09 an additional payment will be made alongside the winter fuel payment. Households with someone aged 60 to 79 will receive an additional £50 and households with someone aged 80 or over will receive an additional £100.

The levels of benefits are increased once a year, in April. The increases are calculated, for most contributory and non-contributory benefits, using the increase in the retail prices index for the 12 months ending in the preceding September. This ensures that benefits keep their real value in broad terms.

Income-related benefits (jobseeker's allowance, housing benefit, council tax benefit and income support) are usually increased in line with September's 12-month rate for the Rossi index. The Rossi index is the retail prices index excluding rent, mortgage interest payments, council tax and depreciation costs. This index is used because help for housing costs is given to people getting income related benefits either as additional amounts in those benefits or in council tax benefit and housing benefit. Consequently any increases in council tax would usually be met by council tax benefit.

The standard minimum guarantee in pension credit has been increased by 4.2 per cent. in line with the Budget 2007 announcement, more than keeping pace with earnings and prices.

The inflation figures are based on a year-on-year comparison of prices. Therefore any recent fluctuations in inflation will be taken into account in the benefit increases that will take effect from April 2009.

Social Security Benefits: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 3 April 2008, *Official Report*, columns 83-84WS, on disability benefits (European Court of Justice), on what date and at what time the information was posted on *(a)* his Departmental website and *(b)* direct.gov website. [200153]

Mrs. McGuire: The information is as follows:

(a) The DWP website published a news item, aimed at disability advisers, on its Disability and Carers subsite (www.dwp.gov.uk/dcs) on 3 April at 1.10 pm. This item linked to the information on the Direct.gov website which is aimed at the general public.

(b) The article was published live on the Direct.gov site on 3 April at 10.00 am.

Social Security Benefits: Lost Property

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many birth certificates his Department received for proof of identity for benefit claimants, including winter fuel payment claimants, in each of the last five years; and how many were subsequently reported *(a)* by his Department and *(b)* by the claimant as lost or stolen. [198997]

Mr. Plaskitt: The information is not collated centrally and could be provided only at disproportionate cost.

Social Security Benefits: Overpayments

David Heyes: To ask the Secretary of State for Work and Pensions (1) in how many cases overpayments of benefit have been reclaimed following the death of a claimant where such repayments were not mandatory under social security legislation in each of the last five years, broken down by benefit type; [197871]

(2) in how many cases his Department has not pursued requests for repayment for overpayments following the death of a claimant in circumstances where the repayment was challenged by family members and where the repayment was not mandatory under social security legislation in each of the last five years; [197875]

(3) in how many cases where his Department requested repayments of overpayments following the death of a claimant, and where such repayments were not mandatory under social security legislation, such requests were not challenged by family members in each of the last five years; [197886]

(4) what the value was of repayments of overpayments requested by his Department following the death of a claimant, in circumstances where such repayments were not mandatory under social security legislation and where the family members of the deceased claimants challenged the requests and did not subsequently make the repayments; [197888]

(5) what the value was of repayments of overpayments of benefits following the death of a claimant, where such repayments were not mandatory under social security legislation in each of the last five years, broken down by benefit type. [197899]

Mr. Plaskitt *[holding answer 31 March 2008]*: Unfortunately, through no fault of any individual, overpayments of benefit can arise following the death of a benefit recipient. Such overpayments normally arise as a result of the Department being notified of the death too late to stop an automated payment being made into the deceased's account.

We are doing all we can to improve the current process. We are in the process of preparing to receive electronic notifications of death from the Office of National Statistics on a daily basis. This will assist in enabling a prompt cessation of payments following death and reduce the number of these overpayments occurring.

The Department has a duty to seek recovery of all overpaid funds where it is reasonable and cost effective to do so. However, we seek to do this as sensitively as possible, taking account of the fact that this will be a stressful time, particularly if the person contacted is a close friend or family member. Overpayments are written off if the deceased has no estate or there are insufficient funds in the estate.

The following table details how many of these overpayments have been recovered, and their value. We have only been collecting this information since 2005.

The other information requested is not available.

State Retirement Pensions

Paul Flynn: To ask the Secretary of State for Work and Pensions if he will make an estimate of the percentage increase in the basic state pension which could be paid in each year between 2009-10 and 2012-13 were tax revenue to be increased by the amount needed to enable the annual surplus in the National Insurance Fund to be used for such a purpose. [196767]

Mr. Mike O'Brien: When national insurance contributions are made, a proportion of them go directly to help fund the NHS, while the rest are paid into the national insurance fund (NIF). The fund pays out contributory benefits to which people who have paid sufficient contributions are entitled, such as the basic state pension, incapacity benefit and contribution-based jobseeker's allowance.

National insurance contributions and associated social security benefits operate within the Government's fiscal rules designed to ensure sound public finances and when there is a surplus, it is invested in public services. Any surplus of contributions over social security benefits in any one year (the NIF surplus) is not therefore an extra resource available to spend.

As the Government Actuary's latest report on the draft Social Security Benefits up-rating and Contributions re-rating Orders (CM7312) notes, the excess of income overpayments each year is the difference between two large numbers and so quite small percentage changes in either of them results in a large percentage change in the surplus income. This, in turn, could have a significant effect on the fund balances.

However, if the equivalent of the national insurance fund's annual excess of receipts overpayments projected by the Acting Government Actuary for the years 2009-10 to 2012-13 were paid in its entirety to recipients of basic state pension, this would lead to an estimated percentage increase in the basic state pension of around 24 per cent. in 2009-10 and around 6 per cent. in the years 2010-11 to 2012-13. Any increase in basic state pension expenditure has a cumulative impact on Government spending going forward.

The equivalent of the excess of receipts overpayments would need to be raised through tax increases to maintain the Government's fiscal strategy. The Government are committed to long-term sustainable state pension provision and views short-term spending of the NIF surplus as unaffordable going forward. The Government have guaranteed the basic state pension will increase each year in line with prices or 2.5 per cent., whichever is higher, and subject to affordability and the fiscal position, to increase the basic state pension in line with earnings in 2012, but by the end of the next Parliament at the latest.

Tax Allowances: Carers

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of increasing the second adult rebate for carers to the level of the single person's discount on council tax; and what assessment he has made of the merits of such an increase. [196189]

Mr. Timms: There is no second adult rebate specifically for carers. Certain carers are disregarded for council tax purposes, as long as the person they are caring for meets the qualifying conditions. The purpose of the disregard is to ensure that a person who would otherwise be entitled to a single person discount does not lose it because they require a carer to live with them.

Unemployment

Andrew Selous: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 28 January 2008, *Official Report*, columns 66-7W, on unemployment, what the evidential basis was for the Secretary of State's Answer of 7 January 2008, *Official Report*, column 5, on child poverty, that the UK had been lagging below the average in Europe regarding the proportion of children living in workless households but was now above the average; and if he will make a statement. [185261]

Mr. Timms *[holding answer 7 February 2008]:* The evidential basis for the Secretary of State's answer of 7 January 2008, *Official Report*, column 5, about the UK's relative improvement on child poverty compared to other European countries was the European Community Household Panel Survey (for 1997 data) and the EU Survey of Income and Living Conditions (for 2005 data).

In 1997, the UK had the highest child poverty rate in Europe. The UK's child poverty rate was 27 per cent. in 1997, compared to an EU average (EU-15) of 19 per cent. The 2005 data show that child poverty was 22 per cent. in the UK, approaching the EU average (EU-25) of 19 per cent. Due to the change in data sources data from 1997 and 2005 are not directly comparable.

This is different from the data on children in workless households which are produced from the EU Labour Force Survey.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Work and Pensions how much his Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199597]

Mrs. McGuire: Current DWP records extend back to the 2003-04 financial year.

The annual spend with Zurich Financial Services from 2003-04 is as follows:

	£
2003-04	999.86
2004-05	1,233.46
2005-06	2,423.00
2006-07	0.00
2007-08	0.00

Unfortunately, the DWP accounting system in operation at the time did not record the specific reason for individual payments but classified them into broad accountancy groupings. For this reason and the time elapsed since the last of the payments were made, it is not possible to say what the purpose of each payment was.

Information is not available for the period prior to 2003 and could be obtained only at disproportionate cost.

JUSTICE

Bail: Housing

Jenny Willott: To ask the Secretary of State for Justice pursuant to the answer of 2 April 2008, *Official Report*, column 1060W, on bail: housing, what local schemes are being considered under the Bail Accommodation Support Scheme; what the *(a)* area, *(b)* number of dwellings being considered and *(c)* the nature of the dwellings' current use is in each case; and if he will make a statement. [199919]

Mr. Hanson: A list of the locations where properties have either been obtained or are being sought by ClearSprings for the Bail Accommodation and Support Service was published on 21 January 2008, *Official Report*, columns 1655-58W. We are continually assessing the need and ClearSprings will consider a number of properties in each location. They are required to consult the local authority, the police and probation on the suitability of properties. The properties used are normal residential dwellings and remain so while occupied by those benefiting from the service.

Burglary: Prosecutions

David Davis: To ask the Secretary of State for Justice what proportion of recorded burglaries resulted in a *(a)* prosecution and *(b)* conviction in England and Wales in each year since 1997. [198192]

Mr. Straw: Information on number of offences of burglary recorded by the police is provided in table 1 as follows:

Table 1: Offences of total burglary recorded by the police, 1997 to 2006-07

	Number of offences
1997	1,015,075
1997-98	988,432
1998-99	953,184
1999-2000	906,468
2000-01	836,027
2001-02[1]	878,509
2002-03	890,099
2003-04	820,013
2004-05	680,358
2005-06	645,068
2006-07	622,044

[1] The National Crime Recording Standard was introduced in April 2002. Figures before and after that date are not directly comparable.

Source:
Home Office recorded crime statistics.

Table 2 shows the number of defendants proceeded against and found guilty at all courts for burglary for the years 1997 to 2006.

Table 2: Number of defendants proceeded against at magistrates courts and found guilty at all courts for burglary, England and Wales, 1997 to 2006[1, 2]

	Proceeded against	Found guilty
1997	49,530	31,703
1998	48,114	30,769
1999	46,141	29,261
2000	42,406	26,222
2001	41,593	24,802
2002	43,648	26,691
2003	41,281	25,726
2004	35,372	24,252
2005	31,805	22,951
2006	30,637	22,955

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Sources:
Court Proceedings Database.
Office for Criminal Justice Reform.
Ministry of Justice.

Recorded crime and court proceedings statistics are from two different databases and recorded in quite different ways. Recorded crime data are provided on a financial year basis and count offences whereas court proceedings data are on a calendar year basis and count offenders. Therefore, these two separate data-sets are not directly comparable.

The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Convictions: Pupils

Michael Gove: To ask the Secretary of State for Justice how many children under 16 years of age received *(a)* a criminal conviction and *(b)* a criminal conviction for an offence committed on school property in each year since 1997. [198661]

Maria Eagle: Data showing the number of defendants aged 10 to 15 who received a conviction for all offences in England and Wales from 1997 to 2006 are in the following table.

The figures given in the table relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

My Department holds information on defendants proceeded against and found guilty of criminal offences in England and Wales. These data include information on the age and sex of the defendants, the court where proceedings took place as well as the outcome for specific offences including sentencing information. The court proceedings database does not hold information on the individual circumstances of offences beyond that described in the statute for which prosecutions are brought. For example the Ministry of Justice cannot separately identify offences committed on school property from offences committed elsewhere.

Number of defendants aged 10 to 15 found guilty for all offences, England and Wales, 1997 to 2006[1, 2]

	Found guilty
1997	24,748
1998	28,266
1999	31,428
2000	33,010
2001	34,808
2002	34,123
2003	33,484
2004	35,656
2005	37,121
2006	37,300

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces.
As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Coroners

Mr. Hurd: To ask the Secretary of State for Justice when a revised version of the Charter for the Bereaved will be issued; and if he will ensure that charities representing those bereaved as a result of sudden medical deaths are consulted before the revision takes place. [198664]

Bridget Prentice: I will be issuing the draft Charter for Bereaved People for further consultation in the early summer. The draft charter was published alongside the draft Coroners Bill in June 2006. Like the Bill, the charter has been subject to extensive consultation and has been revised in response to helpful and constructive feedback from stakeholders, including charities representing the bereaved as a result of sudden medical deaths. These charities will also be invited to comment on the revised draft.

Coroners Bill (Draft)

Mr. Hurd: To ask the Secretary of State for Justice what the reason for the time taken to introduce the Coroners Bill to Parliament is; and if he will make a statement. [198665]

Bridget Prentice: The Government are committed to reforming the coroner service for England and Wales, and to making non-legislative improvements ahead of a Coroners Bill. There was no space for the Coroners Bill in this Session's busy legislative programme but the firm intention remains to introduce a Bill as soon as time allows. Measures to be introduced ahead of legislation include strengthening Rule 43 of the Coroners Rules 1984 to help coroners to prevent future deaths, revising the Charter for the Bereaved for a reformed service, and working with the Press Complaints Commission to establish whether their code of practice for editors could be refined, in respect of the reporting of inquests, for the benefit of bereaved families.

Coroners: Children

Mr. Hurd: To ask the Secretary of State for Justice what steps he plans to take to ensure that coroners and local safeguarding children boards work together effectively to investigate child deaths. [198663]

Bridget Prentice: Arrangements are already being made to introduce a new Coroners Rule to ensure that coroners and Local Safeguarding Children Boards have the correct framework to work together effectively with their respective statutory responsibilities to investigate child deaths.

Coroners: Mesothelioma

Mr. Hancock: To ask the Secretary of State for Justice what representations he has received on the procedures used in coroners' inquests following a death from mesothelioma in the last 12 months [198687]

Bridget Prentice: In February 2007, my Department received the report of the British Lung Foundation on its research in to the investigation of mesothelioma deaths. My officials have met with representatives of the British Lung Foundation to discuss their report, and facilitated meetings between the Foundation and the Coroners Society. Following these meetings, best practice guidance for coroners and clinicians on how deaths from mesothelioma should be dealt with has been published on the Coroners Society website. The needs of the bereaved are integral to our proposals in regard to longer term reform of the coroners' service. The appointment of a chief coroner and the introduction of national standards of service, which will be enabled by the Coroners Bill, will also address concerns about inconsistencies of practice between coroner areas. We will bring forward legislation as soon

as parliamentary time allows, and continue to consult with the British Lung Foundation about those parts of the Bill which effect the investigation of mesothelioma deaths. In February 2008, I attended a parliamentary reception hosted by the British Lung Foundation and I was happy to give a commitment to work with them as the Government develops its policy further in these areas.

Crime: Victims

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the Answer of 31 March 2008, *Official Report*, column 555W, on crime: victims, what terms of employment or appointment were specified for the post of commissioner for victims and witnesses in the recruitment exercise. [199263]

Maria Eagle: The recruitment exercise carried out in 2006 for the post of Commissioner for Victims and Witnesses suggested a salary in the region of £120,000 depending on the knowledge, experience and skills of the successful candidate.

The Domestic Violence Crime and Victims Act 2004 required that the period of appointment must not exceed five years.

The recruitment exercise was carried out in accordance with the Code of Practice For Public Appointments.

Data Protection

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answer of 7 March 2008, *Official Report*, column 2844W, on data protection, for what reasons *(a)* there was no Government response to the Council of Science and Technology's 2005 report on data security and *(b)* none of the recommendations have been implemented. [198090]

Mr. Wills: The Council of Science and Technology's 2005 (CST) report was one of a number of pieces of work being produced within and independent of Government in the last five years which influenced thinking on how to tackle the challenges of making better use of information whilst safeguarding personal data and helped inform the Information Sharing Vision Statement in September 2006. It was because of the useful work that Dr Mark Walport did with the CST that the PM asked him to undertake a comprehensive review with the Information Commissioner of the use and sharing of personal information in the public and private sectors.

The Government will take a considered view on what measures are necessary to strengthen the protection of personal information in the light of conclusions and recommendations of this review and the review by the Cabinet Secretary.

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Justice which of his Department's initiatives and those of its predecessors have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192233]

Maria Eagle: Since its creation on 9 May 2007, my Department, the Ministry of Justice and its agencies have advertised the following:

	Radio (£)	Press/poster (£)
Her Majesty's Courts Service		
Camberwell Green Magistrates Court Payback Scheme	—	2,100
HM Prison Service		
National Prison Officer Recruitment	151,000	888,600
National Probation Service		
Recruitment of Trainee Probation Officers	—	14,506

The predecessor Department to the Ministry of Justice (the Department for Constitutional Affairs—DCA) was created on 12 June 2003. It conducted the following advertising campaigns aimed at the public, and the following table sets out the costs of these campaigns.

Department for Constitutional Affairs

	Radio (£)	Press/poster (£)
2006-07		
Operation Payback (fine enforcement) (Phase 4)	—	21,000
2005-06		
Operation Payback (Phase 3)	94,000	158,000
Postal voting	—	188,000
Magistrates recruitment	107,000	522,000
18-24 voter registration	62,000	
2004-05		
Operation Payback (Phase 2)	95,000	164,000
Magistrates recruitment	—	124,000
2003-04		
Operation Payback (Phase 1)	79,000	133,000
Magistrates recruitment	—	431,000

Spending on advertising campaigns by the DCA's predecessor, the Lord Chancellor's Department, was as follows:

	£
2000-01	
Launch of the Community Legal Service and increasing awareness of family mediation	1,646,000
1999-2000	
Raising awareness of lost land certificates	14,000
Publicising court closures	19,000
1998-99	
Magistrates recruitment	427,000

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Justice what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197165]

Mr. Straw: My predecessor, Lord Falconer of Thoroton, spoke at the Queen Elizabeth Centre, London on 12 September 2005 to the Commonwealth Law Conference and on 10 March 2006 to the ESRC Devolution and Constitutional Change Conference. Lord Falconer also spoke at the Business Design, Islington, London on 10 January 2007 to the Public Guardianship Office staff conference.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Justice what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196744]

Maria Eagle: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website at

www.cabinetoffice.gov.uk

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Justice if he will take steps to set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195889]

Mr. Straw: The Ministry of Justice's Sustainable Development action plan which was published on the 14 March 2008 requires the Department to produce a high level transport plan setting out measures that will enable the Department to reduce the impact of business travel on the environment. The increased use of video-conferencing equipment will be an integral part of the plan.

A copy of the action plan is available on the Ministry of Justice website at:

http://www.justice.gov.uk/docs/sustainable-development.pdf

Feltham Young Offender Institution and Remand Centre

Mr. Bellingham: To ask the Secretary of State for Justice what the *(a)* name and *(b)* capacity is of each unit at HM Young Offender Institution Feltham; who the residential manager is of each; and if he will make a statement. [192684]

Maria Eagle: The information is set out in the following table. The numbers relate to operational capacity. It is not Prison Service policy to name individual members of staff.

Unit Name	*OpCap*
Albatross	16
Bittern	30
Curlew	30
Dunlin	30
Eagle	30
Falcon	30
Grebe	30
Heron	30
Jay	30
Kingfisher	54
Mallard	56
Nightingale	56
Osprey	56
Partridge	56
Quail	56
Raven	56
Swallow	56
Teal	44
Wren	16

There is also Lapwing Unit which has 38 beds, which is currently commissioned as a 20 bed mental health inpatients unit, and is not on the establishment's certified normal accommodation.

Fixed Penalties: Young People

Mr. Hollobone: To ask the Secretary of State for Justice how many police forces have issued fixed penalty notices for disorder to persons under the age of 16 under the provisions of the Criminal Justice and Police Act 2001. [199731]

Mr. Hanson: Seven police forces in six areas have issued penalty notices for disorder to under 16s during the pilots.

Forced Marriage

Dr. Kumar: To ask the Secretary of State for Justice what proportion of reported victims of forced marriage were aged *(a)* below 18, *(b)* 18 to 24 and *(c)* over 24 years in the latest period for which figures are available. [198005]

Meg Munn: I have been asked to reply.

In 2007, the forced marriage unit dealt with 168 overseas assistance cases. Of these cases, where age is known, 37 per cent. involved victims under 18, 49 per cent. involved victims aged 18 to 24 and 14 per cent. involved victims over 24.

Homicide: Sentencing

Chris Huhne: To ask the Secretary of State for Justice how many and what percentage of people convicted of murder under *(a)* the Murder (Abolition of Death

Penalty) Act 1965 and *(b)* Powers of Criminal Courts (Sentencing) Act 2000 received the mandatory sentence established by the Act under which they were convicted in each of the last seven years, broken down by age group; and what the average sentence of those convicted of murder under either Act was in each of the last seven years. [197746]

Mr. Hanson: The Murder (Abolition of Death Penalty) Act 1965 provides that the only mandatory sentence for a person convicted of murder is imprisonment for life. The number of such sentences by age group is given in the following table.

The average sentence in terms of time served upon completion of the minimum tariff as established by the court at the time of sentencing is decided by a parole board in each case. We do not collect data on the minimum tariff but Table 10.5 in the Ministry of Justice statistical bulletin, 'Offender Management Caseload Statistics 2006' shows the number of first releases from prison on life licence for mandatory lifers and average time served. Between 2000 and 2006 the mean time served has been between 13 and 15 years.

	Age band	*Total sentenced*
2000	10 to 17	20
	18 to 20	22
	21 and over	219
2001	10 to 17	27
	18 to 20	26
	21 and over	232
2002	10 to 17	20
	18 to 20	23
	21 and over	281
2003	10 to 17	9
	18 to 20	35
	21 and over	233
2004	10 to 17	13
	18 to 20	42
	21 and over	306
2005	10 to 17	19
	18 to 20	40
	21 and over	329
2006	10 to 17	19
	18 to 20	40
	21 and over	313

Information Commissioner: Pensions

Danny Alexander: To ask the Secretary of State for Justice what the rate of employer contributions is to the pension scheme of which employees at the Office of the Information Commissioner are members. [198610]

Mr. Wills: The average accruing superannuation liability charges (ASLCs), which is the pension contribution payable by the Office of the Information Commissioner as an employer, is currently 19.4 per cent. of pensionable pay for the year commencing 1 April 2008. The principal civil service pension scheme (PCSPS) actuary has conducted a full valuation of the scheme liabilities as at 31 March 2007 and, as a result, this contribution will reduce to 18.9 per cent. for the year commencing 1 April 2009.

Internet: Data Protection

Mr. David Hamilton: To ask the Secretary of State for Justice (1) what assessment has been made of the adequacy of safeguards for internet users who have their online activities monitored by internet service providers; [194856]

(2) what consideration he has given to introducing legislation that would require an opt-in for internet users before internet service providers are allowed to collect information about which websites an individual visits. [194857]

Malcolm Wicks: I have been asked to reply.

The Office of the Information Commissioner made a statement on 3 March 2008 that it was in discussion with one company about the nature of its service and the way it uses information about ISP customers. My Department will consider the continued relevance of the current safeguards and legislation in the light of the outcome of those discussions.

Life Imprisonment: Prisoners' Release

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the Answer of 30 January 2008, *Official Report*, column 485W, on life imprisonment: prisoners' release, how many prisoners sentenced to life since 1997 have been subsequently released from custody. [199672]

Maria Eagle: To provide the information requested would still require manual checking of individual records which could be carried out only at disproportionate cost. Data migration for the Department's new database is currently under way and will be subject to data quality assurance. Once the information that the hon. Member has requested is available, I will write to him.

Magistrates

John Mann: To ask the Secretary of State for Justice how many magistrates have experience of *(a)* skilled, *(b)* semi-skilled and *(c)* unskilled manual work. [197324]

Mr. Straw: Occupations of magistrates are recorded in the categories listed in the following table. The table shows how many magistrates are recorded in each category as of March 2008. This information is recorded on appointment, it therefore does not necessarily show their current occupation.

Category	Number of magistrates	Percentage
Self-employed	1,196	4
Not in Paid Employment	2,250	8
Retired	528	2
Manager or Senior Official	5,499	19
Skilled Trades Occupation	726	2
Personal Service Occupation	406	2
Sales or Customer Service Occupation	488	2
Process Plant or Machine Operative	219	1
Never been in paid Employment	51	0
Administrative or Secretarial Occupation	5,181	17
Elementary Occupation	206	1
Professional Occupation	9,880	33
Associate Professional or Technical Occupation	2,786	9
Total	29,416	100

Offensive Weapons: Sentencing

Chris Huhne: To ask the Secretary of State for Justice how many and what percentage of people convicted of possession of a knife in a public place under the Violent Crime Reduction Act 2006 received the maximum sentence of four years in prison established by the Act in each month since its inception, broken down by age group; and what the average sentence was of those convicted of possession of a knife in a public place under the Violent Crime Reduction Act 2006 in each month since it came into force. [197742]

Mr. Straw: The Violent Crime Reduction Act 2006 came into effect in February 2007 and doubled the maximum sentence for people convicted of possession of a knife in a public place from two to four years.

Annual statistics for 2007 will be published in the autumn.

Police Custody

Mr. Garnier: To ask the Secretary of State for Justice how many police cells in England and Wales assigned to Operation Safeguard were being paid for by his Department but not used in each of the last 52 weeks for which figures are available; and what the cost to his Department was in each of those weeks. [180634]

Mr. Straw: Police cells are made available through Operation Safeguard under an agreement between ACPO and the National Offender Management Service.

The following table shows the number of places available under Safeguard and the numbers not used from the week ending 1 April 2007 to the week ending 23 March 2008. The average number of places available and not used are also shown.

Police forces invoice for the total number of cells made available and the Ministry of Justice does not separate costs relating to used and unused cells.

Police cells were used to hold prisoners regularly from 1982 until 1993 and from 1994 to 1995, and use peaked when more than 1,000 prisoners a night were being regularly held in police cells in 1988 and in 1990-92 (based on end of month data).

			Average number of places	
Week ending Sunday	Total number of places available	Total number of places not used	Available per night[1]	Not used per night[1]
1 April 2007	2,289	249	327	36
8 April 2007	2,510	1,554	359	222
15 April 2007	2,629	1,933	376	276
22 April 2007	2,605	1,841	372	263
29 April 2007	2,509	1,208	358	173
6 May 2007	2,624	792	375	113
13 May 2007	2,609	817	373	117
20 May 2007	2,640	370	377	53
27 May 2007	2,631	266	376	38
3 June 2007	2,594	318	371	45
10 June 2007	2,571	91	367	13
17 June 2007	2,835	212	405	30
24 June 2007	2,649	515	378	74
1 July 2007	2,578	1,177	368	168
8 July 2007	2,583	2,569	369	367
15 July 2007	2,583	2,583	369	369
22 July 2007	2,583	2,583	369	369
29 July 2007	1,783	1,266	255	181
5 August 2007	1,768	892	253	127
12 August 2007	1,880	338	269	48
19 August 2007	1,905	1,242	272	177
26 August 2007	1,841	944	263	135

[1] Based on number of nights that Safeguard was available in each week rounded to the nearest whole number.

Lady Hermon: To ask the Secretary of State for Justice on how many occasions prisoners have been housed at police stations in each of the last six months; and at what additional cost. [189748]

Mr. Straw: The following figures give the number of occasions on which prisoners were held in police cells under Operation Safeguard in England and Wales in each of the last six months and the average number of prisoners per night. One occasion is defined as one prisoner night spent in a police cell.

Month	Number of occasions	Average number in Safeguard per night[1]
October 2007	9,565	309
November 2007	7,693	256
December 2007	1,960	63
January 2008	1,766	57
February 2008	9,720	335
March 2008	2,004	65

[1] Based on number of nights that Safeguard was available in each month

Police forces invoice NOMS in arrears and it is not possible to attach a specific cost to each of these figures. However, the current estimated average cost of a Safeguard place is about £385 per night.

In addition there were some 144 ad-hoc lockouts in the last six months. This is an emergency measure to hold prisoners overnight. It is used, for example, when the designated prison's reception will be closed before their arrival time, usually due to the distance of the journey or time of departure from court. Ad-hoc lockouts cost an average £120 per night.

Police cells have been used to hold prisoners before. They were used to hold prisoners regularly from 1982 until 1993, and from 1994-95. They were also used from July to November 2002. Their use peaked in 1988, and peaked again in 1990-92, when more than 1,000 prisoners a night were being regularly held in police cells.

Bob Spink: To ask the Secretary of State for Justice what the average cost per night was for holding people in custody in *(a)* police cells and *(b)* prisons in Essex in the latest period for which figures are available. [190702]

Mr. Straw: Police forces invoice in arrears for Operation Safeguard and it is often difficult deriving an accurate average for a particular force. In the case of Essex, however, invoices and data for Safeguard use between 16 October 2006 and 30 September 2007 allow us to calculate an average cost of £349 for holding a prisoner in a police cell overnight during that period.

This compares with a currently estimated average for 2007-08 across England and Wales of about £385 per night.

The most recent figures for prisons are for 2006-07. In the two Essex establishments the average cost was £80 at Chelmsford and £136 at Bullwood Hall.

Police Custody: Young People

Bob Spink: To ask the Secretary of State for Justice how many juveniles were held overnight in custody in police cells in Essex in each of the last three years. [190701]

Mr. Straw: Since October 2006 the Government have used police cells in significant numbers to help manage pressure in the prison population. The Government's policy however is that juveniles should only be held overnight in police cells in the most exceptional circumstances. It should not happen routinely. Our records indicate that since October 2006 two juveniles have been held overnight in police cells in Essex. Data prior to this cannot be obtained without incurring disproportionate cost.

Prisoners

Mr. Kidney: To ask the Secretary of State for Justice how many offenders who received indeterminate public protection sentences are being held in *(a)* Category C and *(b)* Category D prisons. [199281]

Mr. Hanson: At the end of February 2008 there were *(a)* 480 prisoners serving indeterminate public protection sentences in all Category C prison establishments in England and Wales and *(b)* 50 in all Category D prison establishments in England and Wales.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing and are rounded to the nearest 10.

Mr. Kidney: To ask the Secretary of State for Justice what recent estimate he has made of the impact of licence recalls on the prison population. [199282]

Mr. Hanson: At the end of February 2008 there were 5,509 recalled prisoners held in all prison establishments in England and Wales.

Recalls include all those recalled from licence and other early release schemes.

Mr. Kidney: To ask the Secretary of State for Justice if he will introduce an additional system of reward and penalty for prisoners who have been returned to prison as a result of a licence recall. [199283]

Mr. Hanson: There are no plans to introduce an additional system of reward and penalty for prisoners returned to prison as a result of a licence recall. On entering custody all prisoners are placed on the standard level of the Incentives and Earned Privileges Scheme and the appropriateness of the level is reviewed after one month.

Prisoners: Disabled

Mr. Garnier: To ask the Secretary of State for Justice what steps he is taking to ensure that prisons comply with their responsibilities under the Disability Discrimination Act 2005. [199675]

Mr. Hanson: The Ministry of Justice has just published its Disability Equality Scheme which covers all prisons. It sets out the approach that the Ministry of Justice will take to fulfil its statutory obligations to deliver equality of opportunity to disabled staff, offenders and other persons who come into contact with the Ministry of Justice.

The National Offender Management Service will in April issue a revised prison service order and standard, to expand on and update existing instructions. These explain the duties and responsibilities prisons have for prisoners with disabilities. It sets out those actions which must be undertaken by prison staff to ensure that the duties under the Disability Discrimination Act are met.

Prisoners: Females

Mrs. Curtis-Thomas: To ask the Secretary of State for Justice what mechanisms are in place for the rehabilitation of female youth offenders, with particular reference to programmes involving the construction industry. [199891]

Mr. Hanson: All young women aged under 18 in custody receive a minimum of 22 hours of learning and skills provision, which must contain one third core education (English, Maths etc), one third vocational education, and one third for other education such as physical education and citizenship. In addition, depending on the young woman's individual needs, she may be required to attend offending behaviour programmes or receive specialist substance misuse services.

Although I am not aware of a specific construction programme for young female offenders, the Government have been engaging employers as part of the reducing re-offending Corporate Alliance. The aim of this alliance is to work in partnership with employers to improve the skills and employment outcomes for offenders. To date, we have over [illegible] employers signed up, some of whom are from the construction industry.

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of female offenders *(a)* were given custodial sentences in each of the last 10 years and *(b)* have been given these sentences in 2008 to date; and if he will make a statement. [199905]

Mr. Hanson: The requested information is contained in the following table.

Statistics for 2007 will be published in the autumn. Statistics for 2008 will be published next year.

Number of women sentenced[1] and given immediate custody, all courts, England and Wales, 1997 to 2006

		Female offenders
1997	Total sentenced	216,986
	Immediate custody	5,506
	Percentage of total	2.5
1998	Total sentenced	235,494
	Immediate custody	6,567
	Percentage of total	2.8

Prisoners: Police Custody

Jenny Willott: To ask the Secretary of State for Justice (1) how many prisoners have been held in police cells *(a)* in total and *(b)* in each police force area since the start of 2008; and if he will make a statement; [193017]

(2) how many times police cells have been used to house prisoners overnight under Operation Safeguard in 2008 to date, broken down by police force; and if he will make a statement. [200117]

Mr. Straw: This year, up until the night of 27/28 March, prisoners have been held in police cells under Operation Safeguard on 12,122 occasions, which equates to an average of 139 prisoners per night. An occasion is one prisoner night. The following table breaks this down by police force areas.

Police area	*Occasions*	*Average number in Safeguard per night[1]*
Avon and Somerset	35	0.4
Bedfordshire	82	0.9
Cambridgeshire	269	3.1
Cheshire	1,073	12.3
Cleveland	0	0.0
Cumbria	89	1.0
Derbyshire	189	2.2
Devon and Cornwall	416	4.8
Dorset	74	0.9
Durham	270	3.1
Dyfed Powys	0	0.0
Essex	414	4.8
Gloucestershire	1	0.0
GMP	611	7.0
Gwent	0	0.0
Hampshire	331	3.8
Hertfordshire	316	3.6
Humberside	30	0.3
Kent	835	9.6
Lancashire	174	2.0
Leicestershire	452	5.2
Lincolnshire	2	0.0
Merseyside	41	0.5
MET	2,593	29.8
Norfolk	12	0.1

Police area	Occasions	Average number in Safeguard per night[1]
North Wales	371	4.3
North Yorkshire	20	0.2
Northamptonshire	43	0.5
Northumbria	0	0.0
Nottinghamshire	34	0.4
South Wales	425	4.9
South Yorkshire	179	2.1
Staffordshire	58	0.7
Suffolk	253	2.9
Surrey	9	0.1
Sussex	83	1.0
TVP	530	6.1
Warwickshire	474	5.4
West Mercia	0	0.0
West Midlands	628	7.2
West Yorkshire	700	8.0
Wiltshire	6	0.1

[1] Based on number of nights in 2008 that Safeguard was available to 27/28 March

Police cells were used to hold prisoners regularly from 1982 until 1993 and from 1994 to 1995, and use peaked when more than 1,000 prisoners a night were being regularly held in police cells in 1988 and in 1990-92 (based on end of month data).

Prisoners: Rehabilitation

Mr. Garnier: To ask the Secretary of State for Justice when he plans to introduce dedicated funding for alcohol misuse treatment services in all prisons. [199689]

Mr. Hanson: A range of interventions to support those with an alcohol problem are already in place as follows:

clinical services (alcohol detoxification and health care support), available in all local and remand prisons, as well as some young offender institutions;

Alcoholics Anonymous run groups in 67 per cent. of prisons;

where alcohol is part of poly-drug misuse, (counselling, assessment, referral, advice and throughcare (CARAT) services) are available in all prisons with the exception of Blantyre House prison;

for those prisoners benefiting from the roll-out of the Integrated Drug Treatment System (IDTS), a 90 minute alcohol awareness session has been developed;

a 12-Step programme is being piloted at Bullingdon prison; and

the Young Persons Substance Misuse Service for 16 to 18-year-olds provides support for those with both alcohol and drug problems in 18 prisons.

There are no current plans to introduce dedicated funding for alcohol misuse treatment services in prisons.

Prisoners: Training

David Howarth: To ask the Secretary of State for Justice what the *(a)* initial contract value and *(b)* outturn in each year since establishment was of each contracted-out secure training centre. [199710]

Mr. Hanson: The information requested is commercially sensitive and may not be disclosed.

David Howarth: To ask the Secretary of State for Justice what the cost was of each *(a)* place and *(b)* offender in each contracted-out secure training centre in each year since establishment. [199711]

Mr. Hanson: The Youth Justice Board has been responsible for overseeing the contracts for the four secure training centres (STC) since 1 April 2000. Data are available from that date. The pricing mechanism is not based on the cost-per-young-person, but on cost-per-available-place. Detailed cost information is commercially sensitive, but the average annual cost of a secure training centre place, excluding VAT, is set out in the following table:

Financial year	Average cost per place at a secure training centre (£)
2000-01	132,000
2001-02	134,000
2002-03	131,000
2003-04	136,000
2004-05	143,000
2005-06	145,000
2006-07	149,000

Source:
Data provided by the Youth Justice Board from financial systems.

David Howarth: To ask the Secretary of State for Justice what liquidated damage clauses there are in each contract of each contracted-out secure training centre (STC); how many times those clauses were used in respect of each STC in each year since establishment; and how much was paid by each centre in each year. [199712]

Mr. Hanson: There are liquidated damages clauses in each secure training centre contract. Hassockfield, Rainsbrook and Oakhill secure training centres all made liquidated damages payments in their first year of operation. Payments are set out in the following table:

Establishment	Year of opening	Liquidated damages payments (£)
Hassockfield	1999	35,759.20
Medway	1998	0.00
Oakhill	2004	311,797.20
Rainsbrook	1999	155,152.20

Source:
Data provided by the Youth Justice Board.

Prisons: Cells

Jenny Willott: To ask the Secretary of State for Justice (1) how many prisoners held in a cell designed for two cellmates shared their cell with two others in *(a)* 2006-07 and *(b)* 2007-08; and if he will make a statement; [199886]

(2) how many prisoners held in a cell designed for one inmate shared their cell with one other in *(a)* 2006-07 and *(b)* 2007-08; and if he will make a statement. [199887]

Mr. Hanson: The National Offender Management Service (NOMS) is in the process of collating a complete set of figures for 2007-08 at present. The following tables show the average number of prisoners reported as being doubled in cells certified to hold one person and trebled in cells certified to hold two persons, for 2006-07 and 2007-08 to the end of February. Data for 2007-08 remain provisional.

Financial year	Number of prisoners trebling up in cells designed for two
2006-07	1,090
2007-08 (April-February)	1,129

Financial year	Number of prisoners doubling up in cells designed for one
2006-07	18,588
2007-08 (April-February)	19,231

Sentencing

Chris Huhne: To ask the Secretary of State for Justice pursuant to the answer of 31 March 2008, *Official Report*, column 562W, on sentencing, (1) what the figures in the table represented as a percentage of the total number of people convicted of a third class A drug trafficking offence in each year since 2000; and what the average sentence was of all those convicted of such an offence in each of those years; [199529]

(2) what the figures in the table represented as a percentage of the total number of people convicted of a third domestic burglary offence in each year since 2000; and what the average sentence was of all those convicted of such an offence in each of those years. [199530]

Mr. Hanson: I am unable to answer the questions, because the Courts Proceedings Database does not include criminal histories.

The Courts Proceedings Database does not allow us to identify all those offenders who have committed their third class A drug trafficking offence or third domestic burglary. We can identify those who were given the minimum only through a specific disposal code. To identify all these individuals would require us to extract data from the Police National Computer (PNC). This would take time and we think would not be reliable for drug trafficking as our extract of PNC records police prosecutions only. In addition, the results from the two separate administrative systems may not be directly comparable due to differences in recording practice.

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of *(a)* males and *(b)* females given prison sentences in each of the last 10 years were aged (i) below 16, (ii) 16 to 18, (iii) 19 to 21, (iv) 22 to 25, (v) 26 to 30, (vi) 31 to 40, (vii) 41 to 50 and (viii) 51 years or over; and if he will make a statement. [200114]

Mr. Hanson: The requested information is contained in the following tables. The data are broken down into the age groups of juveniles (10-17), young adults (18-20) and adults (21+).

For persons aged 21 and over this includes all adult persons where the age has not been reported to the Ministry of Justice.

Statistics for 2007 will be published in the autumn.

[1] Principal offence basis.
[2] Percentage of the total number of males and females respectively sentenced for all ages, all courts.[S1,a]

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source:
RDS-NOMS, Ministry of Justice

Jenny Willott: To ask the Secretary of State for Justice what the average age was of *(a)* males and *(b)* females given a custodial sentence in each of the last 10 years; and if he will make a statement. [200115]

Mr. Hanson: All adult offenders where the age has not been reported to the Ministry of Justice are assumed to be age 25. This will create a bias in the calculation of average age and therefore we do not produce figures on this basis.

Sentencing: Young People

Mr. Ruffley: To ask the Secretary of State for Justice how many sentences were given to young offenders, broken down by type of offence, in each of the last 10 years. [199329]

Mr. Hanson: The available information is contained in the table.

Statistics for 2007 will be published in the autumn.

Number of persons sentenced[1] by type of offence and age group, all courts, England and Wales, 1997-2006

Number of persons

Age group	Offence group	Year 1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
10 to 17[2]	Violence against the person	5,886	5,994	6,905	6,424	6,910	6,870	6,577	6,902	7,444	7,559
	Sexual offences	468	468	488	467	510	557	449	587	556	500
	Burglary	8,624	8,487	7,766	6,849	6,267	6,418	5,752	5,935	6,045	6,169
	Robbery	2,343	2,160	2,039	2,238	2,789	2,804	2,638	2,964	3,089	3,733
	Theft and handling stolen goods	19,573	21,840	22,627	21,006	20,556	18,436	16,540	16,798	17,061	16,351
	Fraud and forgery	806	962	1,078	1,017	1,012	945	810	762	692	601
	Criminal damage	2,255	2,290	2,682	2,576	2,897	2,908	2,946	3,234	3,274	3,678

RDS-NOMS, Ministry of Justice

Suicide Prevention Strategy

Dan Rogerson: To ask the Secretary of State for Justice if he will consider whether any revision of legislation is required to assist the work of the Suicide Prevention Strategy for England; and if he will make a statement. [198902]

Maria Eagle: We are considering whether the law in this area could sensibly be strengthened or clarified and will announce our conclusions shortly.

Dan Rogerson: To ask the Secretary of State for Justice how many cases of successful prosecution for online promotion of suicide there have been; and if he will make a statement. [198903]

Maria Eagle: I refer the hon. Member to the reply I gave to the hon. Member for North Wiltshire (Mr. Gray) on 26 February 2008, *Official Report*, column 1521W.

Data collected on prosecutions for assisting or attempting to assist suicide does not differentiate between online and off-line actions but the overall number of prosecutions for these offences is low.

Supervisions Orders: Costs

Mr. Drew: To ask the Secretary of State for Justice (1) what the average cost of a supervision order was in England and Wales in the most recent 12 month period for which figures are available; [192584]

(2) what the average cost of a supervision order was with *(a)* one, *(b)* two and *(c)* three or more conditions in the most recent 12 month period for which figures are available. [192585]

Beverley Hughes: I have been asked to reply.

These data are not collected centrally.

Voting Behaviour

Mr. Pickles: To ask the Secretary of State for Justice what plans his Department has to *(a)* consider, *(b)* consult on and *(c)* conduct research into compulsory voting; and if he will make a statement. [198983]

Mr. Wills: There are currently no plans to consider compulsory voting. However, we are considering the factors that motivate people to exercise their right to vote and how we can promote the act of voting as a civic duty tied to the rights and responsibilities we all share as citizens. I will be making further announcements on this in due course.

Young Offenders: Custodial Treatment

Mr. Laws: To ask the Secretary of State for Justice what information his Department collects on the academic achievement of young people in custody; and if he will make a statement. [174266]

Beverley Hughes: I have been asked to reply.

The Department does not hold central records on the achievements of young people in custody. Under the Offender Learning and Skills Service (OLASS), rolled out across England in August 2006, the Learning and Skills Council (LSC) collects data on the academic achievements of young people in Young Offender Institutions. The LSC records literacy, numeracy, ICT and vocational training qualifications separately as well as GCSEs and AS/A level and any personal and social skills qualifications. However, for young people in custody still registered at learning providers in the community,

their achievements will be attributed to the learning provider with which they are registered, rather than the custodial establishment's LSC provider. Therefore the LSC figures do not provide records of 'all' of the academic achievements of 'all' young people in YOIs. The LSC figures also do not include the academic achievements of young people in Secure Children's Homes or Secure Training Centres. However, in the context of the Green Paper a settlement was announced in the Children's Plan. We are examining how the academic projects and attainment of all young people in custody can be collected and monitored.

Written Answers to Questions

Tuesday 22 April 2008

OLYMPICS

Olympic Games 2012

Sandra Gidley: To ask the Minister for the Olympics what assessment she has made of the likely effects of the 2012 Olympics on public health. [199363]

Tessa Jowell: The 2012 games are our best chance in a generation to encourage people to be more active. We will set out clear targets and initiatives for increasing participation in sport and physical activity in the forthcoming Legacy Action Plan.

Several regional physical activity networks working on behalf of the Department of Health have commissioned a review of the health and physical activity benefits from hosting previous Olympic games and other major sporting events and the potential benefits to the UK from hosting the 2012 games. This work is being carried out by the Centre for Sport, Education and Activity Research at Canterbury Christ Church university. Findings from the research will provide recommendations on how best we can use the 2012 games to inspire, engage and encourage people to lead healthier and more active lifestyles.

WALES

Bus Services: Concessions

Mark Williams: To ask the Secretary of State for Wales what steps he is taking to facilitate the cross-border application of concessionary bus passes; and if he will make a statement. [198748]

Mr. Paul Murphy: The implementation of any cross-border concessionary travel arrangements is a matter for the Welsh Assembly Government, local authorities, and the Department for Transport. I have asked officials to keep me informed of developments in this area.

The Concessionary Bus Travel Act (2007) came into force at the start of this month and implements a concessionary scheme in England. The Welsh scheme has been in place since 2002.

A fully reciprocal UK-wide scheme would require secondary legislation to be put in place and at present the focus of the Act is to ensure a successful introduction of the new England-wide concession.

English and Welsh local authorities are currently able to come to individual agreements with bus companies for their residents to use their passes for cross-border travel as they see fit.

Departmental Public Participation

Stewart Hosie: To ask the Secretary of State for Wales how many public consultations were held by his Department in the last three years; and how many respondents took part in the process for each consultation. [198588]

Mr. Paul Murphy: The Wales Office has held two public consultations in the last three years. The first consultation on the "Better Governance of Wales" White Paper received 82 respondents. The other relating to the Government's 2007 Draft Legislative programme (as part of the wider consultation by the Cabinet Office) received 18 respondents.

TRANSPORT

Foreign-registered Lorries

9. **Christopher Fraser:** To ask the Secretary of State for Transport if she will bring forward a proposal for a scheme under which foreign-registered lorries pay to use the network. [199763]

13. **Mr. Mackay:** To ask the Secretary of State for Transport if she will bring forward a proposal for a scheme under which foreign-registered lorries pay to use the highway network. [199767]

Jim Fitzpatrick: As announced in Budget 2008, the Government will not be progressing a vignette scheme of the type raised by the hon. Gentlemen, at this stage.

However, in the last two years alone, we have more than doubled enforcement targeted on heavy goods vehicles on international journeys, and we have just announced a £24 million package to allow the Vehicle and Operator Services Agency (VOSA) to increase their safety checks by a further 50 per cent. This means 97 more enforcement staff, 24/7 checking at key sites, and new enforcement sites which should lead to a near doubling of prohibitions through 75,000 more checks being carried out.

Rail Services: Chelmsford to Liverpool Street Line

10. **Mr. Burns:** To ask the Secretary of State for Transport what assessment she has made of the quality of service on the Chelmsford to Liverpool Street railway line. [199764]

Mr. Tom Harris: Passenger surveys are undertaken by Passenger Focus rather than the Department. The results of the latest National Passenger Survey were published on 24 January 2008. They show an overall satisfaction of 75 per cent. for National Express East Anglia passengers. This compares with a national overall satisfaction of 81 per cent.

Railways: Capacity Enhancement

11. **Mr. Evennett:** To ask the Secretary of State for Transport what recent assessment she has made of the merits of capacity enhancement on the rail network. [199765]

Mr. Tom Harris: Rail passenger numbers continue to grow. The Rail White Paper, which we published in July 2007, described how the Government intend to work with the industry to ensure that the network can cater for that growth. At the heart of our plans is the £10 billion that we have committed to spend on enhancing rail capacity between 2009 and 2014.

Rail Fares: Effects on Carbon Dioxide Emissions

12. **Andrew Rosindell:** To ask the Secretary of State for Transport what assessment she has made of the effects of levels of rail fares on levels of carbon dioxide emissions from transport. [199766]

Mr. Tom Harris: Last autumn we published the discussion document "Towards a Sustainable Transport System". In it we announced our intention to look at the full range of options—including pricing—for putting transport on to a less carbon-intensive path. We expect to publish our analysis by spring next year.

Integrated Transport: Northern England

14. **Tony Lloyd:** To ask the Secretary of State for Transport what steps her Department has taken to improve the integrated transport infrastructure in the North West and other Northern regions. [199768]

Ms Rosie Winterton: Total public sector transport spend across the three northern regions was over £3.5 billion in 2006-07, 66 per cent. higher than in 2001-02.

The total spend in the North West increased by 76 per cent. over the same period. Over the next three years, local authorities across the north are benefiting from £1.35 billion of Local Transport Plan funding.

European Mobility Week

15. **Mr. McGovern:** To ask the Secretary of State for Transport what plans her Department has to mark European Mobility Week 2008. [199769]

Ms Rosie Winterton: The Department has no plans directly to mark European Mobility Week 2008. We fund the London European Partnership for Transport (LEPT) to represent us on sustainable transport issues in Europe.

Road Congestion: West Yorkshire

16. **Philip Davies:** To ask the Secretary of State for Transport what steps her Department is taking to reduce road congestion in West Yorkshire. [199770]

Ms Rosie Winterton: In 2006, the Department for Transport agreed an urban congestion target with the West Yorkshire Transport Authority.

We have also provided West Yorkshire with £210 million of funding to support local transport improvements over the next three years.

Terminal 5

18. **Mr. Amess:** To ask the Secretary of State for Transport what recent reports she has received on the operation of Heathrow Terminal 5. [199772]

Jim Fitzpatrick: The Department for Transport has been in regular contact with both British Airways (BA) and British Airports Authority (BAA) since T5 opened to monitor the situation and offer assistance and I visited the terminal on its first weekend of operation to see the situation at first hand.

The Secretary of State has made clear that she expects BA and BAA to continue to work together to resolve any remaining problems and also to agree a realistic timetable for the move of BA's long haul operations so that as little disruption as possible is caused to their own passengers and to those from other airlines.

A417

19. **Mr. Laurence Robertson:** To ask the Secretary of State for Transport what recent discussions she has had with the Highways Agency on improvements to the A417 in the Nettleton Bottom and Crickley Hill areas of Gloucestershire; and if she will make a statement. [199773]

Mr. Tom Harris: On 12 March 2008 the Highways Agency informed me of the results of the review into the possibility of a lower cost solution to address the problems between Cowley and Brockworth on the A417 in Gloucestershire.

The hon. Gentleman will also know that this matter was fully debated last night at the A417 Improvement Scheme Adjournment Debate, secured by the hon. Member for Cotswold (Mr. Clifton-Brown).

The HA concluded that the original major scheme 'the brown route' remains the optimal solution.

Aircraft Engine Lubricants: Risks to Passengers and Crew

20. **Mr. Bacon:** To ask the Secretary of State for Transport what recent assessment she has made of potential health risks to airline passengers and crew from vapour emanating from engine lubricants. [199774]

Jim Fitzpatrick: Studies such as the European CabinAir project have shown that normally the levels of chemical and biological contaminants in aircraft are less than in many ground based work environments. The independent Committee on Toxicity completed a substantial review of evidence in September 2007 and concluded that it did not establish (or rule out) a link between cabin air and pilot ill health. The Committee recommended research to sample cabin air during 'fume events', which it estimated occur on 0.05 per cent. of flights overall. Such sampling has not been done before. The Government accepted the recommendation and has begun work to develop the methodology. Details are on the Department for Transport website.

Airport Expansion

21. **Mr. Hands:** To ask the Secretary of State for Transport what recent representations she has received on the expansion of Heathrow airport and London City airport. [199775]

Jim Fitzpatrick: The Department has received many thousands of responses to the "Adding Capacity at Heathrow Airport" consultation which examined a number of Heathrow expansion issues. This closed on 27 February and all the responses are currently being analysed. We expect to take policy decisions later this year.

London City airport has submitted a planning application to Newham council to increase the number of flights from its current level. In view of the Secretary of State's quasi-judicial role in the planning process, it would not be appropriate to comment on the merits or otherwise of this application.

Concessionary Bus Travel: North Yorkshire

22. **Miss McIntosh:** To ask the Secretary of State for Transport what recent representations she has received on the implementation of the national concessionary bus fare scheme in North Yorkshire. [199776]

Ms Rosie Winterton: Members and local councillors have made representations regarding concessionary travel in North Yorkshire. In addition, the Department received representations from local authorities in Harrogate, Ryedale and York in response to the consultation last autumn on the formula distribution for the special grant for the new England-wide concession, implemented on 1 April.

Left-hand Drive Heavy Goods Vehicles: Safety

23. **Mr. Baron:** To ask the Secretary of State for Transport what steps the Government are taking to improve the safety record of left-hand drive heavy goods vehicles. [199777]

Jim Fitzpatrick: We are continuing to increase the level of enforcement activity undertaken by the Department's Vehicle and Operator Services Agency targeted against heavy commercial vehicles on international journeys. We have made significant additional funding available to VOSA for this purpose over the last couple of years, and we will be adding a further £24 million over the next three years. This means 97 extra enforcement staff, 24/7 checking at key sites, as well as two additional check sites, all leading to around 75,000 additional checks.

We will also be adding a significant new deterrent against non-compliance with the introduction of 'on-the-spot financial penalties' early next year. This will mean that non-UK-resident offenders will—at last—be facing similar enforcement action to that taken against UK vehicle operators and to that which has been taken by other member states against UK drivers for many years.

Bus Services Operators' Grant

24. **Mr. Truswell:** To ask the Secretary of State for Transport what plans she has to consult interested parties as part of the review of the Bus Services Operators' Grant. [199778]

Jim Fitzpatrick: We published on 13 March a consultation document, "Local Bus Service Support—Options for Reform", on proposed changes to Bus Service Operators Grant to align it more closely with environmental objectives and improve bus services.

We look forward to receiving the views of interested parties; the closing date for responses is 5 June.

Facilities for Cyclists

Lyn Brown: To ask the Secretary of State for Transport what steps her Department has taken to encourage the provision of facilities for cyclists by local authorities and other employers. [199760]

Ruth Kelly: I recently announced record funding of £140 million to Cycling England to support local authorities and others to improve cycling provision.

The Department has also asked local authorities to develop cycling strategies through their local transport plans.

Pricing Mechanisms: Modes of Travel

Jo Swinson: To ask the Secretary of State for Transport what her policy is on the use of pricing mechanisms to influence mode of travel. [199771]

Ms Rosie Winterton: The Government's policy was set out by my right hon. Friend the Secretary of State in "Towards a Sustainable Transport System".

This will be further developed in the Green and White Papers that will be brought before this house over the next 12 months. This process includes significant consultation with key stakeholders and the representatives of the consumers of transport services.

Cars: Research

Mr. Greg Knight: To ask the Secretary of State for Transport whether her Department has *(a)* conducted and *(b)* evaluated research on the most economical average speed for cars. [199422]

Jim Fitzpatrick: The Department has not conducted or evaluated research specifically on this subject. However our programme of vehicle emissions testing to develop 'emissions factors' for the purposes of national emissions inventory modelling does include measuring carbon dioxide emissions (and hence fuel economy) under a range of different types of driving condition. These include testing under relatively constant speed driving conditions from around 58 miles per hour to 70 miles per hour. The results from these tests show carbon dioxide emissions increasing over this speed range. In deriving emissions factors, our contractors also consider the results of similar research conducted elsewhere in the EU.

The Department does not have carbon dioxide emissions data for constant speeds below 58 miles per hour; however emissions would be expected to decrease at lower constant speeds.

The emissions factors characterise emissions against average driving speed. Below 58 miles per hour the characteristics are based on driving patterns featuring accelerations and decelerations rather than constant speed driving.

Railways: Scotland

John Barrett: To ask the Secretary of State for Transport what recent progress has been made on plans for a high-speed rail link between Scotland and England. [199754]

Mr. Tom Harris: Improvements to the West Coast Main Line are already delivering faster journeys between England and Scotland—and completing the West Coast upgrade will lead to further improvements in both capacity and journey times.

But we are also planning for the longer term. That is why we have asked Network Rail to lead work on options for the future, including the possibility of new lines.

Roads

Miss McIntosh: To ask the Secretary of State for Transport when the primary route network in England was last fully reviewed; when she next intends to review it to reflect the effects of changes in places of economic and social importance on traffic importance; and what criteria are set for the network to ensure that it is appropriate and that its operation is effective. [199461]

Mr. Tom Harris: The Primary Route Network (PRN) is a national network which exists to aid navigation for long-distance traffic. It connects Primary Route Destinations in England and comprises all non-motorway trunk roads and the most important local roads.

A review of the Primary Route Network took place in the mid-1980s. The Regional Offices of the Department for Transport (as it then was) conducted the review in consultation with county highway authorities.

The approval of minor alterations to the PRN is delegated to the Government Offices for the Regions (changes where there are no implications for signage beyond the immediate section of the road which is subject to the change). Where a Government Office wants a major change to the network or change to the primary destinations this must be approved by the Department for Transport centrally. The criteria used to set the network are that the Primary Routes must be the most satisfactory routes for through traffic between places of traffic importance in the opinion of the Secretary of State (although for non-trunk roads this opinion will be formed after consultation with the traffic authority for the road).

We currently have no plans to undertake a fundamental review of the current Primary Route Network but in taking forward our proposals for improving our longer-term strategic transport planning processes, as set out in Towards a Sustainable Transport System, we will of course ensure coherence between the long-term planning for our strategic national transport networks, and the Primary Route Network.

Trains

Norman Baker: To ask the Secretary of State for Transport pursuant to the answer of 25 March 2008, *Official Report*, column 97W, on trains, in what specific ways her Department plans to be involved in the specification process for the intercity express programme train; and what specific advantages she expects this involvement to bring. [199344]

Mr. Tom Harris: We have developed the business case, led engagement with the industry, prepared rolling stock and service specifications, developed tender documents and are leading the procurement process.

This involvement ensures the Intercity Express Programme (IEP) provides best whole-life value for money; optimising across train, maintenance and infrastructure; deals with long-term capacity requirements including best use of existing rolling stock; and secures the all-industry collaboration needed to deliver the right result for passengers.

There is a good business case for the Intercity Express Programme, delivering better value for money and more benefits than would be the case if the Department for Transport left this to the industry alone to pursue.

Transport: Exhaust Emissions

Norman Baker: To ask the Secretary of State for Transport what estimate she has made of the likely volume of carbon dioxide emissions from *(a)* road traffic and *(b)* domestic aviation in (i) 2010, (ii) 2015 and (iii) 2025. [192958]

Jim Fitzpatrick: The requested estimates of carbon dioxide emissions are set out in the following table:

In million tonnes of CO_2

	2010	*2015*	*2025*
Road transport	115.5	117.2	112.3
Domestic aviation	2.6	2.5	3.2

For road traffic, we have applied the forecast percentage change in CO_2 emissions between 2003 and 2010, 2015 and 2025 from the Department's National Transport Model to DEFRA's official CO_2 inventory data for 2003. For domestic aviation we have supplied estimates under central assumptions of demand growth and fuel efficiency.

These forecasts are in the absence of further policy measures and are consistent with what was announced in the Energy White Paper (2007). Further detail of the assumptions and policies underlying the road forecasts is available from:

http://www.dft.gov.uk/pgr/economics/ntm/071023_AnnualForecast07.pdf

Further details of the approach used for the aviation forecasts can be found in "UK Air Passenger Demand and CO_2 forecasts" published by the DfT in November 2007:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/airpassdemandfullreport.pdf

West Coast Railway Line

Bob Spink: To ask the Secretary of State for Transport if she will review her policy on the provision of additional carriages for services on the West Coast Main Line. [199890]

Mr. Tom Harris: No. An examination has already been made of the options available to Government to secure additional accommodation on the Pendolino trains. I am satisfied that the proposed way forward, led by the Department, represents best value of money, the fastest way to deliver the required capacity and compliance with relevant legislation.

COMMUNITIES AND LOCAL GOVERNMENT

Carbon Monoxide: Alarms

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the guidance issued by *(a)* her Department and *(b)* the Housing Corporation to (i) social landlords and (ii) local authorities on the use of carbon monoxide alarms in (A) residential care, (B) sheltered housing and (C) social housing in the last five years. [198651]

Mr. Iain Wright: There has been no guidance specifically for targeted towards social landlords relating to the use of carbon monoxide alarms. However, in 2006 the Housing Health and Safety Rating System came into force for all housing, including social housing. The guidance associated with this system contains advice on the use of carbon monoxide alarms.

The Housing Corporation regulates by means of the regulatory code which sets out the fundamental obligations on Housing Associations in meeting the Corporation's regulatory requirements. Under the code, housing associations are required to comply with the law, and to ensure that "the homes their residents live in are well maintained and in a lettable condition". The issue of detailed guidance on maintenance or health and safety issues does not form part of the Corporation's duties. The Corporation would however, expect associations to adopt and follow best practice issued by the relevant agencies, e.g. the Health and Safety Executive.

Construction: Crime

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what steps the Government has taken to reduce illegal construction since 1997. [196523]

Mr. Iain Wright *[holding answer 27 March 2008]*: The Government take the issue of illegal construction (i.e. construction undertaken without proper planning permission or building control approval) very seriously and aims to ensure that the building control and planning systems support local authorities in identifying and dealing with illegal construction activities effectively.

The 2006 planning enforcement review confirmed that local planning authorities had sufficient enforcement powers to deal with breaches of planning control.

There are penalties for developers who commence or complete development prior to obtaining planning permission. In practice, anyone who undertakes development without first obtaining the necessary permission puts the investment at considerable risk, especially in the case of a building which may subsequently have to be demolished. Alternatively, they may find themselves subject to a summary penalty on conviction of an enforcement notice or stop notice offence. The maximum penalty in the magistrates court is £20,000 and there is no upper limit on the penalty which the Crown Court may impose on conviction.

Since 2005, local planning authorities can also now serve a temporary stop notice. The temporary stop notice enables the local planning authority to require a breach of planning control to stop immediately for a period of 28 days, during which the local planning authority can decide whether to take further enforcement action. In addition to enforcement notices, stop notices and temporary stop notices, authorities may also apply for a planning injunction in the High Court or county court, to restrain an actual or expected breach of planning control. Once an injunction has been granted, anyone who fails to comply with its terms risks imprisonment.

In the case of building control, local authorities work with builders to identify where the work they are undertaking does not comply with the building regulations and resolve any issues. However, where enforcement action is necessary they have a range of enforcement options available to them such as serving enforcement notices and fines through the courts.

To support local authorities' enforcement efforts, legislation came into force on 6 April which extended the time limit from six months to two years for local authorities to prosecute offenders for breaches relating to energy efficiency requirements. This will be widened to cover all breaches of the building regulations as soon as possible. We are also consulting on extending the time limits in other areas, for instance the issuing of an enforcement notice requiring non-compliant work to be pulled down or rectified.

The current consultation on the Future of Building Control proposes a further range of enforcement mechanisms to prevent illegal work from going ahead such as stop notices and fixed monetary penalties. There are also proposals to help industry forward plan and comply with the building regulations by moving towards a more planned approach to building regulation and to free up more time and resources for local authorities to focus on high-risk building work.

Disabled

Mr. MacNeil: To ask the Secretary of State for Communities and Local Government what targets her Department has set in relation to its employment of people with disabilities over the next five years. [199052]

Mr. Dhanda: Currently 6.1 per cent. of Communities staff have reported a disability, based on a diversity data completion rate of 74 per cent. In March 2008, we set an aspirational target to increase this figure to 8 per cent. of staff by end March 2009, based on London work force data as published by the London Assembly. However, we have moderated our target to account for a large proportion of our recruitment being cross-civil service rather than external.

On 31 March 2008 we achieved the 10 Point Diversity Plan cross-Government target for disabled staff in the senior civil service (SCS). The target was set by Cabinet Office as 3.2 per cent., which we exceeded with 4.7 per cent. of our SCS reporting a disability, based on a SCS reporting level of 77 per cent.

This result will be reported to Cabinet Office in due course, who are expected to confirm and publish the figures in the coming year. We will also assist in the drafting of a new 10 Point Diversity Plan, which will build on these results and set revised targets for all Government Departments.

Energy: Conservation

Jim Cousins: To ask the Secretary of State for Communities and Local Government what energy efficiency increases she has required to be achieved by the Bridging Newcastle Gateshead Housing Market Renewal Pathfinder. [196111]

Mr. Iain Wright: Bridging Newcastle Gateshead has not been set any specific energy efficiency targets. However, it will be expected to adhere to implementing energy efficiency standards, environmental sustainability and eco-design in its programme as set out in its business plan for 2008-11. On a wider front, the Government have set out an ambitious timetable with the aim of achieving zero carbon new homes by 2016, including the progressive tightening of building regulations in 2010 and 2013.

Homelessness: Immigration

Damian Green: To ask the Secretary of State for Communities and Local Government what plans her Department has to assess *(a)* levels of and *(b)* trends in homelessness among immigrants from (i) A8 countries and (ii) non-EU countries. [199851]

Mr. Iain Wright: The information requested is as follows.

Statutory homelessness

Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level. This information includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available.

(i) A8 nationals

Information about decisions taken under the homelessness legislation for A8 (and more recently A2) headed households is published quarterly, on CLG's Housing Statistics website in "Live Tables".

Table 629 contains data on A8 households accepted as owed a main homelessness duty, including the reason for eligibility, from May 2004 onwards:

http://www.communities.gov.uk/documents/housing/xls/1141674

Data for 2007 show that 425 A8-headed households were accepted as being owed the main homelessness duty, comprising 0.7 per cent. of the total acceptances over the same period. The quality of A8 foreign national data submitted is improving, and we are working with local authorities to continue this improvement.

(ii) Non-EU nationals

We are also working with local authorities to obtain better information on numbers of homelessness decisions and acceptances for other, non-EU foreign nationals on the P1E statutory homelessness form. These figures will be published as soon we are satisfied that both the response rate and quality of the data reported is sufficiently robust.

Rough sleeping

Local authorities who conduct rough sleeper counts collect information on any individuals sleeping rough, and these are published annually on our website. These figures include those from EU accession states and other countries, but a breakdown of nationality is not provided.

Housing: Construction

Mr. Harper: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect of the introduction of Lifetime Homes on the plot size of new homes; and what discussions she has had with *(a)* the house building industry and *(b)* disability organisations on this matter. [200058]

Mr. Iain Wright: In 'Lifetime Homes, Lifetime Neighbourhoods: A National Strategy for Housing in an Ageing Society', published by CLG in February 2008, we stated that we would review the take up of Lifetime Homes Standards in all sectors in 2010 with a view to bringing forward regulation in 2013 if take up has not matched expectations.

While our assessment of the effect of the introduction of Lifetime Homes on the plot size of new homes was informed by findings from 'Designed for Manufacture, Lessons Learned' (English Partnerships, CLG, June 2006) my officials are considering what work needs to be commissioned to further develop the evidence base for the proposed review and this will include additional research into the potential impact of Lifetime Homes Standards on affordability and density.

There has been formal consultation on Lifetime Homes Standards in the Green Paper 'Homes for the future: more affordable, more sustainable' (CLG, July 2007), 'The future of the Code for Sustainable Homes—Making a rating mandatory' (CLG, July 2007) and the pre-strategy document for the 'National Strategy for Housing in an Ageing Society' (CLG, May 2007). The Home Builders Federation Retirement Housing Group, industry representatives, Age Concern and Help the Aged were among a variety of organisations represented on the Housing and Older People Development Group, the expert reference group that advised on the development of the 'National Strategy for Housing in an Ageing Society' from 2006.

My officials are also continuing to work with key stakeholders, including representatives of the house building industry and disability organisations to explore how best to develop accessible and adaptable housing while ensuring we can meet our housing supply targets.

Housing: Planning

Bob Spink: To ask the Secretary of State for Communities and Local Government what guidance she has issued to local authorities on *(a)* setting local development frameworks on the use of (i) Green Belt

land, (ii) urban fringes and (iii) intensification of urban areas for residential construction and *(b)* balancing the use of these land categories; and if she will make a statement. [199370]

Mr. Iain Wright: Guidance to local planning authorities on the process and general content of local development frameworks (LDFs) is set out in Planning Policy Statement 12. Government have also published a number of national planning policy statements (PPSs) and planning policy guidance notes (PPGs) on different matters which should be taken into account by local planning authorities in preparing their LDFs.

PPG2 sets out national policy on green belts. This makes clear that there should be a presumption against inappropriate development in designated green belt land. Such development should not be approved, except in very special circumstances. PPS3 on 'Housing' sets out national planning policies for achieving high quality housing which make the most efficient and effective use of land to meet identified needs for new housing. PPS3 is not prescriptive in terms of directing housing to particular areas but asks local planning authorities to identify, through the preparation of strategic housing land availability assessments, specific, suitable sites in their plans which may include sites within the urban fringes and existing urban areas. A site is suitable if it offers a suitable location for housing development and would contribute to the creation of sustainable, mixed communities.

It is for local planning authorities to assess a site's suitability for housing, taking into account factors such as policy restrictions, such as designations or protected areas; physical problems of restrictions, such as access, infrastructure, and flood risk; potential impacts, including effect upon landscape features and conservation; and the environmental conditions which would be experienced by prospective residents.

Housing: Renewable Energy

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what definition of *(a)* off-site and *(b)* on-site her Department uses for the purposes of requiring a set amount of renewable energy to be produced in relation to residential developments. [198881]

Mr. Iain Wright: The Department does not require a set amount of renewable energy to be produced in relation to residential developments.

From 2016, all new homes will have to reach the zero carbon standard which will be set out in building regulations. The current definition of zero carbon homes as set out in the policy statement 'Building a Greener Future' means that over a year, the net carbon emissions from all energy use in the home are zero. The policy statement suggests that the zero carbon standard should be achieved through measures on the site of the dwelling or development, or through a low or zero carbon energy source connected to the development using a private wire. However, this will be the subject of a consultation process in the summer when we will be consulting on how the zero carbon 2016 standard should be achieved with a view to finalising the definition by the end of 2008.

Planning: Tendring

Mr. Carswell: To ask the Secretary of State for Communities and Local Government what percentage of total planning applications in Tendring district were for development on garden sites classified as brownfield land in the most recent period for which figures are available. [200213]

Mr. Iain Wright: The information requested is not held centrally. Communities and Local Government collects quarterly aggregate statistics on development control from all local planning authorities in England. However, we do not collect information on individual planning applications.

Planning: Travelling People

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what planning aid funding has been given to Traveller groups by her Department in each of the last three years. [198870]

Mr. Iain Wright: No funding was provided for this purpose in 2005 or 2006. Communities and Local Government provided £9,011 to Planning Aid in 2007 to enable them to deliver training to Gypsies and Travellers on the planning system.

Property: Database

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst (Robert Neill) of 18 February 2008, *Official Report*, column 49W, on property: database, what central funding London Connects *(a)* has received and *(b)* is receiving for Valuebill. [194367]

John Healey: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 17 April 2007, *Official Report*, column 525W. No further funding will be provided in the next 12 months.

Squatting: Advisory Services

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether her Department and its agencies have provided funding to organisations which give advice on squatting in the last three years. [198919]

Mr. Iain Wright: This Department does not fund any organisation specifically to provide advice on squatting.

Supporting People Programme: Learning Disability

Mr. Harper: To ask the Secretary of State for Communities and Local Government how much and what proportion of the Supporting People budget was spent on people with a learning disability in each of the last four years. [197422]

Mr. Iain Wright: The Supporting People programme is administered at the local level by the relevant administering authority. It is for the authority to decide

which services to fund, informed by the local needs and priorities identified in their five year Supporting People Strategies. The following table sets out the amount spent on Supporting People services for people with a learning disability, as reported to the Department by administering authorities. It will not identify all funding spent on people with a learning disability who access Supporting People services: some may have a different service classification (for example, people with a learning disability may access support from Supporting People services that help them move on from domestic violence or homelessness).

	Spend reported on services for people with a learning disability (£)	Proportion of the total reported spend (%)
2004-05	396,596,732	23.4
2005-06	388,760,777	23.1
2006-07	367,435,288	22.4

Information for 2007-08 is not yet available.

Travelling People: Council Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what guidance has been given to local authorities on whether Traveller camps which occupy land which they do not own or have permission from the landowner to reside on or which do not have planning permission should *(a)* be charged council tax and *(b)* receive rubbish collection services. [198927]

Mr. Iain Wright: No guidance has been given to local authorities on whether Gypsy and Travellers on unauthorised sites should be charged council tax.

Gypsies and Travellers on authorised sites are required to pay council tax and should receive rubbish collection services.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Angling: Expenditure

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will provide a detailed breakdown of his Department's expenditure on fisheries improvements for anglers in the last five years; and if he will make a statement. [199272]

Jonathan Shaw: The Environment Agency receives fisheries-specific funding from the Government amounting to £9.5 million per annum. The Environment Agency also receives income from the sale of licences from anglers and netsmen amounting to nearly £21.5 million per annum.

This income funds a range of activities and fisheries improvements at regional and national level, which are of benefit to anglers. This includes the monitoring of fish stocks, investigation and remediation of incidents affecting fish such as disease, drought, pollution and floods; provision of advice on the development and improvement of fisheries, as well as the regulation of fishing through a licensing system which helps protect the resource for the future.

The Environment Agency fisheries budget specifically allocates a national improvement and development project budget to fund projects that improve fisheries habitat, facilities and access for anglers. Many of these projects are undertaken in partnership with other organisations, usually leading to relatively highly-geared expenditure by partners on fisheries improvements.

The following table provides overall expenditure on fisheries over the past five years together with the national improvement and development project budget.

£ million

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Total regional expenditure on fisheries	18.2	19.4	19.5	19.7	20.8
Total national expenditure on fisheries	8.2	8.8	8.9	9.5	10.5
Overall expenditure on fisheries	26.4	28.2	28.4	29.2	31.3
National improvement and development project budget	1.7	2.1	2.5	2.2	2.4

The national improvement and development project budget in the overall total is part of the regional expenditure on fisheries.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's expenditure was on angling in each of the last five years, broken down by *(a)* region and *(b)* local authority area; and if he will make a statement. [199274]

Jonathan Shaw: The following table shows the expenditure broken down by each Environment Agency region. The Environment Agency does not break down expenditure by local authority area.

Regional fisheries expenditure

£000

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
North East	2,693	2,851	2,737	2,808	2,827
North West	2,813	3,024	3,024	3,057	3,072
Wales	3,296	4,171	4,210	4,246	4,251
Midlands	2,036	2,283	2,445	2,449	2,488
Anglian	1,747	1,816	1,794	1,875	2,029
Thames	1,827	1,832	1,812	1,860	1,903
Southern	1,488	1,589	1,581	1,612	1,623
South West	2,276	2,620	2,659	2,582	2,594
Total	18,176	19,386	19,462	19,689	20,787

The following table shows National Fisheries expenditure. This includes operational activities which have been centralised as part of the Environment Agency's efficiency programme. The Environment Agency's technical team supports the Fisheries Policy and Process team in setting the targets and delivery mechanisms for the regional activities and expenditure. Contributions to Head Office support service costs and IS development and maintenance are also included.

National fisheries expenditure

£000

	2003-04	2004-05	2005-06	2006-07	2007-08
Total	8,204	8,751	8,858	9,475	10,480

Angling: Licensing

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will provide a detailed breakdown of the *(a)* administration and *(b)* enforcement costs of the freshwater angling licensing regime in the last five years; how many staff were involved in each year; what their total salaries were in each year; and if he will make a statement. [199271]

Jonathan Shaw: The cost of administering the rod licence system for each of the last five years is shown in the following table. The figures include Environment Agency staff expenditure, the printing of licences and sales transaction costs.

Rod licence administration cost

	Cost (£ million)
2003-04	1.41
2004-05	1.49
2005-06	1.58
2006-07	1.64
2007-08	1.72

There are 280 Environment Agency staff warranted to undertake rod licence enforcement. Rod licence checking only forms a part of the role, so salary costs are worked out according to the proportion of time spent on this activity. While carrying out rod licence checks, these staff also carry out other regulatory activities such as ensuring compliance with fishery byelaws and regulating other licensing systems. Their other warranted activities include auditing and investigating fish introductions to prevent the spread of disease and non native species. The current annual salary cost of enforcing the rod licence is around £1 million. This has not changed significantly during the last five years.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much was raised by angling licences in each year since 1997. [199273]

Jonathan Shaw: The following table shows rod licence income since 1997.

Licence year	Rod licence income (£ million)
1997-1998	13.5
1998-1999	13.0
1999-2000	14.2
2000-01	14.4
2001-02	14.9
2002-03	16.1
2003-04	17.6
2004-05	18.6
2005-06	19.7
2006-07	20.5
2007-08	21.5

Animal Welfare: Dogs

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to *(a)* publish and *(b)* put out to public consultation proposed regulations on greyhound welfare under the Animal Welfare Act 2006. [199168]

Jonathan Shaw *[holding answer 21 April 2008]:* We are considering proposals for the regulation of greyhound racing and there is currently no timetable for a public consultation.

Bovine Tuberculosis

Mr. Ancram: To ask the Secretary of State for Environment, Food and Rural Affairs how many badgers found dead on roads were tested for tuberculosis in the last 12 months. [198724]

Jonathan Shaw: Badger carcases found dead on roads or motorways are the responsibility of the appropriate local authority or Highways Agency. The carcases are not routinely examined for signs of bovine TB at post mortem.

DEFRA's Road Traffic Accident (RTA) survey of badgers found dead on roads in Cornwall, Devon, Dorset, Gloucestershire, Herefordshire, Shropshire and Worcestershire ran from 2002 to 2005. During that time culture results were obtained for 3,238 carcases. Of these, 481 (approximately 15 per cent.) were positive for bovine TB.

An extended post-mortem examination carried out on a sample of 205 badgers culled as part of the Randomised Badger Culling Trial revealed substantially more infected animals; approximately double the rate, compared to standard post-mortem examination. Badgers submitted under the RTA survey underwent standard post-mortem examination. Therefore, these prevalence values are likely to be under-estimates.

Mr. Ancram: To ask the Secretary of State for Environment, Food and Rural Affairs what his most recent estimate is of the proportion of the badger population carrying bovine tuberculosis in England. [198725]

Jonathan Shaw: Not all badger populations in England have been tested for bovine tuberculosis (bTB). However, *Mycobacterium bovis* (M. bovis) was detected in 16.6 per cent. of badger carcases from proactively culled areas of the Randomised Badger Culling Trial, located in West and South West England. The prevalence of infection in initial culls was higher in the inner regions of proactive treatment areas (two kilometres or more inside the boundary) than in the outer areas. This is not surprising as trial areas were centred on areas of high bTB risk.

The results of DEFRA's Road Traffic Accident survey, carried out in seven counties between 2002 and 2005, showed similar levels of prevalence with M. bovis being detected in, on average, 15 per cent. of badger carcases.

An extended post-mortem examination carried out on a sample of 205 RBCT badgers revealed substantially more infected animals, approximately double, than did standard post-mortem examination. Therefore, these prevalence values are likely to be under-estimates.

Cetaceans: Conservation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the UK has taken to reduce cetacean by-catch; and what representations he has made to the EU on common arrangements. [199916]

Jonathan Shaw: DEFRA and the devolved administrations' fisheries departments published the UK Small Cetacean By-catch Response Strategy in March 2003. An update on the progress of implementing the strategy can be found on the DEFRA website.

As part of this strategy, the UK Government have put over £2 million, between 2000 and 2008, into researching by-catch mitigation measures and monitoring by-catch on vessels through observers. The purpose of this is to identify those fisheries responsible for high levels of cetacean by-catch and mitigation measures that are effective at deterring cetaceans over the long-term and safe and cost-effective for the industry.

In December 2004, the UK Government banned pelagic pair trawling for bass by UK vessels within 12 miles off the south-west coast of England because of concerns it was the cause of large numbers of dolphin deaths. Unfortunately, the European Commission did not support the UK's request to extend this ban to the vessels of other member states operating within these waters.

Member states are required under Council Regulation (EC) 812/2004 to present an annual report to the European Commission on their by-catch observer programmes. The International Council for the Exploration of the Sea (ICES) has been asked by the European Commission to look at these annual reports. I await its analysis before deciding if representations need to be made to the Commission about common arrangements.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on publicity and advertising in 2007-08. [198988]

Jonathan Shaw: The core departmental expenditure on advertising and publicity for 2007-08 was £4,382,000.

The largest area of expenditure is focused on delivering public information on how to reduce individual carbon footprints. It also includes engagement with farmers on disease control and a wide range of other matters, much of it necessary or beneficial to the public and the wide range of industries in which DEFRA has an interest, together with local government, voluntary organisations and other bodies.

Individual records of spend for DEFRA's non-departmental public bodies, agencies and financially sponsored organisations are not held centrally and could be obtained only at disproportionate cost.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many working days were lost by his Department due to stress-related illness in each of the last 24 months. [198940]

Jonathan Shaw: This information could be provided only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many days sick leave were taken on average by staff in his Department in each of the last five years. [198951]

Jonathan Shaw: Information on sickness absence in the Civil Service is available at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

Published data are available from the 2004 calendar year to the 2006-07 financial year. The average number of working days lost by each member of staff in DEFRA was as follows:

2004: 7.4

2005: 8.2

2006-07: 7.5

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198969]

Jonathan Shaw: This information could be provided only at disproportionate cost.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs when his Department plans to publish its sustainable operations policy statement. [195880]

Jonathan Shaw: As part of its ISO 14001 Environmental Management System (EMS), DEFRA has an environmental policy which it displays in all of the buildings covered by its EMS. This policy covers sustainable operations on its estate. A copy of the policy statement can be made available on request.

DEFRA has measures in place to make sure it meets the Sustainable Operations on the Government Estate (SOGE) targets. Progress against these targets is assessed annually and results are published by the Sustainable Development Commission in their Sustainable Development in Government (SDiG) report.

DEFRA published its second Sustainable Development Action Plan (SDAP) in November 2007 which sets out how the Department is putting SD into practice. This plan contains a summary of the initiatives being implemented to improve the operational performance across the estate.

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public are in use by (i) his Department and (ii) agencies which report to his Department. [200125]

Jonathan Shaw: I refer the hon. Member to the answer I gave to the hon. Member for Wolverhampton, South-West (Rob Marris) on 28 January 2008, *Official Report*, column 74W.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195827]

Jonathan Shaw: There are no central records of the actual hours worked by staff in DEFRA, as the majority of staff work flexible working hours for which only local records are held. Conditioned net hours (i.e. excluding lunch breaks) are 36 per week for London-based staff and 37 per week elsewhere. In addition, 78,400 hours of overtime were worked in the last financial year. The average number of staff in full-time equivalents in the core Department in 2007-08 was 3,424. This gives an approximate total of 6,533,000 hours worked; an average of 1,900 hours per person per year (36.7 hours per week).

Discrimination

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how many claims for discrimination, based on *(a)* sex, *(b)* race and *(c)* sexual orientation, were brought by members of his Department and settled (i) in and (ii) out of court in each of the last five years. [194979]

Jonathan Shaw: During the last five years there have been no claims for discrimination based on sex, race or sexual orientation brought by members of this Department which have been settled in or out of court.

The internal formal equal opportunities complaints procedures, including support mechanisms available to staff who perceive discrimination, are on DEFRA's Intranet site and all staff have access to them.

Farms: Inspections

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 25 March 2008, *Official Report*, columns 123-4W, on farms: inspections, what proportion of the Animal Health budget for 2007-08 is allocated to on-farm work; what the cost was to the public purse arising from farm inspections conducted by the *(a)* Rural Payments Agency, *(b)* Environment Agency, *(c)* Plant Health and Seeds Inspectorate, *(d)* Natural England, *(e)* Food Standards Agency, *(f)* Pesticides Safety Directorate and *(g)* Health and Safety Executive in each of the last five years. [198092]

Jonathan Shaw: The total Animal Health budget for 2007-08 was £109,864,000. The proportion for on-farm work is 65 per cent., and is estimated to be £71,412,000. This is only an estimate as not all bills have been processed. This estimate includes all on-farm work, including inspections and visits, and back office costs, for example, administration and travel. This does not include disease outbreak costs and costs relating to abattoir visits.

The reduction in percentage for this financial year is mainly attributed to staff who would have been carrying out on-farm work being required to work on the disease outbreaks in 2007 (estimated to be around 16 per cent. of the budget). Therefore, being unable to perform the on-farm work recorded here.

The following table sets out the costs to the public purse incurred by inspections carried out by the Rural Payments Agency. The figure is all-inclusive, covering direct cost of conducting on-farm inspections, management, co-ordination, support and administrative costs such as accommodation, equipment and travel.

	Cost (£)
2003-04	10,335,572
2004-05	10,026,506
2005-06	11,816,061
2006-07	13,365,000
2007-08	12,932,423

The Environment Agency operates an integrated programme of farm inspections covering a number of regulatory regimes. Some regulatory regimes provide for charges to recover costs from those that are regulated while others are funded by Grant in Aid from DEFRA.

The Environment Agency estimates that the annual Grant in Aid cost of agricultural inspections is approximately £3.4 million. This has not changed significantly over the last five years.

The Plant Health and Seeds Inspectorate (PHSI) undertakes a range of plant health duties. While this includes some on-farm inspections, the majority of PHSI inspection work is undertaken either at points of entry or on horticultural premises. It is not possible to separately identify expenditure specific to on-farm work.

Natural England does not undertake formal farm inspections. All formal farm inspections in relation to England Rural Development Programme and Rural Development Programme for England agreements are conducted by the Rural Payments Agency Inspectorate.

The Pesticides Safety Directorate does not undertake farm inspections.

The Health and Safety Executive is not an Agency of DEFRA.

Fisheries: Subsidies

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs what information his Department holds on *(a)* European Union grants made to national fisheries committees of each member state and *(b)* grants to national fisheries committees by each member state authorised by the European Commission since 1997. [198836]

Jonathan Shaw: We do not hold information on grant paid to national fisheries committees in other member states in accordance with Council Regulation (EC) No. 391/2007 of 11 April 2007. This Regulation lays down detailed rules for the implementation of Council Regulation (EC) No. 861/2006 as regards the expenditure incurred by member states in implementing the monitoring and control systems applicable to the Common Fisheries Policy.

European Union grant awarded to each member state is set out in a Commission Decision which is published annually in the Commission's Official Journal. The Commission Decision gives details of how much grant has been awarded to each member state and for the broad project areas. Details are available on the Commission's website.

Food: Poverty

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to attend the Intergovernmental Plenary of the International Assessment of Agricultural Science and Technology for Development (IAASTD); and what assessment he has made of the effectiveness of the IAASTD process in developing his Department's policy on the future of food, farming, global hunger and rural poverty. [199517]

Jonathan Shaw: There are no plans for any DEFRA Minister to attend the Intergovernmental Plenary of the International Assessment of Agricultural Science and Technology for Development (IAASTD), and no assessment has been made of the effectiveness of the IAASTD process on developing DEFRA policy.

Inland Waterways: Repairs and maintenance

Mr. Ancram: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on the repair and maintenance of inland waterways in 2005-06; and how much is planned to be spent in 2008-09. [198598]

Jonathan Shaw: DEFRA only holds information on the amount spent on the repair and maintenance of inland waterways by the three main navigation authorities. These figures are summarised in the following table. The repair and maintenance activities vary between the authorities.

		£ million
	2005-06	2008-09
British Waterways[1]	78.1	85
The Broads[2]	0.72	1.5
The Environment Agency[1]	14	15

[1] England and Wales only.
[2] 2008-09 figure for the Broads authority provides for staff costs of £223,500 whereas staff costs were not available in 2005-06.

Meat

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to increase the proportion of beef, pork and lamb meat consumed in England which has been produced in England. [199423]

Jonathan Shaw: The Government recognise that the marketing of local food can bring benefits for producers and consumers. In general, fewer middlemen are involved, and this allows farmers and small producers to retain a higher proportion of the end price of their produce. It also increases consumer choice and raises awareness and interest in local food by helping to improve consumers' links with, and understanding of, the rural economy and food production. Suppliers will flourish by providing what customers want and there is growing public enthusiasm for locally produced food and food with a clear regional provenance.

We have helped to facilitate local sourcing by providing funding (through our various grant schemes and our support for Food from Britain) towards a range of measures helping regional and local food producers overcome barriers to market. Examples include "meet the buyer" events, the encouragement of food hubs and shared distribution facilities, and training seminars. Support is also available under the Rural Development Programme for England (RDPE) for activities linked to the promotion of quality regional and local food culture, for the use of native English breeds of cattle in environmental stewardship schemes and for activities linked to promoting the economic sustainability of the livestock sector.

I also refer the right hon. Member to the oral ministerial statement by my right hon. Friend the Secretary of State on 8 October 2007, *Official Report*, column 39, in which he announced a package of measures to help those farmers most affected by the outbreak of foot and mouth disease. This included £2 million for the promotion and marketing of lamb, beef and pork both at home and in our export markets. The domestic promotional activity carried out by the English Beef and Lamb Executive (Eblex) and the British Pig Executive ran from October 2007 to March 2008 and, during the specific periods of promotion, four week volume sales increased between 2 and 14 per cent. compared to the previous year.

DEFRA also provided £1.2 million of funding from August 2006 to March of this year to kick-start the Beef Better Returns Programme administered by Eblex. This has involved measures to improve the competitiveness of the English beef sector and promote the product under the English Beef Quality Mark.

In addition to this, DEFRA's ongoing Public Sector Food Procurement Initiative (PSFPI), launched in 2003 to help deliver the Government's Sustainable Farming and Food Strategy, aims to increase opportunities for small and local producers to tender to supply food to the public sector. Our funding of this initiative has helped support workshops for buyers and suppliers, regional pilot projects to develop the supply side, and a range of guides aimed at both food producers and public sector buyers. More information on the PSFPI can be found on the DEFRA website.

However, the success of the livestock sectors in England will continue to depend upon their ability to compete upon market principles, including performance, quality and welfare standards.

Pet Travel Scheme

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many animals were part of the Pet Travel scheme in each year since its inception.

broken down by species; and what plans he has for changes in the scheme to bring it into line with other EU countries. [199914]

Jonathan Shaw: The following table shows the number of pet cats, dogs and ferrets entering the UK under the pet travel scheme (PETS) each year since 2000:

	Cats	*Dogs*	*Ferrets*
2000	2,062	12,633	0
2001	3,562	23,158	0
2002	4,359	36,410	0
2003	6,012	48,938	0
2004	7,314	57,418	10
2005	8,346	69,549	39
2006	8,375	74,285	31
2007	10,137	89,127	43
2008 (January-March only)	1,855	17,723	12

No decisions on changes to PETS have yet been taken. The European Commission has proposed an extension to the derogations which the UK and some other member states have under EC Regulation 998/2003 until 31 August 2009. The European Parliament is considering a further extension until 30 June 2010.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which countries have *(a)* multilateral and *(b)* bilateral arrangements with the UK with regard to the Pet Travel scheme. [199915]

Jonathan Shaw: UK-resident dogs, cats and ferrets can travel to any of the countries and territories shown as follows and return to the UK under the Pet Travel Scheme (PETS). Pets that come from any of these countries can also enter the UK under PETS as long as they meet the rules. Pets must not have been outside any of the listed countries in the six calendar months before travelling to the UK in order to qualify.

[1] Dogs, cats and ferrets prepared for PETS in, or returning under PETS to the UK from, the Republic of Cyprus may enter or re-enter the UK without quarantine. However, PETS compliant animals travelling from north Cyprus (the area north of the buffer zone) must be licensed into quarantine for six months on arrival in the UK. This must be arranged before the animal travels.

[2] Includes St. Barthelemy and St. Martin (French part of the island).

[3] No preparation or documentation is necessary for the movement of pets directly between the UK and the Republic of Ireland.

[4] Although Jamaica is a qualifying country under the EU Regulation, Jamaican law currently prevents the involvement of that country in PETS. PETS-prepared animals may not enter Jamaica and animals may not be prepared for PETS in Jamaica.

[5] The import into UK quarantine of dogs and cats from Malaysia (Peninsula) is prohibited unless health certification provided by the Malaysian veterinary authorities is provided which confirms that the cat or dog:

(i) has had no contact with pigs during at least the 60 days prior to export; and

(ii) has not been resident on holdings where during the past 60 days any case of Nipah disease has been confirmed; and

(iii) has been subjected with a negative result to an IgC capture ELISA test carried out in a laboratory approved for testing for antibody against the Nipah disease viruses by the competent veterinary authorities on a sample of blood taken within 10 days of export.

[6] The Russian Federation consists of 88 subjects (regions). Please note that the following Republics are not part of the Russian Federation: Moldova, Georgia, Ukraine, Armenia, Azerbaijan, Turkmenistan, Uzbekistan, Kazakhstan, Kyrgyzstan and Tajikistan.

Pig Meat

Mr. Ancram: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of pig-meat products bought in England was *(a)* produced in England, *(b)* produced outside England and (i) packaged and (ii) labelled in England and *(c)* produced and packaged outside England in the latest period for which figures are available. [198599]

Jonathan Shaw: DEFRA does not collect data in this form.

Rackspace

Mr. Hands: To ask the Secretary of State for Environment, Food and Rural Affairs what the total value was of each contract awarded to Rackspace by *(a)* his Department and its predecessors and *(b)* its agencies in each of the last nine years. [197506]

Jonathan Shaw: DEFRA came into being in June 2001. From information held centrally, no expenditure has been incurred by core-DEFRA with Rackspace. Information on any expenditure by DEFRA's executive agencies and non-departmental public bodies with Rackspace is not held centrally and could be provided only at disproportionate cost.

Recreation Spaces: Urban Areas

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs how many pieces of land have been designated as a town green under the Commons Act 2006. [200073]

Jonathan Shaw: This information is not held centrally. No practical distinction is made in law between town and village greens. A survey of commons registration authorities undertaken in September 2007 recorded that, among the two-fifths of authorities responding, four new greens had been registered under section 15 of the Commons Act 2006 since it was brought into force on 6 April 2007.

Rural Areas: Housing

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the likely effects of ending central Government funding for the rural housing enablers on the number of affordable houses in rural areas. [199938]

Jonathan Shaw: I refer the hon. Member to the answer given on 3 March 2008, *Official Report*, column 2138W.

Veterinary Medicine

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to introduce changes to the Veterinary Medicines Directive. [198810]

Jonathan Shaw: The veterinary medicines directive (2001/82) was last amended by directive 2004/28. These changes were implemented in national legislation by the Veterinary Medicines Regulations 2005. The European Commission has consulted stakeholders on proposals to change the requirements for varying national marketing authorisations in order to reduce the administrative burden on industry while maintaining the safety of animals, consumers and the environment. Discussions with member states on amendments to directive 2001/82 started recently.

The Veterinary Medicines Regulations are revoked and remade annually in order to keep them up to date and to provide a single piece of veterinary medicines legislation in the UK. The consultation on proposals for change in 2008 has started and comments are due by 9 June 2008. Details of the consultation are available on the veterinary medicines directorate's website:

www.vmd.gov.uk

Whales: Conservation

Tom Brake: To ask the Secretary of State for Environment, Food and Rural Affairs what representations

his Department has made to the government of *(a)* Angola, *(b)* the Republic of Congo, *(c)* Equatorial Guinea, *(d)* Eritrea, *(e)* Ghana, *(f)* Malawi, *(g)* the Federal States of Micronesia, *(h)* Tanzania and *(i)* Vanuatu on the recruitment of each to the International Whaling Commission; and if he will make a statement. [199457]

Jonathan Shaw: The publication "Protecting Whales—A Global Responsibility" has been sent to over 60 countries, both anti and pro-whaling, including current and non members of the International Whaling Commission (IWC), encouraging them to join the effort to protect these species.

Providing details of these countries and the letters sent to them could compromise our efforts to either persuade conservation minded countries to join the IWC and adopt an anti-whaling stance, or if thinking of joining the IWC with a pro-foreign and whaling stance, change their mind.

Foreign and Commonwealth Office posts will continue to lobby countries in support of the UK's position, seeking to encourage new anti-whaling members to the IWC and endeavouring to change the opinion of Governments which currently support whaling.

Mr. David Hamilton: To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's aims for the outcome of the forthcoming annual meeting of the International Whaling Commission are; at what level the UK will be represented; and if he will make a statement. [199280]

Jonathan Shaw: The UK will play an important role in the conservation and protection of cetaceans at the next annual meeting of the International Whaling Commission (IWC) to be held in Santiago, Chile in June 2008, which I plan to attend.

We will continue to support the IWC's moratorium on commercial whaling and oppose all forms of whaling, other than limited whaling operations by indigenous people for subsistence purposes.

The UK will promote the non-lethal use of cetaceans (that is, whale-watching) and continue to highlight the unacceptable level of cruelty involved in current whaling operations, supporting proposals that increase welfare provisions. We will once again vote in support of the creation of Whale Sanctuaries.

DEFENCE

Armed Forces: Housing

Dr. Murrison: To ask the Secretary of State for Defence how much was spent on *(a)* the married quarters estate and *(b)* single living accommodation in England and Wales in each year since 1997; and how much will be spent on each type in each year to 2013. [165873]

Derek Twigg: Information regarding maintenance and new build family housing for England and Wales only is not available in the format requested and can be provided only at disproportionate cost. Information is available for Great Britain from 2001-02 and is:

	£ million
2001-02	337
2002-03	309
2003-04	325
2004-05	304
2005-06	339
2006-07	355

Single living accommodation (SLA) is funded by several areas of the Department and total maintenance expenditure could be collated only at disproportionate cost. Information in relation to SLA modernisation programmes is only available from 2003-04 and is as follows:

	£ million
2003-04	106
2004-05	236
2005-06	183
2006-07	186

Following the comprehensive spending review, the Department is in the process of finalising budgets for individual years and it would be inappropriate to comment on what these budgets will be until that process is complete. We, however, anticipate spending over £8 billion over the next decade, including over £3 billion on the upgrade and improvement of accommodation.

Danny Alexander: To ask the Secretary of State for Defence how many homes his Department sold in each local authority area of Scotland in each year since 1997; and what proportion of those homes were sold or otherwise transferred to the relevant local authority or a registered social landlord in each of those years. [197418]

Derek Twigg: Records of all Service housing sold in Scotland since 1997 are either not held centrally or no longer available. It will take a time to establish what information can be provided without incurring disproportionate cost and effort. I will write to the hon. Member.

Substantive answer from Derek Twigg to Danny Alexander:

I undertook to write to you in answer to your question on 1 April 2008, *Official Report*, column 785W, about the number of homes the Department sold in each local authority area of Scotland in each year since 1997 and the proportion that were sold or otherwise transferred to the relevant local authority or registered social landlord.

Information in the detail requested could be provided only at disproportionate cost.

However, I am able to provide details of Ministry of Defence properties sold in Scotland in each financial year since 2000-01, which are at Annex A.

Bob Russell: To ask the Secretary of State for Defence whether it is his policy to allow unmarried members of HM armed forces to live with a permanent partner in service family accommodation. [198806]

Derek Twigg *[holding answer 3 April 2008]:* The Ministry of Defence provides benefits, such as an entitlement to live in Service Family Accommodation, to those who are in legally recognised relationships, that is, married or in a civil partnership, but not to other forms of partnership.

Bob Russell: To ask the Secretary of State for Defence what average price was paid for his Department's dwellings by Annington Estates. [199225]

Derek Twigg: Under the 1996 Sale Agreement, a total of 57,428 Service Family Accommodation properties were transferred to Annington Homes Ltd of which 55,055 were immediately leased back. The average price per property has been calculated at some £30,000.

Bob Russell: To ask the Secretary of State for Defence how many residential properties his Department owns; and how many it owned at the time Annington Estates acquired them. [199235]

Derek Twigg: The Ministry of Defence (MOD) has a total worldwide stock of some 71,000 Service Family Accommodation (SFA) properties. In 1996, the Ministry of Defence (MOD) sold some 57,428 Service Family Accommodation properties in England and Wales to Annington Homes Ltd (AHL) of which some 55,055 were leased back by the Department.

Today, the majority of SFA properties are still leased from AHL or provided by the host nation as is the case overseas. At 3 April, some 7,523 properties in the UK and some 2,704 properties overseas are owned by the MOD.

Mr. Pickles: To ask the Secretary of State for Defence what his Department's most recent estimate is of *(a)* the number of empty domestic dwellings owned by his Department and the armed forces and *(b)* the number of empty domestic dwellings owned by external bodies which are for use by members of the armed forces and their families. [200183]

Derek Twigg: Details of empty Service Family Accommodation (SFA) properties, broken down by those which are owned and not owned by this Department, are not centrally held. However, details of SFA that is void (not in use for its intended purpose) are available. Void stock includes that being held for planned moves of Service Units, or awaiting planned upgrades, sale or release, modernisation or demolition.

Out of a total worldwide stock of some 71,000 properties, some 12,000 are currently void. The Department is actively working to reduce the figure. Since March 2007, the total number of void SFA properties has reduced from 13,336 to some 12,000 properties.

Army: Uniforms

Mr. Hoyle: To ask the Secretary of State for Defence when the cut and sew contract for army uniforms runs out; and when the tender process for the future cut and sew contract begins. [200161]

Mr. Bob Ainsworth: The cut and sew contract runs out in September 2009. The tender process for the new requirement is due to commence shortly.

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Defence what items of his Department's *(a)* revenue and *(b)* expenditure are uprated using (i) the consumer prices index, (ii) the retail prices index and (iii) other measures of inflation. [179948]

Mr. Bob Ainsworth: I will write to the hon. Member.

Substantive answer from Bob Ainsworth to Mark Hoban:

I undertook to write to you in answer to your Parliamentary Question on 28 January 2008, (Official Report, column 33W) about items of the Department's revenue and expenditure that are uprated using the consumer prices index, the retail prices index and other measures of inflation.

I am afraid that it is not possible to list, for individual items across the £33.4Bn Defence programme, the ways in which they have been uprated. In principle, however, where we need to uprate any revenue or expenditure due to inflation, we do so on the basis on one or more of the following measures:

a. HM Treasury's GDP deflator (which is also sometimes rounded for ease of internal planning);

b. The Consumer Price Index;

c. Agreed individual measures of inflation for specific contracts;

d. Advice from experts for individual items that may be subject to unique inflationary factors (e.g. fuel); and

e. Recommendations from independent bodies (e.g. The Armed Forces Pay Review Body).

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Defence pursuant to the answer of 17 March 2008, *Official Report,* column 814W, on the departmental internet, whether Wikipedia entries have been created or amended by officials in his Department who are not special advisers or communications officials. [199954]

Derek Twigg: We are aware that before January 2008 a number of Wikipedia entries were created or amended by staff from MOD networks. Records of these updates are not held centrally and could be provided only at disproportionate cost. Since January 2008, the MOD has blocked write access to Wikipedia from its major networks, although still allowing users to read the site.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Defence how much his Department spent on publicity and advertising in 2007-08. [198991]

Derek Twigg: The Ministry of Defence and the single services forecast a spend of £54.12 million on publicity and advertising, including armed forces and civilian recruitment, in the financial year 2007-08. This figure includes all above and below the line activity.

The breakdown of expenditure is as follows:

Service	*Projected expenditure (£ million)*
Royal Navy	13.09
British Army	26.65
Royal Air Force	13.08
Ministry of Defence	1.3m

These figures cover forecasted expenditure by the single service commands (including recruitment campaigns), advertising for civilian recruitment, and directorate general media and communication activity.

Accurate information on other advertising and publicity spend by the Ministry of Defence, Defence agencies, top level budget areas, trading funds, joint headquarters and military units is not held centrally and could be provided only at a disproportionate cost.

Departmental Pensions

David Simpson: To ask the Secretary of State for Defence how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193567]

Derek Twigg: 2,825 members of civilian staff in the Ministry of Defence (3.67 per cent.) were making additional voluntary pension contributions through deductions from their pay in February 2007. 2,619 members of staff (3.60 per cent.) were making additional voluntary pension contributions through deductions from their pay in February 2008.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Defence how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197060]

Derek Twigg: Information has been provided by the National School of Government. The number of MOD staff attending the courses listed, and the cost to the Department of each course, are set out as follows:

Course	*Number of Attendees*	*Cost (£)*
Influencing with Integrity	7	5,082
Emotional Intelligence	3	4,485
Counselling Skills for the Workplace	1	1,115
Managing Your Confidence	6	6,725
Balancing Work/Life Realities	0	—
Working Assertively	1	726

Helicopters: Training

Dr. Fox: To ask the Secretary of State for Defence how many training exercises were conducted by Apache and Chinook helicopter crews in each of the last five years; and what the *(a)* location and *(b)* type was of each. [174495]

Mr. Bob Ainsworth: The number of collective training exercises supported by both Apache and Chinook helicopter crews was seven in 2005, 13 in 2006 and 18 in 2007. Records are not held for collective training exercises conducted prior to 2005. The location and type of each exercise are shown in the following table. The number of collective training exercises supported by Chinook only and Apache only will take longer to collate. I will write to the hon. Member when this information is available. Aircrew training flights are too numerous to quantify.

	Exercise details	*Location*
2005	Exercise Iron Storm—3 (UK) Division live firing Exercise	UK wide
2005	Qualified Helicopter Training Instructor Flying Phase—Air Crew Training Exercise	Scotland
2005 3 times	Exercise Bowman Vanguard—Fleet Collective Training Exercise	UK wide
2005	Exercise Bowman Ord—Fleet Exercise part of HMS Ocean sea trials	Sea trials
2005	Exercise Argonaut—Fleet Collective training Exercise	UK Wide
2006	Exercise Herrick Eagle—16 Brigade Herrick 4 Mission Rehearsal Exercise	Salisbury Plain Training Area and Sennybridge Training Area
2006	Exercise Southern Raider—3 Commando Brigade Mission Rehearsal Exercise	Salisbury Plain Training Area and Sennybridge Training Area
2006 5 times	OPTAG (Operational Training and Advisory Group) confirmation Exercises 3 Commando Brigade units Herrick 5 Pre Deployment Training	Stanford Training Area
2006	Exercise Iron Storm—3 (UK) Division Capstone Combat Services Support Exercise for Engineer Regiments' Herrick 5 Pre Deployment Training	UK Wide

	Exercise details	Location
2006 5 times	OPTAG confirmation Exercises—12 Division units Herrick 6 Pre Deployment Training	Stanford Training Area
2007	Exercise Desert Dragon—12 Division Herrick 6 Mission Rehearsal Exercise	Salisbury Plain Training Area and Sennybridge Training Area
2007	Exercise Pashtun Ace—12 Division Close Combat Attack concentration as part of Herrick 6 Pre Deployment Training	Otterburn Training Area
2007 4 times	Ex Druid's Dance—52 Brigade Herrick 7 Pre Deployment Training	Sennybridge Training Area
2007 5 times	OPTAG Confirmation Exercises—52 Brigade units Herrick 7 Pre Deployment Training	Stanford Training Area
2007	Exercise Desert Dragon—52 Brigade Herrick 7 Mission Rehearsal Exercise	Salisbury Plain Training Area and Sennybridge Training Area
2007	Exercise Eagle's Eye—16 Brigade Airborne Task Force validation Exercise	Salisbury Plain Training Area
2007 5 times	OPTAG Confirmation Exercises—16 Brigade units Herrick 8 Pre Deployment	Training on Stanford Training Area

Substantive answer from Bob Ainsworth to Liam Fox:

I undertook to write to you in answer to your Parliamentary Question of 7 January 2008, *Official Report*, columns 46-47W with details of the number of collective training exercises supported by Chinook only or Apache only.

The number of collective training exercises (lasting longer than 24 hours' duration) supported by the Chinook is 31 and the Apache is four. The location and type of each exercise is shown below:

	Exercise Details—Chinook only	Location
2005	Winter Environmental Training—Commando Helicopter Force	Norway
2005	Tactical Leadership Training—Night Exercise—Air Warfare Centre	Scotland
2005	HMS Ocean Basic Operational Sea Training—(deck landings)	Sea Trials
2005	Exercise Eagle's Strike—Airborne Task Force validation—3 PARA	Salisbury Plain Training Area
2005	Exercise Jebel Sahara—individual pilot training	Morocco
2006	Tactical Leadership Training—Night Exercise—Air Warfare Centre	Scotland
2006	Exercise Executive Stretch—TA Collective Training	Scotland
2006	Exercise Crimson Hurdle—Air Manoeuvre Training and Advisory Team Conversion to Role 4	Salisbury Plain Training Area
2006	HMS Albion Basic Operational Sea Training—deck landings	Sea Trials
2006	Exercise Herrick Archer—16 Air Assault Brigade Herrick 4 pre-deployment training	Salisbury Plain Training Area
2006	Exercise Northern Ranger—TA Annual Camp	Scotland
	Exercise Hawk Owl—Qualified Helicopter Tactics Instructor Fly phase—individual pilot training	Scotland
2006	Exercise Cock Feather—51 (Scottish) Brigade—air skills training	Scotland
2006	Exercise Grey Cormorant—Commando Group validation	Salisbury Plain Training Area
2006	Exercise Jebel Sahara—individual pilot training	Morocco
2006	Exercise Shamrock Blitz—1 Royal Irish Battle Group—Collective Training 1/2	Otterburn Training Area
2006	Exercise Herrick Eagle—16 Air Assault Brigade—Herrick 4—mission rehearsal exercise	Salisbury Plain Training Area and Sennybridge Training Area
2007	Exercise Shamrock Marauder—1 Royal Irish Battle Group—Collective Training 3	Otterburn Training Area
2007	Exercise Eagle's Breach 16 Air Assault Brigade Engineers—Collective Training 1/2	Salisbury Plain Training Area
2007	HMS Ark Royal Basic Operational Sea Training—deck landings	Sea Trials
2007	Exercise Eagle's Flight - 16 Air Assault Brigade—air skill training—Collective Training 1/2	Salisbury Plain Training Area
2007	Exercise Eagle's Sapper—16 Air Assault Brigade Engineers—Collective Training 3	Salisbury Plain Training Area
2007	Exercise Hawk Owl 07—Qualified Helicopter Tactics Instructor—individual pilot training	Scotland
2007	Exercise Cock Feather—51 Brigade—air skills training	Scotland
2007	Exercise Grey Heron—FLEET logistics exercise	UK waters
2007	Exercise Eagle's Resolve—7 Royal Horse Artillery—Collective Training 3	Salisbury Plain Training Area
2007	Exercise Whirling Rhino—1 Division—air skills training	Germany
2007	Exercise Jebel Sahara—individual pilot training	Morocco
2007	Exercise Eagle's Eye—16 Air Assault Brigade—Airborne Task Force validation	Salisbury Plain Training Area

	Exercise Details—Chinook only	*Location*
2007	Exercise Tusker Challenge—individual pilot training	UK and Cyprus
2007	Exercise Blue Marauder—Airborne Task Force—build up training	Salisbury Plain Training Area

	Exercise details - Apache only	*Location*
2005	Exercise Lightning Hurdle—Attack Helicopter—Conversion to Role 2	Salisbury Plain Training Area
2005	Exercise Lightening Dawn—Attack Helicopter—Conversion to Role 3	Salisbury Plain Training Area
2006	Exercise Crimson Eagle—Attack Helicopter -Pre-deployment and environmental training	Arizona
2007	Exercise Crimson Eagle—Attack Helicopter—Environmental training and fire support team training	Arizona

In compiling this information, an error was identified in my answer, which covered the number of collective training exercises supported by both helicopters, whereby Exercise Herrick Eagle 2006 and Exercise Eagle's Eye 2007 were included in error as they were only supported by Chinook. In addition the following three exercises were inadvertently omitted from the information provided previously.

	Exercise details involving both Chinook and Apache	*Location*
2006	Exercise Southern Dawn—3 Commando Brigade—Mission Rehearsal Exercise	Salisbury Plain Training Area
2007	Exercise Rosedale—201 Field Hospital Incident Response Team	Salisbury Plain Training Area
2007	Exercise Kush Dragon 52 Brigade Op Herrick—pre-deployment training	Salisbury Plain Training Area

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Defence when he plans to reply to the letter of 25 February 2008 from the hon. Member for Walsall North on a constituent, reference MC01269/2008. [199497]

Derek Twigg *[holding answer 21 April 2008]:* I replied to my hon. Friend today.

Ministers' Private Offices

Dr. Fox: To ask the Secretary of State for Defence what the running costs of Ministers' private offices in his Department were in each year since 1997. [196619]

Derek Twigg: I am able to provide costs back to financial year 2002-03. There is no requirement for the Department to retain financial information beyond the six year period.

To ensure completeness, data are provided for the business unit within which Ministers' private offices are categorised, and therefore also includes the costs of the private office for the Permanent Under Secretary as well as the MOD parliamentary branch. The data provided incorporate the full costs of running these offices, including salaries for Ministers, civil service and military staff, and special advisers, utilities, equipment and general administration. The figure for financial year 2007-08 includes costs incurred up to the end of February 2008.

Financial year	*Running costs (£)*
2002-03	4,176,562.27
2003-04	4,621,947.68
2004-05	4,051,758.30
2005-06	4,495,317.54
2006-07	4,914,889.42
2007-08	4,380,182.47

National Army Museum

Andrew Mackinlay: To ask the Secretary of State for Defence (1) if he will request the National Army Museum (NAM) to give to all of the Regimental and Corps Museums funded by his Department *(a)* all reasonable aceess to and *(b)* capacity to copy any record document deposited within NAM that relates to that Regiment or Corps; and if he will make a statement; [187258]

(2) if he will place in the Library a copy of the National Army Museum's access policy; what the Museum's systems and procedures are for dealing with *(a)* other military, Regimental and Corps museums wholly or partly funded by the Ministry of Defence, *(b)* other museums, *(c)* historians, researchers, authors and journalists and *(d)* members of the public; and if he will make a statement. [187260]

Derek Twigg: I will write to the hon. Member.

Substantive answer from Derek Twigg to Andrew Mackinlay:

I undertook to write to you in answer to your Parliamentary Questions on 20 February (Official Report, columns 701-712W) on 19 February (Official Report, column 1178W) about the National Army Museum (NAM).

The NAM is based in London and provides a national archive for some Regimental records and collections. Items in its collections are readily accessible through its reading room to anyone who wishes to see them. Similarly, subject to considerations of copyright and conservation, it provides copies

of documents to members of the public, in whatever capacity they are seeking the information, on payment of the appropriate fee. The NAM is not resourced to provide copies free of charge, nor is it permitted to use its grant-in-aid funding to subsidise other individuals or organisations.

In addition to the NAM, there are currently some 130 Regimental and Corps museums and collections across the UK which provide a source of historical information including uniforms, badges, weapons, military memorabilia and archives. Museums within this network often request information from each other, or indeed the NAM. A nominal charge would be made for these official requests. However, the Curator of a Regimental museum, Miss Moreno, wrote to the NAM Director on 1 February seeking information in a private capacity as part of her studies for her degree. It was standard practice therefore for her to be charged for the information. The NAM Director replied to Miss Moreno on 18 February outlining the charging policy and offering a twenty five percent discount in recognition of the inconvenience the delay in providing the information had caused. I understand that Miss Moreno has now received her information, and paid the fee.

I am placing a copy of my letter in the Library of the House.

NORTHERN IRELAND

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Northern Ireland at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196938]

Mr. Woodward: Provision of wine is managed as part of the Department's general hospitality budget. Separate information on the provision of wine and fair-trade wine is not held.

The Government are committed to improving market access to producers in developing countries through increased participation in fair and sustainable supply chains. Each Government Department is responsible for making its own decisions on such products, against the background of the Government's value for money policy, the EC procurement rules and the Department's objectives. My Department does use a range of Fairtrade produce.

Departmental Consultants

Mr. Hoban: To ask the Secretary of State for Northern Ireland what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196815]

Mr. Woodward: The (i) purpose and (ii) value of the contracts placed with *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms by the Northern Ireland Office (excluding its agencies and NDPBs) in each of the last 12 months are shown in the following tables:

(a) KPMG

No contracts have been placed with KPMG in the last 12 months.

(b) PricewaterhouseCoopers

Purpose—general management and business	*Value (£)*
April 2007	40,000
1 April 2007 -31 March 2008 total	40,000

(c) Ernst and Young

No contracts have been placed with Ernst and Young in the last 12 months.

(d) McKinsey

No contracts have been placed with McKinsey in the last 12 months.

(e) Deloitte

Purpose—general management and business	*Value (£)*
April 2007	32,250
January 2008	33,440
1 April 2007-31 March 2008 total	65,690

(f) Other consultancy firms

Purpose	*Value (£)*
General management and business	
May 2007	1,774
June 2007	13,608

January 2008	10,448
February 2008	800
March 2008	108,174
1 April 2007-31 March 2008 total	314,617

SCOTLAND

JP Morgan

David T.C. Davies: To ask the Secretary of State for Scotland how much his Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199692]

David Cairns: The Scotland Office was established on 1 July 1999; since that date, no payments have been made to this company.

Karian and Box

Mr. Hands: To ask the Secretary of State for Scotland what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199639]

David Cairns: The Scotland Office was established on 1 July 1999; since that date, no payments have been made to this company.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Scotland how much his Department and its predecessors paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199595]

David Cairns: The Scotland Office was established on 1 July 1999; since that date, no payments have been made to this company.

HOUSE OF COMMONS COMMISSION

Performing Right Society

Gordon Banks: To ask the hon. Member for North Devon, representing the House of Commons Commission how much was paid in Performing Right Society licence fees from the parliamentary estate in each of the last five years for which data are available. [198049]

Nick Harvey: There are no records of any direct licence fees being paid to the Performing Right Society.

HOME DEPARTMENT

Alcohol Control Zones

Mr. Hoban: To ask the Secretary of State for the Home Department how many areas have been designated as alcohol control zones, broken down by local authority area. [184885]

Mr. Coaker: The Home Office has been informed that 600 designated public places orders (DPPOs) have been implemented throughout England and Wales. A full list of the councils which have implemented the orders can be accessed at the following internet link. DPPOs are sometimes erroneously referred to as 'alcohol control zones'.

http://www.crimereduction.homeoffice.gov.uk/alcoholorders/alcoholorders09.htm

Alcoholic Drinks: Crime

Damian Green: To ask the Secretary of State for the Home Department how many incidents of alcohol-related disorder have been reported in Kent in each of the last five years. [195147]

Mr. Coaker: From the information collected centrally on recorded crime, it is not possible to identify those offences which are alcohol-related. Such offences are not specifically defined by statute and details of the individual circumstances of offences do not feature in the recorded crime statistics.

Mr. Hepburn: To ask the Secretary of State for the Home Department how many people were arrested for offences involving drunk and disorderly behaviour in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in each year since 1997. [195325]

Mr. Coaker: The arrests collection held by the Ministry of Justice covers persons arrested for recorded crime (notifiable offences) only. Summary offences of 'being drunk and disorderly' are non-notifiable and as a result are not covered by the collection.

Alcoholic Drinks: Public Order Offences

Mr. Ellwood: To ask the Secretary of State for the Home Department how many alcohol consumption designated public place orders have been introduced, broken down by *(a)* location and *(b)* date of commencement. [191312]

Mr. Coaker: The Home Office has been informed that 600 Designated Public Place Orders (DPPOs) have been implemented throughout England and Wales. A full list of the councils which have implemented the orders can be accessed at the following internet link which includes the commencement date:

http://www.crimereduction.homeoffice.gov.uk/alcoholorders/alcoholorders09.htm

Alcoholic Drinks: Young People

Mr. Pickles: To ask the Secretary of State for the Home Department how many licensees have been *(a)* prosecuted and *(b)* convicted under section 147A of the Licensing Act 2003 for persistently selling alcohol to those under age. [193947]

Mr. Coaker: No data are currently available. Section 147A of the Licensing Act 2003 was incorporated into the Violent Crime Reduction Act 2006 which came into effect on 1 April 2008.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how many young people aged *(a)* 12 to 14, *(b)* 15 to 16 and *(c)* 17 years were cautioned for purchasing alcohol in the Peterborough City Council area in each year since 2001; and if she will make a statement. [192460]

Mr. Coaker: There were no young people aged *(a)* 12 to 14, *(b)* 15 to 16 and *(c)* 17 who have been reprimanded or given a final warning, and no persons aged 18 years who were given a caution for the offence: persons under the age of 18 years purchasing alcohol, in Cambridgeshire police force area for the years 2001

to 2006. From June 2000, cautions for offenders under 18 years old were replaced by reprimands and final warnings.

Information held by the court proceedings database is unable to further break down data to city council level. The Licensing Act 2003 came into force on 24 November 2005. Court proceedings data for 2007 will be available in the autumn of 2008.

Asylum: Children

Mr. Andrew Smith: To ask the Secretary of State for the Home Department when she plans to meet local authority representatives to discuss grant payments for unaccompanied asylum-seeking children. [165417]

Mr. Byrne *[holding answer 20 November 2007]*: I met with representatives of local authorities last month to discuss this matter. In the meantime, there is on-going dialogue between my officials and local authorities on a number of funding issues in respect of the support provided by local authorities to unaccompanied asylum seeking children.

Cannabis

Mr. Brady: To ask the Secretary of State for the Home Department how many prosecutions took place of individuals found to be supplying cannabis seeds via internet websites in each of the last five years for which figures are available. [200035]

Mr. Coaker: I have been informed by the Ministry of Justice that there have been no such prosecutions. This is because the sale of cannabis seeds is not illegal in the UK.

Mr. Brady: To ask the Secretary of State for the Home Department what assessment she has made of the links between home-grown cannabis and organised crime; and whether these links have changed since January 2004. [200036]

Mr. Coaker: The Serious Organised Crime Agency produced the 2008-09 UK Threat Assessment of Serious Organised Crime at the beginning of April. The Threat Assessment recognises that while cannabis continues to be imported into the UK in significant quantities commercial cultivation in the UK, mainly by organised criminals, is on the increase, particularly the high potency form of cannabis known as 'skunk'.

Cocaine: Misuse

Mr. Brady: To ask the Secretary of State for the Home Department what estimate she has made of the prevalence of cocaine abuse in the 15 to 25 year age group in each of the last five years for which figures are available. [200002]

Mr. Coaker: The British Crime Survey (BCS) provides information on the prevalence and trends of illicit drug use among 16 to 59-year-olds in England and Wales and reports prevalence of cocaine use in the last year for young people aged 16 to 24.

Figures in the following table show prevalence of cocaine use (including crack cocaine and cocaine powder) over the last five years using the 2002-03 to 2006-07 BCS. The BCS shows that cocaine use among young people has remained stable during this period.

BCS: Proportion of 16 to 24-year-olds reporting use of cocaine in the last year

Drug	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*Statistically significant change 2002-03 to 2006-07?*	*Percentage Statistically significant change 2005-06 to 2006-07?*
Any cocaine	5.2	5.4	5.1	5.9	6.1		
Cocaine powder	5.1	5.2	5.1	5.9	6.0		
Crack cocaine	0.5	0.4	0.1	0.4	0.4		
Unweighted base	4,227	5,351	6,796	5,892	5,706		

[1] A statistically significant increase at the 5 per cent. level would be denoted by 'up arrow character'. A statistically significant decrease at the 5 per cent. level would be denoted by 'down arrow character'.

British Crime Survey

Crime

Chris Huhne: To ask the Secretary of State for the Home Department if she will assess research on the principal variables which affect levels of crime in order to assess their relative significance. [196825]

Jacqui Smith: The Home Office has no current plans to undertake such an evaluation. We already make use of the body of criminological and economic research evidence around a number of socioeconomic variables that impact on crime (including, for example, the economy, the impact of the police and criminal justice system, and demographic changes). However, given the complex way in which these factors interact, a conclusive judgment on their relative importance is extremely difficult to make. Furthermore, what comprises key factors may vary significantly between different types of crime and over time.

Crime: Bus Services

Mr. Ruffley: To ask the Secretary of State for the Home Department how many crimes were committed on buses in each year since 19[illegible] [200250]

Mr. Coaker: The information requested is not available centrally. Offences committed in relation to buses cannot be separately identified in the recorded crime series.

Crime: Young People

Mr. Spring: To ask the Secretary of State for the Home Department how many and what percentage of those arrested for robbery in (*a*) the East of England and (*b*) Suffolk in 2006 were aged 17 and under. [162591]

Mr. Coaker: Information on arrests collected by the Ministry of Justice provides data on persons arrested for recorded crime (notifiable offences) only, by age group, gender, ethnicity, and main offence group. The available information is given in the following table. Data for 2006-07 will be available later in the year.

Number of persons aged 17 and under arrested for recorded crime[1] notifiable offences within the 'robbery' offence group, by area, 2005-06 (latest available)

	Total		
	Age 17 and under	*All ages and age note known*	*Percentage of age 17 and under*
East region	980	2,061	48
Suffolk police force area	60	191	31

Note

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Crimes of Violence

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what percentage of incidents of violence against the person involved a (*a*) knife, (*b*) hitting implement, (*c*) glass or bottle, (*d*) stabbing implement, (*e*) firearm, (*f*) stone or stones, (*g*) syringe and (*h*) other implement in each police force area in England and Wales in each year since 1997. [195598]

Mr. Coaker: The information requested is not available centrally. It is not possible to determine the implement used in crimes of violence against the person from the recorded crime statistics collected by the Home Office.

Statistics are published on the number of homicides by the apparent method of killing. Figures for 1996 to 2006-07 are given in the following table.

Table 1.03 Offences currently[1] recorded as homicide by apparent method of killing and sex of victim: England and Wales, 1996 to 2006-07

[1] As at 12 November 2007; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Including asphyxiation. Year 2000-01 includes 58 Chinese nationals who collectively suffocated in a lorry en route into the UK.
[3] These figures may not agree with those in the firearms chapter because (a) figures include cases where the firearm was used as a blunt instrument and (b) homicide figures include shooting by crossbows and are compiled at a later date and take into account the results of police and court decisions.
[4] Year 2005-06 includes 52 victims of the 7 July London bombings.
[5] Year 2003-04 includes 20 cockle pickers who drowned in Morecambe Bay.
[6] Year 2002-03 includes 172 victims of Dr. Shipman.
[7] Excluding death by careless/dangerous driving and aggravated vehicle taking.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for the Home Department if she will set a target to increase the use of video-conferencing by her Department to reduce the need to travel to meetings. [195869]

Mr. Byrne: There are no plans to introduce such a target, however it is now standard practice to put in at least one set of video conferencing (VC) equipment in Home Office properties.

Detention Centres: Drugs

Norman Lamb: To ask the Secretary of State for the Home Department how many prescriptions were dispensed to persons held in *(a)* immigration detention centres and *(b)* immigration removal centres for (i) subutex, (ii) methadone and (iii) other opiate replacements in each of the last five years. [197936]

Mr. Byrne: The UK Border Agency does not hold central records that contain this information and it would incur disproportionate costs to research the data requested.

Detention Centres: HIV Infection

Norman Lamb: To ask the Secretary of State for the Home Department how many prescriptions for anti-retroviral drugs were dispensed to persons detained in *(a)* immigration detention centres and *(b)* immigration removal centres in each of the last five years. [197939]

Mr. Byrne: The UK Border Agency does not hold central records that contain this information and it would incur disproportionate costs to research the data requested.

Detention Centres: MRSA

Norman Lamb: To ask the Secretary of State for the Home Department how many cases of *(a)* MRSA and *(b)* clostridium difficile were recorded in each (i) immigration detention centre and (ii) immigration removal centre in each of the last five years. [197925]

Mr. Byrne: The UK Border Agency does not hold central records that contain this information and it would incur disproportionate costs to research the data requested.

Drugs: Children

David Davis: To ask the Secretary of State for the Home Department how many children were *(a)* arrested, *(b)* prosecuted and *(c)* imprisoned for drugs offences in each of the last five years. [198627]

Jacqui Smith: Available information is collected, and has been provided, by the Ministry of Justice.

The arrests data collection holds data on persons arrested only for recorded crime (notifiable offences), by age group, gender, ethnicity and main offence group. Table 1 shows the number of persons aged between 10 and 17 (inclusive) arrested for notifiable drug offences in England and Wales each year between 2001-02 and 2005-06. Data for 2006-07 are not yet available.

Data for the number of defendants aged 10 to 17 proceeded against and given a custodial sentence for drug offences in England and Wales from 2002 to 2006 are given in table 2.

The figures given in the table on prosecutions relate to persons for whom the principal offence for which they were dealt with was a drug offence. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Number of persons aged between 10 and 17 (inclusive) arrested for recorded crime (notifiable offences) within the 'Drugs Offences' offence group[1]. England and Wales, 2001-02 to 2005-06[2, 3]

	Number
2001-02	17,600
2002-03	19,500
2003-04	18,100
2004-05	14,600
2005-06	14,400

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Data for 2006-07 are not yet available.

Entry Clearances: Thailand

Mr. Randall: To ask the Secretary of State for the Home Department how many applications for visitor visas were made by Thai nationals in each of the last 12 months for which figures are available; and what percentage were successful *(a)* on first application and *(b)* on appeal. [198600]

Mr. Byrne *[holding answer 3 April 2008]:* The number of applications for visit visas made by Thai nationals (at any of our overseas posts) in each of the months during the period February 2007 to February 2008 is shown in table A as follows:

Table A

2007	Applications	Issued	Refused	Withdrawn	Lapsed	Issue rate (percentage)
February	2,131	1,855	246	7	0	88
March	4,059	3,688	253	9	1	93
April	2,505	2,302	232	6	1	91
May	3,124	2,828	285	6	4	91
June	3,006	2,726	237	12	1	92
July	2,421	2,145	259	4	0	89
August	2,534	2,217	289	19	1	88
September	2,356	2,174	230	4	0	90
October	2,689	2,395	291	12	0	89
November	2,169	1,933	226	4	0	89
December	1,121	1,002	134	5	0	88
2008						
January	1,795	1,578	222	9	1	87
February	2,586	2,253	250	1	0	90
Total	32,496	29,096	3,154	94	9	90

Appeals data are only available by post, not by nationality. Data are therefore not available to show how many of those refused in the above table were later successful on appeal. The figures below in Table B

relate to appeals received at our Embassy in Bangkok (and will therefore include appeals made by other nationalities). The number of appeals resolved each month during the same period, and the percentage of these that were successful, is shown.

Table B

2007	*Allowed*	*Dismissed*	*Allowed rate (percentage)*	*Dismissal rate (percentage)*
February	0	1	0	100
March	0	1	0	100
April	0	1	0	100
May	2	1	67	33
June	0	0	0	0
July	1	0	100	0
August	1	3	25	75
September	0	2	0	100
October	3	1	75	25
November	2	0	100	0
December	0	0	0	0
2008				
January	1	1	50	50
February	0	0	0	0

Firearms: Alcoholic Drinks

David Davis: To ask the Secretary of State for the Home Department how many people were subject to legal proceedings arising from being in possession of a loaded firearm while under the influence of alcohol in each of the last five years. [197073]

Jacqui Smith: Data showing the number of persons proceeded against for being drunk when in possession of a loaded firearm in England and Wales from 2002 to 2006 have been provided by the Office for Criminal Justice Reform and are given in the following table.

The figures given in the table relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Number of defendants proceeded against at magistrates courts for being drunk when in possession of a loaded firearm, England and Wales, 2002 to 2006[1, 2]

	Number
2002	5
2003	10
2004	7
2005	5
2006	3

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Foreign Workers: Domestic Service

Mr. Steen: To ask the Secretary of State for the Home Department when the consultation period on migrant domestic workers visas ends; and if she will meet abused or trafficked migrant domestic workers to discuss their situation. [197983]

Mr. Byrne *[holding answer 2 April 2008]:* Research and analysis in respect of the current provisions for overseas domestic workers is ongoing and will be published when it is completed. In the light of its findings we will consider separately, with interested parties, how best to achieve protection for any person, irrespective of how they have entered the UK, who is found to be a victim of trafficking.

This may involve further direct meetings with migrant domestic workers or with organisations representing them.

Genetics: Databases

David Davis: To ask the Secretary of State for the Home Department with reference to the written ministerial statement of 27 June 2007, *Official Report*, column 31WS, on the Justice and Home Affairs Council, when she expects the UK to begin sharing data on fingerprints, DNA and vehicle registration under the terms of the EU Council Decision on the stepping up of cross-border co-operation. [192783]

Jacqui Smith: The EU Council Decision on the stepping up of cross-border co-operation (also know as the Prüm Council Decision) provides improved arrangements for the sharing of fingerprint, DNA and vehicle registration data by law enforcement authorities. For example, where a DNA sample retrieved from a crime scene is searched against a national database and no match is found, the Council Decision permits for those data to be transmitted and searched through member states' national databases. A notification is sent to the requesting member state notifying of a hit or no hit i.e. matching profile. If a match is identified, further requests for information are processed through existing secure police channels allowing for appropriate data protection safeguards.

The UK expects to begin sharing data in this way within three years of adoption and publication of the legal texts.

Immigration

Mr. Frank Field: To ask the Secretary of State for the Home Department when the two teams announced in paragraph 13 of her Department's Green Paper "The Path to Citizenship: Next Steps in Reforming the Immigration System" will make their report. [198557]

Mr. Byrne *[holding answer 3 April 2008]:* The two cross-departmental teams are scoping work and will provide advice to Ministers in the summer.

Immigration: EC Action

Mr. Clappison: To ask the Secretary of State for the Home Department what assessment she has made of the provisions of the Treaty of Lisbon in respect of *(a)* uniform standards for asylum and *(b)* the rights of legal immigrants from outside the EU. [198689]

Mr. Byrne *[holding answer 3 April 2008]:* The provisions set out a more detailed analysis of the basic principles of Article 63 on minimum standards for asylum and legal migration in the Treaty Establishing the European Community.

Under the Lisbon treaty the UK will be able to choose whether or not to participate in each individual Justice and Home Affairs (JHA) measure.

Metropolitan Police: Carbon Emissions

Mr. Maude: To ask the Secretary of State for the Home Department what proportion of carbon offsetting through the Government Carbon Offsetting Fund by the Metropolitan Police Service for travel in 2006-07 was for air travel *(a)* by those on official business outside London and *(b)* for operational police purposes within London. [198220]

Mr. Byrne: Participation in the Government Carbon Offsetting Fund and air travel undertaken by the Metropolitan Police within and outside London are matters for the Commissioner of the Metropolitan Police. However, a list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Offenders: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the reply of the Chief Executive of the Border and Immigration Agency to question 18 of the evidence session before the Home Affairs Committee on 15 January 2008, in how many cases deportation of a foreign individual serving more than 12 months has not occurred because of *(a)* a decision by a court and *(b)* a decision not to seek deportation for other reasons. [181848]

Mr. Byrne: The information requested could be obtained only through the detailed examination of individual records at disproportionate cost. We have made clear that our objective is that foreign national prisoners should face deportation, when they meet the relevant criteria, and that deportation should happen as early as possible in their sentence.

Police

David Davis: To ask the Secretary of State for the Home Department what guidance her Department has issued to the police on dealing with people who voluntarily present themselves at police stations to help police with enquiries. [192249]

Jacqui Smith: Code C issued under the Police and Criminal Evidence Act (PACE) 1984 is the code of practice for the detention, treatment and questioning of persons by police officers. Persons who attend the police station voluntarily must be offered refreshments at appropriate times and if they are not arrested but are cautioned, informed that they have the right to obtain free legal advice. There are no restrictions on the ability of the person to make contact with people outside the police station. The code also requires that any person who is arrested at the police station having attended voluntarily must be brought before the custody officer as soon as possible after their arrest. The custody officer is then responsible for opening a custody record for the individual and ensuring that the relevant provisions and safeguards in PACE are applied.

Police: Public Opinion

Chris Huhne: To ask the Secretary of State for the Home Department if she will assess the findings of opinion polls on changes in public attitudes towards the police. [197293]

Jacqui Smith: The British Crime Survey (BCS) routinely includes a question on confidence in the local police and the results are published annually in the Home Office Statistical Bulletin Crime in England and Wales, copies of which can be found in the House of Commons Library.

Following a long period of declining levels of confidence in the police, there have been rising levels of confidence in recent years. The 2006-07 BCS showed that 51 per cent. of people thought their local police did a good or excellent job.

Pornography: Internet

David Davis: To ask the Secretary of State for the Home Department how many prosecutions have been brought under the Communications Act 2003 for using the internet to upload offensive or indecent images. [195543]

Jacqui Smith: The number of defendants proceeded against at magistrates courts for offences relating to using the internet to upload offensive or indecent images under the Communications Act 2003 S.127 in England and Wales for the years 2003 to 2006 can be viewed in the following table.

Court proceedings data for 2007 will be available in the autumn of 2008.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

The Communications Act 2003 Section 127 came into full force on 29 December 2003.

Number of defendants proceeded against at magistrates courts for offences relating to using the internet to upload offensive or indecent images under the Communications Act 2003 S.127 in England and Wales for the years 2003 to 2006[1,2,3,4]

	Proceeded against
2003	0
2004	214
2005	355
2006	550

[1] These data are on the principal offence basis.
[2] The communications Act S.127 came into full force on 29 December 2003
[3] Data include the following statute and corresponding offence description: Communications Act 2003 S.127 - Improper use of public electronic communications network.
[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Court proceedings data held by RDS - Office for Criminal Justice Reform—Ministry of Justice

Public Order Offences

Mr. Brady: To ask the Secretary of State for the Home Department (1) whether people arrested for public order offences when drunk are routinely tested for illegal drugs; [199996]

(2) what estimate she has made of the number of people arrested for public order offences who were found to have taken cocaine in each of the last five years for which figures are available; [200003]

(3) whether people arrested for public order offences are routinely tested for illegal drugs. [200004]

Mr. Coaker: Drug testing of offenders for specified Class A drugs in police custody operates as part of the Drug Interventions Programme in some 176 custody suites across England and Wales.

The police currently have the power to request persons aged 18 and over in police detention who have been charged or arrested with a "trigger offence", to provide a sample for testing for the presence of a specified Class A drug.

The trigger offences are set out in Schedule 6 to the Criminal Justice and Court Services Act 2000. These are the offences which have been shown to have the clearest link with drug misuse, particularly the misuse of heroin and cocaine/crack. The Drugs Intervention Programme regularly reviews the list of trigger offences.

A person arrested or charged with a non trigger offence may be tested if a police officer decides that there are reasonable grounds to suspect that Class A drug use caused or contributed to the offence. The decision to authorise a sample must be referred to a police officer of at least the rank of Inspector.

Public order offences are not among the list of trigger offences which require the police to test the offender for the presence of specified Class A drugs including cocaine although tests can be conducted using Inspector's Authority.

Between 2003 and February 2008, some 2283 tests were conducted for Public Order offences, 32 per cent. (728) of them tested positive for the presence of cocaine. Of these 481 tested positive for cocaine only and 247 for both cocaine and opiates.

Racial Violence

Dr. Kumar: To ask the Secretary of State for the Home Department how many racially motivated violent attacks took place in *(a)* England and Wales, *(b)* the North East, *(c)* the Tees Valley and *(d)* Middlesbrough South and East Cleveland constituency in each year since 1997. [198000]

Mr. Coaker: The available information relates to recorded offences of racially or religiously aggravated less serious wounding and assault without injury and is available from 1999-2000. Figures for England and Wales and the North East are given in the following tables. The Middlesbrough South and East Cleveland constituency comes within the Middlesbrough Basic Command Unit for which figures are available from 2000-01. Data for Tees Valley are not available.

Table 1: racially or religiously aggravated offences of violence recorded by the police—2000-01 and 2001-02

	1999-2000		*2000-01*		*2001-02*	
Area	*Less serious wounding*	*Assault without injury*	*Less serious wounding*	*Assault without injury*	*Less serious wounding*	*Assault without injury*
England and Wales	2,687	4,275	3,176	4,711	3,463	5,164
North East Region	29	27	39	54	64	97
Middlesbrough BCU	n/a	n/a	1	4	6	1

n/a = Not available.

Note:
The National Crime Recording Standard was introduced on 1 April 2002. Because of this figures before and after that date are not directly comparable. Prior to that date assault without injury under Home Office Counting rules could include some minor injury.

Table 2: racially or religiously aggravated offences of violence recorded by the police—2002-03 to 2006-07

	2002-03		*2003-04*		*2004-05*		*2005-06*		*2006-07*	
Area	*Less serious wounding*	*Assault without injury*	*Less serious wounding*	*Assault without injury*	*Less serious wounding*	*Assault without injury*	*Less serious wounding*	*Assault without injury*	*Less serious wounding*	*Assault without injury*
England and Wales	4,415	4,602	4,930	4,161	5,426	3,866	6,107	3,945	5,619	4,350
North East Region	68	345	144	124	161	89	182	93	191	109
Middlesbrough BCU	8	7	17	17	15	8	15	19	7	20

Note:
The National Crime Recording Standard was introduced on 1 April 2002. Because of this figures before and after that date are not directly comparable. Prior to that date assault without injury under Home Office Counting rules could include some minor injury.

Security: Licensing

Mr. Evennett: To ask the Secretary of State for the Home Department how many licence applications were not determined by the Security Industry Authority within *(a)* three months, *(b)* six months and *(c)* 12 months in the latest period for which figures are available. [196415]

Mr. Coaker: The SIA is currently making a number of improvements to its handling of applications.

The most recent period for which figures from the Security Industry Authority are available is October 2007. During that month approximately 861 applications, representing about 10 per cent. of the total applications decided that month, took the SIA over three months to determine. The reasons for the longer processing times in such cases would have included the need to make further inquiries of the applicant, or await the outcome of additional checks in respect of, for example, any overseas criminality convictions, clarification of qualifications or the right to work in the UK. The SIA does not hold data which show how many applications were not determined within 6 or 12 months.

Terrorism

David Davis: To ask the Secretary of State for the Home Department how many members of staff are employed by her Department *(a)* full-time and *(b)* part-time on the Prevent strand of Project Contest. [183418]

Jacqui Smith: The Prevent aspects of the Government's strategy on counter-terrorism are dealt with in the Home Office by the Office for Security and Counter Terrorism (OSCT). The Home Office also works with other Government Departments and agencies on Prevent.

24 full-time and two part-time Home Office staff are currently engaged directly on Prevent. This number will increase in accordance with the priority attached to this work. In addition, there are several other members of staff in the Home Office who are engaged on Prevent work as part of their wider responsibilities for counter-terrorism.

The current cross-Whitehall total of staff (including those in the Home Office) fully employed on Prevent is 83 full time staff and 22 part-time staff. There are staff in other agencies not included in the following list who are also working on Prevent. Details are as follows:

DCSF: two full-time and two part-time;

DIUS: one full-time and four part-time;

DCMS: one full-time;

MOD (including NOMS): seven full-time

MoJ and DSCF (joint post): one part-time;

FCO: 19 full-time;

DFID: seven full-time and one part-time;

DWP: three part-time;

CLG: 22 full-time;

RICU (cross-Whitehall unit): nine part-time;

HO: 24 full-time and two part-time.

In addition, more and more local government and police forces are directly engaging staff on Prevent work.

TREASURY

Disabled People

Mr. MacNeil: To ask the Chancellor of the Exchequer what targets his Department has set in relation to its employment of people with disabilities over the next five years. [199040]

Angela Eagle: The Treasury, in common with other Whitehall Departments, has adopted the targets set out in the Cabinet Office's 10 point plan on diversity in relation to the employment of people with disabilities. The current target for the Treasury's senior civil service on the representation of employees with disabilities is 3.2 per cent. and for the feeder grades to the Treasury's senior civil service the target is 5.0 per cent.

The current targets, set for 2005-08, will be revised post April 2008. Work is under way on setting targets for 2008-11.

Energy: Prices

Mrs. Riordan: To ask the Chancellor of the Exchequer what recent assessment he has made of the effects on the economy of recent changes in energy prices. [199390]

Angela Eagle: The Government published their latest assessment of recent economic developments and prospects in the Financial Statement and Budget report on 12 March 2008.

Excise Duties: Motor Vehicles

Justine Greening: To ask the Chancellor of the Exchequer (1) what assumption he has made of the number of new cars paying the first year charge vehicle excise duty in *(a)* Band E, *(b)* Band F, *(c)* Band G, *(d)* Band H, *(e)* Band I, *(f)* Band J, *(g)* Band K, *(h)* Band L and *(i)* Band M in 2010-11 in relation to the Red Book tax revenue calculations in line 35 Table 1.2, page 9; and if he will make a statement; [196305]

(2) what assumption he has made of the number of existing cars paying vehicle excise duty in *(a)* Band A, *(b)* Band B, *(c)* Band C, *(d)* Band D, *(e)* Band E, *(f)* Band F, *(g)* Band G, *(h)* Band H, *(i)* Band I, *(j)* Band J, *(k)* Band K, *(l)* Band L and *(m)* Band M in 2008-09, 2009-10 and 2010-11 in relation to the Red Book tax revenue calculations in line 35 Table 1.2, page 9; and if he will make a statement. [196306]

Angela Eagle *[holding answer 25 March 2008]:* The number of new cars assumed to be paying the first year VED rate in 2010-11 are: 461,865 in band E; 367,998 in band F; 365,726 in band G; 209,668 in band H; 164,899 in band I; 190,705 in band J; 110,257 in band K; 65,169 in band L and 57,096 in band M.

The number of existing cars assumed to be paying VED in each band in each of the years 2008-09, 2009-10 and 2010-11, are as set out in the following tables.

Band	*CO_2 (g/km)*	*2008-09*
A	Up to 100	395
B	101-120	435,128

Band	CO_2 (g/km)	2008-09
C	121-150	4,475,675
D	151-165	3,600,604
E	166-185	2,988,220
F	Over 185	3,833,614
G	Over 226	319,155

Band	CO_2 (g/km)	2009-10	2010-11
A	Up to 100	402	406
B	101-110	159,677	213,780
C	111-120	391,784	461,838
D	121-130	545,764	659,329
E	131-140	1,958,283	2,350,966
F	141-150	2,709,904	3,024,826
G	151-160	2,897,680	3,194,682
H	161-170	2,133,478	2,348,648
I	171-180	1,627,854	1,747,207
J	181-200	2,354,888	2,523,103
K	201-225	2,430,478	1,424,751
L	226-255	216,319	936,364
M	Over 255	240,371	709,042

Income Tax: Bexley

Mr. Evennett: To ask the Chancellor of the Exchequer (1) how many people in Bexley paid income tax at the 10 pence basic rate in 2007-08; [199488]

(2) what assessment he has made of the effects on residents of Bexley in receipt of occupational pensions of abolition of the 10 pence rate of income tax. [199489]

Jane Kennedy: The removal of the 10p rate is part of a package of reforms announced in Budget 2007 to simplify the personal tax system and provide more support to families and pensioners. The package includes increasing age-related allowances by £1,180 above indexation, meaning that every person qualifying for these allowances will pay no more tax than without the reforms announced in Budget 2007 and removing 600,000 pensioners from paying tax.

Estimates of the number paying tax at the starting rate in the UK for 2007-08 are given in Table 2.5 based on projections of the 2004-05 Survey of Personal Incomes. This table can be found on the HM Revenue and Customs website and will be updated with the results of the 2005-06 survey at the end of April.

http://www.hmrc.gov.uk/stats/income_tax/menu.htm

Available information on numbers of taxpayers in each London borough is shown in table T3.14, which can be found at the HM Revenue and Customs website.

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

The effect of the package on households in receipt of occupational pensions will depend on their circumstances, for example, their age, whether they have dependent children and other income.

Northern Rock

Philip Davies: To ask the Chancellor of the Exchequer what assessment he has made of the impact of the EU capital requirements directive on the liquidity of Northern Rock in the last 12 months. [191583]

Angela Eagle: The assessment of the capital and liquidity position of banks, and the linkages between the two, is a matter for the Financial Services Authority as banking supervisor. The FSA monitors these on an ongoing basis. The introduction of the capital requirements directive has not changed this underlying position.

VAT: Sunscreens

Mr. Swire: To ask the Chancellor of the Exchequer what plans he has to make suntan lotions for children zero-rated for VAT. [199826]

Jane Kennedy: I refer the hon. Member to the answer given on 23 April 2007, *Official Report*, column 998W, to the hon. Member for Castle Point (Bob Spink).

INNOVATION, UNIVERSITIES AND SKILLS

Apprentices: Construction

Harry Cohen: To ask the Secretary of State for Innovation, Universities and Skills how many construction apprenticeship *(a)* starts and *(b)* completions there were in each region in each of the last five years. [199655]

Mr. Lammy: The information requested is provided in the following table. Figures for the number of completions in 2006/07 are not currently available but will be by the summer.

Construction apprenticeships starts and framework completions by region of learner's home postcode 2002/03 to 2006/07

	2002/03		2003/04		2004/05		2005/06		2006/07
Region[1]	Starts	Framework completions	Starts	Framework completions	Starts	Framework completions	Starts	Framework completions	Starts
East Midlands	2,113	247	1,479	230	1,722	615	1,056	692	1,525
East of England	2,217	202	1,136	251	1,740	512	1,266	348	1,570
London	848	42	1,296	242	906	89	1,782	1,056	2,634
North East	2,825	277	721	92	2,220	762	640	601	681
North West	4,998	435	1,660	245	4,194	1,266	1,819	513	2,354
South East	2,802	168	1,378	254	1,942	621	2,725	1,055	3,366

Work Based Learning Individualised Learner Record

Departmental Consultants

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills which external consultants have been contracted by his Department since it was established for contracts in excess of £50,000; and what the work contracted for was. [199929]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007. Since this time the Department has spent in excess of £50,000 on the following:

	£
Outsights Ltd	513,714.71
KPMG	391,905.25
Company Reporting Ltd	208,416.67
PricewaterhouseCoopers	198,212.00
SHIFTN	127,920.00
Saxton Bampfylde Hever Plc	119,493.06
PA Consulting Group	103,075.00
Tribal Consulting Ltd	101,168.55
Evidence Ltd	75,470.00
Jags Consulting Ltd T/A Jags Consul	72,100.00
Dialogue By Design	58,234.00
Enterprise (AOL) Limited	54,400.00
KMC International	51,451.10

To investigate specific contracts in excess of £50,000 would be at disproportionate cost.

Departmental Electricity

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how much his Department spent on electricity in each month in the latest 12 month period for which figures are available; and if he will make a statement. [196989]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of machinery of government changes in June 2007. Since this time, the Department has spent on electricity, a total of £32,023.54. This can be split up further into £31,816.23 to the end of November and £207.31 in January. DCSF provides DIUS with share services which include the provision of office space, an element of this expenditure relates to electricity, but split obtainable only at a disproportionate cost.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Innovation, Universities and Skills how much was spent on the most recent redesign and implementation of his Departmental website. [200147]

Mr. Lammy: The Department for Innovation, Universities and Skills was formed on 28 June 2007, following the machinery of Government changes. Costs for the design and implementation of the departmental website to date are projected to be in the region of £85,000.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Innovation, Universities and Skills what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198316]

Mr. Lammy: Since July 2007, there has been one Act sponsored by the Department of Innovation, Universities and Skills—the Further Education and Training Act 2007. This Act did not create any criminal offences.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* permanent civil service posts, *(b)* permanent non-civil service posts and *(c)* temporary or agency workers in employment in his Department there were in each month since May 2005. [199548]

Mr. Lammy: The Department was created by Machinery of Government changes in July 2007 from elements of the then Department of Trade and Industry and Department for Education and Skills. For this reason—and until spring 2009—we are continuing to operate from two Human Resource databases and two separate payrolls for all employees.

As regards part *(a)* of the question, we are able to provide quarterly 'snapshots' of information about the number of permanent civil servant posts, as follows:

	Number
July 2007	762
October 2007	793
January 2008	825
April 2008	808

(b) There are no permanent non-civil servant posts in the Department; and

(c) records of temporary or agency workers are not held centrally and to collect this information would involve disproportionate cost.

Departmental Pay

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what the 10 highest salaries paid by his Department to non-civil servants are. [199920]

Mr. Lammy: The Department was set up as part of the Machinery of Government changes on 28 June 2007. In the subsequent period, as part of the process of establishing the new Department, it has been necessary on occasion to engage the services of contractors, consultants and temporary staff who are usually not employees and are not on the DIUS payroll. Aside from this situation, the non-civil servants on the payroll are Ministers whose salaries are already in the public domain.

Departmental Public Expenditure

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what the 10 highest items of expenditure on purchases by his Department were in the last 12 months for which are available. [200039]

Mr. Lammy: We are unable to provide a response to this question as it does not specify sufficiently the basis on which these data are sought.

To illustrate, the question does not state if it relates to running or capital costs or both, and if it relates to individual contracts or suppliers.

Departmental Translation Services

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how much translation of documents produced by his Department in the last 12 months has cost, broken down by language. [199926]

Mr. Lammy: The Department has made payments for translation services to the value of £11,094.25 during the financial year 2007-08. To investigate as to whether these services were provided for the translation of documents and into language category would be at disproportionate cost.

Departmental Written Questions

Mike Penning: To ask the Secretary of State for Innovation, Universities and Skills how many written questions to his Department had not received an answer as at 25 February 2008 for *(a)* between two and four, *(b)* between four and six, *(c)* between six and eight and *(d)* more than eight weeks; and how many in each category were tabled for named day answer. [193390]

Mr. Lammy: The Department received a total number of 889 PQs during the period covering 6 November 2007 to 25 February 2008. According to our records, the breakdown of questions, at least two weeks old, that had not received an answer on 25 February 2008 was as shown in the following table.

	(a) Two to four weeks	*(b) Four to six weeks*	*(c) Six to eight weeks*	*(d) More than eight weeks*	*Total*
Commons Named Day	0	0	1	1	2
Commons Written	5	3	3	16	27
Total	5	3	4	17	29

Mr. Harper: To ask the Secretary of State for Innovation, Universities and Skills what progress his Department has made on its parliamentary question tracking system to record whether named day questions are provided with a substantive answer on the due day since November 2007. [199993]

Mr. Lammy: Although parts of the Department's PQ tracking system have been upgraded there is still some outstanding work to be completed on the parts of the system that provide management information reports. In the interim, the parliamentary team are maintaining a manual check on all named day questions to monitor the timeliness of replies.

Learning and Skills Councils: North West

Mr. Pope: To ask the Secretary of State for Innovation, Universities and Skills what plans he has to increase the revenue budget of the Learning and Skills Council for the North West to meet objectives to reduce the number of young people not in education, training or employment. [199419]

Mr. Lammy: Progress is being made in reducing the number of young people who are not in employment, education or training (NEET). Latest figures show that 206,200 (10.3 per cent.) 16 to 18-year-olds were NEET at the end of 2006, a reduction from 217,000 (10.9 per cent.) at the end of 2005.

The Learning and Skills Council (LSC) makes decisions about allocations of funding to specific areas based on strategic discussions with local partners about the range of provision that is needed.

The overall north-west NEET budget is increasing, with the direct NEET programme funding increasing from £3.75 million in 2007-08 to £3.95 million in 2008-09, including a pilot programme for KS4 pupils at risk of disengagement, and funding for a parents to be programme.

There are also other sources of funds including from the LSC and also local authorities that directly or indirectly support young people who are NEET.

Official Gifts

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what use his Department makes of items from the Donated Asset Reserve; and if he will make a statement. [199923]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007. The Department does not have any items held within a Donated Asset Reserve.

DUCHY OF LANCASTER

Capita

Mr. Dai Davies: To ask the Chancellor of the Duchy of Lancaster how many employees of Capita plc have been *(a)* seconded to his Department and *(b)* appointed to his Department's non departmental public bodies since 1997; to which body each secondment or appointment was made; and for how long each secondment or appointment lasted. [199702]

Phil Hope: There have been no employees of Capita plc seconded to the Cabinet Office since 1997. Currently, no appointees to Cabinet Office non-departmental public bodies are employees of Capita plc. Details of past appointees to Cabinet Office non-departmental public bodies since 1997 and their employment history are not held centrally and could be collected only at disproportionate cost.

Departmental Manpower

Dan Rogerson: To ask the Chancellor of the Duchy of Lancaster how many *(a)* permanent civil service posts, *(b)* permanent non-civil service posts and *(c)* temporary or agency workers in employment there were in his Department in each month since May 2005. [199831]

Phil Hope: From latest available figures as at 31 December 2007, there were 1,222 posts (FTE) within the Cabinet Office filled by permanent civil servants. This figure includes permanent Cabinet Office staff and staff on loan from another Government Department.

In addition, there were 182 non-permanent staff (FTE). This figure includes staff on a fixed term or short-term appointment, staff seconded in from outside the civil service, fee-paid staff, agency staff, consultants and contractors.

Departmental Pay

Dan Rogerson: To ask the Chancellor of the Duchy of Lancaster what the cost of *(a)* salaries for permanent Civil Service posts, *(b)* salaries for permanent non-Civil Service posts and *(c)* payments to temporary or agency workers in his Department was in each month since May 2005. [199627]

Phil Hope: The information requested can be provided only at disproportionate cost. Total annual costs for the wages and associated employment costs of permanently employed staff, agency staff, Ministers and special advisers are provided in note 9 (Staff numbers and related costs) to the Department's annual report and resource accounts, copies of which are available in the Library of the House.

Departmental Public Participation

Mrs. May: To ask the Chancellor of the Duchy of Lancaster what *(a)* surveys, *(b)* questionnaires and *(c)* other services were provided by polling companies for his Department in financial year 2007-08, broken down by company. [200018]

Phil Hope: The information requested is not held centrally and is therefore available only at disproportionate cost.

Migration: Statistics

Simon Hughes: To ask the Chancellor of the Duchy of Lancaster whether the workplan published by the Interdepartmental Task Force laying out the actions needed to improve the estimates of migration is Government policy. [199299]

Phil Hope: The Government welcome the report of the task force and is fully supportive of efforts to further improve migration data. Governance arrangements have been established by the National Statistician, in consultation with Departments, to ensure work progresses according to agreed work plans and she will be responsible for overseeing delivery.

On 4 February, the Minister for Local Government, John Healey, announced to the House that a cross-government programme would be put in place, driven by senior officials from central Government and the Local Government Association, and led by the National Statistician. This Programme Board of officials will help steer the work and advise on priorities.

A ministerial group will support the National Statistician and help drive forward the changes. This latter group is to be chaired jointly by John Healey, the Minister for Local Government, and Liam Byrne, Home Office Minister of State for Borders and Immigration, for the Government. The UK Statistics Authority will ensure the quality of the statistics that are produced.

CULTURE, MEDIA AND SPORT

Arts Council of England: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much of Arts Council England's annual budget, as announced in his Department's press release 117/07, dated 12 October 2007, has been reserved for future partnership schemes with his Department. [199842]

Margaret Hodge: The following amount of Arts Council England funding have been reserved for future partnership schemes with my Department over the next three years.

£000

Budget	Joint research budget	Taking Part	Living Places	ArtCo
2008-09	200	300	24	100,000
2009-10	200	300		100,000
2010-11	200	300		

The Arts Council will also be contributing towards the jointly owned work programme of the cultural services improvement unit at the Improvement and Development Agency (IDeA). A figure for this contribution has not yet been finalised.

Conference Centres

Mr. Willis: To ask the Secretary of State for Culture, Media and Sport whether his Department provides *(a)* capital and *(b)* revenue support to any conference or exhibition centre; and if he will make a statement. [199436]

Mr. Sutcliffe: According to the Department's records, the Department for Culture, Media and Sport does not provide any capital or revenue support to conference and/or exhibition centres.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Culture, Media and Sport what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997. [198290]

Margaret Hodge: The information could be provided only at disproportionate cost.

Departmental Public Expenditure

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much of his Department's budget as allocated in the Comprehensive Spending Review is yet to be assigned. [199841]

Andy Burnham: In successive spending reviews, we have sought to allocate settlements in full over the three years of each review. This provides our sponsored bodies with maximum financial certainty within which to plan ahead for the development and provision of excellent services. Some scope to change plans is provided at the margin by end year flexibility.

Accordingly, our resource budget is fully allocated. Our capital budget is almost fully allocated.

English Sports Council: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much of Sport England's annual budget for 2008-09 has been reserved for future partnership schemes with his Department. [199843]

Mr. Sutcliffe: Sport England will contribute at least £600,000 to part fund the Taking Part Survey commissioned by the Department and its key non-departmental public bodies (NDPBs), £36,000 towards a joint research budget for the Department and its NDPBs, and £25,000 towards the administration of the Living Places Partnership, an agreement between the Department for Communities and Local Government, the Department and its partner NDPBs and the Academy for Sustainable Communities, to ensure that all communities can benefit from cultural and sporting opportunities.

Sport England is still considering whether a contribution will be made to the Improvement and Development Agency for local government (IDeA) for the coming year. Sport England will agree its overall strategy in May 2008.

The exact figures will be available once their 2008-09 budget has been set.

Euclid

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what services his Department obtained from Euclid in each of the last three years; and what the cost of these services was in each year. [199864]

Margaret Hodge: Euclid is contracted by DCMS to act as the UK's cultural contact point (CCP) for the European Union's Culture Programme. Euclid provides European and international information, research and consultancy services to the cultural sector, including guidance on funding opportunities. The UK CCP receives funding of £50,000 from the European Commission annually and my Department match funds to this amount. The current CCP contract runs from January 2007 until December 2009.

Euclid also holds the contract to promote the European Year of Intercultural dialogue in the UK. The cost of this contract was a one off payment of £10,000.

Internet: Children

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what the cost of the Byron Review has been. [198394]

Margaret Hodge *[holding answer 2 April 2008]:* Dr. Tanya Byron published her report on 27 March 2008 and the Government have accepted her recommendations. The review has just ended and while accounting procedures are still to be completed, we estimate that a total of around £275,000 has been spent on the review, not including salaries and expenses of the civil servants on the Review's secretariat.

This included expenditure on consultation with parents and other stakeholders, and a comprehensive literature review.

This expenditure has been incurred in accordance with the Cabinet Office guidelines and a value for money assessment.

Mobile Phones: Rural Areas

Mr. McLoughlin: To ask the Secretary of State for Culture, Media and Sport what is being done to promote better mobile telephone coverage in rural areas of the country. [195219]

Malcolm Wicks: I have been asked to reply.

The mobile network operators build base stations in order to meet customers need for coverage and service. The decision to build in a particular location is largely a commercial matter for the operators.

For new 3G networks, an 80 per cent. population coverage obligation by 2007 was placed on each licence holder to encourage network rollout. This could equate to approximately 45 per cent. land area coverage averaged over the whole of the United Kingdom. The Office of Communications (Ofcom) has now completed its assessment of compliance with the obligation and has proposed action against O2, the one operator not yet having complied. However coverage beyond this obligation would again be a commercial matter for operators. For 2G or GSM networks the original coverage obligations laid on GSM operators were discharged many years ago and have been significantly exceeded on a voluntary basis.

In some areas, opposition to mast construction can have detrimental effect on operators' plans to extend mobile phone coverage. It is possible that a direct approach to an operator indicating a suitable site might be productive in obtaining greater mobile coverage for an area.

Museum, Libraries and Archives Council: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much of the Museum, Libraries and Archives Council's budget for 2008-09 has been reserved for future partnership schemes with his Department. [199844]

Margaret Hodge: The Museums, Libraries and Archives Council (MLA) is contributing £80,000 towards the "Taking Part" survey commissioned by the Department and its partner non-departmental public bodies (NDPBs); £78,000 towards the jointly owned work programme of the cultural services improvement unit at the Improvement and Development Agency (IDeA); £24,000 towards the administration of the Living Places Partnership—an agreement between the Department for Communities and Local Government, the Department and its partner NDPBs and the Academy for Sustainable Communities—to ensure that all communities can benefit from cultural and sporting opportunities, particularly those experiencing housing-led growth and regeneration; and £7,000 towards a joint research budget for the Department and its partner NDPBs.

Tourism: Essex

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what steps his Department has taken to promote tourism in Essex since 1997. [197652]

Margaret Hodge: Government support for tourism promotion in the east of England, and the other eight regions of England, has increased substantially since 1997.

From 1997-98 to 2002-03, the east of England tourist board received funding of between £427,000 and £868,000 per year from the former English Tourism Council (previously known as the English Tourist Board).

As part of the DCMS Tourism Reform programme, responsibility for supporting tourism passed to the regional development agencies (RDAs), including the east of England development agency (EEDA) in 2003. The RDAs together estimate total spending of £43.5 million on tourism support in 2007-08. EEDA has invested substantially in sector, with £0.8 million, £1.5 million and £1.8 million in 2005-06, 2006-07 and 2007-08 respectively.

At national level, DCMS funds VisitBritain to market and promote all parts of England, including the east of England, to domestic and international visitors. Spreading the benefits of this work is an important part of the relevant funding agreement, which requires VisitBritain to achieve a specified proportion of additional expenditure by inbound visitors outside London. For 2005-06, the target was 55 per cent. and VisitBritain achieved 61 per cent. For 2006-07, the target was 54 per cent. and VisitBritain achieved 57 per cent.

Further support for the sector, including the bulk of promotion to the domestic market (which makes up around 80 per cent. of the sector), is led by local councils. DCMS has also made substantial investment in heritage, arts and culture throughout the country since 1997. These sectors, in addition to their intrinsic value to the nation's cultural life, benefit the visitor economy.

Tourism: North East

Mr. Kemp: To ask the Secretary of State for Culture, Media and Sport what steps the Government has taken to promote tourism in the North East since 1997. [197264]

Margaret Hodge: Government support for tourism promotion in the north east, and the other eight regions of England, has increased substantially since 1997.

From 1997-98 to 2002-03, the Northumbria Tourist Board received funding of between £241,000 and £570,000 a year from the former English Tourism Council (previously known as the English Tourist Board).

As part of the DCMS Tourism Reform Programme, responsibility for supporting tourism passed to the regional development agencies (RDAs), including One NorthEast (ONE) in 2003. The RDAs together estimate total spending of £43.5 million on tourism

support in 2007-08. ONE has made a substantial investment in the tourism sector; including funding of £1.7 million, £4.4 and £3.6 million in 2005-06, 2006-07 and 2007-08 respectively to promote the north east.

At national level, DCMS funds VisitBritain to market and promote all parts of England, including the north east, to domestic and international visitors. Spreading the benefits of this work is an important part of the relevant funding agreement, which requires VisitBritain to achieve a specified proportion of additional expenditure by inbound visitors outside London. For 2005-06, the target was 55 per cent. and VisitBritain achieved 61 per cent. For 2006-07, the target was 54 per cent. and VisitBritain achieved 57 per cent.

Further support for the sector, including the bulk of promotion to the domestic market (which makes up around 80 per cent. of the sector), is led by local councils. DCMS has also made substantial investment in heritage, arts and culture throughout the country since 1997. These sectors, in addition to their intrinsic value to the nation's cultural life, benefit the visitor economy.

INTERNATIONAL DEVELOPMENT

Children: Poverty

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps the Government have taken to reduce child poverty globally in the last year. [199408]

Gillian Merron: The UK Government have committed significant funds for reducing child poverty, including £8.5 billion for education (2007-15), £150 million for children affected by HIV/AIDS (2004-2007) and over £7 million for addressing forced labour and child labour.

In addition the Department for International Development supports children and young people through direct funding to non-governmental organisations, including Plan UK (2007-2011; £3.1 million for the first three years) and Save the Children (2005-2011; £20.7 million for the first three years). In 2007 a joint DFID and civil society network on children was established to learn from civil society experience of working to promote child rights and reduce child poverty. DFID has also contributed £7 million (2006-2009) to the 'Young Lives project', which is a 15 year study of child poverty in four countries.

In 2008 HMG is leading on a global 'Call to Action' around the millennium development goals (the MDGs), which focus on achieving measurably improved outcomes for millions of the world's most deprived children on for example income poverty, nutrition and access to education and health services. DFID will be renewing efforts around the MDGs and we will also be working with other international players to ensure that the global community—including the business community—commit all the resources and energy needed to reduce child poverty.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for International Development what the hourly rates of pay of all non-permanent staff working for his Department were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196447]

Gillian Merron: Non-permanent members of staff at the Department for International Development (DFID) receive payment on either an annual salary basis or an hourly rate basis, depending on the terms of their contract.

Non-permanent, salaried staff are recruited to fill a wide range of managerial, advisory and administrative posts, and salaries vary significantly depending on the post held. The salary may also be subject to review during the period of their appointment. Details of the hourly rates of pay for all salaried non-permanent members of staff for each of the last 12 months could only be provided at disproportionate cost, following a detailed review of each individual's salary records.

DFID also appoints non-permanent staff through recruitment agencies to undertake both administrative and specialist roles, including IT and communications specialists. Administrative appointments are managed centrally, but individual departments within DFID have delegated authority to engage specialist staff. Records are not held centrally for this group.

Since April 2007 the majority of administrative appointments have been made through two agencies serving our two headquarters locations—one in London and one in East Kilbride. The average hourly rate paid for these agency staff over the past 12 months (from April 2007 to March 2008) is:

	£
London	11.36
East Kilbride	9.27

Note

Under the terms of the contract with the agency suppliers, DFID is unable to make public information that may be of value to a competitor. This specifically precludes us releasing details of the hourly rates paid for each grade of staff.

The number of staff appointed through these agencies in each of the last 12 months is detailed in the following table.

2007	*Number*
April	6
May	10
June	14
July	18
August	19
September	24
October	27
November	29
December	33
2008	
January	38
February	47
March	53

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for International Development how many working days were lost by his Department due to stress-related illness in each of the last 24 months. [198935]

Gillian Merron: Details of the working days lost by the Department for International Development (DFID) to stress related illnesses for each month from January 2006 to December 2007 (i.e. the last 24 months for which collated details are available) are shown in the following table:

Working days lost to stress related illnesses

	2006	2007
January	148	156
February	142	75
March	157	30
April	120	24
May	105	18
June	84	15
July	60	38
August	63	56
September	36	65
October	67	104
November	120	154
December	188	147

Mr. Hoban: To ask the Secretary of State for International Development how many days sick leave were taken on average by staff in his Department in each of the last five years. [198949]

Gillian Merron: For the years 2003-07 the average working days per employee lost to sick leave for the Department for International Development (DFID) are:

	Sick leave
2003	7.0
2004	4.8
2005	5.7
2006	5.0
2007	4.4

Mr. Hoban: To ask the Secretary of State for International Development how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198973]

Gillian Merron: The numbers of Department for International Development (DFID) staff, by pay grade, who took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, are shown in the following table:

Stress related sick absences

Global Fund to Fight AIDS Tuberculosis and Malaria

Ben Chapman: To ask the Secretary of State for International Development which countries have committed funding for the Global Fund to fight AIDS; and how much each has committed. [198683]

Gillian Merron: About 30 donors, including the private sector and private foundations, have either pledged or are projected to contribute a total of $9.7 billion to the Global Fund to fight AIDS, Tuberculosis and Malaria for the period 2008-2010.

A table setting out these pledges in detail has been placed in the Libraries of both Houses. A more detailed spreadsheet showing all pledges and contributions since the Global Fund was established can be found on the Global Fund's website:

http://www.theglobalfund.org/en/files/pledges&contributions.xls

The UK pledged £360 million, with £30 million of this subject to demand and results and an additional £640 million from 2011-15, providing the Global Fund is receiving good quality proposals from countries, continues to perform well, and is demonstrating sustainable impact.

Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for International Development whether his Department provides health or social care services out of public funds, with reference to the Statement by the Minister of State, Department of Health, in the Health and Social Care Bill Committee, of 17 January 2008, *Official Report*, column 327. [200222]

Gillian Merron: The Department for International Development (DFID) does not currently provide social care services paid for out of public funds.

DFID does provide healthcare services for staff working and living overseas. In the majority of circumstances, this service facilitates referrals into the NHS, but occasionally makes use, as appropriate, of medical services overseas, the cost of which is paid for from public funds.

Karian and Box

Mr. Hands: To ask the Secretary of State for International Development what the value was of each contract awarded by his Department to Karian and Box since 1997. [199643]

Mr. Malik: The Department for International Development (DFID) has no record of current or previous contracts with Karian and Box for the period requested.

Somalia: Food

Mr. Drew: To ask the Secretary of State for International Development what discussions he has had with the World Food Programme on the situation in Somalia. [199445]

Gillian Merron: DFID officials are in regular and sustained contact with the WFP regarding food aid needs in Somalia, overall humanitarian and food aid strategies and logistical matters. These contacts include telephone calls, meetings in Nairobi and joint visits to Somalia.

DFID is the second largest contributor to the WFP element of the 2008 UN Humanitarian Appeal for Somalia.

FOREIGN AND COMMONWEALTH OFFICE

Admiralty House

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 5 March 2008, *Official Report*, column 2564W, on Admiralty House, (1) what the *(a)* make, *(b)* model and *(c)* energy efficiency rating of the (i) washer dryer, (ii) tumble dryer and (iii) fridge-freezer was; [196298]

(2) if he will place in the Library copies of departmental purchase orders 228224, 225497, 228317, 228314 and 228318 in relation to the minor works undertaken. [196299]

Meg Munn *[holding answer 25 March 2008]*: Departmental purchase orders and supplies of appliances are not normally disclosed for reasons of commercial confidentiality.

Burma

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions he has had with the *(a)* UN High Commissioner for Refugees and *(b)* government of (i) India and (ii) Bangladesh on the potential numbers of people migrating from Chin state, western Burma as a result of famine and human rights violations; [198374]

(2) what reports he has received of famine in Chin state, western Burma; what steps he has taken to investigate such reports; and what steps he plans to take in the event of such reports being confirmed. [198376]

Meg Munn: I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State for International Development to the hon. Member for Sutton Coldfield the (Mr. Mitchell) on 25 March 2008, *Official Report*, column 34W.

We are aware that in parts of Chin state, as well as neighbouring areas in India and Bangladesh, people are experiencing significant hardship due to rodent infestations and consequent crop damage. The Department for International Development (DFID) is in contact with the UN Development Programme and World Food Programme about what humanitarian response may be required. DFID already provides a significant amount of support to Chin state from inside Burma. We also closely monitor the human rights situation in Burma, including abuses committed against ethnic groups.

We have received no reports of any recent upsurge in levels of migration across Indian and Bangladeshi borders from Chin state and as a result have not discussed the issue with the Office of the UN High Commissioner for Refugees or Indian and Bangladeshi governments. We do, however, discuss conditions in Burma generally and the plight of refugees from Burma with neighbouring countries.

Commonwealth: Students

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs what arrangements he has made to ensure continued scholarship opportunities for high quality doctoral students from developed Commonwealth countries following his decision to terminate funding for Commonwealth Scholarships in the UK after 2008-09. [198364]

Mr. Jim Murphy: The Foreign and Commonwealth Office (FCO) has committed £79,110,000 to scholarship funding (including to Commonwealth countries) over the next three years in accordance with the FCO's global strategy and priorities. Other sources of funding for overseas doctoral students performing research in the UK are available through research councils and universities themselves.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997. [198293]

Meg Munn: Criminal offences under the Genocide Act 1969 were repealed by the International Criminal Court Act 2001; the International Criminal Court Act 2001, however, re-enacted the crime of genocide, with a wider jurisdictional ambit.

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198313]

Meg Munn: No new primary legislation sponsored by the Foreign and Commonwealth Office has been enacted in the period in question.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196450]

Meg Munn: In the UK the Foreign and Commonwealth Office employs the following categories of non-permanent staff:

external consultants/contractors

temporary staff supplied by employment agencies; and

fee-paid staff paid an hourly rate.

The terms under which we employ consultants and contractors vary according to each contract or supply agreement. We do not hold a central record of these agreements.

In respect of the rates we have paid to non-permanent staff supplied by employment agencies I refer the hon. Member to the reply I gave on 11 March

2008, *Official Report*, column 328W to the hon. Member for Perth and North Perthshire (Pete Wishart).

In each of the past 12 months we have employed the following numbers of non-permanent fee-paid staff at the following hourly rates. The hourly rates are themselves based on annual salaries for permanent staff in the corresponding grade:

Month	*Number*	*Hourly minimum (£)*	*Hourly maximum (£)*
March 2008	26	9.18	35.12
February 2008	28	9.18	35.12
January 2008	29	6.91	35.12
December 2007	24	6.91	35.12
November 2007	25	6.91	35.12
October 2007	29	6.91	55.56
September 2007	27	6.91	55.56
August 2007	23	6.91	55.56
July 2007	21	6.91	55.56
June 2007	16	9.18	55.56
May 2007	11	9.18	55.56
April 2007	8	13.13	55.56

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department plans to publish its sustainable operations policy statement. [195864]

Meg Munn: The Foreign and Commonwealth Office's (FCO) Environment Policy Statement on Operations is available on the FCO's website at the following address:

http://www.fco.gov.uk/en/about-the-fco/how-we-are-organised/improvements/environmental-performance.

Gaza: Politics and Government

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions on the political situation in Gaza he has had with *(a)* Cabinet colleagues, *(b)* the Israeli authorities, *(c)* Palestinian officials and *(d)* non-governmental organisations. [197891]

Meg Munn: The UK is working intensively to address the latest violence in the Gaza Strip and the continued firing of rockets from Gaza into Israel. In recent weeks, my right hon. Friend the Foreign Secretary briefed his Cabinet colleagues and has regular conversations with my right hon. Friend the Prime Minister and my right hon. Friend the Secretary of State for International Development regarding Gaza and southern Israel.

In addition, my right hon. Friend the Foreign Secretary has been in contact with Palestinian President Abbas on 6 March, Israeli Defence Minister Barak on 28 February and 17 April, Israeli Foreign Minister Livni on 27 March, 10 April and 16 April, Egyptian Foreign Minister Gheit on 9 March, US Secretary of State Rice most recently on 2 April, and the UN Secretary-General Ban Ki-moon on 27 March.

My right hon. Friend the Foreign Secretary and Foreign and Commonwealth Office officials have been in regular contact with non-governmental organisations. My right hon. Friend the Foreign Secretary has recently written to the Palestinian Solidarity Campaign, Jews for Justice, and Oxfam. My right hon. Friend the Foreign Secretary met with the British Overseas Agencies Group which represents ActionAid, Catholic Agency for Overseas Development, Christian Aid, Oxfam GB and Save the Children on 14 April. Officials have recently met with Oxfam, Amnesty International, Médecihs Sans Frontières and Christian Aid.

We continue to urge all parties to exercise restraint and refrain from the use of force.

Iran: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government will be encouraging the European Union to take in light of the agreement on UN Security Council Resolution 1803 on 3 March 2008; and if he will make a statement. [199074]

Dr. Howells: Following UN Security Council resolution 1803, we are pressing for further EU measures in the form of a new Common Position and additional listings of entities and individuals that meet the criteria laid out in the existing Common Positions. A range of proposals are under consideration, including further financial and other measures and my right hon. Friend the Foreign Secretary will inform the House when these have been agreed.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects additional EU sanctions on Iran to be agreed; and if he will make a statement. [199080]

Dr. Howells: On the basis of UN Security Council Resolution 1803, my right hon. Friend the Foreign Secretary and our officials are working closely with EU partners to design and adopt further EU measures as a matter of urgency. Discussions are continuing in Brussels. My right hon. Friend the Foreign Secretary will inform the House of the outcome of those negotiations as soon as he is able to do so.

Iraq: Detainees

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanisms are in place to ensure that Iraqi prisoners who are handed over to the Iraqi government by coalition forces are accorded the level of treatment expected under international conventions; and if he will make a statement. [198348]

Dr. Howells: The Government concluded a Memorandum of Understanding (MOU) with the Government of Iraq on 8 November 2004 entitled "Memorandum of understanding between the United Kingdom of Great Britain and Northern Ireland contingent of Multinational Forces-Iraq and the Ministries of Justice and Interior of Iraq regarding criminal suspects".

This MOU sets out the process by which transfers are to be conducted and also sets out the expectations of the Government in relation to the treatment of individuals transferred. We have previously sought the

permission of the Government of Iraq to lay a copy of the MOU before Parliament, but that permission was withheld.

Iraq: Peacekeeping Operations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the use of Iranian-made rockets in attacks against Iraqi targets and coalition forces in Iraq; and if he will make a statement. [199077]

Dr. Howells: We consistently monitor the equipment and armaments being used by militias and other insurgents in Iraq. Any support for insurgents through supply of weapons, training or funding contributes to instability in Iraq.

We welcome the Iraqi government's statements that it will not tolerate any outside interference which undermines the prospects for a secure, stable and democratic Iraq.

Middle East: Armed Conflict

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had on the Israel-Palestine conflict and its humanitarian implications with the United States administration. [197889]

Meg Munn: My right hon. Friend the Foreign Secretary has had regular contact with US Secretary of State Rice, most recently on 2 April. We remain gravely concerned about the humanitarian situation in Gaza. Essential services, including water and sanitation, are close to breakdown and a number of essential medical items and drugs are out of stock. The UK continues to stress the need for the international community to remain fully engaged on the middle east peace process.

Nuclear Fuels

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 6 March 2008, *Official Report*, column 2791W, on nuclear fuels, what the UK's objectives are for the 17 to 18 April conference on nuclear fuel cycle arrangements. [199082]

Dr. Howells: Together with our German and Dutch co-hosts we aim to bring together countries that are considering introducing nuclear energy and countries that have specific experience in nuclear fuel supply to share expertise and best practice. We will listen to states' views on the Multilateral Nuclear Approaches agenda. This will help in developing a viable regime of nuclear fuel assurances under the International Atomic Energy Agency auspices that will support states' rights to the safe, secure and peaceful use of nuclear technology.

Tibet: Politics and Government

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on *(a)* independence and *(b)* greater political autonomy for Tibet. [198066]

Meg Munn *[holding answer 3 April 2008]*: Successive Governments have regarded Tibet as autonomous while recognising the special position of the Chinese authorities there. We have consistently informed the Chinese government of our view that greater autonomy should be granted to the Tibetans. But like all other EU members, we do not advocate Tibetan independence. We have emphasised that the current political difficulties in Tibet can best be resolved through dialogue between the Chinese government and the Dalai Lama. The Dalai Lama has stated publicly that he opposes violence and does not seek independence, but greater autonomy for Tibet. We consider that this provides a basis for a negotiated settlement to the issue of Tibet.

Western Sahara: Human Rights

Joan Walley: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will meet representatives of the UN Office of the High Commissioner for Human Rights (OHCHR) to discuss the formal publication of the OHCHR Report on Western Sahara; and if he will make a statement. [198353]

Dr. Howells: The Office of the UN High Commissioner for Human Rights (OHCHR) visited the region in 2006 to gather information on the human rights situation. The OHCHR shared its report privately with Morocco, Algeria and the Polisario on 8 September 2006, but did not publish it, and I understand the OHCHR maintains its decision not to make the report public. My right hon. Friend the Foreign Secretary has no plans to meet with the OHCHR and respects its decision to not publish the report.

We are keen to see a resolution to the question of Western Sahara. To this end, the UK fully supports the efforts of the UN Secretary-General and his Personal Envoy to the Western Sahara, Peter Van Walsum, to assist the parties to achieve a just, lasting and mutually acceptable political solution which will provide for the self-determination of the people of Western Sahara. We support the process of UN-chaired negotiations between Morocco and the Polisario currently under way.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Business: Finance

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much he has allocated to business support, promotion of enterprise and economic development in *(a)* 2007-08 and *(b)* each financial year to 2010-11; and how much of this planned expenditure will be channelled via the regional development agencies' single pot in each such year. [197806]

Mr. McFadden: Regarding how much the Department allocated to business support, promotion of enterprise and economic development in 2007-08, I

have nothing to add to the answer to the hon. Member on 18 October 2007, *Official Report*, column 1288W.

Regarding the amount of planned expenditure channelled through the Regional Development Agencies' single pot, my Department has allocated £535 million in 2008-09, £523 million in 2009-10 and £512 million in 2010-11 to the single budget.

The RDA single budget is intended to deliver a range of statutory objectives including regeneration, business support, employment, skills and sustainable development. The RDAs' detailed proposals covering the next three years will be set out in their corporate plans, which will be published in the near future.

Business: Regulation

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what recent steps the Government has taken to minimise the burden of regulation for businesses; [190938]

(2) what recent steps the Government has taken to assist small businesses in the cost of dealing with regulation. [190939]

Mr. McFadden *[holding answer 5 March 2008]:* Government undertook an exercise, supported by industry, to measure the Administrative Burdens that impact businesses of all sizes as a result of complying with regulations. Upon the completion of this exercise, 25 per cent. net targets by 2010 were set to reduce this burden.

In December 2007, 19 Simplification Plans were published, showing more than 700 measures to reduce the burdens of complying with regulations. Over 280 of these measures have already been delivered saving businesses £800 million per year.

Examples of include:

Simpler law for smaller businesses (BERR):

Smaller businesses stand to benefit from substantial rewrite of Company Law. Coupled with better guidance, new provisions are expected to lower third party costs and make compliance easier. Conservative estimate of £2 million annual savings delivered.

Changes to Small Business Rate Relief (Communities):

Small firms eligible for Small Business Rate Relief no longer have to register for relief annually. £3 million annual savings delivered, and expected to rise to £11 million by 2010.

Small Firms audit requirements (Financial Services Authority):

Removed the need for 3,400 small firms to have a statutory audit, saving £12.9 million per year.

Copies of these plans are available online at:

http://www.berr.gov.uk/bre/policy/simplifying-existing-regulation/simplification-plans/2007/page44068.html

Centre for Alternative Technology

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will consider providing financial support to the Centre for Alternative Technology in Wales. [200189]

Mr. Thomas: We recognise the benefits of the Centre for Alternative Technology (CAT) in Wales. The CAT can apply for grants for demonstration of technologies under the existing programmes of the Environmental Transformation Fund where it meets the criteria. However we are not currently in a position to be able to provide additional core support to the Centre.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what percentage of appeals by employees of *(a)* his Department and *(b)* its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192563]

Mr. Thomas: 34 employees of the Department for Business, Enterprise and Regulatory Reform, formerly Department of Trade and Industry and its agencies have made an appeal to the Civil Service Appeal Board, in the last 10 years. Two of these cases have been upheld at the Civil Service Appeal Board since 2002. To provide information on compensation awarded at the Civil Service Appeal Board would be at a disproportionate cost, also to give further details of the individual cases may compromise the identity of the individual contravening the Data Protection Act.

Coal Fired Power Stations: Environment Protection

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if his Department will carry out a strategic environmental assessment of energy policy with regard to the environmental impact of new coal-fired power stations. [189924]

Malcolm Wicks: We have no such plans. Our use of strategic environmental assessment (SEA) has been focussed on technologies where we have the necessary information on where projects would be located. For most onshore power stations it is the market that decides where they are located.

Conference Centres

Mr. Willis: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department provides any *(a)* capital and *(b)* revenue support to any conference or exhibition centre; and if he will make a statement. [199437]

Mr. Thomas: My Department has one conference centre based at its HQ building at 1 Victoria street. An external service provider is contracted to manage the centre on the Department's behalf for which they are paid a monthly fee. As part of the BERR estate, the conference centre has a regular maintenance schedule that may involve some capital or revenue expenditure.

Consumers, Estate Agents and Redress Act 2007

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what timetable his Department plans for the *(a)* commencement and *(b)* implementation of each of the provisions of the Consumers, Estate Agents and Redress Act 2007 yet to be commenced and implemented. [199562]

Mr. Thomas: The Consumers, Estate Agents and Redress Act 2007 (the Act) contains provisions relating to three distinct policy areas—Consumer Voice, estate agents and contracts concluded away from business premises ("doorstep selling")—which are being commenced and implemented to different timetables:

1. The new National Consumer Council, Scottish Consumer Council, Welsh Consumer Council, Northern Ireland Postal Services Committee, and new statutory redress schemes for gas, electricity, and postal services consumers, are planned to be operational on 1 October 2008. Work is well under way on the development of these new arrangements. Commencement of the relevant provisions of the Act reflects both the progress and the needs of the implementation programme. The Consumers, Estate Agents and Redress Act 2007 (Commencement No. 2) Order 2007 (SI 2007 No. 3546) brought into force on 21 December 2007 the provisions which enabled the appointments of Chairs and Members to be made formally to the new bodies, and for the new bodies to make an important contribution to the implementation process. That Order also commenced provisions relating to the new redress schemes. The Commencement No. 4 Order (SI 2008 No. 905), which was made on 26 March 2008, commenced with effect from 1 April 2008 the provisions which made the new National Consumer Council responsible for maintaining accounts. The Commencement No. 3 Order has been published in draft, and is subject to approval by a resolution of each House of Parliament. The draft Order seeks to commence the provisions relating to the requirement on the new National Consumer Council to publish and consult upon a forward work programme.

2. Provisions in the Act that amend the Estate Agents Act 1979 by making provision for redress schemes dealing with complaints about estate agents were brought into force on 8 October 2007 by the Commencement No. 1 Order (SI 2007 No. 2934). Once the Office of Fair Trading has approved a redress scheme open to all estate agents, an order requiring estate agents to belong to an approved scheme can be made. Subject to OFT approving a scheme, the Government expects this requirement to be in force with effect from 1 October 2008. Provisions in the Act that amend the Estate Agents Act 1979 by expanding the grounds for the issue by the OFT of prohibition and warning orders and increasing the investigatory powers of enforcement officers, were included in the Commencement No. 4 Order and will come into force on 1 October 2008. The Government expects to commence the remaining estate agents provisions on 6 April 2009.

3. The Government expect to make the new Regulation on "door-step selling" in May and commence the Regulation on 1 October 2008. The Regulation will extend the protections consumers have when a visit is unsolicited (e.g. right of withdrawal and cooling off period) to sales as result of a solicited visit, and require traders to include the notice of the right to cancel within a written contract.

Cosmetics: Animal Welfare

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what submissions he has received from manufacturers of cosmetic products on data on animal testing required under Regulation 9(1)(i) of the Cosmetics Products (Safety) Regulations 2004 in each of the last three years. [199387]

Mr. Thomas: None. The information required by this Regulation is to be kept by manufacturers and importers and made available to local authority Trading Standards Departments upon request.

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department requires manufacturers to take in notifying new cosmetics products under the Cosmetics Products (Safety) Regulations 2004. [199388]

Mr. Thomas: Regulation 10 of the Cosmetic Products (Safety) Regulations 2004 (as amended) requires UK based cosmetic product manufacturers and importers where the UK is the first place a cosmetic product is placed on the EU market, to notify BERR of the place of manufacture or importation and the type of cosmetic product.

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how his Department has implemented *(a)* Regulations 5 (7) to 5 (16) of the Cosmetics Products (Safety) Regulations 2004 with particular reference to Regulation 5 (9), and *(b)* the EU requirement that member states prohibit the sale of cosmetic ingredients and finished products that have been tested on animals using animal methods which may be replaced by valid alternative tests using fewer or no animals; and if he will make a statement. [199389]

Mr. Thomas: Regulation 5(7)-5(16) of the Cosmetic Products (Safety) Regulations 2004 (as amended) is the UK's implementation of the 7th Amendment to the European Union's Cosmetics Directive, which principally dealt with animal testing issues. These requirements are enforced by local authority Trading Standards Departments; no central records of their enforcement activity are kept.

Departmental Correspondence

Ben Chapman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether it is his policy that Ministers should sign all letters responding to hon. Members' correspondence; and if he will place in the Library a copy of his Department's advice and guidance to staff on dealing with Members' correspondence. [198710]

Mr. Thomas: All letters in response to hon. Members' correspondence are approved by BERR Ministers. Electronic signatures and letters from private secretaries are sometimes used to accelerate responses to hon. Members.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel

Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197158]

Mr. Thomas: The current Secretary of State for Business, Enterprise and Regulatory Reform and his predecessor visited, as part of their official engagements:

the Manchester Central for a ministerial road show on 18 October 2007;

the Excel Conference Centre, Docklands for the UK Motor Show on 18 July 2006 and for the Boat Show Exhibition on 11 January 2007;

The QEII Conference Centre for the Chancellor's Advancing Enterprise Conference on 23 January 2005, to make a speech at the CBI Diversity Conference on 14 March 2005, for a Stakeholders Event and Reception on 20 June 2005, to launch the Energy Review on 23 January 2006, for the Annual Conference of the British Chambers of Commerce on 4 April 2006, for a speech to the Russian Economic Forum on 25 April, for the British Chambers of Commerce Annual Conference on 16 April 2007, and for a speech to the Russian Economic Forum on 24 April 2007.

Departmental Information and Communications Technology

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 27 March 2008, *Official Report*, column 328W, on departmental ICT, how many missing or stolen *(a)* laptops, *(b)* mobile telephones and *(c)* personal digital assistants have been replaced by his Department; and at what cost. [198280]

Mr. Thomas: All those items which were departmental property will have been replaced. The estimated replacement costs of laptops and PDAs for each year since 2001 are set out in the following table.

Replacement costs

	Laptops	£ *PDAs*
2007	3,600	—
2006	4,500	270
2005	10,000	900
2004	10,800	300
2003	22,000	300
2002	30,000	1,200
2001	10,500	—

Mobile phones would have been replaced as routine upgrades at no additional cost to the Department.

Departmental Pensions

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what percentage of staff in his Department were making additional voluntary contributions to their pension in each of the last two years. [193549]

Mr. Thomas: 100 members of staff in the Department for Business Enterprise and Regulatory Reform (2.85) per cent. of the total number of staff employed by the Department) were making additional voluntary pension contributions through deductions from their pay in February 2007. This has decreased to 94 members of staff (2.96 per cent. of total number of staff employed by the department) who were making additional voluntary pension contributions through deductions from their pay in February 2008.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196736]

Mr. Thomas: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the libraries of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when his Department plans to publish its sustainable operations policy statement. [195866]

Mr. Thomas: The Department has published its sustainable development action plan for 2006-07 and is in the process of producing its action plan for 2007-08.

Discrimination

David T.C. Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many claims for discrimination based on *(a)* sex, *(b)* race and *(c)* sexual orientation were brought by members of his Department and settled (i) in and (ii) out of court in each of the last five years. [194991]

Mr. Thomas: The information requested is in the following table.

Employment Tribunal cases 2003-07

	Settled at ET			*Settled outside ET*		
	Sex	*Race*	*Sexual orientation*	*Sex*	*Race*	*Sexual orientation*
2003	0	0	0	0	0	0
2004	0	0	0	0	2	0
2005	0	0	0	0	0	0
2006	0	0	0	0	0	0
2007	0	0	0	0	0	0

Hearing Impaired

Mr. Andy Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what provision is made for deaf people to access services provided by his Department through call centres. [194952]

Mr. Thomas: The Department provides access to its services for deaf people via a minicom number in its Central Enquiry Unit.

The Arbitration and Conciliation Service (ACAS) and Companies House, who are Executive Agencies of the Department for Business, Enterprise and Regulatory Reform, also provide access via minicom numbers.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of the payment was in each case. [199593]

Mr. Thomas: Central records indicate that no contracts have been awarded by the Department and its predecessors to JP Morgan since 1997.

Karian and Box

Mr. Hands: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199636]

Mr. Thomas: Our central records indicate that no contracts have been awarded by the Department and its predecessors to Karian and Box since 1997.

Minimum Wage

Dr. Kumar: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people were recorded to be receiving less than the minimum wage in each year since its introduction. [198001]

Mr. McFadden: Estimates of employee jobs paid below the national minimum wage are produced by the Office for National Statistics. These estimates are presented in the following table.

These figures do not provide an accurate estimate of the extent of non-compliance with the national minimum wage. There are a number of circumstances in which an individual may legitimately be paid less than the national minimum wage, for example apprentices and those provided with accommodation as part of their jobs.

Number of employee jobs (and percentage of UK employees jobs) paid below the national minimum wage in the UK

	Thousand	*Percentage*
1999	490	2.1
2000	230	1.0
2001	240	1.0
2002	340	1.4
2003	250	1.0
2004	276	1.1
2005	308	1.2
2006	296	1.2
2007	292	1.2

Notes:

1. Number of jobs paid at less than £3.00 per hour (aged 18-21) or £3.60 per hour (aged 22 and over) for 1998 to 2000.
2. Number of jobs paid at less than £3.20 per hour (aged 18-21) or £3.70 per hour (aged 22 and over) for 2001.
3. Number of jobs paid at less than £3.50 per hour (aged 18-21) or £4.10 per hour (aged 22 and over) for 2002.
4. Number of jobs paid at less than £3.60 per hour (aged 18-21) or £4.20 per hour (aged 22 and over) for 2003.
5. Number of jobs paid at less than £3.80 per hour (aged 18-21) or £4.50 per hour (aged 22 and over) for 2004.
6. Number of jobs paid at less than £3.00 per hour (aged 16-17) or £4.10 per hour (aged 18-21) or £4.85 per hour (aged 22 and over) for 2005.
7. Number of jobs paid at less than £3.00 per hour (aged 16-17) or £4.25 per hour (aged 18-21) or £5.05 per hour (aged 22 and over) for 2006.
8. Number of jobs paid at less than £3.30 per hour (aged 16-17) or £4.45 per hour (aged 18-21) or £5.35 per hour (aged 22 and over) for 2007.
9. Before 2005 the estimates are for employees aged 18 and over, from 2005 the estimates are for those aged 16 and over
10. The following link is for the ONS web page containing the aforementioned information.
http://www.statistics.gov.uk/pdfdir/lpay1107.pdf

Morgan Stanley Dean Witter

David T.C. Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its predecessors paid to Morgan Stanley in each year since 1997; and what the purpose of each such payment was. [199683]

Mr. Thomas: Central records indicate that the Department and its predecessors have paid the following to Morgan Stanley since 1997:

	Amount (£)	*Purpose*
2006	112,602	Advice to the Energy Review

Political Parties: Finance

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance *(a)* his Department and *(b)* the Certification Officer has issued on those ineligible to donate to UK political parties or to contribute to political parties via trade union funds. [198076]

Mr. McFadden: Neither the Department nor the Certification Officer has produced guidance on those ineligible to donate to UK political parties or to contribute to political parties via trade union funds.

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance *(a)* his Department and *(b)* the Certification Officer has issued on the use of paid leave for trade union duties being used for political campaigning and related activities. [198077]

Mr. McFadden: Neither the Department nor the Certification Officer has produced specific guidance on this issue. The Certification Officer has no statutory duties regarding paid time off for trade union duties.

Post Offices: Closures

Mr. Cox: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will take steps to ensure that Post Office Ltd. does not prevent sub-postmasters, whose post offices are threatened with closure, from consulting their Member of Parliament. [192009]

Mr. McFadden: I understand that Post Office Ltd. only asks sub-postmasters to maintain confidentiality about the proposed closure of their own or neighbouring offices to avoid speculation which could be commercially damaging to the offices concerned until the relevant area plan closure proposals have been finalised for public consultation.

Once proposals have been finalised for public consultation there is nothing to stop sub-postmasters discussing their views on the network change programme with their MP.

Regional Development Agencies: Expenditure

Geraldine Smith: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much Government funding has been spent in Morecambe and Lunesdale constituency by the regional development agency in the last three years. [192550]

Mr. McFadden: The NWDA expenditure in Morecambe and Lunesdale for the past three years is:

	£
2004-05	623,253
2005-06	1,226,491
2006-07	2,344,192

Please note that the above information does not include projects that fall within more than one parliamentary constituency.

Small Businesses: Bureaucracy

Rosie Cooper: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to reduce the burden of regulation for small and medium-sized businesses in West Lancashire constituency. [189803]

Mr. McFadden: Government undertook an exercise, supported by industry, to measure the administrative burdens that impact businesses of all sizes as a result of complying with regulations. Upon the completion of this exercise, 25 per cent. net targets by 2010 were set to reduce this burden.

In December 2007, 19 simplification plans were published, showing more than 700 measures to reduce the burdens of complying with regulations. Over 280 of these measures have already been delivered saving businesses £800 million per year.

Examples include:

Simpler law for smaller businesses (BERR):

Smaller businesses stand to benefit from substantial rewrite of company law. Coupled with better guidance, new provisions are expected to lower third party costs and make compliance easier. Conservative estimate of £2 million annual savings delivered.

Changes to Small Business Rate Relief (Communities):

Small firms eligible for small business rate relief no longer have to register for relief annually. £3 million annual savings delivered, and expected to rise to £11 million by 2010.

Small Firms audit requirements (Financial Services Authority):

Removed the need for 3, 400 small firms to have a statutory audit, saving £12.9 million per year. Copies of these plans are available online at:

http://www.berr.gov.uk/bre/policy/simplifying-existing-regulation/simplification- plans/2007/page44068.html

Telephone Contact Centres

Julia Goldsworthy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will answer *(a)* question 173134, tabled on 6 December 2007 and *(b)* Question 175767, on telephone contact centres, tabled on 17 December 2007 by the hon. Member for Falmouth and Camborne. [190877]

Mr. Thomas: I replied to both questions from the hon. Member on 18 March 2008, *Official Report*, column 983W and column 99W.

Trade Unions

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to amend the regulatory regime to permit the use of remote electronic voting in trade union ballots. [198079]

Mr. McFadden: The Trades Union Congress (TUC) has requested the Government to use the order-making power in Section 54 of the Employment Relations Act 2004 to permit the use of electronic balloting in statutory ballots under trade union law. The Department is currently examining the TUC's proposal. We would not bring forward legislation in this area without first undertaking a full public consultation.

Trade Unions: Fees and Charges

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will instruct *(a)* his Department and *(b)* the Certification Officer to raise public awareness of the right of trade union members to opt out of the trade union political levy in trade unions which have political funds. [198072]

Mr. McFadden: The Department for Business, Enterprise and Regulatory Reform raises awareness of the right to opt out of a trade union political fund via a publication entitled 'Trade union political funds: a guide for trade unions, their members and others' which is freely available on the Departments website.

The Certification Officer is an independent office holder appointed by the Secretary of State to carry out specific statutory functions which are set out in the Trade Union and Labour Relations (Consolidation) Act 1992 Act. The Secretary of State does not instruct the Certification Officer in the performance of his functions.

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance *(a)* his Department and *(b)* the Certification

Officer has issued on the application of cooling-off periods to the sale of trade union membership. [198078]

Mr. McFadden: Neither the Department nor the Certification Officer has produced guidance on the application of cooling-off periods when people become trade union members.

UBS

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect on suitability of UBS AG to continue work for his Department on the financial and commercial aspects of new nuclear build of that Bank's announcement of its Chairman's resignation. [199291]

Malcolm Wicks: My right hon. Friend the Secretary of State is content that this issue does not impact upon the ability or suitability of UBS to undertake this work for Government. However, as with all such contracts, the Department will continue to assess the suitability and performance of its advisers on an ongoing basis.

HEALTH

Alcoholic Drinks: Young People

Mr. Spellar: To ask the Secretary of State for Health what assessment he has made of the merits of proposals to raise the legal age for buying alcohol from 18 to 21 years. [197719]

Dawn Primarolo: The Government are not considering raising the legal age for buying alcohol from 18 to 21 years.

Care Homes

Mr. Jim Cunningham: To ask the Secretary of State for Health (1) what steps the Government plans to take to improve the treatment of older people in care homes; [199313]

(2) what steps the Government have taken to improve the investigation process when elder abuse has been reported in the last 12 months. [199314]

Mr. Ivan Lewis *[holding answer 21 April 2008]:* On 14 June 2007, I announced two important measures to help improve the safeguarding of vulnerable adults. This followed the publication of the "UK Study of Abuse and Neglect of Older People: Prevalence Survey Report", by Kings College London and the National Centre for Social Research. The Department contributed £250,000 towards this research, which was jointly commissioned with Comic Relief.

Plans are now being put in place to introduce a new national monitoring system to report the extent of abuse, so that each individual council can monitor abuse locally and act on it. This will be based on a standardised method for the collection of data on protection of vulnerable adult referrals in England, offering new understanding about the size of the challenge we face and allowing comparisons between councils.

No Secrets, the existing statutory guidance on safeguarding vulnerable adults, which was issued in 2000, provides for health, social services and the police, to work together to protect vulnerable adults from abuse. Seven years on, and in the light of experience and knowledge gained, we are now working to review this guidance and to consult with the public and other Government Departments that have an interest in this field. We will also consider the case for legislation as part of the review process. A copy of the "No Secrets", guidance is available in the Library.

On 27 March this year, I announced the launch of a further major research project, which is also to be co-funded by the Department and Comic Relief. The new study, entitled "Abuse, Neglect and Loss of Dignity in the Institutional Care of Older People", will examine the experience of older people—and those caring for them—in institutional settings, such as care homes and national health service wards, and will focus more broadly on issues of loss of dignity as well as abuse or mistreatment. The tender process for this work will start shortly.

Total funding of the new research initiative, which will comprise a series of linked studies over a three year period, will be £2 million.

Care Homes: Inspectors

Mr. Hoban: To ask the Secretary of State for Health (1) what the average period of employment for a Commission for Social Care Inspection inspector was at the most recent date for which information is available; [195807]

(2) how many *(a)* inspectors and *(b)* full-time equivalent inspectors work for the Commission for Social Care Inspection. [195808]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that, as at 26 March 2008, the average period of employment of an inspector was 5.34 years. CSCI does not have information on the dates inspectors began work from the period prior to the establishment of its predecessor organisation, the National Care Standards Commission, on 1 April 2002.

As at 26 March 2008, the number of CSCI regulatory inspectors were:

Headcount: 869; and

Full-time equivalent: 825.25.

Chlamydia: Information Services

Anne Milton: To ask the Secretary of State for Health in what ways his Department is increasing *(a)* public and *(b)* professional awareness of the risks of Chlamydia infection. [197829]

Dawn Primarolo: The National Chlamydia Screening Programme for England aims to control Chlamydia through early detection and treatment of asymptomatic infection. One of the key aims of the programme is raise awareness of Chlamydia and its effects among the public and health professionals alike. In addition, the Department's 'Condom Essential Wear' campaign includes messages and information regarding a wide range of sexually transmitted infections including Chlamydia to an audience of sexually active 18 to 34-year-olds alongside its key condom normalisation message.

Chlamydia: Screening

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 11 March 2008, *Official Report*, column 259W, on Chlamydia screening, (1) what steps his Department plans to take against those areas that fail to meet their targets for screening 15 per cent. of their 15 to 24 population in 2007-08; [197820]

(2) on what dates officials in his Department discussed Chlamydia screening in the last six months with strategic health authorities; what the content of the discussions was with each strategic health authority; what assessment he has made of the effectiveness of the performance management routes described in the Answer; and if he will make a statement. [197830]

Dawn Primarolo: Officials within the Department have discussed Chlamydia screening with strategic health authorities (SHAs) in both formal and informal settings on a number of occasions within the last six months. The following table shows the dates when officials met with SHAs and at most of these meetings Chlamydia was discussed. The content of the discussions focused on the performance of SHAs in relation to Chlamydia screening.

Month	*Dates*
2007	
October	2, 10, 16, 17, 19, 23, 26
November	2, 6, 14, 20, 22, 23, 24, 26, 27, 29
December	3, 11, 12, 19, 20
2008	
January	10, 11, 16, 18, 22, 23, 24, 25
February	13, 14, 15, 18, 19, 20, 26, 29
March	11, 12, 13, 14, 18, 19, 27

Performance on Chlamydia screening is one of the indicators used to inform primary care trusts rating through the Healthcare Commission Annual Health Check in 2007-08. Reducing Chlamydia prevalence has been identified as a national priority target for local delivery in the national planning guidance for the national health service in the 'NHS Operational Plans 2008-09 to 2010-11', which highlights the Government's continuing commitment to tackling this infection. A copy of the guidance is available in the Library. We will continue to work through performance management routes to support delivery of this target and increase screening volumes.

Anne Milton: To ask the Secretary of State for Health pursuant to the Answer of 7 March 2008, *Official Report*, columns 2853-54W, on Chlamydia screening, which areas the National Support Team for Sexual Health is supporting to help meet the 15 per cent. screening target; what support is being given by the National Support Team for Sexual Health to those areas finding it most challenging to meet their targets; and what central funding has been given to the National Support Team for Sexual Health in each year since its inception. [197831]

Dawn Primarolo: The sexual health national support team (SH-NST) was set up in February 2006 to support local areas to deliver against the 48 hour genito-urinary medicine access target. Since inception the national support team has undertaken 62 visits and provided associated ongoing support to local areas across England. The total staffing and visit costs of the team to date is £1.2 million.

In 2008-09, the SH-NST will be shifting its focus to providing support on the Chlamydia screening indicator. It will work closely with the National Chlamydia Screening Programme (NCSP) to increase screening volumes, working jointly with strategic health authorities to identify those areas facing the greatest challenge and supporting and monitoring the NCSP to ensure rapid progress to target.

Departmental Grants

Mr. Stephen O'Brien: To ask the Secretary of State for Health how much his Department has awarded in section 64 grants to the charitable and public sectors since 1978. [200136]

Mr. Ivan Lewis: The total amount awarded under the Section 64 General Scheme of Grants to third sector organisations (including charities and other not for profit organisations) from 1996 is given in the following table. Information on amounts awarded prior to 1996 is not available. Public sector organisations are not eligible for grants under Section 64 of the Health Services and Public Health Act 1968.

	£ million
1996-97	21.0
1997-98	21.4
1998-99	20.6
1999-2000	22.3
2000-01	22.7
2001-02	21.5
2002-03	22.1
2003-04	21.4
2004-05	[1]17.8
2005-06	[1]17.9
2006-07	[1]17.2
2007-08	[1]17.2
2008-09	[1]17.7

[1] In 2004-05 £4.2 million was transferred to the Department for Education and Skills for projects relating to children's social care policy following reorganisation of departmental responsibilities for children's social services. Following the transfer the Department for Children, Schools and Families Section 64 grant scheme was renamed Safeguarding Children and Supporting Families Grants.

Departmental Procurement

Mr. Spellar: To ask the Secretary of State for Health what progress has been made on rationalisation of his Department's processes for the procurement of goods and services in the last 12 months. [197643]

Mr. Bradshaw: Over the last year the Department has rationalised its supplier base, cleansed its purchase order system and conducted an exercise to populate a new contracts database.

The Department has also set up a procurement centre of expertise to make sure that good procurement practice is followed by influencing all its non-pay expenditure on goods and services.

The Department is also developing a new finance, human resources and purchasing system to standardise its business processes.

Eating Disorders

Norman Lamb: To ask the Secretary of State for Health how many people were admitted to hospital for eating disorders in each of the last five years, broken down by *(a)* region, *(b)* sex and *(c)* those aged (i) under 10, (ii) 10 to 18 and (iii) over 18 years. [199941]

Mr. Ivan Lewis: The information requested has been placed in the Library.

Health Innovation Council

Mr. Lansley: To ask the Secretary of State for Health when the Health Innovation Council first met; and if he will place in the Library a copy of the *(a)* agenda, *(b)* remit and *(c)* minutes. [198355]

Dawn Primarolo: The Health Innovation Council first met on 27 November 2007. The role of the council is to provide strategic advice on how to further develop innovation in health and social care. Copies of the terms of reference, agendas and agreed notes of meetings have been placed in the Library and are also available on the Department's website at:

www.dh.gov.uk/en/Managingyourorganisation/Commissioning/Worldclasscommissioning/DH_083661

Health Services: Prisons

Norman Lamb: To ask the Secretary of State for Health how many cases of each notifiable disease were diagnosed in each of Her Majesty's Prisons in each of the last five years. [199943]

Mr. Ivan Lewis: The information requested is not collected. Disease surveillance is the responsibility of the Health Protection Agency (HPA). Prisons are not currently specifically identified in HPA surveillance systems.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Health how much his Department paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199615]

Mr. Bradshaw: The Department's financial records only go back to April 2001 and they show that no payments have been made to JP Morgan for the period April 2001 to March 2008.

Macular Degeneration: Drugs

Mr. Swire: To ask the Secretary of State for Health when he expects Avastin to be available on NHS prescription for the treatment of wet age-related macular degeneration. [199827]

Dawn Primarolo: Avastin is not currently licensed for the treatment of wet-age related macular degeneration. A clinician may prescribe a drug outside its licensed indications (off licence or off label), provided their local primary care trust agree to supply it at national health service expense.

Medical Records: Disclosure of Information

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether patients will be able to opt out of having *(a)* their detailed patient information, *(b)* their basic patient information including prescription and allergy details and *(c)* their demographic information, including name, date of birth, address and NHS number uploaded to Spine or placed on their summary care record. [195204]

Mr. Bradshaw: Patients are able to opt out of having both their basic clinical information, including medication and allergy details, and their detailed clinical information, uploaded to the 'spine', the national database of key information about patients' health and care within the care records service (NHS CRS), by choosing not to have a summary care record.

Patients are not able to prevent their basic demographic and contact details from being held within the NHS CRS. The NHS has maintained registers of its service users from the earliest days of its existence to support the delivery of health care. A record is also kept of which general practice each patient is registered with, and reasons of efficiency and probity require this to be held centrally, for example to prevent multiple GPs from being paid for the same patient, and to ensure that the correct commissioning body meets the cost of care provided. A register is also needed to enable the Secretary of State to meet the obligation to provide health care, free at the point of contact, for those patients who are ordinarily resident in England.

While for these reasons it is not practicable to give patients choice about whether their demographic details will be held in the system, safeguards have been built into the NHS CRS personal demographics service (PDS) which allow an individual's contact details to be hidden from NHS staff if patients request this level of protection.

Mental Health Services: Young People

Susan Kramer: To ask the Secretary of State for Health how many 16 and 17-year-olds were treated by adult mental health services *(a)* at the most recent date and *(b)* in each year for which figures are available. [198601]

Mr. Ivan Lewis: Information is not available in the format requested. However, the number of bed days on adult psychiatric wards of patients aged 16 or 17 was 29,306 in 2005-06 and 19,988 in 2006-07. These are the only years for which we have information available. The statistical basis for collecting this information changed between the two years and the figures are not directly comparable. Guidance was issued in 2005-06 to address anomalies of reporting of bed days for patients passing their 16th or 18th birthdays while in hospital.

The Mental Health Act 2007 contains a provision (section 31) that ensures that patients aged under 18 are treated in an environment in hospital, which is suitable having regard to their age (subject to their needs). The Government have made a commitment to commence this provision in England by April 2010. We provided capital funding of £31 million in 2007-08 for 17 projects specifically designed to help eliminate the inappropriate use of adult psychiatric wards for children and young people.

Mentally Ill

Keith Vaz: To ask the Secretary of State for Health (1) how the NHS measures the capability of patients with a history of violent behaviour induced by mental illness to be reintegrated into society; [199653]

(2) what provisions the NHS has in place for the reintegration of patients with a history of mental illness and violence back into society; what factors are taken into account before reintegration takes place; and what budget was allocated to such reintegration policies in each of the last 10 years. [199654]

Mr. Ivan Lewis: Safety for the individual service user, their families, staff and the general public is central to all good healthcare. This is particularly important in mental health services. Risk assessment and risk management are central to planning safe and effective care for individuals who may be a risk to themselves or others. Effective discharge planning from inpatient care and rehabilitation in the community rely on appropriate clinical risk assessment and risk management. As an integral part of clinical care this is not something that is costed separately and therefore we do not have the information requested held centrally.

To help manage people effectively and safely in the community we introduced community treatment orders in the Mental Health Act 2007. While it is not possible to say that they will prevent all episodes of violence, they will usefully be employed in the treatment of individuals with a history of non-compliance in the community, potentially reducing the risks they pose to themselves or others.

The Department has also recently published Best practice in managing risk: principles and guidance for best practice in the assessment and management of risk to self and others in mental health services. It underpins risk assessment with principles of good practice for all mental health settings and provides a list of tools offering structure to risk management.

The Department has also published its review of the care programme approach (CPA), including how risk assessment and management is incorporated into CPA systems. CPA is the system of assessment, planning and a review of care for people receiving secondary mental health services.

Mr. Brady: To ask the Secretary of State for Health (1) how many hospital admissions related to episodes of psychosis there were in each of the last 10 years for which figures are available; [199944]

(2) how many hospital admissions related to episodes of schizophrenia there were in each of the last 10 years for which figures are available. [199998]

Mr. Ivan Lewis: The information is not available in the format requested. Such information as is available is shown in the following tables.

Table 1 shows finished admission episodes (FAEs) with primary or secondary diagnosis of schizophrenia.

Table 2 shows FAEs with primary or secondary diagnosis of psychosis.

Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

*Table 1: Counts of FAEs for selected primary diagnoses and primary and secondary diagnoses of *schizophrenia: national health service hospitals England and activity performed in the independent sector in England commissioned by English NHS*

	Primary diagnoses of *schizophrenia[1]	Primary and secondary diagnoses of *schizophrenia[2]
1995-96	25,065	33,267
1996-97	25,224	34,267
1997-98	24,627	34,525
1998-99	27,211	37,858
1999-2000	26,091	37,231
2000-01	25,540	37,072
2001-02	26,035	37,873
2002-03	26,267	39,808
2003-04	25,543	40,763
2004-05	26,570	44,279
2005-06	24,571	45,054
2006-07	23,041	45,955

*Table 2: Counts of finished admission episodes for selected primary diagnoses and primary and secondary diagnoses of *psychosis: NHS hospitals England and activity performed in the independent sector in England commissioned by English NHS*

	Primary diagnoses of psychosis[1]	Primary and secondary diagnoses of psychosis[2]
1995-96	84,813	141,031
1996-97	83,908	142,805
1997-98	81,186	142,131
1998-99	85,622	151,247
1999-2000	82,135	152,387
2000-01	78,195	150,943
2001-02	78,791	157,587
2002-03	80,444	170,149
2003-04	76,615	176,776
2004-05	77,497	192,526
2005-06	72,014	201,446
2006-07	67,004	213,624

[1] Primary diagnoses of *schizophrenia. These figures represent a count of FAEs where the selected diagnosis codes for schizophrenia was mentioned in the primary diagnosis field.

[2] Primary and secondary diagnoses of *schizophrenia. These figures represent a count of FAEs where the selected diagnosis codes for schizophrenia was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record. A record is counted only once if any of these codes recorded more than once in diagnoses fields.

Notes:

1. FAEs:
A FAE is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. Diagnosis (primary diagnosis):
The primary diagnosis is the first of up to 14 (seven prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

3.Secondary diagnoses:
As well as the primary diagnosis, there are up to 13 (six prior to 2002-03) secondary diagnosis fields in (HES) that show other diagnoses relevant to the episode of care.

Source:
Hospital Episode Statistics (HES), The NHS Information Centre for Health and Social Care

Mentally Ill: Children

Susan Kramer: To ask the Secretary of State for Health how many children in England and Wales have been diagnosed with a mental health disorder. [198603]

Mr. Ivan Lewis: We do not routinely collect this information. However, a 2004 survey by the Office for National Statistics (ONS) found that 9.6 per cent. of children in Great Britain aged between five and 16 suffered from some kind of mental disorder. The survey was based on interviews with a sample of parents and children. The full results are published in the ONS report Mental health of children and young people in Great Britain, a copy of this publication has been placed in the Library.

Myofascial Pain Syndrome

Bob Spink: To ask the Secretary of State for Health if he will commission research into the treatment of *(a)* myofascial pain syndrome and *(b)* fibromyalgia; and if he will make a statement. [198853]

Dawn Primarolo: The usual practice of the Department's National Institute for Health Research and of the Medical Research Council is not to ring-fence funds for expenditure on particular topics. Research proposals in all areas compete for the funding available. Both organisations welcome applications for support into any aspect of human health and these are subject to peer review and judged in open competition, with awards being made on the basis of the scientific quality of the proposals made.

Bob Spink: To ask the Secretary of State for Health what assessment he has made of evidence on a potential link between the use of hydrocortisone injections and *(a)* myofascial pain syndrome and *(b)* fibromyalgia; and if he will make a statement. [198854]

Dawn Primarolo: Hydrocortisone is a synthetic anti-inflammatory steroid which is licensed for use in replacement therapy in adrenocortical insufficiency and a range of anti-inflammatory conditions. Hydrocortisone injections are not licensed for the treatment of fibromyalgia or myofascial pain syndrome, but may sometimes be used for the temporary symptomatic relief of pain associated with fibromyalgia when a prescriber judges that such unlicensed use is in the patient's best interest.

The use of hydrocortisone is associated with a number of adverse effects which are listed in the Summary of Product Characteristics and Patient Information Leaflet, fibromyalgia and myofascial pain syndrome are not recognised side-effects of treatment. As with all medicines, the Medicines and Healthcare products Regulatory Agency continuously monitors the safety of hydrocortisone and has not received any reports of fibromyalgia or myofascial pain syndrome in patients treated with hydrocortisone.

NHS Organisations

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library a list of NHS organisations in England, broken down by local authority area. [199988]

Mr. Bradshaw: A list of all strategic health authorities, special health authorities, national health service trusts, NHS foundation trusts and primary care trusts as at 18 April 2008, broken down by region, has been placed in the Library. Information about corresponding local authority area is not held centrally.

NHS: Alarms

Mr. Pickles: To ask the Secretary of State for Health (1) if he will place in the Library a copy of the guidance his Department has issued to NHS organisations on the use of carbon monoxide alarms; [199501]

(2) how many hospitals had audible carbon monoxide alarms fitted at the most recent date for which figures are available; and if he will make a statement. [199502]

Dawn Primarolo: The Department is committed to help prevent deaths and injuries caused by carbon monoxide (CO) poisoning and the focus of the initiatives it has taken has been on raising awareness of the dangers of CO poisoning among the public and medical profession. It has not issued specific guidance to the national health service about the use of CO alarms.

In his winter update issued in November 2007, which is sent to all doctors registered with the General Medical Council in England, the Chief Medical Officer (CMO) provides a range of advice on diagnosis of CO poisoning, including the use of neurological examination.

This builds on two previous publications, the advice of which is still current: "CMO Winter 2005 Update"; and the CMO and Chief Nursing Officer (CNO) joint letter issued in 2002. CMO's update includes recognition of the symptoms of CO poisoning, key questions to ask in diagnosis, appropriate tests and treatment. The CMO/CNO letter, distributed to community nurses, midwives, health visitors and general practitioners, provides detailed advice for recognising the symptoms of CO poisoning and specific advice about investigations and testing techniques. A copy of the letter has been placed in the Library.

In addition, the Department has recently called for research to investigate the incidence of CO poisoning, health outcomes and patient's experience following exposure, which will help inform the development of appropriate policy.

The Department also provides funding to leading national voluntary organisations through the Section 64 General Scheme of Grants, which helps in their work in raising awareness about the dangers of CO with both the public and health professionals and in supporting victims and providing information on how to prevent poisoning.

In collaboration with key stakeholders, the Department is currently looking at options for new awareness-raising initiatives as well as reviewing activities in which it is already engaged.

Information on the number of hospitals fitted with audible carbon monoxide alarms is not collected centrally.

NHS: Belgium

Sandra Gidley: To ask the Secretary of State for Health how much was allocated to the running of the NHS office in Brussels in each of the last three years. [198214]

Dawn Primarolo: The NHS European office was established in September 2007 and therefore no funding and expenditure was allocated prior to this date. The NHS European office is jointly funded by the strategic health authorities and financial information for the office will be published in the accounts of South-East Coast Strategic Health Authority, for part of the financial year 2007-08 which the office was operational.

NHS: Drugs

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 25 March 2008, *Official Report*, columns 23-4W, on NHS: drugs, (1) what the basis was of his calculation of the target reduction in Category M medicines expenditure as specified in the answer; [197876]

(2) what proportion of the reimbursement prices paid to pharmacy contractors he estimates to be represented by the profit margin of pharmacy contractors; [197927]

(3) to what he ascribes the increase in Category M cost of reimbursement, expressed at March 2005 prices, between financial years 2005-06 and 2006-07. [197928]

Dawn Primarolo: The basis of the target reductions was provided in the answer I gave to the hon. Member on 25 March 2008, *Official Report*, columns 23-4W.

In addition, adjustments are also made to reimbursement prices to take account of the reduction in market prices that usually occurs in the months after the introduction of a generic medicine following patent expiry of an in-patent medicine.

In the period 1 April 2005 to 30 September 2007 the target reduction for the adjustment in category M medicines expenditure was £1.05 billion by reference to March 2005 prices. To include medicines joining category M since April 2005, the planned, further reduction of £100 million per quarter from 1 October 2007 was implemented by reference to July 2007 prices.

£500 million of the annual level of funding agreed by the Department and the Pharmaceutical Services Negotiating Committee is derived from profits made by pharmacies buying medicines for less than they are reimbursed by the national health service (the retained purchase margin).

The increase of the Category M cost of reimbursement is attributable to the increased growth in the volume of the cost of NHS generic medicines reimbursed in England since the introduction of the Category M system. However, although the cost of Category M generic medicines prescribed and dispensed has increased (22 per cent.) that growth would have been greater (27 per cent.) if Category M had not been introduced. The breakdown is shown in the following table.

Increased cost of the Category M reimbursement for NHS generic medicines reimbursed in England

	At March 2005 prices (£)	*Actual cost (£)*
2005-06	1,412,149,436	1,087,738,827
2006-07	1,797,838,505	1,326,817,414
Increase between 2005-06 and 2006-07	385,689,069	239,078,587
Percentage increase	27	22

NHS: Identity Cards

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) with reference to the Answer of 29 June 2005, *Official Report*, column 1608W on identity cards, to the hon. and learned Member for Harborough, what the conclusions were of his Department's consideration of the costs and benefits of using identity cards within the National Health Service, including the cost of card readers, with particular reference to the NHS Connecting for Health National Programme for IT; [200111]

(2) what stage has been reached in the development of the proposed NHS card referred to in section 2.21 of the NHS Improvement Plan, published on 24 June 2004; [200135]

(3) with reference to the Answer of 27 February 2006, *Official Report*, column 439W, on the European Health Insurance Card, what discussions he has had with the Secretary of State for the Home Department on links between *(a)* an NHS card and *(b)* Connecting for Health, and the identity cards programme. [200230]

Mr. Bradshaw: It is too early in the process to make any conclusions of the costs and benefits of using identity cards within the national health service.

There are no current plans to introduce an NHS card, although this will be kept under review.

My right hon. Friend the Secretary of State meets the Home Secretary and other ministerial colleagues to discuss matters of common interest, including on occasion the National Identity Scheme.

Schizophrenia

Mr. Brady: To ask the Secretary of State for Health (1) what assessment he has made of changes in the incidence of schizophrenia in 15 to 25 year olds in the last 30 years; [199997]

(2) what assessment he has made of the evidence linking cannabis use and the onset of schizophrenia in the 15 to 25 year age group; [199999]

(3) what assessment he has made of the changes in incidence of psychosis in 15 to 25 year olds in the last 30 years. [200000]

Mr. Ivan Lewis: It is difficult to assess the trends in incidence of psychosis or schizophrenia for this age group over the last thirty years due to the relatively small numbers of people suffering from these conditions. This makes any assessment of statistical significance of a change vulnerable to error. Also during this time diagnosis classifications have changed for these conditions,

which could mean that comparisons over this period would not be measuring like for like.

The Department is concerned about the negative impact of cannabis use and intoxication on acute mental health patients and on mental health services, and about the increased evidence for a possible role for cannabis in the causation of longer-term disorders such as schizophrenia.

The Department advises that cannabis use is harmful for people with existing mental health problems, being linked with relapse and resistance to treatments.

Research data also indicate that the impact of cannabis is likely to be on those already vulnerable to onset of schizophrenia.

It is also recognised that cannabis can cause an acute, short lived psychosis, from which the person recovers quickly following cessation of cannabis use but which, in severe cases, may require a short period of inpatient care. We keep the evidence and research in this area under constant review.

Self-Mutilation

Norman Lamb: To ask the Secretary of State for Health how many cases of self harm were diagnosed in each of the last five years, broken down by *(a)* region, *(b)* sex and *(c)* those aged (i) under 10, (ii) 10 to 18 and (iii) over 18 years. [199940]

Mr. Ivan Lewis: The information is not available in the format requested. Such information as is available has been placed in the Library. The Department has supplied the number of finished admissions where the external cause code of admission to hospital was self harm.

Many cases of self harm may be diagnosed in a primary care setting rather than in hospital (apart from serious cases where hospital/medical care is required). We do not know what proportion of people diagnosed are actually treated in hospital so can only give the number of admissions. This is not a count of people who are admitted to hospital as one person could be admitted several times.

Smoking

Damian Green: To ask the Secretary of State for Health how much his Department has allocated to *(a)* Eastern and Coastal Kent Primary Care Trust (PCT) and its predecessor PCTs and *(b)* PCTs with a similar smoking prevalence for smoking cessation in each of the last five years; and what the average smoking cessation budget was for PCTs in England in each of the last five years. [195150]

Dawn Primarolo: The total revenue allocations made to Eastern and Coastal Kent primary care trust (PCT) for the period 2003-04 to 2008-09 are provided in the following table. These include allocations for national health service stop smoking services (SSS).

£000

	Allocation					
PCT name	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Eastern and Coastal Kent PCT	643,780	704,384	769,650	917,451	1,013,331	1,068,679

Note:
Comparisons cannot be made between allocations rounds for the following reasons:
organisational changes and changes are made to the weighted capitation formula for each allocations round, therefore, comparisons would not be on a like with like basis; and
the first year that primary medical services were incorporated into revenue allocations was 2006-07.

The information requested on revenue allocations to PCTs with a similar smoking prevalence is not available in the exact format requested.

Data on NHS SSS PCT allocation are not collected or held centrally.

Aggregated data on total allocation to NHS SSS for strategic health authorities (SHAs) are collected and held centrally as part of the NHS stop smoking services quarterly monitoring return forms. Data for 2006-07 can be found in table 1.

Data on smoking prevalence by PCT are not available. The General Household Survey provides estimates of smoking prevalence for adults by Government office region. This information is presented in table 2 for 2002 to 2006.

Westminster Primary Care Trust: General Practitioners

Andrew Mackinlay: To ask the Secretary of State for Health pursuant to the answer of 1 April 2008, *Official Report*, column 883W, on Westminster Primary Care Trust: general practitioners, what the *(a)* names and *(b)* locations are of the GP practices with closed lists within the Westminster Primary Care Trust; how many patients each has; what the cost of each practice to the NHS was in each of the last five years; and if he will make a statement. [199477]

Mr. Bradshaw *[holding answer 21 April 2008]:* The Primary Care Access Survey data for November 2007 to January 2008 show that the two general practitioner

(GP) practices within Westminster Primary Care Trust (PCT) reported as having closed lists have list sizes of 2,942 patients and 3,704 patients. However, the data do not identify the names and locations of the practices. In addition, information about the cost of each practice to the national health service is not collected centrally. The hon. Member may therefore wish to raise these issues with the chief executive of Westminster PCT.

Under the contractual arrangements for primary medical services, GP practice lists are classed as either 'open' or 'closed'. PCTs will grant a GP practice closed list status only once both parties have made reasonable endeavours to keep the list open and the conclusion is reached that this is not possible.

The Department is currently exploring, as part of the NHS Next Stage Review being undertaken by the Under-Secretary of State Lord Darzi, whether further action is needed to ensure patients have more choice in the practice with which they register.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Health how much his Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199601]

Mr. Bradshaw: The Department's financial records only go back to April 2001 and they show that no payments have been made to Zurich Financial Services for the period April 2001 to March 2008.

WORK AND PENSIONS

Children: Maintenance

Danny Alexander: To ask the Secretary of State for Work and Pensions what proportion of *(a)* employed, *(b)* self-employed and *(c)* unemployed parents with care not claiming income support or jobseeker's allowance received maintenance in each region in each quarter since January 1997. [194667]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 22 April 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what proportion of (a) employed, (b) self-employed and (c) unemployed parents with care not claiming income support or jobseeker's allowance received maintenance in each region in each quarter since January 1997. [194667]

The Agency does not record the employment status of parents with care as it is not relevant to the maintenance assessment, therefore the information you have requested is not available.

I am sorry I cannot be more helpful.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Work and Pensions what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197156]

Mrs. McGuire: The following table provides the information requested.

	Conference Centres	*Event/Number of visits made*	*Date*
(a)	Harrogate International Centre	No visit made	
(b)	International Conference Centre, Birmingham	No visit made	
(c)	Manchester Central	No visit made	
(d)	Scottish Exhibitional and Conference Centre, Glasgow	Glasgow Social Inclusion Round Table - Closing Speech	18 October 2005
(e)	Edinburgh International Conference Centre	No visit made	
(f)	Bournemouth International Conference Centre	No visit made	
(g)	The Brighton Centre, Brighton	No visit made	
(h)	The Riviera Centre, Torquay	No visit made	
(i)	Queen Elizabeth Centre, London	Future Services Network - Summit - Speech	26 June 2007
		21 Century Public Services - Putting People First -Speech	6 June 2006
		Remploy Event - Speech	14 June 2005
		ABI (Association of British Insurers) Conference -Speech	9 March 2005
(j)	Excel Conference Centre, Docklands	NAPF (National Association of Pension Funds) Annual Conference - Speech	8 June 2006
		Pensions Commissions event - Speech	21 June 2005
(k)	Business Design Centre, Islington, London	No visit made	

Employment: Vacancies

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many unfilled job vacancies there were *(a)* nationally and *(b)* at York Jobcentre on (i) the most recent date for which figures are available and (ii) in the same month in each year since 2000. [188767]

Mr. Timms *[holding answer 25 February 2008]*: Comprehensive estimates of all job vacancies, not just those notified to Jobcentre Plus, are available from the monthly Office for National Statistics Vacancy Survey since April 2001, based on a sample of 6,000 enterprises and are in the following table.

Vacancies as shown in ONS Vacancy Survey, United Kingdom

Date	*Number*
April 2001	670,900
January 2002	589,100
January 2003	578,400
January 2004	580,200
January 2005	650,400
January 2006	588,300
January 2007	627,700
January 2008[1]	682,300

[1] January 2008 data are provisional and subject to revision.

Notes:

1. Figures are seasonally adjusted.
2. Figures are based on a sample of some 6,000 enterprises.
3. Figures exclude agriculture, forestry and fishing industries.
4. The ONS survey is currently designed to provide national estimates only.

Source:

Office for National Statistics Vacancy Survey, monthly estimates.

Comparable information on unfilled vacancies at jobcentres over time is not currently available because of changes in Jobcentre Plus procedures for taking and handling vacancies. There are around 2,010[1] unfilled vacancies at York Stonebow House jobcentre with on average 1,970[2] new vacancies being notified each month. These opportunities represent just a part of total recruitment in the local economy.

[1] Average of unfilled vacancies over the last 12 months.

[2] Average of vacancies notified over the last 12 months.

Housing Benefit

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will make it his policy to publish information on the level of shortfalls experienced by *(a)* existing housing benefit claimants and *(b)* local housing allowance claimants by (i) number of bedrooms, (ii) local authority area and (iii) broad rental market area for each quarter of 2008-09. [200091]

Mr. Plaskitt: The Department for Work and Pensions currently monitors information on shortfalls but has no immediate plans to publish this on a regular basis.

The Department is, however, considering publication of information on average shortfalls as part of the Two Year Review of the Local Housing Allowance. The format in which this data will be published has yet to be finalised but we will give consideration to quarterly monitoring at broad market rental area level.

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will issue guidance to local authorities on identifying claimants who may be able to make a backdated claim for housing benefit or council tax benefit. [200095]

Mr. Plaskitt: The Department for Work and Pensions claim forms for housing benefit and council tax benefit make it clear that benefit can be paid from an earlier date than the date the claim is received where there is good reason to do so.

A separate section of the claim form asks customers who want to have their claims paid earlier to provide a date from which they wish to claim benefit and to provide the reasons why they have not claimed sooner.

Local authorities can issue their own claim forms where the customer contacts them direct rather than through the Department for Work and Pensions. In these circumstances, guidance recommends that the content of those forms is similar to the Department for Work and Pensions claim forms. So in practice, customers should be offered the choice of having their claim backdated where appropriate.

Currently claims from pensioners are automatically considered for backdating for up to 12 months.

Incapacity Benefit

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the answer of 2 April 2008, *Official Report*, column 780W, on social security benefits, how many people were claiming incapacity benefit while living abroad in each year since 1998, broken down by reason for their claim. [199918]

Mrs. McGuire: The primary diagnosis does not of itself confer entitlement to incapacity benefits. Entitlement is dependent upon the medical test of incapacity for work, the Personal Capability Assessment. The available information is in the following table.

Working age incapacity benefit/severe disablement allowance (IB/SDA) claimants who are living abroad by primary diagnosis

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*

DWP Information Directorate, Work and Pensions Longitudinal Study, 100 per cent. data - May 2000 onwards.
IAD Information Centre 5 per cent samples - May 1998 to May 1999.

Incapacity Benefit: Inverness

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people claimed incapacity benefit in Inverness, Nairn, Badenoch and Strathspey constituency in each year since 1997, broken down by reason for claim. [200083]

Mrs. McGuire: Information is not available prior to 2005. The available information is in the following table.

Working age incapacity benefit/severe disablement allowance claimants in Inverness, Nairn, Badenoch and Strathspey constituency by main primary diagnosis

	May 2005	2006	2007
Certain Infectious and Parasitic Diseases	20	20	20
Neoplasms	50	50	60
Diseases of the blood and blood forming organs and certain diseases involving the immune mechanism	10	10	10
Endocrine, nutritional and metabolic diseases	50	50	60
Mental and behavioural disorders	1,600	1,670	1,720
Diseases of the nervous system	360	340	340
Diseases of the eye and adnexa	30	30	20

3. Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation.
4. The diagnosed condition does not of itself confer entitlement to incapacity benefits. Entitlement is dependent upon the medical test of incapacity for work, the Personal Capability Assessment.
5. 'Others' are those recipients not categorised in any of the above.

Source:
DWP Information Directorate 100 percent WPLS

Incapacity Benefit: Myofascial Pain Syndrome

Bob Spink: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants cited *(a)* myofascial pain syndrome and *(b)* fibromyalgia as a main cause of their medical problem in each of the last three years; how many of each category were awarded benefit; and if he will make a statement. [198852]

Mrs. McGuire: The information is not available.

Jobseeker's Allowance

Ms Buck: To ask the Secretary of State for Work and Pensions (1) how many jobseeker's allowance claimants were sanctioned or disallowed in each month in 2006-07; what the main reasons for these decisions were; and if he will make a statement. [192920]

(2) how many jobseeker's allowance claimants were sanctioned or disallowed in *(a)* April 2007, *(b)* May 2007, *(c)* June 2007 and *(d)* July 2007. [192921]

Mr. Plaskitt: The information has been placed in the Library.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 13 March 2008, *Official Report*, column 576W, on jobseeker's allowance, how many jobseeker's allowance claimants went on holiday for *(a)* one, *(b)* two, *(c)* three, *(d)* four and *(e)* over four weeks in each year since 1997, broken down by region. [195777]

Mr. Timms: The information requested is not available. A jobseeker can be treated as actively seeking work while away from home, for example on holiday, for up to two weeks in any 12-month period. As they do not need to look for work during this period no proof of job search is required, but they must remain in Great Britain and be available for work during this period in order to continue receiving jobseeker's allowance. However, jobseeker's allowance is terminated when someone goes outside the country for more than a day, unless it is for an interview. There is nothing on the jobseeker's allowance payment system datasets to identify customers on holiday in Great Britain who remain eligible for jobseeker's allowance.

New Deal Schemes

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many of those participants leaving the *(a)* New Deal for Young People, *(b)* New Deal 25 Plus, *(c)* New Deal 50 Plus, *(d)* New Deal for Lone Parents, *(e)* New Deal for Disabled People and *(f)* New Deal for Partners immediately entered (i) employment and (ii) sustainable employment in each month of the existence of each programme. [190580]

Mr. Timms *[holding answer 29 February 2008]:* A measure of sustainability is only available for new deal for young people, new deal 25-plus, new deal for lone parents and new deal for disabled people.

The available information for all new deals has been placed in the Library.

Social Security Benefits: Forms

Mr. Hoban: To ask the Secretary of State for Work and Pensions what forms individuals seeking *(a)* jobseekers allowance, *(b)* incapacity benefit, *(c)* housing benefit and *(d)* council tax benefit are required to complete. [198994]

Mr. Plaskitt: Claims for DWP administered working-age benefits, including incapacity benefit, jobseeker's allowance and income support are generally made via a freephone telephone call to a Jobcentre Plus Contact Centre. Clerical claim forms are also available for those customers who may have difficulty using a telephone or do not want to claim via telephone. Where a customer is also claiming housing benefit and council tax benefit, the Department forward the details to the relevant local authority.

Pensioners making a claim for housing benefit and council tax benefit alongside pension credit are issued with a pre-populated three page claim form to check and return direct to the local authority.

Where an individual makes their claim for housing benefit and council tax benefit direct to the local authority, the type of form they use and the process they undertake varies between each local authority area.

For all these benefits, other forms may need to be completed depending on individual circumstances.

Social Security Benefits: Payments

Mr. Hoban: To ask the Secretary of State for Work and Pensions what the error rate in the Accuracy of Payments System database is. [198995]

Mr. Plaskitt: The Department's estimates of fraud and error are published in a series of reports called 'Fraud and Error in the Benefit System'. The most recent report, 'Fraud and Error in the Benefit System October 2005 to September 2006', was published in December 2007. Copies are available in the Library. The report can also be viewed on the Department's website at:

http://www.dwp.gov.uk/asd/asd2/fem/fem_oct05_sep06.pdf

State Retirement Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of *(a)* men and *(b)* women who drew their state retirement pension when they reached state pension age in the most recent year for which figures are available; and if he will make a statement. [195639]

Mr. Mike O'Brien *[holding answer 20 March 2008]*: By the end of March 2007 approximately 230,000 men and 320,000 women in Great Britain that had reached state pension age in 2006 were in receipt of a state pension; this is approximately 94 per cent and 87 per cent respectively of the population estimated to have reached SPA in 2006 with entitlement to a state pension and alive at the end of March 2007.

The remaining pensioners not in receipt of a state pension will be in the process of deferring their state pension. Following a period of state pension deferral a claimant can either:

(1) Take a lump sum that will have accrued at a rate of two percentage points above the Bank of England base rate or;

(2) Receive extra state pension whereby an additional one per cent is added to the value of the state pension for every five weeks of deferral.

Tribunals: Employment

Mr. Harper: To ask the Secretary of State for Work and Pensions what guidance is issued to employment tribunals on procedures to follow in cases where a claimant has a learning disability; and if he will make a statement. [197285]

Bridget Prentice: I have been asked to reply.

The Tribunals Service does not provide specific guidance on the provision of reasonable adjustments for people with learning disabilities attending a tribunal hearing. The Tribunals Service considers any request for a reasonable adjustment on a case by case basis as the specific requirements for each person will be different.

However, I agree this is an important issue especially to ensure access to justice for all and so I shall ask the Head of the Tribunals Service to consider issuing guidance.

JUSTICE

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Justice how many *(a)* permanent Civil Service posts, *(b)* permanent non-Civil Service posts and *(c)* temporary or agency workers in employment in his Department there were in each month since May 2005. [199534]

Bridget Prentice: The information is as follows:

Part A

The Ministry of Justice was created on 9 May 2007, bringing together the Department for Constitutional Affairs, Her Majesty's Court Service and Associated Offices, the National Offender Management Service, the Prison and Probation Services, and the Office for Criminal Justice Reform.

As this is a round robin question tabled to all Departments, prior to this Machinery of Government change on 9 May 2007 the National Offender Management Service, the Prison and Probation Services, and the Office for Criminal Justice Reform are included as part of the response from the Home Office.

Part B

From May 2005 up to 9 May 2007 a response for the Former DCA part of the MoJ only is included. This includes Her Majesty's Court Service, Public Guardianship Office, Tribunals Service and Associated Offices.

Therefore figures for this response are provided in two parts.

Part A - MoJ 9 May 2007

(a) Permanent Civil Service Posts & b) Permanent Non-Civil Service Posts (how many there were in each month since May 2005)

Information on the number of posts for the whole of the MoJ is not held centrally and could be provided only at a disproportionate cost. The only Department that holds this information is the Public Sector Prison Service. This is recorded quarterly and is included in the following table. All these posts relate to Civil Servants. Decisions as to whether the identified posts are filled by permanent or temporary staff are made locally and not recorded centrally.

Public Sector Prison Service

Date	*Planned posts permanent/non-permanent split not defined (FTE)*
30 June 2007	50,889
30 September 2007	50,669
31 December 2007	51,024
31 March 2008	Info not yet collated

Figures for Permanent Civil Service Posts (Staff in Post - FTE) are available from the Former DCA, NOMS and OCJR. Figures on permanent non-civil staff are not held centrally by these departments and can be provided only at a disproportionate cost.

Permanent civil service staff in post

FTE

	NOMS and OCJR staffing figures (May 2007- March 2008)	*MOJ staffing figures (Former DCA)*
May 2007	1,684	24,339
June 2007	1,672	24,418
July 2007	1,660	24,237
August 2007	1,656	24,144
September 2007	1,669	24,068
October 2007	1,685	24,075
November 2007	1,727	24,004
December 2007	1,733	23,939
January 2008	1,725	23,906
February 2008	1,747	23,908
March 2008	1,750	23,781

(c) Temporary or Agency workers in employment in his Department (how many there were in each month since May 2005)

For the MoJ, the Former DCA and Public Sector Prison Service can provide information only on Casual and Fixed Term appointment staff. No records of Agency or Contract staff are held centrally. NOMS and OCJR are able to provide information on both temporary and Agency Staff. These figures are in the following table:

FTE

Month/Year	*MoJ (Former DCA) (Casual and fixed-term appointment)*	*NOMS and OCJR (Temporary and agency workers)*	*Public Sector Prisons Service (Casual and fixed-term appointment)*
May 2007	743	180	1,703
June 2007	807	183	1,722
July 2007	985	194	1,763
August 2007	1,016	212	1,767
September 2007	988	219	1,704
October 2007	939	228	1,736
November 2007	937	232	1,773
December 2007	971	229	1,826
January 2008	972	305	1,795
February 2008	981	301	1,764
March 2008	844	303	1,715

Part B—Former DCA up to 9 May 2007

(a) Permanent Civil Service Posts and (b) Permanent Non-Civil Service Posts (how many there were in each month since May 2005)

This information on posts is not held centrally and could be obtained only as at a disproportionate cost.

(c) Temporary or Agency workers in employment in his Department (how many there were in each month since May 2005)

The breakdown of permanent and temporary/casual staff in post has been published as part of the Office for National Statistics Quarterly Public Sector Employment statistics. This is the key official source of workforce numbers for the Civil Service and provides a breakdown of permanent and temporary/casual employees by Department. Statistics on the number of contractors employed by Departments are not published. The Civil Service statistics represent those employees paid directly from the Department's payroll. Any contractors employed via agencies and so not paid directly by the Department are not included. Temporary Staff in Post figures are included in the following table.

The Former Department of Constitutional Affairs within the Ministry Of Justice (including Her Majesty's Court Service, Public Guardianship Office, Tribunals Service and Associated Offices) have a national contract with Kelly Services Ltd. for the provision of agency staff. Information relating to workers employed through employment agencies for the Ministry of Justice and its Agencies is not held centrally and could be provided only at disproportionate cost.

Quarter/Year	*MoJ (Former DCA) (Casual and fixed-term appointment) (FTE)*
June 2005	710
September 2005	699
December 2005	633
March 2006	667
June 2006	624
September 2006	731
December 2006	714
March 2007	710
April 2007	712

Departmental Public Participation

Mrs. May: To ask the Secretary of State for Justice what *(a)* surveys, *(b)* questionnaires and *(c)* other services were provided by polling companies for his Department in financial year 2007-08, broken down by company. [200010]

Bridget Prentice: The following tables give details of surveys, questionnaires and other services provided to the Ministry of Justice by polling companies in the financial year 2007-08.

Name of the survey etc	*Name of firm carrying out work*	*Type*		
		(a) Survey	*(b) Questionnaire*	*(c) Other*
The courts experiences of adults with mental health problems: learning disabilities and limited mental capacity	British Market Research Bureau (BMRB)	—	Yes	(a) Face to face interviews (b) Telephone interviews (questionnaires by email)
Victims advocates pilot scheme evaluation	British Market Research Bureau (BMRB)	—	—	Qualitative interviews
Awareness of and development of offender management across prison and probation staff	Burns and Co.	Yes	—	

Name of the survey etc	Name of firm carrying out work	Type (a) Survey	(b) Questionnaire	(c) Other
Focus groups—victims of crime, leaflet	Central Office of Information and Burns and Co	—	—	Focus groups
Health and social care professionals awareness of the mental capacity act (paper survey)	Distribution through Binleys. Survey conducted by Ipsos MORI	Yes	—	
The pro bono work of legal executives	ECOTEC Research and Consulting	Yes	—	
Evaluation of alternative dispute resolution in social security and child support tribunals	ECOTEC Research and Consulting	—	—	Qualitative interviews
Salford Community Justice initiative evaluation	Evidence Led Solutions	—	—	Qualitative interviews
Tribunal Service customer satisfaction survey	FDS International Ltd	Yes	—	
Testing of language and understanding of departmental strategic objectives with general public and staff	GfK NOP through Central Office of Information Communications	Yes	—	
Sentencing and rehabilitation	ICM (via omnibus questions)	Yes	—	
HMCS court user survey	Ipsos MORI	Yes	—	
Witness and victim experience survey	Ipsos MORI	Yes	—	
Inform, persuade, remind research	Ipsos MORI	Yes	—	
Nottingham Community Justice public opinion poll	Ipsos MORI	Yes	—	
Survey on tackling and preventing sexual harassment	Ipsos MORI	Yes	—	
Tribunal service customer expectation survey	Ipsos MORI	Yes	—	
Customer satisfaction questionnaire	Ipsos MORI	—	Yes	
Beacon approach evaluation	Ipsos MORI	Yes	—	
General public awareness of the Mental Capacity Act (Capibus survey)	Ipsos MORI	Yes	—	
Legal professionals awareness of the Mental Capacity Act (online survey)	Ipsos MORI	Yes	—	
Office of Public Guardian and Court of Protection customer survey	Ipsos MORI	Yes	—	
Constitution directorate tracker survey	Ipsos MORI	Yes	—	
Opinion research, Merthyr Tydfil Community Justice project	Lamajo	Yes	—	
Dedicated drug court pilots: a process report	Matrix Knowledge Group	—	—	(a) Focus groups (b) Structured interviews
Reporting restrictions in the coroners courts	Opinion Leader Research (OLR)	—	—	Workshop
MOJ staff satisfaction pulse survey	Opinion Research Corporation (ORC) International	Yes	—	
Stock take of attitudinal data	PA Consulting, Ipsos MORI	—	—	Research review—published evidence on public attitudes to CJS
Public consultation for community justice Leicester	Perpetuity	—	—	Consultation
HM prison service annual staff survey	Snap Survey	Yes	—	
Tracker survey of local residents, community justice centre, north Liverpool	Taylor Nelson Sofres (TNS)	—	Yes	
Public perception of risk and protection from serious and violent crime	Taylor Nelson Sofres (TNS)	—	—	Focus groups
Preparatory facilitation for MOJ engagement study working group	Towers Perrin-ISR	—	—	Working group facilitation
Staff opinion survey/engagement study/culture audit for all MOJ staff	Towers Perrin-ISR	Yes	—	
Employment tribunal mediation pilot	Westminster University, fieldwork subcontracted to British Market Research Bureau (BMRB)	Yes	—	

Annex A: Additional information on purpose and costs of projects

Name of the survey etc	Name of firm carrying out work	Why the work was done	Total cost 2007-08	Total cost 2007-08	Type		
					(a) Survey	(b) Question	(c) Other - give details
The courts experiences of adults with mental health problems, learning disabilities and limited mental capacity	British Market Research Bureau (BMRB)	To map current service provision available nationally across the court system to support parties, victims and witnesses with mental health problems, learning disabilities and limited mental capacity. Qualitative work including face to face and/or phone interviews and email questionnaires. The total cost also includes other project activities such as report writing and desk research	49,856	58,581			Yes
Victims Advocates pilot scheme evaluation	British Market Research Bureau (BMRB)	To evaluate the success of the Victims Advocates pilot. Qualitative interviews with practitioners and bereaved family members taking part in the scheme	125,913	147,947			Yes
Awareness of and development of offender management across prison and probation staff	Burns and Co	Establish how staff in different organisations working in offender management will share best practice on joined-up working between custody and community	19,500	22,912	Yes		
Focus groups – victims of crime, leaflet	Central Office of Information and Burns and Co	Review/improve Victims of Crime Leaflet through Focus groups (6) with victims of crime (public) and with frontline practitioners (4)	33,400	39,245			Yes
Health and social care professionals awareness of the Mental Capacity Act (paper survey)	Distribution through Binleys, survey conducted by Ipsos MORI	Determine baseline data on awareness of the Mental Capacity Act among health and social care professionals prior to implementation	24,278	28,468	Yes		
The pro bono work of legal executives	ECOTEC Research and Consulting	Primary purpose of this research was to estimate the extent and value of pro bono work being carried out by legal executives. However, there were some questions seeking opinions, e.g. on legal executives' feelings about carrying out pro bono work	39,813	46,780	Yes		
Evaluation of alternative dispute resolution in social security and child support tribunals	ECOTEC Research and Consulting	To investigate how alternative dispute resolution compares to the standard tribunal	40,000	47,000			Yes
Salford Community Justice initiative evaluation	Evidence Led Solutions	Evaluation of the implementation of the Salford Community Justice project. Included research of opinion of community members. Multiple year project		24,075			Yes

Annex A: Additional information on purpose and costs of projects

Name of the survey etc	Name of firm carrying out work	Why the work was done	Total cost 2007-08[1]	Total cost 2007-08[2]	Type		
					(a) Survey	(b) Question	(c) Other - give details
Tribunal Service customer satisfaction survey	FDS International Ltd	To inform key performance indicator on customer satisfaction			Yes		
Testing of language and understanding of departmental strategic objectives with general public and staff	GfK NOP through Central Office of Information Communications	Testing of language and understanding of departmental strategic objectives. Involving survey with 500 members of the public, six mini focus groups with citizens and four staff workshops.	31,200	36,660	Yes		
Sentencing and rehabilitation	ICM (via omnibus questions)	To gauge public awareness of, and support public information on community sentencing	7,165	8,419	Yes		
HMCS Court User Survey	Ipsos MORI	To elicit levels of court user satisfaction with standards or customer service and other key service issues across the High Court, the Crown, county and magistrates courts and associated offices.			Yes		
Witness and victim experience survey	Ipsos MORI	To gather consistent and comparable local and national data on victim and witness satisfaction with Criminal Justice System agencies in cases that resulted in a prosecution			Yes		
Inform, persuade, remind research	Ipsos MORI	To test the impact of an information booklet upon public confidence in the Criminal Justice System.	20,000	23,500	Yes		
Nottingham Community Justice public opinion poll	Ipsos MORI	Consultation to gauge public opinion of the criminal justice system in St Ann's and Aspley via two telephone survey waves.		32,000	Yes		
Survey on tackling and preventing sexual harassment	Ipsos MORI	To provide detailed picture of the incidence and nature of sexual harassment amongst prison staff and to assist the Prison Service to deliver on its commitment to tackle inappropriate behaviour.	32,708	38,431	Yes		
Tribunal Service customer expectation survey	Ipsos MORI	Survey originally commissioned by Appeals Service. It was adapted to cover a different purpose in testing customer perception and expectation across the a number of jurisdictions.	37,000	43,475	Yes		
Customer satisfaction questionnaire	Ipsos MORI	To develop a questionnaire to survey complainants regarding customer satisfaction.	49,856	58,581	—	Yes	

Annex A: Additional information on purpose and costs of projects

Name of the survey etc	Name of firm carrying out work	Why the work was done	Total cost 2007-08[a]	Total cost 2007-08[b]	Type		
					(a) Survey	(b) Question	(c) Other - give details
Beacon approach evaluation	Ipsos MORI	To independently assess the success of the Approach in promoting new ways of working with local Community Justice boards.	54,380	63,897	Yes		
General public awareness of the Mental Capacity Act (Capibus survey)	Ipsos MORI	Determine baseline data on awareness of the Mental Capacity Act among the general public prior to implementation	22,280	26,179	Yes		
Legal professionals awareness of the Mental Capacity Act (online survey)	Ipsos MORI	Determine baseline data on awareness of the Mental Capacity Act among legal professionals prior to implementation	7,800	9,165	Yes		
Office of Public Guardian and Court of Protection customer survey	Ipsos MORI	To provide quantitative baseline data on Office of Public Guardian and Court services as perceived by users. The results for the initial baseline survey will establish where improvements can/need to be made and will lay foundations to make improvements to the Office of Public Guardian and Court services, in addition to setting an appropriate Key Performance Indicator target for customer satisfaction.	25,981	30,528	Yes		
Constitution Directorate tracker survey	Ipsos MORI	Periodic "tracker" survey to monitor public knowledge and opinion on a range of issues related to constitution, democracy and rights.	50,565	50,565	Yes		
Opinion research, Merthyr Tydfil Community Justice project	Lamayo	Consultation to gauge public opinion of the criminal justice system in Merthyr Tydfil including surveys, questionnaires and focus groups.		24,000	Yes		
Dedicated drug court pilots: a process report	Matrix Knowledge Group	As part of an independent evaluation of the two Dedicated Drug Court pilots commissioned in order to assess the impact of the model and to inform key stakeholders of the value of this specialist approach to drug-related offending. As a part of evaluation of pilots focus groups and structured interviews were carried out.	94,173	110,653			Yes

Annex A: Additional information on purpose and costs of projects

Name of the survey etc	Name of firm carrying out work	Why the work was done	Total cost 2007-08[1]	Total cost 2007-08[1]	Type		
					(a) Survey	(b) Question	(c) Other—give details
Reporting restrictions in the coroners courts	Opinion Leader Research (OLR)	Preparation, facilitation and hosting of workshop on reporting restrictions proposals in the Coroners Bill to reach a consensus among key stakeholders on the best way forward	6,830	8,025	—	—	Yes
MOJ staff satisfaction pulse survey	Opinion Research Corporation (ORC) International	To assess progress and improvements against action plans implemented following the full staff opinion survey carried out 12 months previously	21,220	24,934	Yes	—	—
Stock take of attitudinal data	PA Consulting, Ipsos MORI	To inform the development the Criminal Justice System strategic plan 2008-11 through review of research and other published evidence on public attitudes to the Criminal Justice System	4,725	5,552	—	—	Yes
Public consultation for Community Justice Leicester	Perpetuity	To gauge public opinion of the criminal justice system in the area covered by the project	25,532	30,000	—	—	Yes
HM Prison Service annual staff survey	Snap Survey	It is the Prison Service's annual staff opinion survey	9,234	10,849	Yes	—	—
Tracker survey of local residents, Community Justice Centre, north Liverpool	Taylor Nelson Sofres (TNS)	Part of an evaluation of community justice scheme to measure impact of scheme on local residents. Multiple year project	20,162	23,690	—	Yes	—
Public perception of risk and protection from serious and violent crime	Taylor Nelson Sofres (TNS)	These focus group discussions on awareness of public protection arrangements (sexual and violent offenders) explored ways of providing public information. This was to inform work of the National Offender Management Service public protection unit and a MoJ strategic review of public protection, and to gauge public understanding of current arrangements, including Multi Agency Public Protection Arrangements and Approved Premises, to protect them from violent and sexual offenders.	12,000	14,100	—	—	Yes

Annex A: Additional information on purpose and costs of projects

Name of the survey etc	Name of firm carrying out work	Why the work was done	Total cost 2007-08[1]	Total cost 2007-08[2]	Type		
					(a) Survey	(b) Question	(c) Other—give details
Preparatory facilitation for MOJ engagement study working group	Towers Perrin-ISR	Facilitation and development of an effective working group to ensure that they all clearly understand their roles and responsibilities and are all in a position to take forward activities within their respective business units relating to the development, design, administration, communications, and post-results action planning/monitoring of achievements of the planned staff opinion survey/engagement study (now to include additionally culture audit). Start January 2008, completion by March 2008	24,500	28,788			Yes
Staff opinion survey/engagement study/culture audit for all MoJ staff	Towers Perrin-ISR	(i) To conduct a staff opinion survey for 30,000 former DCA/NOMS/OCJR staff — meeting the requirement to provide Cabinet Office with core survey data. (ii) To develop an index for measuring levels of employee engagement within MoJ. (iii) To test our assumptions around the key drivers for engagement using the Cabinet Office Model – Say-Stay-Strive. Multiple year project.	30,000	35,250	Yes		
Employment tribunal mediation pilot	Westminster University, fieldwork sub-contracted to British Market Research Bureau (BMRB)	To assess effectiveness of judicial mediation in the employment tribunal.	43,800	51,465	Yes		
			963,871	1,203,714

[2] Including VAT
[3] Costing information is not supplied as this is commercial in confidence. This survey is subject to periodic re-tendering and release of the costings.

Disabled

Mr. MacNeil: To ask the Secretary of State for Justice what targets his Department has set in relation to its employment of people with disabilities over the next five years. [199042]

Mr. Wills: As a result of the establishment of the Ministry of Justice on 9 May 2007, we are currently in the process of revising our diversity targets for all under-represented groups, which will include setting targets for our staff with disabilities.

The timetable for setting the Department's targets will be determined by guidance from the Cabinet Office, which is due late summer 2008.

Fixed Penalties

Mr. Ruffley: To ask the Secretary of State for Justice (1) how many of each category of fixed penalty notices were *(a)* issued and *(b)* paid in each month since their introduction in each police force area; [198520]

(2) how many on-the-spot fines have been issued in each police area. [198536]

Maria Eagle: The most recent available information on motoring fixed penalty notices as well as data on penalty notices for disorder (PNDS) covering the years 2004 to 2006 have been provided in my earlier answer of 18 December 2007, *Official Report*, column 1288W.

Additionally, data on the number of fixed penalty notices issued for environmental offences are available

from the Department for Environment, Food and Rural Affairs (DEFRA) via the following web link:

http://www.defra.gov.uk/environment/localenv/legislation/fpn/index.htm

Gloucester Prison

Mr. Drew: To ask the Secretary of State for Justice if he will make a statement on the recent report of the Independent Monitoring Board on Gloucester Prison; and what the implications of its recommendations are for the future of the prison. [198720]

Maria Eagle: I am very grateful to the Independent Monitoring Board for the work they do on behalf of Gloucester prison. The report is thorough and generally very positive; highlighting several areas of recognised good practice and acknowledging Gl ucester's achievements in gaining level 4 status and receiving the most improved prison award in 2007. I will formally respond to the report shortly.

Gloucester continues to perform well in key areas, despite the physical constraints of Victorian buildings and a town centre location, and I have no reason to suppose that it will not continue to do so. The governor and staff are committed to maintaining and improving upon this performance, providing the best possible opportunities for prisoners to address their offending behaviour in a supportive and safe environment.

JP Morgan and Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Justice (1) how much his Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of each payment was; [199587]

(2) how much his Department and its predecessors paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199606]

Bridget Prentice: The responses covering each part of the Ministry are as follows:

Former DCA/MOJ

Since 1 April 2005, there have been no payments made by the former DCA to either JP Morgan or Zurich Financial Services.

Data prior to 1 April 2005 may be obtained only at disproportionate costs.

HMCS

Since 1 April 2005, there have been no payments made by HMCS to either JP Morgan or Zurich Financial Services.

Data prior to 1 April 2005 may be obtained only at disproportionate costs.

Tribunals

Since the launch of the Tribunals Service in April 2006, there have been no payments made to either JP Morgan or Zurich Financial Services within the Executive agency.

Office of the Public Guardian (PGO/OPG)

The PGO/OPG paid £68,823.09 to JP Morgan Fleming Asset Management in 2001. Payment was in respect of consulting on investment matters. No other payments have been made to JP Morgan by the OPG.

There have been no payments made by PGO to Zurich Financial Services.

Office of Criminal Justice Reform (OCJR)

The OCJR only have expenditure data starting from 1 April 2004. Since that date, there have been no payments made by OCJR to either JP Morgan or Zurich Financial Services.

National Offender Management Service (NOMS)

NOMS are only able to provide this information at disproportionate costs, as it would require first identifying payments to these suppliers (which could not be done if it was through a broker), and then looking up the invoice to try and identify the purpose.

Her Majesty's Prison Service (HMPS)

There have been no payments made by HMPS to JP Morgan.

HMPS paid Zurich Financial Services £5,000 in January 2005 and £3,000 in November 2007. Both payments were in respect of insurance services.

Personal Injury

Mr. Bellingham: To ask the Secretary of State for Justice when he expects to publish his conclusions in relation to his Department's consultation Case Track Limits and the Claims Process. [198872]

Bridget Prentice: The Response to Consultation is nearing completion and will be published as soon as possible.

Police Custody: Young People

Mr. Jenkins: To ask the Secretary of State for Justice how many juveniles were held overnight in custody in police cells in (*a*) Tamworth and (*b*) Staffordshire in each of the last five years. [193612]

Mr. Straw: Since October 2006, the Government have used police cells in significant numbers to help manage pressure in the prison population. The Government's policy, however, is that juveniles should only be held overnight in police cells in the most exceptional circumstances. Our records indicate that since October 2006, no juveniles have been held overnight in police cells in Tamworth or in the rest of Staffordshire. Data prior to this cannot be obtained without incurring disproportionate cost.

Young Offender Institutions: Restraint Techniques

Jenny Willott: To ask the Secretary of State for Justice how many injuries sustained by juvenile and young adult offenders held in (*a*) young offender institutions and (*b*) secure children's homes during restrictive physical interventions required hospital treatment in each year since 2000; and if he will make a statement. [197306]

Mr. Hanson: Young adults are not placed in secure children's homes. The Youth Justice Board has been collecting restraint data against common definitions across the secure estate since April 2007. The following table shows the requested information for the period 1 April 2007 to 31 January 2008 in relation to under-18 young offender institutions and secure children's homes. Information on injuries to young adults in senior young offender institutions is not collected centrally.

Establishment type	Injuries needing hospital treatment
Young offender institutions	2
Secure children's homes	0

Source:
Data supplied by the Youth Justice Board from administrative computer systems

Young Offenders: Mentally Ill

Susan Kramer: To ask the Secretary of State for Justice how many young people in custody have been diagnosed with mental health problems. [198602]

Mr. Hanson: I refer the hon. Member to the answer I gave to the hon. Member for Sutton and Cheam (Mr. Burstow) on 28 January 2008, *Official Report*, column 153W.

CHILDREN, SCHOOLS AND FAMILIES

Children in Care: Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what targets his Department has set to improve the educational outcomes of children in care; and if he will make a statement. [196881]

Kevin Brennan: For CSR2007 there are three public service agreement targets for the educational achievement of looked after children (LAC). These are that:

60 per cent. of LAC to obtain level 4 at key stage 2 in English by 2011;

55 per cent. of LAC to obtain level 4 at key stage 2 in maths by 2011; and

20 per cent. of LAC at key stage 4 to obtain five GSCEs graded A*-C (or equivalent), by 2011.

These targets are reflected in the statutory targets for local authorities that form part of the new National Indicator Set.

Not enough progress has been made on improving the educational achievement of LAC. They often face a wide range of barriers to learning that most children do not experience. However, we are determined to do more and improving the education of LAC is a top priority. It is key to improving their life chances and a successful transition to adulthood.

We have set out our intentions in "Care Matters: Time for Change" and the implementation plan "Care Matters: Time to deliver for children in care" published by the Government with the Local Government Association and the Association of Directors of Children's Services, on Wednesday 26 March 2008.

Children in Care: Missing Persons

David T.C. Davies: To ask the Secretary of State for Children, Schools and Families how many *(a)* children and *(b)* asylum-seeking children went missing from local authority care in each of the last five years. [199503]

Kevin Brennan: The numbers of children looked after who went missing from local authority care in each of the last five years are shown in the following tables.

(a) The number of children looked after who went missing from care for 24 hours or more, in each of the years ending 31 March 2003 to 2007, including asylum-seeking children, was as follows:

	Number
2003	990
2004	730
2005	860
2006	890
2007	950

These figures account for all children looked after excluding children looked after under an agreed series of short term placements.

(b) The number of asylum-seeking children who went missing from care for 24 hours or more, in each of the years ending 31 March 2003 to 2007, was as follows:

	Number
2003	70
2004	50
2005	70
2006	110
2007	90

For both answers above, where a child went missing from his or her agreed placement, for 24 hours or more, on more than one occasion during the same year, he or she has been counted only once.

Children: Databases

Mr. Redwood: To ask the Secretary of State for Children, Schools and Families how much the ContactPoint database has cost to date; and how much has been budgeted to complete the project. [200108]

Kevin Brennan: Approximately £103 million has been spent to date on the ContactPoint project.

The estimated set-up cost of ContactPoint is £224 million (most of which is expected to be incurred by the end of the financial year 2009-10). This includes: the costs of adapting existing systems that will supply data to ContactPoint and the costs of ensuring that data are accurate; adapting the day-to-day systems used by practitioners so they can access ContactPoint from them; and the costs of introducing robust arrangements to ensure proper security, and effective ContactPoint user training.

Thereafter, estimated operating costs will be £41 million per year. Most of this will pay for the additional staff needed to ensure the ongoing security, accuracy and audit of ContactPoint.

Mr. Redwood: To ask the Secretary of State for Children, Schools and Families what *(a)* linkages and *(b)* cross checks are proposed between data records of individuals on (i) the ContactPoint database and (ii) other Government databases. [200109]

Kevin Brennan: ContactPoint will hold, for each child or young person in England:

basic identifying information: name, address, gender, date of birth and a unique identifying number;

contact details for the child's parent or carer;

contact details for services involved with the child: as a minimum school and GP practice, but also other services where appropriate; and

the facility for practitioners to indicate to others if they are a lead professional, and have undertaken a common assessment, in relation to a child.

There are no links in a child record to any other family members apart from the parent/carer details above. For safeguarding purposes, practitioners can make use of a facility in ContactPoint to search for previous and current co-residing children from a child record. In limited circumstances, details revealing the whereabouts of a child/young person and/or their parent/carer can be 'shielded'. The decisions to 'shield' will be taken case by case, based on the level of threat posed if information about their whereabouts was to be revealed.

To ensure ContactPoint records are as accurate and up-to-date as possible, ContactPoint will cross-check, match and remove duplication of fragments of data received from a range of local and national data sources. These national data sources include a number of government departments, namely the Department for Work and Pensions, Department for Children, Schools and Families, Department of Health and Office for National Statistics. This is a one way process. No data will be supplied to another system from ContactPoint nor will users be able to access any other systems via ContactPoint.

To support the Data Protection Act 1998, there will be mechanisms in place to notify data sources where discrepancies occur between differently sourced fragments. In doing so, the contents of ContactPoint records will not be shared with data sources.

Children: Protection

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what recommendations from the Laming report into the death of Victoria Climbie have yet to be implemented. [186767]

Kevin Brennan: This Government launched a radical programme of reform in response to Lord Laming's Inquiry into the death of Victoria Climbié. Through the Children Act 2004 we have put in place a much stronger framework for children's services and particularly for safeguarding children. The Government's detailed response to the recommendations of the Victoria Climbié Inquiry Report was set out in "Keeping Children Safe" which was published in 2003, alongside the Green Paper "Every Child Matters". The actions the Government committed to undertaking in response to Lord Laming's recommendations have been carried out or are ongoing, an exception is the revision of guidance on the Children Act 1989. Volume 1, on Court Orders, has been revised and published, and many of the key messages which "Keeping Children Safe" said were to be incorporated in the revised Children Act 1989 guidance have been incorporated into other guidance documents and standards. We plan to revise further volumes of the 1989 guidance next year, taking into account commitments announced in Care Matters: Time for Change, proposed legislative changes through the Children and Young Person's Bill currently going through Parliament, and proposed revisions to the National Minimum Standards for children's social care.

Departmental Advertising

Mr. Pope: To ask the Secretary of State for Children, Schools and Families how much his Department spent on publicity and advertising in 2007-08. [198982]

Kevin Brennan: Promotional campaigns, including those using advertising, are funded from the Department's central advertising and publicity budget and from individual programme budgets held by policy directorates. The Department employs advertising agencies and public relations agencies for specific communications tasks, most commonly working alongside our press office to provide local and regional campaign support.

Once all payments have been finalised, the predicted spend from the advertising and publicity budget for 2007-08 is £11.8 million. In addition to funding promotional campaigns, this budget also covers a wide range of other publicity activity (including magazine production and infrastructure costs such as mailing and storage of departmental publications).

The spend on promotional campaigns from individual policy directorate programmes cannot be separately identified, except at disproportionate cost.

However, it is possible to separate all the Department's spend on advertising and publicity, as this is centrally placed through the Central Office of Information. For 2007-08, the Department spent £1,567,144 on PR and £5,160,218 on advertising.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Children, Schools and Families at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196939]

Kevin Brennan: Data on the number of events held by this Department where *(a)* wine was served and *(b)* Fairtrade wine was served are not held centrally. Gathering this information would be at a disproportionate cost.

Departmental Carbon Emissions

John McDonnell: To ask the Secretary of State for Children, Schools and Families whether his Department has adopted the Carbon Trust's Carbon Management Programme or plans to do so in the next 12 months. [198042]

Kevin Brennan: The Carbon Trust completed a review of our Headquarters estate in 2006. Their findings have been adopted within our Sustainable Operations Environmental Management System carbon management action plans. The Department did not take up the

Carbon Trust carbon management programme on the basis that these reviews had been undertaken.

John McDonnell: To ask the Secretary of State for Children, Schools and Families whether his Department met the target in the Sustainable Operations on the Government Estate initiative to reverse the upward trend in carbon dioxide emissions by April 2007. [198043]

Kevin Brennan: I am pleased to report that the Department has met the Sustainable Operations on the Government Estate target to reverse the upward trend in carbon emissions by April 2007.

Departmental Cost-effectiveness

Bob Spink: To ask the Secretary of State for Children, Schools and Families what progress his Department has made in its zero-based budget review under the Comprehensive Spending Review. [191494]

Kevin Brennan: I refer the hon. Member to the annex pertaining to my Department in "Meeting the aspirations of the British people: the 2007 Pre-Budget Report and Comprehensive Spending Review" (Cm 7227).

In addition to this, my Department published its delivery agreement at the end of 2007. This delivery agreement explains how my Department will achieve its value for money efficiency gains during the comprehensive spending review 2007 (CSR07) which covers the period 2008-09 to 2010-11. The document details the major reforms, changes and initiatives the Department intends to undertake in order to achieve its savings ambition. This document is available on our website at:

www.dcsf.gov.uk/aboutus/reports/

The Department will report further progress under the CSR07 through existing departmental reporting processes.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Children, Schools and Families how much was spent on the most recent redesign and implementation of his Departmental website. [200162]

Kevin Brennan: The most recent redesign and implementation of the Department's website cost £6,345.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Children, Schools and Families how many *(a)* permanent Civil Service posts, *(b)* permanent non-Civil Service posts and *(c)* temporary or agency workers in employment there were in his Department in each month since May 2005. [199628]

Kevin Brennan: The Department was formed as part of the Machinery of Government changes announced on 28 June 2007, so figures are only available from July 2007 as set out in the following table:

	Permanent civil servants	*Permanent non-civil servants*	*Temp civil servants*	*Agency workers*
July 2007	2,919		11	17
August 2007	2,908		10	18
September 2007	2,919	1	12	9
October 2007	2,919	1	17	19
November 2007	2,908	4	15	42
December 2007	2,900	3	14	49
January 2008	2,857	3	14	62
February 2008	2,846	4	12	75
March 2008	2,781	4	12	73

Departmental Pay

Dan Rogerson: To ask the Secretary of State for Children, Schools and Families what the cost of *(a)* salaries for permanent Civil Service posts, *(b)* salaries for permanent non-Civil Service posts and *(c)* payments to temporary or agency workers in his Department was in each month since May 2005. [199629]

Kevin Brennan: The Department was set up in 28 June 2008. The information is not available centrally in the form requested and could be obtained only at disproportionate cost. However, the annual spend to 31 March 2008 for permanent civil service posts was £120 million including overtime, and temporary and agency workers was £1.9 million and £0.8 million respectively.

The Department has no permanent non-civil service posts.

Departmental Property

Anne Main: To ask the Secretary of State for Children, Schools and Families how many residential properties his Department owns; how many of these are vacant; and how many of these have been vacant for longer than *(a)* three, *(b)* six and *(c)* 12 months. [192982]

Kevin Brennan: The Secretary of State for Children Schools and Families does not own any residential properties.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many days sick leave were taken on average by staff in his Department and its predecessor in each of the last five years. [198961]

Kevin Brennan: The average number of sick days for staff in my Department is set out in the following table:

Calendar Year[1]	*Average number days lost through sick leave per staff year*
2007	9.3
2006	8.4
2005	8.9
2004	9.0
2003	10.3

[1] Figures for calendar years 2003-06 relate to the former DFES. The figure for calendar year 2007 relates to the DCSF over a six month period only (July-December).

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198979]

Kevin Brennan: The breakdown of days sickness absence due to stress in the Department could be obtained only at disproportionate cost. The Department normally collects the information quarterly. For the last recorded six months period (July to December 2007), 15 per cent. of all working days lost due to sickness absence could be attributed to stress-related conditions.

The Department has put in place a range of measures to support managers and employees on health and well-being issues, including the provision of professional counselling and support from the Department's Employee Assistance Provider, Right Corecare. The Department has also piloted a Health and Safety Executive (HSE) Stress Questionnaire in one part of the organisation and conducted Individual Stress Risk Assessments for employees who require them. It will shortly be launching a comprehensive Stress Prevention Policy, based on HSE Management Standards.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Children, Schools and Families when his Department plans to publish its sustainable operations policy statement. [195894]

Kevin Brennan: The Department's updated Sustainable Development Action Plan (SDAP) for 2008-10 is due for publication at the end of April 2008. This will include our sustainable operations policy statement and an associated delivery plan will track our progress towards meeting the Government's targets for sustainable operation of the estate.

John McDonnell: To ask the Secretary of State for Children, Schools and Families whether his Department is on course to meet Sustainable Operations on the Government Estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [198041]

Kevin Brennan: The latest published information on Sustainable Operations on the Government Estate report for 2007 noted that my previous Department the Department for Education and Skills achieved the following results:

(a) good progress made on the target to source at least 10 per cent. of electricity from renewables by 31 March 2008 and noted as being on track.

(b) excellent progress made on the target to recycle 40 per cent. of waste by 2010 with the target already met.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families how many staff in his Department have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197057]

Kevin Brennan: In the last 12 months, my Department has funded the following places on the National School for Government events tabled as follows:

Event	*Place*	*Total cost (£)*
Influencing with Integrity	None	0
Emotional Intelligence	None	0
Counselling Skills in the Workplace	1	1,115
Managing your Confidence	None	0
Balancing Work/Life Realities	None	0
Working Assertively	2	1,452

The total spend on these events was £2,567.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195822]

Kevin Brennan: The information is not held centrally in the form requested and could be obtained only at disproportionate cost.

Contracted hours for the majority of full-time members of staff based in London are 41 hours per week. Full-time employees based outside London, work a 42 hour week. Employees can work more than these hours and flexible arrangements are in place to allow people to take time off at a later date or to compensate them. A number of employees also work part-time.

Departmental Written Questions

Mike Penning: To ask the Secretary of State for Children, Schools and Families how many written Questions to his Department had not received an Answer as at 25 February 2008 for *(a)* between two and four, *(b)* between four and six, *(c)* between six and eight and *(d)* more than eight weeks; and how many in each category were tabled for named day answer. [193387]

Kevin Brennan: The Department received a total number of 2,224 PQs during the period covering 6 November 2007 to 25 February 2008. According to our records, the breakdown of questions, at least two weeks old, that had not received an answer on 25 February 2008 was as shown in the following table.

	Commons named day	*Commons written*	*Total*
(a) 2-4 weeks	2	5	7
(b) 4-6 weeks	1	2	3
(c) 6-8 weeks	0	0	0
(d) More than 8 weeks	1	8	9
Total	4	15	19

Disabled

Mr. MacNeil: To ask the Secretary of State for Children, Schools and Families what targets his Department has set in relation to its employment of people with disabilities over the next five years. [199051]

Kevin Brennan: For the period following the implementation of the Cabinet Office 10 point plan, my Department has set challenging targets for the employment of disabled staff at senior civil service level, our current target of 4 per cent. exceeds Cabinet Office guidance.

The Department is currently looking at our workforce planning for the next five years and will be setting challenging targets for all grades shortly.

Domestic Violence

Margaret Moran: To ask the Secretary of State for Children, Schools and Families what steps his Department has taken on *(a)* domestic violence and *(b)* forced marriage since the coming into force of the Domestic Violence, Crime and Victims Act 2003. [198789]

Kevin Brennan: Keeping children and young people safe is a top priority for this Government and the Department. We have introduced new legislation, new guidance and new structures to make children safer.

The Children Act 2004 put in place a much stronger framework for children's services and for safeguarding children in particular. This Act gave a range of statutory agencies a legal duty to safeguard and promote the welfare of children. Statutory guidance, "Making arrangements to safeguard and promote the welfare of children under section 11 of the Children Act 2004", issued in July 2005 and updated in March 2007, is aimed at the police, hospitals, prisons and others covered by the requirement and sets out what they should do to make sure children are safe. The guidance makes clear for example that police need to identify vulnerable children in domestic violence cases, and that housing authorities need to consider the safety of children when they are offering help in domestic violence cases.

"Working Together to Safeguard Children", published in April 2006, is the Government's main interagency guide to safeguarding. This explains what is meant by forced marriage, makes clear that it comes under the definition of domestic violence, and stresses the need for professionals to be aware of the strong links between domestic violence and child protection concerns and to take appropriate action.

This Government have also created statutory local safeguarding children boards (LSCBs) to co-ordinate what local bodies do to safeguard children and to ensure that they are working effectively together. We have also required local authorities to have lead members and directors who are clearly accountable for their children's services.

The cross-Government "Staying Safe: Action Plan", published in February 2008, sets out specific commitments to help tackle forced marriage and domestic violence. The Action Plan is underpinned by the new public service agreement to improve children and young people's safety.

Working with the forced marriage unit, we will develop materials on the issue of forced marriage specifically for use by schools and tailored to young people and we will actively encourage schools to use them. DCSF Ministers will shortly be writing to all schools and local authorities reminding them of their responsibilities and of the existing guidance—both general safeguarding children guidance and the specific forced marriage guidance for education professionals, issued jointly with the forced marriage unit. We will also set out our plans to consult on revised forced marriage guidance which will then be placed on a statutory footing this autumn.

Domestic Violence: Finance

Margaret Moran: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on work on *(a)* domestic violence and *(b)* forced marriage since 2003; and what budget allocations have been made for each in the next three years. [198788]

Kevin Brennan: Expenditure on safeguarding children from domestic violence and forced marriage is met principally by local authorities from general funding.

The then Department for Education and Skills took over certain policy responsibilities from the Department of Health in 2003 and with this came responsibility for grants to the Women's Aid Federation of England (WAFE) which related to domestic violence. Under the section 64 grant scheme WAFE received £300,000 between 2003-04 and 2006-07, plus WAFE received £49,000 per year between 2003-04 and 2007-08 as a contribution to the National Domestic Violence Helpline service.

In addition, the Department currently provides funding under the Children, Young People and Families (CYPF) grant scheme to two domestic violence related projects. 'Daybreak Family Group Conferences' are funded for a project that aims to address the impact of domestic violence on the safety and welfare of children and their chances of achieving their full potential. The funding amounts to £283,000 over three years (2006-07 to 2008-09). WAFE currently receives funding to develop and raise the profile of support for women and children as victims of domestic violence. CYPF grant funding for WAFE is £120,000 over two years (2007-08 to 2008-09).

The Department is also committed to continued close working with the joint Foreign and Commonwealth Office/Home Office Forced Marriage Unit to revise the forced marriage guidance issued in 2005 and place this on a statutory footing. We are also working with the Forced Marriage Unit to develop materials on the issue of forced marriage specifically for use by schools and tailored to young people.

Fairtrade Initiative

Mr. Weir: To ask the Secretary of State for Children, Schools and Families if he will take steps to promote Fair Trade Fortnight 2008 amongst staff within his Department; and if he will make a statement. [189499]

Kevin Brennan: The Department has an agreement with our catering supplier that a selection of Fairtrade food and drink products shall be available throughout all their catering operations—this will apply during fair trade fortnight. A range of internal communications channels will be used to promote fair trade fortnight to staff.

Forced Marriage

Margaret Moran: To ask the Secretary of State for Children, Schools and Families what monitoring and evaluation his Department carries out on the implementation of its guidance on forced marriages; and if he will make a statement. [198787]

Kevin Brennan: "Working Together to Safeguard Children" (April 2006), the main interagency guide to safeguarding and promoting the welfare of children, and "Safeguarding Children and Safer Recruitment in Education" (November 2006), consolidated guidance on recruitment in education settings, explain what is meant by forced marriage, make clear that it comes under the definition of domestic violence, and advise that if there are concerns that a child is at risk of forced marriage, local agencies and professionals should contact the Forced Marriage Unit, the police and children's social care.

"Working Together" provides a link to the guidance produced by the Forced Marriage Unit and partners, and "Safeguarding Children and Safer Recruitment in Education" signposts specifically to the guidance for education professionals, "Dealing with Cases of Forced Marriage". This was issued by the Foreign and Commonwealth Office, Department for Education and Skills, and Home Office in 2005. DCSF will be working with the Forced Marriage Unit to revise the existing forced marriage guidance and place it on a statutory footing this autumn.

Local Safeguarding Children Boards (LSCBs) are responsible for co-ordinating what is done by each person or body represented on the Board for the purposes of safeguarding and promoting the welfare of children, and for ensuring the effectiveness of what is done by each such person or body for that purpose. The effectiveness of the LSCB itself should form part of the judgment of the inspectorates, particularly through the Joint Area Review (JAR).

As part of Ofsted inspections, schools are judged on whether they are meeting their statutory requirements on safeguarding.

The current system of local authority inspection (Joint Area Reviews and Annual Performance Assessments of children's services) will be replaced by Comprehensive Area Assessments from 2009. This was announced in the 2006 Local Government White Paper, "Strong and Prosperous Communities".

This will mean few rolling programmes of inspection of local authority services, with most inspections triggered on an authority-specific basis following an annual risk assessment. The case for separate programmed inspection of safeguarding is currently being considered and a decision will be made in spring 2008.

The Local Government White Paper made clear that any such programmes will incorporate proportionality in individual inspections. For more information on the new Comprehensive Area Assessments see:

http://www.communities.gov.uk/localgovernment/performanceframeworkpartnerships

Health Education: Alcoholic Drinks

Mark Pritchard: To ask the Secretary of State for Children, Schools and Families if he will hold discussions with Alcoholics Anonymous on educating school children on alcoholism and alcohol abuse. [199992]

Kevin Brennan: The Department is working on a Youth Alcohol Action Plan, which will look at what more might be done to reduce excessive drinking by young people. I have asked my officials to get in touch with Alcoholics Anonymous to make sure this work takes account of their views and expertise.

Inclusive Technology

Mr. Hands: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 31 March 2008, *Official Report*, column 692W, what payments his Department and its predecessor made to Inclusive Technology in each year between 1997-98 and 2005-06. [199664]

Kevin Brennan: Our financial records show that the Department has not made any payments to Inclusive Technology in the last seven years. The Department is not required to keep financial records beyond that period.

Karian and Box

Mr. Hands: To ask the Secretary of State for Children, Schools and Families what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199632]

Kevin Brennan: Our financial records show that the Department has not made any payments to Karian and Box in the last seven years. The Department is not required to keep financial records beyond that period.

Primary Education: School Meals

Rosie Cooper: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to increase access to healthy school meals in primary schools in *(a)* West Lancashire constituency and *(b)* England. [196856]

Kevin Brennan: The Department is taking a number of steps to improve the quality of meals served in primary schools and to ensure all children have access to healthy food while at school.

New food-based nutritional standards were introduced in September 2006 for school lunches and from September 2007 for other school food. Nutrient-based standards will be introduced for school lunches in September 2008 for primary schools and September 2009 for secondary schools.

School lunch take-up is a priority as demonstrated by the fact that it is one of the indicators in the new Child Health PSA and is one of the indicators in the National Indicator Set.

The School Food Trust was established in 2005 to support the implementation of changes in school food in England. One of their key targets is to increase take-up of school meals and they have launched their Million Meals Campaign to encourage schools to increase school lunch take-up.

The Government are also investing around £650 million of additional funding between 2005 and 2011 to help support the drive towards improved school food. Lancashire has already received £5,322,666 of that funding between 2005 and 2008 and will receive a further £1,777,973 in 2008-09.

Pupils: Epilepsy

Mr. Truswell: To ask the Secretary of State for Children, Schools and Families (1) how many children with epilepsy were educated in mainstream primary and secondary schools in England in each of the last five years; [199980]

(2) what assessment his Department has made in its planning, policy and guidance for the education sector on the effects of epilepsy on a child's learning; [199981]

(3) what assessment he has made of the merits of implementing statutory training requirements for those working with children who have epilepsy; [199983]

(4) whether his Department plans to make the collection of data regarding the number of children with epilepsy in schools mandatory at local authority level. [199984]

Kevin Brennan: The Department for Children, Schools and Families does not collect data on epilepsy in schools and has no plans to make the collection of data regarding the number of children with epilepsy in schools mandatory at local authority level. It has also made no assessment of the impact of epilepsy on a child's learning or the need for statutory training requirements for those working with children who have epilepsy.

Schools and their employers have responsibilities towards the health and safety of all staff and pupils, and this may include making arrangements for individual pupils with medical needs, where it is reasonable to do so. There is, however, no legal duty on school staff to manage a pupil's medicine or support a child's medical need. However, our guidance 'Managing Medicines in Schools and Early Years Settings' issued by this Department jointly with the Department of Health, encourages schools and local authorities to develop local policies on the management of pupils' medicines and on supporting pupils with medical needs, taking account of local resources and their various responsibilities. It specifically addresses what schools can do to help children with epilepsy and other medical conditions. We also produced sister guidance entitled 'Including me: managing complex health needs in schools and early years settings,' both were published in 2005.

An individual health care plan can help staff identify the necessary safety measures to support children with medical needs and may reveal the need for staff to have further information about a medical condition or specific training. The employer should arrange appropriate training in collaboration with local health services.

Mr. Truswell: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of children with epilepsy who have special educational needs; and if his Department will consider recognising epilepsy as a condition that may cause special educational needs. [199982]

Kevin Brennan: Children have special educational needs (SEN) if they have a learning difficulty which calls for special educational provision to be made for them. Epilepsy is a medical condition which may be a cause of, or exist alongside, a learning difficulty necessitating special educational provision. In these cases, we would expect schools and local authorities to identify the need and make appropriate provision.

The Department does not collect information on the number of pupils with SEN who also have epilepsy.

Schools: Playgrounds

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what funding his Department provided to the School Playgrounds Scheme in each of the last five years; and what plans he has further to fund the scheme in the next three years. [191393]

Kevin Brennan: The Department has supported Sporting Playgrounds, a primary playground development scheme, since 2001. The scheme refurbishes existing primary school playgrounds to enhance opportunities for sporting activity. Over 600 primary school playgrounds have been developed since the programme began. Funding has been in four phases, as follows:

	Funding (£)
2001 to 2004	310,000
2003 to 2005	10,000,000
2005-06	2,000,000
2007-08	75,000

There are no plans to fund the Sporting Playgrounds programme over the next three years.

As part of the biggest ever investment in play, £225 million has been made available through the Children's plan to build and improve public play areas nationally over the next three years. Investment in school playgrounds is also part of schools capital funding, where £21.9 billion has been allocated over the next three years, including to the Building Schools for the Future and Primary Capital programmes. Further, almost £1 billion a year goes to schools directly for them to use for their own priorities, including their grounds and playgrounds.

Written Answers to Questions

Wednesday 23 April 2008

PRIME MINISTER

Downing Street Political Office

Mr. Maude: To ask the Prime Minister pursuant to the answer of 3 December 2007, *Official Report*, columns 848-9W, on the Downing Street Political Office, when the post of Administrator of the Downing Street Political Office was established. [198094]

The Prime Minister: I have nothing further to add to the answer I gave the hon. Member on 3 December 2007, *Official Report*, columns 848-9W.

History: Publications

Mr. Keith Simpson: To ask the Prime Minister how many Government-sponsored, official histories are in preparation; when each was commissioned; who the authors are; what the estimated date of completion is in each case; what the estimated cost in each case is; and which official histories commissioned have not been published. [199532]

The Prime Minister *[holding answer 21 April 2008]:* I refer the hon. Member to the answer given by my predecessor (the right hon. Tony Blair) on 28 February 2005, *Official Report*, columns 918-19W.

Additional information is set out as follows:

The following official histories have been published:

Churchill's Man of Mystery: Desmond Morton and the World of Intelligence by Gill Bennett (published, 2006);

The Channel Tunnel by Dr. Terry Gourvish (published, 2006);

The Falkland's Campaign (Volumes 1 and 2) by Professor Lawrence Freedman (first published, 2005).

The following official histories have been commissioned:

Cabinet Secretaries by Ian Beesley in 2007;

Joint Intelligence Committee by Dr. Michael Goodman in 2007;

UK Accession to the EEC, Volume 2 by Sir Stephen Wall in 2007;

SOE in Italy, Volume 2 by, Professor David Stafford in 2005

In the financial year 2006-07, the latest year for which accounts have been published, the net cost was £176,000. This includes fees and expenses of historian and research assistants and costs associated with publication, but excludes staff costs of Cabinet Office administrative support and accommodation-related overheads. This cost is borne on the Cabinet Office vote.

Mobile Phones

Mr. Gauke: To ask the Prime Minister how many mobile telephones he has been provided with since becoming Prime Minister. [200805]

The Prime Minister: None.

SCOTLAND

Barnett Formula

7. **Mr. Dunne:** To ask the Secretary of State for Scotland what discussions he has had with the Chancellor of the Exchequer on the use to which the Barnett formula paper will be put. [199796]

Des Browne: I meet my right hon. Friend regularly to discuss a range of issues. The aim of the Treasury's forthcoming factual Barnett Formula paper is to better inform the debate.

Andrew Selous: To ask the Secretary of State for Scotland what discussions he has had with the Chancellor of the Exchequer on the use of the Barnett formula paper. [199793]

David Cairns: I meet my right hon. Friend regularly to discuss a range of issues. The aim of the Treasury's forthcoming factual Barnett formula paper is to better inform the debate.

Gas Production

8. **Sir Robert Smith:** To ask the Secretary of State for Scotland what discussions he has had with the Chancellor of the Exchequer on policy to encourage new gas production in the West of Shetland area. [199797]

David Cairns: The Government are committed to providing regulatory and fiscal regimes that will deliver the best future for the UKCS including the area west of Shetland. This includes a joint Government/industry task force to determine whether there is a collective solution to the development of the resource base west of Shetland.

Nuclear Power

9. **John Robertson:** To ask the Secretary of State for Scotland what discussions he has had with the First Minister on the contribution made by nuclear power to Scotland's energy needs. [199798]

David Cairns: I have had no such discussions with the First Minister. The Government firmly believe that nuclear energy will be an essential component in a low carbon energy future and should have an important role in Scotland's future electricity mix.

Gross Domestic Product

10. **Mr. Hood** To ask the Secretary of State for Scotland what assessment he has made of the most recent gross domestic product growth figures for Scotland; and if he will make a statement. [199799]

Des Browne: The most recent Scottish GDP figures, covering the year to 2007 Quarter 4, show annual economic growth of 2.2 per cent. This is above the long-run trend rate of growth, which is 1.9 per cent.

International Development

11. **James Duddridge:** To ask the Secretary of State for Scotland what discussions he has had with the First Minister on the co-ordination of international development work by the Scottish Executive and the Department for International Development. [199800]

Des Browne: No such discussion have taken place. Department for International Development officials maintain contact with their Scottish Executive counterparts, to ensure international development policies remain complementary to the UK Government's overall objectives.

We are aware that the Scottish Executive has recently consulted on the focus of their policies in this area, and we will consider the future outcome of this exercise.

Subsea Oil and Gas

12. **Mr. Doran:** To ask the Secretary of State for Scotland what estimate he has made of the value of the sub-sea oil and gas sector in the North Sea to the Scottish economy. [199801]

David Cairns: In 2007, 42,000 people were employed in the subsea sector across the UK, generating revenues in excess of $8.5 billion—up nearly 30 per cent. from 2006. Estimates for the value of the subsea sector to the Scottish Economy are not available, but Scottish subsea companies are already world leaders in technology supply and operations and are well placed to capitalise on the massive global growth in this sector expected over the next three years.

Executive Grant

13. **Jim Sheridan:** To ask the Secretary of State for Scotland what estimate he has made of the likely change to the grant to the Scottish Executive in the next Comprehensive Spending Review period. [199802]

Des Browne: In each successive year of the current spending review period the Scottish Executive will receive a record amount of money, and by 2011 will be in receipt of double the amount available to Donald Dewar in the first years of devolution. This level of public spending across the UK has been made possible by a decade of economic growth and stability delivered by this Government.

National Minimum Wage

14. **Mr. McGovern:** To ask the Secretary of State for Scotland what recent discussions he has had with Ministerial colleagues on the effects on people in Scotland of the national minimum wage. [199803]

David Cairns: My right hon. Friend the Secretary of State for Scotland has regular meetings with ministerial colleagues where a number of issues are discussed.

87,000 people in Scotland will benefit from the annual increase to the national minimum wage that will come into force in October. We are very proud of the national minimum wage, and that it is a vital employment right that continues to make a tangible difference to the lives of many working Scots.

INTERNATIONAL DEVELOPMENT

Departmental Publications

Mr. Andrew Mitchell: To ask the Secretary of State for International Development pursuant to the Answer of 1 April 2008, *Official Report*, column 737W, on departmental publications, if he will place in the Library a copy of section 1(c) on allowances and section 1(g) on working overseas of his Department's web-based human resources information system. [199681]

Mr. Douglas Alexander: I have arranged to place in the Library copies of section 1(c) on allowances and section 1(g) on working overseas of the Department for International Development's web-based human resources information system, Peoplesight.

Developing Countries: Economic Growth

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps the Government have taken in the last year to assist developing countries to *(a)* manage economic growth and *(b)* deal with changes as a result of growth. [199407]

Gillian Merron: The information requested is as follows:

(a) The UK Government have committed £37 million over the next three years to establish an International Growth Centre. The centre will bring world-class experts to developing countries to help them put in place policies that support growth and undertake research on new challenges to growth—for example, on low carbon growth. We also work directly with partner countries to develop prioritised growth strategies that fit their own circumstances. The Department for International Development is also working to promote trade policies that help developing countries trade and will spend £409 million ($750 million) a year on aid for trade up to 2010 to build infrastructure and trade capacity in developing countries.

(b) DFID supports developing countries, as appropriate to each country, to identify and manage the consequences of growth to ensure that growth can be sustained in the long-run, the vulnerable are protected and that economic growth lifts as many people out of poverty as possible.

NORTHERN IRELAND

Departmental Pay

Mr. Hands: To ask the Secretary of State for Northern Ireland pursuant to the answer of 1 April 2008, *Official Report*, columns 734-35W, in what capacity each of the temporary staff referred to in the table was employed, broken down by hourly rate of pay. [199665]

Mr. Woodward: The following tables set out the equivalent grade of each of the temporary staff. The grades shown are NIO grades, with the equivalent civil service grades shown in brackets.

March 2007

Hourly rate of pay	*Capacity*
17.26	Grade A (Grade 7)
15.82	Grade Bl (SEO)

March 2007

Hourly rate of pay	*Capacity*
13.72	Grade B2 (HEO)
11.48	Grade B2 (HEO)
11.32	Grade C (EO)
9.38	Grade C (EO)
7.88	Grade C (EO)
5.51	Grade D2 (AA)

February 2008

Hourly rate of pay	*Capacity*
18.25	Grade A (Grade 7)
17.79	Grade A (Grade 7)
16.25	Grade B1 (SEO)
14.02	Grade B2 (HEO)
11.87	Grade B2 (HEO)
11.75	Grade C (EO)
11.60	Grade B2 (HEO)
8.23	Grade C (EO)
5.78	Grade D2 (AA)

Disabled

Mr. MacNeil: To ask the Secretary of State for Northern Ireland what targets his Department has set in relation to its employment of people with disabilities over the next five years. [199050]

Mr. Woodward: The 10-Point Plan for a Diverse Civil Service, published in November 2005, by the Cabinet Office set a target that 3.2 per cent. of senior civil service (SCS) posts are to be filled by people with disabilities by April 2008. Progress against these targets is available on the civil service website at:

http://www.civilservice.gov.uk/about/diversity/monitoring.asp

Final measurements of achievement will be available by October 2008.

Departments were encouraged to set their own targets and the Northern Ireland Office (NIO) Diversity Delivery Plan for 2007-08 and 2008-09 sets out the following challenging targets in this respect:

	Target (percentage)
Within the senior civil service grades	7.0
Within senior civil service feeder grades	3.2

The NIO is currently working with Cabinet Office colleagues in preparing a future diversity strategy to build on the achievements and lessons learned from the 10-Point Plan.

IRA

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will hold discussions with the leaders of Sinn Fein following the forthcoming independent monitoring commission report on the timing of an announcement by the Army Council of the Provisional IRA that it is to cease to exist. [199261]

Mr. Woodward: I will continue to have discussions with representatives of Sinn Fein about a wide range of subjects. I believe that all paramilitary structures from Northern Ireland's past have no place in the future of Northern Ireland.

WOMEN AND EQUALITY

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Minister for Women and Equalities whether any of the Government Equalities Office's special advisers have outside appointments. [185340]

Barbara Follett: Special advisers are appointed under terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

The special adviser to the Minister for Women and Equalities does not have any outside appointments.

WALES

Electronic Government

Mr. Weir: To ask the Secretary of State for Wales whether mechanisms are in place to monitor the extent to which his Department's *(a)* internal and *(b)* external (i) correspondence and (ii) distribution of publications is carried out electronically. [199200]

Mr. Paul Murphy: My Department's systems are set up to receive and respond to external correspondence electronically sent to our central email address.

Our electronic records management system provides the archive of all correspondence to and from the office, whether originally in electronic or physical form. It reports correspondence by total and category, and does not analyse the percentage received or despatched in electronic or paper form.

Our departmental report is published in physical form, through the stationery office, as have been certain other major documents such as in 2005 the Government of Wales Bill, with its explanatory notes, and the like. All publications are posted to the Wales Office website. We have mechanisms now to monitor the number of publication pages viewed.

HOUSE OF COMMONS COMMISSION

Cromwell Green Entrance

Mr. Clifton-Brown: To ask the hon. Member for North Devon, representing the House of Commons Commission when the Commission's review of lessons learned from the Visitor Reception Building project will be completed; and whether it will be published. [200626]

Nick Harvey: The review of lessons learned from the Visitor Reception Building project is expected to be completed by the summer. The main findings will be published in due course.

Mr. Clifton-Brown: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer to the hon. Member for Southend, West (Mr. Amess) of 12 December 2007, *Official Report*, columns 246-7W, who was appointed as recovery project manager. [200774]

Nick Harvey: Mr. Roy Davis of Roy Davis Associates was appointed recovery project manager for the Visitor Reception Building project.

Drinking Water

Mr. Spellar: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer to the hon. Member for Lewes (Norman Baker) of 31 March 2008, *Official Report*, column 456W, on drinking water, when the House of Commons Commission expects the Administration Committee to reach a conclusion on the policy of the provision of drinking water in meetings. [200796]

Nick Harvey: I am informed that the Committee considered an update on provision of water in committee rooms at its meeting on 1 April, and agreed not to recommend any change to the current arrangements.

Meat

Mr. Spellar: To ask the hon. Member for North Devon, representing the House of Commons Commission whether the Refreshment Department purchases its *(a)* pork and *(b)* bacon from British sources. [200633]

Nick Harvey: In purchasing meat for use by its catering service, the House of Commons places high importance on animal welfare standards and requires full traceability, generally by ensuring that sources are approved under a recognised farm assurance scheme. All fresh pork, bacon and pork sausages are purchased from British sources. Currently, all fresh pork meat is supplied from free-range pigs reared and slaughtered in West Sussex; bacon is cured in East Anglia from animals reared and slaughtered in Norfolk; sausages are made from free range pork reared and slaughtered in North Yorkshire.

CULTURE, MEDIA AND SPORT

Broadcasting: Standards

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what his timetable is for the implementation of the transmission standard DVB-T2. [201370]

Andy Burnham: The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator for the communications sector. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Departmental Public Expenditure

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much funding was provided to *(a)* museums, galleries and libraries, *(b)* the arts, *(c)* sport and *(d)* heritage from (i) the public purse and (ii) lottery funding in each year since 1997, expressed in 2007-08 prices. [197047]

Mr. Sutcliffe: The figures requested are given in the following tables.

Museums, galleries and libraries funding at 2006-07 prices

£ million

Financial year	Museums, galleries and libraries funded through DCMS	Museums, galleries and libraries HLF
1997-98	401.4	160.5
1998-99	363.2	175.3
1999-2000	391.0	107.7
2000-01	391.5	106.3
2001-02	414.9	119.4
2002-03	431.2	118.3
2003-04	440.4	112.9
2004-05	442.4	157.4
2005-06	468.2	116.0
2006-07	489.2	83.1
2007-08[1]	526.3	[2]

[1] Plans
[2] Figures not yet available
Note:
DCMS funded data extracted from the audited, published, Appropriation Accounts and Resource Accounts

The figures in the 'Museum, galleries and libraries funded through DCMS' column represents grant in aid funding of the 22 DCMS sponsored museums, the British Library and Public Lending Right and the Museums, Libraries and Archives Council; in addition to the six independent bodies receiving grants. All figures are adjusted to 2006-07 prices and include both resource and capital spending.

The information in the lottery column represents the value of awards by the Heritage Lottery Fund to museums, galleries and libraries. This information has been supplied directly by the Heritage Lottery Fund and are not comparable to lottery figures for arts and sport which are drawn down from the National Lottery Distribution Fund. The figures are for the UK as a whole and are adjusted for 2006-07 prices.

Arts funding for England in 2006-07 prices

£ million

Financial year	Arts funded through DCMS	Lottery drawdown
1997-98	244.4	393.2
1998-99	242.4	388.3
1999-2000	273.3	248.6
2000-01	280.1	256.9
2001-02	289.7	249.7
2002-03	334.8	198.8
2003-04	396.8	197.5
2004-05	418.2	231.1
2005-06	422.4	197.5
2006-07	431.2	147.0
2007-08	412.9	[1]

[1] Figures not yet available
Note:
DCMS funded data extracted from the audited, published, Appropriation Accounts and Resource Accounts

The figures in the 'Arts funded through DCMS' column represent grant in aid to the Arts Council England and central departmental expenditure on the arts, adjusted for 20067-07 prices. They include spending under the Capital Modernisation Fund which represents £78.5 million (in cash terms) between 2002-03 and 2004-05.

The lottery data represent funding drawdown by the Arts Council for England only.

Sport funding for England on 2006-07 prices

£ million

Financial year	Sport funded through DCMS	Lottery drawdown
1997-98	62.4	190.2
1998-99	59.9	433.4
1999-2000	61.4	298.2
2000-01	61.7	271.6
2001-02	73.1	340.8
2002-03	148.0	342.1
2003-04	134.8	256.3
2004-05	230.6	179.3
2005-06	280.3	207.9
2006-07	378.0	121.4
2007-08[1]	399.3	[2]

[1] To date.
[2] Figures not yet available.
Note:
DCMS funded data extracted from the audited, published, Appropriation Accounts and Resource Accounts.

The figures in the 'Sport funded through DCMS' column represent DCMS grant in aid to Sport England, UK Sport and the Football Licensing Authority, and central departmental expenditure on Sports adjusted for 2006-07 prices. They include grants for School Sport from the Department for Children, Schools and Families which represents an additional £797.1 million (in cash terms) between 2002-03 and 2007-08.

The figures in the lottery column represent the value of grants awarded in England by Sport England only. These are derived from the Department's lottery grant database which uses information supplied by the lottery distributors.

They do not include the value of grants by the big lottery fund and its predecessor the new opportunities fund, under various sport related funding programmes.

Heritage public expenditure for England

£ million

Financial year	Heritage funded through DCMS	Heritage lottery drawdown
1997-98	226.9	165.8
1998-99	204.9	237.6
1999-2000	203.6	329.7
2000-01	205.5	339.8
2001-02	210.2	300.2
2002-03	199.0	294.1
2003-04	202.8	349.5
2004-05	205.5	323.8
2005-06	201.7	385.0
2006-07	208.0	367.2
2007-08[1]	213.3	[2]

[1] To date.
[2] Figures not yet available.
Note:
DCMS funded data extracted from the audited, published, Appropriation Accounts and Resource Accounts

The figures in the 'Heritage funded through DCMS' column include grant in aid to English Heritage, the National Heritage Memorial Fund, the Commission for Architecture and the Built Environment, the Churches Conservation Trust and the Occupied Royal Palaces, together with central department expenditure on the Listed Places of Worship Grant scheme, Memorial Grant scheme, Royal Parks, Royal Household property Services, Chatham Historic Dockyard Trust, Greenwich Foundation, Historic Royal Palaces and Theatres Trust.

The figures in the lottery column represent the value of grants awarded in England by the Heritage Lottery Fund which is a UK wide distributor, so the figures are not for England only.

All figures are adjusted to 2006-07 prices using information in the GDP deflator tables provided by the Office for National Statistics and available from the Treasury website:

www.hm-treasury.gov.uk

I have been advised that updated tables to adjust figures to 2007-08 prices will be available toward the end of the summer.

Journalism: Regulation

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what his policy is on the harmonisation of regulations affecting newspaper and broadcast reporting; and if he will make a statement. [201373]

Andy Burnham: News and current affairs regulation in broadcasting is covered by the statutory Ofcom Broadcasting Code and the BBC Editorial Guidelines.

There are no statutory regulations affecting newspaper reporting. The press is self-regulating through the Press Complaints Commission (PCC). The PCC and the broadcasting regulators do seek to work together where appropriate. An example of this is the agreement in 2004 between Ofcom and the PCC to support a voluntary ban of "media scrums", when media representatives congregate in large numbers to cover a news story.

At present the Government have no plans for the harmonisation of regulations affecting newspaper and broadcast reporting.

TRANSPORT

Biofuels: Standards

Lynne Jones: To ask the Secretary of State for Transport when she plans to introduce mandatory minimum standards for biofuels used to comply with the renewable transport fuel obligations; and if she will make a statement. [200775]

Jim Fitzpatrick: The Government announced in June 2007 that they aimed by April 2011 to introduce mandatory sustainability standards for all biofuels used under the Renewable Transport Fuel Obligation (RTFO), provided, among other things, that this was consistent with European Union legislation.

In January 2008, the European Commission issued a draft Renewable Energy Directive which includes proposed mandatory sustainability standards for all

biofuels supported by EU member states. As currently drafted, the Directive would not allow member states to introduce any additional or different sustainability requirements on the biofuels they supported. The UK is therefore negotiating to ensure that the Directive's sustainability requirements are as robust and comprehensive as possible.

The draft Directive currently includes a proposed implementation date of 31 March 2010.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Transport how many of her Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198974]

Jim Fitzpatrick: The detailed information requested can be provided only at disproportionate cost. However, the following table demonstrates the number of occurrences of staff taking stress-related leave in each of the last five years:

	Number
2003	113
2004	168
2005	196
2006	190
2007	240

This table excludes DVLA and VOSA statistics as they could provide these data only at disproportionate cost.

Karian and Box

Mr. Hands: To ask the Secretary of State for Transport what the value was of each contract awarded by her Department and its predecessors to Karian and Box since 1997. [199642]

Jim Fitzpatrick: The Department was formed in May 2002. Since this date the Department has not awarded any contracts to Karian and Box.

M25: M3

Mr. Wilshire: To ask the Secretary of State for Transport when the experiment with revised lane arrangements at the junction between the M25 and the M3 is expected to end; what timetable she has for making decisions on permanent lane arrangements in the light of the experiment; when works required for permanent lane arrangements will be completed; and what plans she has to terminate the temporary speed restrictions in place at the junction. [200844]

Mr. Tom Harris: The trial has shown a significant journey time reliability improvement and an independent survey undertaken in 2007-08 shows support from those who travel through the junction. The Highways Agency has secured funding to deliver the scheme during this financial year and its current intention is for the works to take place between January and March 2009.

However, the final decision about making the trial permanent including the implementation of the 50 mph speed limit will be subject to a statutory consultation expected to take place over a 12 week period this summer. A final decision will be taken at the end of that process.

Railways: Expenditure

Mr. Graham Stuart: To ask the Secretary of State for Transport how much was spent on *(a)* road and *(b)* rail improvement projects in each Government region in each of the last five years; and if she will make a statement. [192434]

Ms Rosie Winterton: Figures for departmental expenditure on national roads and railways by (Government office) region are available in Public Expenditure Statistical Analyses, published by HM Treasury. PESA 2007, the latest available edition, gives spend figures for 2005-06 in table 9.19. Total figures for improvement projects are not available separately.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Audio Equipment: Licensing

Peter Luff: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make it his policy to introduce a system for the licensing of new wireless microphones and in-ear monitor equipment when it is purchased; and if he will make a statement. [193913]

Malcolm Wicks: I am aware of the concerns of the Programme Making and Special Events (PMSE) community in respect of their use of spectrum and possible issues of interference. However the proposal that equipment be licensed at the point of purchase is not being considered at present. There is a strong possibility that this would impose burdens on vendors and others that are not proportionate to the scale of the problem at present. The Office of Communications (Ofcom) continue to consult on their proposals in respect of PMSE and I would encourage the PMSE community to respond to those consultations to express their concerns. I have asked my officials to discuss this matter further with Ofcom in the light of any submission made.

Departmental Information and Communications Technology

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Answer of 27 March 2008, *Official Report*, column 328W, on departmental ICT, what categories of data were stored on each missing or stolen laptop; and what level of encryption or security was in place on each laptop. [198281]

Mr. Thomas: The information requested was not collected or recorded at the time of the loss or theft. As a result of the Government's Review of Data Handling this information will be recorded in the future.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's expenditure on *(a)* salaries for those in permanent civil service posts, *(b)* salaries for those in permanent non-civil service posts and *(c)* payments to temporary and agency workers was in each month since May 2005. [199458]

Mr. Thomas: The Department's expenditure on salaries for those in permanent civil service posts, salaries for those in permanent non-civil service posts and payments to temporary and agency workers in each month since May 2005 is as follows:

All figures in £000

Wages and Salaries	*April 2005*	*May 2005*	*June 2005*	*July 2005*	*August 2005*	*September 2005*
Salaries—Permanent	9,397	9,406	9,403	9,928	10,153	10,677
Salaries—Secondees	-18	28	38	16	20	20
Salaries—Casuals	40	38	34	39	50	41

Energy: Finance

Mr. Ingram: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 27 March 2008, *Official Report*, column 334W, on renewable energy: finance, whether his Department has received any transfer of funds from the fossil fuel levy since 2004; and if he will make a statement. [199308]

Malcolm Wicks *[holding answer 21 April 2008]:* The Department has not received any transfer of funds from the Fossil Fuel Levy, or the Fossil Fuel Levy account other than that referred to in my previous answer.

Fuel Poverty

Mark Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effects of the cost of *(a)* heating oil and *(b)* other fuels on levels of fuel poverty; and if he will make a statement. [200270]

Malcolm Wicks: Fuel poverty is caused by the interaction of a number of factors with the energy efficiency status of the property, the cost of energy and the household income are three of the most prominent. The impact of these three factors are shown within "The UK Fuel Poverty Strategy; 5th Annual Progress Report 2007" (available online at http://www.berr.gov.uk/files/file42720.pdf).

Official fuel poverty figures take into account these factors including the cost of the main heating fuel, the type of heating system and the occupancy of the household. Comparison of the costs to heat a property used in the modelling of fuel poverty are sourced from the Sutherland Comparative Domestic Heating Cost tables, available under copyright through http://www.sutherlandtables.co.uk/. However, the effect of separate fuels' prices is not available.

Solar Energy

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress his Department is making towards the Government's goal of catching up with solar photovoltaic programmes in Japan and Germany; and if he will make a statement. [199379]

Malcolm Wicks: Japan and Germany have significantly larger solar photovoltaic markets than the UK. This Department has spent over £35 million to support solar photovoltaic installations and field trials since 2000. Currently the solar photovoltaic market benefits, with other micro-generation technologies, from the £86 million Low Carbon Buildings programme.

More information on photovoltaic developments in the UK in comparison to Japan and Germany are available on the International Energy Agency website:

http://www.iea-pvps.org

Video Games

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* UK-owned and *(b)* non-UK owned video games development companies were based in the UK in each year since 1997. [196878]

Malcolm Wicks: Data on the video and computer games sector are not regularly collated or in fact readily available to the Department for Business, Enterprise and Regulatory Reform, particularly as the sector has not had its own separate Standard Industrial Classification (SIC) code. A new SIC code for computer games has now been agreed though it will not be possible for this to deliver data until 2010 at the earliest.

However in 2002 the Department of Trade and Industry published "From Exuberant Youth to Sustainable Maturity", a full competitiveness analysis of the computer

games sector commissioned from independent consultants, Spectrum Strategy. This report showed that in 2000 there were approximately 270 games development companies in the UK, the vast majority independent (and indigenous) studios with fewer than 22 employees. Four overseas-owned companies with games studios in the UK were identified in the report.

In October 2007 UKTI published "Playing for Keeps", a report commissioned from independent consultants Games Investor which included a range of valuable new data on the competitiveness of the UK games development sector compared to key competitor territories including the US and Canada. This report showed that in 2006 there were 160 independent (indigenous) games development companies in the UK. The report also identified two UK-owned games publishers which have one or more games development studios here. However, the number of games development studios in the UK owned by overseas companies was not specified.

DUCHY OF LANCASTER

Working Hours

Mrs. Maria Miller: To ask the Chancellor of the Duchy of Lancaster what the average number of hours worked by *(a)* full-time and *(b)* part-time employees per week was in the latest period for which figures are available, broken down by region. [200580]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 22 April 2008:

As National Statistician, I have been asked to reply to your parliamentary question about the average number of hours worked by *(a)* full-time and *(b)* part-time employees per week, in the latest period for which figures are available, broken down by region. (200580)

The attached table gives the average number of hours worked per week for the categories requested for the three month period ending December 2007, broken down by Government Office Region.

Each quarter ONS publishes regional estimates of the average actual weekly hours of work for all people in employment in main and second jobs. Please visit the following link:

http://www.statistics.gov.uk/onlineproducts/lms_regional.asp

It should be noted that the estimates provided in the attached table are grossed using population estimates consistent with those published in 2003. We are in the process of concluding the reweighting of the Labour Force Survey (LFS) according to the latest population estimates. Reweighted data using 2007 population estimates will become publicly available on 14 May 2008.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Average hours worked per week[1] by Government Office Region: three month period ending December 2007, United Kingdom, not seasonally adjusted

	Hours per week		
	All employees[2]	*Full-time employees*	*Part-time employees*
North East	32	38	17
North West	33	38	17
Yorkshire and Humberside	32	38	17
East Midlands	33	39	18
West Midlands	33	38	17
East	33	39	17
London	34	39	17
South East	39	38	17
South West	32	38	17
Wales	32	38	17
Scotland	32	37	18
Northern Ireland	33	38	18
UK	33	38	17

[1] Average actual hours worked per week in main and second job, including paid and unpaid overtime.
[2] Includes those who did not state whether they work full or part-time. The estimates are grossed using population estimates consistent with those published in spring 2003.

ONS Labour Force Survey.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196943]

Jonathan Shaw: There is no information held centrally that indicates the total number of events held by the Department at which *(a)* wine and *(b)* Fairtrade wine were served in the last three years. The information could be provided only at disproportionate cost.

There are no mandatory requirements in place for the procurement/provision of Fairtrade products by Government Departments, but the Government are committed to improving market access to producers in developing countries through increased participation in fair and sustainable supply chains. Fairtrade products can be supplied to Government Departments consistent with value for money principles and the EU public procurement rules.

Departmental ICT

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has given advice to staff in his Department to switch off personal computers when not in use. [200052]

Jonathan Shaw: DEFRA places a high importance on IT energy efficiency measures and seeks to make savings wherever possible.

(a) Instructions to staff have been provided in a number of ways. As part of our 'big switch' energy efficiency campaign at the start of 2006, we combined online and poster messaging to inform and change staff behaviour to make sure all computers and other electrical equipment is switched off. Seasonal messages are broadcast on DEFRA's intranet to ensure staff turn off equipment over holiday periods. Information and instructions on energy saving measures appear on DEFRA's intranet and stickers are placed on computer screens reminding staff to switch off their monitors. There are also

checks carried out by Security Guards on the London estate on their normal night time patrols who switch off machines if found to be powered up without explanation.

(b) DEFRA is currently undertaking trials of timer switches on power sockets for printers and copiers. It is also preparing to roll-out a Vista based desktop environment within which it will deploy Vista's inbuilt group policy options to enforce a default switch to the Vista 'hibernate' and 'sleep' modes after a pre-set elapsed time of inactivity.

We are also ensuring in the same settings that monitors are similarly switched back to their standby power saving mode.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 28 February 2008, *Official Report*, column 1855W on departmental ICT, to the hon. Member for Northavon (Steve Webb), what estimate he has made of the volume of carbon dioxide emissions his Department saved as a result of the "big switch" energy efficiency campaign in *(a)* 2005, *(b)* 2006 and *(c)* 2007. [200046]

Jonathan Shaw *[holding answer 21 April 2008]:* DEFRA's Sustainable Development Unit organised the "big switch" campaign which ran from January to March 2006. The event aimed to change behaviours in staff by highlighting where we could all save energy. Although it is not possible to measure the precise behaviour change impact of the "big' switch" campaign, an estimated 392 tonnes of CO_2 was saved in the London and York buildings comparing the same period for 2005 to 2006.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what criminal offences have been abolished by primary legislation sponsored by his Department and its predecessors since May 1997. [198292]

Jonathan Shaw: This information is not held centrally and could be provided only at disproportionate cost. However no DEFRA sponsored primary legislation has received Royal Assent in 2007 or until now in 2008, and hence no offences have been abolished by DEFRA sponsored primary legislation during this period.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198312]

Jonathan Shaw: No DEFRA sponsored primary legislation has received Royal Assent since 1 July 2007, and hence no offences have been created by DEFRA sponsored primary legislation since that date.

Departmental Official Cars

Mr. Kemp: To ask the Secretary of State for Environment, Food and Rural Affairs what make and model of car *(a)* he and *(b)* each Minister in his Department selected as their official ministerial car; and what criteria were applied when making the decision in each case. [192377]

Jonathan Shaw: I refer my hon. Friend to the reply given to him by the Under-Secretary of State for Transport my hon. Friend the Member for Poplar and Canning Town (Jim Fitzpatrick) on 10 March 2008, *Official Report*, column 8.

Departmental Property

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer to the hon. Member for Angus of 19 March 2008, *Official Report*, columns 1124-26W, on departmental property, from which location the 42 inch plasma screen television went missing in 2004-05; and whether it was lost or stolen. [198091]

Jonathan Shaw: The plasma screen television was taken from Nobel House, DEFRA's offices in Smith Square. It is believed to have been stolen. The matter was reported to the police.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199617]

Jonathan Shaw: From information held centrally, the core Department's financial systems record no payments made to JP Morgan since DEFRA came into being in June 2001.

Karian and Box

Mr. Hands: To ask the Secretary of State for Environment, Food and Rural Affairs what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199647]

Jonathan Shaw: DEFRA came into being in June 2001. The core Department has no record of any contracts awarded to Karian and Box.

Natural England: Sites of Special Scientific Interest

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to publish the model byelaw to enable Natural England to use its powers under section 28R of the Wildlife and Countryside Act 1981, as amended by the Natural Environment and Rural Communities Act 2006, in respect of sites of special scientific interest. [200392]

Joan Ruddock: We have no immediate plans to draw up model byelaws for use in these circumstances. The provision for SSSI byelaws was introduced by the Countryside and Rights of Way Act 2000. Since then, the SSSI regime has been further strengthened by the Natural Environment and Rural Communities Act 2006 which introduced an additional third party offence under section 28P. Natural England is using this mechanism, as a method of dealing with damaging third party activity in SSSIs.

Television

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 6 March 2008, *Official Report*, column 2727W, on television, what the cost was of the four plasma television screens purchased. [198098]

Jonathan Shaw: The cost of the four plasma television screens purchased was £3,000.

Temporary Employment

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many agency staff are currently employed by *(a)* his Department, *(b)* the Environment Agency and *(c)* his Department's other agencies. [195234]

Jonathan Shaw: Information on the numbers of employment agency staff engaged by DEFRA's executive agencies and non-departmental public bodies is not held centrally and could be provided only at disproportionate cost.

For the core Department, and from information held centrally for the period February 2007 to January 2008 inclusive, the average monthly number of employment agency staff engaged by the core Department is approximately 234.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its predecessors paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199603]

Jonathan Shaw: DEFRA came into being in June 2001. The core Department's financial systems record one payment to Zurich Insurance Company of £169.35 made in May 2002. The precise purpose of this small payment is unknown without further investigation given that it was made some six years ago and the cost of investigation would exceed the sum paid.

TREASURY

Capital Gains Tax

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer what the cost to the public purse was of *(a)* halving relief and *(b)* changing the indexation allowance for capital gains tax in the last year for which figures are available. [200408]

Jane Kennedy: Figures for the cost of halving relief for capital gains tax are not available. Latest estimates of the cost of the indexation allowance for capital gains tax to the Exchequer are published in Table A3.1 of the 2008 Financial Statement and Budget report.

Financial Inclusion Fund: Citizens Advice

Mr. Graham Stuart: To ask the Chancellor of the Exchequer what funding Citizens Advice will receive from the Financial Inclusion Fund in each of the next three years; and if he will make a statement. [199247]

Mr. Thomas: I have been asked to reply.

We have indicated that we will grant CitA £17 million, £16 million and £16.5 million in each of the next three years. This will allow it to continue to provide free-face-to-face debt advice to the financially excluded. In total, this project had helped over 90,000 clients to the end of 2007.

Members: Correspondence

Mr. Burns: To ask the Chancellor of the Exchequer when he will reply to the hon. Member for West Chelmsford's letter of 27 February 2008 concerning Mr B. Clarke of Walford Place, Chelmsford, sent to the Minister of State in the Department for Business, Enterprise and Regulatory Reform and transferred to his Department on 26 March. [200420]

Angela Eagle: I have replied to the hon. Member.

Non-Domestic Rates: Empty Property

Sammy Wilson: To ask the Chancellor of the Exchequer what assessment he has made of the likely effects of recent changes in the taxation regime affecting void properties on small investors with property in areas of low demand. [200620]

Angela Eagle: The reforms to empty property relief in national non-domestic rates in England and Wales, which came into effect on 1 April 2008, will provide a further incentive for small property investors with empty properties to be flexible around letting terms, to redevelop them or to sell them to someone who can make better use of the buildings or land.

Sammy Wilson: To ask the Chancellor of the Exchequer what consideration he has given to the introduction of rate relief in respect of empty commercial properties where properties remain unlet in areas which have experienced regeneration. [200618]

Angela Eagle: Empty property relief applies in the same way to properties in all areas of England and Wales. Unlet properties in areas which have experienced regeneration benefit from the three and six month relief periods.

Sammy Wilson: To ask the Chancellor of the Exchequer what estimate he has made of the change in revenue to the Exchequer arising from the higher rate of taxation affecting void properties in the next 12 months. [200619]

Angela Eagle: The Government estimate that the impact on tax revenue of reforms to empty property relief, which only applies in England and Wales, will be £950 million in 2008-09. This estimate was published in the 2007 and 2008 Budget reports.

Redundancy Pay: Taxation

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer how much tax was paid by individuals on severance payments received upon the termination of their employment in 2006-07. [200409]

Jane Kennedy: Information on tax paid on redundancy payments is not available.

Stamp Duty Land Tax

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer what the estimated annual cost to the public purse is of the introduction of the zero-carbon homes stamp duty land tax relief for new flats. [200410]

Angela Eagle: I refer the hon. Gentleman to the written answer I gave to the hon. Member for Putney (Justine Greening) on 21 April 2008, *Official Report*, column 1684W.

Taxation: Gambling

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer which licensed gambling activities are subject to both value added tax and gross profits tax. [200412]

Angela Eagle: Gambling products are subject to a range of different taxes. Bingo in licensed premises is subject to bingo duty at 15 per cent. on gross profits and most participation fees for such bingo are subject to VAT at the standard rate. All gambling industries are also subject to the usual taxes imposed on business. For bingo, the effective tax rate, which measures the combined impact of VAT and duty on a comparable basis, is in line with that on casinos, machines and the lottery.

Welfare Tax Credits

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer what estimate he has made of the number and percentage of cases in which inaccurate documents were deliberately submitted to HM Revenue and Customs by tax credit claimants in each year for which figures are available; and what the estimated cost to the public purse of such practices was. [200411]

Jane Kennedy: I refer the hon. Member to "Child and Working Tax Credits, Error and Fraud Statistics" available at: www.hmrc.gov.uk which include estimates of the number and costs of claims submitted fraudulently.

Estimates are not separately available for the number of these cases where inaccurate documents been provided deliberately.

DEFENCE

Armed Forces Benefits Calculator

Dr. Murrison: To ask the Secretary of State for Defence what estimate he has made of the cost of the armed forces benefits calculator; what the operating costs of the scheme are estimated to be; and if he will make a statement. [200231]

Mr. Bob Ainsworth: The contract for the armed forces benefits calculator was awarded to Methods Consulting (a registered company on the Defence Communication Services Agency's Information and Communication Services catalogue) on 10 January 2007. Throughout 2007, the calculator underwent extensive development work in close consultation with subject matter experts and the single services; this included the successful completion of a field trial involving a cross-section of ranks from each of the three services.

Methods Consulting have sub-contracted the day-to-day development and hosting of the armed forces benefits calculator to Thomsons Online Benefits, a company which specialises in the creation of employee 'reward' solutions. The total cost of the MOD's contract with Methods Consulting is estimated at £109,680, excluding VAT, which includes £20,160, less VAT, per annum for Thomsons Online Solutions to host the calculator for a two year period from 1 April 2008. Arrangements for the further development and hosting beyond April 2010 have yet to be decided.

Dr. Murrison: To ask the Secretary of State for Defence if he will place in the Library the *(a)* objectives, *(b)* evaluation and *(c)* criteria for assessment used in the preparation of the Armed Forces Benefits Calculator; what benchmarking he plans to undertake to ensure that the performance of the Armed Forces Benefits Calculator compares accurately with assessments for non-armed forces individuals; and if he will make a statement. [200232]

Mr. Bob Ainsworth: Prior to the launch of the Armed Forces Benefits Calculator, there was no mechanism in place to permit Service personnel easily to identify their total worth. The Armed Forces Pay Review Body has previously commented that Service personnel lack awareness of the total value of their armed forces remuneration package, and that more should be done to assess and communicate the value of the package. In addition, the introduction of Joint Personnel Administration has inevitably placed a greater emphasis on the need for clear and easily accessible internal communication on pay and allowances matters. Her Majesty's Treasury has also, over the years, challenged the MOD about not communicating effectively to staff the value and merits of the armed forces total reward package.

Although some progress had been made in this area (a fact sheet is available on the Defence intranet) the information is very generic, non-interactive and not particularly accessible. The vast majority of personnel, while aware of their annual salary and allowances packages, continue to view each of these elements in isolation, and many other financial benefits remain 'invisible' (such as medical/dental care, and physical education opportunities). Building on the success of the existing Armed Forces Pension Calculator, the new Benefits Calculator was thus created to provide greater clarity of the 'total reward' package incorporating basic pay, specialist pay, individual allowances, pension, and other benefits where a realistic financial value can be attributed.

The range of remuneration and allowance-based benefits included in the Armed Forces Benefits Calculator will be reviewed on a regular basis to ensure they remain relevant to comparable rates in civilian life and continue to be retention and recruitment positive. In addition,

the calculator includes other benefits (such as dental care and health and fitness facilities) which are not strictly remuneration or allowance-related but are included to convey the extent of the total benefits package available to Service personnel in return for military service, and to provide an indication of what replicating these benefits might cost in civilian life. The terms and conditions governing the use of the Armed Forces Benefits Calculator state that the Calculator is for guidance purposes only, and that it is not intended to provide formal financial advice.

Initial feedback on the operation and utility of the Armed Forces Benefits Calculator has been very positive, and at the time of writing over 14,000 calculations had been completed. The effectiveness of the Calculator will be reviewed over the coming months, including an assessment of the relative benefits of including links to other sites/pages providing information on a variety of related matters, currently including:

a. Discounts principally through the Forces Discount Brochure.

b. News/information on pay and allowances matters.

c. Financial information, particularly in support of MOD's ongoing work with the single Services to deliver the Government's National Strategy on Financial Capability, including links to the established Financial Service Authorities' "Money Made Clear" website.

Dr. Murrison: To ask the Secretary of State for Defence what methodology was used to prepare the figures underpinning the Armed Forces Benefits Calculator; and if he will make a statement. [200233]

Mr. Bob Ainsworth: The Armed Forces Benefits Calculator was developed to provide Service personnel with a quick and convenient way of working out the indicative value of their total remuneration and benefits package. The introduction of the Armed Forces Benefits Calculator has, therefore, made it easier for personnel to make a direct comparison between their current remuneration and that being offered by civilian employers—and by doing so to demonstrate the value of their benefits package as a whole. The Armed Forces Benefits Calculator has been developed also to provide potential recruits with a means of investigating the type of remuneration and benefits that might be available should they choose to join the armed forces. The Calculator uses a combination of existing pay rates and allowances details of which can be found at: http://www.mod.uk and some new values, which have been agreed with subject matter experts and the single Services. These new values are included to provide a broad indication of what some of the other benefits personnel receive in return for military service (such as dental care, and health and fitness facilities) might cost to replicate in civilian life.

Dr. Murrison: To ask the Secretary of State for Defence what courses are available as *(a)* standard learning credit and *(b)* advanced learning credit as part of the Armed Forces Benefits Calculator; and if he will make a statement. [200234]

Mr. Bob Ainsworth: The MOD promotes lifelong learning among members of the armed forces, and this is encouraged through the Learning Credits schemes. The Standard Learning Credit (SLC) scheme supplies financial support, throughout the Service person's career, for multiple, small-scale learning activities. The Enhanced Learning Credit (ELC) scheme is designed to complement the SLC scheme by providing larger scale help to personnel who qualify to pay for higher level learning at Level 3 (GCE A level and equivalent) and above. For both schemes a wide variety of vocational and academic courses may be undertaken which lead to or facilitate the award of a nationally recognised qualification as defined by the National Qualifications Framework (NQF) (England and Wales to be superseded by the Qualifications Credits Framework (QCF)), or the Scottish Credit and Qualifications Framework (SCQF). The SLC and ELC schemes aim to motivate full time members of the armed forces to pursue their personal development during their service career to the benefit of both the Service and the individual. Any unused ELC benefit, however, may be used for up to 10 years afterwards, subject to the qualifying criteria being met.

Armed Forces: Recruitment

Dr. Fox: To ask the Secretary of State for Defence how much his Department spent on promoting recruitment to the armed forces overseas in each year since 2003. [193882]

Mr. Bob Ainsworth: The armed forces do not actively recruit overseas with the exception of Gurkhas from Nepal. However, in recent years the Royal Navy and the Army have sent selection teams to some Commonwealth countries at the specific request of the government concerned, and only then when evidence suggests that there is sufficient interest amongst the local population to merit a visit. The selection teams screen out those who are not thought capable of meeting the full entry standards, to save them the cost of an abortive trip to the UK to undergo the recruitment selection process. The costs incurred as a result of the overseas selection team visits were as follows:

Financial year	£
2003-04	127,700
2004-05	125,100
2005-06	80,000
2006-07	180,000
2007-08	[1]150,000

[1] To date.

Note:
Figures rounded to nearest 100

Gurkha recruitment policy is different to that for the regular UK armed forces. Recruitment to the Brigade of Gurkhas is conducted once a year, in Nepal. A selection team travels to Nepal from the UK to assist the in-country recruiting team with the selection process. The costs incurred by the recruiting team from outside Nepal were as follows:

Financial year	£
2003-04	33,000
2004-05	33,000
2005-06	40,000
2006-07	32,800
2007-08	42,900

Note:
Figures rounded to the nearest 100.

The cost relating to the in-country recruiting team in Nepal are not readily available and I will write to the hon. Member with this information in due course.

Substantive answer from Bob Ainsworth to Liam Fox:

I undertook to write to you in answer to your Parliamentary Question on 19 March 2008, (Official Report, columns 1168-69W) about the costs relating to the in-country recruiting team in Nepal.

The costs over the last five years were:

Financial year	£
2003-04	247,900
2004-05	216,800
2005-06	243,200
2006-07	245,700
2007-08	241,200

Note:
Figures in pounds rounded to the nearest 100.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Defence what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196585]

Derek Twigg: The following information reflects contracts awarded for Management and Business Consultancy, Finance and Accountancy Consultancy, Corporate Governance and Audit Consultancy, and public-private partnership and Private Finance Initiative Consultancy support that have passed through a centralised approval process. The details do not contain contracts awarded by the MOD's trading funds or agencies or for other types of consultancy which are not held centrally.

Information in relation to contracts awarded to 'other consultancy firms' in the past 12 months is not held centrally and could be provided only at disproportionate cost.

However, summaries of MOD expenditure on External Assistance, which includes management and other types of consultancy since 1995-96 are available in the Library of the House.

The Ministry of Defence has limited internal consultancy resources, which it prioritises to support the Department's key business areas. The use of internal resources is always fully considered before engaging external consultancy assistance.

The Ministry of Defence recognises the benefits that can be gained from external consultancy assistance in driving forward its new management and business initiatives, but it is important that it is only commissioned when it can be demonstrated to be both appropriate, cost-effective and delivering value for money.

Details of contracts awarded in the last 12 months to the named companies are as follows:

Purpose	*Total contract value* (£)
KPMG	
MOD Streamlining (To design and help implement a programme to deliver the training, structural, behavioural, process and system changes required to Streamline the MOD Head Office and meet the required savings targets. In addition to this provide support to define and create a Corporate Services model for Defence)	4,000,000
Future Lynx Training Service Project Financial Services Support (To provide a synthetic training service for aircrew, ground crew and maintainers, and will include refresher and conversion to type training)	47,000
Corporate Financial Assistance Strategic Advice (External Assistance to provide a Strategic Advisory Service to the MOD's Maritime Industrial Strategy Team)	109,000
PricewaterhouseCoopers	
Independent Review into the Nuclear Weapons Capability Sustainment	515,000
External Assistance for Blueprint Consultancy (To set out the strategic direction for the People, Pay and Pensions Agency (PPPA) ensuring a programme of change that is coherent, aligned and will achieve the desired end state by the agreed timeframe)	550,000
External Consultancy assistance for high level review of proposed new rates for MOD Employers Pension Contributions Payments	17,000
Benchmarking of Human Resources Shared Services (To measure and benchmark the efficiency and effectiveness of the delivery of key Human Resources processes that are delivered through Human Resources shared services in Service Personnel and Veterans Agency (SPVA). This will allow SPVA to benchmark itself against public and private sector peers, including MOD's People, Pay and Pensions Agency (PPPA), highlighting best practice)	25,000
Ernst and Young	
No contracts awarded	
McKinsey	
No contracts awarded	
Deloitte	
Commercial Support for the Beyond Visual Range Air to Air Missile (BVRAAM) Project. (Provision of a short-term external commercial resource as part of the team to support a review of the BVRAAM Integrated Project Team)	46,000
External assistance Support to 16 Air Assault Brigade on Lean Transformation Programme—covering Support in applying the principles and techniques of Lean process design to the end to end support chain	113,000

Purpose	Total contract value (£)
Strategic Client Adviser (The Future Submarine Project Team requires impartial independent expert support in order to provide programme assurance to give confidence to the Team Leader and MOD stakeholders that the team's plans and activities make best use of the available resource)	2,000,000
Provide Independent financial review of the long term partnering agreement with BAE Systems	45,000
Independent Financial Review for future aircraft carrier (External Assistance to conduct an assessment of the Aircraft Carrier Alliance cost-model prior to the Future Aircraft Carrier (CVF) manufacture contract signature and to support to CVF Integrated Project Team and Commercial Project Enablement Team in analysis of the supporting Shipyard estimate)	550,000
Development of Flexible Resourcing Approach for Defence Equipment and Support External Assistance support to design and pilot a Flexible Resourcing approach within Defence Equipment and Support. Flexible Resourcing is an industry-tested approach for maximising the utilisation of people resource within an organisation	448,000
Enquiry by Design Event (External assistance advice for the provision of financial support in analysis of data with a view to testing the feasibility of a Defence Estates Project)	10,000
Defence Equipment and Support Director General Safety and Engineering (DGSE) PACE (Performance, Agility, Confidence, Efficiency) for Value Stream Analysis—requirement for Consultancy Support in applying the principles and techniques of lean process design to the end to end support chain	108,000
External assistance for the maritime industrial strategy corporate finance accountancy support	268,000

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Defence how many *(a)* permanent civil service posts, *(b)* permanent non-civil Service posts and *(c)* temporary or agency workers in employment there were in his Department in each month since May 2005. [199623]

Derek Twigg: The number of permanent civil service posts is not held centrally. The following tables show the number of permanent civilian personnel employed by the Department on a monthly basis since May 2005.

MOD permanent personnel—1 May 2005 to 1 March 2008

Date of strength	MOD less trading funds	Trading funds	Headcount Total
May 2005	80,240	10,720	90,960

October 2007	70,560	10,140	80,700

Date of strength	MOD less trading funds	Trading funds	Headcount Total
November 2007	70,380	10,160	80,540
December 2007	69,970	10,310	80,280
January 2008	69,450	10,280	79,730
February 2008	69,270	10,380	79,640
March 2008	69,080	10,360	79,440

1. The tables above include all non-industrial and industrial permanent staff, (casual staff are excluded).
2. Royal Fleet Auxiliary and locally engaged civilians overseas are excluded because data regarding their permanent or casual status are not centrally held.
3. The figures shown are a headcount, i.e. part-time staff are counted with equal weight to full-time staff.
4. Numbers are rounded to the nearest 10. Numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.
5. Figures are individually rounded and may not sum precisely to the totals shown.

Data for permanent non-civil service personnel and temporary or agency workers employed over the period are not centrally held on the Department's human resources management system (HRMS) and could only be produced at disproportionate cost.

Iraq: Peacekeeping Operations

Harry Cohen: To ask the Secretary of State for Defence what discussions *(a)* Ministers and *(b)* the UK's special envoy to Iraq had with representatives of the Coalition Provisional Authority (CPA) in Iraq on policy on *(a)* de-Ba'athification of Iraq and *(b)* disbandment of the Iraqi army in 2003; what representations they made to the CPA on the subjects; and what the Government's policy was on both subjects. [194407]

Des Browne: Government officials held regular discussions with coalition partners, including those in the Coalition Provisional Authority, on issues concerning the reconstruction of Iraq. As Foreign and Commonwealth Office Ministers and I have explained previously, events moved very quickly in the aftermath of the removal of Saddam Hussein and it should be remembered that by the end of initial hostilities, the Iraqi army had effectively dissolved itself. There was at the same time overwhelming popular pressure throughout Iraq for de-Ba'athification to begin, reflecting the suffering and resentment among ordinary Iraqis arising from three decades of repression by Saddam Hussein's regime. Policy and plans therefore remained fluid in light of developments on the ground.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Defence how much his Department paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199618]

Mr. Bob Ainsworth: The MOD made a payment of £41,000 to J P Morgan in 2003-04 for consultancy services associated with the implementation of an economic offset programme with a foreign government. No other payments were made centrally to the company in the years 1997-98 to 2007-08 inclusive.

We only hold centrally information on transactions made by our Financial Management Shared Service Centre, representing about 95 per cent. of all MOD payments. We have, therefore, not included payments which may have been made on behalf of other Government Departments, by the MOD's trading funds (which lie outside our accounting boundary), locally in the Department, or in support of joint venture/alliance or international collaborative projects.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Defence how much his Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199604]

Mr. Bob Ainsworth: Payments made to Zurich Financial Services by the Ministry of Defence since 1997 are shown in the following table:

Financial year	Purpose	Payment (£)
2004-05	Purchase vehicle insurance	1,092
2005-06	Purchase vehicle insurance	562

INNOVATION, UNIVERSITIES AND SKILLS

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Innovation, Universities and Skills what criminal offences have been abolished by primary legislation sponsored by his Department and its predecessors since May 1997. [198296]

Mr. Lammy: Since May 1977 within the current Department of Innovation, Universities and Skills, and the relevant policy areas within its predecessors, the Department of Trade and Industry and the Department for Education and Skills, legislation was amended in 2005 relating to one are of criminal law.

The Patents Act 1977 was amended to narrow a pre-existing criminal offence. The relevant law changed on 1 January 2005.

While further analysis might reveal additional information pertinent to the DIUS predecessors, this could be achieved only at disproportionate cost.

Departmental Pay

Dan Rogerson: To ask the Secretary of State for Innovation, Universities and Skills what the cost of *(a)* salaries for permanent Civil Service posts, *(b)* salaries for permanent non-Civil Service posts and *(c)* payments to temporary or agency workers in his Department was in each month since May 2005. [199549]

Mr. Lammy: The Department was set up on 28 June 2008. The information sought is not held centrally in the form requested and could be obtained only at disproportionate cost. However, the annual spend to 31 March 2008 for permanent civil service posts was £38.4 million, including overtime, and for temporary and agency workers it was £33,000 and £1.1 million respectively.

The Department has no permanent non-civil service posts.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many days sick leave were taken on average by staff in his Department since its establishment. [198963]

Mr. Lammy: The Department was established on 28 June 2008 as part of the Machinery of Government changes. In the period since its formation, employees of the Department have taken, on average, 9.9 days sickness absence.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress since establishment, broken down by pay grade. [198972]

Mr. Lammy: The Department was set up as part of the machinery of Government changes on 28 June 2008. Electronic records for the Department are presently maintained on two data bases in the legacy Departments from which staff were transferred when DIUS was formed. It would involve disproportionate cost to obtain the level of detail required to answer this question. However, the percentage of working days lost by the Department's staff attributed to mental health related conditions during the nine months from July 2007 to March 2009 amounted to 12 per cent. of all sickness absence.

The Department is committed to providing a safe working environment and has put in place a range of measures to support all employees on health and wellbeing issues, including the provision of professional counselling and occupational health services.

Departmental Temporary Employment

Mr. Todd: To ask the Secretary of State for Innovation, Universities and Skills how many full-time posts in his Department were filled on a temporary basis for a period in excess of six months in each year since establishment. [200665]

Mr. Lammy: The Department was set up on 28 June 2008 as part of the machinery of government changes. The information sought is not held centrally in the form requested and could be obtained only at disproportionate cost.

Higher Education

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills (1) how many and what proportion of people from each UCAS tariff band from each socio-economic group *(a)* were applicants for and *(b)* were accepted for full-time undergraduate degree courses in the last year for which information is available; [196657]

(2) how many and what proportion of applicants from each socio-economic group for full-time undergraduate courses were in each UCAS tariff band in the last year for which figures are available. [196658]

Bill Rammell: The latest available information for the 2007 year of entry from the Universities and Colleges Admissions Service (UCAS) is shown in the table. This table covers applicants and accepted applicants to all full-time undergraduate courses that are covered by UCAS broken down by tariff band and socio-economic background.

The number and proportion of applicants from each socio-economic group to full-time undergraduate courses from each UCAS tariff band can also be found in the table.

[1] Includes applicants and accepted applicants to all full-time undergraduate courses that are covered by UCAS.
[2] Applicants and accepted applicants in the tariff band of zero either had qualifications that were not covered buy the UCAS tariff or their tariff score was unknown.
Source:
Universities and Colleges Admissions Service (UCAS)

Overall, for all students from England, the UCAS figures show that, compared to 2006, applicants to full-time undergraduate courses who had been accepted for entry in 2007, rose by 6.1 per cent. to 307,000 the highest ever. Latest figures for students applying for entry in 2008, show that applicants in England are up by 7.1 per cent. compared to 2007.

Higher Education: Admissions

Jeff Ennis: To ask the Secretary of State for Innovation, Universities and Skills what information his Department holds on (*a*) the targets each member of the Russell Group of Universities has set itself for widening participation for students from poorer backgrounds in the last two years and (*b*) performance against those targets. [196284]

Bill Rammell: Information on targets for widening participation for students from poorer backgrounds for each member of the Russell Group is not available. The Department does not set targets for individual institutions and does not hold information on targets they may set themselves.

Information in the tables is taken from table T1a of the Performance Indicators in Higher Education. Figures from the academic years of 1997-98 to 2001-02 was published by the Higher Education Funding Council for England (HEFCE), and figures from the 2002-03 academic year onwards were published by the Higher Education Statistics Agency (HESA). Figures for the 2006-07 academic year will become available in June this year.

The figures in table 1 show the proportions of UK-domiciled young entrants to full-time first degree courses at Russell Group higher education institutions in the UK who were from lower social classes/lower socio-economic classes from 1997-98 to 2005-06, along with the benchmarks for each institution. In the 2002-03 academic year the National Statistics Socio-Economic Classification (NS-SEC) was first introduced. It replaced the Social Class (SC) classification, and the two classifications cannot be directly compared.

The figures in table 2 show the proportions of UK-domiciled young entrants to full-time first degree courses at Russell Group higher education institutions in the UK who were from low participation neighbourhoods from 1997-98 to 2005-06, along with the benchmarks for each institution.

For each institution, the performance indicator is shown against a benchmark. This is a sector average which is adjusted for each institution to take into account the following factors: subject of study,

qualifications on entry and age on entry. The benchmarks can be used to show how a university is performing compared to the sector as a whole, and also help to determine whether a meaningful comparison can be drawn between two or more universities. The benchmarks are not targets.

Table 1: Proportion of UK-domiciled young[1] entrants to full-time first degree courses at Russell Group institutions who were from lower social classes/lower socio-economic classes[2]

n/a = not available

[1] 'Young' refers to entrants who are under 21-years-old.

[2] Due to a change in classification, from social class to socio-economic class in 2001, figures prior to 2001 and figures from 2002 onwards cannot be directly compared.

[3] The University of Cambridge has taken the opportunity of a new student record system to review the recording of student data. This change prevented the submission of data suitable for presentation at an institutional level in the 2005-06 academic year. A full set of data will be included in this year's publication.

n/a = not available
[1] 'Young' refers to entrants who are under 21-years-old
[2] The University of Cambridge has taken the opportunity of a new student record system to review the recording of student data. This change prevented the submission of data suitable for presentation at an institutional level in the 2005-06 academic year. A full set of data will be included in this year's publication.

Higher Education: Scholarships

Linda Gilroy: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of levels of awareness of the availability of bursaries and scholarships for higher education; and if he will make a statement. [190838]

Mr. Lammy *[holding answer 29 February 2008]:* As part of the evaluation of the recent Student Finance communications campaign, we have assessed the level of awareness of bursaries among both students aged 16 to 19 and their parents.

The research data show that 38 per cent. of parents and 32 per cent. of students are aware of the availability of bursaries as a result of the campaign.

The responsibility for promoting bursaries and scholarships rests primarily with the universities and colleges who offer higher education courses.

We continue to support the work of universities and colleges through the Department's own communications activity and make efforts to raise awareness of bursaries alongside all other elements of the higher education student finance package.

More broadly, post campaign research shows that currently 81 per cent. of students and 80 per cent. of parents are now aware that there is financial support available for students.

The most recent campaign has shown a marked increase in the awareness of the specific messages relating to non-repayable maintenance grants.

The latest tracking research shows that 93 per cent. of parents and 88 per cent. of students had watched the campaign on TV. And that 99 per cent. of parents and 94 per cent. of students had seen the campaign on any of the media used. Although the campaign has non repayable grants as its focus it uses messages on all elements of the student finance package and therefore works to promote bursaries.

One of the main calls to action by the campaign is to visit the campaign website which contains the bursary map. Visitors can use this tool, which is actively updated by DIUS, to find out what bursaries are available from the HEIs they are interested in attending.

Midwifery Students

Mr. Hancock: To ask the Secretary of State for Innovation, Universities and Skills (1) how many midwifery students there were in each year since 1997; [183633]

(2) when he plans to answer Question 183633, tabled on 28 January 2008, on midwifery students. [198340]

Ann Keen: I have been asked to reply.

The number of students entering training to become a midwife is shown in the following table.

National health service midwifery training places commissioned each year

	1996-7	1999-2000	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08[1]
Degree	161	395	621	709	753	895	1,042	788	1,059
Diploma	498	620	525	724	716	744	517	648	651
Other	993	757	732	677	757	735	661	554	398
Total	1,562	1,772	1,878	2,110	2,226	2,374	2,220	1,990	2,100

[1] Actual figure will not be confirmed until May 2008 *Source:* Quarterly monitoring returns.

Students: Identity Cards

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills whether international and overseas students will have to be in possession of or use an identity card in order to access study at English higher education institutions in 2009-10 or in any subsequent years. [195306]

Mr. Byrne: I have been asked to reply.

The rollout strategy for issuing identity cards to foreign nationals is set out in "Introducing compulsory identity cards for foreign nationals", which was published on 6 March 2008. This means, that from November 2008, foreign national students, subject to immigration control, and who apply for leave to remain in the United Kingdom, will be required to apply for an identity card issued under the UK Borders Act 2007. Eventually, all foreign nationals, subject to immigration control, including students with existing leave, will be required to apply for an identity card.

The identity card will provide evidence that the holder has leave to enter or remain in the United Kingdom as a student. Foreign nationals issued with an identity card will be required to produce it when asked to provide evidence that they are entitled to study at an educational institution.

WORK AND PENSIONS

Departmental Industrial Health and Safety

Mr. Maude: To ask the Secretary of State for Work and Pensions how many reports by each *(a)* Government Department and *(b)* Executive agency of incidents were made under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 according to records held by the (i) Incident Contact Centre and (ii) Health and Safety Executive. [198074]

Mrs. McGuire: This information could be provided only at disproportionate cost.

Departmental Leaflets

Danny Alexander: To ask the Secretary of State for Work and Pensions what arrangements are made for customer testing of the public information leaflets issued by his Department; and what proposals there are for the *(a)* recording and *(b)* evaluation of such tests. [195769]

Mrs. McGuire: All 66 public information leaflets that are being produced by the Department have been tested with customers prior to publication and general release.

The results of this testing have been used to further develop the leaflets' content and, where necessary, leaflets have been rewritten and tested again in order to ensure that issues identified by customers have been addressed. The central team that has produced the leaflets maintains a record of the testing that has taken place for each leaflet and the Department has undertaken to test all its leaflets with customers in the future.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Work and Pensions how much his Department spent on publicity and advertising in 2007-08. [199035]

Mrs. McGuire: The Department for Work and Pensions spends money on a wide range of marketing and publicity goods and services which include advertising. Spend on advertising includes the development of advertising campaigns and the purchase of advertising space in regional and national newspapers, television and radio.

From April 2007 to December 2007, DWP spent £5,221,000 on all its advertising from development through to publication. This figure includes the cost of HR recruitment advertising which totalled £1,228,000.

DWP also purchases a range of marketing and publicity services which include but are not limited to: design, conferences, translation services, British Sign Language, research, digital media and PR. The overall spend for marketing and publicity services from April 2007 to December 2007 was £20,384,000.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Work and Pensions when his Department plans to publish its sustainable operations policy statement. [195882]

Mr. Plaskitt: The Department's Sustainable Development Policy Statement includes our approach to both environmental and social sustainability for DWP and is available on our internet site. Additionally, the second DWP Sustainable Development Action Plan, published in October 2007, contains future plans for the delivery of all our operational targets and is also on our internet site.

Health and Safety Executive: Pay

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people employed by the Health and Safety Executive had salaries between *(a)* £20,000 to £30,000, *(b)* £30,000 to £40,000, *(c)* £40,000 to £50,000, *(d)* £50,000 to £60,000, *(e)* £60,000 to £70,000, *(f)* £70,000 to £80,000, *(g)* £80,000 to £90,000,

(h) £90,000 to £100,000, *(i)* £100,000 to £110,000, *(j)* £110,000 to £120,000, *(k)* £120,000 to £130,000, *(l)* £130,000 to £140,000, *(m)* £140,000 to £150,000, *(n)* £150,000 to £160,000, *(o)* £160,000 to £170,000, *(p)* £170,000 to £180,000, *(q)* £180,000 to £190,000, *(r)* £190,000 to £200,000 and *(s)* over £200,000 in each of the last 30 years; and what the (i) mean and (ii) median salary of employees was in each of those years. [198498]

Mrs. McGuire: The following table shows the salaries ranges, the median and the mean information requested for HSE staff from 1999 to 2007. Information before 1999 could only be extracted at disproportionate cost.

Number

Lower-range	*Higher range*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*

Total[1]		4,122	4,072	4,262	4,336	4,043	4,096	3,993	3,883	3,655
Median[2]		22,620	23,910	23,925	25,058	27,259	27,381	28,021	30,058	31,037
Mean[2]		25,475	26,752	27,128	28,307	29,534	30,155	31,038	32,472	34,221

[1] The total figures are based on headcount. Comparison of these figures and those presented in HSC/E Annual Report are different due to the basis of collection and calculation.
[2] The median and mean calculations are based on actual salary figures.

Health and Safety Executive: Pensions

Danny Alexander: To ask the Secretary of State for Work and Pensions what the cash equivalent transfer value is of the public sector pension of the Chief Executive of the Health and Safety Executive.[1] [198499]

Mrs. McGuire: The total value of the remuneration package, including the value of the public sector pension, for the chief executive of the Health and Safety Executive is published each year, in June, in the annual accounts. In the latest published information available for 2006-07 accounting year the cash equivalent transfer value is £1,806,000.

Danny Alexander: To ask the Secretary of State for Work and Pensions what pension scheme is offered to staff joining the Health and Safety Executive; what the rate of employer contributions to the scheme is; and if he will place in the Library a copy of terms and benefits of the scheme. [198500]

Mrs. McGuire: Staff joining HSE after 30 July 2007 are offered the opportunity to join the Principal Civil Service Pension Scheme (PCSPS). Within the PCSPS there is a choice of two schemes, either the civil service nuvos pension scheme or a partnership pension where they choose a pension provider from an approved panel.

The majority of people choose to join the nuvos scheme and the employer contributions from 1 April 2008 are:

Band	*Salary (£)*	*Rates from 1 April 2008 (percentage)*
1	19,500 and under	17.1
2	19,501 to 40,500	19.5
3	40,501 to 69,000	23.2
4	69,001 and over	25.5

If they choose a partnership pension the employer contributions are:

A percentage of pensionable earnings which varies according to the employee's age as at the beginning of the tax year (that is, as at the last 6 April) and so it may increase in the future.

Employer contributions

Age at the last 6 April	*Percentage of pensionable earnings*
Under 21	3
21 to 25	4.5
26 to 30	6.5

1. *[Official Report, 17 June 2008, Vol. 477, c. 9MC.]*

Employer contributions

Age at the last 6 April	*Percentage of pensionable earnings*
31 to 35	8
36 to 40	10
41 to 45	11.5
46 or over	12.5

On top of this HSE match any regular contributions made up to an additional 3 per cent. of pensionable earnings.

Full details of the terms and benefits of the PCSPS are available on the civil service pensions website

www.civilservice-pensions.gov.uk

including the current scheme rules and publications.

Industrial Diseases: Compensation

Mr. Clapham: To ask the Secretary of State for Work and Pensions whether a mesothelioma compensation claim made under the provisions of the Child Maintenance and Other Payments Bill will be required to be submitted within 12 months of the diagnosis of the disease being made; what exceptions to a time limit for submission of claims will apply; and whether an award of compensation for mesothelioma will be required to be paid within six weeks of a claim being lodged.[1] [198747]

Mrs. McGuire: There will be a 12 month time limit for claiming a lump sum payment under the new mesothelioma scheme proposed in the Child Maintenance and Other Payments Bill, but the time limit can be extended if there are good reasons for a delayed claim.

The intention of the scheme is to make payments as quickly as possible and the 12 month time limit is designed to encourage claims to be made as quickly as possible after diagnosis to enable claimants to receive money in life; it is not intended to exclude people from receiving a payment at all.

For this reason, we intend that the 12 month time limit to claims to the new mesothelioma scheme from sufferers during the scheme's first year of operation.

We expect lump sum payments under the new mesothelioma scheme to be made within six weeks of a claim, although this is not a legal requirement.

Industrial Health and Safety: Construction

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how many people employed in the construction industry in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK have died in the workplace in each year since 1997. [198838]

Mrs. McGuire: The following table shows the numbers of reportable fatal injuries to workers in the construction industry. This does not include deaths in the workplace that are unrelated to work activities. The available geographic data do not allow the constituency of Jarrow to be identified.

Fatal injuries to workers in the construction industry[1] as reported to all enforcing authorities 1997-98 to 2006-07[2]

	South Tyneside[3]		*North East[4]*		*Great Britain[5]*	
	Employees	*Self-employed*	*Employees*	*Self-employed*	*Employees*	*Self-employed*
1997-98	—	—	2	1	58	22
1998-99	—	—	—	—	47	18
1999-2000	—	—	—	—	61	20
2000-01	—	—	1	—	73	32
2001-02	—	—	8	—	60	20
2002-03	—	—	1	—	56	14
2003-04	—	1	3	1	52	19
2004-05	—	—	—	1	55	14
2005-06	—	—	2	1	43	17
2006-07	—	—	—	1	50	27

[1] Identified by Standard Industrial Classification 1992 (SIC92) Section F-Construction.
[2] Provisional.
[3] Identified by local authority code 4520 'South Tyneside'.
[4] Identified by Government Office Region and includes South Tyneside LA.
[5] Includes North East Government Office Region.

Industrial Health and Safety: Fines

Mr. Hepburn: To ask the Secretary of State for Work and Pensions what average fine was imposed in *(a)* the North East and *(b)* the UK on employers for breaches of health and safety regulations in each year since 1997. [199093]

Mrs. McGuire: The average fines per conviction imposed in the North East and Great Britain for breaches of Health and Safety regulations in each year since 1997 were:

Average fine per conviction

	In the North East	*In Great Britain*
	£	£
1997-98	12,493	4,064
1998-99	3,483	4,722
1999-2000	3,139	6,450
2000-01	4,155	5,782
2001-02	2,498	7,378
2002-03	5,458	5,858
2003-04	8,257	8,519
2004-05	6,027	11,099
2005-06	3,197	224,681
2006-07	5,188	13,103

1. *[Official Report, 17 June 2008, Vol. 477, c. 10MC.]*

The majority of these fines are against employers but the figures also include other convictions against individuals such as landlords who have been fined for breaches of Health and Safety regulations.

The national figures presented are for Great Britain, and do not include figures for heath and safety in Northern Ireland. They are based on both prosecutions initiated by HSE and local authorities.

The average Great Britain fine in 2005-06 is much greater than other years as it included a large fine of £15,000,000.

The North East regional figure is based on prosecutions initiated by HSE's Field Operations Directorate and local authorities, apart from 1997-98—2000-01, where regional figures are not available for local authority prosecutions.

The average fine per conviction is based on the results where fines were imposed by the courts for individual charges laid before the courts. Prosecution cases can contain one or more charges. Only one offence may be charged in any one information laid before the courts. There may be one or more hearings of the charge in court before the court delivers a verdict on each particular offence. Each conviction is a single breach of a specific piece of health and safety legislation.

The 2006-07 value is the provisional published figure, all other figures are final.

Industrial Health and Safety: Sentencing

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how many employer representatives were given custodial sentences for offences for failing to comply with health and safety legislation in each year since 1997. [199092]

Mrs. McGuire: Health and safety legislation does not recognise the term 'employer representative' but does place legal duties on employers and the self-employed. The following table provides the number of custodial sentences for employers and the self-employed in Great Britain from 1999-2000 to 2006-07:

	Custodial sentences		
	Total	*Suspended prison sentence*	*Prison sentence*
1999-2000	1	1	0
2000-01	1	1	0
2001-02	0	0	0
2002-03	1	1	0
2003-04	2	2	0
2004-05	4	4	0
2005-06	3	1	2
2006-07	6	3	3

The information requested prior to 1999 is not available.

Remploy

Mr. Harper: To ask the Secretary of State for Work and Pensions how many *(a)* disabled and *(b)* non-disabled people Remploy employed in its factories on 31 March. [198244]

Mrs. McGuire: As at 31 March 2008, 3,101 disabled people and 348 non-disabled people were employed by Remploy in its factories.

Remploy: Company Cars

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions what regulations cover the provision of company cars for senior management in Remploy. [199703]

Mrs. McGuire: The provision of company cars for senior managers in Remploy is an operational matter for the company. There are no specific regulations covering this.

Social Security Benefits: Inverness

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people claimed benefits in Inverness, Nairn, Badenoch and Strathspey constituency in each year since 1997, broken down by benefit claimed. [200082]

Mr. Plaskitt: Constituency information is not available prior to 2005. The available information is in the following table.

Working age and pensioner client groups, by statistical group in the Inverness, Nairn, Badenoch and Strathspey constituency, as at May each year

	2005	*2006*	*2007*
All	25,660	25,800	25,990
Job seekers	1,060	1,000	820
Incapacity benefits	4,320	4,320	4,330
Lone parent	890	870	800
Carers	900	1,000	1,030
Other income related benefits	3,680	3,790	3,770
Disabled	2,790	2,880	2,940
Bereaved	330	290	250
State pension only	11,690	11,670	12,050

Notes

1. Caseload figures are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Figures for Attendance Allowance, Carers Allowance, and Disability Living Allowance include those cases with entitlement but where payment is currently suspended (for example because of an extended stay in hospital or being in receipt of an overlapping benefit).
4. Statistical group is a hierarchical variable. A person who fits into more than one category will only appear in the top-most one for which they are eligible. Job Seeker: claimant on Jobseekers Allowance; Incapacity benefits: claimant on Incapacity Benefit or Severe Disablement Allowance; Lone Parent: claimant on Income Support with child under 16 and no partner; Carer: claimant entitled to Carer's Allowance; Other Income Related Benefit: claimant on Income Support or Pension Credit; Disabled: claimant on Attendance Allowance or Disability Living Allowance; Bereaved: claimant on Bereavement Benefit or Widow's Benefit; State Pension only: claimant in receipt of State Pension only. For example a claimant of Disability Living Allowance and Jobseekers Allowance would appear in "Job Seeker", not in "Disabled".

Source:
DWP Information Directorate

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what the take-up rate of each benefit in Inverness, Nairn, Badenoch and Strathspey constituency was in each year since 1997; [200085]

(2) what the value of unclaimed income-related benefits in Inverness, Nairn, Badenoch and Strathspey constituency was in each year since 1997, broken down by benefit type. [200086]

Mr. Plaskitt: Estimates of take-up and the value of unclaimed benefits are not available below the level of Great Britain. It is therefore not possible to say what the take-up rate, or amount of unclaimed benefit was in Inverness, Nairn, Badenoch and Strathspey constituency.

CHILDREN, SCHOOLS AND FAMILIES

Children: Language

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of children attending *(a)* daycare and *(b)* sessions with a childminder spoke English as a second language in each year since 1997. [200554]

Beverley Hughes: Data are not collected centrally on the number or proportion of children attending full day care or childminders for whom English was a foreign language.

Departmental Flexible Working

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of staff in his Department and its predecessors had flexible working arrangements in each year since 1997. [200578]

Kevin Brennan: Since 1997, all staff in the Department and its predecessors have had the opportunity to work flexibly. A very high proportion of staff have made use of the opportunity, including the 15 per cent. who work part-time and the over 50 per cent. who have occasionally or regularly worked at home over the last 12 months.

We do not keep records of exact figures centrally and they could be produced only at disproportionate cost.

Departmental Higher Civil Servants

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of his Department's and its predecessors' senior civil service staff were women in each year since 1997. [200581]

Kevin Brennan: In December 2007 the Department had a total of 106 staff in the senior civil service, of these 48 (45.28 per cent.) were women.

The Department was formed as part of the machinery of government changes announced on 28 June 2007. Although not directly comparable due to staff changes, its predecessor was the Department for Education and Skills which had 131 staff in the senior civil service, of which 53 (40.46 per cent.) were women at December 2006. Figures for earlier years can be found in the civil service statistics archive:

http://www.civilservice.gov.uk/about/statistics/archive/index.asp

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Children, Schools and Families what criminal offences have been abolished by primary legislation sponsored by his Department and its predecessors since May 1997. [198288]

Kevin Brennan: The information requested could be provided only at disproportionate cost.

Chris Huhne: To ask the Secretary of State for Children, Schools and Families what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198308]

Kevin Brennan: No new offences have been created by primary legislation sponsored by the Department for Children, Schools and Families since July 2007.

Departmental Part-Time Employment

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of staff in his Department and its predecessors worked part-time in each year since 1997. [200582]

Kevin Brennan: The latest figures available (December 2007) record a total of 2,914 staff in the Department, of which 453 (15.59 per cent.) worked part-time.

The Department was formed as part of the Machinery of Government changes of 28 June 2007. It is therefore not exactly comparable to its predecessor, the Department for Education and Skills, but it does build on a wide range of flexible working patterns that were developed in the previous Department. As a guideline, the Department for Education and Skills had a total of 3,547 staff in December 2006, of which 521 (14.69 per cent.) worked part-time. Figures for earlier years can be found in the civil service statistics archive:

http://www.civilservice.gov.uk/about/statistics/archive/index.asp

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 January 2008, *Official Report*, column 1269W, on departmental redundancy, what the cost was of redundancies in the predecessors to his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [193357]

Kevin Brennan: Further to my previous reply (PQ 175333) that the Department for Children, Schools and Families has had no redundancies since it was formed, I can also confirm that there were no redundancies in the predecessor Department for Education and Skills in the periods described, and therefore no redundancy costs.

Departmental Vetting

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what steps his Department has taken to ensure that *(a)* paid staff and *(b)* volunteers

are subject to a Criminal Records Bureau check before starting work in the last 12 months. [200579]

Kevin Brennan: All individuals recruited to a regulated post or to a post where they have access to personal or sensitive data about children or vulnerable adults, have been subject to, or are currently undergoing, enhanced Criminal Records Bureau check, as a matter of course.

We do not currently have any volunteers in the Department.

Departmental Written Questions

Mr. Harper: To ask the Secretary of State for Children, Schools and Families what progress his Department has made on its Parliamentary Question tracking system to record whether named day questions are provided with a substantive answer on the due day since November 2007. [199994]

Kevin Brennan: Although parts of the Department's PQ tracking system have been upgraded there is still some outstanding work to be completed on the parts of the system that provide management information reports. In the interim, the parliamentary team are maintaining a manual check on all named day questions to monitor the timeliness of replies.

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the pilot Stage Not Age tests; and if he will make a statement. [201062]

Jim Knight: Single level tests are being trialled as one element of the Making Good Progress pilot, which runs from September 2007 to July 2009. One round of tests has taken place as part of the pilot, with three other test windows to follow. Making Good Progress is being independently evaluated by PricewaterhouseCoopers, whose final report is due in 2009.

Education: Research

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much his Department spent on educational research in each of the last five years. [200332]

Jim Knight: Details of the Department's expenditure on educational research for each year since 2003 are noted as follows.

	£
2003	16,523,705
2004	23,322,938
2005	20,280,123
2006	24,466,756
2007	26,770,579

Home Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of children under the age of 16 years who were home educated in each year since 1997. [200323]

Jim Knight: We have made no estimate of the numbers of children under the age of 16 who were home educated in each of the years since 1997.

Languages: General Certificate of Secondary Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) how many non-selective mainstream maintained schools entered 90 per cent. or more of their eligible pupils for a modern language GCSE in *(a)* 2004, *(b)* 2005, *(c)* 2006 and *(d)* 2007; [200529]

(2) how many non-selective mainstream maintained schools entered 10 per cent. or less of their eligible pupils for a modern language GCSE in *(a)* 2004, *(b)* 2005, *(c)* 2006 and *(d)* 2007; [200530]

(3) how many non-selective mainstream maintained schools entered no pupils for a modern language GCSE in *(a)* 2004, *(b)* 2005, *(c)* 2006 and *(d)* 2007; [200531]

(4) how many non-selective mainstream maintained schools did not have any pupils awarded a modern language GCSE at grades A* to C in *(a)* 2004, *(b)* 2005, *(c)* 2006 and *(d)* 2007; [200532]

(5) how many non-selective mainstream maintained schools did not have any pupils awarded a *(a)* French and *(b)* German GCSE at (i) grades A* to C and (ii) any grade in (A) 2004, (B) 2005, (C) 2006 and (D) 2007. [200533]

Jim Knight: The information can be provided only at disproportionate cost.

Parents: Advisory Services

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the cost of parenting advisers in each year from 2008-09 to 2011-12; what their function will be; and if he will make a statement. [200991]

Beverley Hughes: The Children's Plan announced funding for up to two 'parenting experts' in every local authority. These experts will deliver one to one and group-based support to parents as well as supporting local parenting commissioners in the implementation of their Parenting Strategy. In 2008-09, over £8 million has been allocated to fund these posts and we expect to spend around £12 million each year over 2009-10 and 2010-11.

Pre-School Education: Standards

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of childcare staff in nurseries had an appropriate level 3 or higher qualification in *(a)* Basingstoke

constituency, *(b)* Hampshire and *(c)* England in each of the last five years. [200563]

Beverley Hughes: The Childcare and Early Years Providers survey collects information on staff qualifications that are relevant to working with children and young people. The percentage of paid staff in England holding at least a level 3 qualification for each year available is shown in the following table.

Table: Percentage of paid staff holding at least a Level 3 qualification

	2003	2005	2006
Full day care	57	63	73
Full day care in children's centres	n/a	n/a	80
Sessional	44	55	58
After school clubs	37	n/a	51
Holiday clubs	30	n/a	53
Childminders	n/a	n/a	38
Nursery schools	78	n/a	80
Primary schools with nursery and reception classes	72	n/a	77
Primary schools with reception but no nursery classes	64	n/a	71

Notes:
1. Children's centres were included in the survey for the first time in 2006; therefore data is not available for previous years.
2. After school and holiday clubs were sampled differently in 2005 and comparable figures for this year are not available.
3. In 2006 childminders who said they held a level 3 qualification were asked whether they had a childminding certificate and if so whether they held all of the modules. Those who only held some of the modules were not classed as holding a level 3 qualification. Comparable data for previous years are not available.
4. Early years settings in maintained schools were not included in the 2005 survey.
Data are not available at a local authority level.

Press

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many press office staff were employed by *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies (i) in each year since 1996-97 and (ii) at the latest date for which information is available. [189657]

Kevin Brennan: The Department for Children, Schools and Families was established in June 2007 and currently employs the full time equivalent of 20.5 press officers. It is not possible except at disproportionate cost to identify the number of press officers previously employed by the Department for Education and Skills. The Department does not hold information on non-departmental public bodies.

Primary Education: Teachers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the minimum qualifications to *(a)* enter training to become and *(b)* take up employment as a teacher in a primary school are; and if he will make a statement. [201132]

Jim Knight: In order to enter an initial teacher training programme, trainee primary teachers must have at least a grade 'C' or equivalent in GGSE maths, English and a science subject. Initial teacher training providers will typically also set additional requirements for entry to initial teacher training courses such as A-levels, NVQs or work experience. In order to enter a postgraduate course, trainee teachers must also have a degree. This also applies to the employment-based routes into teaching; with the exception of the Registered Teacher Programme which requires that trainees have completed two years (240 CATS) of higher education.

In order to take up employment as a teacher in a primary school, a primary teacher should have successfully completed a course of initial teacher training and been awarded qualified teacher status, having met the standards required of a skilled teacher. Regardless of the route, a first degree or an equivalent and passing the professional skills tests in numeracy, literacy and information communication technology are also requirements for the award of qualified teacher status (QTS).

These requirements reflect a belief that all teachers should have a good standard of knowledge in the core subjects and that teaching is a job towards which our best and brightest young people should aspire. They also give parents confidence in the knowledge and competence of the teachers educating their children.

Pupil Exclusions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many schools gave fixed-period exclusions to *(a)* more than five per cent. and *(b)* more than 10 per cent. of their pupils in each year since 2001; and if he will make a statement; [200097]

(2) how many *(a)* secondary and *(b)* primary school pupils were excluded for a fixed period on (i) five or more occasions and (ii) 10 or more occasions in each year since 2001; and if he will make a statement. [200098]

Kevin Brennan: Information on fixed period exclusions was collected for the first time in 2003-04.

The number of schools excluding more than 5 and more than 10 per cent. of their school population for a fixed period is not readily available and can be provided only at disproportionate cost.

The available information showing the number of times pupils have been excluded for a fixed period is published annually by the Department. These figures can be found in the Statistical First Release 'DCSF: Permanent and Fixed Period Exclusions from Schools and Exclusion Appeals in England', the latest of which refer to the 2005-06 school year and can be accessed at (table 17):

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/index.shtml

Due to underlying changes in the data collection, information on fixed period exclusions was only collected from secondary schools in 2005-06. This coverage will extend to also include primary schools in 2006-07. Equivalent publications are available, relating to fixed period exclusions during 2003-04 and 2004-05.

Exclusions data relating to the 2006-07 school year are expected to be published in June 2008.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what evidence his Department holds on the effect of fixed period exclusions on pupil behaviour; and if he will make a statement. [200100]

Kevin Brennan: The Department does not hold research on the specific effect of fixed period exclusions on behaviour. However, the report on School Behaviour and Discipline, published in 2006, noted that fixed period exclusion can be an extremely effective form of sanction as part of a well thought out strategy for tackling poor behaviour. Ofsted inspection evidence suggests that one to three days is often long enough to secure the benefits of exclusion without adverse educational consequences.

The Government recognise the challenge that managing pupils behaviour can present and the hard work involved in achieving standards of behaviour. That is why this is the first Government to implement a comprehensive national programme to strengthen schools' capacity to manage behaviour.

The Ofsted report can be downloaded at:

http://www.ofsted.gov.uk/portal/site/Internet/menuitem.eace3f09a603f6d9c3172a8a08c08a0c/?vgnextoid=ee1a4500b58ae010VgnVCM1000003507640aRCRD

The Steer report can be downloaded at:

http://www.standards.dfes.gov.uk/learningmentors/downloads/steer.pdf

Reading: Teaching Methods

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) what his policy is on *(a)* systematic and *(b)* synthetic phonics; and if he will make a statement; [200319]

(2) what research his Department has conducted into the effects of teaching reading through the use of *(a)* synthetic and *(b)* systematic phonics. [200322]

Jim Knight: The Department's policy on phonics is to implement the recommendations of Sir Jim Rose's Independent Review of the Teaching of Early Reading which advocates that high quality, systematic phonic work should be the prime approach in teaching children to read.

The Review took account of extensive evidence from a range of sources including oral and written evidence from individuals and associations; and visits to settings, schools and training events. A copy of the Review which outlines this evidence is available in the House Libraries.

Sir Jim has provided an update on how well his recommendations are being implemented. A copy of his letter has been placed in the House Libraries. More detail will be available in the autumn when Sir Jim's interim report on the Primary Curriculum is published.

Schools: Catering

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which local authorities have applied for exceptional capital funding for new kitchens in schools as announced in December 2007; which local authorities will receive such funding; and if he will make a statement. [201083]

Jim Knight: We have received applications for exceptional capital funding for new kitchens in schools from 14 local authorities. These are: Bournemouth; Buckinghamshire; Dorset; Gloucestershire; Harrow; Hillingdon; Lincolnshire; Northamptonshire; North East Lincolnshire; North Somerset; Plymouth; Swindon; West Sussex; and Wigan. My officials are currently considering those bids and we plan to make an announcement in May.

New nutritional food-based standards for school lunch were introduced in September 2006 and nutrient-based standards, stipulating the nutrients required for school lunches, will be introduced for primary schools by 2008 and for secondary schools by 2009. These new standards need to be underpinned by good kitchen and dining facilities in schools. This is why we have placed a greater priority on the building and refurbishment of school kitchens within the Government's capital programme for school buildings and made available this specific grant to build new kitchens in areas that have large concentrations of schools without kitchens.

Schools: Finance

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families when he intends to announce the results of the recent applications for funding from the basic needs allocation safety valve Fund. [200768]

Jim Knight: My officials have now assessed all applications to the basic needs safety valve. However, it was necessary for the Department to seek clarification from a number of authorities on the information provided. I expect to be in a position to take final decisions on the applications shortly, and to make the results known shortly thereafter.

Schools: Governing Bodies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what plans he has to reduce the size of school governing bodies; and if he will make a statement. [201071]

Jim Knight: We believe that smaller, more highly skilled governing bodies, alongside improved governor training will provide more effective governance for schools. As we indicated in the Children's Plan, we will be consulting stakeholders on reducing the size of governing bodies. As a first step, a stakeholder working group has been established to consider reforming governance in this way. Good governance and leadership is essential if we are to achieve better outcomes for all children and young people.

Schools: Recycling

Gregory Barker: To ask the Secretary of State for Children, Schools and Families what proportion of waste from schools was recycled in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004, *(e)* 2005, *(f)* 2006 and *(g)* 2007. [200312]

Jim Knight: The Department does not gather statistics on the amounts of waste collected from schools. The Department for Environment, Food and

Rural Affairs collects statistics on the amount of municipal waste and what happens to it, but where it is collected from is not recorded.

Schools: Sports

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families what average time was spent by school children on physical education, broken down by year group, in each year for which figures are available. [200785]

Kevin Brennan: Data on PE and sport is collected from the annual School Sport Survey, which began in 2003/04. Total curriculum time that all pupils in each year group spend taking part in PE in a typical week, is as follows:

	2003/04	2004/05	2005/06	2006/07
Year 1	89	96	107	115
Year 2	89	96	107	116
Year 3	96	103	111	118
Year 4	97	103	112	119
Year 5	97	104	113	119
Year 6	97	104	112	118
Year 7	123	124	125	126
Year 8	120	123	124	124
Year 9	116	118	120	120
Year 10	94	101	97	97
Year 11	91	98	94	94
All	101	107	111	115

Schools: Sustainable Development

Gregory Barker: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of schools that use *(a)* occupancy/daylight saving light sensors, *(b)* infra-red operated faucets, *(c)* fully condensing boilers, *(d)* underfloor heating and *(e)* rainwater harvesting systems. [200308]

Jim Knight: We do not hold information on the numbers of schools that have installed *(a)* occupancy/daylight saving light sensors, *(b)* infra-red operated faucets, *(c)* fully condensing boilers, *(d)* underfloor heating and *(e)* rainwater harvesting systems.

Investment in measures of this nature would typically be funded from budgets delegated to schools and local authorities. This information may be held at a local authority or school level.

Schools: Water

Gregory Barker: To ask the Secretary of State for Children, Schools and Families how much was spent by schools on water services in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004, *(e)* 2005, *(f)* 2006 and *(g)* 2007. [200309]

Jim Knight: The information about expenditure by local authority maintained schools in England on water and sewage for 2002-03 to 2006-07 is contained within the following table:

Expenditure by local authority maintained schools on water and sewerage (E15)

	£
2002-03	61,717,000
2003-04	65,815,000
2004-05	68,549,000
2005-06	78,139,000
2006-07	83,846,000

Gregory Barker: To ask the Secretary of State for Children, Schools and Families how much waste water was produced by schools in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004, *(e)* 2005, *(f)* 2006 and *(g)* 2007. [200311]

Jim Knight: Waste water produced by schools cannot be accurately quantified because it is not metered. It is normally assumed that all water supplied to a school is retuned to sewers as waste water, although the actual volume of waste water is slightly less than that supplied, the difference being due to small volumes of water used for irrigation on school sites and/or evaporation from swimming pools.

The Department does not have information on the total water supplied to all schools in England. However, we have gathered benchmarking information on water use for the years 2001 to 2006 for a sample of schools. This has been analysed to determine average water use per pupil as summarised in the following table.

Average annual water consumption (cu.m/pupil)

		Primary		Secondary	
	Nursery	With pool	Without pool	With pool	Without pool
2000/01	3.41	4.31	3.80	5.08	3.86
2001/02	4.28	4.35	4.03	5.06	3.96
2002/03	4.21	4.48	4.02	5.08	3.82
2003/04	3.50	5.16	3.99	5.08	3.70
2004/05	3.52	4.95	4.08	4.89	3.75
2005/06	3.71	4.91	4.11	5.39	3.75

Secondary Education: Assessments

Michael Gove: To ask the Secretary of State for Children, Schools and Families in how many schools more than 50 per cent. of pupils did not gain level 5 or above in a combination of reading, writing and mathematics tests at key stage three in the last year for which figures are available. [200330]

Jim Knight: The information can be provided only at disproportionate cost.

Secondary Education: Teaching Methods

Mr. Laws: To ask the Secretary of State for Children, Schools and Families by what date he expects every secondary school child to have a personal tutor; and if he will make a statement. [201061]

Jim Knight: Our expectation, as described in the Children's Plan, is that all secondary school pupils will have access to a personal tutor from 2010.

Teachers: Qualifications

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families how many people employed as teachers in Milton Keynes Local Education Authority area have only qualifications obtained abroad. [200766]

Jim Knight: The information requested is not collected centrally.

Textbooks

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what his policy is on allowing pupils to take school textbooks home. [200314]

Jim Knight: It is for schools to decide whether or not pupils should take textbooks home from school.

COMMUNITIES AND LOCAL GOVERNMENT

Allotments: Finance

Ben Chapman: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the effectiveness of the funding provided for allotments; what mechanisms are in place to assess the effectiveness of allotment funding against its objectives; and if she will make a statement. [200393]

Mr. Iain Wright: Funding for allotments is available through the financial support that all local authorities receive from central Government. It is up to local authorities to ensure that adequate funding is in place for allotments according to their local needs, and to assess the effectiveness of their funding. As this should be a local responsibility, based on specific local circumstances the Secretary of State has not made any assessment of the effectiveness of funding provided for allotments.

Building Regulations: Public Participation

Mary Creagh: To ask the Secretary of State for Communities and Local Government when she expects to launch a public consultation on amendments to the Building Regulations; and whether such consultations will include proposed revisions to regulations regarding hot water and safety. [200394]

Mr. Iain Wright: We anticipate that public consultation on possible amendments to Part G of the Building Regulations will be published in the next few weeks. This consultation will consider the issue of hot water safety alongside other issues.

Conference Centres: Finance

Mr. Willis: To ask the Secretary of State for Communities and Local Government whether her Department provides any *(a)* capital and *(b)* revenue support to any conference or exhibition centre; and if she will make a statement. [199435]

Mr. Iain Wright: The Department sponsors the Queen Elizabeth II Conference Centre (QEIICC) in Westminster, an Executive agency with Trading Fund status. The QEIICC trading fund is required to cover all its expenditure from income from room hire and other activities and pay the Department an annual dividend to cover the cost of capital charge incurred by the Department. In 2006-07, the QEIICC trading fund generated income of £10.4 million on its operating activities. The Department retains landlord responsibility for the QEIICC building, and undertakes capital expenditure on the building as and when it is deemed to be necessary. In 2006-07, the Department incurred capital expenditure of £0.985 million mainly in respect of replacement air-handling units.

Council Tax: Students

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether doctoral postgraduate students during their six month thesis write up stage are classed as full-time students and eligible for a council tax exemption. [198921]

John Healey: The definition of a student for council tax purposes is set out in the Local Government Finance Act 1992 and the Council Tax (Discounts Disregards) Order 1992. It is for each individual local authority to decide who is classed as a student and in doing so to satisfy itself that the legislative requirements have been met before granting a student exemption from council tax.

Council Tax: Tax Yields

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer to the hon. Member for Bromley of 5 March 2008, *Official Report*, column 2498W, on council tax: tax yields, when the data for 2007-08 will be available. [199267]

John Healey: The data will be available in June 2008 following the publication of the Statistical Release "Collection rates for council tax and non-domestic rates in England—2007-08".

Departmental ICT

Dr. Cable: To ask the Secretary of State for Communities and Local Government what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost is for each information technology project being undertaken by her Department and its agencies; and if she will make a statement. [180580]

Mr. Dhanda: IT projects[1] undertaken by Communities and Local Government (CLG) and its Agencies are as shown in the table.

[1] Two of CLG's major change projects, Firelink and FireControl, do not feature in the table as in both cases the IT component represents only one part of the overall project activity. FireLink is a radio communications system project for the Fire and Rescue Service across Great Britain, which started in mid 2002 and was originally due to complete at the end of 2007. It is now expected to complete in mid 2009. Estimated costs have remained the same

at £400 million for Great Britain. FireControl is principally a business change project, which started in 2004 with an expected completion date in 2009. It is now expected to complete in 2011. Estimated costs have risen from £120 million to £190 million.

Communities and Local Government (including regional co-ordination unit and Government offices in the regions)

	Start date	*Original planned completion date*	*Expected completion date*	*Originally planned costs (£000)*	*Estimated planned costs (£000)*
Website Rationalisation (incorporating Info4local rebuild project)[1]	December 2005	June 2008	December 2008	3,200	3,600[2]
Fire Incident Recording System	January 2006	December 2006	March 2008	1,300	2,990
LINK (New corporate desktop system)	February 2005	October 2006	February 2008	2,064	2,064
EDRMS	October 2006	December 2006	June 2008	699	699
Replacement Infrastructure for Peoplesoft HR System	November 2006	May 2007	March 2008	5.7	537
CLG Payroll Replacement System	May 2007	March 2008	March 2008	382	382
SAP Implementing Benefits	January 2008	February 2009	February 2009	364	364
Smarter Business Process (SAP Enhancement)	September 2007	April 2008	August 2008	350	350
Blackberry Service	July 2007	April 2008	April 2008	239	249
Government Offices Human Resources Database, further development	April 2007	March 2008	March 2008	150	176
Government Offices Online Performance Management System, further development	April 2007	March 2008	March 2008	150	150
(b) Agencies of the Department					
Planning Inspectorate					
Fast-track Householder Appeal Service – Stage 1 (Validation and Planning)	September 2007	December 2007	February 2008	130	130
Server Virtualisation Project	October 2007	March 2008	March 2008	105	105
Programme and Project Management Tool (Hydra)	March 2007	October 2007	February 2008	95	95
Fire Service College					
Fire Service College Managed Learning System[3]	January 2006	April 2007	May 2008	5,500	5,500
QEII Conference Centre					
Meeting Matrix	June 2007	September 2007	February 2008	65	65

[1] A project to rebuild the Info4local website was approved in November 2004 at a cost of £244,000. The project was deferred for later incorporation into the Department's Website Rationalisation Project.
[2] Plus £400 for Info4local.
[3] The FRS Managed Learning Environment referred to in the answer of 3 September 2007, *Official Report*, columns 1645-6W is the same project. The longer delivery timetable is the outcome of a college review of the business case for the project. It was decided the range of benefits from the project should be extended, resulting in more deliverables, and that more time should be allowed to implement the extended package. The costs figures given in that answer refer to the whole life costs for the project including operations costs following the transition into live operation.

Eco-Towns: Leicestershire

Mr. Garnier: To ask the Secretary of State for Communities and Local Government how much and what proportion of the area within Harborough District that is proposed to be occupied by the eco-town promoted by the Co-operative Wholesale Society and English Partnerships is currently used for *(a)* agricultural and *(b)* airport transport purposes; and how much of that area is covered by (i) in use and (ii) redundant permanent structures. [200414]

Caroline Flint: Like all the shortlisted locations for eco-towns the one promoted by the Co-operative Wholesale Society and English Partnerships is subject to consultation and at this stage final decisions on the size and location are still to be determined. In the consultation document "Eco-towns—Living a greener future" that was published on 3 April we have provided a description of the location for this eco-town and copies of this document are available in the House Library. Also as part of the Co-operative Estates local consultation they have set up a website that provides further information about their proposal including land use.

Housing: Carbon Emissions

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many new homes have been built since the zero rate of stamp duty for zero-carbon homes was introduced. [199972]

Caroline Flint *[holding answer 21 April 2008]:* The zero rate of stamp duty for zero-carbon homes was introduced on the 1 October 2007. In England there

were 48,467 dwellings completed in the quarter 1 October to 31 December 2007.

Source:

P2 house building returns from local authorities and the National House Building Council (NHBC)

Housing: Immigration

Mr. Lilley: To ask the Secretary of State for Communities and Local Government if she will estimate the impact on housing prices of the level of immigration projected by the Government Actuary's Department. [199707]

Caroline Flint *[holding answer 21 April 2008]:* An estimate of the migration impact on housing has not been made by the Government.

The national housing and planning advice unit (NHPAU) which provides independent advice to Government on housing affordability, has produced estimates of the ratio of lower quartile house prices to lower quartile earnings up to 2026. These results use the 2004-based levels of population (including migration) projected by the Government Actuary's Department. The results can be found in their publication "Developing a target range for the supply of new homes in England" at:

http://www.communities.gov.uk/housing/housingsupply/nhpau/publications/supplynewhomes/

Housing: Inspections

David Taylor: To ask the Secretary of State for Communities and Local Government what qualifications domestic energy assessors are required to have before administering the home information pack scheme; and whether the required qualifications have changed since the scheme was first introduced. [200334]

Caroline Flint: To qualify as a domestic energy assessor (DEA), an individual must demonstrate that they satisfy the requirements of the National Occupational Standards for DEAs. These standards have not changed since their introduction in January 2007.

Non-Domestic Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the Local Authority Business Growth Incentive scheme for 2008-09 will include incentive payment for additional business rate revenue collected due to *(a)* empty property business rates and *(b)* an increase in the number on frequency of empty dwellings. [199012]

John Healey: Under the original three-year LABGI scheme, the Chancellor allocated up to £1 billion to local authorities in England and Wales for 2005-06, 2006-07 and 2007-08. The Government intend to make payments under a reformed scheme from 2009-10, and are considering these plans. This will allow us to look carefully at the lessons learned from the original scheme and to consult widely on how to get the best possible outcomes from a reformed scheme.

Parish Councils: Finance

David Taylor: To ask the Secretary of State for Communities and Local Government how many submissions to the consultation on the Community Infrastructure Levy referred to the potential access of parish councils to this fund. [200407]

Caroline Flint: Our publication on the Community Infrastructure Levy (CIL), published on 24 January, sets out the background to the CIL and more detail on the provisions in the Planning Bill. It also explains how the Government are continuing to develop the detail of the CIL in consultation with stakeholders.

The question of Parish councils' potential access to CIL funds is not an issue which has been raised in correspondence received so far.

The 24 January CIL publication 'The Community Infrastructure Levy' is available in the House library.

Property: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the answer of 31 January 2007, *Official Report*, column 315W, on the Valuation Office, how domestic dwellings in England are recorded by the Valuation Office Agency as having the property attribute of having *(a)* one bathroom and *(b)* more than one bathroom. [199150]

John Healey: As at 2 April 2008, of the 22,507,086 dwellings in England the Valuation Office Agency has recorded *(a)* 19,566,590 with one bathroom and *(b)* 2,508,704 with two or more bathrooms. In the answer given on 31 January 2007 the number of dwellings stated as 21,849,763 was the number of dwellings with data recorded against the "number of bathrooms" field. The figure as at 31 January 2007 for the total number of dwellings in England was 22,240,777.

Recreation Spaces: Databases

Ben Chapman: To ask the Secretary of State for Communities and Local Government when the green space database will be *(a)* completed and *(b)* available for use by local authorities in relation to allotments. [200416]

Mr. Iain Wright: The first phase of the green space database is currently being developed and will be completed and available for use by local authorities in June 2008. This will incorporate current green space datasets, including information about allotments. This will enable local authorities to map available data, including commenting on information.

The second phase will be ongoing from June 2008. This will consider what further activities are required to ensure the existing database is of most use to stakeholders.

Regional Planning and Development: Fines

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson)

of 20 March 2008, *Official Report*, column 1378W, on regional planning and development: fines, what the monetary value was of the financial correction levied. [199158]

John Healey: The financial correction levied by the European Commission in respect of the Objective 2 and Urban II ERDF programmes in the North West of England was €24,790,591: I wrote to the chair of the CLG Select Committee on 18 March 2008 with details and placed a copy of my letter in the Library of the House.

Regional Planning and Development: Greenwich Peninsula

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what her most recent estimate is of the revenue which will accrue to the public purse from the redevelopment of the Greenwich Peninsula. [198672]

Caroline Flint: A re-assessment is currently under way. It is expected that a new financial model for forecasting returns from the development will be completed by summer 2008. Once this is in place, English Partnerships will be able to make a revised assessment of the latest forecast return.

The National Audit Office (NAO) have recently looked into progress on the delivery of the Greenwich Peninsula regeneration project. The NAO report is still being prepared but will include an updated assessment by both NAO and EP of the latest forecast financial return to the taxpayer. However as the new model is not yet finalised these assessments of necessity will derive from the existing financial model developed in 2004 which was not designed for monitoring profits and which is out of date in terms of phasing of the development. NAO's report is likely to be published before summer recess.

Written Questions: Government Responses

Miss McIntosh: To ask the Secretary of State for Communities and Local Government when she plans to answer Question 197946 on flood damage, tabled on 26 March 2008. [200505]

Mr. Dhanda: The hon. Member's question was answered on 21 April 2008, *Official Report*, column 1405W.

JUSTICE

Administration of Justice: Inspections

David Howarth: To ask the Secretary of State for Justice how many times the contract of the Chief Inspector of *(a)* prisons, *(b)* probation and *(c)* court administration has been extended without a competitive process or since the inception of the post, as appropriate. [199395]

Maria Eagle: Anne Owers CBE was appointed HM Chief Inspector of Prisons in August 2001 following a competitive recruitment exercise. Ms Owers' appointment has since been extended on two occasions.

Andrew Bridges CBE was appointed HM Chief Inspector of Probation in April 2004, having served as Deputy to the previous Chief Inspector, Professor Rod Morgan. Mr. Bridges' appointment has been extended on two occasions. Mr. Morgan was appointed in August 2001 following a competitive recruitment exercise.

Eddie Bloomfield was appointed HM Chief Inspector of Court Administration in June 2005 following a competitive recruitment exercise. Mr. Bloomfield was reappointed from January 2008, also on the basis of a competitive exercise.

David Howarth: To ask the Secretary of State for Justice what the average length of service of chief inspectors of *(a)* court administration, *(b)* probation and *(c)* prisons have been since the inception of the posts. [199396]

Maria Eagle: There has been only one holder of the office of Her Majesty's Chief Inspector of Court Administration since it was established in its current statutory form. Eddie Bloomfield has served as Chief Inspector since his appointment in June 2005 and reappointment in January 2008.

Since the office of Her Majesty's Chief Inspector of Prisons was first established in its current statutory form by the Criminal Justice Act 1982, the average (mean) length of service by post-holders has been approximately 6.5 years. This figure includes the tenure to date of the current post-holder, Anne Owers CBE, but does not include the tenure of William Pearce, who died after approximately one year's service.

Since the office of Her Majesty's Chief Inspector of Probation was first established in its current statutory form by the Criminal Justice Act 1991, the average (mean) length of service by post-holders has been approximately five years. This figure includes the tenure to date of the current post-holder, Andrew Bridges CBE.

Departmental Carbon Emissions

John McDonnell: To ask the Secretary of State for Justice whether his Department has adopted the Carbon Trust's Carbon Management Programme or plans to do so in the next 12 months. [198033]

Maria Eagle: The Ministry of Justice is currently working with the Carbon Trust to identify how it can adopt the Carbon Trust's Carbon Management Programme and what benefits would result from this. A decision will be taken on whether we can adopt the Management Programme once this work has been completed.

John McDonnell: To ask the Secretary of State for Justice whether his Department met the target in the Sustainable Operations on the Government Estate to reverse the then upward trend in carbon emissions by April 2007. [198034]

Maria Eagle: The Ministry of Justice was created on 9 May 2007, therefore this answer covers former Department for Constitutional Affairs and parts of the Home Office, listed in the Sustainable Development

Commission's Sustainable Development in Government report, did not meet the target.

Work is ongoing within the Ministry of Justice to drive down the amount of carbon emissions released from the estate and between 2005-06 and 2006-07 the carbon emissions from MoJ headquarters decreased by approximately 4 per cent. Although this target applies to offices only, the Prison Service, which became part of the new Ministry on 9 May 2007, has been working for some years towards reducing energy consumption (and, consequently, carbon emissions) across the prison estate. The service has achieved reduction of 4 per cent. in energy use as against the 1999 baseline, a decrease in the consumption of fossil fuels by about 7 per cent. (both against a rising prison population) and currently obtains 18 per cent. of electricity from renewable resources. It will continue this work in 2008 by introducing a Carbon Management Programme working with the Carbon Trust.

The Ministry of Justice has now established its own Sustainable Development Action Plan that sets out how it will work towards meeting the remaining SOGE energy targets.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Justice how much was spent on the most recent redesign and implementation of his Departmental website. [199955]

Bridget Prentice: The cost of the most recent redesign and implementation of the Ministry of Justice corporate website www.justice.gov.uk was as follows:

	£
Site design	14,250
Imagery	889
Additional web developer resource recruited for two weeks	1,500
Total	16,639

These costs do not include ongoing software licenses, domain name rental, hosting, telecoms and in-house staff costs.

Most of the work was completed in house, by the existing Ministry of Justice web team.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Justice how many working days were lost by his Department due to stress-related illness in each of the last 24 months. [198942]

Maria Eagle: Detailed monthly information on sickness absence for the whole of the Ministry of Justice is not held centrally and could be provided only at a disproportionate cost. The only Department that holds this information is the public sector Prison Service and is included in table 1 as follows. Information for NOMS and OCJR and for the former DCA for 2006-07 is derived from a Cabinet Office report on sickness absence in the civil service published on 7 February 2008 and is set out in table 2. Earlier data are not available. The Cabinet Office report for 2005 did not provide a detailed breakdown of reasons for sickness absence by individual Department. The tables include data on days lost that were classified as mental and behavioural disorders, a high proportion of which will be stress related.

Table 1: Working days lost due to mental and behavioural disorders in the public sector Prison Service

	Working days lost attributed to mental and behavioural disorders
January 2006	10,642
February 2006	9,420
March 2006	9,913
April 2006	9,684
May 2006	10,350
June 2006	10,752
July 2006	11,427
August 2006	11,548
September 2006	10,714
October 2006	11,735
November 2006	12,019
December 2006	12,710
January 2007	11,698
February 2007	10,412
March 2007	11,426
April 2007	10,445
May 2007	11,191
June 2007	10,831
July 2007	12,103
August 2007	12,409

Table 2: Total working days lost and proportion attributed to mental and behavioural disorders in former Department for Constitutional Affairs, the National Offender Management Service and the Office of Criminal Justice Reform—2006-07

	Total days lost	*Proportion lost to mental disorders (percentage)*
Magistrates Court Committee	106,438	19
HM Courts Service	60,911	17
Former Department for Constitutional Affairs	9,689	14
Tribunal Service	7,681	13
Office of the Public Guardian	1,066	38
Scotland Office	121	0
Wales Office	95	6
National Offender Management Service	11,135	20
Office of Criminal Justice Reform	1,347	29

Note:
The Cabinet Office published a report on sickness absence in the civil service on 7 February 2008. The report included an analysis of the days lost due to sickness absence for each Department by reasons for absence. The table sets out the figures for 2006-07 for the constituent parts of this Department, which were in place prior to the creation of the Ministry of Justice in May 2007. Information on the reasons for sickness absence prior to 2006-07 is not readily available and could be provided only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Justice how many of his Department's staff took more than

(a) five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198966]

Maria Eagle: Detailed information on sickness absence for the whole of the Ministry of Justice is not held centrally and could be provided only at a disproportionate cost. The only Department that holds this information is the public sector Prison Service which is set out for each year in tables 1 to 5 as follows. The tables include data on days lost that were classified as mental and behavioural disorders, a high proportion of which will be stress related.

Table 1: Public sector Prison Service staff taking more than five days of sick leave for mental and behavioural problems by broad grade group—2003

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Justice whether his Department is on course to meet the Sustainable Operations on the Government Estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [198032]

Maria Eagle: The Ministry of Justice has met its target of sourcing at least 10 per cent. of its electricity from renewables by 31 March 2008.

A waste management strategy is currently being implemented across the estate that will enable the Ministry to increase recycling figures to 40 per cent. of waste by 2010. Good progress has already been made with MoJ HQ estate increasing its recycling by approximately 39 per cent. between 2005-06 and 2006-07.

John McDonnell: To ask the Secretary of State for Justice whether his Department is working towards an accredited certified environmental management system *(a)* for its whole estate and *(b)* in some of its buildings. [198035]

Maria Eagle: The Ministry of Justice is working towards implementing environmental management systems across its estate. We are in the process of implementing an EMS for ISO 14001 accreditation in the Tribunals Service, MoJ Headquarters estate and the Royal Courts of Justice. In addition, a bespoke environmental management system is being implemented across the Prison Service estate. We will be looking to extend these systems across the rest of the estate in due course, and as set out in the Ministry's Sustainable Development Action Plan.

Prisoners: Databases

Mr. Clappison: To ask the Secretary of State for Justice what estimate he has made of the number of people detained in prison who are not recorded on the detentions database; and what information is held by his Department on non-UK nationals released from prison without notification to the Home Office, as referred to by the National Audit Office report on asylum and migration (HC(2003-04)625) of 25 May 2004. [180515]

Mr. Byrne: I have been asked to reply.

The section of the National Audit Office report on Asylum and Migration statistics published on 25 May 2004 to which is referred relates to the accuracy of statistics held by IND (now known as the UK Border Agency) governing the number of individuals held in detention for immigration reasons.

Since the report was published, the DELMIS system, to which it referred, has been superseded by a different system known as the case information database (CID). This is designed for use within all areas of the Agency as opposed to just the detention service directorate. It is through CID that the Agency is able to ensure that it keeps accurate records on all individuals' immigration cases as well as ensuring that caseworkers are aware of where an individual resided or whether they were detained.

The chief executive of the UK Border Agency has written to the Home Affairs Committee on several occasions over the past 18 months and explained that we have reviewed and strengthened our processes in identifying those foreign nationals serving custodial sentences who should be considered for deportation following the events of April 2006.

Prisoners: Health Services

Mr. Garnier: To ask the Secretary of State for Justice how many in-patient beds in prisons were occupied by prisoners for non-medical reasons in each month of each of the last five years for which figures are available; and what the reasons were in each case. [199690]

Maria Eagle: This information requested is not held centrally and could be provided only at disproportionate cost.

In-patient beds can only be used for non-medical reasons where they are included in the prison's CNA; however, even where this is the case, the practice is avoided wherever possible.

The decision whether to include in-patient beds in an establishment's Certified Normal Accommodation (CNA) is taken by the relevant Area Manager as part of the local cell certification process. As a general rule, in-patient beds are included in the CNA in local prisons but excluded in training prisons. This reflects the extent to which newly received prisoners require medical care.

Prisons: Cells

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners were *(a)* doubling up in cells designed for one and *(b)* trebling up in cells designed for two in each prison in England and Wales at the end of March 2008. [199678]

Maria Eagle: Figures for the end of March 2008 are not available at present. The following table shows the provisional number of prisoners reported as being doubled in cells certified to hold one person and trebled in cells certified to hold two persons at the end of February 2008.

Prison	*Number of prisoners doubling up in cells designed for one*	*Number of prisoners trebling up in cells designed for two*

Prisons: Employment

Mr. Garnier: To ask the Secretary of State for Justice what steps he is taking to ensure the reliability of figures on prisoners' hours of purposeful activity provided by prisons. [199684]

Maria Eagle: In 2007-08 the Prison Service issued new guidance for its establishments for recording purposeful activity. This guidance included a refined set of activities and definitions. Additionally, a more effective method of capturing purposeful activity data has been introduced through the use of electronic forms. The data reported also continue to be validated by management controls and by both a self-audit process and independent audit.

Mr. Garnier: To ask the Secretary of State for Justice what the average number of hours of purposeful activity per week for each *(a)* male and *(b)* female prisoner over the age of retirement was in each of the last five years. [199674]

Maria Eagle: The Prison Service does not centrally collate purposeful activity data at prisoner level and cannot therefore express the answer in the precise format requested.

The following table shows the average number of hours of purposeful activity per week in prisons which predominately hold male prisoners and prisons which predominately hold female prisoners in each of the last five full financial years:

Average number of hours of purposeful activity per week

Financial year	*Male prisons*	*Female prisons*
2002-03	22.5	25.0
2003-04	23.3	25.3
2004-05	24.2	26.7
2005-06	25.1	27.3
2006-07	25.1	27.6

Prisons: Video Equipment

Mr. Ruffley: To ask the Secretary of State for Justice what assessment he has made of the merits of using the video-link equipment available in prisons to record interviews between police and imprisoned witnesses. [199330]

Maria Eagle: No assessment has been made within the Ministry of Justice on the benefits of using video-link equipment to record interviews between the police and imprisoned witnesses. Police forces consider the use of video links for this purpose on an individual case basis.

Prisons: Wrexham

Ian Lucas: To ask the Secretary of State for Justice pursuant to the answer of 3 April 2008, *Official Report*, columns 1188-9W, on prisons: Wales, on how many occasions representatives of NOMS custodial estates have met representatives of Wrexham county borough council to discuss the siting of a prison in Wrexham in the last 12 months. [200770]

Maria Eagle: There have been no meetings between representatives of NOMS estates and Wrexham county borough council to discuss the siting of a prison in Wrexham in the last 12 months. Representatives from NOMS estates attended meetings in August and November 2007 with the North Wales Criminal Justice Board to discuss potential sites for a prison in North Wales. These meetings included representatives from Wrexham county borough council and other councils in North Wales. In November 2007 a visit to a site put forward by the Board was also made at which a representative of the council was present. This site was not in Wrexham.

Weare Prison

Mr. Andrew Turner: To ask the Secretary of State for Justice what the mooring fees were for HMP Weare prison ship in the latest period for which figures are available. [199286]

Mr. Hanson: Following the publication of the Lord Carter Report a search is under way for a prison floating facility involving the need to make inquiries of port authorities to identify suitable berths which includes consideration of mooring fees. In these circumstances for reasons of "commercial confidentiality", I do not at this particular time intend to publish the previous fees paid to the Portland port authority.

Mr. Andrew Turner: To ask the Secretary of State for Justice from which heading of his Department's budget the mooring fees for HMP Weare prison ship are paid. [199336]

Maria Eagle: Weare prison opened in 1997 and closed in 2005. During this period the mooring fees formed part of the running costs of the ship which came from the programme element of the resource funding voted to the Prison Service. From 2005 until the facility's eventual sale in July 2006 the mooring fees were paid for by the National Offender Management Service.

FOREIGN AND COMMONWEALTH OFFICE

BBC External Services: Manpower

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what the headcount of the BBC World Service and the Russian language service was in each of the last five years. [197670]

Mr. Jim Murphy: The information is as follows.

Headcount (equivalent full-time) for the BBC World Service in each of the last five years:

Financial years	*UK*	*Overseas*	*Year end total*
2003-04	1,363	358	1,721
2004-05	1,420	457	1,877
2005-06	1,368	491	1,859

Financial years	UK	Overseas	Year end total
2006-07	1,255	456	1,711
2007-08	1,395	490	1,885

Headcount (equivalent full-time) for the BBC Russian Service in each of the last five years:

Financial years	UK	Locally engaged	Year end total
2003-04	55	41	96
2004-05	51	44	95
2005-06	57	40	97
2006-07	62	41	103
2007-08	63	47	110

Cameroon: Overseas Aid

Mr. Oaten: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Secretary of State for International Development on aid to Cameroon. [200590]

Meg Munn: My right hon. Friend the Foreign Secretary has not held recent discussions on aid to Cameroon with my right hon. Friend the Secretary of State for International Development. Government officials, however, are in regular contact on such issues.

The majority of the UK's bilateral aid to Cameroon is focused on the forestry sector, as many of the poorest Cameroonians depend on the forests for food and shelter, as well as employment. The Department for International Development is contributing roughly £11,000,000 to Cameroon's Forest and Environment Sector Programme. An additional £50,000,000 will be available under the Congo Basin Forest Fund, with Cameroon one of the countries eligible for project bids.

Cameroon: Politics and Government

Mr. Oaten: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Cameroonian President on presidential term limits. [200591]

Meg Munn: The Government supported an EU public statement on 27 March 2008, which noted that any changes to the constitution must be decided by the people and institutions of Cameroon. The statement emphasised the importance of a broad, free and open debate, involving all elements of Cameroonian society, on the proposals for constitutional revision. The statement also said

> "...the European Union remains convinced that the possibility of a changeover of power, the freedom of the press and the guaranteeing of public freedoms are fundamental to the consolidation of democracy, and draws attention to the urgent need to improve the electoral system and the standard of voter turnout, these being guarantors of the stability that the country needs."

The amendment to the Cameroonian constitution to remove presidential term limits was passed in the Cameroonian National Assembly on 10 April. We will continue to work with EU partners to encourage greater political dialogue in Cameroon.

Commonwealth Scholarship Commission: Finance

Mr. Rob Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs which organisations were consulted by his Department prior to decisions to *(a)* terminate support for the Commonwealth Scholarship Scheme and *(b)* reduce funding for the Chevening Scholarship Scheme. [198815]

Mr. Jim Murphy: The Foreign and Commonwealth Office (FCO) had broad consultations with a range of stakeholders during the 2006 review of FCO Scholarships, including the Association of Commonwealth Universities, the British Council, overseas posts and alumni. This fed into decisions to end our support for the Commonwealth Scholarship and Fellowship Plan and to reduce our funding for the Chevening Scholarship Scheme. Officials maintain regular contact with those stakeholders.

Commonwealth: Scholarships

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs what arrangements he has made to continue opportunities for collaboration between Commonwealth countries in hosting students following the termination of funding for Commonwealth Scholarships in the UK. [198713]

Mr. Jim Murphy: The Commonwealth Scholarship Commission in the UK, together with agencies in each participating Commonwealth state, will continue their work to facilitate hosting of Commonwealth scholarship students in different Commonwealth countries. The Government are withdrawing funding for Commonwealth scholarships only for developed Commonwealth countries, most of which are eligible for Chevening scholarships. Overall Government funding for Commonwealth scholarships will be higher in each of the next three years than it has been in 2007-08.

Ethiopia: Human Rights

Tony Lloyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to his counterparts in the Government of Ethiopia on security and observance of human rights in the Somali region of Ethiopia. [200399]

Meg Munn: The Government are concerned at reports of human rights abuses in the Somali region of Ethiopia and raise the issue with the Government of Ethiopia at every suitable opportunity. Recently, my noble Friend Lord Malloch-Brown raised the issue of human rights in the Somali region when he met Ethiopian Prime Minister Meles Zenawi in late January. My right hon. Friend the Foreign Secretary discussed the Somali region with the Ethiopian Foreign Minister, Seyoum Mesfin, when they met in November 2007. Our ambassador in Addis Ababa continues to raise these issues with the Government of Ethiopia at regular intervals.

Tony Lloyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the extent of observance of human rights in the Somali region of Ethiopia. [200400]

Meg Munn: We are concerned at reports of human rights abuses in the Somali region of Ethiopia. If breaches of human rights law are proved, then we will condemn them unreservedly and expect those responsible to be held to account. The UK supports the UN's lead in working with the Government of Ethiopia to improve the situation in the Somali region, including to help ensure human rights are respected fully. We recognise Ethiopia's legitimate security concerns in the region and call on Ethiopia to ensure its security response is proportionate and implemented carefully to ensure there is no suffering in the civilian population.

The Government raise their concerns with the Ethiopian Government at regular opportunities. Most recently, our ambassador in Addis Ababa discussed ways to improve the situation in the Somali region with the Ethiopian Foreign Minister, Seyoum Mesfin, in March. My right hon. Friend the Foreign Secretary discussed the Somali region with the Ethiopian Foreign Minister when they met in November 2007. My noble Friend Lord Malloch-Brown raised the issue of human rights when he met Ethiopian Prime Minister Meles Zenawi in late January.

Indonesia: Human Rights

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the treatment by the Government of Indonesia of *(a)* West Papuan protesters and *(b)* those raising flags of independence in Timika and Manokwari. [198688]

Meg Munn: Following events in Kwamki Baru, near Timika, on 1 December 2007, we understand that six people have been charged with subversion under the Indonesian criminal code. In March 2008 nine individuals were arrested in Manokwari and four in Jayapura following student protests where the 'Morning Star' flag was displayed. Flying the Papuan national 'Morning Star' flag is currently illegal under Indonesian law. Special autonomy legislation allows for the use of Papuan symbols and anthems, but the local legislation that is required to confirm the chosen symbols and anthems has yet to be passed.

Officials from our embassy in Jakarta continue to monitor the situation closely and understand that representatives from Church organisations have been allowed access to those detained.

Dr. Manfred Nowak, UN Special Rapporteur on Torture, visited Indonesia in November 2007, at the invitation of the Indonesian Government. Dr. Nowak presented his report to the UN Human Rights Council on 10 March. As part of his wider report on Indonesia, Dr. Nowak made references to prison conditions in Papua. We are continuing to study Dr. Nowak's report and are consulting with EU partners on how we might engage with the Indonesian Government on its findings.

Iraq: Oil

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the probity of the procedures for the passage of the oil and gas law in Iraq. [198790]

Dr. Howells: The draft hydrocarbons law is under discussion by the Government of Iraq and the Iraqi Parliament, in accordance with Iraq's legislative processes. It is for the Iraqi Government and Parliament to decide how best to manage Iraq's oil and gas sectors.

The draft hydrocarbons law is a result of negotiations between representatives of all of Iraq's main political parties. One of the drafting committee's members, Dr. Ashti Hawrami, Minister for Natural Resources in the Kurdistan Regional Government, was explicit on this point:

"no one has told us Iraqis what to put in the law. Iraqis alone have been deciding it. The only pressure put on us has been to move it forward and complete it".

The UK has an interest in promoting the effective management of this sector because of its importance to Iraq's reconciliation process and future prosperity, and has encouraged a balanced, technically unambiguous piece of legislation, acceptable to Iraq's main political parties.

Kosovo: Politics and Government

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the criteria are under the UN Charter under which the Government recognised the independence of Kosovo. [198447]

Mr. Jim Murphy: There are no criteria on recognition of states in the UN Charter. Recognition is a decision for individual states to make. UN Security Council Resolution 1244 provided for a political process to determine Kosovo's final status. The outcome of that process was the UN Special Envoy's Comprehensive Proposal which recommended that Kosovo should be independent, supervised by the international community.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how many members of the United Nations have not recognised the independence of Kosovo. [198448]

Mr. Jim Murphy: Of the 192 UN member states, many have yet to take a formal decision. We are aware of 18 who have publicly stated that they have decided not to recognise Kosovo. 38 UN member states, including 20 EU member states, have recognised Kosovo or signalled their intention to do so.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what response he plans to make to the proposal tabled at the United Nations by the Government of Serbia that the part of Kosovo which has a Serb majority should be transferred to Serbia. [198515]

Mr. Jim Murphy: No such proposal from the Serbian Government has been tabled at the UN. A proposal was handed to a senior representative of the UN Interim Administration Mission in Kosovo by the Serbian Minister for Kosovo. Other members of the Serbian Government have publicly distanced themselves from the proposal.

We do not believe that partition of Kosovo would be a sustainable solution or contribute to regional stability. Partition has been ruled out by the Contact Group and the EU. Both Belgrade and Pristina rejected this option during the status negotiations.

Malta: Health Services

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 25 March 2008, *Official Report*, column 140W, on Malta: health services, if he will place in the Library a copy of the speech given by UK officials defending the language on sexual and reproductive rights; whether the term sexual and reproductive rights includes abortion and a right to abortion; and if he will make a statement. [198746]

Meg Munn: During the Commission on the Status of Women in February and March 2008, the UK aligned itself with the EU speech which did refer to sexual and reproductive health rights. A copy will be placed in the Library of the House.

UK officials did not give a national speech but spoke during informal negotiations at the Commission on the Status of Women to defend language already agreed by the EU on sexual and reproductive health and rights.

The position of the Government is consistent with international agreements such as the 1994 Cairo International Conference on Population and Development (ICPD) and Beijing where there was agreement among delegations that the prevention of unwanted pregnancies should be given priority through expanded family planning services. ICPD also affirmed that in no case should abortion be promoted as a method of family planning. These agreements also recognise the health impact of abortion complications—unsafe abortion is a major cause of maternal death and injury—and agree that, where permitted by national law, abortion should be safe and that in all cases women should have access to quality services for the management of complications following abortion.

The Government consider that sexual and reproductive rights are key to improving the status of women and advancing their human rights globally and therefore should not be seen solely in the context of abortion.

Middle East: Armed Conflict

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions *(a)* he, *(b)* Ministers in his Department and *(c)* his officials have had with the President of the Palestinian Authority on future armed conflict against Israel; and if he will make a statement. [198744]

Dr. Howells: We have not raised the matter with Palestinian President Abbas, but we welcome his statement distancing himself from this alleged comment, quoted in a Jordanian newspaper. It is essential that all Palestinians and Israelis recognise that their goals of mutual recognition, peace and security can only be achieved through peaceful negotiation. The Annapolis process is a crucial window of opportunity and the UK will continue to support both sides and encourage them to make the necessary concessions.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* the UK and *(b)* other countries through the UN (i) have organised and (ii) plan to organise medical aid to assist Israeli casualties following rocket attacks from (A) Gaza and (B) the Lebanon; and if he will make a statement. [198745]

Dr. Howells: We are deeply concerned about the recent escalation of violence in Gaza and Southern Israel. The UK and the UN have no plans to organise medical aid to assist Israeli casualties following rocket attacks in Gaza and Lebanon. Israel has an effective medical aid system in place.

Syria: Foreign Relations

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent contact the Government has had with the Government of Syria; and if he will make a statement. [198516]

Dr. Howells: The UK has full diplomatic relations with Syria. Officials from our embassy in Damascus maintain regular contact with the Syrian Government.

UK Ministers have occasional contact with Syrian Ministers when we judge that such meetings would advance the UK's interests. On 8 November 2007 my right hon. Friend the Foreign Secretary and I met the Syrian Deputy Prime Minister Abdullah Dardari and Deputy Foreign Minister Faisal Miqdad at the Foreign and Commonwealth Office in London. On 28 September 2007 my right hon. Friend the Foreign Secretary met Syrian Foreign Minister Walid Muallem at the UN in New York.

We continue to call on the Syrian Government to play a constructive role in the Middle East: to cease its support for Palestinian rejectionist groups; support the Government of Iraq; and work to support the election of a consensus President in Lebanon.

HEALTH

Breast Cancer: Screening

Jon Trickett: To ask the Secretary of State for Health what the rate for breast cancer re-screening within 36 months was in (*a*) England, (*b*) West Yorkshire and (*c*) the Leeds/Wakefield screening area in each of the last six months; and what proportion of eligible women in the Leeds/Wakefield breast screening area received scans within 36 months in the most recent period for which figures are available. [199518]

Ann Keen: Data on the 36 month interval for breast cancer screening are collected quarterly by the national health service cancer screening programmes. Data for England and each breast screening unit are shown in the following table. Monthly interval rates of 38 months are also given as an indicator of how close intervals are to the national standard of 36 months.

Breast screening unit	*Percentage 36 month breast cancer screening interval rate interval rate October to December 2007*	*Percentage 38 month breast cancer screening interval rate interval rate October to December 2007*

Isle of Wight	97	98

Information on breast screening coverage in the Yorkshire and Humber Strategic Health Authority (SNA) area is shown in the following table. Coverage is the proportion of women resident and eligible that have had a test with a recorded result at least once in the previous three years.

Breast screening programme: coverage of women aged 53-64 by specified organisations, at 31 March 2007

		Eligible population[1]	Number of women screened (less than three years since last test)	Coverage (less than three years since last test) (percentage)
	England	3,690,074	2,805,717	76.0
Q32	Yorkshire and the Humber SHA	373,320	282,165	75.6
	Of which			
5NY	Bradford and Airedale Teaching PCT	30,921	23,481	75.9
5J6	Calderdale PCT	14,873	11,059	74.4
5N2	Kirklees PCT	27,772	21,795	78.5
5N1	Leeds PCT	48,067	34,507	71.8
5N3	Wakefield District PCT	25,500	17,218	67.5

Notes:
1. This is the number of women in the registered population less those recorded as ineligible.
2. The coverage of the breast screening programme is the proportion of women resident and eligible that have had a test with a recorded result at least once in the previous three years.
3. Coverage of the screening programme is currently best assessed using the 53-64 age group as women may be first called at any time between their 50th and 53rd birthdays.
4. The breast screening programme covers women aged 50-64 but it was extended to invite women aged 65-70 in April 2001. The last unit began inviting women aged 65-70 in April 2006 and full coverage should be achieved by 2008-09.

Cardiovascular System: Screening

Mr. Lansley: To ask the Secretary of State for Health how many people aged between 40 and 74 years of age received a vascular risk assessment in 2007. [199443]

Mike Penning: To ask the Secretary of State for Health how many people aged between 40 and 74 years have access to vascular risk assessments. [199885]

Ann Keen: There is no standardised format for a vascular risk assessment currently in use within the primary care system. However, we do know that many of the elements of the vascular check proposed in "Putting Prevention First" are offered to patients. Copies of this publication are available in the Library. These are not recorded under the heading of vascular risk assessment, but it is possible to make some estimates on the basis of samples of primary care data sets. For example, using a sample of 1.14 million general practice records for adults aged 40 to 74 provided by Q Research, relating to 2007, we can estimate numbers in that age group in England who have records of the four measures we are proposing should form part of a vascular risk assessment. These measures are cholesterol, smoking status, body mass index and blood pressure.

We estimate that in the five years between 2002 and 2007 an average of 620,000 adults per annum will have undergone all four measures. This excludes people who already have one or more vascular diseases because they would not be eligible for primary prevention, which is what the vascular risk assessments are intended for. In addition, from the same data we estimate that 1.2 million people are being prescribed statins for primary prevention of disease and we can assume that each of these is likely to have undergone at least some of the elements of the proposed vascular risk assessment when the initial decision to prescribe statins was made.

Chronic Fatigue Syndrome

Mr. Oaten: To ask the Secretary of State for Health what guidance he has recently issued on the diagnosing of myalgic encephalomyelitis. [200599]

Ann Keen: The National Institute for Health and Clinical Excellence has published, in August 2007, a clinical guideline on the diagnosis and management of chronic fatigue syndrome/myalgic encephalomyelitis.

Commission for Social Care Inspection: Pensions

Danny Alexander: To ask the Secretary of State for Health (1) what the cash equivalent transfer value is of the public sector pension of the Chief Inspector of the Commission for Social Care Inspection; [198445]

(2) what pensions scheme is offered to staff joining the Commission for Social Care Inspection; what the rate of employer contributions to the scheme is; and if he will place in the Library a copy of the terms and benefits of the scheme. [198446]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that the cash equivalent transfer value of the public sector pension of the Chief Inspector of CSCI equals £925,134.39p as at 31 March 2008.

We have also been informed by CSCI that the pensions scheme offered to staff joining CSCI is the Teesside Local Government Pension Scheme. For 2008-09, the employer contribution rate is 13.7 per cent. The scheme applies to the great majority of existing CSCI staff and to all new starters who opt for pension fund membership. In addition, when CSCI was created, it inherited some employees who were members of various other pension schemes. The employer contribution rate of these schemes ranges from 6.2 per cent. to 33 per cent.

The details of the terms and benefits of the scheme have been placed in the Library.

Continuing Care: Essex

Mr. Burns: To ask the Secretary of State for Health what steps the Government have taken to ensure that those in the Mid Essex Primary Care Trust area entitled to continuing NHS healthcare are receiving it; [200592]

(2) what steps he has taken in the Mid Essex Primary Care Trust area to ensure that Government guidelines on the equitable entitlement to continuing NHS healthcare achieve their objectives. [200593]

Mr. Ivan Lewis: The "National Framework for NHS Continuing Healthcare and NHS-funded Nursing Care in England", implemented from 1 October 2007, sets out the process for determining eligibility for national health service continuing healthcare. To minimise variation in interpretation of the principles outlined in the Framework and to inform consistent decision-making, the Department has developed the national decision support tool in conjunction with stakeholders. The decision support tool supports practitioners in obtaining a full picture of needs and indicates a level of need that could constitute a primary health need as set out in the Framework. The decision support tool, combined with practitioners' own experience and professional judgment, will enable them to apply the primary health need test in practice, in a way that is consistent with the limits on what can be lawfully provided by local authorities. It is too soon to gauge the Framework's impact. We will review the Framework and the decision support tool in September 2008.

We have been informed that Mid Essex Primary Care Trust is committed to the principles of continuing healthcare and to working with its partners to provide funding and support to any individual who meets the national criteria.

Dental Services: Fees and Charges

Mr. Lancaster: To ask the Secretary of State for Health what the average cost *(a)* per patient and *(b)* per visit for emergency dental treatment at a dental access centre in Milton Keynes has been since their inception. [200767]

Ann Keen: The information requested is not collected centrally. Primary care trusts (PCTs) set funding and service requirements for individual dental access centres, locally. The hon. Member may therefore wish to raise this with the chief executive of Milton Keynes PCT.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Health (1) what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997; [198294]

(2) what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198314]

Mr. Bradshaw: The information requested on what criminal offences have been abolished by primary legislation since May 1997 could be provided only at disproportionate cost.

No new criminal offences have been created by primary legislation since July 2007. However, Regulations 27 and 185 of the European Qualifications (Health and Social Care Professions) Regulations 2007 (S.I. 2007/3101), which amended the Medical Act 1983 and the Opticians Act 1983 respectively, expand the scope of existing offences in primary legislation. The Mental Health Act 2007, which was given Royal Assent on 19 July 2007 increases the maximum penalty for ill-treatment or wilful neglect (s.42).

Developing Patient Partnerships Programme: Finance

Sandra Gidley: To ask the Secretary of State for Health for what reason his Department decided to cease funding for the Developing Patient Partnerships programme; and what arrangements have been made for the continuity of the provision of its services to patients. [199338]

Mr. Bradshaw: The Department has supported Developing Patient Partnerships through two section 64 specific grants since April 2003. The latest grant covering 2006-08 was agreed with Developing Patient Partnerships on the basis they would no longer require central funding as they would be self-sufficient from April 2008 through increasing their subscriber base. Developing Patient Partnerships are currently in discussions with several organisations to make their material available to patients in the future.

Eyesight: Testing

Anne Milton: To ask the Secretary of State for Health how many and what proportion of people aged 60 and over had an NHS sight test in the last year for which figures are available. [199500]

Ann Keen: The number of general ophthalmic services (GOS) sight tests paid for by the national health service, for persons aged 60 and over, in England, in the year ending 31 March 2007 was 4,518,672. Based on Office for National Statistics population estimates for mid-2006 the sight tests number is 41.9 per cent. of the population aged over 60.

This information is available in Table B4 of the "General Ophthalmic Services: Activity Statistics for England and Wales, Year Ending 31 March 2007" report. This table also includes the number of tests for persons aged 60 and over as a proportion of the total number of sight tests.

This report, published by The Information Centre for health and social care on 31 July 2007, is available in the Library and is also available on-line at:

www.ic.nhs.uk/pubs/gosactivity310307

Numbers of GOS sight tests paid for by the NHS, for persons aged 60 and over and as a proportion of the 60 and over population for the year ending 31 March 2008 are due to be published in the "General Ophthalmic Services: Activity Statistics for England and Wales—Year Ending 31 March 2008" report. This report is due to be published, by The Information Centre for health and social care, in July 2008. This report will also include the number of sight tests for persons aged 60 and over as a proportion of the total number of sight tests.

Forced Marriage

Margaret Moran: To ask the Secretary of State for Health what monitoring and evaluation his Department carries out on the implementation of its guidance on forced marriages; and if he will make a statement. [198786]

Dawn Primarolo: The Department does not monitor the FCO-led guidance on recognising forced marriages. It is for NHS trusts and primary care trusts to monitor the performance of their own staff in recognising domestic violence, including cases of forced marriage.

Health Professions: Training

Jim Dowd: To ask the Secretary of State for Health what measures are under consideration by his Department to ensure that strategic health authorities meet their service level agreement commitments regarding multi-professional education and training. [200175]

Ann Keen: In 2007-08 a service level agreement (SLA) and accountability framework has been issued to ensure that strategic health authorities (SHAs) are held to account for the training they support. The SLA also sets out that there should be a learning and development agreement in place with service providers to underpin the education and training funds passed to national health service trusts. The role of the Department should be to focus on outputs and accountability rather than on ensuring a fixed amount of money is spent for a particular purpose regardless of local priorities. Strategic health authorities (SHAs) provide relevant financial and activity data four times per year to the Department. SHAs also published an annual investment plan by 30 June 2007 setting out their planned investment in education and training for the year. We will be asking SHAs for an end of year report on the SLA shortly. They also provide relevant financial and activity data up to four times per year to the Department.

Health Services: Finance

Mr. Lansley: To ask the Secretary of State for Health how many bids he has received for designation as an Academic Health Services Centre; and what criteria will apply to determining the outcome of such bids. [198388]

Dawn Primarolo *[holding answer 2 April 2008]*: The Department is currently in the process of developing proposals for the roll-out of Academic Health and Science Centres.

Medical Records: Disclosure of Information

Martin Horwood: To ask the Secretary of State for Health (1) whether his Department has published guidance on the duty of foundation trusts to release medical records to the next of kin of a patient who has died in their care; [198899]

(2) whether his Department has powers to require foundation trusts to release medical records to the next of kin of a patient who has died in their care. [198900]

Mr. Bradshaw *[holding answer 21 April 2008]*: Access to deceased patients' health records is permitted under the Access to Health Records Act 1990 (AHR) though this does not automatically provide a right of access for next of kin. Applications for access under the AHR may be made by the deceased's personal representative and any person who may have a claim arising from the patient's death. This may be the next of kin in some cases.

The Department has provided the national health service with guidance on access to the records of deceased but is currently reviewing this guidance in light of recent legal cases. Essentially, the decision whether or not to disclose records of the deceased is the responsibility of the organisations holding the record, taking into account obligations of confidentiality and any directions provided by the deceased individual.

The Department does not have the authority to require foundation trusts to release health records of deceased patients, but foundation trusts must comply with the AHR in the same way as other NHS trusts.

NHS: Pay

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether changes to the unsocial hours payment were agreed in the 2004 agenda for change. [199952]

Ann Keen: The agenda for change agreement included an interim regime for unsocial hours that had some early implementer and some Whitley provisions. It included an agreement that the NHS Staff Council would work toward developing a new harmonised unsocial hours arrangement. These arrangements were agreed in February 2008, with an effective date of 1 April 2008.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether he has informed NHS staff of the changes to unsocial hours payment. [199953]

Ann Keen: Responsibility for communication to individual members of staff rests with the employing organisation. However, changes to the unsocial hours arrangements were discussed, developed and agreed in partnership with the unions and NHS Employers represented on the NHS Staff Council. NHS Employers have written to employing organisations to ensure they are aware of the changes and have provided information on their website, which may be used by managers to support local briefing.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what meetings he has had with *(a)* Unison, *(b)* the Royal College of Nursing and *(c)* other representative bodies on the changes to the unsocial hours payment; and if he will place in the Library the minutes of those meetings. [199989]

Ann Keen: NHS Employers lead the negotiating machinery for changes to the terms and conditions for staff covered by the agenda for change terms and conditions. Any meetings to discuss unsocial hours with the 14 unions that represent these staff, including Unison and the Royal College of Nursing, were held by NHS Employers.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what recent changes he has made to the unsocial hours payment; and if he will break down the percentage change by *(a)* pay band and *(b)* staff role. [199990]

Ann Keen: The old arrangements were related to Whitley staff groups and pay scales, and there is no easy read-across to agenda for change pay bands. The changes to the unsocial hours payments have an effective date from 1 April 2008, the impacts will vary but in headline terms:

any time on Saturday (midnight to midnight) and any week day after 8 pm and before 6 am is time plus 50 per cent. for band 1, time plus 44 per cent. for band 2, time plus 37 per cent. for band 3 and time plus 30 per cent. for bands 4 to 9; and

all time on Sundays and public holidays (midnight to midnight) is double time for band 1, time plus 88 per cent. for band 2, time plus 74 per cent. for band 3, time plus 60 per cent. for bands 4 to 9.

It is not possible to identify what this means by role; payment depends on their band. However, it is important to note that all staff employed in ambulance organisations will remain on the original prospective agenda for change system, as it has worked well in early implementers and for national roll-out.

NHS: Public Participation

Mr. Lansley: To ask the Secretary of State for Health what quantitative public opinion research has been commissioned as part of the NHS next stage review. [198467]

Ann Keen: The national health service next stage review, 'Our NHS, our future', has commissioned two national public opinion surveys. These surveys are being used as a source of evidence to inform the findings of the review. The results of these surveys will be released in the summer.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the formula is for funding local involvement networks; and what the *(a)* unweighted funding per council and *(b)* unweighted funding per 100 people is for each local authority in 2008-09. [200169]

Ann Keen: The Department received an allocation of £84 million over three years from HM Treasury to fund the establishment and costs incurred by local involvement networks (LINks). The allocations to local authorities (LAs) were based on two elements used in many similar cases to take account of key geographical factors such as deprivation, sparsity, area costs, etc. The first was a general baseline payment of £60,000 awarded to each LA. The second was calculated according to the relative needs formula (RNF), which is used to allocate funds to LAs in other areas of work.

The RNF relates to three population groups: children, younger adults (aged 18-64) and older people (aged 65 and over). The RNF includes needs components and costs components that are specific to the three age groups. The children's formula consists of a basic amount per resident child aged 0 to 17, and top-ups for deprivation, fostering cost and area costs. The older people's formula consists of a basic amount per person aged 65 and over and top-ups for age, deprivation, sparsity, low income from fees and charges, and area costs. The younger adults' formula consists of a basic amount per person aged 18-64 and tops-ups for deprivation and area costs.

The formula is therefore defined in terms of need and costs. There is not a weighting component that could be extracted from the calculations because the calculations use local values ('weights') for 'needs' and for 'costs', and removing them would make it impossible to calculate the funding allocations. Extracting weights from the calculation would have the effect of each local authority receiving an equal funding allocation.

Using the allocations for LINks for 2008-09, we have been able to calculate the amount of local funding per 100 people (£) for 2008-09 and this is shown in the following table.

LA	*Grant per 100 people (£)*
Cornwall	48.02
Cumbria	46.75
Gloucestershire	39.85

NHS: Reorganisation

Mike Penning: To ask the Secretary of State for Health what the evidential basis is for Lord Darzi's assessment in his interim report that the NHS is perhaps two-thirds of the way through its reform programme set out in 2000 and 2002. [199431]

Ann Keen: As stated on pages 14-15 of the NHS chief executive's annual report, published on 21 June 2007, there are three stages in the journey to reform the national health service. A copy of the report has been placed in the Library and is also available at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/AnnualReports/DH_076170

The aim of the NHS Next Stage Review, "Our NHS, our future", is to identify the way forward for a 21st century NHS which is clinically-driven, patient-centred and responsive to local communities.

Nurses: Schools

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 4 March 2008, *Official Report*, column 2392W, on nurses: schools, (1) if he will break down the number of full-time equivalent fully-qualified school nurses by *(a)* region, *(b)* primary care trust and *(c)* local authority; [194727]

(2) what estimate he has made of the percentage of schools in England that are visited by a fully qualified school nurse; [194728]

(3) on nurses: schools, how many children were seen by a fully qualified school nurse in each year since 2004. [194729]

Ann Keen: No estimate has been made centrally of the percentage of schools in England that are visited by a fully-qualified school nurse or of the number of children who were seen by a fully-qualified school nurse in each year since 2004. It is for primary care trusts (PCTs) in partnership with local authorities (LAs), strategic health authorities (SHAs) and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, and to commission services accordingly. This process provides the means for addressing local needs within the health community including the provision of school nursing services.

The following table shows the number of full-time equivalent fully-qualified school nurses in England broken down by SHA and PCT.

The information showing the breakdown by LA is not collected centrally.

National health service hospital and community health services: Qualified nursing staff in the school nursing area of work as at 30 September 2007

[1] Qualified school nurse: Qualified school nurses hold the Nursing and Midwifery Council (NMC) Specialist Practice Qualification with an outcome in school nursing—which is a recordable qualification on the NMC register.
Figures are rounded to the nearest whole number.
Source:
The Information Centre for health and social care Non-Medical Workforce census.

The 2007 census showed there were 2,232 qualified nurses in the school nursing area of work, an increase of 613 or 37.86 pr cent. since 2004. Of these there were 893 school nurses with a post registration school nurse qualification. This is an increase of 286 or 47.12 per cent. since 2004.

Nurses: Training

Jim Dowd: To ask the Secretary of State for Health if he will undertake to restore the underspend by strategic health authorities on multi-professional education and training, with particular reference to nurse training for each of the last five years for which there has been an underspend. [199947]

Ann Keen: The multi professional education and training budget forms part of the national health service bundle of budgets issued to strategic health authorities (SHAs) and as such is not ring fenced. It is up to the SHAs to determine how much they spend on education and training and whether underspends should be restored to the following year's budgets in the light of their own local priorities.

Jim Dowd: To ask the Secretary of State for Health what steps his Department is taking to ensure that strategic health authorities spend their full budget allocation on nurse training. [199948]

Ann Keen: The Department is not taking any steps to ensure that strategic health authorities spend their full budget allocation on nurse training. The role of the Department should be to focus on outputs and accountability rather than on ensuring a fixed amount of money is spent for a particular purpose regardless of local priorities.

Jim Dowd: To ask the Secretary of State for Health what estimate he has made of the aggregated underspend on nurse training over the last five years. [200176]

Ann Keen: We do not allocate funding specifically to nurse training. We therefore cannot provide figures on the level of underspending for the last five years. However figures on the total underspend from the multi-professional education and training (MPET) budget are shown in the following table.

	MPET underspend (£ million)
2003-04	58.7
2004-05	86.3
2005-06	135.7
2006-07	357.0
2007-08[1]	99.0

[1] Forecast based on quarter three quarterly monitoring returns.

Peterborough and Stamford Hospitals NHS Foundation Trust: Perinatal Mortality

Mr. Stewart Jackson: To ask the Secretary of State for Health how many instances of perinatal mortality there were in Peterborough and Stamford Hospitals Foundation NHS Trust in each year since 2001; and if he will make a statement. [199930]

Ann Keen: The following table shows the number of perinatal deaths and the perinatal mortality rate for Peterborough and Stamford Hospitals NHS Foundation Trust[1] from 2001 to 2005, which are the latest data available.

[1] The trust was founded in April 2004. The data are taken from the following hospitals that are now part of the trust: Peterborough district hospital; Edith Cavell hospital; Stamford and Rutland hospital; and the district maternity unit.

	Perinatal deaths[1]	*Perinatal mortality rate*[2]
2001	31	9.4
2002	28	8.4
2003	36	10.4
2004	20	5.6
2005	24	6.9

[1] Stillbirths plus early neonatal deaths (deaths under seven days of age).
[2] Stillbirths and early neonatal deaths per 1,000 live births and stillbirths.

HOME DEPARTMENT

Alcoholic Drinks: Young People

Mr. Ellwood: To ask the Secretary of State for the Home Department how many children were *(a)* cautioned, *(b)* prosecuted and *(c)* given a penalty notice for disorder for buying or attempting to buy alcohol under age in each of the last three years for which information is available. [191306]

Mr. Coaker: The number of young persons under 18 years of age issued with a reprimand or final warning, penalty notice for disorder, or proceeded against at magistrates courts for offences relating to buying or attempting to buy alcohol under age in England and Wales for the years 2004 to 2006 can be viewed in the following tables 1 and 2. From June 2000, cautions for offenders under 18 years old were replaced by reprimands and final warnings.

Number of young persons aged under 18 years issued with a reprimand/final warning, and proceeded against at magistrates courts for certain alcohol offences in England and Wales for the years 2004 to 2006[1,2,3,4,5]

	Offence description			
	Person under 18 buying or attempting to buy or consuming intoxicating liquor ,Person under 18 buying or consuming intoxicating liquor		*Purchase of alcohol by an individual under 18*

2005	14	19	—	3
2006	6	3	2	4

- Nil
[1] These data are on the principal offence basis.
[2] Data include the following offence descriptions and corresponding statutes:
Offence Code 14316
Person under 18 buying or attempting to buy or consuming intoxicating liquor.
Person under 18 buying or consuming intoxicating liquor in licensed premises.
Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(2). Licensing Act 1964 Sec 169(2).
Offence Code 14382
Purchase of alcohol by an individual under 18.
Licensing Act 2003 S. 149(1)(7a)
[3] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings.
Reprimands and final warnings are included in the above data.
[4] The Licensing Act 2003 came into force on 24 November 2005.
[5] Every effort is made to ensure that the figures presented are accurate and complete.
However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces.
As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Court proceedings data held by RDS—Office for Criminal Justice Reform Ministry of Justice

Our Ref: IOS 205-08 (Table 2) [Contribution for PQ 191306]

Mr. Ellwood: To ask the Secretary of State for the Home Department how many instances there were of alcohol found in the possession of children being seized in accordance with section 1 of the Confiscation of Alcohol (Young Persons) Act 1997 in each of the last three years; and how many people were *(a)* cautioned, *(b)* prosecuted and *(c)* given a penalty notice for disorder, having failed to comply with such a request in each of the last 10 years. [191316]

Mr. Coaker: Offences recorded under this legislation are summary offences and as such do not form part of the recorded crime statistics collected by the Home Office.

The number of persons issued with a caution, and proceeded against at magistrates courts for offences under section 1 of the Confiscation of Alcohol (Young Persons) Act 1997 in England and Wales for the years 2004 to 2006 can be viewed in the following table.

The offence is not one for which a PND (penalty notice for disorder) can be issued; as it is not part of the scheme.

Number of persons issued with a caution, and proceeded against at magistrates courts for offences under section 1 of the Confiscation of Alcohol (Young Persons) Act 1997 in England and Wales for the years 2004-06[1, 2, 3, 4]

	Proceeded against	*Caution*
2004	12	2
2005	14	10
2006	19	5

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. The total figure of reprimands and final warnings makes up cautions.

[4] Data include the following statute and corresponding offence description:
Confiscation of Alcohol (Young Persons) Act 1997 Sec.1. Police Reform Act 2002 Sch.4 para.6 (Confiscation of Alcohol (Young Persons) Act 1997 S.1).
Failure to surrender intoxicating liquor and/or to state name and address.
Contravening a community support officer's requirement to surrender liquor.

Antisocial Behaviour Orders

Mr. Burstow: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were *(a)* issued and *(b)* breached since 31 December 2005, broken down by criminal justice system area. [200365]

Mr. Coaker: Data on how many antisocial behaviour orders have been issued and breached since 31 December 2005 are not yet available. Data from 1 January to 31 December for 2006 are due to be published shortly.

Asylum

Jenny Willott: To ask the Secretary of State for the Home Department if she will place in the Library copies of information provided about the Case Resolution Directorate to the legal representatives of individuals whose cases are to be considered by the Case Resolution Directorate; and if she will make a statement. [196103]

Mr. Byrne: No such guidance has been provided to legal representatives of individuals whose cases are being considered by the Case Resolution Directorate. Information about the Case Resolution Directorate can be found on the UK Border Agency website.

Crimes of Violence: Dorset

Mr. Letwin: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in West Dorset constituency in each of the last five years. [200926]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Hertfordshire

Mr. Gauke: To ask the Secretary of State for the Home Department how many crimes involving violence against a person were recorded in *(a)* South West Hertfordshire and *(b)* Watford constituency in each of the last five years. [200398]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Libraries of the House.

Crimes of Violence: Market Harborough

Mr. Garnier: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Harborough constituency in each of the last five years. [200415]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Criminal Records: Young People

Mr. Hayes: To ask the Secretary of State for the Home Department how many people under the age of 18 years gained a criminal record in each year since 1997. [188571]

Mr. Coaker: Although annual figures for each year since 1997 are not available, the Statistical Bulletins on juvenile re-offending published by the Ministry of Justice show quarterly figures for the number of offenders aged 10-17, who at the time of receiving a reprimand, final warning or conviction had no previous offences.

Figures are available for cohorts of offenders from the first quarters of 2000, 2004 and 2005. The cohorts are constructed in order to measure re-offending and therefore exclude juveniles receiving custodial sentences but include juveniles discharged from custody during each quarter.

The numbers of juveniles with no previous offences in each of the quarterly cohorts were as follows:

	Number
2000	21,546
2004	23,379
2005	24,739

These figures have been derived from the police's administrative IT system, which, as with any large scale recording system, is subject to possible errors with data entry and processing.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for the Home Department at how many events held by her Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment her Department has made of the merits of serving Fairtrade wine at future events. [196951]

Mr. Byrne: Figures for the number of events held by my Department at which wine was served are not available. Fairtrade wine is not currently offered at the Home Office HQ at 2 Marsham Street but the facilities provider will be invited to make an assessment of the merits of doing so at future events.

Departmental Carbon Emissions

John McDonnell: To ask the Secretary of State for the Home Department whether her Department has adopted the Carbon Trust's Carbon Management Programme or plans to do so in the next 12 months. [198046]

Mr. Byrne: My Department has committed to working with the Carbon Trust to address its carbon emissions.

John McDonnell: To ask the Secretary of State for the Home Department whether her Department met the target in the sustainable operations on the Government estate to reverse the then upward trend in carbon emissions by April 2007. [198047]

Mr. Byrne: My Department did not meet the sustainable operations target on the Government office estate to reverse the then upward trend in carbon emissions by April 2007. The target related to the Department's offices which increased substantially in number through the inclusion in the figures of the national probation service estate. After allowing for this, an increase in emissions of 12 per cent. occurred. There are a range of other factors that need to be taken into account, including density of occupation, IT provision and use of air-conditioning across the estate.

Departmental Fixed Penalties

Mr. Ruffley: To ask the Secretary of State for the Home Department how many fixed penalty tickets were incurred by vehicles within the purview of her Department in the last five years; and what the total cost was. [200487]

Mr. Coaker: This information is not collected centrally.

Departmental Public Relations

Mr. Jeremy Browne: To ask the Secretary of State for the Home Department how many external contracts her Department held with public relations companies in each of the last 10 years; and what the total cost of those contracts was. [183165]

Mr. Byrne: Government policies and programmes affect the lives of millions of people, and in order for them to work they must be communicated effectively. The Home Office communicates directly to the public through individual campaigns that provide advice, information and reassurance. These campaigns are often supported by paid-for PR activity which is essential to ensure broader reach of our target audiences.

The following information details the number, nature and cost of PR contracts for the last five years (not including the current financial year). The costs include resources required to generate PR and any necessary supporting materials. Collating information for the last 10 years would incur disproportionate costs in terms of staff time.

Nature of PR contract	*Cost £*
2002-03	
Contracts (Number)	4
Total cost	257,484
Drugs Misuse	79,219
Criminal Justice	36,900
Mobile Phone Safety	44,190
Child Protection on the Internet	97,175
2003-04	
Contracts (Number)	5
Total cost	975,909
Holocaust Memorial Day	44,142
Security Industry Authority	150,573
Domestic Violence	75,000
Sexual Offences Act	56,465
Citizenship	650,729
2004-05	
Contracts (Number)	13
Total cost	3,037,320
Mobile Phone Safety	44,190
Acquisitive Crime Reduction	260,373.99
Antisocial Behaviour	646,570
Sexual Offences Act	128,359
Criminal Justice	982,410
Domestic Violence	75,000
Year of the Volunteer	210,769.95
Police—High Potential Development	62,760
Alcohol and Violent Crime	501,692
Drugs	71,239

Nature of PR contract	Cost (£)
Communities	18,412
Familial Homicide	4,940
Holocaust Memorial Day	30,586
2005-06	
Contracts - Number	-
Total cost	1,377,633
Antisocial Behaviour	363,040
Criminal Justice	265,780
Year of the Volunteer	74,027
Police - High Potential Development	41,400
Community Support Officers Recruitment	2,380
Tackling Violent Crime	156,620
Drugs	474,386
2006-07	
Contracts - Number	-
Total cost	975,301
Criminal Justice	174,473
Community Sentences	193,181
Drugs	374,666
Single Non Emergency Number Pilots	29,186
Community Support Officers Recruitment	113,511
Police - High Potential Development	28,716
Respect	61,568

Departmental Publications

Mr. David Jones: To ask the Secretary of State for the Home Department what guidance is issued to members of her Department on the authorship and publication on the internet of material relating to their official duties; and if she will make a statement. [196751]

Mr. Byrne: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for the Home Department whether her Department is on course to meet the sustainable operations on the Government estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [198045]

Mr. Byrne: I direct the right hon. Member to the 2007 Sustainable Development in Government report, a copy of which is held in the House of Commons Library.

John McDonnell: To ask the Secretary of State for the Home Department whether her Department is working towards an accredited certified environmental management system *(a)* for its whole estate and *(b)* in some of its buildings. [198048]

Mr. Byrne: My Department's facilities supplier has implemented an accredited ISO 14001 environmental management system in our 2 Marsham Street headquarters building. My Department is also working toward accredited certified environmental management systems in some of its other buildings within the framework of a corporate environmental management system.

Deportation: EU Countries

Peter Luff: To ask the Secretary of State for the Home Department if she will raise in the EU Justice and Home Affairs Council the procedures for notifying other member states when a member state deports an EU national from another state following conviction for a serious criminal offence; and if she will make a statement. [197671]

Mr. Byrne: The UK Border Agency may disclose information to a foreign Government regarding an individual's criminal conviction provided the provisions of the Data Protection Act 1998 and Human Rights Act 1998 are met.

Domestic Violence

Tim Farron: To ask the Secretary of State for the Home Department how many applications have been made under the domestic violence rule; and how many have included children in the last three years. [199963]

Mr. Byrne *[holding answer 21 April 2008]*: The number of applications received under the domestic violence rule in the last three years is 3,505. Of these 3,505 applications, 570 included one or more children as part of the application.

Entry Clearance: Employment

Mr. Clappison: To ask the Secretary of State for the Home Department further to the answer of 14 January 2008, *Official Report*, column 1048W, on entry clearances: employment, if she will give a breakdown by nationality of those receiving leave to *(a)* enter and *(b)* remain under the International Graduate Scheme. [181145]

Mr. Byrne: The information is provided in the following tables:

(a) Leave to enter in Table A

The difference in total from that previously indicated is that the figures provided are up to 31 December 2007.

(b) Leave to remain in Table B

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

* Indicates one or two

Notes:

1. The data in this publication are based on management information, are provisional and may be subject to change. The data are not National Statistics.

2. Figures rounded to nearest five. Because of rounding, figures may not add up to totals shown.

Genetics: Databases

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people living in Romford were registered on the national DNA database at the most recent date for which figures are available. [186911]

Meg Hillier: It is not possible to provide figures for the number of people registered on the National DNA Database (NDNAD) who are resident in a particular area, as the NDNAD does not hold address details.

Heathrow Airport: Security

Tim Farron: To ask the Secretary of State for the Home Department for what reason it was decided to take fingerprint impressions from domestic transfer passengers at Heathrow airport; and what use was to be made of the information gathered. [199173]

Mr. Byrne *[holding answer 21 April 2008]*: In the building of Terminal 5 at Heathrow, the British Airports Authority (BAA) took the decision to introduce a Common Departure Lounge (CDL). BAA was required to ensure that any immigration risks arising from the mixing of domestic and international passengers were mitigated.

It is the intention that the admission of domestic passengers into the lounge will be controlled by means of biometric fingerprint enrolment together with a digital photograph, the details of which will then be validated at boarding. This system will ensure that only those individuals entitled to travel within the UK as a domestic passenger can do so. However, to ensure that the proposed system is fully validated by the Information Commissioner, it has been agreed that the system will operate using only digital photography until such validation is given.

BAA has undertaken that all data obtained will immediately be encrypted and destroyed within 24 hours in accordance with the Data Protection Act. They have confirmed that data stored do not include any personal details and are not cross referenced with any other database or organisation.

Illegal Immigrants: China

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how many Chinese people have been arrested during raids carried out under the stop illegal working campaign; how many of those were found to be *(a)* illegal workers and *(b)* employers of illegal workers; and, of those found to be illegal workers, how many have been (i) deported, (ii) detained and (iii) released on bail. [198529]

Mr. Byrne: From 14 January 2008 to 31 March 122 Chinese nationals were arrested following illegal working operations, all of whom were found to be working illegally. We do not record the nationality of employers of illegal workers arrested. This information is derived from provisional local management information which may be subject to change.

Information relating to questions (i) (ii) (iii) could be obtained only by the detailed examination of individual records at disproportionate cost.

Illegal Immigrants: Employment

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department in how many of the raids conducted under the stop illegal working campaign were the illegal workers discovered of predominantly *(a)* Chinese, *(b)* Indian, *(c)* Pakistani and *(d)* Malaysian nationality. [198531]

Mr. Byrne: This information is not recorded.

Immigrants: Personal Records

Damian Green: To ask the Secretary of State for the Home Department what data her Department collects from landing cards completed by migrants arriving in the UK; and if she will make a statement. [199714]

Mr. Byrne: All passengers who are citizens of countries outside of the European Economic Area and who arrive in the United Kingdom from outside of the Common Travel Area are required to complete their name, date of birth, nationality, gender, address in the United Kingdom and signature on a landing card.

In cases where a passenger has been granted leave to enter, immigration officers will place any conditions of entry and an admission category on the landing card. In certain circumstances immigration officers will make notes on the reverse of the landing card about a passenger's intentions and duration of stay and will record details of their travel document. In cases such as these, landing cards are copied and retained on microfiche.

Immigration: Detainees

Mr. Ruffley: To ask the Secretary of State for the Home Department what guidance is issued to police forces on the holding of immigration detainees in police cells; and if she will place in the Library a copy of such guidance. [198501]

Mr. Byrne: The Police and Criminal Evidence Act 1984 (PACE) applies to all persons detained in police custody, including those detained under immigration legislation. Copies of PACE are available in the Library.

No additional guidance specifically for immigration detainees has been issued.

Immigration: Fees and Charges

Kerry McCarthy: To ask the Secretary of State for the Home Department if she will amend the Fees Regulations for applications for indefinite leave to remain to allow for payment by instalments in exceptional circumstances. [199939]

Mr. Byrne: We do not have any plans to make changes to the fee regulations to allow payment by instalments.

Immigration: Forced Marriage

Margaret Moran: To ask the Secretary of State for the Home Department what data her Department collects in respect of immigration applications arising from forced marriage. [198798]

Meg Munn: I have been asked to reply.

The joint Foreign and Commonwealth Office/Home Office Forced Marriage Unit records a variety of data on cases they handle where the sponsor of an immigration application informs the unit that they have been forced into marriage and are reluctantly sponsoring the application. Since 2006 the Forced Marriage Unit has handled the following numbers of reluctant sponsor cases:

2006: 92 cases (69 Pakistan, 12 India, 10 Bangladesh, 1 Sudan);

2007: 95 cases (63 Pakistan, 15 Bangladesh, 11 India, 1 United Arab Emirates, 1 Albania, 2 Yemen, 1 Jordan, 1 Turkey); and

2008 (to date) - 67 cases (63 Pakistan, 3 Bangladesh, 1 India).

Immigration: Forms

Mr. Hoban: To ask the Secretary of State for the Home Department what forms individuals seeking *(a)* indefinite leave to remain, *(b)* asylum, *(c)* visa entry to the UK and *(d)* UK citizenship are required by her Department to complete. [198993]

Mr. Byrne: The forms to be completed for each of the purposes requested are set out in the following table:

Further information as to which form should be used for a particular purpose can be found on the UK Border Agency website or, in the case of visa entry to the UK, is available from British Diplomatic posts abroad.

Purpose sought	*Forms to be completed*	*Comment*
Indefinite leave to remain	One of the following:	The form to be used is dependent on the grounds for seeking indefinite leave to remain

Karian and Box

Mr. Hands: To ask the Secretary of State for the Home Department what the value was of each contract awarded by her Department to Karian and Box since 1997. [199634]

Mr. Byrne: From best available records the Home Department inclusive of its executive agencies has not awarded contracts to Karian and Box.

Members: Correspondence

Mr. Lidington: To ask the Secretary of State for the Home Department when her Department expects to reply to the letter from the hon. Member for Aylesbury of 27th October 2007 about the case of Mr J K of Aylesbury (reference B30208/7; \\\\\k1031482/3) about which the hon. Member wrote to the Border and Immigration Agency on 24th January. [198901]

Mr. Byrne *[holding answer 21 April 2008]:* The UK Border Agency wrote to the hon. Member in relation to this matter on 27 February 2008. A further letter was sent on 4 April 2008.

Offensive Weapons

Mr. Burstow: To ask the Secretary of State for the Home Department how many offences involving use of a knife there were in *(a)* each London borough and *(b)* England and Wales, broken down by type of offence, in the last 10 years; and if she will make a statement. [200370]

Mr. Coaker: It is not possible to identify those offences which are knife-related from the data centrally collected on recorded crime. However, since April 2007, police forces have been providing separate aggregate data on serious violence involving knives. Home Office statisticians will assess the quality of these data and it is planned that figures for 2007-08 will be published in the main crime bulletin in July 2008.

Available data from the Homicide Index relate to offences currently recorded as homicide where the apparent method of killing is 'sharp instrument'. Between 1997-98 and 2006-07 police in England and Wales recorded 2,333 such homicides, 635 of which were recorded by the City of London or Metropolitan police forces. These data cannot be broken down to a more local level than police force area.

The Government fully recognise the importance of tackling knife crime. This is a complex issue and we are using a variety of measures, encompassing legislation, enforcement, education and prevention, to address it. On 18 February we published a new Tackling Violence Action Plan, outlining plans to tackle serious violence, including knife crime.

Press

Mr. Laws: To ask the Secretary of State for the Home Department how many press office staff were employed by *(a)* her Department, *(b)* its agencies and *(c)* its non-departmental public bodies (i) in each year since 1996-97 and (ii) at the latest date for which information is available. [189649]

Mr. Byrne: Media relations for the whole Department and agencies are handled by the Home Office Communication Directorate based press office. Press office staff who deal with the media are employed at the information and senior information officer grades.

The following table provides information on the numbers of staff employed or managed by the Communication Directorate during the past 10 years. Data on staff numbers in earlier years and non-departmental bodies are not held centrally and could be collected only at disproportionate cost.

	Press officers
1999	13
2000[1]	16
2001[1]	31
2002	35
2003	39
2004	43
2005	38
2006[2]	34
2007	35
March 2008[3]	32

[1] Prison Service and core Home Office press office merged.
[2] The total number of press officers for 2006 onwards includes two part timers, who are employed as a job share.
[3] Machinery of Government changes May 2007, 11 press officer posts transferred to the Ministry of Justice. The total also includes five Border and Immigration Agency regional press officers, whose posts were created in 2007.

Prisoners: Foreigners

Mr. Clappison: To ask the Secretary of State for the Home Department what data are held by her Department on non-UK national detainees released from prison without notification to the Department at the time; and what estimate she has made of the number of non-UK national detainees not included in data at all, as referred to by the National Audit Office report Asylum and Migration: a review of Home Office statistics (HC (2003-04) 625) of 25 May 2004. [180514]

Mr. Byrne: The section of the National Audit Office report on Asylum and Migration statistics published on 25 May 2004 to which is referred relates to the accuracy of statistics held by IND (now known as the UK Border Agency) governing the number of individuals held in detention for immigration reasons.

Since the report was published, the DELMIS system, to which it referred, has been superseded by a different system known as the Case Information Database (CID).

This is designed for use within all areas of the agency as opposed to just the Detention Service Directorate. It is through CID that the agency is able to ensure that it keeps accurate records on all individuals' immigration cases as well as ensuring that caseworkers are aware of where an individual resided or whether they were detained.

The chief executive of the UK Border Agency has written to the Home Affairs Committee on several occasions over the past 18 months and explained that we have reviewed and strengthened our processes in identifying those foreign nationals serving custodial sentences and should be considered for deportation following the events of April 2006.

Rape

Mr. Ruffley: To ask the Secretary of State for the Home Department how many allegations of rape were reported to the police by *(a)* women and *(b)* men in each of the last 10 years; how many reports of rape resulted in prosecutions; and how many such prosecutions were successful in each year. [198461]

Mr. Coaker: Details on the number of allegations of rape are not collected centrally.

The Home Office collects crime statistics on the numbers of rape offences recorded by the police in England and Wales and data for 1997 to 2006-07 are given in table 1.

Data showing the number of defendants proceeded against and found guilty of rape, in England and Wales, 1997 to 2006 are shown in table 2.

The figures given in table 2 relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Police recorded crime (notifiable) data and court proceedings data are not directly comparable. Recorded crime data, published on a financial year basis, concentrate on the numbers of offences and detections, whereas court proceedings data are published on a calendar year basis and concentrate on defendants.

Table 1: number of recorded offences of female and male rape, England and Wales, 1997 to 2006-07

	Offences recorded
1997	6,628
1997-98[1]	6,898
1998-99[2,3]	7,636
1999-2000[2,3]	8,409
2000-01[2,3]	8,593
2001-02[2,3]	9,734
2002-03[4,5]	12,295
2003-04[4,5]	13,272
2004-05[4,5,6]	14,013
2005-06[4,5,6]	14,443
2006-07[4,5,6,7]	13,780

[1] The number of crimes recorded in that financial year using the coverage and is in use until 31 March 1998.
[2] The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for earlier years.
[3] These data are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.
[4] These data take account of the introduction of the National Crime Recording Standard in April 2002. These figures[3]are not directly comparable with those for earlier years.
[5] Includes British Transport Police from 2002-03.
[6] The Sexual Offences Act 2003, introduced in May 2004, altered the definition and coverage of sexual offences.

Table 2: number of defendants proceeded against at magistrates' courts and found guilty at all courts for rape[1], England and Wales, 1997 to 2006[2,3]

	Proceeded against	*Found guilty*
1997	1,961	618
1998	2,185	675
1999	2,169	659
2000[4]	2,046	598
2001	2,651	572
2002	2,945	655
2003	2,790	673
2004	2,689	751
2005	2,826	796
2006	2,567	863

[1] Includes rape of a female, rape of a male, attempted rape of a female and attempted rape of a male.
[2] These data are on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[4] Staffordshire police force were only able to supply a sample of data for magistrates courts proceedings covering one full week in each quarter for 2000. Estimates based on this sample are included in the figures.

Vandalism: Bus Services

Robert Key: To ask the Secretary of State for the Home Department how many offences of criminal damage to bus shelters were recorded in *(a)* Wiltshire and *(b)* Swindon in 2007; how many (i) prosecutions and (ii) convictions resulted; and if she will estimate the number of unrecorded offences of criminal damage to bus shelters in (A) Wiltshire and (B) Swindon in 2007. [200905]

Mr. Coaker: The information requested is not available centrally. Offences of criminal damage to bus shelters would be recorded under the Home Office classification 'Other criminal damage' and such offences cannot be separately identified from other offences recorded within that classification. For the same reason, statistics for prosecutions and convictions are not available from the court proceedings database held by the Ministry of Justice.

It is not possible to estimate the number of unrecorded offences of criminal damage to bus shelters.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for the Home Department how much her Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199610]

Mr. Byrne: The Home Office's accounting systems hold the following records of payments to Zurich Financial Services.

Purpose	2005-06[1]	2006-07	£ 2007-08
Rent and service charge for accommodation	6,962.50	—	—
Rent and service charge for accommodation	6,962.50	—	—
Rent and service charge for accommodation	6,962.50	—	—
Rent and service charge for accommodation	14,828.21	—	—
Rent and service charge for accommodation	10,417.19	—	—
Rent and service charge for accommodation	6,962.50	—	—
Vehicle insurance	225.71	—	—
Rent and service charge for accommodation	—	6,962.50	—
Rent and service charge for accommodation	—	6,962.50	—
Rent and service charge for accommodation	—	6,962.50	—
Building insurance	—	9,622.93	—
Rent and service charge for accommodation	—	6,918.00	—
Rent and service charge for accommodation	—	—	8,426.37
Rent and service charge for accommodation	—	—	8,292.91
Annual total	53,321.11	37,428.43	16,719.28

[1] 2005-06 covers payments for 2003-04 and 2004-05 as well as 2005-06.

Written Answers to Questions

Thursday 24 April 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bluetongue Disease: Vaccination

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will hold discussions with the Federation of Veterinarians of Europe on the Government's bluetongue vaccination strategy. [198119]

Jonathan Shaw: We have no plans to hold discussions with the Federation of Veterinarians of Europe to discuss DEFRA's vaccination plan.

Coastal Areas: Access

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what consideration he has given to the extension of the right to roam to encompass the foreshore; and if he will make a statement. [201271]

Jonathan Shaw: Part 9 of the draft Marine Bill which we published on 3 April 2008 contains provisions for improving access to the English coast. The draft Bill includes provisions to provide a coastal margin, within which people will be able to walk along a long-distance route for the length of the English coast (with certain exceptions, including, for example, developed land). In addition people will have access to coastal land including the foreshore, beaches, cliffs, rocks and dunes, for the purposes of open-air recreation on foot. It is unlikely that the route itself will be established over the foreshore, but the coastal margin (to which the public will have access for open-air recreation) will be.

The right of access under the draft Marine Bill will be established by means of an Order under section 3A of the Countryside and Rights of Way Act 2000, and the approval of a proposal for a long-distance route on a particular stretch of coast will be made under the procedures in the National Parks and Access to the Countryside Act 1949.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* permanent Civil Service posts, *(b)* permanent non-Civil Service posts and *(c)* temporary or agency workers in employment there were in his Department in each month since May 2005. [199621]

Jonathan Shaw: The Office for National Statistics publishes Civil Service employment statistics every quarter in the Public Sector Employment First Release. The latest statistics published are for Q4 (December) 2007. These can be viewed at:

http://www.statistics.gov.uk/pdfdir/pse0308.pdf.

Table 6 of the publication provides a breakdown of employment by Government Department. This has been available since Q1 2006, and since Q4 2006 it has included a breakdown of permanent and temporary/casual employees. Links to the on-line publications can be viewed at:

http://www.statistics.gov.uk/ReleaseCalendar/findreleases.asp?releasetitle=Public+Sector+Employment&releaseorganisation=42&releasetheme=&daterange=3&sday=18&smonth=03&syear=2008&ShowHits=10&SortOrder=0&ShowYear=2008.

Prior to 2006 Civil Service employment numbers were available on only an annual basis. A link is provided to the Civil Service statistics on the Cabinet Office website:

www.civilservice.gov.uk/about/statistics/archive/index.asp.

Civil Service statistics collected are the number of employees and not the number of posts. An employee covering multiple posts is counted only once and no information on vacancies is held.

The ONS does not publish statistics for non-Civil Service posts broken down by Government Department.

Information on employment agency workers could be provided only at disproportionate cost.

Flood Control: West Sussex

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the value of assets at risk from flooding in Selsey over the next 20 years; and what probability assessment is attached to the estimate. [200158]

Mr. Woolas *[holding answer 21 April 2008]*: There are currently 1,028 residential properties at risk of flooding between Pagham and East Head, which have an estimated total asset value (based upon work completed to date) of around £250 million. Due to sea level rise, this figure is expected to increase to 1,230 properties by 2028. This equates to an estimated value of £300 million in 2028 at today's prices.

The existing defences at Selsey East Beach currently provide protection against a one in 200 year storm and it is expected that these will remain in place for at least the next 20 years.

Geographical Information Systems

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 25 March 2008, *Official Report*, column 126W, on geographical information systems, which Government Departments and agencies other than his own have been given access to the Shared Spatial Information Service. [199509]

Jonathan Shaw: The following organisations outside of DEFRA and its executive agencies have registered users who have access to the Shared Spatial Information Service (SPIRE):

British Waterways
Energy Saving Trust
English Heritage
Environment Agency
Government Office for the English Regions

Joint Nature Conservatory Council
Meat Hygiene Service
Natural England
Ordnance Survey
Pesticide Safety Directorate
Forest Research
Forestry Commission

Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department provides health or social care services out of public funds, with reference to the Statement by the Minister of State, Department of Health, in the Health and Social Care Bill Committee, of 17 January 2008, *Official Report*, column 327. [200228]

Jonathan Shaw: DEFRA does not currently provide health and social care services paid for out of public funds.

Natural England: Early Retirement

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many employees of Natural England have *(a)* been offered and *(b)* accepted early retirement in the last 12 months; and if he will make a statement. [197076]

Jonathan Shaw *[holding answer 26 March 2008]:* We do not hold this information as Natural England is a non-departmental public body (NDPB).

I have asked Dr. Helen Phillips the chief executive of Natural England to write to you with the information requested.

Rabies: Disease Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to prevent incidents of rabies in the UK; and if he will make a statement. [201258]

Jonathan Shaw: Under the Rabies (Importation of Dogs, Cats and Other Mammals) Order 1974 (as amended) all dogs, cats and many other mammals must be licensed into quarantine for six months on arrival in the United Kingdom.

The only exception to those that would normally require quarantine is for dogs, cats and ferrets that enter under the Pet Travel Scheme (PETS) rules, or when animals enter the UK as commercially traded animals where they have to comply with other strict requirements.

HEALTH

Chronic Fatigue Syndrome

Mr. Oaten: To ask the Secretary of State for Health what evaluation he has made of research on the effects of genetics on people with myalgic encephalomyelitis. [200265]

Dawn Primarolo *[holding answer 23 April 2008]:* None.

Dental Services: Stroud

Mr. Drew: To ask the Secretary of State for Health what plans he has to increase access to NHS dentistry in Stroud constituency. [201460]

Ann Keen: It is for primary care trusts (PCTs) to commission health services, including dentistry, to meet the needs of their local populations. My hon. Friend may therefore wish to raise this with the chief executive of Gloucestershire PCT.

Increasing the number of patients seen within national health service dental services is now a formal priority in the "NHS Operating Framework" for 2008-09, and we have supported this with a substantial 11 per cent. uplift in overall allocations to PCTs from 1 April 2008.

Disabled: Children

Mr. Harper: To ask the Secretary of State for Health (1) what recent discussions he has had with the Secretary of State for Children, Schools and Families on the provision of short breaks for disabled children; [201345]

(2) what recent guidance has been issued to primary care trusts on support for short care breaks for disabled children. [201346]

Mr. Ivan Lewis: I jointly chair the Aiming High for Disabled Children (AHDC) Ministerial Implementation Group with my noble Friend Lord Adonis, Parliamentary Under Secretary of State for Children, Schools and Families. We wrote to primary care trusts (PCTs) and local authorities (LAs) on 19 December 2007, setting out the investment and growth funding put in place to support our commitments and priorities for disabled children set out in the "Children's Plan" and the "National Health Service Operating Framework". This includes substantial investment to increase the range and number of short breaks. Copies of the letter have been placed in the Library.

We will shortly be issuing guidance to PCTs and LAs to inform their delivery of the AHDC Short Break Transformation programme. The Government are also commissioning a national support body to assist PCTs and LAs in their implementation of the improved provision of short breaks.

Doctors

Mr. Oaten: To ask the Secretary of State for Health if he will bring forward proposals to fund the work of specialised pre-hospital doctors outside London. [199405]

Mr. Bradshaw *[holding answer 21 April 2008]:* The Department acknowledges the valuable support that these doctors offer to the national health service locally, recognising that the availability of medical advice and assistance can bring added advantages to some seriously injured patients. However, it is a matter for the NHS locally to both fund and decide how they use British Association of Immediate Care doctors.

Drugs: Fees and Charges

Greg Mulholland: To ask the Secretary of State for Health (1) what estimate his Department has made of the costs associated with running a further consultation on Part IX of the Drug Tariff; [201227]

(2) when his Department plans to publish its further consultation on Part IX of the Drug Tariff; and if he will make a statement. [201228]

Dawn Primarolo: The costs associated with running a further consultation have been estimated at £393,000. These costs will be for the services of professional advisors. The Department's costs are part of its ongoing operational budget.

The Department intends to publish a further consultation regarding the arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—in primary care towards the end of May 2008. An impact assessment and equality impact assessment will be published alongside this.

Eyes: Diseases

Mr. Dunne: To ask the Secretary of State for Health how many people had a diagnosis of keratoconus at the latest date for which figures are available, broken down by primary care trust. [200438]

Ann Keen: The Department does not collect data on the total number of people with a diagnosis of keratoconus. The majority will receive contact lenses or glasses from their optometrist or ophthalmic medical practitioner, and will have their condition managed in the community.

Patients with more advanced keratoconus may be seen by the hospital eye service on an outpatient basis. The Information Centre for health and social care collects data on outpatient attendances but these data cannot be broken down by diagnosis.

A very small proportion of those with keratoconus, mainly those requiring corneal grafting, will be seen as inpatients. The following table shows the count of hospital admissions for those with a primary diagnosis of keratoconus[1] broken by strategic health authority (SHA) area. The data could not be broken down by primary care trust given the small numbers involved.

[1] A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission with the year.

Current SHA of residence	*Total hospital admissions*
North East SHA	23
North West SHA	83
Yorkshire and the Humber SHA	142
East Midlands SHA	67
West Midlands SHA	86
East of England SHA	60
London SHA	168
South East Coast SHA	36
South Central SHA	45
South West SHA	54
Non England and unknown	19
Total	783

HIV Infection

Mr. Drew: To ask the Secretary of State for Health how many *(a)* males and *(b)* females aged (i) under 21, (ii) 22 to 35, (iii) 36 to 50 and (iv) over 50 years were diagnosed with HIV/AIDS in each of the last five years, broken down by primary care trust. [201287]

Dawn Primarolo: The information requested, which has been provided by the Health Protection Agency, is only available in the age ranges 15 to 24, 25 to 34, 35 to 44, 45 to 54 and 55 and above and has been placed in the Library.

Macular Degeneration

Anne Main: To ask the Secretary of State for Health what reports his Department has received on the efficacy of essential fatty acids and lutein in slowing the progress of age-related macular degeneration. [200776]

Ann Keen: The Department has received no reports on the efficacy of essential fatty acids and lutein in slowing the progress of age-related macular degeneration.

Mental Health Services: Greater London

Sarah Teather: To ask the Secretary of State for Health how much funding was allocated to each mental health trust in London by his Department in each year since 1997. [200272]

Mr. Bradshaw: The information requested is not held centrally.

The Department makes revenue allocations to primary care trusts (PCTs), but not to national health service trusts or mental health trusts. It is for PCTs to determine how to use the funding allocated to them to commission services to meet the health care needs of their local populations.

Commissioners, mainly PCTs, pay NHS trusts to provide services, and the trusts recognise this as income and not as funding.

Multiple Sclerosis

Kerry McCarthy: To ask the Secretary of State for Health (1) if he will appoint a national director for multiple sclerosis; [201285]

(2) what assessment he has made of the effects of the National Service Framework for Long-Term Conditions on the provision of services and staffing for people with multiple sclerosis. [201286]

Ann Keen: We have not assessed the effect of the "National Service Framework (NSF) for long term conditions" on service provision for people with multiple sclerosis. The NSF has a 10-year implementation programme from its publication in March 2005, with flexibility for organisations to set the pace of change locally to take account of differences in local priorities and needs.

We have no plans to appoint a national director for multiple sclerosis. National directors oversee the implementation of specific NSFs or major clinical or

service strategies. In line with devolving responsibility to local organisations, we believe that it is more appropriate for local health and social care communities and the third sector to take responsibility for driving forward the service changes and improvements envisaged by the NSF for long- term conditions.

NHS: Finance

Mr. Harper: To ask the Secretary of State for Health pursuant to paragraph 5.33 of the 2007 Comprehensive Spending Review, how much growth funding has been included in each primary care trust's baseline allocations for 2008-09 to enable them to work with local authorities to significantly increase the range and number of short breaks for disabled children; whether this money is ring-fenced; and if he will make a statement. [201347]

Mr. Bradshaw: The 2008-09 primary care trust (PCT) revenue allocations were announced on 13 December 2007. These represent £74.2 billion investment in the national health service, nearly £4 billion more than in 2007-08. All PCTs will receive an above inflation cash increase of 5.5 per cent., a total cash increase of £3.8 billion. The funding for services to support disabled children forms part of this allocation.

It is for PCTs to determine how to use the funding allocated to them to commission services to meet the health care needs of their local populations. The Department deliberately does not break down PCT allocations into funding for individual policy programmes, as this would constrain local innovation and decision taking. Instead, the approach the Department takes is to be clear about the priorities for the NHS through the Operating Framework. It is then for the NHS to decide how best to achieve those outcomes in the light of local needs and circumstances, including the level of resources to invest.

NHS: Leaflets

Sandra Gidley: To ask the Secretary of State for Health how much was spent on producing NHS leaflets in languages other than English in 2006-07. [197870]

Mr. Bradshaw: The information is not recorded in the format requested by financial years. National health service publications are produced by the Department as well as by NHS agencies and local organisations and records are not held centrally.

The Department commissioned translation services at a total cost of £180,319.29 in the calendar year 2006 and £141,352.03 in the calendar year 2007. These costs were for publications branded either NHS or Departmental or jointly branded, as well as for the translation of correspondence and guidance. Printing or recording and production costs are not included in these figures.

Nurses: Uniforms

Dr. Tony Wright: To ask the Secretary of State for Health what guidance his Department has issued to nurses and other medical staff on wearing uniforms beyond hospital premises; and what assessment his Department has made of the risk of infection arising from nurses and medical staff wearing uniform outside hospitals. [200349]

Ann Keen: The Department has published, 'Uniforms and Workwear: An evidence base for developing local policy' (September 2007), which sets out the evidence[1] relating to good and poor practice relating to the wearing of uniforms. The publication states that "there is no conclusive evidence that uniforms pose a significant hazard in terms of spreading infection". It acknowledges, however, that patient confidence may be undermined if staff are seen travelling in uniform and states that; "it is good practice to change into and out of uniform at work" or "to cover uniform when travelling to and from work". The publication is intended for use by individual trusts in determining their own policies on the wearing of uniforms in and around the workplace.

[1] An evidence-base developed by Thames Valley University, (authors: JA Wilson, H.P. Loveday, P.N. Hoffman and R.J. Pratt)

Patient Choice Schemes: Costs

Mr. Redwood: To ask the Secretary of State for Health how much the NHS Choose and Book IT project has cost to date. [200105]

Mr. Bradshaw: Choose and Book is one of the new, linked, IT systems and services which are being delivered by NHS Connecting for Health to help modernise the NHS and to ensure that patients have a clear choice of time, date and place when booking into first outpatient appointments.

Total payments to date relating to the development, delivery and maintenance of the Choose and Book IT system total £98.9 million. This includes £45.1 million for the development and deployment of the core system by the supplier under the original core contract worth £64.5 million over five years. It also includes a further £53.8 million for approved additional services and functionality identified in the contract, the costs of which are within the budget for the original Choose and Book business case.

Patients: Essex

Mr. Burns: To ask the Secretary of State for Health (1) how many people in the Mid-Essex Primary Care Trust area were receiving continuing care using Q4 2006-07 and Q3 2007-08 figures to compare the start and the end of the year; and what percentage change the figures represented; [201151]

(2) for what reasons the number of people in the Mid-Essex Primary Care Trust area receiving continuing care fell using the Q4 2006-07 and Q3 2007-08 figures to compare the start and the end of the year. [201163]

Mr. Ivan Lewis: The information requested is shown in the following table.

Number of people receiving continuing care, Mid-Essex PCT

Period	*Number of people receiving continuing care*
Q4 2006-07	76
Q3 2007-08	94
Percentage change	24

Source:
Department of Health Local Delivery Plan Return Commissioner (Revised 23 April 2008)

Prescriptions

Mr. Burstow: To ask the Secretary of State for Health (1) whether medication reviews undertaken in respect of residents of care homes count towards the general medical services contract quality and outcomes framework performance indicator; [200361]

(2) what the performance of each primary care trust was against the general medical services contract indicator for the undertaking of medication reviews for patients being prescribed four or more repeat medicines in each year for which figures are available. [200362]

Mr. Bradshaw: Medicine review indicators within the quality and outcomes framework include all patients prescribed repeat prescriptions regardless of their living arrangements.

The percentage achievement for the undertaking of medication reviews for patients being prescribed four or more repeat medicines has been placed in the Library.

Psychiatry: Standards

Mr. Drew: To ask the Secretary of State for Health what timetable has been set for the consultation on defining national occupational standards for the regulation of counsellors and psychotherapists under the Health Professionals Council; and when he expects to be able to introduce those standards. [201461]

Mr. Bradshaw: Discussions on the scope of practice and the national occupational standards for psychotherapists and counsellors are continuing. Once agreement has been reached we will publish proposals on statutory regulation for public consultation.

Mr. Drew: To ask the Secretary of State for Health what discussions he has had with the Prime Minister on the Prime Minister's response of 11th March to the petition on the national occupational standards for counselling and psychotherapy. [201462]

Mr. Bradshaw: No discussions have taken place. The response to the petition represents the Government's position on the regulation of counsellors and psychotherapists.

WORK AND PENSIONS

Housing Benefit

Danny Alexander: To ask the Secretary of State for Work and Pensions when he plans to publish the equality impact assessment relating to the proposed reduction in backdating facilities for housing benefit; and what account the assessment will take of vulnerable groups. [200103]

Mr. Plaskitt: The equality impact assessment was published on 21 April 2008; a copy has been placed in the Library. It is also available on the Department for Work and Pensions website at:

http://www.dwp.gov.uk/resourcecentre/PC-HB-CTB-EIA-Apr08.pdf

The assessment considers the potential impact on a range of groups, including the most vulnerable, and proposes steps to mitigate any adverse effects. A publicity campaign will be launched, to raise awareness of the change and to advise tenants to apply for benefit in good time. We will also be working with landlords to encourage them to tackle rent arrears at the earliest possible time as this is often a trigger for a backdating claim.

Mortgages

Mr. Drew: To ask the Secretary of State for Work and Pensions what plans he has to amend the income support for mortgage interest regime. [201300]

Mr. Plaskitt: Although we have no current plans to reform support for mortgage interest, we keep the scheme under review.

LEADER OF THE HOUSE

Ministers: Official Residences

Mr. Pickles: To ask the Leader of the House how much was spent on the refurbishment of the Leader of the House's office in 26 Whitehall following the departure of the former Deputy Prime Minister. [199513]

Helen Goodman: The rooms referred to have been redecorated as part of the lifecycle programme covering the whole of the building (26 Whitehall). Further additional costs specifically relating to the relocation into the building of the Office of the Leader of the House were incurred to a value of £4,379 plus VAT.

OLYMPICS

Olympic Games 2012: Contracts

Mrs. Gillan: To ask the Minister for the Olympics which Welsh companies or organisations have obtained contracts through the Olympic Delivery Authority; what the value of each contract is; and what work is involved in each. [201314]

Tessa Jowell: To date three businesses or organisations registered in Wales have supplied goods and services to the Olympic Delivery Authority (ODA). These are John Evans Photography; Strategy and Solution Limited; and the Office for National Statistics. These contracts were awarded for photography, management consulting services and data processing and preparation. Due to commercial sensitivities I cannot make public the value of each of these contracts, but I can tell you that spend to date with them is £5,053.

In January, the Olympic Family launched the London 2012 Business Network, helping businesses across the country to access and compete for 2012 related contracts. Over 200 Welsh companies have registered for the CompeteFor service, and businesses in every constituency should be encouraged to sign up and get support. The ODA will be visiting Cardiff in

May 2008 to speak to Welsh businesses about the opportunities generated by the Games.

Mrs. Gillan: To ask the Minister for the Olympics which contracts have been let by the Olympic Delivery Authority; and what *(a)* value and *(b)* percentage of contracts have been let to companies based in (i) England, (ii) Scotland, (iii) Wales and (iv) Northern Ireland. [201315]

Tessa Jowell: The Olympic Delivery Authority will directly procure over 2,000 contracts; these are expected to generate 50,000 supply chain opportunities. At this early stage, 600 contracts have been awarded. The percentage shares are as follows:

	Percentage share
England	97
Scotland	1
Wales	1
Northern Ireland	1

The London 2012 website provides information about contracts awarded by sector. The value of these contracts is in excess of £1 billion.

In January, the Olympic Family launched the London 2012 Business Network, helping businesses across the country to access and compete for 2012 related contracts. Businesses in every constituency should be encouraged to sign up and get support. To this end ODA have a programme of business engagement covering all of the UK's nations and regions. Events took place in Northern Ireland in November, in Scotland in February, and will take place in Wales in May.

In addition to these direct opportunities flowing from London 2012 procurement, there are of course wider opportunities for the nations and regions to benefit economically from the Games. These include a potential £2.1 billion boost to the UK's tourism industry and volunteering opportunities which can help drive up skills levels and improve employability. Over 600 top class sporting facilities from across the UK will appear in the London 2012 Pre-Games Training Camps Guide to be launched this summer, with 31 in Wales alone. These have the potential to attract top athletes from around the world bringing a range of sporting and business opportunities, including inward investment. In addition, UK Trade and Investment are developing programmes to use the Games as a springboard for export.

PRIME MINISTER

Tibet

Jo Swinson: To ask the Prime Minister pursuant to his oral answer of 19 March 2008, *Official Report*, column 915, on Tibet, what plans he has to report to the House following his proposed meeting with the Dalai Lama. [201359]

The Prime Minister: My meetings will be reported in the usual way.

DEFENCE

Armed Forces: Health Services

Willie Rennie: To ask the Secretary of State for Defence what assessment he has made of the competence of non-registered/qualified health care assistants operating the triage system for the telephone assessment service in British Forces Germany. [201362]

Derek Twigg: The primary and community care contract has been commercially let using standard MOD terms and conditions of contract which has clear performance requirements, including the professional standard required of their staff. Previously, out-of-hours services involved 24-hour manning of British Forces Germany (BFG) medical centres. With the introduction of the new contract a telephone advisory service (TAS) triage system for out-of-hours is being operated by qualified nurses, whilst health care assistants provide support. The system was assessed and found successful for over a year in two pilot sites in Germany before its successful introduction on 1 April 2008.

Willie Rennie: To ask the Secretary of State for Defence what assessment he has made of the effect on the retention of staff of the Soldiers, Sailors, Airmen and Families Association (SSAFA) of the change of terms and conditions in his Department's contract with Guys' and St. Thomas' NHS Foundation Trust and SSAFA for health care staff in British Forces Germany. [201364]

Derek Twigg: The primary and community care contract has been commercially let using standard MOD terms and conditions of contract, which were accepted by the SSAFA/GSTT partnership. The contractor has responsibility to manage their own staff retention in order to meet the requirement of the contract. However, evaluation of the contract tender considered the fact SSAFA have provided similar services on a commercial basis to MOD over several years and have been able to offer employment terms and conditions that have ensured a good track record of recruitment and retention. Since contract signature in December 2007, both British Forces Germany Health Services and the contractor have engaged in a comprehensive communication strategy with all staff, to ensure what has been a successful transition to the new contract.

Armed Forces: Mental Health Services

Willie Rennie: To ask the Secretary of State for Defence what assessment he has made of *(a)* robustness and *(b)* appropriateness of the clinical interventions and health care provided for servicemen and their families at the Gilead mental health facility in Germany. [201363]

Derek Twigg: Gilead mental health facility is provided by a contract with Guy's and St. Thomas's Trust (GSTT) which has clear performance and clinical governance requirements which are reported and monitored regularly. As such, GSTT are responsible for the clinical governance of this service. This service has been assessed and subsequently validated by the South London and Maudsley (SLAM) NHS Foundation Trust and the Defence Consultant Advisor in Psychiatry.

Bombs

Nick Harvey: To ask the Secretary of State for Defence how the Government classify and define CRV-7 weapons. [193321]

Mr. Bob Ainsworth: CRV7 is 2.75inch/70mm unguided rocket system offering a range of motors, launchers and warheads depending upon mission objectives. The rocket is classified according to whether it will be fired from a fixed wing or helicopter platform and is further sub-classified according to the warhead that has been fitted to the round.

European Security and Defence Policy

Dr. Fox: To ask the Secretary of State for Defence what recent discussions he has had with his French counterpart on *(a)* European Security and Defence Policy, *(b)* NATO and *(c)* France's EU presidency between July and December 2008; and if he will make a statement. [200955]

Des Browne: I met the French Defence Minister for bilateral discussions during the UK-France summit held in London on 27 March. I also had the opportunity to meet him at the NATO summit held in Bucharest on 2-4 April.

In the course of these meetings we discussed a range of issues, including European Security and Defence Policy, NATO, and France's EU presidency between July and December 2008.

HMS Argyll

Mr. Hancock: To ask the Secretary of State for Defence where HMS Argyll has been deployed in 2008 to date; what plans he has for further deployments prior to its decommissioning; and if he will make a statement. [200307]

Mr. Bob Ainsworth: HMS Argyll was engaged in sea and pre-deployment training from April to October 2007 and has been deployed East of Suez, taking part in operations in the Arabian Gulf from October 2007 to April 2008. HMS Argyll is due to be removed from service in 2019. I am withholding HMS Argyll's future programme as its release would, or would be likely to, prejudice the capability, effectiveness or security of our armed forces.

Iraq: Detainees

Mr. Tyrie: To ask the Secretary of State for Defence whether individuals captured by British forces during the conflicts in Iraq and Afghanistan have at a subsequent time been held at the United States detention facilities at *(a)* Bagram Theatre Internment Facility, *(b)* Balad Special Forces Base, *(c)* Camp Nama BIAP and *(d)* Abu Ghraib prison. [200771]

Des Browne: I am withholding the information requested as its release would, or would be likely to, prejudice the effectiveness of our armed forces.

However, I am confident in the processes that are in place to ensure that any persons captured by UK forces in either Iraq or Afghanistan and subsequently detained by US forces are held in accordance with the UK's policy and legal obligations.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Defence when he plans to reply to the letter from the hon. Member for Walsall North of 25 February on a constituent (ref: MC01269/2008). [201165]

Derek Twigg: I replied to my hon. Friend on 22 April.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence what the percentage shortfall requirement for a *(a)* Hercules, *(b)* Tornado and *(c)* Typhoon aircraft was at the latest date for which figures are available. [199472]

Mr. Bob Ainsworth: Under the Hercules C-130 availability contract, performance is measured in terms of aircraft available for operations averaged across each calendar month. Spares availability is not measured.

For Tornado, the current figures for spare demands satisfied are 97 per cent. for the Tornado F3 and 98 per cent. for the Tornado GR4, as recorded on 29 February 2008.

Aircraft spares for Typhoon are partly provided direct from industry and partly by the MOD through an international contract. These arrangements are being built up as the RAF fleet grows and demands satisfied from MOD stocks average 68 per cent. as recorded on 29 February 2008.

Military Exercises: Nuclear Weapons

Norman Baker: To ask the Secretary of State for Defence on what dates the last joint US-UK nuclear weapon accident exercise was held; where it was held; on what dates the next joint US-UK nuclear weapon accident exercise will be held; and where it will be held. [201272]

Des Browne: The last joint US/UK nuclear weapon accident exercise (Exercise DIMMING SUN 03) was held in Norfolk over the period 16-20 June 2003. The next joint US/UK nuclear weapon accident exercise is scheduled to be held in 2010, the date and location have yet to be determined.

Norman Baker: To ask the Secretary of State for Defence what the *(a)* names, *(b)* dates and *(c)* locations will be of the nuclear weapons emergency exercises being organised by his Department in 2008. [201273]

Des Browne: Exercise ASTRAL CLIMB 08, which will test the operational response to a nuclear weapon convoy accident, will be held on 24 September 2008 in Cumbria.

Nuclear Disarmament

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to publish confidence-building verification methodologies for monitoring nuclear disarmament; and if he will make a statement. [200304]

Mr. Bob Ainsworth: The Atomic Weapons Establishment is engaged in developing technical methods and processes for verifying multilateral nuclear disarmament both nationally and in co-operation with several Norwegian defence laboratories. Progress is presented periodically to the conferences of the nuclear non-proliferation treaty and related fora.

Additionally, in his speech to the Conference on Disarmament in February this year, my right hon. Friend the Secretary of State for Defence proposed the development of confidence building activities among the five recognised Nuclear Weapon States (NWS). This proposal has generated considerable interest among the wider international community. We are engaging with the other NWS to consider how this initiative should be taken forward.

Somalia: Piracy

Mr. Hancock: To ask the Secretary of State for Defence for what reasons no British naval vessels intervened to prevent the hijacking of the ice tug Svitzer Korsakov off the coast of Somalia on 1 February 2008; what the rules of engagement are for British and NATO ships in such circumstances; and if he will make a statement. [200837]

Mr. Bob Ainsworth: In line with the United Nations Convention on the Law of the Sea (UNCLOS Article 100), the Royal Navy may come to the aid of vessels under attack by pirates in international waters. No Royal Navy vessels were in the vicinity of the Svitzer Korsakov at the time of its seizure. A warship was subsequently despatched to the area, ready to assist if required. In the event, British military intervention was not necessary.

In circumstances of this kind, UK Service personnel are permitted to use reasonable force in self defence, or defence of others in accordance with our UK domestic law. It would not be appropriate for me to comment upon the rules of engagement of other nations.

WALES

Council Tax

Mr. Pickles: To ask the Secretary of State for Wales pursuant to the answer of 20 March 2008, *Official Report*, column 1329W, on council tax, what assessment has been made of the change in average council tax per dwelling solely as a result of the council tax revaluation and rebanding exercise and the phasing out of transitional relief. [199551]

Mr. Paul Murphy: Year-to-year changes in the level of Band D council tax have been the result of local authority budget decisions as stated in my answer of 20 March 2008, *Official Report*, column 1329W.

Mr. Pickles: To ask the Secretary of State for Wales pursuant to the answer of 20 March 2008, *Official Report*, column 1329W, on council tax, whether the revaluation and rebanding exercise after the end of the transitional relief was revenue-neutral. [199552]

Mr. Paul Murphy: Yes, the revaluation and rebanding exercise was revenue-neutral in that the overall increase in council tax receipts in the year of revaluation was broadly in line with increases in the previous years. Year-to-year changes in the level of council tax receipts since then as set out in my answer of 20 March 2008, *Official Report*, column 1329W, are the result of local authority budget decisions.

NORTHERN IRELAND

Firearms: Licensing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average time was to process correctly completed application forms for firearms certificates in Northern Ireland in (*a*) 2005, (*b*) 2006 and (*c*) 2007. [201351]

Paul Goggins: The Chief Constable has advised me that the average time taken to process correctly completed application forms for firearms certificates was 139 days in 2005, 80 days in 2006 and 73 days in 2007.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what representations he has received on the time taken to process correctly completed application forms for firearms certificates in Northern Ireland in the last three months. [201352]

Paul Goggins: No formal representations have been made to the Secretary of State in the last three months about the average processing time for correctly completed firearm certificate applications.

SCOTLAND

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Scotland pursuant to the answer of 26th March 2008, *Official Report*, column 157W, on departmental data protection, if he will include information assurance data from previous years on data loss incidents in his Department's next annual report. [199264]

David Cairns: I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 November 2007, *Official Report*, column 1179 and the written ministerial statement made by my right hon. Friend the Minister for the Cabinet Office on 17 December 2007, *Official Report*, column 98WS. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data.

The interim report of 17 December 2007 committed to put in place a programme to examine and improve data handling procedures. An update on this commitment will be included in the final report, expected in spring 2008, and this report will detail the information to be included by Departments on data loss in their annual reports.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Scotland how much was spent on the most recent redesign and implementation of his departmental website. [200029]

David Cairns: The website of the Scotland Office was last redesigned in 2004 at a cost of £23,425.99.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Scotland how many *(a)* permanent civil service posts, *(b)* permanent non-civil service posts and *(c)* temporary or agency workers there were in his Department in each month since May 2005. [200165]

David Cairns: The staffing numbers of the Scotland Office are published in the office's annual report; figures are not maintained in the form requested.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Scotland how much his Department spent on publicity and advertising in 2007-08. [199032]

David Cairns: Nothing.

Departmental Public Participation

Mrs. May: To ask the Secretary of State for Scotland what *(a)* surveys, *(b)* questionnaires and *(c)* other services were provided by polling companies for his Department in financial year 2007-08, broken down by company. [200013]

David Cairns: None.

TREASURY

Fuel Taxes

12. **Mr. MacNeil:** To ask the Chancellor of the Exchequer if he will take steps to reduce fuel taxes for those living in rural areas. [200871]

Jane Kennedy: In the Budget the Government deferred the increase in fuel duty for six months in order to help motorists.

Energy Prices

13. **Julie Morgan:** To ask the Chancellor of the Exchequer what assessment he has made of the effects on the economy of the recent rises in energy prices. [200872]

Angela Eagle: Increases in global energy prices, driven by developments in the oil and wholesale gas markets, inevitably continue to influence UK inflationary pressure. And our Budget economic forecasts fully reflected the impact of these developments on the UK economy. However, the UK is better placed to respond to these challenges than in the past, with employment at record highs, inflation presently lower than in the euro area or the United States and the IMF expecting UK GDP growth to be the fastest in the G7 again this year.

Government Borrowing

15. **Mr. Crabb:** To ask the Chancellor of the Exchequer what assessment he has made of the level of Government borrowing benchmarked against other major economies. [200875]

Angela Eagle: Over the economic cycle that began in 1997-98, UK public sector net borrowing averaged 1.0 per cent. of GDP, whereas for both the euro area and OECD as a whole, borrowing averaged 2 per cent. of GDP over the same period.

Mrs. Dorries: To ask the Chancellor of the Exchequer what assessment he has made of the level of Government borrowing benchmarked against other major economies. [200874]

Angela Eagle: Over the economic cycle that began in 1997-98, UK public sector net borrowing averaged 1.0 per cent. of GDP, whereas for both the euro area and OECD as a whole, borrowing averaged 2 per cent. of GDP over the same period.

17. **Mr. Mackay:** To ask the Chancellor of the Exchequer What assessment he has made of the level of Government borrowing benchmarked against other major economies. [200877]

Angela Eagle: Over the economic cycle that began in 1997-98, UK public sector net borrowing averaged 1.0 per cent. of GDP, whereas for both the euro area and OECD as a whole, borrowing averaged 2 per cent. of GDP over the same period.

18. **Mr. Brazier:** To ask the Chancellor of the Exchequer what assessment he has made of the level of Government borrowing benchmarked against other major economies. [200878]

Angela Eagle: Over the economic cycle that began in 1997-98, UK public sector net borrowing averaged 1.0 per cent. of GDP, whereas for both the euro area and OECD as a whole, borrowing averaged 2 per cent. of GDP over the same period.

Alcohol Duties

16. **Mr. Illsley:** To ask the Chancellor of the Exchequer what representations he has received on the increases in alcohol duties announced in Budget 2008. [200876]

Angela Eagle: Treasury Ministers and officials receive representations from a wide range of organisations and individuals in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

Welfare Tax Credits

19. **Mr. Holloway:** To ask the Chancellor of the Exchequer what inquiries are made into the immigration status and eligibility to receive public funds of a second-named person on a joint application for tax credits. [200879]

Jane Kennedy: HMRC takes fraud seriously and has a range of checks in place throughout the period of the claim. If fraud is suspected, payment is stopped. In the most serious cases, prosecution will be considered.

HMRC use a number of tools to help them detect wrong and fraudulent claims. Cases requiring compliance intervention are selected using a risk-based approach, which examines the overall features of a claim.

It would be inappropriate to disclose a complete list of verification checks as to do so may provide assistance to those attempting to defraud the system.

Banking Sector: Bad Debt

20. **Mark Pritchard:** To ask the Chancellor of the Exchequer what recent discussions he has had with the banking sector on its exposure to bad debt. [200880]

Jane Kennedy: The Chancellor meets regularly with representatives of the banking sector and discusses a range of issues.

The Chancellor of the Exchequer and the Housing Minister hosted a meeting with the mortgage and lending industry at No. 11 Downing street on Tuesday 22 April to discuss what the industry can do to support borrowers in difficulty during the current period of turbulence in global financial markets.

Higher Education: Expenditure

21. **Ben Chapman:** To ask the Chancellor of the Exchequer what recent assessment he has made of the effects on the economy of expenditure on higher education. [200882]

Yvette Cooper: As Lord Leitch set out in his independent report on the UK's long-term skills needs, a highly skilled workforce drives innovation, leadership and management, enabling business to compete in the global economy.

He found that improving the skills profile of the UK workforce over time has contributed to economic growth.

By 2011, funding for higher education will have increased by over 30 per cent. in real terms since 1997. In addition, since 1997, funding for the ringfenced science budget has increased from £1.3 billion to £3.4 billion.

Average Earnings

22. **Mr. Swayne:** To ask the Chancellor of the Exchequer what his most recent estimate is of *(a)* the rate of inflation and *(b)* the annual change in average earnings. [200883]

Angela Eagle: In March 2008, the annual rate of inflation as measured by the consumer prices index (CPI) was 2.5 per cent. The annual change in average earnings as measured by the annual earnings index (AEI) including bonuses was 3.7 per cent. in February 2008.

Air Passenger Duty

Mr. Brady: To ask the Chancellor of the Exchequer what representations his Department has received from overseas Governments on the legality of the proposed aviation duty. [201161]

Angela Eagle: The aviation duty formal consultation period ends today. The Treasury is unable to make an assessment of representations received from foreign Governments during the consultation period until the consultation formally closes.

Capital Gains Tax

Paul Farrelly: To ask the Chancellor of the Exchequer what estimates he has made of the likely receipts to the Exchequer from setting capital gains tax rates at the taxpayer's marginal rate of tax in 2008-09. [200972]

Jane Kennedy: A broad estimate of the eventual steady state impact, taking account of the likely taxpayer response to such a change, is additional receipts in the order of £2 billion a year by comparison with the current capital gains tax regime.

A reform of this kind would result in a large behavioural response and as such estimates are susceptible to a wide margin of error.

Excise Duties: Motor Vehicles

Mr. Greg Knight: To ask the Chancellor of the Exchequer what the percentage change in vehicle excise duty for a Nissan Micra will be as a result of the changes to vehicle excise duty announced in Budget 2008. [200873]

Angela Eagle: Nissan produces, and has over the years produced, a number of different models of Micra. These have a range of carbon dioxide emissions outputs from 125g to 175g /km.

Using 2008-09 rates of VED and the current Micra as a baseline, the percentage change varies between -25 per cent. and +21 per cent. in 2009-10, and between -21 per cent. and +24 per cent. in 2010-11, reflecting the fact that there is a range of emissions choices with this model of car, as there are with many others.

If the current Micra model range remains unchanged, the percentage change for a newly licensed Micra under first year rates of VED in 2010-11 lies between -100 per cent. and +76 per cent. depending on the emissions choice.

Income Tax: Tax Allowances

Mr. Byers: To ask the Chancellor of the Exchequer (1) by how much the personal allowance would need to be increased in order to remove an additional *(a)* 500,000, *(b)* 1,000,000 and *(c)* 1,500,000 people from income tax liability; and what the cost would be; [201463]

(2) what increase in the personal allowance would be created by an increase in funding of £8 billion; and how many people would be removed from any income tax liability as a result of such an increase. [201464]

Jane Kennedy: Approximate estimates for 2008-09 can be found in the following table.

Increase in personal allowance[1]	*Cost*[2] *(£ billion)*	*Number taken out of tax (thousand)*
£470	5.5	500
£690	8.0	700
£960	11.1	1,000
£1,430	16.4	1,500

[1] Personal allowance for individuals below the age of 65.The personal allowances for individuals aged 65 and over are assumed to stay the same.

[2] Includes the accruals cost of both income tax and national insurance contributions

The income tax information is based on the Survey of Personal Incomes 2005-06 projected in line with Budget 2008 assumptions. The national insurance contributions estimates are taken from the NICs forecasting model based on the Annual Survey of Hours and Earnings 2004-05 uprated in line with Budget 2008 assumptions. The figures exclude any estimate of behavioural response.

Income Tax: Tax Rates and Bands

Andrew Mackinlay: To ask the Chancellor of the Exchequer how many people were paying income tax at the 10 pence rate on the entirety of their taxable income in *(a)* Thurrock, *(b)* Essex and *(c)* Scotland on the latest date for which figures are available. [201162]

Jane Kennedy: The estimated number of taxpayers in Scotland paying tax only at the starting rate of income tax for 2007-08 is shown in table 2.2 "Number of individual income taxpayers by country and region", which is available from HM Revenue and Customs website.

http://www.hmrc.gov.uk/stats/income_tax/menu.htm

Accurate information on the number of taxpayers who pay income tax at the 10p starting rate for geographic areas below country and region are not available but information on the total number of taxpayers in the county of Essex and Thurrock unitary authority are shown in table T3.14, and for the parliamentary constituency of Thurrock in table T3.15. These tables can be found at the HM Revenue and Customs website.

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

These estimates are based on the latest available Survey of Personal Incomes (2005-06).

Personal Income: Peterborough

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer how many individuals in Peterborough constituency classified as being without children for tax credits purposes who are employed *(a)* full-time and *(b)* part-time earn between £5,000 and £18,000 per annum; and if he will make a statement. [201356]

Jane Kennedy: The information requested is not available.

Further information on tax credits can be found at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

Public Expenditure

Mr. Dunne: To ask the Chancellor of the Exchequer how much additional public spending under the Barnett formula is expected to be received by *(a)* Scotland, *(b)* Wales and *(c)* Northern Ireland in (i) 2008-09, (ii) 2009-10, (iii) 2010-11 and (iv) 2011-12 as a result of public spending on the London 2012 Olympics. [200239]

Yvette Cooper: The 2012 Olympics is being held on behalf of the whole of the UK. It is therefore not devolved spending and there are no Barnett consequentials for Scotland, Wales or Northern Ireland. Wider spending on London does attract Barnett consequentials in the normal way.

Public Sector Debt

Andrew Selous: To ask the Chancellor of the Exchequer what assessment he has made of the accuracy of his Department's forecasts for public sector debt and public borrowing over the last five years. [200870]

Yvette Cooper: The end of year fiscal report (EYFR) published alongside the pre-Budget report provides a clear and transparent assessment of public sector debt and public borrowing forecasts.

Taxation

Mr. Arbuthnot: To ask the Chancellor of the Exchequer how many Inland Revenue assessments were held in abeyance pending the outcome of Jones *v.* Garnett; what proportion of those assessments have been abandoned following the decision in that case; and if he will make a statement. [200881]

Angela Eagle: The information requested is not available.

However, cases in abeyance pending the court judgment have been disposed of in three different ways. Cases with facts in line with the Jones case were closed down very quickly. Some others have been settled with tax being payable. And there are some cases where the arguments have not been affected by the terms of the court judgment, some of which are still being resolved.

INNOVATION, UNIVERSITIES AND SKILLS

Electronic Government

Mr. Weir: To ask the Secretary of State for Innovation, Universities and Skills whether mechanisms are in place to monitor the extent to which his Department's *(a)* internal and *(b)* external (i) correspondence and (ii) distribution of publications is carried out electronically. [199199]

Mr. Lammy: The information requested is as follows:

Internal

The vast majority of internal communications is distributed electronically, including correspondence. All internal publications are distributed through the intranet or email.

External

For external correspondence, we have data and full monitoring on the shared correspondence service with DCSF—which covers our Skills and Higher Education policy areas. The combined email/letter split for DIUS and DCSF in 2007 was 63 per cent. email and 37 per cent. letter. In the quarter January—March 2008 on the 3,777 DIUS cases answered, 53 per cent. were by email, 47 per cent. by letter.

We do not yet have tracking figures for the shared correspondence service with BERR—who have been dealing with Science and Innovation correspondence since this Department was created in June 2007.

For distribution of publications externally: the Department is able to monitor the number of requests to the publications section of the DIUS corporate site and tracks the number of electronic downloads.

Higher Education: Prisoners

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills how much of the budget allocated for spending on higher education in prisons was used to fund the tutorial costs of those students already engaged in courses of higher study in the latest period for which figures are available. [196548]

Bill Rammell: Aside from the Offenders' Learning and Skills Unit's arrangement to support Open University study, there is no budget allocated for spending on higher education in prisons, or for those prisoners released on temporary licence to study full time higher education.

The Department set aside a budget of £287,000 in 2007-08 to meet the additional costs of providing tutorial support for prisoners studying Open University courses. The Open University operates a fee waiver arrangement for prisoners studying second and subsequent course modules; and my Department supports this by meeting the Open University's additional costs in providing tutorial support while the learner remains a prisoner.

The Learning and Skills Council's provider of learning and skills for prisoners also provides informal, practical support for Open University and other higher education students who are prisoners as they continue their studies.

Overseas Students: Finance

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what proportion of students from EU member states other than the UK received financial assistance from the public purse *(a)* for tuition fees and *(b)* living costs in each year for which figures are available. [187648]

Bill Rammell: EC nationals are eligible for tuition fee support only, provided that they have been ordinarily resident in the EEA and Switzerland for the three years prior to the start of their course.

The following table shows the number of new and continuing students in each academic year and those who received tuition fee support. Prior to 2006/07, this support was in the form of a means-tested grant. Since 2006/07, new students were eligible to apply for a non-means-tested loan.

10 countries acceded to the EC in May 2004, which has resulted in an increase in student numbers.

EU domiciled students studying in England by support received

	EU domiciled students[1]	*Students receiving fee grants*[2]	*Students receiving fee loans*	*Percentage receiving fee grants*	*Percentage receiving fee loans*
1999/2000	79,600	20,100	—	25	—
2000/01	79,300	23,600	—	30	—
2001/02	73,900	19,100	—	26	—
2002/03	72,500	17,400	—	24	—
2003/04	70,800	15,700	—	22	—
2004/05	78,400	16,400	—	21	—
2005/06	82,600	17,000	—	21	—
2006/07	86,500	10,600	8,300	12	10

[1] *Source:*
Higher Education Statistics Agency (HESA). Figures are on a snapshot basis as of the 1 December for comparability across the years.

[2] *Source:*
Student Loans Company (SLC). Since 2006/07 a student may be in receipt of either a grant (continuing students) or a loan (new students).

Only EEA and Swiss migrant workers and certain family members who have been ordinarily resident in the EEA and Switzerland and EC nationals who have been ordinarily resident in the UK and Islands may be eligible to the full support package.

Students: Loans

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what proportion of 18 to 30-year-olds received a student loan in each year since 1997, broken down by local government area. [198460]

Bill Rammell: Information on the proportion of students taking out loans is not available at a local authority level or by age group. National information is shown in the table.

Eligibility and take-up of maintenance loans in England academic years 2001/02 to 2006/07[1]

Academic year	*Eligible Population (Thousand)*	*Number of loans taken out (Thousand)*	*Take up of loans by eligible population (Percentage)*
2001/02	768	629	82
2002/03	816	666	82
2003/04	840	682	81
2004/05	874	693	79
2005/06	897	719	80
2006/07	n/a	727	n/a

[1] Provisional.
n/a = not available
Source:
Loan figures provided by Student Loans Company

Consistent national information is not available before 2001/02. In addition to the maintenance loans covered in the table, tuition fee loans have been available to eligible students from 2006/07. In that year 387,000 tuition fee loans were taken out.

FOREIGN AND COMMONWEALTH OFFICE

Abkhazia: Politics and Government

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria the Government use in determining its policy on whether Abkhazia should be recognised as an independent country. [198886]

Mr. Jim Murphy: The Government do not recognise Abkhazia as an independent state, but consider it to be part of the territory of Georgia which the UK recognised in 1992.

The international community has consistently reaffirmed Georgia's territorial integrity and sovereignty including through successive UN Security Council Resolutions on Georgia, most recently UN Security Council Resolution 1781 (2007) of 15 October 2007, in which the Security Council

"reaffirms the commitment of all member states to the sovereignty, independence and territorial integrity of Georgia within its internationally recognised borders".

Afghanistan: Peacekeeping Operations

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will provide a line-item breakdown of contracts with private military and security companies in Afghanistan for 2006-07 indicating which line-items *(a)* are new, *(b)* have received increased funding and *(c)* have received decreased funding since 2005. [198010]

David Miliband: It is not possible to provide a line-item breakdown of contracts with private military and security companies in Afghanistan in 2006-07 for reasons of commercial confidentiality and security, although I would refer the hon. Member to the reply I gave to the hon. Member for Berwickshire, Roxburgh and Selkirk (Mr. Moore) on 14 November 2007, *Official Report*, column 319W, and also to the reply I gave to the hon. Member for Lewes (Norman Baker) on 20 March 2007, *Official Report*, column 841W, which detail the overall value of our security contracts in Afghanistan.

I can confirm that the Foreign and Commonwealth Office had two main contracts with private and military security companies in Afghanistan in financial year 2006-07, the first for security services and the second for police mentors and advisers. The security services contract was re-tendered in late 2006 and the police mentors and advisers contract was tendered in mid 2007. Both were awarded to ArmorGroup Services Limited.

The security services and the police mentors and advisers contracts have both received increased funding since 2005.

Chevening Scholarships Programme

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications there were for *(a)* Chevening and *(b)* Commonwealth scholarships in each of the last five years. [199079]

David Miliband: Applications for Chevening and Commonwealth scholarships are made respectively to our overseas posts and to nominating agencies in Commonwealth countries. It would incur disproportionate cost to compile these figures.

Chile: Terrorism

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of *(a)* bomb threats in Santiago, Chile since 17 March 2008, *(b)* the explosion of an incendiary device on 19 March 2008 and *(c)* the Government of Chile's response to these events; what assessment he has made of these matters; and if he will make a statement. [199211]

Dr. Howells: A number of institutions in Santiago, including offices and the main court building, received bomb threats in the lead up to 29 March 2008, the anniversary of the 1985 assassination of brothers Rafael and Eduardo Vergara Toledo by the Pinochet regime. At 01.00 local time on 18 March, an explosive device was detonated outside a branch of Banco de Credito e Inversiones in the Providencia district of Santiago. There was extensive damage to the building as a result of the blast but no injuries were reported.

Local anarchist groups have claimed responsibility. The Chilean authorities are investigating the incidents.

China: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of the policies *(a)* proposed and *(b)* implemented by Zhang Qingli in his capacity as Deputy Secretary of the Communist Party of China Xinjiang Uygur Autonomous Regional Committee from 2004 to 2006; what assessment he has made of such policies; and if he will make a statement. [199216]

Meg Munn: We have not made an assessment of Zhang Qingli's policies during his tenure from 2004 to 2006 as deputy secretary in the Xinjiang Uighur Autonomous Region. We do however continue to monitor the situation in Xinjiang and remain concerned by reports of human rights violations in the region, including restrictions on the peaceful exercise of political, cultural and religious rights. We regularly raise these concerns with the Chinese Government and did so most recently at the UK-China Human Rights Dialogue, which took place in Beijing in January.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of the activities of the Xinjiang Production and Construction Corps in China; and if he will make a statement. [199217]

Meg Munn: The Xinjiang Production and Construction Corps (XPCC) is a governmental organisation based in the Xinjiang Uighur Autonomous Region (XUAR). We understand that the XPCC effectively has administrative authority over a number of cities, farms and settlements across the XUAR region and performs governmental functions such as health care, education and civil policing for areas under its jurisdiction. In this context, we are

also aware that the XPCC has a role in running some prisons in the area. The stated goals of the XPCC are to develop frontier regions, promote economic development, ensure social stability and ethnic harmony, and counter the East Turkestan independence movement.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of the policies *(a)* proposed and *(b)* implemented by Zhang Qingli since his election as Secretary of the Communist Party of China Tibet Autonomous Regional Committee; what assessment he has made of such policies; and if he will make a statement. [199218]

Mr. Jim Murphy: We recognise that Zhang Qingli has been party secretary of the Tibet Autonomous Region since 2005 and as such has been responsible for implementing Beijing's policies, including the 'Develop the West' campaign and China's policies designed to promote economic development in Tibet. While we welcome the economic development in Tibet, we hope that more will be done to ensure that Tibetans will benefit. We continue to raise our concerns on Tibet with the Chinese Government, in particular with regard to the handling of recent unrest in the region.

Colombia: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of claims by the government of Colombia concerning financial support of the Revolutionary Armed Forces of Colombia by the government of Venezuela; what assessment he has made of such claims; and if he will make a statement. [199204]

Dr. Howells: We are aware of these allegations. Clearly it would be a matter of concern if any country were supporting a terrorist organisation, wherever that was and whatever form that support took. Therefore it is encouraging that Rio Group members reiterated on 7 March their

"commitment to fighting the security threats to all states from the activities undertaken by irregular groups and criminal organisations, in particular those with ties to drug trafficking activities".

Colombia: Uranium

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what reports his Department has received of claims that the Revolutionary Armed Forces of Colombia were planning to be involved in or were involved in black market transactions of uranium; what assessment he has made of such claims; and if he will make a statement; [199205]

(2) what reports his Department has received of claims by the Colombian Government of a uranium seizure on 26 March 2008; what assessment he has made of such claims; and if he will make a statement. [199203]

Dr. Howells: We are aware of the Colombian Government's statement that they have come into the possession of information suggesting that the Revolutionary Armed Forces of Colombia (FARC) have been seeking to obtain uranium. We are also aware of the recent reporting on this matter, including the Colombian military's capture of uranium, in the international press. We would be greatly concerned if the FARC, a terrorist organisation proscribed by the EU, were involved in the procurement of radioactive material. We will monitor this situation closely.

Democratic Republic of Congo: Ethnic Groups

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* nature and *(b)* activity of the Bundu dia Kongo in the Bas-Congo province of Democratic Republic of the Congo; and if he will make a statement. [199210]

Meg Munn: The Bundu dia Kongo is a politico-religious movement established to represent the ethnic Kongo population in western Democratic Republic of Congo (DRC) and the wider region. It provides cultural and educational support and a political voice for its members. However, elements within the Bundu dia Kongo have become militant and turned to violent means to further their cause. The Bundu dia Kongo poses unacceptable challenges to some state institutions in the DRC.

The Government support the statement issued by the EU on 17 March 2008, which called for the authority of the state to be upheld and for talks between the DRC Government and Bundu dia Kongo's political leaders. We wish to see multi-party democracy with space for the opposition in the DRC, underpinned by the rule of law and effective institutions.

Democratic Republic of Congo: Peacekeeping Operations

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the level of activity by United Nations peacekeeping personnel in the Bas-Congo province of the Democratic Republic of the Congo since the inception of the United Nations Organisation Mission in the Democratic Republic of the Congo; and if he will make a statement. [199224]

Meg Munn: The UN maintains a permanent office in Matadi, the provincial capital of Bas Congo, and has a peace keeping presence in the province as part of its mission in the Democratic Republic of Congo (DRC). Additional peace keepers have deployed to Bas Congo following outbreaks of violence in the province in January and February 2007. The UN Secretary-General's Special Representative for the DRC called for a peaceful resolution to violence in the province in February 2008. In March 2008 the UN deployed peace keepers and military observers to protect the civilian population in Bas Congo, assess events in the province and support the local authorities.

The UN faces significant challenges in maintaining peace in the Bas Congo province. Violence has occurred in various locations across the province and transporting troops is difficult because of the weak local infrastructure. The UN mission has commitments across the DRC, particularly in the east of the country, which have to be met to prevent a return to conflict.

Democratic Republic of Congo: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of political action in the Bas-Congo region in the Democratic Republic of the Congo on 19 March 2008; what assessment he has made of *(a)* such reports and *(b)* the number of casualties; and if he will make a statement. [199223]

Meg Munn: The violence which took place in the Bas Congo province in early 2008 is under investigation by the UN. A report is expected in due course. It has not yet been possible to determine reliably the number of casualties either of the violence on 19 March or of the clashes in Bas Congo in 2008 overall.

I am concerned by the violence seen since January in Bas Congo. The development of democratic governance in the Democratic Republic of Congo (DRC) depends on representation of diverse political views, tolerance of opposition, respect for human rights and effective and accountable state institutions. I support the recent EU statement on events in the province, which called for the authority of the state to be upheld and for talks between the DRC Government and the political leaders of the Bundu dia Kongo, whose members have clashed with the Congolese security forces.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on publicity and advertising in 2007-08. [198987]

Meg Munn: The Foreign and Commonwealth Office (FCO) does not keep a central record of amounts spent on publicity and advertising. The information required to answer this question could only be obtained by requiring individual budget holders in the FCO to examine all invoices for the required year. This could be done only at disproportionate cost.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many working days were lost by his Department due to stress-related illness in each of the last 24 months. [198941]

Meg Munn: The Foreign and Commonwealth Office (FCO) is committed to protecting the health, welfare and productivity of its staff. Our occupational stress policy provides guidance for staff and managers on recognising and dealing with stress and on reducing the causes of stress in the workplace. We provide further support through a team of welfare officers, referral to our occupational health service and access to a 24/7 confidential Employee Assistance Programme.

The number of working days lost in each of the last 24 months, which FCO staff have declared to be stress-related are as follows:

	Number
2006	
April	176
May	160
June	180
July	160
August	143
September	156
October	103
November	105
December	110
2007	
January	129
February	165
March	356
April	208
May	230
June	196
July	191
August	170
September	94
October	112
November	193
December	203
2008	
January	97
February	95
March	94

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many days sick leave were taken on average by staff in his Department in each of the last five years. [198950]

Meg Munn: The average number of days sick leave reported by Foreign and Commonwealth Office (FCO) staff in each of the last five years are:

	Days
2003-04	3.9
2004-05	4.8
2005-06	4.2
2006-07	3.5
2007-08	3.8

On 1 January 2008 the FCO introduced new sickness absence reporting arrangements, which should lead to more accurate reporting of sickness absence figures.

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of his Department's staff took more than *(a)* five, *(b)* 10, *(c)* 15, *(d)* 20, *(e)* 25, *(f)* 30, *(g)* 35 and *(h)* 40 days leave due to stress in each of the last five years, broken down by pay grade. [198970]

Meg Munn: We are unable to provide a breakdown of figures for staff in each grade who took stress-related leave in each of the categories requested by the hon. Member. The numbers in each category would be so small that they risk exposing the individuals concerned to the risk of being identified.

The following table sets out aggregated numbers for staff who took five or more days sick absence due to illness declared as stress-related in the last five years:

	Number
2003-04	36
2004-05	58
2005-06	75
2006-07	46
2007-08	48

Disabled

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs what targets his Department has set in relation to its employment of people with disabilities over the next five years. [199041]

Meg Munn: The Foreign and Commonwealth Office, along with other central Government Departments, has agreed with the Cabinet Office targets for the percentage of employees in the senior management structure (SMS), senior civil service equivalent, who have declared a disability. The current SMS target is 3.2 per cent. by April 2008. No targets have currently been set for beyond this period: the employment of people who have declared a disability is one of several diversity issues to be discussed and agreed with the Cabinet Office for action after April 2008.

Fragile States

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs which countries are classified by his Department as *(a)* fragile and *(b)* failing states; and if he will make a statement. [199209]

Dr. Howells: The Foreign and Commonwealth Office does not keep a list of fragile and failing states. However, we closely monitor countries and regions at risk of instability.

Hamas

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government have had discussions or other contact with Hamas in the last 12 months. [198883]

Dr. Howells: The Government have had contacts with Hamas in the past 12 months as part of consular efforts to secure the release of kidnapped journalist Alan Johnson only. All contact with Hamas ceased on Mr Johnson's release.

Hezbollah

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government have had discussions or other contact with Hezbollah in the last 12 months. [198882]

Dr. Howells: The Government have had no contact with Hezbollah in the last 12 months. The UK's policy on contacts with Hezbollah's political wing is based on our assessment of their behaviour and our judgment of whether such contacts would encourage them to move away from violence and play a constructive role in Lebanese politics. We continue to call on Hezbollah to abide by all relevant UN Security Council Resolutions, in particular Resolutions 1701 and 1559, including by disarmament and peaceful participation in Lebanese politics.

Iran: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK has taken to comply with the new sanctions provisions of UN Security Council Resolution 1803 on Iran. [199078]

David Miliband: The UK has implemented UN Security Council Resolution 1803 (2008) in the following ways:

The UK Border Agency and HM Treasury have added the individuals and entities listed in the resolution to their consolidated UK lists of individuals and entities subject to travel bans and assets freezes.

Through Common Positions 2007/140/CFSP and 2001/246/CFSP the EU has already banned the supply of goods and technology listed by the Security Council in Resolution 1803 (2008) to Iran, as well as export credit insurance for trade concerning the supply of items on the Nuclear Suppliers Group and Missile Technology Control Regime lists.

The Security Council has called upon all states to exercise vigilance over the activities of all banks domiciled in Iran, in particular Bank Melli and Bank Saderat, and their branches and subsidiaries abroad. On 4 March 2008 HM Treasury published a notice on its website alerting the UK financial sector to this provision. The notice is available at:

http://www.hm-treasury.gov.uk/media/9/£/fin_sanctions_iran_notification_040308.pdf.

HM Revenue and Customs already conducts routine checks on international cargo according to specific criteria based on risk and intelligence.

Iraq: Peacekeeping Operations

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs whether UK forces have been engaged in active operations with US forces in Task Force 6-26. [197028]

Des Browne *[holding answer 26 March 2008]:* I have been asked to reply.

I am withholding the information requested as its release would or would be likely to prejudice international relations.

Kenya: Human Rights

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the UN High Commissioner for Human Rights' report on Kenya, with specific reference to the question of amnesty; and if he will make a statement. [199212]

Meg Munn: The Government welcome the report of the Office of the UN High Commissioner for Human Rights on Kenya and fully supports its recommendations.

The Government agree that perpetrators of gross human rights violations should not be recommended for amnesty. The culture of impunity contributed to the scale of violence in the immediate post-election period. It is vital that those who participate in or incite violence face justice.

Kosovo: Nationality

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government consider Serbs living in Kosovo to be of Serbian or Kosovan nationality. [198689]

Mr. Jim Murphy: Inhabitants of Kosovo can determine their nationality according to their eligibility under the laws of any relevant country.

Middle East: Politics and Government

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment the Government have made of the viability of a two-state solution in the Middle East without involvement of *(a)* Hamas and *(b)* Hezbollah. [198884]

Dr. Howells: The UK wholly supports President Abbas and the Palestinian Authority. We believe that the Annapolis process, including negotiations between President Abbas and Israeli Prime Minister Olmert represents the best way forward towards a viable two-state solution in accordance with their Roadmap committments.

The UK believes that Palestinian unity will be crucial to the creation of a Palestinian state. We believe it is for the Palestinian parties to decide when they are ready to engage with one another. President Abbas has made clear his conditions for dialogue. We have also made clear that without significant movement on the part of Hamas to meet the Quartet's principles, we will be unable to engage with them.

Nuclear Non Proliferation Treaty

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the steps towards nuclear disarmament agreed at the 2000 review conference on the nuclear non-proliferation treaty. [199256]

Dr. Howells: The UK is fulfilling all its obligations under the treaty on the non-proliferation of nuclear weapons (NPT), including those on disarmament under article VI of the treaty. We continue to support the relevant disarmament measures contained in the final document from the NPT Review Conference in 2000, including the 13 practical steps towards disarmament, and we have a good record on meeting the priorities they set out. Not all the 13 steps are relevant to the UK, such as those relating to bilateral measures between the US and Russia.

Peacekeeping Operations: Private Sector

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to introduce legislation to regulate private military and security companies. [198807]

Dr. Howells: In late 2004, my right hon. Friend the then Foreign Secretary (Mr. Straw) requested a review by officials of the options for the regulation of the overseas operations of private military and security companies, registered in or operating from the UK. This applies to private military and security companies operating both in Afghanistan and elsewhere overseas. This was to follow up on the Green Paper of 2002, 'Private Military Companies: Options for Regulation' and to respond to the increase in activities of private military and security companies in areas of conflict overseas.

The review was completed in mid-2005 and suggested a number of options for ways in which the industry could be better managed. The review highlighted some complex issues, particularly in designating which activities should be regulated and how this could be implemented. This issue, along with the options for more effective supervision, continues to be the subject of Ministerial correspondence and official consultation. The Government have undertaken to keep Parliament fully informed of their proposals in this area. If it is decided that regulation is appropriate, the Government will put the proposals to public consultation.

Russia: Foreign Relations

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last held discussions with his Russian counterpart; what was discussed; and if he will make a statement. [199214]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary met with Russian Foreign Minister Sergei Lavrov in the margins of the North Atlantic Treaty Organisation Summit on 3 April. Their discussion focused on the Middle East, including the Middle East Peace Process and Iran.

Russia: Politics and Government

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Russian policy towards independence of *(a)* South Ossetia, *(b)* Abkhazia and *(c)* Kosovo. [198885]

Mr. Jim Murphy: Russia, like the UK, does not recognise South Ossetia or Abkhazia as independent states. In successive Resolutions, most recently Resolution 1781 (2007), the UN Security Council has reaffirmed the commitment of all member states to the sovereignty, independence and territorial integrity of Georgia within its internationally recognised borders. We look to Russia to use her influence constructively to help bring about the peaceful settlement of both unresolved conflicts.

Russia does not recognise Kosovo as an independent state. The UK recognised Kosovo on 18 February 2008.

Russia: TNK-BP

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the recent *(a)* accusations and *(b)* investigations against TNK-BP (i) employees and (ii) interests in Russia; and if he will make a statement. [199215]

Mr. Jim Murphy: We are aware that on 19 and 20 March, the Russian authorities conducted searches at the Moscow offices of both TNK-BP and BP. Files and computer servers were seized and company employees were questioned. We are also aware that on 25 March BP recalled 148 of its secondees from TNK-BP following a problem with their legal status. Most of the staff affected, including British nationals, have decided to remain in Moscow until the dispute is resolved. On the same day the Russian Interior Ministry launched an investigation into alleged tax evasion at a former subsidiary of TNK-BP.

We are in touch with the companies and continue to monitor the situation closely. We welcome the recent statement by Russia's President-elect, Dmitry Medvedev, that actions against TNK-BP were not politically motivated. We expect any investigations by the Russian authorities to be conducted with full transparency and in accordance with Russian law.

Somalia: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received of the fighting in Mogadishu on 19 March 2008; what assessment he has made of such reports; and if he will make a statement. [199222]

Meg Munn: There was an insurgent attack on an Ethiopian base near a livestock market in northern Mogadishu on 19 March 2008. During the fighting eight people are reported to have been killed, including two civilians.

The Government are concerned about the ongoing violence in Mogadishu and call on all parties to renounce violence and commit to resolving their differences through dialogue. We support the efforts of the UN Secretary-General's Special Representative for Somalia to facilitate such dialogue.

Somalia: Peacekeeping Operations

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* his Department and *(c)* UK representatives have had with (i) members and (ii) representatives of (A) the governments of member states of the European Union, (B) the Government of Russia, (C) the Government of the United States, (D) the governments of member states of the African Union, (E) the Government of Ethiopia, (F) the Transitional Federal Government of Somalia and (G) the United Nations Secretariat on the (1) security situation in, (2) humanitarian situation in, (3) political stability of, (4) African Union deployment in and (5) UN augmentation or replacement of the African Union deployment in Somalia; and if he will make a statement. [199213]

Meg Munn: The Government maintain regular contact, at ministerial and official level, with all parties the hon. Member lists in his question, including:

EU Heads of Mission meetings in Nairobi; EU Political Counsellors meetings in Nairobi; Africa Working Group meetings in Brussels; bilateral meetings with officials of member governments of the EU;

bilateral discussions with: the USA; member states of the African Union, including Ethiopia, and the Transitional Federal Government of Somalia; and

discussions in New York and Nairobi with the United Nations Secretariat and with member states of the UN Security Council, including Russia, USA and members who are also EU and African Union members.

For example, my noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, met President Abdullahi Yusuf in London on 21 January 2008; Prime Minister Nur Hassan Hussein in Addis Ababa on 1 February 2008; and the UN Secretary-General's Special Representative, Ahmedou Ould Abdalla, in London on 17 March 2008.

All discussions aim to maintain a coordinated international response to improve the political, security and humanitarian situation in Somalia and to support the Transitional Federal Institutions and Transitional Federal Government to restore peace, stability and governance to Somalia, as envisaged in the Transitional Federal Charter.

South Ossetia: Politics and Government

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria the Government use in determining its policy on whether South Ossetia should be recognised as an independent country. [198888]

Mr. Jim Murphy: The Government do not recognise South Ossetia as an independent state, but consider it to be part of the territory of Georgia which the UK recognised in 1992.

The international community has consistently reaffirmed Georgia's territorial integrity and sovereignty including through successive UN Security Council resolutions on Georgia, most recently resolution 1781 (2007) of 15 October 2007, in which the Security Council

"reaffirms the commitment of all Member states to the sovereignty, independence and territorial integrity of Georgia within its internationally recognised borders".

Taiwan: Politics and Government

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria the Government use in determining their policy on whether Taiwan should be recognised as an independent country. [198887]

Meg Munn: The Government's long-standing position is that it does not recognise Taiwan as an independent State. We acknowledge the position of the Chinese Government that Taiwan is a province of China and recognise the Chinese Government as the sole legal Government of China.

Timor Leste: Death

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss the New South Wales coroner's findings on the death of the British journalist Brian Peters in Balibo, East Timor in 1975 with the Australian Prime Minister on his forthcoming visit to the UK; and if he will make a statement. [198821]

Meg Munn: My right hon. Friend the Foreign Secretary did not discuss the death of Brian Peters when he met with the Australian Prime Minister earlier this month.

However, I plan to raise this issue with the Australian government to find out how the case is progressing and seek an indication as to when the process might be completed.

Yemen: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the activity by rebels under the command of Abdul-Malik al Houthi *(a)* since the signing of the agreement between his group and the government of Yemen on 1 February 2008, *(b)* between June and September 2007 and *(c)* between 2004 and 2007; and if he will make a statement. [199219]

Dr. Howells: The Government of Yemen has been fighting a series of internal conflicts with al-Houthi-led rebels in the Governorate of Sa'dah since 2004. This conflict is an internal matter, driven by a complicated mix of tribal, religious and economic factors. We acknowledge the need for the Government of Yemen to maintain security within its borders. However, we have called for dialogue between the Government of Yemen and the Houthis to try to achieve a ceasefire. A recent Qatari-led mediation effort has achieved a pause in the fighting. This is fragile, and we continue to receive reports of sporadic violence in isolated areas. But we welcome the Qatari mediation effort and consider it the best route to achieving a lasting peace in Sa'dah.

Yemen: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* his Department and *(c)* UK representatives have had with (i) members and (ii) representatives of the government of (A) the United States, (B) members of the European Union, (C) Russia and (D) Yemen on the (1) social, (2) humanitarian and (3) political situation in Yemen; and if he will make a statement. [199220]

Dr. Howells: The UK is a leading western donor to Yemen. Officials from our Embassy in Sana'a have almost daily contact with the US, EU member states resident in Yemen and the Yemeni Government, regularly raising political, humanitarian and development issues. In addition, the Foreign and Commonwealth Office meets frequently with officials from the Yemeni embassy in London. I have visited Yemen on two occasions since becoming a Minister of State for Foreign and Commonwealth Affairs and hope to do so again soon. I have raised Yemen's developmental and political situation with the Yemeni Prime Minister, Minister of the Interior and Minister of Foreign Affairs.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the action taken by the government of Yemen in the north of the country since January 2007; and if he will make a statement. [199221]

Dr. Howells: The Government of Yemen has been fighting a series of internal conflicts with al-Huthi-led rebels in the Governorate of Sa'dah since 2004. This conflict is an internal matter and we acknowledge the need for the Government of Yemen to maintain security within its borders. We have also called for care to avoid civilian casualties and for dialogue between the Government of Yemen and the Huthis to try to achieve a ceasefire. A recent Qatari-led mediation effort has achieved a pause in the fighting, although we continue to receive reports of sporadic violence in isolated areas. We welcome the Qatari mediation effort and consider it the best route to achieving a lasting peace in Sa'dah.

DUCHY OF LANCASTER

Charities: Fraud

Jo Swinson: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 3 April 2008, *Official Report*, column 1140W, on charities: fraud, what steps he plans to take to ensure that copies of the leaflet are printed and distributed to households in Scotland. [201358]

Phil Hope: Charity law and regulation, including the charitable collections of goods, is devolved and a matter for the Scottish Government.

Charity Commission: Manpower

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster (1) how many people were employed by the Charity Commission in each of the last 30 years; [198605]

(2) how many people *(a)* resigned and *(b)* retired from the Charity Commission in each of the last 30 years; [198606]

(3) how many people employed by the Charity Commission had salaries between *(a)* £20,000 and £30,000, *(b)* £30,000 and £40,000, *(c)* £40,000 and £50,000, *(d)* £50,000 and £60,000, *(e)* £60,000 and £70,000, *(f)* £70,000 and £80,000, *(g)* £80,000 and £90,000, *(h)* £90,000 and £100,000, *(i)* £100,000 and £110,000, *(j)* £110,000 and £120,000, *(k)* £120,000 and £130,000 *(l)* £130,000 and £140,000, *(m)* £140,000 and £150,000, *(n)* £150,000 and £160,000, *(o)* £160,000 and £170,000, *(p)* £170,000 and £180,000 *(q)* £180,00 and £190,000 *(r)* £190,000 and £200,000 and *(s)* over £200,000 in each of the last 30 years; and what the (i) mean and (ii) median salary of employees was in each of those years. [198607]

Phil Hope: These are matters for the Charity Commission as the independent regulator of charities in England and Wales. The Commission's Chief Executive will write to you and a copy of his response will be placed in the House Library.

Charity Commission: Pensions

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster what the cash equivalent transfer value is of the public sector pension of the Chief Executive of the Charity Commission. [198608]

Phil Hope: It is not appropriate to disclose values for staff, other than those whose details are reported in Remuneration Reports in the Department's Resource Accounts. A copy of the Charity Commission's Resource Accounts for the year ending 31 March 2007 is available in the Library of the House.

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster what pension scheme is offered to staff joining the Charity Commission; and if he will place in the Library details of the terms and benefits of the scheme. [198609]

Phil Hope: New entrants to the civil service are covered by the civil service pension arrangements. Staff can choose between 'nuvos', a defined benefit pension scheme and 'partnership', a stakeholder pension. If a person is being re-employed, and was previously a member of a civil service pension scheme, they may be able to rejoin their previous scheme, but this will depend on the length of time since they were last employed.

In respect of members of the defined benefit schemes, employer contribution rates are assessed for each of four ranges of pay levels. The rates for 2008-09 are:

Band	*Full-time annual salary*	*Rate from 1 April 2008*
Band 1	£19,500 and under	17.1
Band 2	£19,501 to £40,500	19.5
Band 3	£40,501 to £69,000	23.2
Band 4	£69,001 and above	25.5

The scheme rules are laid before Parliament and copies are in the House Library.

For members of 'partnership', the employer pays a basic contribution of between 3 per cent. and 12.5 per cent. (depending on the age of the member) into a stakeholder pension product, and will match the member's contribution up to a limit of 3 per cent. Employers also contribute a further 0.8 per cent. of pensionable salary to cover the cost of risk benefit cover (death in service and ill health retirement).

Details of the civil service pension arrangements can be found on the Civil Service Pensions website:

http://www.civilservice-pensions.gov.uk.

Children

Mr. Laws: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the proportion of children brought up in *(a)* two parent families and *(b)* single parent families in each ethnic group in the latest period for which figures are available; and if he will make a statement. [201194]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 24 April 2008:

As National Statistician I have been asked to reply to your recent question asking what estimate has been made of the proportion of children brought up in (a) two parent families and (b) single parent families in each ethnic group in the latest period for which figures are available. (201194)

The proportion of dependent children in families in the UK can be estimated using the Labour Force Survey (LFS). Table 1 is based on the latest UK family estimates for 2007 and shows the percentage of dependent children in lone parent and couple families according to the ethnicity of the child.

Table 1: Percentage of dependent children in UK families by ethnicity of child, 2007

	Couple	*Lone parent*
White	77	23
Mixed	61	39
Asian or Asian British	85	15
Black or Black British	50	50
Chinese	78	22
Other ethnic group	68	32
Total	76	24

Note:
This table excludes children not in a family and children whose ethnicity was not available

Source:
LFS quarterly data, April to June, not seasonally adjusted

Police

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster if he will ask the Cabinet Secretary to make a formal statement on the appropriateness of the Home Office announcement of 16 April on police during the local elections purdah period. [201160]

Edward Miliband: I refer the hon. Member to the Cabinet Secretary's letter to him of 18 April 2008, a copy of which has been placed in the Library of the House.

Prostate Cancer

Sandra Gidley: To ask the Chancellor of the Duchy of Lancaster how many men were diagnosed with prostate cancer in each of the last five years. [199453]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2008.

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many men were diagnosed with having prostate cancer in each of the last five years. [199453]

The latest available figures for newly diagnosed cases (incidence) of malignant neoplasm of prostate are for the year 2005. Figures for 2001 to 2005 for males in England are in the following table.

Registrations of newly diagnosed cases of prostate cancer[1], males, England, 2001 to 2005

	Number of cases
2001	27,380
2002	27,672
2003	27,777
2004	29,406
2005	28,886

[1] Prostate cancer is coded to C61 in the International Classification of Diseases Tenth Revision (ICD-10)

Office for National Statistics

Unemployment

Chris Grayling: To ask the Chancellor of the Duchy of Lancaster (1) how many and what proportion of households included no one in full-time employment in the latest 12-month period for which figures are available; [198778]

(2) how many and what proportion of people lived in households where no one was in full-time employment in the latest 12-month period for which figures are available. [198779]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician I have been asked to reply to your two Parliamentary Questions. The first asks how many and what proportion of households included no-one in full-time employment in the latest 12 month period for which figures are available (198778). The second asks how many and what proportion of people lived in households where no-one was in full time employment in the latest 12 month period for which figures are available (198779).

Estimates are provided from the Labour Force Survey (LFS). There is currently no annual household dataset, so the figures are given for the April-June quarter to be consistent with those published in the 'Work and worklessness among households' First Release (see web link)

http://www.statistics.gov.uk/pdfdir/work0807.pdf

For the three month period ending in June 2007, 10.7 million (43 per cent) households include no-one in full-time employment; these households consist of 19.4 million (34 per cent) people.

Published figures for workless households are based on working age households. A working-age household is a household that includes at least one person of working-age, that is a woman aged 16 to 59 or a man aged 16 to 64.

For the three month period ending in June 2007, 4.7 million (25 per cent) working age households include no-one in full-time employment; these households consist of 10.9 million (22 per cent) people.

In calculating the percentages, households with unknown economic status have been excluded.

The LFS is a sample survey covering over 52,000 households in the United Kingdom in each three month period. As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

Unemployment: Young People

Mr. Clappison: To ask the Chancellor of the Duchy of Lancaster how many *(a)* UK and *(b)* non-UK born 16 to 24 year olds were unemployed in each quarter since 1997; and what the employment rate in each category was in the same period. [201004]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 24 April 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many (a) UK and (b) UK born 16 to 24 year olds were unemployed in each quarter since 1997; and what was the employment rate in each category in the same period. [201004]

The attached table gives estimates of the number of unemployed people and the employment rate for the categories requested for the three month periods ending June and December each year from 1997 to 2007, derived from the Labour Force Survey (LFS). Comparable estimates for 1998 and 2000 are not available.

It should be noted that the estimate provided is weighted to population estimates consistent with those published in 2003. Reweighted analyses using the latest population estimates, published in summer 2007, will available from 14 May 2008.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

ILO unemployment[1] level and employment rate[2] of people aged 16 to 24, by country of birth, three months ending June and December, 1997 to 2007—United Kingdom, not seasonally adjusted

		Total UK		UK born	
		Unemployment level (thousand)	Employment rate (percentage)	Unemployment level (thousand)[3]	Employment rate (percentage)
1997	Q2	631	61	594	62
	Q4	571	63	529	64
1998	Q2	[3]	[3]	[3]	[3]
	Q4	[3]	[3]	[3]	[3]
1999	Q2	548	61	517	62
	Q4	530	64	490	65
2000	Q2	[3]	[3]	[3]	[3]
	Q4	[3]	[3]	[3]	[3]
2001	Q2	478	62	445	63
	Q4	544	63	501	64
2002	Q2	498	61	461	62
	Q4	546	63	504	64
2003	Q2	520	60	474	61
	Q4	526	62	487	63
2004	Q2	517	60	476	61
	Q4	565	61	512	63
2005	Q2	550	59	499	60
	Q4	622	58	560	60
2006	Q2	630	57	568	58
	Q4	648	59	576	60
2007	Q2	648	56	574	57
	Q4	638	58	576	60

[1] Number of unemployed people measured using the internationally agreed definition recommended by the International Labour Organisation (ILO).
[2] Number of people aged 16 to 24 in employment as a percentage of all 16 to 24-year-old people.
[3] Data unavailable.

Notes:
1. It should be noted that the estimates:
exclude certain people who have been resident in the UK for less than six months.
exclude students in halls of residence who do not have a UK resident parent.
exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc.).
are grossed to population estimates that only include migrants staying 12 months or more.
are grossed to population estimates consistent with those published in spring 2007 which are significantly lower than the latest population estimates as used in the Labour Market Statistics First Release.
2. Comparable data not available for 1998 and 2000.

Source:
Labour Force Survey (LFS)

TRANSPORT

A14: Lorries

Norman Baker: To ask the Secretary of State for Transport pursuant to the answer of 2 April 2008, *Official Report*, column 1005W, on the A14: lorries, how many lorry movements there were on average per day on the A14 in 2006; and what percentage of overall vehicle movements along the road this figure represents. [201277]

Jim Fitzpatrick: The annual average daily flow for the A14 in 2006 was 8,273 for heavy goods vehicles and 46,051 for all motor vehicles. Heavy goods vehicles therefore accounted for 18 per cent. of total flow.

This is a representative traffic flow for any randomly selected point on the A14.

Airports: Baggage

Mr. Gummer: To ask the Secretary of State for Transport what *(a)* regulations and *(b)* guidance govern the carrying of hand luggage on aeroplanes leaving (i) Heathrow and (ii) Gatwick; and who is responsible for determining the number of pieces of hand luggage allowed per passenger on commercial aircraft. [200650]

Jim Fitzpatrick: The previous restriction on the number of cabin bags permitted to be carried at both Heathrow and Gatwick has been lifted. It is for the airlines and airports to apply their own local policies on the number of bags which may be taken on to aircraft by passengers. The only restriction is on the size of cabin bag (remains at 56 cm x 45 cm x 25 cm) and there are no plans to change this. These dimensions are in line with The International Air Transport Association's recommended practice.

Bus Services

Mr. Drew: To ask the Secretary of State for Transport when the consultation on the bus services operation grant and fuel duty rebate is expected to end. [201386]

Ms Rosie Winterton: Our consultation document 'Local Bus Service Support—Options for Reform' was published on 13 March. The closing date for responses is 5 June.

Departmental Information Officers

Mr. Jeremy Browne: To ask the Secretary of State for Transport pursuant to the answer of 6 February 2008, *Official Report*, columns 1154-55W, on departmental information officers, if she will break down the figures provided by agency. [187802]

Jim Fitzpatrick: Further to my answer of 6 February 2008, *Official Report*, columns 1154-55W, individual executive agency figures readily available for press officers and communication officers are as follows, together with corrected information. Some data are not available without disproportionate cost.

(a) Press officers

The full time equivalent number of staff employed on press officer activities for 2002-03 to 2007-08 is as follows:

Staff FTE

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
DfT Central	12.7	13.8	13.8	13	14.6	13.8
DSA	2	2	2	2	2	2
DVLA	7	7	7.5	7	7	5
GCDA	n/a	n/a	n/a	0	0	0
HA	6	6	6	6.8	11.1	12.2
MCA	2	2	2	2	2	2
VCA	0	0	0	0	0	0
VOSA	1	1	2	2	2	2
DfT agencies	18	18	19.5	19.8	24.1	23.2
DfT total	30.7	31.8	33.3	32.8	38.7	37.0

Note:
Figures for 2005-06 have been corrected from my answer of 6 February.

(b) Communications Officers

The Department does not have a "communication officer" grade. Figures shown are for communication specialists engaged in a range of communications activities, and excluding press officers. The full time equivalent (FTE) number employed as at:

	October 2006	*July 2007*	*February 2008*
DSA	9.0	n/a	12.8
DVLA	43.0	n/a	29.3
GCDA	1.0	n/a	1.0
HA	8.0	n/a	10.8
MCA	3.0	n/a	3.0
VCA	2.5	n/a	2.5
VOSA	7.0	n/a	7.0

Comparable data are not available prior to October 2006 without disproportionate cost.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Transport how many *(a)* permanent civil service posts, *(b)* permanent non-civil service posts and *(c)* temporary or agency workers there were in her Department in each month since May 2005. [200172]

Jim Fitzpatrick: The Office for National Statistics publishes Civil Service employment statistics every quarter in the Public Sector Employment First Release. The latest statistics published are for Q4 (December) 2007. Table 6 of the publication provides a breakdown of employment by Government Department. This has been available since Q1 2006 and from Q4 2006 included a breakdown of permanent and temporary/casual employees.

The detailed information requested could be provided only at disproportionate cost.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Transport how much her Department spent on publicity and advertising in 2007-08. [199033]

Jim Fitzpatrick: The total figures for the Department's advertising and publicity spend for the 2007-08 fiscal year are set out as follows. Please note, the figures are provisional outturn and subject to audit.

	2007-08 (expected outturn) (£)
DFT (Central)	26,700,000
DVLA	7,500,000
DSA	169,000
HA	4,718,000
VOSA	659,000
MCA	1,204,000
VCA	66,000
GCDA	30,000
Total	41,046,000

The majority of advertising investment by the central Department is in support of the THINK! road safety, Act on CO2, aviation security and bus concessionary passes campaigns. Major advertising investment by Executive agencies has been by the Driver and Vehicle Licensing Agency, to explain changes to the car tax rules.

Departmental Pay

Dan Rogerson: To ask the Secretary of State for Transport what the total cost was of *(a)* salaries for permanent civil service posts, *(b)* salaries for permanent non-civil service posts and *(c)* payments to temporary or agency workers in her Department in each month since May 2005. [200173]

Jim Fitzpatrick: The information requested could be provided only at disproportionate cost.

Departmental Public Relations

Mr. Jeremy Browne: To ask the Secretary of State for Transport pursuant to the answer of 7 February 2008, *Official Report*, columns 1414-16W, on departmental public relations, which *(a)* lead public relations company and *(b)* other public relations companies worked on each campaign by her Department and its agencies in each of the last five years; and what the cost of each campaign was. [187895]

Jim Fitzpatrick: External public relations companies who have worked to support the Department and executive agencies' communications activities since the 2002-03 fiscal year are:

Major communication activity	*Agency*
DfT Central	
THINK! road safety campaign	Fishburn Hedges, QBO and Red (current agency)
Act on CO_2 campaign	Forster
Concessionary bus fares campaign	Munro & Forster
European Whole Vehicle Type Approval campaign	Geronimo
Executive agencies	
DVLA communications (including the promotion of registered number plate suppliers, electronic vehicle licensing, and local office networks)	MGB Communications
DVLA continuous registration (vehicle taxation) campaign	Red and Geronimo
DVLA accuracy of records activity	Geronimo
DVLA Northern Ireland	Red
DVLA number plate theft campaign	Red
DVLA driver re-engineering project	Geronimo
VOSA communications	Couravel
MCA's Seasmart campaign	Munro & Forster and Kilfross & Render

Total costs incurred since 2002-03 on external public relations agencies and promotions are approximately £3,158,000. Breaking down these costs by each individual campaign over the past five years could be done only at disproportionate cost.

With apologies to the hon. Member, I would like to provide additional figures to my answer of 7 February 2008, *Official Report*, columns 1414-16W. Figures provided then did not include expenditure on PR support that DVLA commissioned through the Central Office of Information. Total expenditure for DVLA in each fiscal year since 2003-04 is as follows:

	£
2002-03	[1]84,000
2003-04	257,244
2004-05	346,941
2005-06	871,654
2006-07	371,327
2007-08	[2]479,982

[1] Spend through COI not available.
[2] Estimated outturn.

Disabled

Mr. MacNeil: To ask the Secretary of State for Transport what targets her Department has set in relation to its employment of people with disabilities over the next five years. [199053]

Jim Fitzpatrick: The Department for Transport is currently reviewing employment targets generally and this includes targets in relation to the employment of people with disabilities. We expect the review to be complete by the summer of 2008 and targets will be published then.

Galileo

Mr. Evans: To ask the Secretary of State for Transport what discussions she has had about the potential uses of the Galileo European satellite navigation system for all Government Departments. [200186]

Ms Rosie Winterton *[holding answer 21 April 2008]:* I and my transport ministerial colleagues have regular discussions with departmental officials and with Ministers from other Departments about transport issues across the range of our responsibilities.

The Government recognise that Galileo should be a useful tool for delivering a variety of policy aims and improved services in transport and other sectors. That is why officials continue to work closely with all interested Government Departments to identify potential public sector uses for Galileo and to promote this as part of their engagement with the Location and Timing Knowledge Transfer Network (drawn from UK industry, academia, end users and Government).

Lorries: Safety Belts

Mr. Milburn: To ask the Secretary of State for Transport (1) how many heavy goods vehicles not fitted with seat belts were registered in each of the last 10 years; [200470]

(2) what assessment she has made of the costs and benefits of fitting seat belts to heavy goods vehicles; [200471]

(3) what her estimate is of the number of heavy goods vehicles that are not fitted with seat belts. [200473]

Jim Fitzpatrick: All vehicles over 3.5 tonnes gross weight first used on or after 1 October 2001 have been required by law to be fitted with seat belts. The following table shows by year the number of goods vehicles in-use that were registered before that date.

	Thousand
1997	442
1998	441
1999	459
2000	471
2001	466

Prior to 2001 some manufacturers were providing seat belts in their vehicles on a voluntary basis however we do not have statistics to show the fitting rate.

A cost and benefit study was conducted as part of the review leading to the mandatory requirement for seat belt installation. This concluded that, assuming 100 per cent. seat belt fitment, three lives and 35 serious injuries could be saved per year. At today's values this represents a benefit of £9.9 million.

We estimate that in 2006, 266,000 vehicles first registered before October 2001, were still in use. However, a review of the age of the fleet by year shows that, on average, the number of vehicles registered before that date is reducing by approximately 40,000 per year.

Mr. Milburn: To ask the Secretary of State for Transport how many *(a)* fatalities and *(b)* injuries there were involving drivers of heavy goods vehicles which were not fitted with seat belts in each of the last 10 years. [200472]

Jim Fitzpatrick: The information requested is not collected.

Motor Vehicles: Petrol Alternatives

Mr. Bone: To ask the Secretary of State for Transport what steps the Government are taking to promote alternatives to petrol powered vehicles. [201231]

Jim Fitzpatrick: The Government encourage the use of alternative fuels through reduced rates of vehicle excise duty for cars run on certain alternative fuels and registered after 1 March 2001, and through differentials in fuel duty between petrol and diesel and other fuels. Vehicles powered wholly by electric power are exempt from VED.

The Government fund the running of an Infrastructure grant programme. The grants assist the building of refuelling stations for alternative fuels (natural gas/biogas, hydrogen and bio-ethanol). It is also funding research and development into battery electric and plug-in hybrid vehicles through a low carbon vehicles innovation platform, which brings together funding from the Department for Transport, Technology Strategy Board and the Engineering and Physical Sciences Research Council.

The Government have also introduced the renewable transport fuel obligation (RTFO). The RTFO, which came into effect from 15 April 2008 aims to ensure that sustainable biofuels make up an increasing percentage of total UK road transport fuels, and means that biofuels are starting to become available in low blends at the majority of forecourts in the UK.

Personal Location Beacons: Licensing

Mr. David Jones: To ask the Secretary of State for Transport what consideration her Department has given to the merits of a licensing regime for personal location beacons for land-based use. [200372]

Jim Fitzpatrick: The UK Search and Rescue (UKSAR) Inland Consultative Committee is currently looking at the use of personal location beacons on land and is in the process of gathering views from interested parties which will be discussed at their next meeting on 11 June with a view to ultimately making recommendations to the UKSAR Strategic Committee—an inter-agency national forum, chaired by DfT, with responsibility for advising on the structure, scope and framework of the organisation of UKSAR.

Press

Mr. Laws: To ask the Secretary of State for Transport (1) what the cost of the press offices of *(a)* her Department, *(b)* its agencies and *(c)* its non-departmental public bodies each year was in 1996-97; what the cost was in each quarter since 1 April 2007; and if she will make a statement; [189671]

(2) how many press office staff were employed by *(a)* her Department, *(b)* its agencies and *(c)* its non-departmental public bodies (i) in each year since 1996-97 and (ii) at the latest date for which information is available. [189672]

Jim Fitzpatrick: The Department for Transport was created in May 2002. Records of costs from 1996-97 until 2001-02 are not readily available owing to departmental and agency re-organisations and could be provided only at disproportionate cost. Figures for NDPBs and quarter year figures could be provided only at disproportionate cost.

(1) The cost of DFT Central's press office (including pay and non-pay costs) for the years 2002-03 to 2006-07 and forecast for 2007-08 is as follows:

£ million

	DFT(C) pay	*DFT(C) non-pay*
2002-03	0.85	0.81
2003-04	0.70	0.80
2004-05	0.70	0.83
2005-06	0.77	0.76
2006-07	0.88	0.67
2007-08	0.84	0.67

The non-pay costs include media monitoring, use of Central Office of Information's Government News Network and all other direct external costs attributed to press office operations.

Press office activities in most agencies are not carried out by staff or units solely dedicated to this purpose. Full records of costs are therefore not readily available for press office functions alone. However, agency press office function pay costs have been estimated for the years 2002-03 to 2006-07 and forecast for 2007-08 as follows:

Staff £ million

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
DSA	0.04	0.06	0.06	0.06	0.06	0.06
DVLA	0.14	0.15	0.18	0.19	0.19	0.14
GCDA	0	0	0	0	0	0
HA	0.21	0.22	0.23	0.27	0.30	0.36
MCA	0.08	0.09	0.11	0.15	0.15	0.15
VCA	0	0	0	0	0	0
VOSA	0.02	0.02	0.04	0.04	0.04	0.04

(2) The full-time equivalent number of staff employed on press officer activities from 2002-03 to 2007-08 is as follows:

Staff FTE

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
DFT Central	12.7	13.8	13.8	13	14.6	13.8
DSA	2	2	2	2	2	2
DVLA	7	7	7.5	7	7	5
GCDA	n/a	n/a	n/a	0	0	0
HA	6	6	6	6.8	11.1	12.2
MCA	2	2	2	2	2	2
VCA	0	0	0	0	0	0
VOSA	1	1	2	2	2	2
DFT agencies	18	18	19.5	19.8	24.1	23.2
DFT total	30.7	31.8	33.3	32.8	38.7	37.0

The Highways Agency recruited regional press officers in 2006 and 2007 to support its new role as a network operator and in particular the introduction of the traffic officer service which took over many police functions in managing motorway incidents.

INTERNATIONAL DEVELOPMENT

Africa: AIDS

Mr. Cabora: To ask the Secretary of State for International Development what recent progress has been made on the educational programme in Africa to combat the spread of AIDS; and if he will make a statement. [196727]

Gillian Merron: The most significant progress that has been made on education programmes in addressing the threat posed by HIV and AIDS has been through strengthening the content of education sector plans by more explicit reference to HIV prevention through curriculum reform, teacher training, peer education, etc.

A recent survey of 34 countries in Africa showed that all of these countries have a National HIV and AIDS policy and three quarters of them have an education sector specific HIV and AIDS strategy and plan. 30 countries are training teachers to protect themselves, and all countries participating in the survey are providing some HIV prevention education at primary and/or secondary levels.

More progress is needed in the establishment of effective monitoring and evaluation procedures. The Department for International Development routinely works with partner country governments to strengthen their monitoring and evaluation systems.

Corruption: Overseas Aid

Mr. Crabb: To ask the Secretary of State for International Development how much UK aid was spent on tackling corruption in *(a)* India, *(b)* Tanzania, *(c)* Sudan, *(d)* Bangladesh, *(e)* Pakistan, *(f)* Afghanistan, *(g)* Ethiopia, *(h)* Nigeria, *(i)* Uganda, *(j)* Democratic Republic of Congo, *(k)* Ghana, *(l)* Kenya, *(m)* Malawi, *(n)* Zambia, *(o)* Indonesia, *(p)* Mozambique, *(q)* Vietnam, *(r)* Iraq, *(s)* Nepal and *(t)* China in 2006-07. [199001]

Mr. Thomas: The Department for International Development has programmes to combat corruption that both directly target corruption as well those that have a broader focus on prevention and on strengthening governance. Such programmes include for example: support to strengthen the capacity, accountability and responsiveness of the state; initiatives to strengthen parliamentary oversight; programmes with civil society; and targeted support for the investigation and prosecution of corrupt activities.

Departmental bilateral expenditure on governance related programmes in 2006-07 totalled £323 million. We are unable to break this down further and provide specific statistical information on anti-corruption expenditure by country. The following table provides details of the levels of governance expenditure for the countries highlighted in the question.

DFID bilateral governance expenditure, 2006-07

		£ million
(a)	India	31.9
(b)	Tanzania	19.7
(c)	Sudan	7.5
(d)	Bangladesh	10.8
(e)	Pakistan	14.6

Departmental Research

John Bercow: To ask the Secretary of State for International Development (1) what progress has been made on his Department's new research strategy; and whether it will commence in April 2008; [197726]

(2) whether he plans to publish the findings of the in-country consultations his Department held in Bangladesh, China, Ethiopia, India, Nigeria, South Africa and Uganda on its new research strategy; [197728]

(3) what progress has been made towards widening the scope of his Department's education research to look at *(a)* post-primary education and *(b)* the links between education and the world of work; [197779]

(4) what progress has been made towards the development of non-medical research initiatives on *(a)* children's education, *(b)* HIV and AIDS, *(c)* the relationship between women's income and the survival rate of their children and *(d)* safer childbirth. [197782]

Mr. Thomas: The new Department for International Development research strategy 2008-13 was launched on 22 April and it, together with 10 working papers, can be found on the DFID website http://www.dfid.gov.uk/research/newresearch.asp.

The working papers provide background and detail about the research to be funded within the strategy period.

The education and health working papers contain more detail about how DFID will develop its education and non-medical health research. Future open competitions for research will call for research proposals to cover these areas.

Findings from the in-country consultations have been published and can be accessed at the following link on DFID's Research Portal:

http://www.research4development.info/features.asp?FeaturelD=58

Developing Countries: Diseases

John Bercow: To ask the Secretary of State for International Development what responses his Department received from private companies on development of new treatments, vaccines and technologies for *(a)* malaria, *(b)* tuberculosis, *(c)* HIV and AIDS and *(d)* other diseases during the consultation on the Department's new research strategy. [197730]

Mr. Thomas: Over 600 responses were received during the web-based consultation on the new research strategy, of which 21 identified themselves as business/industry, but no further detail is available.

The development of new treatments, vaccines and technologies for *(a)* malaria, *(b)* tuberculosis, *(c)* HIV and AIDS and *(d)* other diseases were raised by many respondents. Responses to the consultation were analysed anonymously and comments cannot be attributed to individuals or organisations.

Developing Countries: Terrorism

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps the Government have taken to provide assistance to developing countries following terrorist attacks in the last 12 months. [199409]

Mr. Thomas: The Department for International Development (DFID) has not provided emergency support to developing countries affected by terrorist attacks during the last year. Though available in theory, the scale of terrorist attacks to date has not warranted large international humanitarian responses.

More generally DFID can help to mitigate the economic and social impact of a serious attack, both on people's livelihoods and government finances, for example support for the efforts of multilateral organisations such the World Bank and United National Development Programme following the 2002 Bali bombing.

DFID can also help to reduce the threat of violence through:

Mainstream development programming, which can help developing countries to address the grievances which ultimately drive conflict and cause terrorism.

Support for conflict prevention and mediation measures, where appropriate.

Developing Countries: Transport

John Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the World Bank on research into low-cost transport options for poorer communities. [197729]

Mr. Thomas: Officials from the Department for International Development (DFID) discussed research relevant to low-cost transport options with the World Bank in the first quarter of this year. This topic has been incorporated into wide-ranging provision for collaborative work which falls with the following areas:

(a) DFID's South East Asia Community Access Programme (SEACAP) designed to enhance the pro-poor content of World Bank's programmes in the Mekong area.

(b) The World Bank's Sub-Saharan Africa Transport Policy programme (SSATP), which will co-ordinate the Steering Group for DFID's African Community Access programme (AFCAP)

(c) A joint programme of transport research support to be based in the Transport Unit within the World Bank's sustainable development network in Washington; and

(d) Co-operation with the World Bank in the work of the DFID-funded global transport knowledge partnership.

Ipsos MORI

Mr. Pickles: To ask the Secretary of State for International Development pursuant to the answer of 26 March 2008, *Official Report*, column 149W, on Ipsos MORI, what the estimated value of the contract is through the Central Office of Information to research issues into public attitudes. [199976]

Mr. Douglas Alexander: The total value of the contract with Ipsos MORI to research issues into public attitudes, contracted through COI, was £126,778 plus VAT.

Overseas Aid

Mr. Crabb: To ask the Secretary of State for International Development what estimate he has made of the level of fiduciary risk for UK bilateral aid to *(a)* India, *(b)* Tanzania, *(c)* Sudan, *(d)* Bangladesh, *(e)* Pakistan, *(f)* Afghanistan, *(g)* Ethiopia, *(h)* Nigeria, *(i)* Uganda, *(j)* the Democratic Republic of Congo, *(k)* Ghana, *(l)* Kenya, *(m)* Malawi, *(n)* Zambia, *(o)* Indonesia, *(p)* Mozambique, *(q)* Vietnam, *(r)* Iraq, *(s)* Nepal and *(t)* China. [199877]

Mr. Thomas: Since 2004, the Department for International Development (DFID) has conducted detailed fiduciary risk assessments in all countries where we provide poverty reduction budget support (PRBS). This is aid given to support poverty reduction programmes through partner governments' own budgets, and using partners' own financial management, procurement and accountability systems. The following table shows the most recent fiduciary risk rating in each country listed above that has received PRBS.

Country	*DFID fiduciary risk rating*
Tanzania	medium
Bangladesh	high
Pakistan	medium
Ethiopia	moderate
Uganda	medium
Ghana	substantial
Malawi	high
Zambia	high
Mozambique	substantial
Vietnam	medium
Nepal	high

DFID has not provided any PRBS to the Federal Government of India, but we do provide sector budget support in some of our focus states where the risk rating is judged as medium. No PRBS has been provided to the Sudan, Afghanistan, Nigeria, the Democratic Republic of the Congo, Kenya, Indonesia, Iraq or China.

From 2008, DFID will as part of its country planning process conduct fiduciary risk assessments for all countries where we provide financial aid.

Overseas Aid: Expenditure

Ms Katy Clark: To ask the Secretary of State for International Development how much the Government have spent on foreign aid since 1997. [200523]

Mr. Malik: Details of total UK Official Development Assistance (ODA) since 1997 are in the following table.

UK Official Development Assistance, 1997 to 2007

	£ million
1997	2,096
1998	2,332
1999	2,118
2000	2,974
2001	3,170
2002	3,285
2003	3,834
2004	4,313
2005	5,925
2006	6,770
2007 (provisional)	4,957
Total 1997-2007	41,774

The primary reason for the decline in UK ODA in 2007 is the result of lower levels of debt relief. In 2006 the UK gave more than £1.9 billion in debt relief, primarily to Nigeria; this fell to £35 million in 2007.

Despite the decline in 2007, the UK remains on target to provide 0.7 per cent. of gross national income (GNI) as ODA by 2013, two years ahead of the EU target.

CHILDREN, SCHOOLS AND FAMILIES

Adoption

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many children were *(a)* adopted and *(b)* taken into care in each year from 1978 to 2008; and if he will make a statement; [200993]

(2) how many children were taken into care in each local authority area in the latest year for which figures are available; what the rate was per 10,000 children in each such area; and if he will make a statement. [201459]

Kevin Brennan: The information requested is as follows.

PQ 200993

Data on the number of children looked after by English local authorities who have been *(a)* adopted from care in each of the years ending 31 March 1995 to 2007, and *(b)* taken into care in each of the years ending 31 March 1996 to 2007 are shown in the following tables 1 and 2.

Table 1: Children looked after adopted during the years ending 31 March 1995 to 2007[1,2,3], England

	Number
1995	2,000
1996	1,900
1997	1,900
1998	2,200
1999	2,100
2000	2,700
2001	3,100
2002	3,400
2003	3,500
2004	3,800
2005	3,800
2006	3,700
2007	3,300

[1] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication data of previous materials.

[2] Between 1998 and 2000, the number of children adopted could only be estimated on the basis of a one-third sample as a proportion of the total number of children looked after. Since 2001 additional information has been collected on a 100 per cent. basis for looked after children who were adopted. Consequently, for 2001 to 2003, the exact number of adopted children is known and has been used to estimate the number of children in the age groups shown. These figures should therefore be treated with caution.

[3] To maintain the confidentiality of each child, numbers below 1,000 have been rounded to the nearest 10 and numbers above 1,000 have been rounded to the nearest 100. As a consequence, figures may not sum to the total.

Source:
SSDA903 return on children looked after.

Table 2: Children looked after who were taken into care during the years ending 31 March 1996 to 2007[1,2,3,4], England

	Number
1996[5]	5,800
1997[5]	6,100
1998[6]	7,100
1999[6]	7,100
2000[6]	7,700
2001[6]	7,000
2002[6]	7,400
2003[6]	8,100
2004[6]	7,500
2005[6]	7,700
2006[6]	7,700
2007[6]	7,600

[1] Only the first occasion on which a child started to be looked after in the year has been collected.

[2] Figures exclude children looked after under an agreed series of short-term placements.

[3] Children who are deemed to be "taken" into care are those who started to be looked after as the result of a care order (full or interim), police protection, emergency protection order or child assessment order.

[4] To ensure that no individual can be identified from statistical tables, we use conventions for the rounding and suppression of very small amounts. All numbers which appear in national tables have been rounded to the nearest 100 if they exceed 1,000 and to the nearest 10 otherwise.

[5] Figures are taken from the SSDA903 return which in 1996 and 1997 as well as since 2003-04 has covered all children looked after.

[6] Figures are derived from the SSDA903 one-third sample survey.

Source:
SSDA903 return on children looked after.

PQ 201459

The information requested has been placed in the House of Commons Library.

Child Poverty Unit

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will publish the minutes of each meeting of the Child Poverty Unit since its establishment; and if he will make a statement. [201073]

Beverley Hughes: In October 2007 the Government established the DWP/DCSF Joint Child Poverty Unit to ensure that there is a clear cross Government approach to tackling child poverty.

The unit brings together the expertise of officials from DWP and DCSF and works closely with HMT and our key stakeholders to drive forward the child poverty agenda.

Since its formation, members of the unit have undertaken a large number of meetings with prominent members of the child poverty lobby, key think tanks and other stakeholders, as well as attending ministerial meetings.

Meetings are held routinely and on an ad hoc basis, as the unit seeks to reinvigorate the Government's child poverty strategy, to ensure we eradicate child poverty by 2020.

Flexibility is the key to the unit's success. Officials are co-located and work together on a daily basis. As a consequence is it not possible formally to minute each and every meeting that members of the unit undertake. To do so would place an additional burden on the unit's time and resources.

Children: Abuse

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families what statutory requirements there are on *(a)* independent and *(b)* maintained schools to report allegations of child abuse to a local authority designated officer; and if he will make a statement. [201312]

Kevin Brennan: Section 175 of the Education Act 2002 imposes a statutory duty on both local authorities and the governing bodies of maintained schools to make arrangements to ensure that their functions are carried out with a view to safeguarding and promoting the welfare of children and to have regard to guidance issued by the Secretary of State in considering such arrangements.

Section 157 of the Education Act 2002 and the Education (Independent Schools Standards) (England) Regulations 2003 impose a duty on independent schools to draw up and implement a policy to safeguard and promote the welfare of pupils at the school.

These statutory duties are supported by guidance contained within Working Together to Safeguard Children, which was issued in April 2006, and Safeguarding Children and Safer Recruitment in Education, which was issued in November 2006 and came into force in January 2007. Both documents set out the process for dealing with allegations that might indicate that someone is unsuitable to continue to work with children, because it is alleged that they have behaved, in a way that has harmed a child, or may have harmed a child; possibly committed a criminal offence against or related to a child; or behaved towards a child or children in a way that indicates s/he is unsuitable to

work with children. The guidance is clear that any allegations that fell within this definition must be taken seriously and should be examined objectively by someone independent of the school concerned: in the first instance this is typically the local authority designated officer who leads on dealing with allegations in that area. The guidance explains that the police must be consulted about any case in which a criminal offence may have been committed, and that a strategy discussion (which will involve children's social care) should take place when there is cause to suspect a child is suffering or is likely to suffer significant harm. Sometimes allegations will be so serious as to require immediate intervention by children's social care or the police, prior to notifying the local authority designated officer.

Children: Asylum

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the number of children in each local authority area who are the children of parents seeking asylum; and if he will make a statement. [201193]

Kevin Brennan: In order to respond to this question, the Department will need to gather information from other Government Departments. When the information is available I shall write to the hon. Member and place a copy of that letter in the House Library.

Children: Poverty

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what contribution his Department is making to meeting the Government's 2010 child poverty target; and if he will make a statement. [200995]

Beverley Hughes: Tackling child poverty is in everybody's interest and it needs to be everybody's business. On Budget Day we published "Ending child poverty: everybody's business" with the Government's strategy for halving child poverty by 2010 and eradicating it by 2020. The measures announced in the Budget will invest an additional £950 million and lift up to a further 250,000 additional children out of poverty from 2010-11, up to 500,000 in all when combined with announcements in last year's Budget and pre Budget report

The Joint Department for Children; Schools and Families and Department for Work and Pensions Child Poverty Unit we created last year is coordinating work across Government to support families to escape poverty by increasing employment and raising incomes for those who can work. And last year's Budget and the Children's Plan set out further policies and measures to improve children's life chances and invest in improving services for children to enable them to break the cycle of poverty from generation to generation.

Departmental Marketing

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his Department's budget for publicity and advertising *(a)* was in 2007-08 and *(b)* is for 2008-09; and if he will make a statement. [201126]

Kevin Brennan: The budget for publicity and advertising for DCSF for *(a)* 2007-08; and *(b)* 2008-09 is as follows:

	£ million
2007-08	13.1
2008-09	9.3

Dyslexia

Mr. Oaten: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the provision of specialist dyslexia teaching in the light of the report of the No to Failure project on screening for dyslexia and specific learning difficulties. [201226]

Kevin Brennan: All local authorities and schools must have regard to the special educational needs code of practice which provides advice on their statutory duties to identify, assess and make provision for pupils' special educational needs. Children with dyslexia should have their needs identified and support put in place in the same way as children with other special educational needs (SEN).

To identify and promote best practice, we are working with the British Dyslexia Association, Dyslexia Action, Xtraordinary People and the Professional Association of Teachers of Students with Specific Learning Difficulties on the No to Failure project. This project is supporting trailblazer schools in three local authority areas, where children are screened and specialist teaching provided to those identified at risk of dyslexia and other specific learning difficulties. We are supporting this project with just over £1 million funding over three years.

The recently published report from No to Failure says that a significant proportion of children in the trailblazers not achieving expected levels of attainment are at risk of dyslexia or other specific learning difficulties. However, the report does not indicate how many had already been identified with SEN, nor does it evaluate the impact of specialist teaching on children's progression. We are looking forward to seeing the final report later this year, which we understand will contain such an evaluation.

Through No to Failure, we have commissioned Dr. Chris Singleton to summarise published research on the impact of specialist dyslexia teaching. We will consider whether and how we should promote specialist dyslexia teaching as best practice in the light of evidence of its impact.

To help those working in schools with identifying and supporting children with dyslexia, last October we launched the inclusion development programme, which is offering professional development in key areas of SEN starting with training on communication difficulties, including dyslexia. The inclusion development programme materials were developed in close consultation with dyslexia organisations.

We are also providing £150,000 over two years for the British Dyslexia Association to enhance their helpline's service to teachers, and 250,000 over three years for Dyslexia Action to run Partnership for Literacy pilots in a further 10 schools.

Free School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of the cost to the public purse of providing school dinners free of charge to all pupils in *(a)* primary schools and *(b)* secondary schools; [201041]

(2) what estimate he has made of the cost to the public purse of extending entitlement to free school meals to all pupils *(a)* in primary schools, *(b)* in secondary schools and *(c)* aged four to 18 years. [201088]

Kevin Brennan: The Department estimates that the cost of providing school meals free of charge to all pupils in *(a)* primary schools is approximately £1.2 billion, and *(b)* secondary schools is approximately £1 billion. The primary figure includes pupils aged four. Therefore, for pupils in schools aged 4-18 in schools, we estimate the cost to be £2.2 billion.

Parents

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many times the Parents Panel has met since it was established; what conclusions it has reached; if he will publish the minutes of the panel's meetings; and what the cost of the panel has been. [200992]

Beverley Hughes: We are currently in the process of tendering for an organisation to run the Parents Panel and a survey to provide information on parents' confidence in their ability to help their children to thrive and in the support services available to them. Panel members will be recruited in a way that ensures the panel is as representative of parents as possible. We expect to hold the first meeting of the Parents Panel in autumn 2008.

In the meantime, we are convening a group of 36 parents to discuss key issues arising from the children's plan. This parents group will meet on 15 May and 9 July and is made up from parents who attended the recent Time to Talk events on the children's plan.

The cost of running the two parents group events is just over £75,000. This includes: recruiting parents; providing facilities for the meetings; organising and facilitating the events; developing stimulus materials; providing an on-line forum for parents' discussion before and between meetings; contributing to parents' out of pocket expenses.

We will publish the findings of both the parents and the parents group.

Parents: Advisory Services

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many calls there have been to the Parent Know How helpline in each month since it was established; what the cost of the helpline has been; and if he will make a statement. [200985]

Kevin Brennan: The Parent Know How programme is funding seven third sector organisations to deliver helplines for parents. The funding for these helplines commenced on 1 April 2008. Management data, including the number of calls to the helplines, will be collected quarterly and the first report is due in July. The third sector organisations are funded by grants to deliver the helpline services. The total cost in 2008-09 is £3.4 million.

Pre-School Education

Mr. Drew: To ask the Secretary of State for Children, Schools and Families what discussions he has had with representatives of the *(a)* Steiner and *(b)* Waldorf Foundation on the early years framework. [199479]

Beverley Hughes: Officials in the Department have met representatives of the Steiner Waldorf Schools Fellowship on a number of occasions following the development of the Early Years Foundation Stage, and the Department has had regular informal contact.

As my hon. Friend knows, the Early Years Foundation Stage is designed as a flexible, play-based framework for early learning and care from birth to five. It contains developmental milestones which many, but not all, children can reach by the age of five, but the pace and approach through which practitioners support children towards those milestones is left to their professional judgment.

I can reassure my hon. Friend that practitioners of Steiner Waldorf educational philosophy will be able to work within the Early Years Foundation Stage without compromising their educational principles, and that no school or setting would be penalised by Ofsted simply for following any particular philosophy.

Pupil Exclusions: Deviance and Behaviour Disorders

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils with behavioural, emotional and social difficulties were given a fixed period exclusion in each year for which figures are available; [200321]

(2) how many pupils entitled to free school meals were given a *(a)* fixed period and *(b)* permanent exclusion in each year for which figures are available. [200320]

Kevin Brennan: The requested information could be provided only at disproportionate costs.

Safeguarding Vulnerable Groups Act 2006

Bob Spink: To ask the Secretary of State for Children, Schools and Families (1) what research he has commissioned on the impact of the Safeguarding Vulnerable Groups Act 2006 on the number of under 16 year olds in employment; and if he will make a statement; [200609]

(2) what estimate he has made of the number of *(a)* teachers and *(b)* non-teachers who will be required to register with the Independent Safeguarding Authority when that agency comes into operation in October 2009; [200610]

(3) what the *(a)* estimated costs and *(b)* regulatory impact will be of the Safeguarding Vulnerable Groups Act 2006 on (i) businesses and (ii) work experience opportunities for teenagers. [200611]

Kevin Brennan: The impact on businesses was considered in the Regulatory Impact Assessment for the Safeguarding Vulnerable Groups Act 2006 which was updated June 2006. It found that costs for employers, some of whom already vet staff caring for children, will be offset by savings—for example on repeat work, since the new Independent Safeguarding Authority (ISA) registration will be portable from job to job—as well as by reduced risk of unsuitable employees. This should encourage employers to continue part-time opportunities for under-16s, including work experience. In addition, most employees that young people come into contact with during their employment will not be required to register with the ISA. This is because looking after, training, supervising etc. the young person during the course of their employment is not a part of those employees' jobs.

It is envisaged that some 11.3 million people will be required to register with the ISA, mostly due to work which under the Act will be "Regulated Activity" with children or vulnerable adults; 525.6 thousand of these are teachers including occasional and supply teachers in England and Wales (January 2007 statistics).

Earlier this year the Department concluded a consultation on many aspects of the scheme including issues for business and work experience; We have received useful feedback from stakeholders including the British Retail Consortium and work experience providers on how far regulated activity should cover contact with under 16-year-olds in employment and on work experience. Risk can never be eliminated from our lives, but young people must be introduced to it in a measured way. We remain of the view that part-time work is potentially beneficial for under 16s. It introduces them to the world of work and can develop self-confidence, communication and organisational skills, familiarity with money and dealing with other people. We shall publish the outcome of the consultation in due course.

It is not our intention to make any work a regulated activity unnecessarily and we will continue to work with the Department for Business, Enterprise and Regulatory Reform and with stakeholders to help inform regulations and prepare for implementation of the Act.

Schools

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families how many notifications have been sent out by his Department to the Schools Inspectorate under automatic transfer arrangements in relation to *(a)* independent and *(b)* maintained schools since April 2005. [201313]

Kevin Brennan: The Department has referred 73 notifications to the Schools Inspectorate since April 2005 relating to individuals who resigned or were dismissed from independent schools because they were considered unsuitable to work with children. In the case of maintained schools, Ofsted can approach the local authority concerned in respect of notifications from its schools.

Under the new vetting and barring scheme a supervisory authority such as Ofsted will be required to inform the Independent Safeguarding Authority (ISA) if it has information that a person poses a risk of harm. In return, the ISA must inform them when it bars someone who is supervised or registered by them.

Schools: Sports

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of *(a)* primary and *(b)* secondary school children engaged in less than (i) two hours, (ii) three hours and (iii) four hours of physical education and sport each week (A) in each year since 1997 and (B) on the latest date for which figures are available. [200982]

Kevin Brennan: Data are not collected in the format requested. The annual PE and School Sport Survey was introduced In 2003/04 and collects data relating to participation in PE and School Sport.

Over the last four years, the percentage of pupils who did not take part in at least two hours of high quality PE and school sport each week is as follows:

	Primary	*Secondary*	*Percentage Overall*
2003/04	48	27	38
2004/05	36	25	31
2005/06	18	22	20
2006/07	8	20	14

Prior to 2003/04, no data were collected relating to the amount of time spent on PE and school sport.

Secondary Education: Absenteeism

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which local authorities have more than five per cent. of secondary school pupils as persistent absentees; how many and what proportion of pupils are persistent absentees in each case; and if he will make a statement. [200988]

Kevin Brennan: Information on the number of persistent absentees and the percentage of enrolments who are persistent absentees for each local authority has been placed in the Library.

Teachers: Pay

Mr. Drew: To ask the Secretary of State for Children, Schools and Families what the average salary of *(a)* new entrants, *(b)* classroom teachers, *(c)* deputy heads and *(d)* heads in (i) the primary sector and (ii) the secondary sector was in each year since 1997. [199478]

Jim Knight: The following table provides the average salary of full-time regular new entrants, classroom teachers, deputy heads and heads in local authority maintained nursery/primary and secondary schools in England and Wales, in March each year, 1997 to 2006.

Average salary of full-time regular new entrants, classroom teachers, deputy heads and heads in local authority maintained primary and secondary schools in England and Wales, in each March 1997 to 2006

	Nursery/primary				Secondary			
	New entrants[1]	*Classroom teachers*[2]	*Deputy heads*[3]	*Heads*	*New entrants*[1]	*Classroom teachers*[2]	*Deputy heads*[3]	*Heads*
1997	14,480	20,420	26,500	30,060	14,620	22,650	33,220	41,550
1998	14,950	20,940	27,400	31,130	15,100	23,270	34,410	42,990
1999	15,540	21,740	28,570	32,510	15,710	24,160	35,870	44,780
2000	16,100	22,480	29,700	35,130	16,260	25,010	37,270	48,210
2001	16,640	24,020	32,320	37,270	16,810	26,650	38,960	50,640

Youth Services: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much funding has been allocated by his Department to improve youth facilities in each year from 2008-09 to 2011-12; what projects will be funded; and if he will make a statement. [201074]

Beverley Hughes: The Department has committed new investment of £190 million over the next three years to deliver world class facilities through the "myplace programme" delivered by the Big Lottery Fund. The allocation in each of these years is: £45.4 million in 2008-09; £114.6 million in 2009-10; and £30 million in 2010-11.

DCSF is also continuing baseline funding of £26.5 million per annum over the next three years via local authorities for the Youth Capital Fund (YCF). We set out in the Youth Task Force Action Plan a further £22.6 million in 2008-09 to enhance this fund to benefit young people in the most deprived neighbourhoods and estates.

Our vision is that DGSF capital investment drives a system wide transformation in the way places for young people to go are planned and delivered; particularly in the role and influence of young people and the level of genuine cross sector partnership working.

JUSTICE

Approved Premises

Nick Herbert: To ask the Secretary of State for Justice if he will list the approved premises for persons on bail in England and Wales; and how many suspects are held in each premises. [199991]

Mr. Straw: All approved premises can take residents on bail. The following list details the number of residents who were on bail at approved premises in England and Wales on 29 February 2008.

Courts: Cells

Jenny Willott: To ask the Secretary of State for Justice how many times court cells have been used to house prisoners overnight in 2008 to date, broken down by court; and if he will make a statement. [200116]

Mr. Straw: Court cells were used on 21 nights between the nights of 5-6 and 28-29 February. The following table shows the number of places used in each of five courts over this period.

Date	Bristol MC	Highbury MC	Mansfield MC	Tameside MC	W London MC	Total

Courts: Limavady

Mr. Gregory Campbell: To ask the Secretary of State for Justice what plans he has for the future of Limavady Courthouse; and what complaints have been received from users of the courthouse in the last 12 months. [201354]

Bridget Prentice: There have been no complaints regarding the service provided at Limavady Courthouse over the last 12 months.

The Northern Ireland Court Service is developing proposals to establish 'hearing centres' at a number of court venues including Limavady Courthouse. Hearing centres would open on court sitting days and court office services would be available only on those days.

During 2007 Limavady Courthouse had on average one court sitting each week and a recent survey indicated that on average two people per day visited the court office.

The proposals to introduce hearing centres are intended to make more efficient use of court resources. These proposals will be subject to full public consultation before any final decisions are made.

Crime

Mr. Amess: To ask the Secretary of State for Justice what the 10 most common *(a)* offences and *(b)* motoring offences were for which (i) men and (ii) women of each age group were (A) prosecuted, (B) convicted, (C) fined and (D) sent to prison in (1) Essex and (2) England and Wales in the last year for which figures are available. [198675]

Maria Eagle: Data showing the number of defendants proceeded against for the 10 most common offences in England and Wales and Essex, broken down by result, sex and age group are shown in the tables A1 and A2 as follows.

Available information on motoring offences for 2005 (latest available) is provided in the following tables B1 and B2. The data are based on the 10 most common offences proceeded against. Some of these cover more than one offence where the data reported centrally do not identify them separately. Data for 2006 will be available later this year.

Table A1: 10 most common offences proceeded against at the magistrates courts by result at all courts, sex and age-group for Essex police force area, 2006[1]

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Notes

1. A person appearing in court can be dealt with for more than one offence at that appearance. The table shows the number of offences dealt with and not the number of persons appearing in court.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

.. = Nil

[1] Includes offences under SS 13(1), 17(2), 18(4), 34(1), 71(1), 75(5), 76(1), 76(3), 83, 123(4), 135, 177 & Sch 1(6) of the Road Traffic Act 1988, SS 3(1)(a) & (b) of the Road Traffic (Foreign Vehicles) Act 1972, SS 35A(2),47(1), 47(3), 194, 112(4), 117 & Sch 12 Para 3(5) of the Road Traffic Regulation Act 1994, Regs 3, 9, 22, 33, 83, 86 & 89 of the Road Vehicles (Construction and Use) Regulations 1986, Regs 7, 8, 23 27 & 28 of the End-of-Life Vehicle Regulations 2003, and S4BD of the Chronically Sick and Disabled Persons Act 1970.

[2] Includes offences under SS147, 154(2), 165(3), 170(7) & 171(2), and the Motor Vehicles (Third Party Risks) Regulations 1972.

Notes:

1. A person appearing in court can be dealt with for more than one offence at that appearance. The table shows the number of offences dealt with and not the number of persons appearing in court.
2. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences are less than complete.
3. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Crimes of Violence: Home Detention Curfews

Nick Herbert: To ask the Secretary of State for Justice how many prisoners released on home detention curfew were serving sentences for *(a)* violence against the person and *(b)* sexual offences in the last five years for which data is available. [200238]

Mr. Straw: The following table gives the numbers of prisoners released on home detention curfew between 2002 and 2006 where the term of imprisonment was for either violence against the person or sexual offences.

	Number released	*Population in sentence length band*	*Percentage released*
Violence against the person			
2002	3,693	8,235	45
2003	3,564	8,740	41
2004	3,157	9,093	35
2005	3,204	10,064	32
2006	2,490	9,840	25
Sexual offences			
2002	20	1,193	2
2003	8	1,238	1
2004	6	1,162	0
2005	2	1,236	0
2006	0	1,203	0

The figures are taken from Prison Statistics in England and Wales for the year 2002, and volumes of the Offender Management Caseload Statistics 2003, 2005 and 2006. Figures on sex offenders for 2004 were provided by my hon. Friend the then Parliamentary Under-Secretary of State for Justice the Member for Bradford South (Mr. Sutcliffe) to the hon. Member for Taunton (Mr. Browne) on 15 May 2007, *Official Report*, columns 686-87W. Copies of these publications are available from the House of Common Library and at

http://www.justice.gov.uk/publications/prisonandprobation.htm

Since March 2001 offenders required to register under the Sex Offenders Act 1997 (now replaced by Part 2 of the Sexual Offences Act 2003) have been statutorily excluded from HDC. Prisoners serving sentences for sexual offences that are not subject to registration are presumed unsuitable for HDC unless there are exceptional circumstances.

As noted in the footnote to published tables, the reasons for recall from home detention curfew are sometimes presented as the reason for the original imprisonment. Further investigations suggest that around 5 per cent. of offence types recorded do not relate to the offence for which they were sentenced and subsequently released on home detention curfew, but relate to offences committed after release from prison and before the licence expiry date for their sentence.

HDC allows prisoners serving primarily between three months and less than four years, to be released, depending on their sentence length, up to 135 days earlier than they would be otherwise. Prisoners must serve a minimum of one quarter of their sentence in custody subject to a minimum of 30 days before release on HDC. (Prisoners subject to the release arrangements of the Criminal Justice Act 2003 who are sentenced to four years or more are not statutorily ineligible for release on HDC but are presumed unsuitable unless there are exceptional circumstances.)

No prisoner can be placed on HDC for longer than 135 days.

The most serious violent offenders and all sexual offenders are either statutorily excluded or are presumed unsuitable for release on HDC. It should be noted that offenders serving extended sentences for serious violent offences are statutorily ineligible for release on HDC. Since March 2001 offenders required to register under the Sex Offenders Act 1997 (now replaced by Part 2 of the Sexual Offences Act 2003) have been statutorily excluded from HDC. Prisoners serving sentences for sexual offences that are not subject to registration are presumed unsuitable for HDC unless there are exceptional circumstances.

Eligible prisoners are not granted HDC unless they pass a careful risk assessment.

These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system, and although shown to the last individual the figures may not be accurate to that level.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Justice how many days sick leave were taken on average by staff in his Department and its predecessor in each of the last five years. [198962]

Maria Eagle: The information is in the following table. Data for the Office of Criminal Justice Reform, the National Offender Management Service and the Public Sector Prison Service, which now forms part of the Ministry of Justice, are being provided in a separate Home Office response.

Average number of days sick leave per employee

Agency	*2003*	*2004*	*2005*	*2006*	*2007*
Former DCA HQ	7.7	7.3	6.9	7.7	6.5
Office of the Public Guardian	12.3	8.9	9.6	10.0	8.5
Tribunals Service	12.7	12.2	11.4	11.3	8.8
Court Service	10.9	10.3	11.0	11.2	9.5

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Justice what *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public are in use by (i) his Department and (ii) agencies which report to his Department. [200130]

Mr. Wills: The Department and its agencies use 0800, 0845 and 0870 telephone numbers to provide a range of services to the public. These include (but are not limited to) IT support for online queries; complaints, enquiries, recruitment, Land Registry services; and contact with

jury offices, summoning centres and courts (county, combined and magistrates).

A list of 0800, 0845 and 0870 telephone numbers available for use by the public is detailed as follows:

0800

0800 0156510

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Justice how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195824]

Maria Eagle: The Department does not collate records of the total or average hours worked by its employees. The information requested could be provided only at a disproportionate cost.

Euthanasia

Chris McCafferty: To ask the Secretary of State for Justice what consideration he has given to the Law Commission's recommendations relating to recognition in law of mercy killing as *(a)* an offence and *(b)* a partial defence; and what plans he has to consult the public on these matters. [200423]

Maria Eagle: The Law Commission has not made any recommendations for an offence or partial defence of "mercy" killing. It has recommended that the Government undertake a public consultation on the issue.

This is a difficult and sensitive area. As the Law Commission recognises, the question of whether there should be a partial defence of "mercy" killing raises many of the same issues raised by the debate as to whether assisted dying should be legalised. The Government have made clear that assisted dying is a matter of conscience and for Parliament to decide. Parliament has considered this on several recent occasions. The Government have no current plans to take forward a consultation in this area.

Fines: Surcharges

Mr. Malins: To ask the Secretary of State for Justice what value of victim surcharge monies has been *(a)* imposed and *(b)* collected since the introduction of the victim surcharge in criminal courts in the Greater London area; to which victims' organisations the money collected has been disbursed; how much has been disbursed to each organisation; and if he will make a statement. [201166]

Maria Eagle: Receipts from the surcharge are appropriated in aid as part of the Ministry of Justice Estimates; allocations are made to recipient organisations or other departments as appropriate. Some recipient organisations based in London provide a national service while others provide a national help-line. Full details of how the surcharge revenue was being used nationally were given in my answer to the hon. Member for Shipley (Philip Davies) of 26 November 2007, *Official Report*, column 96W.

In the period April 2007 to March 2008 courts in the London region collected £549,048 in victims surcharge receipts. However, under current IT systems it is not possible to extract and collate centrally information on the value of surcharge impositions entered into local court case management and accounting systems.

Recipient organisations with a Greater London area only remit, and the indicative grant, included the following:

	£
Greenwich Action Committee Against Racist Attacks	29,515
Hounslow Community Safety Partnership	15,000
Victim Support London	25,620
One-in-Four	48,510
Lilith	30,104
Step Forward	32,190
Galop	35,122

A further £200,000 was allocated to the London Domestic Violence Coordinating Group for assignment to independent domestic violence adviser (IDVA) services supporting existing specialist domestic violence court (SDVC) areas and services considering the development of SDVCs. Funding of £20,000 was assigned to each of the following boroughs:

Brent SDVC: Victim Support Brent

Croydon SDVC: Croydon Women's Aid, Family Justice Centre

West London SDVC, Advance, covering Hammersmith and Fulham and

Women's Trust IDVA Service, covering Kensington and Chelsea

Barking and Dagenham: Community Safety and Prevention Services Division

Barnet DV Support Service

Greenwich Women's Trust/DV Advocacy Service

Harrow Hestia Women's Aid

Hillingdon Community Safety

Islington Community Safety

A proportion of the allocations is also passed to the Crown Prosecution Service towards the cost of maintaining victim and witness services through the joint Police/CPS witness care units. It is not possible to say what proportion of this is spent in the Greater London area because this designation does not correspond to the boundaries of CPS operational areas.

Freedom of Information: Private Sector

Norman Baker: To ask the Secretary of State for Justice what progress he has made in his assessment of the desirability of extending the remit of the Freedom of Information Act 2000 to private companies deemed to be delivering public functions. [201309]

Mr. Straw: The Government received over 130 responses to its consultation on extending the coverage of the Freedom of Information Act to organisations exercising functions of a public nature. The consultation officially

concluded on 1 February 2008 but a number of responses received up to a month later were accepted and are being taken into account.

The Government are continuing to analyse the responses and assess the desirability and implications of designating additional public authorities under the Act.

Homicide

Chris McCafferty: To ask the Secretary of State for Justice (1) what his timetable is for the introduction of legislative proposals to amend the law of homicide; [200421]

(2) what his timetable is for launching a consultation on potential changes to the law of homicide. [200422]

Maria Eagle: In December 2006, following extensive public consultation, the Law Commission published its report on "Murder, Manslaughter and Infanticide". That report was intended as the first stage in the review of the law in this area, with the Government to undertake the second stage.

On 12 December 2007 I announced the commencement of that next stage of the review which is looking first at the recommendations relating to provocation, diminished responsibility, complicity and infanticide. Discussions have been taking place with stakeholders over the last few months. If it is decided that legislative change is necessary, draft clauses will be published for consultation in the summer. Any subsequent legislation would be introduced as soon as parliamentary time allows.

Karian and Box

Mr. Hands: To ask the Secretary of State for Justice what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199648]

Maria Eagle: From April 1999 until March 2007, the financial years for when records are available, my Department has not awarded any contracts to Karian and Box.

Offenders

Nick Herbert: To ask the Secretary of State for Justice what three offender characteristics are given the greatest weight when calculating the predicted rate of adult re-offending; and what assessment he has made of the effect of each on the predicted rate. [200202]

Mr. Straw: The calculation of the predicted rate of adult re-offending considers three main offender characteristics: gender, age and criminal history of the offender—although these characteristics are broken down further in the model by various subcategories.

The individual effect of each on the predicted rate was not assessed in detail because the main purpose of the predicted rate is to control for offender characteristics across different cohorts. In short, it is the combined effect of all offender characteristics which is of greatest interest.

Detailed methodology on how the predicted rate is derived can be found in the 'Methodological annex: statistical modelling' section of the 2007 report 'Re-offending of adults: results from the 2004 cohort', available online at:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb0607.pdf

Police Custody: Essex

Bob Spink: To ask the Secretary of State for Justice how many people were held in custody in police cells in Essex in each of the last three years. [190703]

Mr. Straw: Prisoners are held in police cells either under Operation Safeguard or as ad-hoc "lockouts".

Operation Safeguard was not used in 2005. The number of occasions on which prisoners were held under Operation Safeguard in Essex in 2006 and 2007 is shown in the table below. An occasion is one prisoner night. The average number of prisoners held under Operation Safeguard per night is also shown.

	2006	*2007*
Number of occasions	1,009	4,387
Average number in Safeguard per night[1]	14	13

[1] Based on number of nights that Safeguard was available in each year, rounded to nearest whole number

In 2006 Operation Safeguard was not used before mid-October.

Data on ad-hoc lockouts is not available for individual police forces but nationally they represent a very small proportion of the total numbers held in police cells.

Prisoners: Rehabilitation

Mr. Garnier: To ask the Secretary of State for Justice when he plans to fund the implementation of the integrated drug treatment system across all prisons in England and Wales. [199693]

Maria Eagle: On 17 March 2008, *Official Report*, columns 49-50WS, my hon. Friend, the Minister of State, Ministry of Justice the Member for Delyn (Mr. Hanson), my right hon. Friend, the Minister of State, Department of Health the Member for Bristol, South (Dawn Primarolo) and my hon. Friend, the Under-Secretary of State for Health the Member for Bury, South (Mr. Lewis), announced the Government's plans for drug treatment funding. This stated that the Department of Health will make £24.4 million available for clinical aspects of the Integrated Drug Treatment System (IDTS) in 2008-09—a rise of £11.7 million on 2007-08 levels. This will allow a roll-out of enhanced clinical treatment in around 38 more prisons.

Department of Health funding for prison clinical drug treatment will rise to £39 million (indicative) in 2009-10 and £43 million (indicative) in 2010-11 which will enable enhanced clinical services to be available in all prisons.

Decisions on funding for the psycho-social elements of IDTS have yet to be taken.

Prosecutions: Drugs

David Davis: To ask the Secretary of State for Justice how many people were *(a)* prosecuted and *(b)* convicted of a third (i) Class A drug trafficking and (ii)

domestic burglary offence in each of the last seven years, broken down by age group. [198847]

Mr. Straw: The table shows the number of people recorded as sentenced to the mandatory minimum sentence for a third class A drug trafficking offence and third domestic burglary; under sections 110 and 111 of the Power of Criminal Courts (Sentencing) Act (2000).

These are the numbers recorded by courts as receiving the mandatory sentence. As the Courts Proceedings Database does not include criminal histories we are not able to identify those who were not given the mandatory minimum from this data source.

Persons sentenced[1] to immediate custody under the Powers of Criminal Courts (Sentencing) Act 2000, 2000-06 England and Wales

RDS-NOMS, Ministry of Justice

Terrorism: Prisoner Release

Mr. Garnier: To ask the Secretary of State for Justice how many persons awaiting trial for, or convicted of, terrorism offences have been released on home detention curfew since 1997. [196558]

Nick Herbert: To ask the Secretary of State for Justice how many prisoners serving sentences for terrorism offences were released on home detention curfew in each of the last five years. [200237]

Mr. Straw: The Home Detention Curfew (HDC) scheme, was introduced in January 1999. It applies only to offenders serving determinate sentences of imprisonment or detention.

Anyone serving four years or more is either statutorily ineligible or presumed unsuitable for HDC unless there are exceptional circumstances. Since July 2003 prisoners serving sentences of any length for certain violent offences such as conspiracy to commit murder and serious explosives offences, which could have links to terrorist activity, have been presumed unsuitable for HDC unless there are exceptional circumstances.

In December 2007 the list of examples of presumed unsuitable offences was clarified and extended to include most offences under counter terrorism legislation. Since then, and in line with the announcement made by me on 28 March concerning the eligibility criteria for the End of Custody Licence scheme, prisoners serving sentences for any offence committed under counter terrorism legislation, will be presumed unsuitable for release on HDC. Prison governors were notified of this decision on 4 April 2008 and a Prison Service instruction will be issued in due course.

Between 1999 and 2007 three prisoners convicted of offences under terrorism legislation were released on HDC: two in 2003 and one in 2007.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Young Offenders Institutions: Counselling

Mr. Garnier: To ask the Secretary of State for Justice how many young offender institutions provide counselling services for inmates who have previously experienced sexual abuse or violence. [199677]

Maria Eagle: All 18 male and nine female young offender institutions which hold young adults (18-21) and young people (15-17) provide counselling services for those assessed as likely to benefit from them. Specific interventions will depend on assessment of need in individual cases and may include, for example, the provision of information and advice, or support from local agencies with specialist knowledge and experience. Referrals to psychological or mental health services will sometimes need to be made.

COMMUNITIES AND LOCAL GOVERNMENT

Aerials: Planning Permission

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what recent guidance she has issued to local authorities on checking that appropriate certificates of compliance are *(a)* in place

and *(b)* relevant before granting permission for the erection of mobile phone masts. [201401]

Mr. Iain Wright: The Department issued guidance about this matter in 2001 which still applies. Planning Policy Guidance Note 8: Telecommunications, states that all new mobile phone base stations are expected to meet the International Commission on Non-Ionizing Radiation Protection (ICNIRP) guidelines. All applicants for planning permission or prior approval should include with their applications, a statement to certify that the mobile phone base station, when operational, will meet the guidelines. Where a mobile phone base station is added to an existing mast or site, the operator should confirm that the cumulative exposure will not exceed the ICNIRP guidelines.

Bellwin Scheme

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether she plans to review the efficacy of the Bellwin Scheme; and if she will make a statement. [200612]

John Healey: The Government have asked Sir Michael Pitt to review the handling of the summer floods in 2007. We will consider his recommendations, including those relating to the costs of response and recovery, when they are available.

Council Tax: Parish Councils

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the average Band D parish council precept is in *(a)* 2007-08 and *(b)* 2008-09. [198878]

John Healey: Information on precepts and Band D council taxes set by individual parish and town councils in England is not collected by the Department.

Departmental Pensions

Danny Alexander: To ask the Secretary of State for Communities and Local Government what the cash equivalent transfer value is of the public sector pensions of the 10 highest paid members of staff in her Department and its Executive agencies; and if she will make a statement. [200740]

Mr. Dhanda: It is not appropriate to disclose values for staff, other than those whose details are reported on in Remuneration Reports in the Department's Resource Accounts. A copy of the Resource Accounts for 2006-07 can be found in the Library of the House.

Departmental Written Questions

David T.C. Davies: To ask the Secretary of State for Communities and Local Government how many days it took on average to answer written parliamentary questions tabled by each hon. Member for answer by her in the last six months. [201754]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Disability Essex: Buildings

Bob Spink: To ask the Secretary of State for Communities and Local Government what representations she has received on the construction of a new headquarters and training centre for Disability Essex; and if she will make a statement. [201441]

Mr. Iain Wright: The East of England Development Agency (BEDA) provided initial funding in June 2007 to Disability Essex to enable them to prepare a business case for their new headquarters and training centre which must go through a transparent process in order to secure public money for their projects. A completed capital grant fund application form must be submitted before it can be considered by an independent appraisal panel.

I understand that EEDA have not received the necessary capital grant application form from Disability Essex, and unfortunately the cut-off date has now passed.

It is highly regrettable that Disability Essex did not submit an application in the 10 months since they received a bursary award and prior to the cut off date, but EEDA was required to take a decision as to the basis upon which 'live' projects could be taken forward under the circumstances.

However, EEDA will continue to work with Disability Essex, and other organisations in the East of England, to support their major fund-raising activities.

Eco-Towns

Mr. Gibb: To ask the Secretary of State for Communities and Local Government pursuant to her Written Ministerial Statement of 3 April 2008, *Official Report*, columns 70-72WS, on eco-towns, if she will list the parliamentary constituencies in which the proposed eco-towns are located. [200211]

Caroline Flint: On information currently available the 13 eco-town locations, which have been shortlisted for public consultation and further assessment are located within the following parliamentary constituencies. In some areas exact locations have yet to be defined.

Eco-town location	*Constituency*
Rossington	Don Valley
Manby	Louth and Horncastle
Curborough	Lichfield
Pennbury	Site is split between Rutland and Melton and Harborough
Middle Quinton	Stratford-on-Avon, with part of site in Mid Worcestershire
Marston	Mid Bedfordshire and Bedford
Hanley Grange	South East Cambridgeshire
North East Elsenham	Saffron Walden
Weston Otmoor	Banbury
Bordon-Whitehill	North East Hampshire
Ford	Arundel and South Downs
St. Austell (Clay Community)	Truro and St. Austell
Coltishall	North Norfolk, with part of site in Mid Norfolk

In addition further reviews are being carried out on in terms of sites at Rushcliffe and Leeds city region.

Fire Services

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many control staff in each fire and rescue authority have agreed to transfer to the South West Regional Control Centre in Taunton. [199480]

Mr. Dhanda: Discussions concerning which staff could reasonably transfer to the Regional Control Centre are for the current Fire and Rescue Authorities, and the future employer, the South West Fire Control Service Ltd., to make in consultation with their employees. The Fire and Rescue Authorities included in this company are; Avon, Cornwall, Devon and Somerset, Dorset, Gloucestershire, Isles of Scilly and Wiltshire.

Fire Services: Manpower

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many retained firefighters there were in each fire and rescue authority in each of the last five years. [201409]

Mr. Dhanda: Available information, for each Fire and Rescue Service area within England is shown as follows.

Retained duty system firefighters[1] in England, 2002-06

Fire and rescue service	*2002*	*2003*	*2004*	*2005*	*2006*
Avon	218	215	213	220	232

Annual returns CLG

Fire Services: South West

Mr. Drew: To ask the Secretary of State for Communities and Local Government what the current establishment is in each fire control room for every South West Fire and Rescue Authority; and what the anticipated establishment is at the Regional Control Centre in Taunton. [199481]

Mr. Dhanda: The current establishment and actual number of staff employed as at 31 March 2007 in each control room in the South West is given in the table as follows:

Fire and Rescue Authority	*Establishment[1] (FTE)*	*Number Employed[2] (FTE)*
Avon	32	36
Cornwall	15	15.5
Devon	26	30
Dorset	21	25.5
Gloucestershire	25	24.19
Isles of Scilly	—	0
Somerset	18.5	22.5
Wiltshire	23	26
Total	160.5	179.69

[1] "Establishment" is the agreed staffing level within each control room shown as Full Time Equivalent Employees.
[2] "Number employed" is the actual number of people who currently work in each control room (Full Time Equivalents). This figure is often greater than establishment as it includes, for example, cover for maternity leave, secondments etc.

Decisions about exact staffing levels will be a matter for the South West Fire Control Service Ltd. to decide. The Fire and Rescue Authorities included in this company are; Avon, Cornwall, Devon and Somerset, Dorset, Gloucestershire, Isles of Scilly and Wiltshire.

FireBuy Limited

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if she will make a statement on the operation of FireBuy Limited. [200513]

Mr. Dhanda: FireBuy Ltd. was established as a non-departmental public body in March 2006. Its role is to help deliver the National Procurement Strategy for the Fire and Rescue Service, published in November 2005. FireBuy's aim is to secure efficiencies in procurement through the negotiation of fire-specific contracts for the Fire and Rescue Service. It is also working to advance interoperability within the service, improve standards of equipment and assist in removing traditional barriers to recruitment and reduce environmental impacts. The Department is currently reviewing the National Procurement Strategy, including the role of FireBuy Ltd.

Housing Associations: Borrowing

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what assessment *(a)* her Department and *(b)* the Housing Corporation has made of the effect of instability in the credit markets on borrowing by housing associations from the open market. [198866]

Caroline Flint: The Housing Corporation has instigated a quarterly review with all partner developing housing associations. Their conclusions from the last review in January are that most associations have sufficient facilities in place and agreed with lenders to fund their business plans, including new development for the next two years. The corporation does not, at this point, anticipate that the tightening of the credit market should adversely impact on housing associations ability to meet either their service commitments to tenants or development targets.

Local Government Finance: Planning

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the estimated revenue from local authority planning fees was in each year since 1997. [194292]

Mr. Iain Wright: The estimated revenue from local authority planning fees are based on local authority voluntary returns to the Government and are not a published statistic.

Information for the period 1997-99 could be provided only at disproportionate cost.

Taking this into account the figures for the periods 1999-2000 to 2006-07 are as follows:

	£ million
2006-07	245
2005-06	234
2004-05	200
2003-04	195
2002-03	174
2001-02	143
2000-01	140
1999-2000	132

Members: Correspondence

Mr. Lilley: To ask the Secretary of State for Communities and Local Government when she plans to answer the letter of 12 March 2008 from the right hon. Member for Hitchin and Harpenden on the meeting between officials of her Department, developers and Luton Borough Council on plans to build homes in Hitchin and Harpenden constituency. [201469]

Caroline Flint: I have now replied to the right hon. Member's correspondence.

Planning: Flood Control

Miss McIntosh: To ask the Secretary of State for Communities and Local Government (1) on what grounds developments may take place against the advice of the Environment Agency on the grounds of flood risk; [200275]

(2) what criteria she takes into account in taking decisions on whether building developments on functional flood plains should proceed. [200276]

Mr. Iain Wright: Planning applications are decided by local planning authorities in accordance with the development plan, unless material considerations indicate otherwise. In arriving at their decisions, all representations made, including any from the Environment Agency on flood risk grounds, are taken into account. Each case is decided on its individual merits.

If a planning application for development in the functional flood plain is called-in or comes to the Secretary of State on appeal, it will be decided on the same basis as an application by a local planning authority. Where flood risk is an issue, account will be taken of the Government's policy in Planning Policy Statement 25 "Development and Flood Risk".

Preventing Violent Extremism Pathfinder Fund

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government which local councils in receipt of Preventing Violent Extremism funding for the year 2008-09 have *(a)* signed up and *(b)* not signed up to indicator IN35 as a condition of receiving that funding. [201229]

Mr. Dhanda: As Local Area Agreement negotiations are ongoing, I am not in a position to provide the information requested at this time. However it is worth noting that all 198 indicators, including NI 35, will be measured in every relevant local authority.

Funding for preventing violent extremism to local authorities from 2008-09 onwards is based on need and is paid through the Area Based Grant (ABG). As with all other aspects of ABG, this funding is not conditional on inclusion of the relevant National Indicator as a priority indicator.

HOME DEPARTMENT

Crimes of Violence

Mr. Hollobone: To ask the Secretary of State for the Home Department (1) how many crimes involving violence against a person were recorded in Kettering constituency in each of the last five years; [198858]

(2) how many crimes involving violence against a person were recorded in Corby constituency in each of the last five years. [198857]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Mr. Dunne: To ask the Secretary of State for the Home Department (1) how many crimes of violence against the person were recorded in Ludlow constituency in each of the last five years; [199131]

(2) how many crimes of violence against the person were recorded in Solihull and Stourbridge constituency in each of the last five years; [199132]

(3) how many crimes of violence against the person were recorded in Hereford constituency in each of the last five years; [199133]

(4) how many crimes of violence against the person were recorded in Brecon and Radnor constituency in each of the last five years. [199134]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Mr. Hunt: To ask the Secretary of State for the Home Department (1) how many crimes of violence against the person were recorded in Elmet constituency in each of the last five years; [199320]

(2) how many crimes of violence against the person were recorded in South West Surrey constituency in each of the last five years; [199321]

Mr. Gummer: To ask the Secretary of State for the Home Department (1) how many crimes of violence against the person were recorded in Suffolk Coastal constituency in each of the last five years; [199867]

(2) how many crimes of violence against the person were recorded in Waveney constituency in each of the last five years; [199868]

(3) how many crimes of violence against the person were recorded in Ipswich constituency in each of the last five years. [199869]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Christopher Fraser: To ask the Secretary of State for the Home Department (1) how many crimes of violence against the person were recorded in North Norfolk constituency in each of the last five years; [199129]

(2) how many crimes of violence against the person were recorded in Montgomeryshire constituency in each of the last five years. [199130]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Tony Baldry: To ask the Secretary of State for the Home Department (1) how many crimes of violence against the person were recorded in Banbury constituency in each of the last five years; [199127]

(2) how many crimes of violence against the person were recorded in Derby North constituency in each of the last five years. [199128]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence

against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Aldridge

Mr. Shepherd: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Aldridge-Brownhills constituency in each of the last five years. [198570]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Altrincham

Mr. Brady: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Altrincham and Sale West constituency in each of the last five years. [199713]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Beaconsfield

Mr. Grieve: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Beaconsfield constituency in each of the last five years. [198929]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Bexley

Mr. Evennett: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Bexleyheath and Crayford constituency in each of the last five years. [198568]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Billericay

Mr. Baron: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Billericay constituency in each of the last five years. [198767]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Bournemouth

Sir John Butterfill: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Bournemouth west constituency in each of the last five years. [200606]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Bromsgrove

Miss Kirkbride: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Bromsgrove constituency in each of the last five years. [198740]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Bury

Mr. Lansley: To ask the Secretary of State for the Home Department how many crimes involving violence against a person were recorded in *(a)* Bury North and *(b)* Bury South constituencies in each of the last five years. [200773]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Cambridgeshire

Mr. Paice: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in South East Cambridgeshire constituency in each of the last five years. [199559]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Mr. Lansley: To ask the Secretary of State for the Home Department how many crimes involving violence against a person were recorded in South Cambridgeshire constituency in each of the last five years. [200772]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Charnwood

Mr. Dorrell: To ask the Secretary of State for the Home Department how many crimes involving violence against a person were recorded in Charnwood constituency in each of the last five years. [199448]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Chichester

Mr. Tyrie: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in Chichester constituency in each of the last five years. [198856]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person statistics for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: City of Westminster

Mr. Mark Field: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in the Cities of London and Westminster constituency in each of the last five years. [198859]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Cotswold Hills

Mr. Clifton-Brown: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Cotswold constituency in each of the last five years. [200038]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Croydon

Richard Ottaway: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in Croydon South constituency in each of the last five years. [198860]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Daventry

Mr. Boswell: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Daventry constituency in each of the last five years. [199124]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Devizes

Mr. Ancram: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Devizes constituency in each of the last five years. [200602]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

Copies of both the statistics table and the look-up table are available in the Library.

Dr. Julian Lewis: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in New Forest East constituency in each of the last five years. [199364]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Newbury

Mr. Benyon: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Newbury constituency in each of the last five years. [199696]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Norfolk

Mr. Bellingham: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in North West Norfolk constituency in each of the last five years. [198647]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Mr. Keith Simpson: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Mid Norfolk constituency in each of the last five years. [198738]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Christopher Fraser: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in South West Norfolk constituency in each of the last five years. [199135]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Northampton

Mr. Binley: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Northampton South constituency in each of the last five years. [200603]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Orpington

Mr. Horam: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Orpington constituency in each of the last five years. [198907]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

[1] These local authorities areas have >10 per cent. apprenticeships funded by MoD.
[2] Denotes <10 apprenticeship framework completions.
[3] The 'other' category includes incomplete records and learners not resident in England, but who are learning in England (for example, learners resident in Scotland or Wales).
Notes
1. Local authority areas are based on home postcode of the learner, where residential learning is taking place in the MOD, the learner is allocated to the local authority where they are based.
2. The local authority area geography presented here refers to the upper tier of local authorities.

TRANSPORT

Biofuels

Mr. Drew: To ask the Secretary of State for Transport what assessment she has made of the effects of imports of subsidised biodiesel on domestic production. [201257]

Jim Fitzpatrick: The Government are aware that imports of subsidised biodiesel from the United States are having a negative impact on the competitiveness of the UK biofuel industry. The Government cannot, however, act unilaterally to resolve the problem. We have urged the European Commission to find a solution, and have lobbied the US authorities to make the necessary legislative changes so that US biofuel subsidies are limited to US domestic sales. The Commission has said that it will consider initiating a countervailing duty investigation on receipt of a properly documented complaint from the European biodiesel industry, and is expecting to receive such a complaint imminently.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Transport what criminal offences have been created by primary legislation sponsored by her Department since July 2007. [198284]

Jim Fitzpatrick: No new offences have been created by primary legislation sponsored by the Department for Transport since July 2007 and which has been enacted, although the Department is currently sponsoring primary legislation including the Local Road Transport Bill, the current version of which does propose new criminal offences.

Chris Huhne: To ask the Secretary of State for Transport what criminal offences have been abolished by primary legislation sponsored by her Department and its predecessors since May 1997. [198323]

Jim Fitzpatrick: The following information is that readily available without incurring disproportionate cost.

Merchant Shipping Act offences

Under the Railways and Transport Safety Act 2003 offences under section 117 of the Merchant Shipping Act 1995 were abolished.

Under the Marine Safety Act 2003, offences under section 100D and 139 of the Merchant Shipping Act 1995 were abolished.

Railways related offences

S95(5) of the Railways Act 1993 created an offence of failing to comply with a direction given by the Secretary of State to provide information in connection with a transfer scheme. This section was prospectively repealed by s274 of and Schedule 31 to the Transport Act 2000 (although no date has yet been appointed for this repeal to come into force).

Road transport related offences

Passenger Vehicles Act 1981 (c.14)

Section 24(3)—(failure to produce a licence within a reasonable time for the purpose of endorsement)

Road Traffic Act 1988 (c.52)

Section 99(6)(b)—(failure to surrender counterpart of Community licence)

Road Traffic Act 1991 (c.40)

Section 66(6)—(removal or interference with penalty charge notice)

Section 69(6)—(removal or interference with immobilisation notice)

Section 69(7)—removal or interference with immobilisation device

Section 70(2)—avoidance of immobilisation by wrongful use of disabled person's badge

Section 71(10)—false declaration to parking adjudicator

Section 73(14)—failure to attend hearing of parking adjudicator

Schedule 6 paragraph 9—false representations to parking adjudicator

London Local Authorities Act 2000

Section 14(2)—false representations relating to unpaid charges

London Local Authorities and Transport for London Act 2003 (c.3)

Section 5(2)—failure to comply with requirements of operator's notice

Section 5(3)—false declarations in response to requirements of operator's notice

Schedule 1—false representations in relation to penalty charges for road traffic contraventions.

Departmental Temporary Employment

Mr. Todd: To ask the Secretary of State for Transport how many full-time posts were filled on a temporary basis for a period in excess of six months in her Department in each of the last three years. [200668]

Jim Fitzpatrick: The information requested could be provided only at disproportionate cost.

Midland Main Railway Line

Mr. Hollobone: To ask the Secretary of State for Transport what guidance she has given to Network Rail on the priority to be given to track infrastructure improvements to facilitate faster train speeds on the Midland Main Line. [201884]

Jim Fitzpatrick: The Government specified and funded in last year's Rail White Paper the high level improvements in capacity, safety and reliability required by 2014. Network Rail responded with an industry strategic business plan (SBP) to deliver these, which includes an optional enhancement to deliver journey time enhancements through Midland Main Line line-speed improvements.

The independent Office of Rail Regulation is currently reviewing Network Rail's revised SBP, published on 4 April, ahead of the publication of its draft conclusions in June 2008.

Motor Vehicles: Licensing

Anne Milton: To ask the Secretary of State for Transport how many vehicles re-licensing applications were not processed by the Driver and Vehicle Licensing Agency within two months of expiry of the last licence in each of the last five years; and how many late licensing penalty notices were issued in respect of the unlicensed vehicles. [201797]

Jim Fitzpatrick: Relicensing applications received electronically are updated on the vehicles database within three days. Manual relicensing applications are processed and the database updated within seven days.

There are no figures for the number of relicensing applications not processed within two months of the expiry of the last licence.

It is therefore not possible to provide the number of late licensing penalty notices that have been issued as a direct result of this. Figures are available for the total number of late licensing penalty notices issued since 2004 to date.

Late licensing penalty notices issued

	Number
Apr 2004 to March 2005	1,183,543
Apr 2005 to March 2006	1,341,598
Apr 2006 to March 2007	1,272,384
Apr200 to March 2008	1,219,462

Motor Vehicles: Lighting

Mr. Drew: To ask the Secretary of State for Transport whether the UK will be required to implement the provisions of European legislation requiring vehicles to have their lights on throughout daylight. [201429]

Jim Fitzpatrick: The Government have been successful in preventing the introduction of Europe-wide requirements for drivers of all existing vehicles to use dipped headlamps during the day.

However, from early 2011 new types of passenger car and light van will have to be fitted with low-wattage dedicated daytime running lights (DRLs), in addition to standard vehicle lighting. By summer 2012 new types of buses and large/heavy vehicles will also have to be so fitted. Only 'new types' of vehicle are affected, not those already in use or new vehicles built under existing type approvals.

The requirements arise from revisions to a United Nations Economic Commission for Europe Regulation. The EU Lighting Directive, by which the UK will be obliged to abide, is imminently expected to be updated to mirror these revisions.

Shipping: EU Emissions Trading Scheme

Mr. Spellar: To ask the Secretary of State for Transport whether emissions from shipping will be included in the EU Emissions Trading Scheme. [200631]

Jim Fitzpatrick: The Government would prefer to see the development of a global emissions trading scheme, under the auspices of the International Maritime Organization (IMO). However, until a truly global solution can be found, or if progress within IMO proves too slow, the UK will continue to look at other options to reduce greenhouse gas emissions from ships, including the EU Emissions Trading Scheme.

Because of the world-wide nature of the shipping industry, the Government believe that regional (EU) action should be seen as a stepping stone to future global agreements on international shipping emissions.

DEFENCE

Afghanistan: Peacekeeping Operations

Lembit Öpik: To ask the Secretary of State for Defence if he will put in place a procedure by which right hon. and hon. Members would be able to find out the names and addresses of service personnel from their constituencies who have been injured in Iraq or Afghanistan since January 2001; and if he will make a statement. [168066]

Derek Twigg: The paramount aim of MOD policy is the welfare of wounded personnel and their family.

Service personnel and their families may of course contact their MP on any matter and at any time, and the MOD accordingly takes the view that the initiative over contact with the MP should remain with the wounded individual and their family.

Afghanistan: Politics and Government

Mr. Lancaster: To ask the Secretary of State for Defence what recent assessment he has made of the security situation in Afghanistan. [200634]

Des Browne: The security situation in Afghanistan is stable if fragile in places. The Afghan National Army and troops from the 40-nation International Security Assistance Force have achieved significant tactical success against the Taliban in 2007; this has restricted geographically the ability of the insurgents to conduct sustained activity. NATO figures show that 91 per cent of insurgent activities have been reported in only eight per cent of the districts during 2008.

Aircraft Carriers: Procurement

Mr. Carswell: To ask the Secretary of State for Defence what procurement process will be used to determine which contractors will be awarded the contract to build the new aircraft carriers; and if he will make a statement. [200540]

Mr. Bob Ainsworth: As announced by the then Secretary of State for Defence on 14 December 2005, *Official Report*, column 149WS, the new aircraft carriers will be manufactured in "super blocks" to be allocated to BAE Systems yards at Govan and Barrow, to VT in Portsmouth and to Babcock in Rosyth, with final assembly of both carriers at Rosyth. The majority of the structure above the hangar deck will be open to competition.

Armed Forces: Pensions

Mr. Mates: To ask the Secretary of State for Defence if he will ask the Armed Forces Pay Review Body to examine *(a)* entitlements to and *(b)* payment of service pensions; and if he will make a statement. [197896]

Derek Twigg: The Armed Forces Pay Review Body (AFPRB) periodically value armed forces pensions relative to civilian pensions as part of its remit to have regard for the need for military pay to be broadly comparable with pay levels in civilian life.

In addition, as part of the parliamentary passage of the 2004 Armed Forces Bill, it was agreed that the AFPRB would review the new Armed Forces Pension Scheme 2005 being introduced as part of that legislation after its initial five years of operation in 2010.

These are the only two forms of engagement that are planned between the AFPRB and the Armed Forces Pension Scheme. It would not be appropriate for the AFPRB to undertake the type of detailed examination of the service pension schemes described in the question. The schemes are subject to annual scrutiny by the National Audit Office in terms of overall payment of entitlements and to internal MOD audit procedures in terms of the accuracy of individual pension payments.

Armed Forces: Schools

Bob Russell: To ask the Secretary of State for Defence on what date his officials first discussed with Essex local authority schooling for the children of Colchester Garrison; on what subsequent dates discussions have been held; which *(a)* officials from his Department and *(b)* officials from Essex local authority attended; which (i) Ministers and (ii) Essex County Councillors were present at these meetings; what the location was of each meeting; and what the subject heading was of each item discussed. [182349]

Derek Twigg: I have agreed to meet with the hon. Member to discuss this issue and will write to him after the meeting.

Substantive answer from Derek Twigg to Bob Russell:

I know you have continued to express your very close interest in the future of Alderman Blaxill School, a local authority school in your constituency, on a number of occasions. I am writing to follow up our meeting on 5 February, and to confirm what was discussed—including the specific information you requested in your Parliamentary Question of 28 January 2008 (Official Report, column 32W) I am sorry that I have not been able to write sooner—and what has happened since. First may I say that I was grateful for your very positive comments about your visit to Afghanistan on the Armed Forces Parliamentary Scheme and your acknowledgement that, regardless of some media coverage, morale was exceptionally high and the atmosphere among our troops wholly positive.

I hope you found the meeting a good opportunity to pass on your views on the future of Alderman Blaxill School. I reiterate that the best possible education for all children in this country is at the heart of this Government's plans. I made the point to you that the MOD does not lead on education in the UK, although we are responsible for Service schools for children from Service families who are living overseas. For Alderman Blaxill School, it is the local authority that leads but with a responsibility to consult all those with an interest. This includes the local Service community, both through direct consultation and through their representatives in an Armed Forces context, the local chain of command. For that reason I was pleased that Colonel Tony Phillips, the Deputy Garrison Commander in Colchester, and Lieutenant Colonel (Retired) Ray Housley, the Army Welfare Service lead for these matters in Colchester, were able to join us for the meeting. It was clear that there is close contact between you and Colonel Phillips on a range of local issues. This is the right basis of Ministry of Defence (MOD) involvement in an issue like planning for local schools; it is the local chain of command who understand the local conditions and can, on a daily basis, look out for the best interests of their people.

In turn you made some good points about the importance of pastoral support in schools, not least for Service children. I agree with you; that support will need to be strong whatever the shape of education is in Colchester in the future. We may have some good practice to offer here from our experience with Service schools overseas within our Service Children's Education (SCE) Agency. This is being considered by the Service Children In State Schools (SCISS) forum, which is run by and for head teachers from schools in England with a significant population of children from Service families. They are developing a booklet that will offer a range of advice and best practice to schools, so that they can offer the best possible support to Service children. The forum has the support and involvement of both MOD and Department for Children, Schools and Families (DCSF) officials. The guidance will be made widely available, for example through teachernet, the key DCSF online resource for all teaching professionals in England.

At our meeting you heard that Colonel Phillips was fully satisfied with the approach of the local authority on plans for Alderman Blaxill School, in relation to the engagement that had occurred and the consultation that had been planned and undertaken. He felt that Service families had had every opportunity to understand what was being proposed and to comment on it. The MOD cannot, of course, take a central view on all proposals for the future of individual schools in UK. But we do expect there to be good local interaction, so that Service families affected can be confident that their voices can and will be heard. I am confident that this has happened in this case, and I hope you were reassured on that point by Colonel Phillips.

On the detailed questions you raised, I can confirm that discussions between MOD officials and the local authority first took place on 27 June 2007, between Lieutenant Colonel Housley and Major Di Waddington from Colchester Garrison staff and Mr Peter Wright and Mr Graham Ranby from Essex County Council. The purpose of the meeting was for the local authority representatives to inform the Colchester Garrison representatives of the circumstances of Alderman Blaxill and Thomas Lord Audley Schools and that a recommendation had been made to consider their replacement with an Academy. The local authority wanted to ensure that Service families affected could be made aware of any subsequent proposals and involved in any consultation. A second meeting was held on 17 October 2007 between Lieutenant Colonel Housley and Mr Wright. The aim of the meeting was for the consultation process to be explained and the consultation documentation described. There was also some discussion of the best way to encourage engagement with Service families. Finally, I can confirm that there were no Ministers or Essex County Councillors at either of the meetings.

At our meeting Colonel Phillips emphasised to you his confidence that Garrison staff had ensured that all Service families affected had been made aware of the proposals and had had an opportunity to comment. I should add that the Garrison staff worked to make this happen, although this did not involve further meetings with the local authority. Since our meeting we have been waiting for the results of the consultation but at this time I have little to pass on. There has been telephone contact between Colchester Garrison and local authority staff which has confirmed that the consultation had drawn 236 responses. It is not possible to state how many of those were from Service families but the local authority have noted strong interest from Service families at meetings held during the consultation period. Like you, we look forward to hearing the outcome of the consultation in due course.

This letter to you on the subject of the future of Alderman Blaxill School follows responses I have given to your Parliamentary Question on 9 July 2007 (Official Report, column 1281W), to your letter of 10 July 2007, to points you made in intervention during the Armed Forces Personnel Debate on 10 January 2008 and at our meeting on 5 February 2008. I hope that you are reassured that the MOD has played a proper part in ensuring that Service families have a free and open opportunity to make their views known on the future of the school, although the responsibility for deciding on that future does not lie with the MOD.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Defence what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997. [198291]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Chris Huhne: To ask the Secretary of State for Defence what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198311]

Derek Twigg: None.

European Fighter Aircraft: Costs

Mr. Carswell: To ask the Secretary of State for Defence what the cost to the public purse of the Typhoon Eurofighter *(a)* has been to date and *(b)* is estimated to be in total. [200537]

Mr. Bob Ainsworth: As recorded in the Major Projects Report 2007 (MPR07), expenditure to 31 March 2007 on the Eurofighter Typhoon is £11.8 billion. I am withholding the estimated total cost of the programme as its release would, or would be likely to, prejudice commercial interests.

Nuclear Disarmament

Mr. Hancock: To ask the Secretary of State for Defence what *(a)* financial and *(b)* in kind contributions the Atomic Weapons Establishment has made to the (i) International Atomic Energy Agency and (ii) Organisation for the Prohibition of Chemical Weapons in the field of verification techniques in the last five years. [200305]

Mr. Bob Ainsworth: AWE is a member of the IAEA's Network of Analytical Laboratories that analyse environmental samples collected by the IAEA's Department of Safeguards. Over the past five years, analytical work to the value of £417,000 has been carried out at AWE. This work is performed under the UK Support Programme for IAEA safeguards, funded by the Department for Business, Enterprise and Regulatory Reform.

AWE has not provided any support to the Organisation for the Prohibition of Chemical Weapons.

Mr. Hancock: To ask the Secretary of State for Defence what contribution Atomic Weapons Establishment verification researchers made to the Royal Society's report on Detecting Nuclear and Radiological Materials; and if he will make a statement. [200306]

Mr. Bob Ainsworth: Personnel from the Atomic Weapons Establishment participated in a two-day workshop run by the Royal Society in December 2007. The findings from this workshop formed the basis for the Royal Society's report on Detecting Nuclear and Radiological Materials.

Television

Mr. Maude: To ask the Secretary of State for Defence how many plasma television screens have been purchased by his Department and its agencies, and at what cost, in the last 24 months. [191085]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost. Expenditure on plasma televisions must comply with the principles of propriety set out in Managing Public Money and in the Treasury's handbook on Regularity, Propriety and Value for Money.

SCOTLAND

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Scotland what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997. [198322]

David Cairns: The Scotland Office has not taken forward primary legislation to abolish any criminal offences.

Departmental Pay

Dan Rogerson: To ask the Secretary of State for Scotland what the total cost was of *(a)* salaries for permanent civil service posts, *(b)* salaries for permanent non-civil service posts and *(c)* payments to temporary or agency workers in his Department in each month since May 2005. [200171]

David Cairns: The staff in the Scotland Office are seconded from other Departments who submit invoices to the Office on a regular basis. The Office does not maintain financial records in the form requested; the total cost for each year was:

			£
	2005-06	*2006-07*	*2007-08*[1]
Permanent civil servants	1,888,383	1,888,861	2,250,243
Permanent non-civil servants	0	0	0
Temporary staff	539	20,067	7,394

[1] Estimate

Departmental Public Participation

Stewart Hosie: To ask the Secretary of State for Scotland how many public consultations were held by his Department in each of the last three years; and how many respondents took part in each consultation. [198641]

David Cairns: The Scotland Office undertook two targeted and time-limited public consultations; one entitled "Scottish Parliament Elections May 2007: Ballot Paper Design"; there were 32 responses, and a further 100 people took part in focus groups. The other, "Sorting the Ballot", received 39 responses. Responses to both consultations were received from councils, political parties and a range of other organisations presenting the opinions of all their members.

In addition, the Office participated in a joint consultation with the Ministry of Justice and the Wales Office on "Fees for the Marked Register of Electors produced at UK Elections".

Devolution

Miss McIntosh: To ask the Secretary of State for Scotland what recent discussions he has had with the Advocate-General on devolution arrangements. [201220]

Des Browne: I meet regularly with the Advocate-General to discuss a broad range of issues.

Public Expenditure

Mr. Bone: To ask the Secretary of State for Scotland what allocation of funding Scotland will receive under the Barnett formula for 2008-09; and if he will make a statement. [201245]

David Cairns: As a result of Barnett consequential from the Comprehensive Spending Review 2007, the funding allocation for Scotland for 2008-09 will be £27,244 million.

LEADER OF THE HOUSE

Members: Pensions

Danny Alexander: To ask the Leader of the House (1) what forecasts she has made of spending on the parliamentary contributory Pension Fund in each year between 2008-09 and 2050-51; and how many members of the scheme there are; [200802]

(2) what the *(a)* rate and *(b)* cost of Exchequer contributions to the Parliamentary Contributory Pension Fund was in each year since 2005-06; [200803]

(3) what estimate she has made of the unfunded liability in present value terms of the Parliamentary Contributory Pension Fund; and what assumptions for *(a)* discount rate and *(b)* longevity the estimate is based on. [200804]

Helen Goodman: The Parliamentary Contributory Pension Fund (PCPF) is a fully-funded pension scheme whose costs are met from Members' contributions, investment returns and an Exchequer contribution. The Government Actuary undertakes a triennial valuation in which he makes recommendations as to the necessary Exchequer contribution to the PCPF. This can rise or fall depending on factors such as predicted investment returns and longevity assumptions.

In the triennial valuation report laid before the House in March 2006, the Government Actuary's Department (GAD) calculated that the Exchequer contribution should be 26.8 per cent. of pensionable pay from 2006-07 until 2020-21 and then 18.1 per cent. of pensionable pay thereafter. The estimated cost of contributions payable by the Exchequer for the financial year 2008-09 and the next triennial valuation is £12.1 million.

As at 31 March 2007 the membership of the PCPF was as follows:

	Number
Current Members	666
Deferred Members (former MPs, Ministers and Office Holders not yet in receipt of a pension)	208
Pensioners	1,931

The value of the Exchequer contributions since 2005-06 is as follows:

Financial year	*PCPF exchequer contribution rate (percentage of salaries)*	*PCPF exchequer contribution (£ million)*
2005-06	24.0	10.17
2006-07	26.8	11.5
2007-08	26.8	12.0

The aforementioned costs include contributions payable in respect of pensions provided for MPs, Ministers and Office Holders.

The deficit (unfunded liability) calculated as at 1 April 2005 (the date of the last valuation) was £49.5 million. This is the approximate value of the Exchequer 'contribution holiday' between 1989 and 2003.

The main financial assumptions used by GAD were:

	Percentage
Gross rate of return	6.5
Real rate of return, net of earnings increases	2.0
Real rate of return, net of price/pension increases	3.5

The liabilities were valued by discounting back to the valuation date the expected future expenditure on pension benefits, using the discount rates given in this table. The investments were brought into account in the assessment by discounting back to the valuation date the expected income from them, using the discount rates given in this table.

GAD also assumed that male pensioners aged 65, would live on average for a further 19.5 years, and that female pensioners aged 65 would live on average for a further 22.6 years.

COMMUNITIES AND LOCAL GOVERNMENT

Council Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for capping decisions and implementation for 2008-09. [198920]

John Healey: On 27 March I announced that eight authorities had been designated for exceeding the principles set for 2008-09. The authorities have the right to challenge their designation and all eight have done so.

We will now carefully consider these challenges and, if our decision is to proceed with the designation of one or more of the authorities, I will seek the approval of the House.

Eco-Towns: Community Development

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government what account will be taken of community cohesion in the development of eco-towns. [200780]

Caroline Flint: Community cohesion and empowerment is one of the seven criteria that eco-towns must address and will be vital to the success of an eco-town, which should provide a vibrant and sustainable community. The outcomes that we want to see are set out in "Eco-towns—Living a greener future" and supported through the work that the Town and Country Planning Association (TCPA) are doing with us on the practical application of the criteria. This includes the recent publication of a community worksheet to provide practical help to all those involved with taking forward eco-town proposals, which is available on the TCPA website.

Eco-Towns: Employment

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government what account is being taken of the provision of employment opportunities in each of the locations shortlisted to become eco-towns. [200779]

Caroline Flint: One of the criteria that we have assessed eco-town proposals against relates to jobs and the outcomes we expect to see. This includes developing a clear strategy to maximise employment opportunities and enabling links to existing clusters of employment. In the consultation document "Eco-towns—Living a greener future" we have set out some of the potential employment opportunities and issues for the shortlisted locations. We are currently consulting on these locations and final decisions on the locations are still to be determined. Copies of the consultation document are available in the Library of the House.

Eco-Towns: Finance

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government how much public funding would be required to establish an eco-town at each of the 15 shortlisted locations. [200778]

Caroline Flint: At this stage the 15 shortlisted locations for eco-towns are subject to consultation and are still to be determined, and later in the year we will make final decisions on locations with potential to be an eco-town. The bulk of investment needed to create an eco-town will come from the private sector, but there will also be projects that we want to help develop through direct funding to local authorities using the Growth Areas fund and from mainstream programmes. In terms of the level of growth funding available for eco-towns I refer the hon. Member to the answer given to the hon. Member for Banbury (Tony Baldry) on 6 December 2007, *Official Report*, column 1397W.

Eco-Towns: Green Belt

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government how much greenfield land would be developed in respect of each of the 15 shortlisted eco-town proposals. [200782]

Caroline Flint: In the recently published consultation document "Eco-towns—Living a greener future" we have provided a description of the shortlisted locations and this demonstrates that many make significant use of previously developed land. However in some cases development on greenfield land provides the best opportunities and may be appropriate. All the shortlisted locations for eco-towns are subject to consultation and further assessment.

Energy Performance Certificate: Inspections

Mr. Prisk: To ask the Secretary of State for Communities and Local Government how many inspectors she estimates will be qualified to assess a property for an energy performance certificate by 1 April 2008. [193760]

Caroline Flint: As at 1 April we had 7,304 assessors accredited to provide energy performance certificates.

English Partnerships: Manpower

Jeremy Corbyn: To ask the Secretary of State for Communities and Local Government if she will break down by *(a)* sex, *(b)* ethnicity and *(c)* age, senior managers and staff of English Partnerships engaged in transition arrangements; and whether this staff profile is likely to be maintained in the Housing and Communities Agency. [200181]

Caroline Flint: Although the precise details of the staff of English Partnerships who will transfer to the Homes and Communities Agency will not be known until nearer the event, the following table sets out the current expectation of those who will transfer, broken down by gender, ethnicity and age as at 31 March 2008:

Employees by ethnic minority

	Number	Percentage
British	453	
Irish	14	
Other White	9	
Other Mixed	2	
Caribbean	4	
African	3	
Indian	5	
Pakistani	4	
Other Asian	8	
Chinese	3	
Other	3	
Not declared	9	
Awaiting declaration	21	
Total	538	
Percentage		5.9

Employees by gender

	Male		Female	
	Number	Percentage	Number	Percentage
Total	252	46.8	286	53.2

Employees by age band

Age	Number
16 to 20	1
21 to 30	89
31 to 40	150
41 to 50	163
51 to 60	118
61 to 65	16
66+	1
Total	538

Staff from other bodies including the Housing Corporation, will also transfer to the HCA. Such staff are not included in the aforementioned table. Since the transfer to the HCA is to be treated as if TUPE applied, it is expected that the profile of the HCA will be broadly similar to the profile of English Partnerships, at least in so far as the transfer of English Partnerships staff is concerned.

I can also confirm that, in the Housing and Regeneration Bill, we are amending Schedule 1A to the Race Relations Act 1976 to include the Homes and Communities Agency (Schedule 7, paragraph 5, to the Bill). The Homes and Communities Agency will therefore be subject to the specific duties under the race legislation.

Other amendment of primary legislation is not necessary. The Sex Discrimination Act 1975 (as amended by the Equality Act 2006) now contains a

general duty which applies to all public authorities, which would include the Homes and Communities Agency without the need for any further legislative amendment.

Further, we propose to amend the secondary legislation in respect of the specific sex and disability duties to include the Homes and Communities Agency, during the period of transition between the existing bodies and the new Agency.

Housing: Standards

Mr. Harper: To ask the Secretary of State for Communities and Local Government what estimate she has made of the cost of implementing the Lifetime Homes Standard, with particular regard to *(a)* additional building costs and *(b)* increased plot size. [201443]

Mr. Iain Wright: In 'Lifetime Homes, Lifetime Neighbourhoods—A National Strategy for Housing in an Ageing Society', launched on 25 February 2008, we estimated that "compliance with the Lifetime Homes Standards could result in modest additional costs of around £547 per new home."

Our assessment of the effect of the introduction of Lifetime Homes Standards on new homes was informed by findings from 'Designed for Manufacture, Lessons Learned' (English Partnerships, CLG, June 2006). We have stated that it is our aspiration to see all new homes built to Lifetime Homes Standards by 2013, and that we will undertake a review of Lifetime Homes Standards take-up across all sectors in 2010. My officials are now considering what work needs to be commissioned to further develop the evidence base for the proposed review. This will include additional research into the potential impact of Lifetime Homes Standards on *(a)* additional building costs and *(b)* increased plot size.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many homes were revalued for council tax purposes following *(a)* the request of the homeowner and *(b)* sale of the property in each region of England in each year since 1997; and how many moved (i) up and (ii) down by one council tax band following revaluation in each case. [201653]

John Healey: The information requested is not held centrally and could be provided only at disproportionate cost.

Local Authorities: Freedom of Information

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what regulations cover the provision of *(a)* information and *(b)* documents by local authorities on their actions to (i) hon. Members, (ii) local councillors and (iii) members of the public; and what exemptions apply. [199698]

John Healey: Part 5A of the Local Government Act 1972, and the regulations made there under, establish the principle regime for the provision of information by local authorities, which are also subject to a range of other legislative provision and case law on information, including

The Data Protection Act 1998

The Freedom of Information Act 2000

Environment Information Regulations 2004

These statutory provisions give extensive rights of public access to local authority information. In addition to these statutory provisions, the members of local authorities enjoy wide common law rights to access information held by the councils of which they are members.

Local Authorities: Standards

Mr. Ellwood: To ask the Secretary of State for Communities and Local Government what incentives her Department offers to local authorities to encourage higher standards of performance as measured under the comprehensive performance assessment. [201771]

John Healey: Incentives were announced in September 2006, with the publication of the analysis of responses to the consultation on proposed changes to the delivery of Local Authority Freedoms and Flexibilities under CPA 2005:

Authorities have exemptions to produce certain statutory plans; freedoms over how to spend fixed penalty notices; powers to trade; and freedoms on unringfenced grants. The precise exemptions and freedoms and norms differ according to the authority's performance under CPA.

Local Authority Business Growth Incentives Scheme

Mr. Drew: To ask the Secretary of State for Communities and Local Government what plans she has to ring-fence Local Authority Business Growth Incentives scheme funding to business development opportunities. [201408]

John Healey: None. Current Local Authority Business Growth Incentives scheme funding is not ring-fenced and the Government have said they are minded that a reformed scheme would remain unring-fenced.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Communities and Local Government when she will reply to the letter from the hon. Member for West Worcestershire, dated 4 March 2008, transferred from the Department for the Environment, Food and Rural Affairs, on solar energy. [201510]

Mr. Iain Wright: I replied to the hon. Member's letter on 21 April.

Parish Councils: Finance

David Taylor: To ask the Secretary of State for Communities and Local Government whether parish councils will be able to apply to the fund created under

the Community Infrastructure Levy proposed in the Planning Reform Bill; what the criteria will be for applications to the fund; and if she will make a statement. [200406]

Caroline Flint *[holding answer 23 April 2008]:* The purpose of the Community Infrastructure Levy (CIL) is to support the provision of infrastructure needed to support the development of an area. This infrastructure could be at the regional, sub-regional or local level, including at parish level. The Government's initial proposals for the process of identifying the infrastructure are set out in the Community Infrastructure Levy document of 24 January which is available in the House Library.

Further details of how the CIL will work in practice will be set out in draft Regulations, on which we intend to consult in the autumn.

Regional Planning and Development: Eco-Towns

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government whether proposals for eco-towns will be included in relevant *(a)* local development framework plans, *(b)* regional spatial strategies and *(c)* regional transport plans. [200781]

Caroline Flint: The planning process remains the route by which eco-town proposals would be decided. In some cases the principle of development has already been established in the local development framework, in others this may involve reviews of and/or new development plans coming forward, and in some cases revised regional spatial strategies (RSS). We expect the RSS reviews announced in the Housing Green Paper (which depending on the region will be prepared between now and 2011) to test the longer term issues that arise from the eco town proposals—such as the ultimate size of new settlements. RSS reviews are informed by and incorporate the regional transport strategies, which will take into consideration all proposals for growth.

TREASURY

Attendance Allowance: Tax Allowances

Mark Williams: To ask the Chancellor of the Exchequer what estimate he has made of the annual cost to the public purse of exempting those who are in receipt of attendance allowance from vehicle excise duty. [201214]

Angela Eagle: The Government offer exemption from vehicle excise duty to those in receipt of the higher rate mobility component of disability living allowance or the war pensioners mobility supplement. The total number of recipients as at the end of September 2007 was 1,125,380.

The population of exempted vehicles will vary in engine size and carbon dioxide emissions output and it is not possible to disaggregate this population by notional tax paying class.

Child Benefit

Danny Alexander: To ask the Chancellor of the Exchequer what estimate he has made of the value of child benefit support as a percentage of forecast *(a)* mean and *(b)* median earnings in each year until 2012. [200642]

Jane Kennedy: Child benefit is currently paid at a rate of £18.80 for the first child and £12.55 for subsequent children. The first rate of child benefit has risen by over 25 per cent. in real terms since 1997, and is set to rise further to £20 from April 2009.

The Government do not publish average earnings forecasts for future years.

While the Government are committed to further tackling child poverty and strengthening financial support for families, child benefit rates from April 2010 have not yet been set. Decisions about the rate of child benefit will continue to be made at Budgets and pre-Budget reports.

Departmental Temporary Employment

Mr. Todd: To ask the Chancellor of the Exchequer how many full-time posts were filled on a temporary basis for a period in excess of six months in his Department in each of the last three years. [200669]

Angela Eagle: This information is not kept centrally and therefore the question could be answered only at disproportionate cost.

Income

Danny Alexander: To ask the Chancellor of the Exchequer how many and what proportion of *(a)* individuals and *(b)* families claiming (i) working and (ii) child tax credits have incomes of (A) 60 per cent., (B) 70 per cent., (C) 80 per cent., (D) 90 per cent. and (E) 100 per cent. or more of median earnings; and if he will make a statement. [200643]

Jane Kennedy: The information requested is available only at a disproportionate cost.

However, estimates of the number of in-work benefiting families with tax credit awards, broken down by income bands, are produced in table 2.10 of the HMRC publications "Child and Working Tax Credits. Finalised Annual Awards." for the years 2003-04, 2004-05 and 2005-06. These publications are available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm

Income Tax

Mrs. Gillan: To ask the Chancellor of the Exchequer (1) how many people in each constituency in Wales were paying income tax at the 10 pence rate on the entirety of their taxable income on the latest date for which figures are available; [201501]

(2) how many people in Chesham and Amersham constituency were paying income tax at the 10 pence rate on the entirety of their taxable income on the latest date for which figures are available. [201502]

Jane Kennedy: The estimated number of taxpayers in each Government office region paying tax only at the starting rate of income tax for 2007-08 is shown in Table 2.2 'Number of individual income taxpayers by country and region', which is available from HM Revenue and Customs website.

http://www.hmrc.gov.uk/stats/income_tax/menu.htm

Accurate information on the number of taxpayers who pay income tax at the 10p starting rate for geographic areas below country and region are not available but information on the total number of taxpayers in each parliamentary constituency is shown in Table T3.15, which can be found at the HM Revenue and Customs website.

http://www.hmrc.gov.uk/stats/incomedistribution/menu.htm

These estimates are based on the latest available Survey of Personal Incomes (2005-06).

Income Tax: Low Incomes

Mark Hunter: To ask the Chancellor of the Exchequer how many households in *(a)* the United Kingdom, *(b)* England, *(c)* Greater Manchester, *(d)* Stockport borough and *(e)* Cheadle constituency were paying only the 10p starting rate of income tax as at 1 April 2008. [200417]

Jane Kennedy *[holding answer 23 April 2008]*: Estimates for the number of individual taxpayers in the United Kingdom and England paying tax only at the starting rate of income tax for 2007-08 are provided in tables 2.1 and 2.2, which are available from HM Revenue and Customs website:

http://www.hmrc.gov.uk/stats/income_tax/menu.htm

Accurate information on the total number of taxpayers in Greater Manchester, the borough of Stockport, and the parliamentary constituency of Cheadle are shown in tables T3.13, T3.14 and T3.15 respectively, which can be found at the HM Revenue and Customs website:

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

These estimates are based on the latest available Survey of Personal Incomes (2005-06).

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what estimate he has made of the number of people in Pendle who paid income tax at the 10p rate on all their taxable income on the latest date for which figures are available. [201145]

Jane Kennedy: The estimated number of taxpayers in each Government office region paying tax only at the starting rate of income tax for 2007-08 is shown in Table 2.2 'Number of individual income taxpayers by country and region', which is available from HM Revenue and Customs website:

http://www.hmrc.gov.uk/stats/income_tax/menu.htm

Accurate information on the number of taxpayers who pay income tax at the 10p starting rate for geographic areas below country and region are not available but information on the total number of taxpayers in the parliamentary constituency of Pendle is shown in Table T3.15, which can be found at the HM Revenue and Customs website:

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

These estimates are based on the latest available Survey of Personal Incomes (2005-06).

Invest to Save Budget

Sarah Teather: To ask the Chancellor of the Exchequer how much funding has been allocated to each local authority under the Invest to Save budget. [199362]

Yvette Cooper: The ISB has allocated over £87.5 million to 161 local authority-led projects. Successive rounds have continued to fund innovation with an emphasis on local partnerships delivering local projects that strengthen local communities. Tables listing those projects that are local authority-led have been deposited in the Library of the House.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he plans to answer the letter to him dated 10 March 2008 from the right hon. Member for Manchester, Gorton on Mrs N Hussain. [201120]

Jane Kennedy: I have replied to my right hon. Friend.

Pay: Public Sector

Philip Davies: To ask the Chancellor of the Exchequer if he will estimate of the effect on inflation of the provision of an overall public sector pay rise of *(a)* 2, *(b)* 3 and *(c)* 4 per cent. in 2008-09; and if he will make a statement. [201776]

Yvette Cooper: I refer the hon. Gentleman to the answer I gave him on 6 February 2008, *Official Report*, column 1198W.

Revenue and Customs: Audit

Danny Alexander: To ask the Chancellor of the Exchequer if he will place in the Library copies of all internal audit recommendations made in the last five years in relation to *(a)* the Tax Credit Office and *(b)* HM Revenue and Customs. [200644]

Jane Kennedy: To do so would prejudice the effective conduct of internal audit work in HM Revenue and Customs.

Revenue and Customs: Surveys

Danny Alexander: To ask the Chancellor of the Exchequer how staff are surveyed at *(a)* HM Revenue and Customs and *(b)* his Department; and on what dates the next survey's results will be made public. [200273]

Angela Eagle: The staff of HM Revenue and Customs are currently surveyed, on a sample basis, twice per year (winter and summer). The full responses to the staff surveys are published on the Department's external website and are available to the general public. The latest staff survey results from winter 2007 (November/December) were published on 29 February

2008. The next survey is scheduled for this summer and the results will be published shortly thereafter.

Staff at HM Treasury are surveyed in two ways: a main staff survey that takes place in December each year and a series of smaller "Pulse" surveys each quarter. A summary of the results from the 2007 annual staff survey were published on the Department's external website on 5 March 2008.

Taxation: Agriculture

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he plans to produce a regulatory impact assessment on the withdrawal of the agricultural building allowances; and if he will make a statement. [201511]

Jane Kennedy: An impact assessment on the capital allowances changes announced in Budget 2007 was produced and included in the technical note containing draft legislation on the majority of the package, published on 17 December 2007.

It is available on the Treasury website:

http://www.hm-treasury.gov.uk/media/F/2/consult_businesstaxreform171207.pdf

Taxation: Climate Change

Miss McIntosh: To ask the Chancellor of the Exchequer what his policy is on the use of taxation to assist adaptation to climate change. [201224]

Angela Eagle: The Government's strategy for tackling climate change is set out in Government publications and reiterated in pre-Budget Report and Budget documents. Policy on environmental taxation was published in the 1997 Statement of Intent, and the Government continue to keep all taxation matters under review as part of the annual Budget process.

Many climate change impacts (for example floods, droughts and heat waves) are not new. As such, the Government have well-established policies to address them and reviews these policies and their funding regularly. Taxation, spending and regulation are some of the several policy instruments to tackle climate change. For example, the 2007 comprehensive spending review included additional funding for flood defences.

However, climate change is creating different impacts as well as changing the frequency and intensity of traditional ones. The framework in the Climate Change Bill will ensure that the Government regularly assess the risks from climate change and bring together a range of policies and proposals to address these risks, ensuring a joined-up approach to adaptation across Government.

VAT: Bingo

Mr. Drew: To ask the Chancellor of the Exchequer what powers he has to exempt bingo games organised by commercial operators from value added tax. [201396]

Angela Eagle: The principal VAT directive, which governs the application of VAT throughout the European Union, provides for VAT exemption to be applied to "betting, lotteries and other forms of gambling, subject to the conditions and limitations laid down by each member state".

Subject to certain exceptions, VAT is chargeable in the UK on bingo participation and session fees.

VAT: Houseboats

Mr. Drew: To ask the Chancellor of the Exchequer for what reasons HM Revenue and Customs has changed its guidance on the value added tax liability of non-powered houseboats. [201395]

Jane Kennedy: Guidance on the VAT treatment of houseboats can be found in HM Revenue and Customs Notice 701/20, 'Caravans and houseboats'. There have been no changes to the technical content of this notice, or the VAT liability rules in this area, since the current version of the notice was published in February 2004.

The supply of a houseboat (defined in VAT legislation as a boat or other floating decked structure designed or adapted for use solely as a place of permanent habitation and not having means of, or capable of being readily adapted for, self-propulsion) is VAT zero-rated.

Welfare Tax Credits

Danny Alexander: To ask the Chancellor of the Exchequer pursuant to the answer of 17 March 2008, *Official Report*, columns 890-1W, on income, what estimate he has made of expenditure on (*a*) tax credits and (*b*) child benefits to households in each income decile in each year since 1997. [200256]

Jane Kennedy: Estimates of the distribution of household entitlements to tax credits and child benefit by income decile for each year since 1997 consistent with my previous reply are not available.

The annual Office for National Statistics publication 'The effects of taxes and benefits on household income' provides data on the distribution of households' reported receipt of tax credits, child benefit and other benefits by income decile over time:

http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=10336

Danny Alexander: To ask the Chancellor of the Exchequer what his estimate is of the effect on receipts to the Exchequer of increasing the taper rate on tax credits to (*a*) 46 per cent., (*b*) 45 per cent., (*c*) 44 per cent. and (*d*) 43 per cent. in 2009; and what his estimate is of the number of people who would no longer be eligible for tax credits in each case. [200260]

Jane Kennedy: The estimated saving, in 2009-10, of increasing the 1st taper rate of tax credits to the rates requested, is as follows.

1st taper rate (percentage)	*Effect on expenditure (£ million)*	*Number of claimants (Thousand)*
46	-1,420	23.8
45	-1,240	18.7
44	-1,060	15.4
43	-870	11.4

These changes would not affect the number of claimants eligible for tax credits. However, it would increase the number of claimants with awards reduced to zero. Estimates of which are provided in third column for each rate change.

No account has been taken of any possible behavioural effects.

Mr. Spellar: To ask the Chancellor of the Exchequer (1) what changes have been made to tax credit system procedures following the convictions of David Wilshaw and Nancy Stevenson; [200909]

(2) what changes have been made to the checking systems for the payment of benefits following the convictions of David Wilshaw and Nancy Stevenson. [200908]

Jane Kennedy: HMRC constantly monitor and look for ways to improve their procedures to prevent tax credits and child benefit fraud. These convictions demonstrate that HMRC can and do prosecute those that wish to commit a crime.

Welfare Tax Credits: Administration

Danny Alexander: To ask the Chancellor of the Exchequer what the cost of administering (*a*) tax and (*b*) working family tax credits was in each year since 1997. [200266]

Jane Kennedy: I refer the hon. Member to the answer I gave him on 21 November 2007, *Official Report*, column 927W.

Welfare Tax Credits: Northern Ireland

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer how many appeals there were by tax credit claimants in Northern Ireland in relation to (*a*) overpayments and (*b*) repayments in 2007; and of those how many were successful. [201829]

Jane Kennedy: The information requested is not available.

Customers can contact HM Revenue and Customs (HMRC) to appeal if they think their tax credits award is wrong. Information concerning appeals can be found in the HMRC leaflet WTC/AP 'How to appeal against a tax credits decision or award' which is available on the internet at:

www.hmrc.gov.uk/leaflets/wtc_ap.pdf

A decision to recover an overpayment does not carry the right of appeal.

However, for information on the number of UK households that disputed a decision to recover overpaid tax credits and the number written off between April 2007 to December 2007 I refer the hon. Member to the answer I gave to the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) on 17 March 2008, *Official Report*, columns 901-02W.

Written Questions: Government Responses

Greg Clark: To ask the Chancellor of the Exchequer when he will answer Question 196462, on household income tabled on 19th March. [201824]

Angela Eagle: The Department for Work and Pensions expects to be in a position to reply to the hon. Gentleman shortly.

CULTURE, MEDIA AND SPORT

Broadcasting Programmes: Children

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effects of long-term changes in the amount of children's programming provided by public service broadcasters on children's cultural experience. [201371]

Andy Burnham: UK originated children's television programming is a much valued and important part of the UK's broadcasting environment.

Ofcom examined the future prospects for public service broadcasting (PSB) for children in its discussion paper 'The Future of Children's Television Programming', published in October last year. In the light of that, the first phase of its second PSB review, published on 10 April, invited comments on the future of children's programming. The responses received will inform the next phase of Ofcom's review, due in the autumn, and the Government's consideration of the future funding of public service provision.

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport whether free to air broadcasters are required to provide a minimum level of dedicated children's programming. [201372]

Andy Burnham: The Communications Act 2003 does not require specific quotas of dedicated children's programming. However, the programming commitments of licensed public service broadcasters are set out in their statements of programme policy and they are required to consult and take account of the views of Ofcom on proposals for significant changes to those. In performing its functions, the BBC Trust is also required under the Charter and Agreement to have regard to the purposes of public service television broadcasting set out in section 264 of the Act, including that related to the provision of children's programming, and has currently undertaken to provide CBeebies, a channel for very young children, and CBBC, for the pre-teen audience. Under their service licences, BBC1 and 2 are also required to offer children's programmes.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Culture, Media and Sport how much was spent on the most recent redesign and implementation of his Departmental website. [200164]

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many websites his Department operates; how many it operated at 1 January 2005; what costs were incurred in *(a)* setting up and developing and (b) operating the websites since their inception; and how many unique visitors those websites received in each year for which figures are available. [198367]

Mr. Sutcliffe: My Department currently operates eight publicly accessible websites.

The table lists the 17 websites in existence at 1 January 2005 with their status as of March 2008 an additional website was created in November 2005:

http://www.ukworldheritage.org.uk

	Development costs
	£
2005	228,107
2006	304,992
2007	169,890

These figures include development costs for all websites, extranets, blogs and wikis run by my Department. Figures cannot be calculated for individual sites as my Department does not hold the information in that format. However, the following table indicates where it has been possible to attribute the setup costs to the main culture website (including redevelopment in 2006-07).

	Site	*Set up*	*[1]Hosting cost*	£ *Subtotal*
2005-06	DCMS main site and in-house sites	31,097	17,000	48,097
	Breakout	17,500		17,500
	Creative economy programme	11,337	1,000	12,337

Departmental Temporary Employment

Mr. Todd: To ask the Secretary of State for Culture, Media and Sport how many full-time posts in his Department were filled on a temporary basis for a period in excess of six months in each of the last three years. [200659]

Mr. Sutcliffe: The information is in the table:

Financial year	Number of posts
2005-06	2
2006-07	7
2007-08	10

Digital Broadcasting: Television

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the likely benefits of digital terrestrial television technology upgrades for viewers. [201369]

Andy Burnham: Recent developments in compression and transmission technologies for digital television signals are providing opportunities to improve the efficiency of the spectrum used for the digital terrestrial television (DTT) platform. Reorganising existing services on the DTT platform in order to utilise these new technologies, will allow for new services such as high definition TV to be provided.

English Sports Council: Publications

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if he place in the Library a copy of Sport England's Investing in Our Sporting Future: Sport England Lottery Fund Strategy 1999-2009. [200675]

Mr. Sutcliffe: I am arranging for Sport England's document, Investing in Our Sporting Future: Sport England Lottery Fund Strategy 1999-2009 to be placed in the Libraries of both Houses.

Licensing Act 2003

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what the evidential basis is for his evaluation of the effects of the Licensing Act 2003 as a mixed picture. [201378]

Mr. Sutcliffe: The Government's evaluation of the impact of the Licensing Act, which was placed in the Library of the House on 4 March 2008, drew on a number of pieces of evidence as set out in that report. The main elements of the evaluation were:

Scrutiny Councils Initiative: a final report was issued in July 2006 and an update published in 2008;

Independent Fees Panel Report: published on 25 January 2007;

Review of the Statutory Guidance: revised Guidance issued on 28 June 2007;

Live Music Forum Report: published 3 July 2007;

Alcohol, Entertainment and Late Night Refreshment Licensing Statistical Bulletin: published on 8 November 2007;

DCMS Simplification Plan: the 2nd Simplification Plan was published on 4 December 2007;

Closing times data commissioned by DCMS from CGA Strategy Ltd to analyse actual Saturday closing times: published on 4 March 2008; and

Home Office Report on the impact of the Licensing Act 2003 on levels of crime and disorder: published on 4 March 2008.

Motorsport Development UK: Finance

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 31 March 2008, *Official Report*, column 540W, on Motorsport Development UK, what estimate was made in 2003 of the amount that would be provided to Motorsport Development UK; and if he will make a statement. [200797]

Mr. Sutcliffe: It was announced by the Department for Trade and Industry (DTI) in 2003 that up to £16 million over five years would be required to fund the recommendations of the Motorsport Competitiveness Panel (MCP).

To date, Motorsport Development UK (MDUK) has spent £11.5 million on the five key priority areas identified by the MCP to support and strengthen the sport and its related industry.

During a debate in the House of Lords on 6 March 2008, *Official Report*, column GC179, Baroness Vadera agreed that a detailed breakdown of spending by MDUK would be provided to the Libraries of the House in due course.

S4C

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport how many people watched S4C on average in each week in the latest period for which figures are available. [200295]

Andy Burnham: S4C have confirmed that during the first quarter of 2008, S4C attracted an average weekly reach of 638,000 individuals across the UK during Welsh language hours.

S4C: Finance

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what funding his Department provided to S4C in each year since 1997. [200296]

Andy Burnham: S4C has a statutory, calendar year grant entitlement under section 61 of the Broadcasting Act 1990 (as amended). Under this formula, DCMS grant to S4C in each year since 1997 has been:

	Grant £ million
1997	72.223
1998	74.895
1999	77.134
2000	78.218
2001	80.745
2002	81.468
2003	83.634
2004	85.729
2005	88.680
2006	90.855
2007	94.395

Sports: Young People

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what plans he has to increase the number of young people engaging in sporting activities. [201174]

Mr. Sutcliffe: Through our joint PE and Sport Strategy for Young people (PESSYP), the Department is working with the Department for Children, Schools and Families (DCSF) to increase the take-up of sporting opportunities among five to 19-years-olds.

Our aim is to sustain and increase current levels of participation by those aged five to 16 in at least two hours of high quality PE and sport at school, and offer five to 19-year-olds at least three hours of sport beyond the school day, delivered by a range of school, community and club providers.

These ambitions will be realised through a range of programmes and activities delivered through Sport England and the Youth Sport Trust, and will be supported by increases in the number of coaches in schools, and a national network of Competition Managers within School Sport Partnerships.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Politics and Government

Mr. Blunt: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of corruption in the Afghanistan government; and if he will make a statement. [199345]

Dr. Howells: Corruption is internationally recognised as an issue within the Afghan government and its extent has been researched by a number of organisations. Transparency International's 2007 Corruption Perception Index scored Afghanistan at 1.8, indicating that Afghanistan is an extremely corrupt operating environment (10 = highly clean, 0 = highly corrupt). According to Transparency International, only six countries worldwide are more corrupt than Afghanistan.

The perception of corruption within Afghanistan is also extremely high. The Asia Foundation's 2007 Survey of the Afghan people found that 74 per cent. of people think that corruption is a major problem in Afghanistan as a whole. The Government regularly raises the need to tackle corruption with the Afghan government and is supporting measures to address the issue.

British Council: China

Mark Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to encourage the British Council to increase the number of its offices in China. [199859]

Mr. Jim Murphy: The British Council's formal status in China (as the Cultural and Educational Section of the British embassy) means the council is restricted to having offices only in the five Chinese cities in which the UK has an embassy or consulate.

However, the British Council does work across all major cities. For example, last year running its major education fair in Wuhan where it does not have an office. The British Council also runs exams from 40 centres across China and its online presence reaches one million students of English around the country.

China: Science

Mark Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the British Council on the improvement of scientific links between China and Britain. [199860]

Mr. Jim Murphy: There are regular discussions on the improvement of science links between the two countries through the Global Science and Innovation Forum (GSIF), of which the British Council and the Foreign and Commonwealth Office are both members.

The GSIF organises bilateral science and technology joint commissions. The most recent joint commission with China was held on 16 April 2008.

The British Council already works in this area, for instance through its International Network for Young Scientists – a programme which supports joint research in priority fields.

China: Tibet

Mr. Blunt: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to his recent comments on the Today programme, what the special position is of China with regard to Tibet. [199348]

Meg Munn: Successive Governments have regarded Tibet as autonomous while recognising the special position of the Chinese authorities there. We have consistently informed the Chinese government of our view that greater autonomy should be granted to the Tibetans. But like all other EU members, we do not advocate Tibetan independence. We have emphasised that the current political difficulties in Tibet can best be resolved through dialogue between the Chinese government and the Dalai Lama. The Dalai Lama has stated publicly that he opposes violence and does not seek independence, but greater autonomy for Tibet. We consider that this provides a basis for a negotiated settlement to the issue of Tibet.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent on the most recent redesign and implementation of his departmental website. [200168]

Mr. Jim Murphy: The recent upgrade of the Foreign and Commonwealth Office (FCO) corporate website is part of a wider project to deliver a new web platform and improved web presence for the FCO over five years.

The work will provide a single technical platform for all the FCO websites (including the main FCO website, Arabic and Urdu versions of the FCO website, UKvisas website, the FCO Freedom of Information website, and 229 embassy, high commission and special mission sites in multiple languages) as well as new designs, content, functionality and a new hub and spoke model for delivering business support.

The project will complete in September 2008, by which time all of the FCO Post websites will have joined the new platform and will operate under the central domain, fco.gov.uk.

The initial cost of £9.7 million for the web platform was set out in the answer given by my hon. Friend, the Parliamentary Under-Secretary of State, on 30 January 2008, *Official Report*, column 398W. The project is on target to cost £19.2 million over five years. This includes running costs, for example hosting and support, and some staff salaries. The cost of the project to date is £9.2 million which includes the design and implementation of the FCO and UKvisas websites, and the design of the embassy and high commission websites. It also includes procurement costs, client side advice, setting up regional hubs to provide business support and training. Details of the project and costs were published in Whitehall and Westminster World on 4 April:

http://www.civilservicenetwork.com/index.php?id=41&no_cache=1&tx_ttnews[tt_news]=34250&tx_ttnews[backPid]=29.

The web is vital for the delivery of the FCO's Departmental Strategic Objectives. More people, in the UK and overseas, have contact with the FCO through the web than through any other channel. The FCO is committed to using the web to deliver its policy goals, as well as key services such as travel advice and visa information.

The project has followed the Office of Government Commerce Gateway Review process and is delivering on time and to budget.

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* 0800, *(b)* 0845 and *(c)* 0870 telephone numbers for the public are in use by (i) his Department and (ii) agencies which report to his Department. [200126]

Meg Munn: There are no 0800, 0845, or 0870 telephone numbers for the public directly in use by the Foreign and Commonwealth Office (FCO) or its agencies. A contractor, on behalf of consular department of the FCO, runs the Travel Advice service which is accessed via an 0845 number.

Diplomatic Service: Greater London

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance his Department has issued on the liability of diplomats covered by the Vienna Convention on Diplomatic Relations 1961 for the London congestion charge. [199565]

Meg Munn: We informed all foreign missions in the UK by Note Verbale on 18 March 2002 of our view that there are no legal grounds to exempt diplomatic missions from payment of the London congestion charge. We have repeated this view to all missions on a number of occasions, both formally and informally.

Foreign Press Association

Mr. O'Hara: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received concerning the operation of the Foreign Press Association; and if he will make a statement. [199483]

Meg Munn: Foreign and Commonwealth Office officials meet regularly with Committee members from the Foreign Press Association to discuss its operation.

Mr. O'Hara: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons his Department has discontinued its funding of the Foreign Press Association; and if he will make a statement. [199484]

Meg Munn: The Foreign and Commonwealth Office has not discontinued funding to the Foreign Press Association. In accordance with best financial practice, we review regularly our funding of external organisations.

Mr. O'Hara: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will consider restoring funding to the Foreign Press Association; and if he will make a statement. [199485]

Meg Munn: Access to funding was restored to the Foreign Press Association in January 2006.

Gaza: Borders

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in securing the return of EU monitors to the Rafah border crossing with Gaza; and if he will make a statement. [200077]

David Miliband: The EU is ready to consider resuming its border assistance mission at the Rafah crossing, which has been dormant since Hamas took over Gaza last summer, as soon as conditions allow. The EU's High Representative Javier Solana, and the EU Special Representative to the middle east peace process continue to engage Israel and the Palestinian Authority on the re-opening of the crossing.

We continue to call on all parties to work urgently to reopen the Gaza crossings. We look forward to the resumption of normal operations at the crossings under

Palestinian Authority control. With my European colleagues I have continued to call for the continuous provision of essential goods and services, including fuel and power supplies from Israel into Gaza. With other EU Foreign Ministers, I have also announced our support for the Palestinian Authority's proposal to take control of the crossings.

Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department provides health or social care services out of public funds, with reference to the Statement by the Minister of State, Department of Health, in the Health and Social Care Bill Committee, of 17 January 2008, *Official Report*, column 327. [200229]

Meg Munn: The Foreign and Commonwealth Office does not provide health and social care services. It does however fund arrangements for UK civil servants and their families whom it employs overseas to receive the range and standard of health and social care services that they would be able to access under the national health service and from Social Services in the UK.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199616]

Meg Munn: The Foreign and Commonwealth Office has no record of any payments made in the UK to JP Morgan since 1997. It would incur disproportionate cost to obtain details from posts about any payments they may have made to this supplier.

Karian and Box

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what the value was of each contract awarded by his Department to Karian and Box since 1997. [199649]

Meg Munn: The Foreign and Commonwealth Office (FCO) and FCO Services have no record of any contracts being awarded to Karian and Box since 1997.

Middle East: Peace Negotiations

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress in Palestinian-Israeli peace negotiations since the Conference in Annapolis; and what his assessment is of both parties' compliance with *(a)* international law and *(b)* the framework set out in the 2003 Roadmap. [200151]

Dr. Howells: The UK continues to support the ongoing negotiations led by Israeli Prime Minister Olmert and Palestinian President Abbas; Israeli Foreign Minister Livni and Palestinian Chief Negotiator Ahmed Qurei; and Israeli Defence Minister Barak and Palestinian Prime Minister Fayyad. We welcome Israeli Defence Minister Barak's announcement that as a result of discussions on 31 March, there will be improved movement and access inside the West Bank. This demonstrates the importance of the ongoing discussions at a high level between the Palestinian Authority and the Israeli Government.

The UK has consistently called for all sides to abide by international law. We have made clear that Israeli settlement activities are illegal under international law. The UK welcomed the renewed commitment both sides made at Annapolis to the 2003 Roadmap. Both sides need to work to fulfil their obligations under the Roadmap. The Roadmap is clear that Israel must freeze all settlement activity and that the Palestinian Authority must develop an effective security apparatus.

Official Residences

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 March 2008, *Official Report*, columns 591-2W, on departmental official residences, what guidance he issues on the tax liability of *(a)* Ministers of the Crown in any official ministerial residence and *(b)* former Ministers of the Crown occupying official ministerial residences. [199508]

Meg Munn: I refer the hon. Member to the reply to the Parliamentary Secretary, the Cabinet Office, my hon. Friend the Member for (Mr. Watson) gave to him on 13 March, *Official Report*, columns 591-592W. Former Ministers continue to be responsible for tax liability associated with ancillary services in official residences, while they make arrangements to move to other accommodation.

Pakistan: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of steps taken by the new government in Pakistan on improving human rights and democratic governance. [199417]

Dr. Howells: We welcome the statements made by Pakistani Prime Minister Gillani in his address to the National Assembly on 29 March, when he set out his priorities for the first 100 days of his coalition government. He announced measures for democratic reform, indicating that he wished to promote greater parliamentary accountability and engage civil society in the process of strengthening democratic institutions. He called for a revival of trade and student unions and also undertook to revoke laws against press freedom, improve freedom of information legislation and establish a review commission to examine the issue of political prisoners.

Palestinians: Overseas Aid

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether all the funding pledges made at the 2007 Paris Donor Conference for aid to the Palestinians have been disbursed to the Palestinian Authority; and if he will make a statement. [200075]

David Miliband: The 2007 Paris Donor Conference resulted in US$7.7 billion of pledges being made to the Palestinian Authority. These pledges are to be disbursed over the next three years. Therefore the complete US$7.7 billion has not yet reached the Palestinian Authority. The UK pledged to contribute £243 million over three years linked to tangible progress in peace negotiations.

On 2 April my right hon. Friend the Secretary of State for International Development announced the disbursement of £32 million for Palestinians in 2008. This money forms part of our Paris pledge and was in response to a request from Palestinian Prime Minister Fayyad. We hope our lead will be followed by other donors.

We expect further discussion of this at the next Ad Hoc Liaison Committee meeting, which the UK and Norway will jointly chair in London on 2 May.

Western Sahara: Human Rights

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the British ambassador in Rabat is monitoring the human rights situation in the occupied Western Sahara; and when the ambassador last visited the occupied territories. [199346]

Dr. Howells: Our ambassador in Rabat and his staff monitor human rights in Western Sahara. They maintain a close and continual dialogue with local and international non-governmental organisations working in the territory.

Our ambassador has not visited the territory, but members of his staff have done so.

Yemen: Politics and Government

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the security situation in southern Yemen. [200079]

David Miliband: Civil unrest over economic and social issues is growing, especially in the south of Yemen. Most of the grievances are shared nationally: lack of jobs, the rising prices of basic commodities including fuel and food and an inadequate safety net for the genuinely needy. Some southerners are calling for secession from the north and a return to two states, as before 1990. Most Yemenis want a single Yemen and national unity remains safe. But the Government of Yemen needs to address the issues that are generating discontent in the south of their country.

Zimbabwe: Overseas Residence

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of British nationals resident in Zimbabwe. [200078]

David Miliband: Our embassy in Harare has recently conducted a re-registration campaign for British nationals in Zimbabwe. As a result, we estimate that approximately 14,000 people are eligible for British consular support. The embassy is in regular contact with registered British nationals via the well established wardens network across the country.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199602]

Meg Munn: The Foreign and Commonwealth Office has no record of any payments made in the UK to Zurich Financial Services since 1997. It would incur disproportionate cost to obtain details from posts about any payments they may have made to this supplier.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Biofuels: Sustainable Development

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 26 January 2007, *Official Report*, column 2112W, on biofuels, what steps he has taken to ensure palm oil is not used in biofuel without a declaration relating to its sustainable sourcing; and if he will make a statement. [200798]

Jim Fitzpatrick: I have been asked to reply.

Under the Renewable Transport Fuel Obligation (RTFO), which came into effect on 15 April, transport fuel suppliers are required to report on the sustainability of any biofuels in respect of which they wish to earn renewable transport fuel certificates. Details of the reporting requirements are available via the Renewable Fuels Agency's website at http://www.dft.gov.uk/rfa. The Renewable Fuels Agency will report regularly on the performance of different transport fuel suppliers. The Government are pressing for EU-wide mandatory sustainability standards for all biofuels: these could be in place by April 2010.

Heating: EC Law

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what his assessment is of the suitability of the criteria used in the Energy-using Products Directive for the measurement of boiler energy efficiency. [201492]

Joan Ruddock: The European Commission issued a working document on boilers and water heaters on 31 January. This is a first draft of the Commission's proposed implementing measure on these products under the Framework Directive on the Eco Design of Energy using Products.

The proposals have been assessed by experts working on the Market Transformation Programme and this analysis, together with the views expressed by industry, have been instrumental in developing the Government's position on this. The Government have concerns with both the approach put forward in the working document, and the underlying model used to inform this. The Government made this position clear at a meeting of the Consultation Forum on 28 February and in subsequent written comments. Officials have also spoken to the Commission bilaterally to highlight these concerns and try to agree a way forward.

New Forest Official Verderer

Dr. Julian Lewis: To ask the Secretary of State for Environment, Food and Rural Affairs (1) for what reason the appointment of the next Official Verderer of the New Forest has not been announced; and when the announcement is to be made; [201365]

(2) whether it is planned that there will be a gap following the expiry of the term of the current Official Verderer before either he is reappointed or another candidate is appointed; and if he will make a statement. [201366]

Joan Ruddock *[holding answer 24 April 2008]*: An announcement regarding the appointment of the next Official Verderer of the New Forest will be made in due course.

Packaging: Drinks

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs if he will introduce a national deposit system for drinks containers to encourage the public to return used drinks containers to where they were bought from. [200911]

Joan Ruddock: We will be looking at a range of ideas to improve the collection of material for recycling, including drinks containers consumed inside and outside of the home. Looking at deposit schemes will be part of this work.

Any solutions have to make both environmental and economic sense if they are to be successful. In the past, deposit and return schemes have been phased out in this country because they did not make financial sense for the operating companies. We would only support the re-introduction of such systems if they delivered environmental benefits in a practical and cost-effective way.

Recycling

Jessica Morden: To ask the Secretary of State for Environment, Food and Rural Affairs what tonnage of material leaving materials recovery facilities was sent to another materials recovery facility for further treatment in the last 12 months. [200567]

Joan Ruddock: DEFRA does not hold the information requested. Local authorities are not required to report material sent from one materials recovery facility to another.

Jessica Morden: To ask the Secretary of State for Environment, Food and Rural Affairs what tonnage of materials collected for recycling from households was delivered to the gates of materials recovery facilities in the last 12 months. [200568]

Joan Ruddock: During 2006-07, the latest complete validated data available, 1.3 million tonnes of municipal waste collected for recycling in England was sent to a materials recovery facility for further treatment. This is based on data reported by local authorities to WasteDataFlow.

Jessica Morden: To ask the Secretary of State for Environment, Food and Rural Affairs what tonnage of materials collected for recycling from households was rejected at the gate of a *(a)* materials recovery facility and *(b)* recycling processor in the last 12 months. [200569]

Joan Ruddock: During 2006-07, the latest complete validated data available, local authorities reported a total of 89,000 tonnes collected for recycling from household sources as rejected for disposal at a materials recovery facility and a further 32,000 tonnes that were rejected at the gate of a recycling processor. This is based on data reported by local authorities to WasteDataFlow.

Jessica Morden: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to maximise the proportion of recovered materials that reach end reprocessors in a clean state. [200570]

Joan Ruddock: A number of factors determine the quality of recyclable materials, including market price, source, and methods of collection and separation. The Government provide support and advice on recycling to businesses and local authorities via the DEFRA-funded waste and resources action programme (WRAP).

Jessica Morden: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of materials were sent from materials recovery facilities to *(a)* landfill sites and *(b)* energy from waste facilities in the last 12 months. [200571]

Joan Ruddock: Of the 89,000 tonnes of municipal waste collected for recycling in 2006-07 and rejected at a materials recovery facility, 55,000 tonnes were sent to landfill and nearly 34,000 tonnes were sent for incineration with energy recovery. This is based on data reported by local authorities to WasteDataFlow.

Tree Preservation Orders: Guildford

Anne Milton: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 25 February 2008, *Official Report*, column 1130W, on tree preservation orders: Guildford, what the latest timetable is for the disposal of the Epsom Road site. [196076]

Joan Ruddock: The current disposal timetable for the Epsom road site is:

(a) the tender closing date is noon on 4 April 2008;

(b) all bidders will be advised no later than 19 May 2008; and

(c) legal completion of the sale is expected to take place on or before 2 July 2008.

The timings of (b) and (c) may be subject to variation in response to the written bids received.

HOME DEPARTMENT

Alcoholic Drinks: Children

Mr. Ellwood: To ask the Secretary of State for the Home Department how many children were *(a)* cautioned, *(b)* prosecuted and *(c)* given a penalty notice for disorder for knowingly consuming alcohol on licensed premises in each of the last two years. [191308]

Mr. Coaker: The number of young persons under 18 who were issued with a reprimand or final warning, penalty notice for disorder, or proceeded against at magistrates courts for the offence of knowingly consuming alcohol by an under 18 on relevant premises in England and Wales for the years 2005 to 2006 can be viewed in the attached tables 1 and 2.

From June 2000, cautions for offenders under 18 years old were replaced by reprimands and final warnings.

Number of young persons under 18 years issued with a reprimand or final warning, and proceeded against at magistrates' courts for a certain alcohol offence in England and Wales for the years 2005-06[1, 2, 3, 4, 5]

	2005	2006
Offence description	*Proceeded against*	*Reprimanded/final warning*[3]
Individual aged under 18 knowingly consumes alcohol		2

[1] These data are on the principal offence basis.
[2] Data includes the following offence descriptions and corresponding statutes: Individual aged under 18 knowingly consumes alcohol: Licensing Act 2003 S.150 (1)
[3] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. Reprimands and final warnings are included in the above data.
[4] The Licensing Act 2003 came into force on 24 November 2005.
[5] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

2005	84
2006	75

[1] These data are on the principal offence basis.
[2] Data includes the following offence descriptions and corresponding statutes: Consumption of alcohol by a person under 18 on relevant premises: Licensing Act 2003 S.150(1)
[3] New legislative reference with effect from 24 November 2005.
[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Asylum

Mr. Spellar: To ask the Secretary of State for the Home Department what estimate she has made of the number of asylum applications received but not yet determined at the latest date for which figures are available. [197638]

Mr. Byrne: The number of cases recorded as awaiting an initial decision and the number of cases recorded as awaiting an appeal determination is published quarterly and annually. Copies of asylum statistics publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Bail

Ann Winterton: To ask the Secretary of State for the Home Department (1) for what duration a non-terrorist suspect may be held on continuous bail without being charged; how many times during that period bail may be renewed; and how long a suspect may be held in custody after reporting in at the time limit of continuous bail before bail is renewed again without a charge being brought; [199467]

(2) for how long a non-terrorist suspect may be held in custody without being charged before any type of bail is set; [199468]

(3) what powers the police have to hold in custody a non-terrorist suspect who has not been charged with any offence but who has broken the time limit for continuous bail; and for how long such a suspect may be held in custody for breaking bail. [199469]

Mr. McNulty: Part IV of the Police and Criminal Evidence Act (PACE) 1984 sets out the statutory time limit of 96 hours for an arrested person to be detained at a police station. The custody officer is required to consider whether reasonable grounds exist to believe that detention without charge is necessary or whether bail should be granted. The detention of a person is subject to review by the Review Officer and consideration of extensions of detention from 24 hours to 36 hours is subject to the authority of a Superintendent. Any period in excess of 36 hours is subject to the authority of a magistrate. The detainee must be charged with an offence or referred to the CPS for a charging decision when the custody officer considers there is a realistic prospect of conviction. When bail is granted prior to charge, any time the suspect spends at the police station in answering bail counts towards the detention time limits set out in PACE.

There are no statutory time limits on the period for which a suspect may be released on bail or on the number of occasions in which bail may be granted.

Community Calls to Action

Mr. Pickles: To ask the Secretary of State for the Home Department for what reasons the provisions relating to community calls to action introduced under the Police and Justice Act 2006 have not been implemented. [199581]

Mr. McNulty: The Local Government and Public Involvement in Health Act contained an amendment to Section 19 of the Police and Justice Act 2006. This amendment brought together the two models for Community Calls for Actions. The Home Office and the Department for Communities and Local Government are now working together to develop plans for implementation.

We have always been clear that the implementation of these provisions would need to give proper consideration to the wider local accountability agenda. We are therefore keen to ensure that implementation of these provisions properly takes into account the findings of Sir Ronnie Flanagan's independent review of policing, along with the proposals to be set out in both Louise Casey's review 'Connecting Communities with the fight against crime' and the Home Office's Policing Green Paper both of which will be published later this year.

Community Policing

Mr. Ruffley: To ask the Secretary of State for the Home Department what plans she has to extend the initiative of distributing in areas of high crime key fobs bearing the name, photograph and contact details of community police officers; and if she will make a statement. [195695]

Mr. McNulty: By April 2008, every community in England and Wales will have a neighbourhood policing team of police officers and police community support officers in place. The teams are dedicated to working with their local communities, agreeing priorities for action and informing the public of their progress. This engagement process has already begun in many places and it will now be developed and extended across all areas of England and Wales.

A new 'Name in Every Neighbourhood' campaign will be running for the coming weeks to make sure people in all areas know their own local Neighbourhood Policing team and how to contact them.

Local communications activity will vary from force to force as they pursue a number of different ideas and innovations to build familiarity and understanding in the most effective manner to suit local circumstances.

Mr. Ruffley: To ask the Secretary of State for the Home Department what recent requests she has received from foreign *(a)* governments and *(b)* police forces for information on community policing methods in the UK. [198589]

Mr. McNulty: The successful implementation of neighbourhood policing across England and Wales has attracted wide interest and Home Office officials have met with delegations from foreign governments and police forces including Serbia, Mongolia, the United Arab Emirates and Azerbaijan about neighbourhood policing in the UK.

During the Anglo-French summit in London on 27 March my right hon. Friend the Home Secretary met with her colleague, Michele Alliot-Marie, the Minister of the Interior, Overseas France and Local Authorities, and agreed that we would hold a neighbourhood policing seminar in Paris in May.

Community Support Officers: Powers

Mr. Ruffley: To ask the Secretary of State for the Home Department what plans she has to review the powers of police community support officers in different parts of the country. [199335]

Mr. McNulty: The National Policing Improvement Agency is currently conducting a review relating to the PCSO role, including powers.

The review is expected to report this summer and to make recommendations. PCSOs derive their powers from Section 38A of the Police Reform Act 2002. Under the provisions of the Act, the Secretary of State introduced on 1 December 2007 a list of standard powers that apply to all PCSOs in England and Wales. The Home Office has just completed the 2007 audit of current PCSO powers. The results are being analysed and will be placed on the Home Office website in May 2008. A table giving the results of the 2006 PCSO Powers audit may be found on the website at:

http://police.homeoffice.gov.uk/community-policing

The webpage also provides the list of the standard and discretionary powers available to PCSOs.

Crimes of Violence: Maldon

Mr. Whittingdale: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Maldon and East Chelmsford constituency in each of the last five years. [201920]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Wandsworth

Justine Greening: To ask the Secretary of State for the Home Department how many crimes of violence against the person have been recorded in *(a)* Putney constituency and *(b)* the London borough of Wandsworth in each of the last five years; and if she will make a statement. [201557]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level (including Wandsworth). The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one

constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Criminal Records

Danny Alexander: To ask the Secretary of State for the Home Department what percentage of the population had a criminal record in each year since 1980. [200792]

Maria Eagle: I have been asked to reply.

The information which has been requested is not routinely collected.

Figures on the proportions of the population with a criminal history in England and Wales can be found in 'Criminal careers of those born between 1953 and 1978' at:

www.homeoffice.gov.uk/rds/pdfs/hosb401.pdf

The bulletin gives figures for offenders who have had a court conviction for a 'standard list' offence. 'Standard list' offences include all indictable and certain of the more serious summary offences. This publication follows those born in particular years to analyse the percentage of the population with a criminal history. The years followed are 1953, 1958, 1963, 1968, 1973 and 1978. Table 1 of the publication shows that by the age of 45 32.6 per cent. of males and 8.7 per cent. of females born in 1953 had a criminal record in England and Wales.

Demonstrations: Parliament Square

Mr. Amess: To ask the Secretary of State for the Home Department (1) what representations she has received on the removal of banners and other materials from Parliament Square; and if she will make a statement; [192532]

(2) on which occasions banners and other materials have been removed by the police from Parliament Square; and if she will make a statement. [192533]

Mr. McNulty: The removal of banners and other materials from Parliament Square is a matter for the Metropolitan Police and the Greater London Authority in as far as Parliament Square Garden is concerned.

We have received representations from a number of Members of Parliament, Peers and members of the public who have expressed concern about the tents, mess and noise from the permanent encampment opposite Carriage Gates.

I am informed by the Commissioner of the Metropolitan Police that on 23 May 2006 the police took action to seize Mr Haw's banners following his failure to comply with the terms of some of the conditions which had been imposed by the police on his demonstration.

Having consulted widely on managing protests around Parliament and having considered the arguments on how best to balance competing rights in the context of a dynamic security situation, my right hon. Friend, the Secretary of State for Justice and Lord Chancellor announced on 25 March that we are proposing to repeal sections 132 to 138 of the Serious Organised Crime and Police Act 2005. In moving to repeal these provisions, we are also inviting the views of Parliament on whether additional provision is needed to ensure that the operation of Parliament is safeguarded. Our view is that Parliament is well placed to decide what needs to be secured to ensure that Members of both Houses are able freely to discharge their responsibilities. We invite their views on whether additional provisions is needed, for example to keep open the passages leading to the Palace of Westminster and to ensure that excessive noise is not used to disrupt the working of Parliament.

Departmental Official Hospitality

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how much was spent by her Department and its agencies on *(a)* alcohol and *(b)* entertaining in the last 12 month period for which information is available. [188065]

Mr. Byrne: The Home Office systems do not separately identify the costs requested and they could be provided only at disproportionate cost.

However we do retain records for hospitality provided by both civil servants and Ministers. The spend for 2006-07, the last 12 month period for which there are audited figures, was £91,829.

Home Office expenditure on official hospitality and entertainment conforms to departmental guidance on financial procedures and propriety, which complies with the principles of Government Accounting and the Treasury handbook on Regularity and Propriety. Hospitality is defined as the provision of food, drink and entertainment of non civil servants where it is beneficial to the interests of the Department.

For the Department's agencies, the Criminal Records Bureau spend on hospitality was nil and the Identity and Passport Service's spend could be provided only at disproportionate cost.

Detention Centres: Children

Mrs. James: To ask the Secretary of State for the Home Department how many children were held in immigration removal centres at the latest date for which figures are available. [197676]

Mr. Byrne: The Home Office publishes a quarterly snapshot of people detained solely under Immigration Act powers on the last Saturday of each quarter, including the number of people recorded as being under 18 at the time of the snapshot. The latest published information pertains to persons detained as at 29 December 2007 and is published in the quarterly web-based Asylum Statistics bulletin.

Children are detained only in two limited circumstances: first, as part of a family group whose detention is considered appropriate; second, when unaccompanied, while alternative care arrangements are made (and normally only overnight). While the detention of families with children is very regrettable, it

nevertheless remains necessary in appropriate cases in order to maintain an effective immigration control and to tackle abuses of the asylum and immigration system. We are currently piloting an alternative to detention for families with children at an accommodation centre in Kent.

The number of children detained with their families under Immigration Act powers will change from day to day. However, internal management information shows that, as at 26 March 2008, there were 30 children detained with their families under Immigration Act powers. These figures are not broken down into asylum and non-asylum cases. These individuals were all detained as part of families whose detention, as a group was considered necessary.

Published statistics on immigration and asylum are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Driving Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many motorists were *(a)* charged with and *(b)* convicted of (i) failure to accord precedence at pedestrian crossings, (ii) failure to comply with traffic signs, (iii) speeding offences, (iv) driving after consuming alcohol or taking drugs, (v) reckless driving and (vi) driving while disqualified in (A) in each police force area and (B) England and Wales in each year since 1997. [200249]

Mr. Coaker: I refer the hon. Member to answer I gave him on 29 November 2007, *Official Report*, column 664W.

Drugs: Misuse

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of those brought into a police station tested positively for Class A drugs in each year since 1997; and what proportion of those voluntarily agreed to treatment. [200241]

Mr. Coaker: With regard to the percentage of those brought into a police station who test positive for Class A drugs, drug testing of offenders for specified Class A drugs (heroin and cocaine/crack) in police custody came into operation from 2003 across 30 BCUs as part of the drug interventions programme. Since that time the programme has expanded in a phased approach to 66 BCUs in 2004 and some 107 BCUs in 2005.

Only offenders arrested or charged with a "trigger offence"—largely acquisitive crime related offences—are required to provide a sample to be tested for specified Class A drugs.

Between 2003 and 2005 the programme operated drug testing at the point of charge; from 2005 to the present time the programme operated drug testing at the point of arrest. The average rate of positive tests for specified Class A drugs for offenders charged with a trigger offence was:

	Percentage
2003-04	54
2004-05	46
2005-06	45
2006-07	37

The figure for number of offenders entering treatment through DIP includes individuals from both DIP intensive areas (i.e. the 107 BCUs operating drug testing and related interventions) and the non intensive areas of the programme. Offenders from the DIP non intensive BCUs are not drug tested.

The data on the proportion of those who test positive and voluntarily agree to treatment are not available in the format requested. The drug interventions programme does not routinely hold data on those entering treatment only as a result of a positive drug test.

From 2003 the numbers of offenders entering treatment voluntarily through the drug interventions programme are as follows:

	Number
2003-04	1,950
2004-05	16,517
2005-06	24,557
2006-07	39,903

Since the programme began in April 2003 to January 2008, almost 120,000 drug misusing offenders have entered into treatment through DIP.

Entry Clearances: Employment

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the Answer of 17 March 2008, *Official Report*, column 796W, on entry clearances: employment, how many dependants of work permit holders who were aged under 16 years were given leave to enter the UK in each year from 1997 to 2003; and how many were from each of the 20 most numerous nationalities in each of those years. [197600]

Mr. Byrne: The requested figures are in the tables provided.

Home Office Statistical publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Notes:
1. Data rounded to the nearest five, therefore they do not sum to the total shown.
2. Includes nationals of Switzerland before 1 June 2002, but excludes them from this date.
3. This information is not published as National Statistics. As such it should be treated as provisional and therefore subject to change.

Entry Clearances: Kenya

Charles Hendry: To ask the Secretary of State for the Home Department what procedures are in place for checking for tuberculosis in people seeking to enter the UK from *(a)* Kenya and *(b)* South Africa. [197736]

Mr. Byrne: Since February 2007 Kenyan nationals travelling from Kenya, seeking entry to the UK for more than six months, have been required to undergo tuberculosis screening in Kenya before applying for a visa. Those found to have infectious tuberculosis must complete a course of treatment before being issued with a visa.

Nationals from countries where there is a high incidence of tuberculosis, who are seeking entry for more than six months, are referred to the Port Medical Inspector at major ports, who will screen them for tuberculosis by means of an x-ray. This includes passengers from South Africa. If their x-ray is positive then they would be referred to their local community unit for further diagnosis and treatment.

Institute for Animal Health: Pirbright

Mr. Drew: To ask the Secretary of State for the Home Department whether there are any on-going police investigations relating to the escape of foot and mouth virus from Pirbright Laboratory which are not related to any on-going legal proceedings. [198120]

Mr. McNulty: Any ongoing police investigations relating to the escape of foot and mouth virus from Pirbright Laboratory, whether or not they are related to any ongoing legal proceedings, are a matter for Surrey police.

Metropolitan Police: Recruitment

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* new recruits, *(b)* graduate recruits and *(c)* graduate recruits with first or upper second class degrees there were to the Metropolitan police in each of the last five years; [198523]

(2) how much the Metropolitan police spent on *(a)* recruitment and *(b)* other advertising in each of the last five years; and what the budget is for 2008-09. [198526]

Mr. McNulty: This information is not held centrally. This is a matter for the Commissioner of the Metropolitan police.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers were recruited to the Metropolitan Police in each year since 1997; and what proportion were recruited directly from other police forces in each year. [198579]

Mr. McNulty: I refer the hon. Member to the answer given on 1 April 2008, *Official Report*, column 759W.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers in *(a)* Essex, *(b)* Thames Valley, *(c)* Hertfordshire, *(d)* Bedfordshire, *(e)* Kent, *(f)* Suffolk, *(g)* Sussex, *(h)* Surrey and *(i)* Hampshire sought application forms to

join the Metropolitan Police Force in each of the last three years and subsequently made a formal application; and how many Metropolitan Police Force officers (i) sought application forms to join each of these forces and (ii) subsequently made a formal application, in the same period. [199578]

Mr. McNulty: The information requested is not collected centrally within the police personnel statistics series.

The numbers of officers who transfer between specific police forces cannot be derived from the centrally collected data.

Offenders: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the replies of the Chief Executive of the Border and Immigration Agency to questions 36 to 38 of her evidence session before the Home Affairs Committee on 15 January 2008, how many prisoners are held in detention awaiting deportation or removal following the completion of their custodial sentence; how many have *(a)* served a sentence of more than four years and *(b)* received their sentence for an offence of a violent or sexual nature; if she will break down these prisoners by nationality; and what the longest period spent in detention following completion of sentence is for which such a prisoner currently held in detention has been held. [181850]

Mr. Byrne: The Chief Executive of the UK Border Agency has written to the Home Affairs Committee on several occasions over the past 18 months and provided the most robust and accurate information available on the detention of foreign national prisoners. She explained in her letter of 20 November 2007 that there were around 1,500 foreign prisoners detained past completion of their custodial sentence awaiting deportation and also confirmed in her letter of 17 December 2007 that 1,200 of these were detained within the UK Border Agency's detention estate.

She also explained in her letter of 18 February that there are currently around 250 sentence-expired foreign prisoners from countries where we encounter difficulties in enforcing removal who have been detained under immigration powers beyond nine months. At the session of 15 January she explained that a significant number of foreign criminals come from Jamaica, Nigeria, China and Vietnam. Copies of these letters are available in the Library of the House.

Police National Computer: Personal Records

Mr. Ruffley: To ask the Secretary of State for the Home Department what representations she has received from the Data Protection Commissioner on the accuracy of criminal records held on the Police National Computer; and what estimate she has made of the *(a)* number and *(b)* percentage of criminal records held on the Police National Computer which contain significant inaccuracies or errors. [198468]

Mr. McNulty: The Data Protection Commissioner was superseded by the Information Commissioner on 30 January 2001, as a consequence of the Freedom of Information Act 2000. I am not aware of any representations received from the Information Commissioner on the accuracy, number and percentage of criminal records with inaccuracies held on the police national computer. Each criminal record is owned by the originating police force and as such is responsible for the accuracy of the content of the data.

Police Stations

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how many police stations there were per 1,000 head of population in *(a)* non-rural and *(b)* rural areas in each year since 1997; and if she will make a statement; [198535]

(2) how many police stations were operational in each police force area *(a)* in each year since 1997 and *(b)* at the latest date for which figures are available. [198587]

Mr. McNulty: The Department does not hold the information requested centrally, and this could be obtained only at disproportionate cost.

Police Stations: Greater London

Mr. Ruffley: To ask the Secretary of State for the Home Department which police stations in the Metropolitan Police force area *(a)* closed and *(b)* opened in each of the last 10 years. [198595]

Mr. McNulty: The management of the Metropolitan Police estate and allocation of resources is a matter for the Metropolitan Police Authority and the Metropolitan Police Commissioner who are responsible for assessing local needs.

Police: Civil Proceedings

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* successful and *(b)* unsuccessful cases were brought by members of the public against the police force for (i) malicious prosecution, (ii) false imprisonment and (iii) assault in each year since 1997; and how much compensation was paid in respect of each case successfully brought. [195696]

Mr. McNulty: The information requested is not held centrally.

Police: Dismissal

Mr. Ruffley: To ask the Secretary of State for the Home Department what statutory power the Government have to require the dismissal of chief constables. [198462]

Mr. McNulty: Under section 11 of the Police Act 1996 as amended a Police Authority can require a chief officer to retire or resign in the interests of efficiency or effectiveness, provided the police authority has the approval of the Home Secretary. Under section 42 of the Act the Home Secretary can require a police authority to exercise this power.

Police: Evidence

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers are trained to handle digital evidence; and how many police officers are (*a*) serving with computer crime units and (*b*) have higher level forensic skills. [198533]

Mr. McNulty: All police officers receive basic level training in the handling of digital evidence. The number of police officers serving with computer crime units and who have higher forensic skills is not held centrally.

Police: Females

Mr. Ruffley: To ask the Secretary of State for the Home Department what proportion of police officers in each police force area were women in each of the last five years. [198527]

Mr. McNulty: The information requested is published annually in the Home Office Statistical Bulletin series "Police Service Strength, England and Wales." The bulletins are available in the Library of the House, and can be downloaded from the publications link within the Research Development and Statistics directorate website located at:

http://www.homeoffice.gov.uk/rds/index.html

Police: Finance

Mr. Ruffley: To ask the Secretary of State for the Home Department how much and what proportion of (*a*) Government spending and (*b*) gross domestic product was spent on policing in each year since 1997. [195693]

Mr. McNulty: The information requested is set out in the following table.

Table 1 Government spending on policing

Percentages

Financial year	*As a proportion of total general government expenditure*[1]	*As a proportion of GDP*
1997-98	5.5	1.0
1998-99	5.6	1.0

Mr. Pickles: To ask the Secretary of State for the Home Department (1) what the average Band D council tax police precept is in (*a*) England, (*b*) Wales and (*c*) England and Wales for 2008-09; [199680]

(2) what the Band D council tax precept of each police authority in England and Wales is for (*a*) 2007-08 and (*b*) 2008-09; and what the average Band D precept for (i) England, (ii) Wales and (iii) England and Wales is for each of those two years. [199679]

Mr. McNulty: The information requested is set out in the following table.

Police precept - Band D - set by police authorities in 2007-08 and 2008-09

£

Police authority	*2007-08 precept - Band D*	*2008-09 precept - Band D*
Avon and Somerset	147.17	154.32
Bedfordshire	123.43	135.78
Cambridgeshire	149.40	156.87
Cheshire	136.03	135.75
Cleveland	158.16	171.67

English Police Authorities - DCLG

Welsh Police Authorities - WAG

Mr. Ruffley: To ask the Secretary of State for the Home Department what the average (*a*) total direct staff cost, (*b*) total operational support cost, (*c*) total business support cost, (*d*) total cost excluding sustaining overhead was under activity-based costing analysis for providing police assistance for (i) a road traffic accident, (ii) public disorder, (iii) a missing person and (iv) a sudden or suspicious death in each financial year since 2004. [200336]

Mr. McNulty: Data on the average cost of police assistance in dealing with non-crime incidents are not currently available, but will become available for the first time later this year.

Mr. Ruffley: To ask the Secretary of State for the Home Department what the cost to the police of (*a*) protecting (i) the British Royal Family, (ii) foreign royals and Heads of State, (iii) Ministers, (iv) members of foreign governments, (v) other British VIPs and (vi) other foreign VIPs and (*b*) of anti-terrorism, Special Branch duties and other national policing was under activity-based costing analysis in each financial year since 2004. [200337]

Mr. McNulty: In relation to question (*a*), the Home Office Dedicated Security Posts (DSP) Grant provides the central contribution to the policing costs for the protection of the Royal Family and VIPs, including visiting VIPs. This annual grant also covers the cost of protecting the residences of the Royal Family and VIPs as well as wider counter terrorism protective security functions including Special Branch policing at ports. The grant is currently allocated based on projected requirements at the beginning of the financial year.

The DSP grant between 2004-05 and 2007-08 was £212.4 million. In 2008-09 it increased to £224,815,322.

For security reasons, we do not provide a breakdown of this grant in respect of Royalty and VIP protective security functions. This is because to do so could compromise the integrity of those arrangements and affect the security of those concerned.

In relation to question (*b*), the Government make specific grants to the police in respect of counter terrorism policing in addition to the Dedicated Security Posts (DSP) grant. In the years requested these grants have more than trebled as the following table shows:

	Total (£ million)
2004-05	84
2005-06	105
2006-07	197
2007-08	251

However, the Home Office does not hold information centrally on the total cost to the police service for counter-terrorism and other national policing work in the format requested. Such data could be obtained only at disproportionate cost.

Mr. Ruffley: To ask the Secretary of State for the Home Department what the average (*a*) total direct staff cost, (*b*) total operational support cost, (*c*) total business support cost and (*d*) total cost excluding sustaining overhead under activity-based costing analysis was for a police investigation of a (i) violence against the person offence, (ii) sexual offence, (iii) robbery, (iv) deception or fraud, (v) drugs offence, (vi) criminal damage and (vii) other crime in each financial year since 2004. [200339]

Mr. McNulty: Information is collected by the Home Office on (*a*) the total direct staff costs, (*b*) the total operational support costs, (*c*) the total business support costs and (*d*) the total policing costs excluding sustaining overheads for dealing with crime incidents. Values for the offences laid out in the question for England and Wales are set out in the following tables. Table A contains data for the financial year 2006-07, table B for 2005-06 and table C for 2004-05.

Table A 2006-07: national average of the total policing cost (£), excluding sustaining overheads, of dealing with an incident, broken down by crime and cost type

	Direct staff costs	*Operational support costs*	*Business support costs*	*Total costs excluding sustaining overheads*
Violence Against the Person	491	303	181	976
Sexual Offences	2,491	1,677	943	5,110
Robbery	1,156	842	423	2,421
Deception/Fraud	450	293	175	919
Drugs	921	565	352	1,838
Criminal Damage	102	73	40	215
Other Crime	305	239	123	667

Table B 2005-06: national average of the total policing cost (£), excluding sustaining overheads, of dealing with an incident, broken down by crime and cost type

	Direct staff costs	*Operational support costs*	*Business support costs*	*Total costs excluding sustaining overheads*
Violence Against the Person	488	319	181	987
Sexual Offences	2,441	1,576	908	4,925
Robbery	1,176	862	480	2,519
Deception/Fraud	440	260	168	868
Drugs	1,059	670	388	2,117
Criminal Damage	98	72	41	211
Other Crime	302	233	130	666

Table C 2004-05: national average of the total policing cost (£), excluding sustaining overheads, of dealing with an incident, broken down by crime and cost type

	Direct staff costs	Operational support costs	Business support costs	Total costs excluding sustaining overheads
Violence Against the Person	405	284	178	867
Sexual Offences	2,112	1,411	900	4,423
Robbery	1,034	755	475	2,263
Deception/Fraud	308	196	134	638
Drugs	1,085	654	412	2,071
Criminal Damage	86	66	39	191
Other Crime	266	207	121	594

Note:
This data excludes Cambridgeshire which did not return activity based costing data in 2004-05.

Police: Firearms

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers were found guilty of unlawful killing using firearms in each of the last 20 years. [198469]

Mr. McNulty: The requested information is not available centrally.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers were *(a)* shot at, *(b)* injured by shootings and *(c)* killed in shootings in each police force area in each of the last five years for which figures are available. [198582]

Mr. McNulty: I refer the hon. Member to the reply given to him on 1 April 2008, *Official Report*, column 765W.

Police: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department what her most recent projection is of total police service strength in England and Wales from 31 March 2007 to 31 March 2011. [199579]

Mr. McNulty: Information on police authority projections of police service strength is not routinely collected. It is for chief constables and police authorities to decide how best to use the resources available to them when setting levels of police officers, staff and PCSOs.

Police: Pay

Mr. Ruffley: To ask the Secretary of State for the Home Department what her policy is on performance related pay for police officers; and if she will make a statement. [198490]

Mr. McNulty: Effective pay arrangements for police officers are essential for a modern police service which delivers high standards of community safety and security to the public. Police officers should be fairly and appropriately recognised for the work they do. Superintendent, Chief Superintendent and chief officer pay includes an element related to performance.

Officers are also eligible for bonus payments for specific pieces of work. The Home Office together with the Association of Chief Police Officers and the Association of Police Authorities are considering the issue of police pay structural reform. This work is at a very early stage looking at what the objectives should be for any reform of this nature.

Mr. Ruffley: To ask the Secretary of State for the Home Department when she last met the *(a)* Chancellor of the Exchequer and *(b)* Prime Minister to discuss police pay arrangements; and if she will make a statement. [200359]

Mr. McNulty: My right hon. Friend the Home Secretary is in regular communication with my right hon. Friend the Prime Minister and other Ministers.

Police: Research

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will commission a research study similar to that which resulted in the publication of the 2001 study A Diary of a Police Officer. [198619]

Mr. McNulty: There are no plans to commission another study similar to A Diary of a Police Officer. The terms of reference for Sir Ronnie Flanagan's Independent Review of Policing, published in February this year, were designed to identify the drivers of unnecessary bureaucracy in the Police Service and will contribute strongly to the ongoing initiatives and reforms to combat this issue.

Police: Sick Leave

Mr. Ruffley: To ask the Secretary of State for the Home Department how many sick days were taken by police officers taken as a result of assault in each police force in England and Wales in each year since 1997; what the average number of days lost per police officer due to assault was in each year; and what the cost was to each police force of such absences in each year. [198577]

Mr. McNulty: I refer the hon. Member to the answer I gave him on 21 April 2008, *Official Report*, columns 1514-15W.

Police: Statistics

Mr. Ruffley: To ask the Secretary of State for the Home Department in what way the Office for National Statistics is involved in the planning, production and presentation of statistical information relating to the performance of the *(a)* police, *(b)* probation and *(c)* prison services. [198471]

Mr. McNulty: The planning, production and presentation of Home Office national statistics outputs is directly managed by the Home Office Chief Statistician, who as Head of Profession for statistics in the Home Office is directly answerable for professional matters to the National Statistician (who is Head of the Government Statistical Service and is chief executive of the Office for National Statistics).

Performance information used by the department is in most cases based on these national statistics sources as well as other relevant management information. There is a well developed process of consultation with stakeholders both with respect to the Annual Data Requirement for the police and statutory performance indicators used in assessing police performance.

Similar arrangements apply in the Ministry of Justice which is responsible for statistics on probation and prison. National statistics within the Home Office, and across the Government Statistical Service as a whole, are produced in conformance with the National Statistics Code of Practice and its 12 supporting Protocols. These set out all the professional standards which official statistics must meet including those relating to the planning, production and presentation of statistical information. The Home Office's statement of compliance with the Code and Protocols can be accessed at:

www.homeoffice.gov.uk/rds/statsprog1.html

The UK Statistics Authority (UKSA) began operating on 1 April 2008 as a statutory independent body reporting directly to parliament. This body not only has executive control over the Office for National Statistics, but also has oversight of all UK official statistics. It will conduct a comprehensive programme of assessment of national statistics against a revised code of practice that it is now in the process of being developed. The UKSA also has established the new Publication Hub live from 1 April on www.statistics.gov.uk, which will be a one-stop shop for first releases of national statistics, providing statistics which are accessible, clear, and free from political commentary. The existing code of practice can also be downloaded at:

www.statistics.gov.uk/about_ns/cop

Police: Training

Mr. Ruffley: To ask the Secretary of State for the Home Department what guidance she issues to chief constables on *(a)* the provision of health and safety training for police officers and *(b)* the risks of (i) criminal prosecution and (ii) civil action resulting from insufficient training. [198611]

Mr. McNulty: The Police Health and Safety Benchmarking Standard was funded by the Home Office and published by the Association of Chief Police Officers in May 2007. It builds on previously issued guidance and serves to raise awareness of the need for sufficient health and safety training.

The management of health and safety services, including training, provided for police officers and police staff is the responsibility of individual chief officers and police authorities. These have clearly set out liabilities and duties of care to their personnel in accordance with current Health and Safety legislation and, where it is found that the required duty of care has not been maintained, are liable for prosecution.

Mr. Ruffley: To ask the Secretary of State for the Home Department what training is given to police officers to ensure that suspects are charged appropriately. [199325]

Mr. McNulty: As laid out in the Police and Criminal Evidence Act 1984, it is the responsibility of the Custody Officer and/or the Crown Prosecution Service (CPS) to charge suspects and to ensure that there is sufficient evidence to support that charge.

It is the responsibility of the officer dealing with the suspect to present the relevant evidence to the custody officer or to CPS. All police officers undertake legal training as part of the Initial Police Learning and Development Programme, which includes gathering information and intelligence.

Police: Vehicles

Mr. Ruffley: To ask the Secretary of State for the Home Department what guidelines her Department provides to chief constables on the purchasing of *(a)* police vehicles and *(b)* environmentally-friendly police vehicles. [198458]

Mr. McNulty: The Efficiency and Productivity Strategy for the Police Service 2008-11, which has been agreed jointly with the Association of Chief Police Officers and the Association of Police Authorities, recognises that the police service could obtain better value from expenditure on goods and services, for example through increased collaborative procurement.

The National Policing Improvement Agency has worked with the police service to develop national frameworks for the purchase of vehicles under which forces are offered significant discounts on manufacturers' prices. These have been in place since 1992 and are regularly re-tendered. The arrangements are strongly encouraged by the Association of Chief Police Officers and HM Inspectorate of Constabulary. The most recent version (spring 2005) was designed to assist forces in rationalising the variety of models in use, to encourage standardisation and deliver further increases in value for money.

Police forces continue to evaluate the use of alternative fuels and indeed the National Association of Police Fleet Managers (NAPFM) is taking environmental issues increasingly into account in vehicle procurement on a national scale.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police authorities have converted their fleets, in whole or in part, to run on compressed natural gas, liquid petroleum gas or electricity. [198510]

Mr. McNulty: Police forces continue to evaluate the use of alternative fuels and indeed the National Association of Police Fleet Managers is applying environmental issues increasingly to future vehicle procurement on a national scale. The general trend is to move away from high carbon emission engines, including high performance vehicles. Currently, there are selective uses where non-fossil fuel vehicles can be used but these are very limited at present and are dependent on individual police force operational activities.

Mr. Ruffley: To ask the Secretary of State for the Home Department what guidance she gives to police *(a)* forces and *(b)* authorities on the (i) purchase and (ii) lease of vehicles manufactured in the United Kingdom. [198594]

Mr. McNulty: The police service procures vehicles using framework arrangements managed by National Policing Improvement Agency and the National Association of Police Fleet Managers. It is a legal requirement that such frameworks are procured in accordance with European Union procurement directives and United Kingdom public procurement regulations that prevent discrimination on national grounds. These framework arrangements enable police fleet managers to order vehicles and parts efficiently, thus delivering best value for money to the taxpayer. Since the safety of police officers and the public is paramount, all vehicles procured in this manner must meet demanding police specifications and are subjected to rigorous testing, including EuroNCAP safety ratings.

Proceeds of Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department how much was recovered under the Confiscation of Criminal Assets Act 2003 *(a)* in total and *(b)* in each police authority area in descending order of amount recovered in each year since its introduction; and how much is in the process of being recovered. [200482]

Mr. Coaker: I would refer the hon. Member to my reply of 8 January 2008, *Official Report*, column 460W. The total amount of confiscation orders and cash forfeiture orders obtained by all agencies in April-December 2007 is £183.9 million. Data for 2007-08 is currently being finalised and validated. It should be available in May.

Terrorism

Harry Cohen: To ask the Secretary of State for the Home Department if she will remove the proscription of Hamas under terrorism legislation to enable discussions between the Government and Hamas representatives on the political situation in the Middle East to take place. [192521]

Mr. McNulty: The military wing of Hamas (the Izz al-Din al-Qassem Brigades) was proscribed in 2001 due to its concern in terrorism. Other parts of Hamas, such as those which deal with its political and social and humanitarian activities, are not proscribed. The proscription of the Hamas Izz al-Din al-Qassem Brigades would not therefore preclude discussions with the political leadership of Hamas should circumstances favour such contact.

DUCHY OF LANCASTER

Office of the Third Sector: Expenditure

Greg Clark: To ask the Chancellor of the Duchy of Lancaster if he will provide a breakdown by main budget heading of the expenditure of the Office of the Third Sector in 2006-07. [201828]

Phil Hope: The expenditure of the Office of the Third Sector in 2006-07 is set out in the Cabinet Office Annual Report and Resource Accounts 2006-07. This is available at:

http://www.cabinetoffice.gov.uk/upload/assets/www.cabinetoffice.gov.uk/publications/reports/annualreport/resourceaccounts0607.pdf

Copies are also available in the Library of the House.

Voluntary Organisations: Finance

Greg Clark: To ask the Chancellor of the Duchy of Lancaster if he will provide a breakdown by main budget heading of the £515 million funding announced as part of the publication of the conclusions of the Third Sector review. [201825]

Phil Hope: The £515 million funding announced in the final report of the third sector review includes:

£130 million for the Grassroots Grants programme to provide small grants for community action and voice and endowments for local funders;

£117 million for the youth volunteering organisation, v;

£88.5 million for Capacitybuilders to build infrastructure for the third sector.

An additional £65 million for the Futurebuilders Fund;

£10 million for a community anchors programme;

£6 million for the Commission for the Compact;

£5.4 million for the Regional Development Agencies to improve business support for social enterprise

£5 million for a new national third sector research centre.

£4 million for a programme of training for volunteers and volunteer managers

£2 million for an Access to Volunteering fund to increase opportunities for people with disabilities to volunteer

The remaining funding will be used for a number of other third sector programmes, set out in the third sector review, including the strategic partners programme, work to promote social enterprise and work to enable the transformation of public services by third sector organisations.

Written Questions: Government Responses

David Taylor: To ask the Chancellor of the Duchy of Lancaster when he plans to provide a substantive answer to Question 187174, on correspondence in relation to freedom of information requests to Government departments, tabled on 15 February 2008. [201883]

Edward Miliband: The Cabinet Secretary replied today and a copy of his response has been placed in the Libraries of the House.

WORK AND PENSIONS

Council Tax Benefit: Standards

Danny Alexander: To ask the Secretary of State for Work and Pensions how many and what proportion of claimants were underpaid council tax benefit in 2006-07. [200840]

Mr. Plaskitt: The information is not available.

Departmental Data Protection

Mr. Redwood: To ask the Secretary of State for Work and Pensions what *(a)* linkages and *(b)* cross checks (i) exist and (ii) are planned between the data records of individuals whose data is stored on databases maintained by (A) his Department and (B) other departments. [200101]

Mr. Timms: The Department carries out many large and small scale data cross-checks and matches between its own various systems and between its systems and those of other Government Departments, as the law allows. This is in order to deliver effective services to many different types of customers.

However, detail of the individual linkages and checks is not held centrally and could be obtained only at disproportionate cost.

Departmental ICT

Mr. Redwood: To ask the Secretary of State for Work and Pensions how much his Department has spent on IT projects since 2005; and what estimate he has made of its total expenditure on IT projects between 2005 and 2010. [200070]

Mr. Timms: The information requested is as follows.

Project	*Purpose*	*Actual expenditure since 2005 (April 2005 to March 2008) (£ million)*	*Estimate of total expenditure 2005-10 (April 2005 to March 2010) (£ million)*
Pensions transformation project	The programme will transform the Pension Service, bringing together business and IT change in ways that improve customer service and deliver efficiencies.	352	417
Customer information system	This project will deliver a database of key citizen information to be shared across DWP. The database will complement information currently available in the Department's key customer information systems, i.e. Personal Details Computer System and Departmental Central Index, and become their replacement. Consideration is being given for wider use of CIS by Other Government Departments.	54	61
Document repository service	This project seeks to support the Department's modernisation programmes through the provision of a document repository to store digitised images of documents received from customers (letters, faxes, e-mails etc.), cutting down paper in the organisation.	5	9
Central payments system (formerly part of payment modernisation)	A modern integrated central payment engine and accounts payable system to improve accounting for benefit/pension payments, reduce risks of service failure, increased speed and efficiency, and information for improved customer service and reduced fraud and error.	45	138
Customer management system (previously known as working age services modernisation project (WASMP)	CMS system is a front-end data gathering system for primary Jobcentre Plus benefit processing systems, including auto-transfer of data. Subsequent releases of the system have updated and improved efficiency.	42	42
Employment and support allowance	The project delivers the system and processes to implement the new ESA allowance.	108	295
HR IS/IT programme	Following the merger of the Employment Service and the Benefits Agency human resources functions in the DWP, HR organisation underwent modernisation. Moving from a centralised, old-style personnel function to a new outward facing HR Group. This included changing how DWP delivers policies and services. The HR IS/IT Programme contributed to the delivery of these improvements ensuring its operation is efficient and effective and supports Departments learning and leadership objectives.	29	29
On time solution	Provide a range of improved information services to DWP businesses, including improved quicker management information, fraud and error intervention and analysis.	7	11
Operational improvement plan[1]	Operational and organisational restructuring of the Child Support Agency to deliver more money to more children.	85	110
Provider referrals and payment project	Deploy an IT system to automate and e-enable transactions between Jobcentreplus and external training providers.	0	17
Web enabled local service system	Provide a solution to replace the existing standalone IT used by Local Services (LS) providing LS flexibility	1	5

Project	Purpose	Actual expenditure since 2005 (April 2005 to March 2008) (£ million)	Estimate of total expenditure 2005-10 (April 2005 to March 2010) (£ million)
Pension reform delivery programme	To co-ordinate, manage and deliver a range of measures and consequential impacts which will establish a new structure for the UK pension system long term.	13	95
Fraud referral and intervention management system	This project develops and delivers a core IT platform that provides a lasting foundation for modern flexible IT support of business priorities, by introducing a new system to provide the Programme Protection Community with a single national data store of all fraud, compliance and risk cases.	28	29
DWP change programme	This programme brigades a number of complementary initiatives to deliver the DWP business vision. Including major projects to, bring in continuous improvement using Lean techniques which should allow greater customer focus and efficiency in our process and business change projects to allow greater access to information.	24	203
Child Maintenance and Enforcement Commission[2]	To establish a new child maintenance system that delivers more money to more children and better value for money to the taxpayer.	14	222
Real time pensions forecasts (RTPF) – strategic alignment	To strategically align the RPTF e-service by utilising the Retirement Planner Project (RPP) solution (with RTPF service 'ring-fenced') and moving to the Corporate Integration Backbone (GIB) and Distributed Known Facts model.	1	1
State pension deferral project	To identify, co-ordinate, assure, communicate and deliver changes to business systems and process, within timescales, to secure the introduction of changes to state pension deferral rules.	5	5
Resource management	This programme provided modernised HR, financial and procurement functions for DWP staff. It introduced significant business process change, enabling departmental resources to be managed more effectively.	111	111
Benefits processing replacement programme (BPRP)	The Benefits Processing Replacement Programme (BPRP) was formally launched in November 2004 to consider a replacement for existing IT legacy systems to calculate benefit payments in Jobcentre Plus (JCP) and the Disability and Carers Service (DCS). The Programmes' delivery activities were suspended in May 2006, and work commenced to bring the programme to an early closure and to consider re-alignment of the IS/IT Strategy.	106	106
Debt management	To bring increased focus to the management, recovery and accounting of benefit debt owed to the department.	20	20

[1] The Child Support Agency Operational Improvement Plan is a business recovery programme and is not a business change project in the normal sense. The focus of the programme is the organisational and operational restructuring of the agency to deliver significant performance improvements, getting more money to parents. It specifically aims to tackle the key area of debt, compliance and enforcement. Over a three year period the programme will design, develop and implement process and organisational change underpinned by continuing remediation of existing computer systems and the introduction of further IT enhancements in preparation for the new CMEC organisation.

[2] At this stage, with the Child Maintenance and Enforcement Commission yet to be established, these costs are best viewed as planning assumptions. They will depend ultimately on how C-MEC will configure its services; the details and timing of the transitional arrangements to the new scheme; and the choices that parents will make. All of these factors are subject to significant uncertainties. It should also be noted that estimated IT costs account for less than 20 per cent of the overall costs.

Notes:

1. These costs represent the investment costs of implementing the particular project and programme. Costs of running the solutions implemented by the projects and programmes are not included above as in the vast majority of cases they are more than compensated for by the financial and non financial benefits they generate. These savings are demonstrated in the NAO report 'The Efficiency programme: A Second Review of Progress'.
2. Initiatives that are associated with ongoing system improvements or enhancements as part of business as usual have not been included.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much was claimed in reimbursable expenses by Senior Civil Service staff in his Department and its agencies in the last 12 month period for which figures are available. [187549]

Mrs. McGuire: The amount claimed by senior Civil Service staff within the Department for Work and Pensions and its agencies for the 12 month period ended 31 March 2008 was £887,000.

Departmental Risk Assessment

Danny Alexander: To ask the Secretary of State for Work and Pensions what risk management measures his Department has put in place in the last three years. [200469]

Mrs. McGuire: The Department for Work and Pensions has in place a comprehensive set of risk management arrangements. These are subject to ongoing review/revision so that they continue to meet current and future needs. At all times the Department has seen risk management as integral to managing its business and to the successful achievement of its aims, targets and objectives.

Since 2005 the Department has introduced and/or enhanced a number of risk management measures. These are:

(i) The Department's strategy for managing risk is outlined in its Risk Management Framework (RMF), which was re-launched in September 2006 to reflect departmental and external best practice. In accordance with the Orange Book, the Framework sets out the policy, principles and concepts of risk management that have been endorsed by the Permanent Secretary's Executive Team (ET) and also introduced a common approach and language to risk management that promotes the communication, shared understanding and reporting of risk. This has aided the sharing and communication of risk information. Further updates to the RMF were issued in July 2007 and January 2008.

(ii) During the 2004 Spending Review period members of the Permanent Secretary's ET were individually accountable for the management of risks to the achievement of Public Service Agreement targets and supporting him in the management of the strategic risks that the Department faced to the delivery of its key outcomes. This will also be taken forward in the 2007 Comprehensive Spending Review period.

(iii) Each quarter, the ET Planning Performance and Risk Sub-Committee (PPRC) discuss the management of the Department's strategic risks. Specifically, they:

take decisions on which (if any) risks need to be escalated from business to strategic level for ET's attention;

focus on cross-cutting or strategic issues which require a corporate approach;

make recommendations to ET for their resolution, and;

consider the departmental risk in the context of overarching business performance.

This committee was established in September 2005 with board level representation from businesses across the Department and is chaired by the Finance Director General.

At their subsequent meetings, the ET formally review recommendations made by PPRC. Management of strategic risk is also subject to independent review and challenge by the departmental board. Additionally, the departmental Audit Committee is briefed on the Department's risk management arrangements.

A set of mandatory risk categories was introduced in 2007. These categories support a common language that promotes discussion, identification and analysis of common themes and aggregation of risks that can help identify possible common mitigation actions.

Risk related information has been brought together within a dedicated DWP intranet site that gives details of products and links to further information. These include:

Details of departmental risk management training courses (these courses subject to continual review)

Internal guidance and toolkits

External risk internet sites

Examples of good practice.

In January 2007 a new Risk Assurance Director was appointed from the banking industry. This external appointment has brought added value and private sector expertise into DWP which has led to improvements in internal audit practice and an increased strategic approach to risk management.

Disability Living Allowance: Appeals

Martin Horwood: To ask the Secretary of State for Work and Pensions (1) what the maximum time is which has elapsed between a claim being made for disability living allowance and a claimant's appeal against a refusal of such an application being upheld since the allowance was introduced; [198700]

(2) what percentage of appeals brought by unsuccessful claimants of disability living allowance have been upheld in each of the last five years. [198701]

Mrs. McGuire *[holding answer 21 April 2008]:* The information is not available to answer the hon. Member' first question.

With regard to the second question such information as is available is given in the following table.

Disability living allowance appeals

	Percentage decided in favour of customer	*Appeals to the Tribunal Service as percentage of DLA live case load*
2003-04	50.8	3.2
2004-05	50.0	3.2
2005-06	49.4	3.0
2006-07	47.1	2.7
2007-08	45.3	2.4

Source:
DLA Legacy systems.

The table shows the proportion of disability living allowance appeals that have been decided in the customer's favour by the Tribunals Service for the last five years. The numbers include customers who received an increase (including an increase from nil entitlement) in the level of, or period of entitlement to, benefit, compared to the original decision by the Disability and Carers Service.

No information is available differentiating between appellants whose claim was initially disallowed and those whose claim led to some entitlement prior to appeal.

To provide an indication of the incidence of appeals, the table also shows that the number of appeals submitted to the Tribunals Service, as a percentage of the total DLA live case load, has decreased over the last five years.

Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions whether his Department provides health or social care services out of public funds, with reference to the Statement by the Minister of State, Department of Health, in the Health and Social Care Bill Committee, of 17 January 2008, Official Report, column 327. [200225]

Mrs. McGuire: The Department for Work and Pensions has no intention of duplicating NHS health or social care services provided for the general public out of public funds.

Housing Benefit

David Howarth: To ask the Secretary of State for Work and Pensions (1) what guidance he has given to the Rent Service on determining the extent of broad rental market areas for the purposes of local housing allowance; [201971]

(2) if he will publish the methodology adopted by the Rent Service in determining broad rental market areas. [201972]

Mr. Timms: It is the responsibility of the rent officer, an independent statutory officer, to determine the broad rental market areas for local housing allowance purposes. Guidance for the rent officer in England in that role is provided by The Rent Service, an executive agency of the Department for Work and Pensions.

A copy of the guidance for the rent officer in determining the broad rental market areas has been placed in the Library.

This guidance is also available on The Rent Service website:

www.therentservice.gov.uk

Incapacity Benefit

Lynne Jones: To ask the Secretary of State for Work and Pensions whether there will be any differences in the amount paid to people in receipt of incapacity benefit and those to receive employment support allowance. [199259]

Mrs. McGuire: Employment and Support Allowance is an entirely new benefit with a new rate structure. So there will be differences in the amount paid to people in receipt of incapacity benefits compared to those who receive the new Employment and Support Allowance.

The key Employment and Support Allowance main phase rates are £84.50 a week for those in the Work Related Activity Group and £89.50 a week for those in the Support Group. The poorest among the most severely disabled in the Support Group will also receive an automatic passport to the Enhanced Disability Premium, taking their benefit to £102.10 a week. Main phase rates are awarded to those who satisfy the Work Capability Assessment at the end of the 13-week assessment phase.

Industrial Health and Safety: Public Buildings

Susan Kramer: To ask the Secretary of State for Work and Pensions what the *(a)* regulatory framework and *(b)* accreditation system is for those offering third party advice on health and safety issues in relation to sites or buildings used by members of the public, with particular reference to risk assessments. [200413]

Mrs. McGuire *[holding answer 23 April 2008]:* The regulatory framework for those offering third party advice to employers on health and safety at work matters, including on risk assessment in relation to sites or buildings used by members of the public, is provided by Regulation 7 of the Management of Health and Safety at Work Regulations 1999. This Regulation requires such advice to be provided by 'competent' persons, and regards a person as competent where 'he has sufficient training and experience or knowledge and other qualities to enable him to properly assist' the employer.

There is no statutory accreditation system for those offering third party advice on health and safety issues.

Jobseekers Allowance

David Taylor: To ask the Secretary of State for Work and Pensions what the *(a)* average and *(b)* target times were for processing (i) on-line and (ii) paper applications for jobseekers allowance in each of the last five years. [200585]

Mr. Timms *[holding answer 23 April 2008]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 25 April 2008:

The Secretary of State has asked me to reply to your question about the average and target times for processing on-line and paper applications for Jobseekers Allowance in each of the last five years. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The information is not available in the format requested. We cannot identify the time taken to process claims by method of application.

The information that is available is contained in the following table.

Jobseeker's allowance—average processing times and target times 2003-04 to 2007-08

Days

Reporting year	*Average processing time*	*Target time*
2003-04	11.1	12.0
2004-05	12.1	12.0
2005-06	14.5	12.0
2006-07	14.3	12.0
2007-08	10.6	12.0

Jobseekers Allowance: Internet

David Taylor: To ask the Secretary of State for Work and Pensions how many applications for jobseekers allowance were made using the on line application form in each of the last five years. [200583]

Mr. Timms *[holding answer 23 April 2008]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 25 April 2008:

The Secretary of State has asked me to reply to your question about the number of on-line applications made for jobseekers allowance. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

E-claims are the online application forms used for customers to register an intent to claim working age benefits.

The e-service was introduced in the 2006/07 operational year. We do not currently hold data breaking down e-claim applications by benefit type. The available information set out in the table below details the total volume of e-claim applications received in Jobcentre Plus.

	Volume of E-claims received
2007/08	163,402
2006/07	34,848

David Taylor: To ask the Secretary of State for Work and Pensions what his most recent assessment is of the efficiency of the on line application option for jobseekers allowance; and with what regularity such assessments are made. [200584]

Mr. Timms *[holding answer 23 April 2008]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 25 April 2008:

The Secretary of State has asked me to reply to your question about his most recent assessment of the efficiency of the on-line application option for jobseeker's allowance; and the regularity with which such assessments are made. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Enabling customers to initiate their claim for Jobseekers Allowance online offers customers the choice of channel and the opportunity to access the service at a time that suits them. The development of self service channels also allows Jobcentre Plus to focus our more resource-intensive face to face activity on customers who need more help.

Currently the online service allows customers to register their intention to claim, to which we respond with a telephone call to the customer to take full claim details. We have undertaken a technical review to investigate how we can improve the service, which will complement the longer term strategy of allowing customers to submit full claim details over the internet.

Over the next three years we will be developing further self service telephony and internet options, informed by better customer insight to ensure that they are easy and convenient for customers to use.

Maternity Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions what the take-up rate of maternity allowance was in each year since it was introduced. [200577]

Mrs. McGuire: The information is not available.

New Deal Schemes

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many of those completing participation in the *(a)* New Deal for Young People, *(b)* New Deal 25 Plus, *(c)* New Deal 50 Plus, *(d)* New Deal for Lone Parents, *(e)* New Deal for Disabled People and *(f)* New Deal for Partners were doing so for the (i) first, (ii) second, (iii) third, (iv) fourth and (v) fifth or more times in each month since each such programme was established. [190581]

Mr. Timms *[holding answer 29 February 2008]:* Participants on New Deal for Young People and New Deal 25 plus who are claiming jobseeker's allowance (JSA) are expected to follow a structured routeway through New Deal which they are expected to follow. However, people can leave JSA and thus leave New Deal at any point and there is no strict definition of "completing" these programmes. People on the four voluntary New Deals can leave them at any point and there is also no definition of completing these programmes.

New Deal repeaters are more likely to enter employment from their second spell on the programme than their first, and from their third spell than their second. Each period on New Deal moves participants closer to the labour market.

The available information on the number of people who have started each New Deal, and the number of times they have started, has been placed in the Library.

Osteopathy

Kelvin Hopkins: To ask the Secretary of State for Work and Pensions if he will bring forward proposals to encourage the use of osteopathy to assist people in becoming fit to work. [199824]

Mrs. McGuire: We recognise that osteopathy has the potential to contribute to our welfare reform agenda, in particular by helping incapacity benefit claimants suffering from musculoskeletal disorders to manage or overcome their conditions. However, we currently have no plans to develop specific proposals on the use of osteopathy.

Following receipt of Dame Carol Black's review, "Working for a healthier tomorrow", the Government are currently considering what they need to do more widely to improve the health of the working age population and help more people with health conditions manage their condition and retain or move into work. A formal response to this review is planned for later in the year.

Remploy

Mr. Harper: To ask the Secretary of State for Work and Pensions how many *(a)* disabled and *(b)* non-disabled employees of closed Remploy factories have (i) been placed in sheltered employment, (ii) been placed in mainstream employment, (iii) taken voluntary redundancy pay and (iv) taken compulsory redundancy pay. [198242]

Mrs. McGuire: At 10 April 2008, nine disabled employees of Remploy have been placed in sheltered employment. 185 disabled employees have opted to stay on Remploy terms and conditions in mainstream employment. To date 11 disabled employees have been placed into permanent work, 33 disabled employees have been placed into work trials which should lead to a permanent job and six disabled employees are currently in training. Remploy is working actively with the other employees to assist them into mainstream employment.

349 disabled employees opted for early retirement with voluntary redundancy. 630 disabled employees took voluntary redundancy, but were too young to retire. Around 104 of these have already found new jobs in mainstream employment. There were no compulsory redundancies for disabled people as part of the modernisation programme.

No non disabled employees have been placed at a sheltered workshop or placed by Remploy into mainstream employment. 98 non disabled employees took compulsory redundancy. None took voluntary redundancy.

Remploy: Wisbech

Jon Trickett: To ask the Secretary of State for Work and Pensions when the decision to close the Wisbech Remploy factory was taken; who took the decision; what effect on his Department's expenditure there will be as a result of the closure; and what the estimated site value of the factory is. [194114]

Mrs. McGuire: All 11 employees and the Manager at the Wisbech Remploy factory volunteered for redundancy. In the absence of any quality work for the factory the company accepted the redundancy applications. Remploy advised stakeholders on 25 February that the Wisbech factory would close.

There will be no effect on the Department's planned expenditure of £555 million over the five years of the modernisation plan, as a result of the closure. The site has no commercial value to Remploy because it is on short term rental from the local council.

Social Security Benefits: Polygamy

Mrs. Gillan: To ask the Secretary of State for Work and Pensions how many individuals in recognised polygamous marriages were claiming state benefits in the latest period for which figures are available, broken down by type of benefit. [201696]

Mr. Plaskitt: The information is not recorded centrally and could be obtained only at disproportionate cost.

Unemployment

Danny Alexander: To ask the Secretary of State for Work and Pensions what proportion of children lived in workless households in each year since 2005. [200808]

Edward Miliband: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 April 2008:

As National Statistician, I have been asked to reply to your parliamentary question asking what proportion of children lived in workless households in each year since 2005. [200808]

Estimates are provided from the Labour Force Survey (LFS). There are currently no annual household datasets available, so the figures are given for the April-June quarter to be consistent with those published in the 'Work and worklessness among household First Release' (see web link

http://www.statistics.gov.uk/pdfdir/work0807.pdf).

The proportion of children in UK working-age workless households was 15.8 per cent. in 2005, 15.6 per cent. in 2006 and 15.9 per cent. in 2007.

The data on the proportion of children living in UK working-age workless households from 1997 can be found at the following we link

http://www.statistics.gov.uk/downloads/theme_labour/worklessness/Table_3i_Calendar_Qtrs.xls

The household datasets (like the main quarterly LFS microdatasets) are weighted to the population estimates published by ONS in February and March 2003. They do not incorporate the more recent population estimates used in the headline LFS series.

A workless household is defined as a household that includes at least one person of working-age (a woman aged 16 to 59 or a man aged 16 to 64) where no-one aged 16 or over is in employment.

The LFS is a sample survey covering over 52,000 households in the United Kingdom in each three month period. As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

JUSTICE

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Justice (1) what criminal offences have been created by primary legislation sponsored by his Department since July 2007; [198282]

(2) what criminal offences have been abolished by primary legislation sponsored by his Department since its creation. [198320]

Mr. Straw: The offences created, and the offences which have been repealed, in primary legislation sponsored by my Department, are contained in the following table. This includes the offences in Part 2 of the Serious Crime Act, although the legislation as a whole was sponsored by the Home Office. Some of the legislation is not yet in force. There is some additional information about offences, which due to an oversight, was not included in my answer to the right hon. Member for Haltemprice and Howden (David Davis) on 10 March 2008, *Official Report*, columns 163-65W. I am writing to the right hon. Member about this.

Act of Parliament	*Date of Royal Assent*	*Offence(s) created*	*Offences repealed*
Corporate Manslaughter and Corporate Homicide Act 2007	26 July 2007	Manslaughter by an organisation caused by gross failure of the organisation's management or organisation	The common law offence of manslaughter by gross negligence in its application to corporations

Act of Parliament	*Date of Royal Assent*	*Offence(s) created*	*Offences repealed*
Legal Services Act 2007	30 October 2007	Carrying on a reserved legal activity if not entitled, or through a person not entitled; Pretending to be entitled to carry out a reserved legal activity; Pretending to be a Barrister; Failing to identify a non-authorised person in a licence application or when that information becomes available; notifying anon-authorised person of the disclosure; Knowingly providing false information or documents to a licensing authority; Breaching duty of notification to a licensing authority; Failing to comply with a Notice Prohibiting Payment; Failing to comply with a notice to produce or deliver documents; Falsifying, Concealing destroying or disposing of documents or causing that offence; Knowingly or recklessly providing false or misleading information; Failing to comply with an Order made by the Solicitors Disciplinary Tribunal.	Doing any act in the purported exercise of any right granted to an authorised practitioner when not an authorised practitioner; Unauthorised person acting as a notary for gain; Unqualified person drawing or preparing any instrument relating to real or personal estate or lodging any document for land registration; Unqualified person drawing up instruments or taking instructions for grant of probate or administration for a fee; Commencing a prosecution or defending an action for bankruptcy while in jail; Contravening rules about qualification of partnerships and bodies corporate; Intentionally altering, suppressing or destroying documents required by the OFT; Breaching conditions of control or publicity within the Trade Marks Act 1994.
Offender Management Act 2007	26 July 2007	Modified offences of conveying prohibited articles into or out of prison. Created offences of the unauthorised use of certain articles in prison, and of conveying restricted documents out of prison.	
Serious Crime Act 2 07 (Home Office sponsored Act but Ministry of Justice sponsorship for Part 2)	30 October 2007	Offences of assisting and encouraging crime to modernise and reform the law in this area.	Offence of incitement to commit criminal offence.
Tribunals, Courts and Enforcement Act 2007	19 July 2007	Unauthorised use or disclosure of debtor information; Purporting to act as an enforcement agent without being authorised; Intentionally obstructing a person lawfully acting as an enforcement agent; Intentionally interfering with controlled goods without lawful excuse.	

Driving Under Influence: Drugs or Alcohol

Mr. Hoyle: To ask the Secretary of State for Justice (1) how many people were convicted of driving while impaired through drugs or other substances, excluding alcohol, in *(a)* Chorley borough and *(b)* Lancashire in 2006-07; [200431]

(2) how many people were convicted of driving while impaired through alcohol in *(a)* Chorley Borough and *(b)* Lancashire in 2006-07. [200432]

Maria Eagle: Within the Lancashire police force area in 2005 (latest available) there were 2,723 findings of guilt at all courts for offences of driving etc. after consuming alcohol or taking drugs. 2006 data will be available later this year; 2007 in 2009.

The figure provided covers both drink and drugs offences combined, as volumes of prosecutions and convictions for driving under the influence of alcohol or drugs cannot be accurately established.

Information is available at police force area level only.

Drugs: Sentencing

David Davis: To ask the Secretary of State for Justice pursuant to the answer of 1 April 2008, *Official Report*, columns 890-2W, on drugs, what the average custodial sentence given to those convicted of dealing *(a)* heroin, *(b)* cocaine, *(c)* LSD, *(d)* ecstasy and *(e)* cannabis was in each of the last five years. [200628]

Mr. Straw: The requested information is contained in the following table:

Average determinate custodial sentence length[1] for persons sentenced to immediate custody for supplying a controlled drug, all courts, England and Wales, 2002 to 2006 England and Wales

	Average custodial sentence length (months)				
Controlled drugs	*2002*	*2003*	*2004*	*2005*	*2006*
Heroin	41.1	39.4	40.2	36.4	36.6
Cocaine	43.1	44.1	43.6	41.5	38.3
LSD	28.0	29.2	30.5	39.6	44.8
Ecstasy	30.7	31.2	30.9	29.2	29.0

Average determinate custodial sentence length[1] for persons sentenced to immediate custody for supplying a controlled drug, all courts, England and Wales, 2002 to 2006, England and Wales

	Average custodial sentence length (months)				
Controlled drugs	*2002*	*2003*	*2004*	*2005*	*2006*
Cannabis[2]	16.5	14.8	8.0	11.4	13.8

[1] Excludes life and indeterminate sentences.
[2] In January 2004 Cannabis was reclassified from a Class B to a Class C drug.

Notes

1. All figures are for the offences of supplying or offering to supply a controlled drug and for having possession of a controlled drug with intent to supply.
2. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source

Analytical Services, Ministry of Justice 22 April 2008

Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for Justice whether his Department provides health or social care services out of public funds, with reference to the Statement by the Minister of State, Department of Health, in the Health and Social Care Bill Committee, of 17 January 2008, *Official Report*, column 327. [200221]

Maria Eagle: The Ministry of Justice does not provide any such services directly. However, contracted prisons are provided with a single contract price to provide all the services specified in their contract. This includes health services. Similarly, it is a requirement in contracts with providers of secure training centres and places in secure children's homes that these providers commission health services.

High Court: Birmingham

Richard Burden: To ask the Secretary of State for Justice how many High Court Judge sitting days there were in Birmingham for (*a*) criminal cases, (*b*) the Family Division, (*c*) the Chancery Division, (*d*) the Mercantile Court, (*e*) the Technology and Construction Court and (*f*) the other areas of the Queen's Bench Division in each of the last four years. [200348]

Maria Eagle: Figures for the number of High Court judge sittings in Birmingham for the last four years are shown in the following table:

	2004-05	*2005-06*	*2006-07*	*2007-08*
Crime	352	397	375	474
Family	168	180	211	215.5
Chancery and Mercantile	318	406	385.75	376
Technology and Construction	179	167.5	171.5	187.5
Other Queen's Bench	426	386.5	467	445.5
Total	1,443	1,537	1610.25	1698.5

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Justice when he plans to answer the letter to him dated 7 March 2008 from the right hon. Member for Manchester, Gorton on Mr. D. Carroll. [201121]

Mr. Straw: I replied to the right hon. Member on 22 April. I apologise for the delay.

Sir Michael Spicer: To ask the Secretary of State for Justice (1) when the Parliamentary Under-Secretary of State will reply to the letter from the hon. Member for West Worcestershire, dated 4 March 2008, on the transcript of an appeal proceeding (reference: 192972/43442); [201509]

(2) when he will reply to the letter from the hon. Member for West Worcestershire of 29 February 2008, transferred from the Attorney-General, on Jewish courts; [201512]

(3) when he will reply to the letter from the hon. Member for West Worcestershire of 6 March 2008, on the Electoral Reform Campaign (reference: 193307). [201513]

Bridget Prentice: The Under-Secretary, my hon. Friend the Member for Liverpool, Garston (Maria Eagle) replied on 22 April to the hon. Member's letter of 4 March, and the Minister of State, my hon. Friend the Member for North Swindon (Mr. Wills) replied on 17 April to the hon. Member's letter of 6 March. I replied on 22 April to the hon. Member's letter of 29 February. I apologise for the delay.

Powers of Attorney

Susan Kramer: To ask the Secretary of State for Justice how many times the Court of Protection suspended an individual's power of attorney over another in each year for which figures are available. [201288]

Bridget Prentice: Prior to October 2007 and the introduction of the Mental Capacity Act 2005, the Court of Protection could rule on whether the existing registration of an Enduring Power of Attorney (EPA) was to be cancelled, or whether an objection to the registration of a currently unregistered EPA was to be upheld and the instrument not registered.

Since October 2007, the Public Guardian is responsible for registering both the old EPAs and the new Lasting Powers of Attorney (LPA) that came into force with the new Act. The court, on an application, can still similarly direct the cancellation of the registration of a power of attorney or direct the Public Guardian not to register a power.

Both prior to October 2007, and since the new regime came into force from October, the court has not recorded statistics relating to the cancellations of

existing registrations of either EPAs or LPAs and this information is therefore not readily available.

I have asked my officials to see whether it may be possible to extract some information in this area from the IT systems that record registrations of powers of attorney. It may be possible to provide further data on the number of powers that remain unregistered following an application to the Court of Protection objecting to the registration. I will write to the hon. member shortly with the results of this exercise.

Prison Service

Jenny Willott: To ask the Secretary of State for Justice how many prison officers left each prison due to (*a*) retirement, (*b*) resignation, (*c*) transfer to another prison and (*d*) other reasons in each year since 2001; and if he will make a statement. [199962]

Maria Eagle: Information on the total number of officer grade staff (*a*) retiring, (*b*) resigning (*c*) transferring and (*d*) leaving for other reasons, from all Prison Service establishments since 2001 are contained in the following tables. A breakdown for each prison has been placed in the Libraries of the House.

Prison officers, senior officers and principal officers leaving public sector establishments, 2001 to 2007

	2001	2002	2003	2004	2005	2006	2007
Retirements	494	415	428	399	374	334	287
Resignations	526	488	546	558	558	571	532
Transfer to other establishment	768	1,833	1,228	1,254	1,102	1,236	1,205
Other leavers	299	334	455	372	348	351	352

Prison custody officers leaving private sector establishments, 2001 to 2007 (partial data)[1]

	2001	2002	2003	2004	2005	2006	2007
Retirements	0	1	2	0	0	2	1
Resignations	75	62	131	225	377	344	316
Transfer to other establishment	11	8	7	1	4	8	9
Other leavers	18	3	17	51	80	78	46

[1]This table is said to contain partial data because information was not supplied by all contractors. The details of where data was not provided is contained in the individual tables available from House Libraries.

Prisoners

Jenny Willott: To ask the Secretary of State for Justice (1) at what average distance from their homes (*a*) all male offenders, (*b*) adult male offenders, (*c*) young adult male offenders and (*d*) juvenile male offenders were held in each of the last five years; and if he will make a statement; [199910]

(2) at what average distance from their homes (*a*) all female offenders, (b) adult female offenders, (*c*) young adult female offenders and (*d*) juvenile female offenders were held in each of the last five years; and if he will make a statement; [199911]

(3) how many (*a*) male offenders, (*b*) adult male offenders, (*c*) young adult male offenders and (*d*) juvenile male offenders were held over 100 miles away from their home in each of the last five years; and if he will make a statement; [199912]

(4) how many (*a*) all female offenders, (*b*) adult female offenders, (*c*) young adult female offenders and (*d*) juvenile female offenders were held over 100 miles away from their home in each of the last five years; and if he will make a statement. [199913]

Mr. Hanson: The following table shows the average distance from home for male and female prisoners (including young offenders for each gender) in each of the last five years.

Miles

	Male			*Female*		
	Average distance from home for all male prisoners	*Average distance from home for adult male prisoners*	*Average distance from home for male young offenders aged under 21*	*Average distance from home for all female prisoners*	*Average distance from home for adult female prisoners*	*Average distance from home for female young offenders aged under 21*
2003	52	52	48	68	69	65
2004	51	51	50	62	61	66
2005	49	49	50	58	55	56
2006	50	49	50	58	58	58
2007	49	50	50	55	59	54

The following table shows how many offenders were held over 100 miles away from their homes for male and female offenders (including young offenders for each gender) in each of the last five years.

Number

	Male			Female		
	All male prisoners held over 100 miles from home	Adult male prisoners held over 100 miles from home	Male young offenders held over 100 miles from home	All female prisoners held over 100 miles from home	Adult female prisoners held over 100 miles from home	Female young offenders aged under 21 held over 100 miles from home
2003	11,900	10,900	1,000	1,250	1,100	100
2004	10,150	9,200	950	1,083	900	100
2005	9,750	8,800	950	700	600	100
2006	11,150	10,000	1,150	850	800	50
2007	11,350	10,100	1,250	850	800	50

Figures for both tables are taken from sample data, not necessarily in the same month each year. These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing. For data relating to offenders held over 100 miles from home, the data have been rounded.

Where no home address is listed for a male or female prisoner or young offender the committal court is used as a proxy address for their home.

The definitions for young offenders and juvenile offenders have changed within the last five years and so these have been grouped together to include all offenders under 21 years old.

Prisoners: Females

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of female offenders were placed in prison on remand in (*a*) each of the last 10 years and (*b*) in 2008 to date; and if he will make a statement. [199907]

Maria Eagle: Data showing the number of females received into prison establishments on remand for the years 1997 to 2006 (latest available) can be found in table 1. These data are taken from the Offender Management Caseload Statistics.

It is not possible to provide information on the proportion of female offenders who are remanded in custody, as data on the number of female offenders come from a separate system, the Court Proceedings Database, and therefore are not comparable with the prison receptions data. However, the number of females found guilty at all courts for 1997 to 2006 (latest available), on a principal offence basis, is given in table 2. Data for 2008 are not yet available.

Table 1: Number of females received into prison establishments on remand: 1997 to 2006, England and Wales

Number of females

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
Prisoners on remand	5,124	6,258	6,721	6,584	7,191	8,690	9,032	7,978	7,660	7,498
Untried[1]	3,974	4,540	4,587	4,026	4,122	4,954	5,238	4,726	5,173	5,361
Convicted unsentenced[2]	2,436	3,442	3,935	3,793	4,349	5,450	5,659	4,860	4,634	4,327

[1] Awaiting commencement or continuation of trial prior to verdict.
[2] Awaiting sentence.

Note:
Data Sources and Quality: These figures have been drawn from administrative IT systems. Care is taken when processing and analysing the returns, but the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so although shown to the last individual, the figures may not be accurate to that level.

Source:
Offender Management Caseload Statistics.

Table 2: Number of females found guilty at all courts, 1997 to 2006, England and Wales

Number of females

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
Convictions	217,137	235,578	219,980	256,018	237,622	258,756	260,672	279,583	282,732	277,629

[1] These data are on the principal offence basis. When a defendant has been found guilty of two or more offences at the same court proceeding, they have only been counted once in this table.

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Court Proceedings Database

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of women released from prison were reconvicted within two years in each of the last five years, broken down by the length of the original sentence; and if he will make a statement. [199908]

Maria Eagle: The number of female offenders and the actual two-year rate of re-offending for females released from prison between 2000 and 2004 is show in the following table.

	Total number of females discharged from prison	Actual rate of re-offending (percentage)	Number of female re-offenders
2000	1,259	58.2	733
2001	[1]	[1]	[1]
2002	1,222	64.6	789
2003	1,199	63.4	760
2004	1,408	64.3	906

[1] No data available

We do not publish this data broken down by length of original sentence.

For each year, statistical records on individual prison discharges and community sentence starts are matched to the Police National Computer to extract criminal history and re-offending information used to produce the published re-offending figures which cover probation and prison combined. The 2001 re-offending results are not available, because the probation data archive file for that year is corrupt and we have not matched prison discharges alone as re-offending figures for the combined dataset are the main performance measure used.

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of women prisoners had dependent children in the latest period for which figures are available; and if he will make a statement. [200113]

Maria Eagle: The National Offender Management Service does not routinely keep information on the number of prisoners that have dependent children. However, the 2003-04 resettlement survey commissioned by the then Prison Service Custody to Work Unit showed that half of all female prisoners had dependent children (including stepchildren), and that 46 per cent. of those women had lived with at least one dependent child before custody.

Prisoners: Training

Jenny Willott: To ask the Secretary of State for Justice how many hours a week of vocational training was provided on average to prisoners and juvenile offenders in each of the last five years, broken down by region; and if he will make a statement. [199935]

Maria Eagle: Vocational training data are included within the data collated for purposeful activity and are collated at the level of prison establishment. The following tables show the average number of hours of vocational training per week in prisons which predominately hold non juvenile prisoners and prisons which predominately hold juvenile prisoners in each of the last five full financial years.

Average number of vocational training hours per week for prisoners in non juvenile prisons

Operational area	2002-03	2003-04	2004-05	2005-06	2006-07
East Midlands	4.4	4.8	4.3	4.3	5.5
Eastern	3.0	3.1	3.3	3.6	3.8

Yorkshire and Humberside	3.4	3.2	2.8	4.1	3.6

[1] No data available

Prisons: Capacity

Jenny Willott: To ask the Secretary of State for Justice (1) on how many occasions the prison population exceeded its operational capacity in each of the last five years, broken down by prison; and if he will make a statement; [199932]

(2) how many days the prison service operated with a prison population above its operational capacity in 2007-08, broken down by prison; and if he will make a statement. [199958]

Mr. Straw: Every Friday the Ministry of Justice publishes figures for the overall prison population and useable operational capacity in England and Wales.

Prison population exceeded useable operational capacity on only two occasions in the last five years. The first time was on Friday 22 February 2008. It exceeded it again on Friday 29 February 2008.

Individual establishments have an operational capacity set by the Prison Service Area Manager (or Regional Offender Manager in the case of a contracted prison) taking into account control, security and the proper operation of the planned regime. The information requested about establishments exceeding their operational capacity cannot be provided without incurring disproportionate cost. However, prison instructions are clear that operational capacity is not to be exceeded other than on an exceptional basis to accommodate pressing operational need.

Prisons: Construction

Jenny Willott: To ask the Secretary of State for Justice how many new prison places were built in each of the last 10 years; at what average cost in each year; and if he will make a statement. [199934]

Mr. Hanson: The following table shows the number of new public and private prison places built in each of the last 10 financial years and the average capital building cost per place, including ancillary costs.

Financial year	Number of new prison places[1]	Average capital building cost per place[2] £
1998-99	1,222	67,000
1999-2000	1,646	65,000
2000-01	640	61,000
2001-02	920	79,000
2002-03	1,780	57,000
2003-04	1,376	77,000
2004-05	2,570	100,000
2005-06	940	119,000
2006-07	180	150,000
2007-08	2,111	[3]153,000

[1] The number of new places includes places in new prisons as well as places provided by expansion at existing prisons. It does not take into account any places provided through prisoners sharing cells, nor any places that have been taken out of use.
[2] The costs shown only cover the capital building costs of each new place. No adjustment has been made for inflation. Variations between sites and across the period may reflect a number of factors including for example the inclusion of ancillary work and the category of prison.
[3] Estimated cost.

Probation Officers

Jenny Willott: To ask the Secretary of State for Justice how many probation officers left each area probation service *(a)* upon retirement, *(b)* upon resignation, *(c)* upon transfer to another probation service and *(d)* for other reasons in each year since 2001; and if he will make a statement. [199956]

Maria Eagle: Information for the full period requested is not available. Data collected before 2006 were not broken down into the categories required to answer this question and is therefore not directly comparable with the figures collected since then. The following table details the number of staff in probation officer roles leaving their posts during 2006-07 by area and their leaving destinations.

Leaving destination: Probation officers[1] financial year 2006-07

Probation area	Transferred to another probation area[2]	Other employment	No other employment	Retirement[3]	Other[4]	Unknown	Total
Avon and Somerset	7.00	1.20	0.00	1.80	0.00	11.00	21.00

Leaving destination - Probation officers[1] financial year 2006-07[2]

Probation area	Transferred to another probation area[3]	Other employment	No other employment	Retirement[4]	Other[5]	Unknown	Total
West Yorkshire	0.00	5.00	0.00	4.00	2.00	29.00	40.00
Wiltshire	4.00	6.00	3.00	0.00	1.80	1.00	15.80

[1] Includes senior practitioners, probation officers, trainee probation officers, senior probation officers and practice development assessors.
[2] Figures provided are full time equivalent (FTE)
[3] Does not include those transferring within the same area, as this information is not collected
[4] Includes those retiring on ill-health grounds
[5] Includes those leaving as a result of dismissal, those leaving for education/training purposes and death in service

Witness Service: Vetting

Mr. Todd: To ask the Secretary of State for Justice if he will review the adequacy of the security checks which members of the Witness Service are obliged to undergo on entering court buildings; and if he will make a statement. [200672]

Maria Eagle: The volunteers of the Witness Service are subject to the same security checks as all other court users when entering court buildings.

The search regime is applied uniformly in order to avoid the vulnerabilities created by applying different measures to different groups.

Young Offenders

Nick Herbert: To ask the Secretary of State for Justice how many persistent young offenders were sentenced in courts in each criminal justice area in *(a)* 1997 and *(b)* 2007; [200139]

Mr. Burrowes: To ask the Secretary of State for Justice how many persistent young offenders were sentenced in courts in each criminal justice area in *(a)* 1997 and *(b)* 2007. [200209]

Mr. Straw: A persistent young offender is a young person aged 10-17 who has been sentenced by any criminal court in the UK on three or more separate occasions for one or more recordable offence, and within three years of the last sentencing occasion is subsequently arrested or has an information laid against them for a further recordable offence.

Overall timeliness statistics and caseloads counts on Persistent Young Offenders (PYOs) are available from 1997 to 2007. These statistics are used to monitor the pledge to halve the average time from arrest to sentence for dealing with PYOs in England and Wales from 142 days in 1996 to 71 days.

Counts of offenders split by the Criminal Justice System (CIS) areas of the sentencing court are not readily available. Instead; the following table presents figures split by the CIS areas where offenders were first arrested or reported. This is because local area figures are most accurately derived from the Police National Computer on this basis.

The following table shows the number of PYOs assigned to the police forces in 1997 and 2007. The increase in the number of PYO convictions is broadly consistent with the increase we have seen in recent years in the number of all offences brought to justice. In the year to September 2007 there were 1.44 million offences brought to justice—an increase of 44 per cent. on 2001-02. This reflects improvements in the performance of the CJS, rather than an increase in the level of crime. Recorded crime has been falling since 2003-04. The increase in those meeting the PYO definition is partly a consequence of improvements in the timeliness of dealing with such offenders.

The definition of a PYO relies on counting successive sentencing occasions for a single offender during a limited time period. Speedier operation of the youth justice system has markedly reduced the average time taken from arrest to sentence, and as a result the number of offenders who fall within scope of the PYO definition has increased. This was a particular issue from 1997 to 2002, the period during which these timeliness improvements were taking effect.

Statistics on persistent young offenders (PYOs) by criminal justice areas, 1997-2007

	Number of PYOs		Arrest to sentence interval (days)	
	1997	2007	1997	2007
England and Wales	9,868	16,512	141	65

West Midlands	762	808	141	60
West Yorkshire	542	904	149	62
Wiltshire	71	131	122	76

The Ministry of Justice (MOJ) publishes the data in the above table as National Statistics. Further information on persistent young offenders can be found on the dedicated page of the MOJ website:

www.justice.gov.uk/publications/averagetimearresttosentencepyo.htm

Young Offenders: Custodial Treatment

Mr. Burrowes: To ask the Secretary of State for Justice how many children assessed as vulnerable by the Youth Justice Board were in *(a)* young offender institutions and *(b)* secure training centres at the latest date for which figures are available. [201649]

Mr. Hanson: Youth Offending Teams' assessments no longer make a simple distinction between "vulnerable" and "not vulnerable". The Youth Justice Board found that these terms were too general to provide a sound basis for decision-making. Instead, risk factors such as previous self-harm, mental health or drug dependency issues are recorded. This information is used by the Board's Placement Team to decide on the most appropriate type of accommodation for the young person in question.

Mr. Burrowes: To ask the Secretary of State for Justice how many of those in custody *(a)* between 10 and 13 years old, *(b)* between 14 and 16 years old and *(c)* aged 17 or 18 years old were being held (i) less than 30, (ii) between 31 and 50, (iii) between 51 and 100 and (iv) more than 100 miles from home at the latest date for which figures are available. [201650]

Mr. Hanson: The following table gives the available information, supplied by the Youth Justice Board, about distance from home of young people in custody, as at 29 February 2008. Details of home addresses are held for 92 per cent. of the under-18 custodial population: information about the remaining 8 per cent. is not available. Address information for 18-year-olds is not collated centrally.

Age group	Less than 30 miles	31 to 50 miles	51 to 100 miles	More than 100 miles
10-13	11	3	13	4
14-16	477	341	327	132
17	528	388	307	131

Young Offenders: Greater London

Nick Herbert: To ask the Secretary of State for Justice how many offenders in Greater London aged 10 to 17 years were sentenced for *(a)* robbery and *(b)* violence against the person in (i) 1997 and (ii) 2007. [200137]

Mr. Burrowes: To ask the Secretary of State for Justice how many offenders in Greater London aged 10 to 17 years were sentenced for *(a)* robbery and *(b)* violence against the person in (i) 1997 and (ii) 2007. [200207]

Mr. Straw: The available information is contained in the table. The data are for 1997 and 2006, the latest year for which annual published statistics are available.

Statistics for 2007 will be published in the autumn.

Number of persons aged 10 to 17 sentenced[1] in Greater London, all courts, 1997, 2006

Offence group	Number of persons 1997	2006
Greater London[2]		
Robbery	676	1,544
Violence against the person	752	1,093

[1] Principal offence basis.
[2] Includes Metropolitan and City of London Police Force Areas.

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

RDS-NOMS, Ministry of Justice

Nick Herbert: To ask the Secretary of State for Justice how many persistent young offenders were sentenced in courts in Greater London in each year since 1997. [200138]

Mr. Burrowes: To ask the Secretary of State for Justice how many persistent young offenders were sentenced in courts in Greater London in each year since 1997. [200208]

Mr. Straw: A persistent young offender is a young person aged 10 to 17 who has been sentenced by any criminal court in the UK on three or more separate occasions for one or more recordable offence, and within three years of the last sentencing occasion is subsequently arrested or has an information laid against them for a further recordable offence.

Overall timeliness statistics and caseloads counts on Persistent Young Offenders (PYOs) are available from 1997 to 2007. These statistics are used to monitor the pledge to halve the average time from arrest to sentence for dealing with PYOs in England and Wales from 142 days in 1996 to 71 days.

Counts of offenders split by the Criminal Justice System (CIS) areas of the sentencing court are not readily available. Instead, the table presents figures for offenders first arrested or reported in the Metropolitan police area. This is because local area figures are most accurately derived from the Police National Computer on this basis.

The table shows the number of PYOs assigned to the Metropolitan police force in each year since 1997. The increase in the number of PYO convictions is broadly consistent with the increase we have seen in recent years in the number of all offences brought to justice. In the year to September 2007 there were 1.44 million offences brought to justice—an increase of 44 per cent. on 2001-02. This reflects improvements in the performance of the CJS, rather than an increase in the level of crime. Recorded crime has been falling since 2003-04. The increase in those meeting the PYO definition is partly a consequence of improvements in the timeliness of dealing with such offenders.

The definition of a PYO relies on counting successive sentencing occasions for a single offender during a limited time period. Speedier operation of the youth justice system has markedly reduced the average time taken from arrest to sentence, and as a result the number of offenders who fall within scope of the PYO definition has increased at national level. This was a particular issue from 1997 to 2002, the period during which these timeliness improvements were taking effect.

Key statistics on persistent young offenders (PYOs) in the Metropolitan police force area, 1997-2007

	Number of PYOs	*Arrest to sentence interval (days)*
1997	864	141
1998	1,003	125
1999	1,091	108
2000	1,100	93
2001	1,297	100
2002	1,325	83
2003	1,251	77
2004	1,324	85
2005	1,329	86
2006	1,486	85
2007	1,769	70

The Ministry of Justice (MOJ) publishes the data in the above table as National Statistics. Further information on persistent young offenders can be found on the dedicated page of the Ministry of Justice website:

www.justice.gov.uk/publications/averagetimearresttosentencepyo.htm

HEALTH

Abortion: Drugs

Jim Dobbin: To ask the Secretary of State for Health pursuant to the answer of 20 March 2008, *Official Report*, column 1312, how many deaths attributed to adverse reactions to RU486 other than those reported to the Medicines and Healthcare Products Regulatory Agency there have been since 1993. [200425]

Dawn Primarolo: I refer the hon. Member to my previous answer of 20 March 2008, *Official Report*, column 1312.

Alcoholic Drinks: Counselling

Norman Lamb: To ask the Secretary of State for Health how many people were referred to alcohol counselling services in each of the last five years, broken down by *(a)* region, *(b)* sex and *(c)* those aged (i) under 10, (ii) 10 to 18 and (iii) over 18 years. [199942]

Dawn Primarolo: Data on the number of people referred to alcohol counselling services have not been collected centrally, however, the National Drug Treatment Monitoring System has been expanded to include a formal National Alcohol Treatment Monitoring System to collect alcohol treatment data, starting from 1 April 2008.

Drugs: Misuse

David Davis: To ask the Secretary of State for Health how many hospital admissions there were where the primary or secondary diagnosis was drug-related, in each of the last five years, broken down by age of patient. [196842]

Dawn Primarolo: The following table shows the number of finished admission episodes (FAEs) in which the primary or secondary diagnosis of the patient was drug[1] related broken down by age. 2006-07 is the latest period for which figures are available.

Year (of end of first period of care in patient's hospital stay)

Age	*2006-07*	*2005-06*	*2004-05*	*2003-04*	*2002-03*
Under 15	13,976	14,449	14,077	14,612	14,134
15 to 64	162,294	160,065	142,999	131,703	118,119
65+	38,804	37,130	34,002	32,238	28,556
Unknown	373	261	342	405	552

Notes:
FAEs:
A FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Data quality:
HES are compiled from data sent by over 300 national health service trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Assessing growth through time

HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.

Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.

All Diagnoses count of episodes—primary and secondary-drug related

These figures represent a count of all FAEs where the diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record.

The International Classification of Diseases (ICD)-10 codes used to identify a drug related diagnosis are as follows.

'A 'drug' can be defined, broadly speaking, as any substance that alters normal bodily function. Therefore, all codes relating to noxious substances and solvents have been included. It is not possible to identify in ICD-10 all diseases caused by drugs (legal or illegal) and there is no way to guarantee, that the admission was drug related. For example, a patient admitted for inguinal hernia surgery may also be dependent on a drug.

F11.- Mental and behavioural disorders due to use of opioids
F12.- Mental and behavioural disorders due to use of cannabinoids
F13.- Mental and behavioural disorders due to use of sedatives or hypnotics
F14.- Mental and behavioural disorders due to use of cocaine
F15.- Mental and behavioural disorders due to use of other stimulants, including caffeine
F16.- Mental and behavioural disorders due to use of hallucinogens
F18.- Mental and behavioural disorders due to use of volatile solvents
F19.- Mental and behavioural disorders due to multiple drug use and use of other psychoactive substances
F55.- Abuse of non-dependence-producing substances
K71.0 Toxic liver disease with cholestasis
K71.1 Toxic liver disease with hepatic necrosis
K71.2 Toxic liver disease with acute hepatitis
K71.3 Toxic liver disease with chronic persistent hepatitis
K71.4 Toxic liver disease with chronic lobular hepatitis
K71.5 Toxic liver disease with chronic active hepatitis
K71.6 Toxic liver disease with hepatitis, not elsewhere classified
K71.7 Toxic liver disease with fibrosis and cirrhosis of liver
K71.8 Toxic liver disease with other disorders of liver
K71.9 Toxic liver disease, unspecified
T36.- Poisoning by systemic antibiotics
T37.- Poisoning by other systemic anti-infectives and antiparasitics
T38.- Poisoning by hormones,and their synthetic substitutes and antagonists, not elsewhere classified
T39.- Poisoning by nonopioid analgesics, antipyretics and antirheumatics
T40.- Poisoning by narcotics and psychodysleptics [hallucinogens]
T41.- Poisoning by anaesthetics and therapeutic gases
T42.- Poisoning by antiepileptic, sedative-hypnotic and antiparkinsonism drugs
T43.- Poisoning by psychotropic drugs, not elsewhere classified
T44.- Poisoning by drugs primarily affecting the autonomic nervous system
T45.- Poisoning by primarily systemic and haematological agents, not elsewhere classified
T46.- Poisoning by agents primarily affecting the cardiovascular system
T47.- Poisoning by agents primarily affecting the gastrointestinal system
T48.- Poisoning by agents primarily acting on smooth and skeletal muscles and the respiratory system
T49.- Poisoning by topical agents primarily affecting skin and mucous membrane and by ophthalmological, otorhinolaryngological and dental drugs
T50.- Poisoning by diuretics and other and unspecified drugs, medicaments and biological substances
T52.- Toxic effect of organic solvents
T53.- Toxic effect of halogen derivatives of aliphatic and aromatic hydrocarbons
T54.- Toxic effect of corrosive substances
T55.- Toxic effect of soaps and detergents
T56.- Toxic effect of metals
T57.- Toxic effect of other inorganic substances
T58.- Toxic effect of carbon monoxide
T59.- Toxic effect of other gases, fumes and vapours
T60.- Toxic effect of pesticides
T61.- Toxic effect of noxious substances eaten as seafood
T62.- Toxic effect of other noxious substances eaten as food
T63.- Toxic effect of contact with venomous animals
T64.- Toxic effect of aflatoxin and other mycotoxin food contaminants
T65.- Toxic effect of other and unspecified substances
X40.- Accidental poisoning by and exposure to nonopioid analgesics, antipyretics and antirheumatics
X41.- Accidental poisoning by and exposure to antiepileptic, sedative-hypnotic, antiparkinsonism and psychotropic drugs, not elsewhere classified
X42.- Accidental poisoning by and exposure to narcotics and psychodysleptics [hallucinogens], not elsewhere classified
X43.- Accidental poisoning by and exposure to other drugs acting on the autonomic nervous system
X44.- Accidental poisoning by and exposure to other and unspecified drugs, medicaments and biological substances
X46.- Accidental poisoning by and exposure to organic solvents and halogenated hydrocarbons and their vapours
X47.- Accidental poisoning by and exposure to other gases and vapours
X48.- Accidental poisoning by and exposure to pesticides
X49.- Accidental poisoning by and exposure to other and unspecified chemicals and noxious substances
X60.- Intentional self-poisoning by and exposure to nonopioid analgesics, antipyretics and antirheumatics
X61.- Intentional self-poisoning by and exposure to antiepileptic, sedative-hypnotic, antiparkinsonism and psychotropic drugs, not elsewhere classified
X62.- Intentional self-poisoning by and exposure to narcotics and psychodysleptics [hallucinogens], not elsewhere classified
X63.- Intentional self-poisoning by and exposure to other drugs acting on the autonomic nervous system
X64.- Intentional self-poisoning by and exposure to other and unspecified drugs, medicaments and biological substances
X66.- Intentional self-poisoning by and exposure to organic solvents and halogenated hydrocarbons and their vapours
X67.- Intentional self-poisoning by and exposure to other gases and vapours
X68.- Intentional self-poisoning by and exposure to pesticides
X69.- Intentional self-poisoning by and exposure to other and unspecified chemicals and noxious substances
Y40.- Systemic antibiotics
Y41.- Other systemic anti-infectives and antiparasitics
Y42.- Hormones and their synthetic substitutes and antagonists, not elsewhere classified
Y43.- Primarily systemic agents
Y44.- Agents primarily affecting blood constituents
Y45.- Analgesics, antipyretics and anti-inflammatory drugs
Y46.- Antiepileptic and antiparkinsonism drugs
Y47.- Sedatives, hypnotics and antianxiety drugs
Y48.- Anaesthetics and therapeutic gases
Y49.- Psychotropic drugs, not elsewhere classified
Y50.- Central nervous system stimulants, not elsewhere classified
Y51.- Drugs primarily affecting the autonomic nervous system

Y52 - Agents primarily affecting the cardiovascular system
Y53 - Agents primarily affecting the gastrointestinal system
Y54 - Agents primarily affecting water-balance and mineral and uric acid metabolism
Y55 - Agents primarily acting on smooth and skeletal muscles and the respiratory system
Y56 - Topical agents primarily affecting skin and mucous membrane and ophthalmological, oforhinolaryngological and dental drugs
Y57 - Other and unspecified drugs and medicaments
Y58 - Bacterial vaccines
Y59 - Other and specified vaccines and biological substances
T80.0 Air embolism following infusion, transfusion and therapeutic injection
T80.1 Vascular complications following infusion, transfusion and therapeutic injection
T80.2 Infections following infusion, transfusion and therapeutic injection
T80.8 Other complications following infusion, transfusion and therapeutic injection
T80.9 Unspecified complication following infusion, transfusion and therapeutic injection
T88.0 Infection following immunization
T88.1 Other complications following immunization, not elsewhere classified
T88.2 Shock due to anaesthesia
T88.3 Malignant hyperthermia due to anaesthesia
T88.5 Other complications of anaesthesia
T88.6 Anaphylactic shock due to adverse-effect of correct drug or medicament properly administered
T88.7 Unspecified adverse effect of drug or medicament
Z71.5 Drug abuse counselling and surveillance
T96.X Sequelae of poisoning by drugs, medicaments and biological substances
T97.X Sequelae of toxic effects of substances chiefly nonmedicinal as to source

Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed)
Source:
Hospital Episode Statistics (HES), The Information Centre for health and social care

Food Standards Agency: Pensions

Danny Alexander: To ask the Secretary of State for Health what the cash equivalent transfer value is of the public sector pension of the Chief Executive of the Food Standards Agency. [198443]

Dawn Primarolo: The cash equivalent transfer value of the chief executive's public sector pension is reported in Remuneration Reports in the Food Standards Agency's (FSA) Resource Accounts. Copies of the resource accounts for the year ending 31 March 2007 are available in the Library and are also available on the FSA website at:

www.food.gov.uk/multimedia/pdfs/annualconsolidated0607.pdf

Injuries: Sports

Mr. Caborn: To ask the Secretary of State for Health if he will direct Hospital Episode Statistics to start collecting data on the number of people attending accident and emergency departments as a result of sport injuries. [200430]

Dawn Primarolo: Plans are already in place for the Information Centre for health and social care to make an accident and emergency dataset available within Hospital Episode Statistics, which will include some information around reason for attendance.

Malnutrition: Death

Mr. Burstow: To ask the Secretary of State for Health how many deaths from malnutrition occurred in *(a)* residences, *(b)* private care homes, *(c)* state care homes and *(d)* hospitals in London in each of the last 10 years; and if he will make a statement. [200367]

Edward Miliband: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician, I have been asked to reply to your recent question asking how many deaths from malnutrition occurred in *(a)* residences, *(b)* private care homes, *(c)* state care homes and *(d)* hospitals in London in each of the last 10 years. (200367)

The attached table provides the numbers of deaths where malnutrition or effects of hunger were mentioned on the death certificate, for persons dying in *(a)* private residences, *(b)* private care homes, *(c)* state care homes *(d)* hospitals, or *(e)* in other places, in the London government office region, for the years 1997 to 2006 (the latest year available).

Table 1. Deaths from malnutrition and effects of hunger,[1] by place of death[2]. London government office region,[3] 1997-2006[4]

Deaths (persons)

Place of death	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
Private residences	5	6	5	4	3	1	6	1	2	5
Private care home	2	1	5	1	2	0	2	1	2	2
State care home	0	3	1	2	0	0	0	0	0	0
Hospital	22	27	27	22	18	21	19	14	11	17
Other	7	1	5	3	0	0	0	1	1	1

Table 1: Deaths from malnutrition and effects of hunger,[1] by place of death[2], London government office region,[3] 1997-2006[4]

Place of death	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
										Deaths (persons)
Total	36	38	43	32	23	22	27	17	16	25

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 260-269 (malnutrition) and E904.1 (effects of hunger) for the years 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes E40-E46 (malnutrition) and T73.0 (effects of hunger) for 2001 onwards. Deaths were included where one of these causes was mentioned anywhere on the death certificate. The introduction of ICD-10 in 2001 means that the numbers of deaths from each cause before 2001 are not completely comparable with later years.

[2] Deaths in private residences are those occurring at the usual residence of the deceased (according to the informant), where this is not a communal establishment. 'Private care home' includes non-NHS private nursing homes and private residential homes. 'State care home' includes NHS private nursing homes and local authority residential homes. 'Hospital' includes NHS and non-NHS hospitals, or multifunction sites. Deaths occurring in places not defined above, including hospices, are included in the 'other' category.

[3] Based on boundaries as of 2008.

[4] Figures are for deaths registered in each calendar year.

Multiple Births: Hampshire

Mrs. Maria Miller: To ask the Secretary of State for Health how many multiple births there were in (*a*) Basingstoke constituency and (*b*) Hampshire to mothers aged (i) below 18, (ii) between 18 and 24, (iii) between 25 and 29 and (iv) above 30 years, in each year since 1997. [200519]

Edward Miliband: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 April 2008:

As the National Statistician I have been asked to reply to your question about how many multiple births there have been in (a) Basingstoke and (b) Hampshire to mothers aged (i) below 18, (ii) between 18 and 24, (iii) between 25 and 29, (iv) above 30 years of age, in each year since 1997.

The latest year for which figures are available is 2006. The attached tables show the number of women experiencing a multiple maternity in Basingstoke and Deane local authority and Hampshire county, in each year from 1997 to 2006. A multiple maternity occurs when a woman gives birth to two or more children at the same time, including both live and stillborn children.

Due to very small numbers at ages below 18 and between 18 and 24 in Basingstoke and Deane, these two age groups have been combined with the age group 25 to 29 to preserve the confidentiality of individuals. For the same reason, ages below 18 and between 18 and 24 have been combined for Hampshire.

Number of multiple maternities in Basingstoke and Deane local authority and Hampshire county by age group for each year from 1997 to 2006

	Age of mother		
	Under 30	30 and over	All
Basingstoke and Deane local authority			
1997	12	19	31
1998	16	13	29
1999	13	13	26
2000	9	19	28
2001	7	13	20
2002	7	18	25
2003	6	16	22
2004	9	22	31
2005	10	28	38
2006	10	14	24

	Age of mother			
	Under 25	25 to 29	30 and over	All
Hampshire county				
1997	38	68	134	240
1998	21	65	107	193
1999	25	57	135	217
2000	22	43	143	208
2001	23	52	128	203
2002	19	28	117	164
2003	17	42	135	194
2004	31	28	139	198
2005	22	53	134	209
2006	27	47	135	209

Note:
A multiple maternity occurs when a woman gives birth to two or more children at the same time, including both live and stillborn children.

Peterborough and Stamford Hospitals NHS Foundation Trust

Mr. Stewart Jackson: To ask the Secretary of State for Health what the total cost of management consultancy to the Peterborough and Stamford Hospitals NHS Foundation Trust was arising from activities relating to the evaluation by Monitor of inpatient and outpatient waiting list non-compliance in each of the three quarters to 31 December 2007; and if he will make a statement. [201974]

Dawn Primarolo: This is a matter for the chair of Peterborough and Stamford Hospitals NHS Foundation Trust. We have written to Dr. Clive Morton informing him of the hon. Member's inquiry. He will reply shortly and a copy of the letter will be placed in the Library.

Prescriptions

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 13 December 2007, *Official Report*, column 662W, on prescriptions, (1) what progress the information centre has made in reviewing which data on prescribing should be made available in the future; when it anticipates making changes to the availability of data on prescribing; and if he will make a statement; [195238]

(2) what progress the Information Centre has made in reviewing which data on prescribing should be made available in the future; when it expects to make changes to the availability of data on prescribing; and if he will make a statement. [195335]

Dawn Primarolo: The Information Centre for health and social care agreed to produce a review document seeking to determine whether it will be possible to make practice level prescribing data more accessible to the private sector with due regard to appropriate legislation, current Departmental policy and the professional regulations of those involved in the supply of prescriptions.

This review is ongoing and there are currently no proposals for the release of practice level prescribing data or any anticipated dates for changes to the current position.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what representations *(a)* his Department and *(b)* his Department's arm's length bodies have received concerning possible (i) positive and (ii) negative effects which may result from the wider release of practice-level prescribing data, as stated in the NHS Information Centre's presentation to the Inaugural Supplier Forum of 7 November 2007; what the content of these representations was; from which organisations they were received; and if he will make a statement. [195269]

Dawn Primarolo: The Pharmaceutical Services Negotiating Committee and the Company Chemists Association have written to the Information Centre for health and social care expressing concern about the wider release of practice level prescribing data. These concerns are based on the potential release of personally sensitive or commercially sensitive data, and the potential for misinterpretation of the data if not put in an appropriate context.

The Information Centre for health and social care have agreed to produce a review document seeking to determine whether it will be possible to make practice level prescribing data more accessible. This review is ongoing and there are currently no proposals for the release of practice level prescribing data or any anticipated dates for changes to the current position.

Ministerial Corrections

Wednesday 26 March 2008

HEALTH

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health (1) pursuant to the answer of 21 January 2008, *Official Report*, column 1689W, on departmental public expenditure, what the cost was of writing-off date expired vaccines broken down by type of vaccine 2006-07; [184461]

(2) how many expired vaccines were written-off, broken down by type of vaccine. [184521]

[Official Report, 19 February 2008, Vol. 472, c. 666W.]

Letter from Dawn Primarolo:

An error has been identified in the written answer given to the hon. Member for South Cambridgeshire (Mr. Lansley) on 19 February 2008. The correct answer should have been:

Dawn Primarolo: In 2006-07 488,629 doses of vaccine in total were written off.

There were 488,457 doses of vaccine written off due to date expiring. They were:

243,000 doses of the Bacille Calmette Guerin (BCG) vaccine;

123,954 doses of the measles, mumps and rubella (MMR) vaccine;

71,568 doses of combined diphtheria, tetanus and pertussis (DTaP) vaccine;

49,799 doses of the combined diphtheria, tetanus, pertussis and haemophilus influenzae type b vaccine (DTwP/Hib); and

136 doses of tetanus and diphtheria (Td) vaccine.

This equates to £2,092,513. The cost breakdown cannot be given for individual vaccines as the cost per dose is commercially confidential information.

There were 172 doses of vaccine written off because they were damaged. They were:

70 doses of pneumococcal conjugate vaccine;

69 doses of diphtheria, tetanus, pertussis, inactivated polio and haemophilus influenzae type B, (DTaP/IPV+Hib) vaccine;

21 doses of meningococcal C vaccine; and

12 doses of the MMR vaccine.

The total value of the written-off stock due to date expiry and damage (£2,096,000) represents about 1 per cent, of the vaccine distributed in the United Kingdom in 2006-07.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 21 January 2008, *Official Report*, column 1689W, on departmental public expenditure, for what reason the expired vaccines were not used, broken down by type of vaccine. [188507]

[Official Report, 28 February 2008, Vol. 472, c. 1885W.]

Letter from Dawn Primarolo:

An error has been identified in the written answer given to the hon. Member for South Cambridgeshire (Mr. Lansley) on 28 February 2008. The correct answer should have been:

Dawn Primarolo: Changes in vaccination policy can result in changes to the vaccines offered in the routine childhood immunisation programme. While we aim to keep vaccine wastage to a minimum, such policy changes can lead to some vaccines being written off if they are no longer used in the routine programme.

The reasons why expired vaccines were not used are listed as follows:

Some BCG vaccine was written off following the change in BCG vaccination policy in 2005. The programme changed from a universal to targeted programme, leading to a reduction in demand.

In 2005 demand for MMR vaccine increased following the mumps outbreaks in older teenagers. For a short period, the suppliers could only provide additional supplies of MMR vaccine destined for other countries, and hence with different product labelling than UK stock. Even though the vaccine itself was identical to UK licensed product, the labelling difference meant that the vaccine was not licensed for use in the UK. Once further supplies of UK licensed vaccine were received, the unlicensed MMR vaccine was no longer used, leading to write off.

In 2004 vaccines containing live oral polio were removed from the childhood programme and replaced with three new combination vaccines containing an inactivated polio vaccine. This resulted in the combined diphtheria, tetanus, pertussis and haemophilus influenzae type b vaccine (DTwP/Hib); and the tetanus and diphtheria (Td) vaccine becoming redundant.

In 2003 a major Hib catch up campaign was launched using a single antigen Hib (haemophilus influenzae type B) vaccine. This vaccine is not used routinely in the childhood programme, and some stock left over from the Hib catch-up campaign date expired in 2006-07.

COMMUNITIES AND LOCAL GOVERNMENT

Ordnance Survey

Mr. Prisk: To ask the Secretary of State for Communities and Local Government (1) whether private companies were consulted on Ordnance Survey's draft revised Public Task before it was approved; [193729]

(2) whether the *(a)* GI Panel and *(b)* Association for Geographic Information were consulted on Ordnance Survey's draft revised Public Task before it was approved. [193730]

[Official Report, 19 March 2008, Vol. 473, c. 1212W.]

Letter from Iain Wright:

An error has been identified in the written answer given to the hon. Member for Hertford and Stortford (Mr. Prisk) on 19 March 2008. The correct answer should have been:

Mr. Iain Wright: In April 2007, Ministers from the Department asked Ordnance Survey and the Shareholder Executive to work together to prepare a more precise articulation of Ordnance Survey's Public Task, as set out in the Ordnance Survey Framework Document 2004. This work was undertaken between April and June 2007 in preparation for the publication of a revised Framework Document for Ordnance Survey.

As has been the case with the preparation of previous versions of the Ordnance Survey Framework Document, there were no external consultations on the Public Task.

which fundamentally articulates that defined in each successive Ordnance Survey Framework Document since 1990, but in a more precise and comprehensive way.

HOUSE OF COMMONS COMMISSION

Drinking Water

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission what recent consideration the House authorities have given to providing filtered tap watef as an alternative to bottled water in committee and meeting rooms; and what estimate has been made of the cost of providing *(a)* tap and *(b)* bottled water in these rooms in 2008-09. [194554]

[Official Report, 20 March 2008, Vol. 473, c. 1311-12W.]

Letter from Nick Harvey:

An error has been identified in the written answer given to the hon. Member for Lewes (Norman Baker) on 20 March 2008. The correct answer should have been:

Nick Harvey: The Administration Committee last considered the issue of the provision of drinking water in Committee and meeting rooms on 13 March 2007 and agreed to recommend that the current practice of supplying bottled mineral water to Committee rooms should continue. I understand that the Department of Facilities is re-examining the issue with the intention of providing further advice to the Administration Committee.

When the Administration Committee considered the provision of drinking water in 2007 the estimated annual cost of providing tap water in Committee and meeting rooms was between £47,000 and £56,000 depending on how the service was delivered. Part of the re-examination being carried out by the Department of Facilities focuses on how this cost can be reduced. The projected approximate cost of providing bottled water in Committee Rooms in 2007-08 is £10,000. Costs for 2008-09 should be broadly similar if there is no change to the current practice. Water is not routinely provided for other meetings except when ordered and paid for as part of a catering service. Data on separate purchases is not held in a consolidated form.

COMMUNITIES AND LOCAL GOVERNMENT

Regional Government: Ministers

Mrs. May: To ask the Secretary of State for Communities and Local Government if she will list the constituencies visited by the Minister for (*a*) the North East, (*b*) the North West, (*c*) Yorkshire and the Humber, (*d*) London, (*e*) the South East, (*f*) the South West, (*g*) the East Midlands, (*h*) the West Midlands and (*i*) the East of England in their capacity as regional ministers. [177442]

[Official Report, 21 January 2008, Vol. 470, c. 1533-36W.]

Letter from Hazel Blears:

An error has been identified in the written answer given to the right hon. Member for Maidenhead (Mrs. May) on 21 January 2008. The errors occur under the Minister for the South West and the correct list is as follows. We have written to the MP to advise him of this error and the correction.

(f) South West

Bournemouth East
Bournemouth West
Bristol NW
Bristol West
Cheltenham
Devon South West
Exeter
Gloucester
Plymouth Devonport
Poole
South East Cornwall
Swindon South
Taunton
Tewkesbury
Truro and St. Austell

CULTURE, MEDIA AND SPORT

National Lottery: Tamworth

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport which projects were awarded funding by the Big Lottery Fund in Tamworth constituency in each of the last five years. [193604]

[Official Report, 12 March 2008, Vol. 473, c. 395-96W.]

Letter from Gerry Sutcliffe:

Errors have been identified in the written answer given to the hon. Member for Tamworth (Mr. Jenkins) on 12 March 2008. The correct answer should have been:

Mr. Sutcliffe: I have been informed by the Big Lottery Fund that the following grants were awarded by the Fund (including its predecessors, the Community Fund and the New Opportunities Fund), in each of the last five completed financial years to the Tamworth Constituency.

Financial year 2002-03

	£

NORTHERN IRELAND

Alcoholic Drinks: Crime

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many persons were arrested for offences related to alcohol consumption in North Belfast District Command Unit in each of the last five years, broken down by *(a)* age and *(b)* sex. [194758]

[Official Report, 20 March 2008, Vol. 473, c. 1281-82W.]

Letter from Paul Goggins:

An error has been identified in the written answer given to the hon. Member for Belfast, North (Mr. Dodds) on 20 March 2008. In my original answer I explained that some of the information—the breakdown by age-could not be supplied within the time available and promised to write to you once it had been received. That information has now been received from the PSNI. However, they have also informed me that the original figures supplied in response to your question were incorrect. The correct answer should have been:

Paul Goggins: The following tables set out the correct figures of the total number of persons arrested for offences related to alcohol consumption in North Belfast District Command Unit, in each of the last five years broken down by age and gender.

2007-08[1]

Age group	*Female*	*Male*
0-20	15	104
20-30	18	110
30-40	20	65
40-50	14	51
Over 50	4	21
Total	71	351

[1] To 11 March 2008

2006-07

Age group	*Female*	*Male*
0-20	8	78
20-30	12	111
30-40	12	54
40-50	7	36
Over 50	2	15
Total	41	294

2005-06

Age group	*Female*	*Male*
0-20	14	114
20-30	17	116
30-40	22	86
40-50	12	47
Over 50	4	16
Total	69	379

2004-05

Age group	*Female*	*Male*
Under 20 years	17	120
20-30	17	133
30-40	24	79
40-50	17	54
Over 50	5	28
Total	80	414

2003-04

Age group	*Female*	*Male*
Under 20 years	22	116
20-30	23	144
30-40	24	91
40-50	20	86
Over 50	4	33
Total	93	470

TRANSPORT

Woodhead Tunnel and Cross-Pennine Rail Link

Tony Lloyd: To ask the Secretary of State for Transport (1) what assessment she has made of the feasibility of maintaining Woodhead tunnel fit for future rail operations should the National Grid lay electricity cables along it; [182501]

(2) what assessment she has made of the most viable option for a new cross-Pennine rail link. [182502]

[Official Report, 3 April 2008, Vol. 474, c. 1201W.]

Letter from Rosie Winterton:

An error has been identified in a written answer given to the hon. Member for Manchester, Central (Tony Lloyd) on 3 April 2008. The correct answer should have been:

Ms Rosie Winterton: The need for additional passenger capacity can best be met through the provision of longer trains and faster journey times on the Manchester to Leeds via Huddersfield route.

Should additional capacity be required across the Pennines at some future date, capacity enhancements on the three existing routes would be considered first. This is because they are more likely to offer value for money than the re-opening of a fourth route.

I shall be meeting with National Grid to confirm that we would wish to explore the option of continued inspection and maintenance of the Woodhead tunnels once National Grid have vacated them.

I intend to meet key stakeholders for their views on transport challenges across the Pennines and how this might tie in with the development of a longer term strategy.

COMMUNITIES AND LOCAL GOVERNMENT

Council Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the value of council tax receipts was in each Government office region in England in each year since 1997-98. [182084]

[Official Report, 28 January 2008, Vol. 471, c. 112W.]

Letter of correction from Mr. Dhanda:

An error has been identified in the written answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 28 January 2008. The answer should have been:

Mr. Dhanda: Details of the council tax collected in each Government Office Region in England in each year since 1997-98 are shown in the table below. The figures are shown in £ millions and are the amount collected within the year, irrespective of the year to which the money relates. The figures include both arrears received for previous years and prepayment of council tax for subsequent years but exclude amounts funded by council tax benefit.

										£ million

COMMUNITIES AND LOCAL GOVERNMENT

Playing Fields: Planning

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government (1) with reference to the answer of 17 July 2007, *Official Report*, column 226W, on playing fields: planning, for what reason the consultation paper on the review of statutory consultees was not published in 2007; when it was *(a)* commissioned and *(b)* originally due for publication; and when it is expected to be published; [194944]

(2) with reference to the answer of 17 July 2007, *Official Report*, column 226W, on playing fields: planning, how many members of staff in her Department are working on the consultation paper on the review of statutory consultees; [194943]

(3) what progress has been made in bringing forward the changes to the Town and Country Planning (General Development Procedure) Order 1995 announced in her Department's press release, "Planning to Safeguard Open Spaces and Playing Fields", of July 2002. [194925]

[Official Report, 26 March 2008, Vol. 474, c. 312W.]

Letter from Iain Wright:

An error has been identified in the written answer given to the hon. Member for Bath (Mr. Foster) on 26 March 2008. The answer should have been:

Mr. Iain Wright: We announced in the Planning white paper "Planning for Sustainable Communities" that we would review arrangements for statutory consultees on planning applications and would consult on proposals in due course. This work is being taken forward. Our aim is to publish a consultation paper shortly. Meanwhile, we are committed to reducing the threshold for statutory consultation on proposals for the development of playing fields from 0.4 ha to 0.2 ha and we will seek an opportunity to make the necessary amendment to the Town and Country Planning (General Development Procedure) Order 1995.
